25-8-307. Emergencies. Whenever the division determines, after investigation, that any person is discharging or causing to be discharged or is about to discharge into any state waters, directly or indirectly, any pollutant which in the opinion of the division constitutes a clear, present, and immediate danger to the health or livelihood of members of the public, the division shall issue its written order to said person that he must immediately cease or prevent the discharge of such pollutant into such waters and thereupon such person shall immediately discontinue such discharge. Concurrently with the issuance of such order, the division may seek a restraining order or injunction pursuant to section 25-8-607.

Source: **L. 81:** Entire article R&RE, p. 1322, § 1, effective July 1.

25-8-308. Additional authority and duties of division - fee and penalties. (1) In addition to the authority specified elsewhere in this article, the division has the power to:

(a) Conduct or cause to be conducted studies, research, and demonstrations with respect to water pollution and the control, abatement, or prevention thereof, as requested by the commission;

(b) Furnish technical advice and services relating to water pollution problems and control techniques;

(c) Designate one or more persons or agencies in any area of the state as a water quality control authority, as agent of the division, to exercise and perform such powers and duties of the division as may be specified in such designation;

(d) Administer, in compliance with regulations and the priority ranking adopted by the commission, loans and grants from the federal government and from other public sources;

(e) Advise, consult, cooperate, and enter into agreements with other agencies of the state, the federal government, other states, and interstate agencies, and with groups, political subdivisions, and industries affected by the provisions of this article and the policies of the commission; but any such agreement involving, authorizing, or requiring compliance in this state with any standard or regulation shall not be effective unless or until the commission has held a hearing with respect to such standard or regulation and has adopted the same in compliance with this article;

(f) Certify, when requested, the existence of any facility, land, building, machinery, equipment, treatment works, or sewage or disposal systems as have been acquired, constructed, or installed in conformity with the purposes of this article;

(g) Take such action in accordance with rules and orders promulgated by the commission as may be necessary to prevent, abate, and control pollution;

(h) Implement a program, in accordance with rules and orders of the commission, for the reuse of reclaimed domestic wastewater for purposes other than drinking.

(2) All fees collected by the division shall be transmitted to the state treasurer for deposit to the credit of the water quality control fund created by section 25-8-502 and shall be subject to appropriation by the general assembly. Except as provided in section 25-8-608, all fines and penalties for violations of this article shall be transmitted to the state treasurer for deposit to the credit of the general fund.

25-8-309. Study of classification and standard issues. (Repealed)

Source: **L. 2002:** Entire section added, p. 1656, § 1, effective June 7. **L. 2005:** Entire section repealed, p. 284, § 26, effective August 8.

25-8-310. Education program - storm water. (1) The division may develop education programs for use by state and local governmental entities.

(2) The educational programs developed in accordance with subsection (1) of this section shall be designed to inform the public about storm water quality problems resulting from:

(a) The washing of motor vehicles on nonpermeable surfaces and the advantages of washing motor vehicles at car wash facilities that comply with recognized industry water conservation and water quality control standards;

(b) The disposal of leaves, litter, pet wastes, and debris in street gutters and storm drains;

(c) The disposal of used oil, antifreeze, paints, and other household chemicals in storm sewers or drains; and

(d) Soil erosion on property due to lack of planting of ground cover and stabilization of erosion-prone areas.

(3) The division may obtain gifts, grants, and donations to fund the costs of developing the education programs described in subsection (1) of this section. If the funding necessary to comply with said subsection (1) is not obtained, the division shall not be required to comply with said subsection (1) until such funding is obtained.

Source: L. 2007: Entire section added, p. 1252, § 2, effective August 3.

PART 4

PROCEDURES

25-8-401. Authority and procedures for hearings. (1) The commission or the division may hold public hearings, which shall be held pursuant to and in conformity with article 4 of title 24, C.R.S., and with this article.

(2) The commission may adopt such rules and regulations governing procedures and hearings before the commission or division as may be necessary to assure that such procedures and hearings will be fair and impartial. Such rules and regulations shall be consistent with the pertinent provisions of article 4 of title 24, C.R.S.

(3) In all proceedings before the commission or the division with respect to any alleged violation of any control regulation, permit, or order, the burden of proof shall be upon the division.

(4) Except for classification and water quality standard-setting proceedings, the commission or the department of public health and environment may designate a hearing officer or an administrative law judge pursuant to part 10 of article 30 of title 24, C.R.S., subject to appropriations made to the department of public health and environment. When appropriate, the hearing officer may be an employee of the department of public health and environment or a member of or the administrator of the commission.

(5) (a) Any request for a variance with respect to a permit condition shall be made within thirty days after issuance by the division of the final permit. Requests for variances from any other application of a control regulation shall be made within thirty days of legal notice by the division of the regulation or prior to operation of any new or expanded facility which would be affected by the control regulations. A variance may also be sought within thirty days of facts becoming available which had not been reasonably available to the applicant prior to that time or upon application to the commission for good cause shown.

(b) The division shall approve or disapprove any variance request and issue its decision within ninety days after receipt of the variance request. Notice of a variance request shall be sent to anyone who has requested such notice and shall be included on the next commission agenda. In the case of a variance being granted prior to the final permit being issued, the division shall publish for public notice and comment the entire draft permit with the variance incorporated therein. In the case of a variance granted after a final permit has been issued, the division shall publish for public notice and comment the variance as a proposed modification to the permit. Within forty-five days of issuance of a variance decision by the division which does not involve discharge permit conditions required by the federal act, the commission on its own motion or on the motion of the division or any interested person may decide to review the variance decision. In such event, a hearing pursuant to section 24-4-105, C.R.S., shall be held, and the commission may affirm, modify, or deny the decision. Variance decisions of the division which involve discharge permit conditions required by the federal act shall be subject to review by an administrative law judge of the department of personnel pursuant to section 24-4-105, C.R.S., as part of any challenge to the conditions of a final discharge permit issued by the division.

ANNOTATION

Applied in Colorado Water Quality Control Comm'n v. Town of Frederick, 641 P.2d 958 (Colo. 1982).

25-8-402. Procedures to be followed in classifying state waters and setting standards and control regulations. (1) Prior to the classification of state waters and promulgating any water quality standard or any control regulation authorized in this article, the commission shall conduct a public hearing thereon as provided in section 24-4-103, C.R.S. Notice of any such hearing shall conform to the requirements of section 24-4-103, C.R.S., but such notice shall be given at least sixty days prior to the hearing and shall include each proposed standard or regulation.

(2) Any person desiring to propose a standard or regulation differing from the standard or regulation proposed by the commission shall file such other written proposal with the commission not less than twenty days prior to the hearing, and, when on file, such proposal shall be open for public inspection.

(3) Witnesses at the hearing shall be subject to cross-examination by or on behalf of the commission, by or on behalf of persons who have proposed standards or regulations pursuant to subsection (2) of this section, and by or on behalf of persons who have obtained party status to the proceeding.

(4) Standards or regulations promulgated pursuant to this section shall take effect as provided in section 24-4-103 (5), C.R.S.

(5) Any emergency rule-making proceedings by the commission shall be conducted pursuant to section 24-4-103 (6), C.R.S., and not pursuant to this section. Any rule adopted pursuant to such proceedings may be effective for a specified period longer than one hundred twenty days, but not later than one year, if the commission determines that such longer period is necessary to complete rule-making pursuant to section 24-4-103, C.R.S., to reconsider the emergency rule.

Source: **L. 81:** Entire article R&RE, p. 1324, § 1, effective July 1. **L. 85:** (5) added, p. 908, § 8, effective June 4. **L. 88:** (1) amended, p. 1020, § 3, effective July 1. **L. 2010:** (5) amended, (HB 10-1346), ch. 137, p. 461, § 2, effective April 15.

25-8-403. Administrative reconsideration. During the time permitted for seeking judicial review of any final order or determination of the commission or division, any party directly affected by such order or determination may apply to the commission or division, as appropriate, for a hearing or rehearing with respect to, or reconsideration of, such order or determination. The determination by the commission or division of whether to grant or deny the application for a hearing, rehearing, or reconsideration shall be made within ten days after receipt by the commission or division of such application. Such determination by the commission may be made by telephone or mail or at a meeting, but in any event shall be confirmed at the next meeting of the commission. If the application for a hearing, rehearing, or reconsideration is granted, the order or determination to which such application pertains shall not be considered final for purposes of judicial review, and the commission or the division may affirm, reverse, or modify, in whole or in part, the pertinent order or determination; thereafter such order or determination shall be final and not subject to stay or reconsideration under this section.

Source: **L. 81:** Entire article R&RE, p. 1325, § 1, effective July 1.

ANNOTATION

Applied in Colorado Water Quality Control Comm'n v. Town of Frederick, 641 P.2d 958 (Colo. 1982).

25-8-404. Judicial review. (1) Any final rule, order, or determination by the division or the commission, including but not limited to classification of state waters, approval of areawide waste treatment management plans, water quality standards, site approvals, permits, control regulations, enforcement orders, cease-and-desist orders, and clean-up orders, shall be subject to judicial review in accordance with the provisions of this article and article 4 of title 24, C.R.S. All regulations, orders, and determinations of the commission or division shall be adopted, promulgated, or issued in accordance with the provisions of said article 4 of title 24.

(2) Any proceeding for judicial review of any final order or determination of the commission or division shall be filed in the district court for the district in which the pollution source affected is located.

(3) Any proceeding for judicial review of any final rule, order, or determination of the commission or division shall be filed within thirty days after said rule, order, or determination has become final. Rule-making determinations shall become final in accordance with the "State Administrative Procedure Act". Quasi-judicial determinations shall become final upon issuance of such determinations to those parties to the proceedings. The period for filing the action for judicial review shall be stayed while any application for a hearing, rehearing, or reconsideration is pending pursuant to section 25-8-403, and the period during which any such application is pending shall extend the time for filing a proceeding for judicial review an equal length of time.

(4) (a) Except with respect to emergency orders issued pursuant to section 25-8-307, any person to whom a cease-and-desist order, clean-up order, or other order has been issued by the division or commission, or against whom an adverse determination has been made, may petition the district court for a stay of the effectiveness of such order or determination. Such petition shall be filed in the district court in which the pollution source affected is located.

(b) Such petitions may be filed prior to any such order or determination becoming final or during any period in which such order or determination is under judicial review.

(c) Such stay shall be granted by the court if there is probable cause to believe that refusal to grant a stay will cause serious harm to the affected person or any other person, and:

(I) That the alleged violation or activity to which the order or determination pertains will not continue, or if it does continue, any harmful effects on state waters will be alleviated promptly after the cessation of the violation or activity; or

(II) That the refusal to grant a stay would be without sufficient corresponding public benefit.

(5) Any party may move the court to remand the case to the division or the commission in the interests of justice, for the purpose of adducing additional specified and material evidence, and findings thereon; but such party shall show reasonable grounds for the failure to adduce such evidence previously before the division or the commission.

(6) If the court does not stay the effectiveness of an order of the commission or division, the court shall enforce compliance with that order by issuing a temporary restraining order or injunction at the request of the commission or division.

ANNOTATION

Formal party status is not prerequisite to right of judicial review under § 24-4-106 (4), and by analogy, under subsections (1) and (2) so

long as the concerned plaintiff can show that it is adversely affected or aggrieved by any agency action. *Town of Frederick v. Colo. Water Qual-*

ity Control Comm'n, 628 P.2d 129 (Colo. App. 1980).

Where there is no final order, judicial review is not available under this section. Nat'l Wildlife Fed'n v. Cotter Corp., 665 P.2d 598 (Colo. 1983).

The standard for review of the constitutionality of administrative regulations is beyond a reasonable doubt and not clear and convincing evidence. Stone Envir. Eng. Serv. v. State Dept. of Health, 762 P.2d 737 (Colo. App. 1988).

The doctrine of separation of powers prohibits the court from ordering an administrative agency to perform a certain function. Stone Envir. Eng. Serv. v. State Dept. of Health, 762 P.2d 737 (Colo. App. 1988).

Applied in Colo. Water Quality Control Comm'n v. Town of Frederick, 641 P.2d 958 (Colo. 1982); Parrish v. Water Quality Control Div., 934 P.2d 913 (Colo. App. 1997).

25-8-405. Samples - secret processes. (1) If samples of water or water pollutants are taken for analysis, the person believed to be responsible for any suspected violation or who is or will be subject to any remedial action shall be notified immediately of the collection of the samples and a representative portion of the sample shall be furnished immediately upon request to said person. A representative portion of such sample shall be furnished to any suspected violator whenever any remedial action is taken with respect thereto by the division. A duplicate of every analytical report pertaining to such sample shall also be furnished as soon as practicable to such person. Any request for a sample split shall be made within six months of the notification of the collection of samples.

(2) Any information relating to any secret process, method of manufacture or production, or sales or marketing data which may be acquired, ascertained, or discovered, whether in any sampling investigation, emergency investigation, or otherwise, shall not be publicly disclosed by any member, officer, or employee of the commission or the division, but shall be kept confidential. Any person seeking to invoke the protection of this subsection (2) shall bear the burden of proving its applicability. This section shall never be interpreted as preventing full disclosure of effluent data.

Source: L. 81: Entire article R&RE, p. 1326, § 1, effective July 1. **L. 88:** (1) amended, p. 1020, § 4, effective July 1.

25-8-406. Administrative stays - renewal permits. If a permittee requests a hearing pursuant to section 24-4-105, C.R.S., challenging final action by the division in regard to any terms and conditions of a renewal permit, said permit shall become effective in its entirety unless a stay is granted pursuant to this section. The division may stay any contested terms and conditions of a permit for good cause shown. The division shall act on any stay request within ten days of receipt thereof. Any stay granted under this section shall expire when a final determination is made after the conclusion of the hearing held pursuant to section 24-4-105, C.R.S. During the period of any such stay, the corresponding terms and conditions of the prior permit shall be in effect. Action by the division granting or denying a stay pursuant to this section shall be final agency action subject to de novo determination pursuant to section 25-8-404.

Source: L. 85: Entire section added, p. 909, § 9, effective June 4.

PART 5

PERMIT SYSTEM

Editor's note: Section 17 of chapter 218, Session Laws of Colorado 1985, provides that all conditions which the water quality control division has certified to the Army Corps of Engineers, prior to June 4, 1985, for use of general or nationwide permits under section 404 of the federal "Clean Water Act", are declared to be regulations which are hereby repealed. Said section further provides that the division shall inform the corps of engineers that all such conditions have been repealed and withdrawn and that general and nationwide 404 permits, which are otherwise applicable in Colorado, do not include the state conditions.

Law reviews: For article, "Land and Natural Resources", which discusses recent Tenth Circuit decisions dealing with water quality control, see 63 Den. U.L. Rev. 417 (1986); for article, "Section 319 and Hydrologic Modifications: Another Assault - Parts I and II", see 19 Colo. Law. 2251 and 2445 (1990); for article, "The Impact of § 319: A Rebuttal", see 20 Colo. Law. 67 (1991).

25-8-501. Permits required for discharge of pollutants - administration. (1) No person shall discharge any pollutant into any state water from a point source without first having obtained a permit from the division for such discharge, and no person shall discharge into a ditch or man-made conveyance for the purpose of evading the requirement to obtain a permit under this article. No person covered by this article shall use or dispose of biosolids, except as authorized by regulations that shall not be more restrictive than the requirements adopted for solid wastes disposal sites and facilities pursuant to part 1 of article 20 of title 30, C.R.S., except as necessary to be consistent with section 405 of the federal act. Existing authorization for the use or disposal of biosolids shall continue until permits are issued in accordance with this part 5. Each application for a permit duly filed under the federal act shall be deemed to be a permit application filed under this article, and each permit issued pursuant to the federal act shall be deemed to be a temporary permit issued under this article which shall expire upon expiration of the federal permit.

(2) The division shall examine applications for and may issue, suspend, revoke, modify, deny, and otherwise administer permits for the discharge of pollutants into state waters and for the use and disposal of biosolids. Such administration shall be in accordance with the provisions of this article and regulations promulgated by the commission. Until modified pursuant to this article, final permits shall be governed by their existing limitations.

(3) The commission shall promulgate such regulations as may be necessary and proper for the orderly and effective administration of permits for the discharge of pollutants, which regulations shall include, but not be limited to, procedures for the issuance of a variance pursuant to section 25-8-503 (4), and shall also require that, in appropriate circumstances, the effluent limitations contained in a permit shall be adjusted to account for the pollutants contained in the discharger's intake water. Such regulations shall be consistent with the provisions of this article and with federal requirements and shall be in furtherance of the policy contained in section 25-8-102. Such regulations shall establish a permit process that allows permit conditions to remain in effect as long as circumstances dictate those conditions. In order to comply with federal requirements, but not to lessen compliance with federal standards, such permit process may require periodic renewal of permits even where minimal or no changes in the permit conditions are necessary. Renewal shall be required where more than minimal changes in permit conditions are necessary. The regulations may pertain to and implement, among other matters, permit and permit application contents, procedures, requirements, and restrictions with respect to the following:

- (a) Identification and address of the owner and operator of the activity, facility, or process from which the discharge is to be permitted;
- (b) Location and quantity and quality characteristics of the permitted discharge;
- (c) Effluent limitations and conditions for treatment prior to discharge to a publicly owned treatment works;
- (d) Monitoring as well as record-keeping and reporting requirements consistent with standard procedures and methods established by the division;
- (e) Schedules of compliance;
- (f) Procedures to be followed by division personnel for entering and inspecting premises;
- (g) Submission of pertinent plans and specifications for the facility, process, or activity which is the source of a waste discharge;
- (h) Restrictions on transfers of the permit;
- (i) Procedures to be followed in the event of expansion or modification of the process, facility, or activity from which the discharge occurs or the quality, quantity, or frequency of the discharge;
- (j) Duration of the permit and renewal procedures using a risk-based approach that limits the amount of work required to renew permits that have minimal or no changes in the permit conditions to streamline the renewal process;

(k) Authority of the division to require changes in plans and specifications for control facilities as a condition for the issuance of a permit;

(l) Identification of control regulations over which the permit takes precedence and identification of control regulations over which a permit may never take precedence;

(m) Notice requirements of any intent to construct, install, or alter any process, facility, or activity that is likely to result in a new or altered discharge;

(n) Effectiveness under this article of permit applications submitted to and permits issued by the federal government under the federal act.

(4) Nothing in any permit shall ever be construed to prevent or limit the application of any emergency power of the division.

(5) Every permit issued for a domestic wastewater treatment works shall contain such terms and conditions as the division determines to be necessary or desirable to assure continuing compliance with applicable control regulations. Such terms and conditions may require that whenever deemed necessary by the division to assure such compliance the permittee shall:

(a) Require pretreatment of effluent from industrial, governmental, or commercial facilities, processes, and activities before such effluent is received into the gathering and collection system of the permittee;

(b) Prohibit any connection to any municipal permittee's interceptors and collection system that would result in receipt by such municipal permittee of any effluent other than sewage required by law to be received by such permittee;

(c) Include specified terms and conditions of its permit in all contracts for receipt by the permittee of any effluent not required to be received by a municipal permittee;

(d) Initiate engineering and financial planning for expansion of the domestic wastewater treatment works whenever throughput and treatment reaches eighty percent of design capacity;

(e) Commence construction of such domestic wastewater treatment works expansion whenever throughput and treatment reaches ninety-five percent of design capacity or, in the case of a municipality, either commence such construction or cease issuance of building permits within such municipality until such construction is commenced; except that building permits may continue to be issued for any construction which would not have the effect of increasing the input of domestic wastewater to the sewage treatment works of the municipality involved. The term "commence construction", as used in this paragraph (e), includes execution of, and commencement of work under, contracts for engineering design, plans, and specifications for erection, building, alteration, remodeling, improvement, or extension of treatment works and commitment to the completion of construction of such treatment works prior to exceeding permit effluent limitations based upon facility design and capacity or execution of a contract for the construction thereof.

(6) Inclusion of the requirements authorized by paragraph (d) of subsection (5) of this section shall be presumed unnecessary to assure compliance upon a showing that the area served by a domestic wastewater treatment works has a stable or declining population; but this provision shall not be construed as preventing periodic review by the division should it be felt that growth is occurring or will occur in the area.

ANNOTATION

Law reviews. For article, "Liabilities of Non-operating Mineral Interest Owners", see 51 U. Colo. L. Rev. 153 (1980). For article, "Oil Shale and Water Quality: The Colorado Prospectus

Under Federal, State, and International Law", see 58 Den. L.J. 715 (1981). For article, "The Emerging Relationship Between Environmental Regulations and Colorado Water Law", see 53

U. Colo. L. Rev. 597 (1982). For article, "Regulation of Spills of Hazardous Materials", see 12 Colo. Law. 277 (1983).

Guidelines for establishing rules and regulations applying to individual disposal systems were unconstitutionally vague. Guide-

lines which required that effluent at point of sampling "consistently meet" each specified standard was unconstitutionally vague and resulted in a denial of due process. *Stone Envir. Eng. Serv. v. State Dept. of Health*, 762 P.2d 737 (Colo. App. 1988).

25-8-501.1. Permit required for point source water pollution control - definitions - housed commercial swine feeding operations - legislative declaration. (1) The people of the state of Colorado hereby find, determine, and declare that the advent of large housed commercial swine feeding operations in Colorado has presented new challenges to ensuring that the quality of the state's environment is preserved and protected. As distinguished from more traditional operations that historically have characterized Colorado's livestock industry, large housed swine feeding operations use significant amounts of process water for flushing and disposing of swine waste, commonly store this waste in large impoundments, and dispose of it through land application. The waste storage, handling and disposal by such operations are particularly odorous and offensive. The people further find that it is necessary to ensure that the storage and land application of waste by housed commercial swine feeding operations is done in a responsible manner, so as not to adversely impact Colorado's valuable air, land and water resources.

(2) As used in this section, unless the context otherwise requires:

(a) "Agronomic rate of application" means the rate of application of nutrients to plants that is necessary to satisfy the plants' nutritional requirements while strictly minimizing the amount of nutrients that run off to surface waters or which pass below the root zone of the plants, as specified by the most current published fertilizer suggestions of the Colorado state university cooperative extension service for the plants, or most closely related plant type, to which the nutrients are applied.

(b) "Housed commercial swine feeding operation" means a housed swine feeding operation that is capable of housing eight hundred thousand pounds or more of live animal weight of swine at any one time or is deemed a commercial operation under local zoning or land use regulations. Two or more housed swine confined feeding operations shall be considered to comprise a single housed commercial swine feeding operation if they are under common or affiliated ownership or management, and are adjacent to or utilize a common area or system for manure disposal, are integrated in any way, are located or discharge within the same watershed or into watersheds that are hydrologically connected, or are located on or discharge onto land overlying the same groundwater aquifer.

(c) "Housed swine feeding operation" means the practice of raising swine in buildings, or other enclosed structures wherein swine of any size are fed for forty-five days or longer in any twelve-month period, and crop or forage growth or production is not sustained in the area of confinement.

(d) "Process wastewater" means any process-generated wastewater used in a housed commercial swine feeding operation, including water used for feeding, flushing, or washing, and any water or precipitation that comes into contact with any manure, urine, or any product used in or resulting from the production of swine.

(3) No person shall operate, construct, or expand a housed commercial swine feeding operation without first having obtained an individual discharge permit from the division.

(4) On or before March 31, 1999, the commission shall promulgate rules necessary to ensure the issuance and effective administration and enforcement of permits under this section by July 1, 1999. Such rules shall incorporate the preceding subsection (3) and shall, at a minimum, require:

(a) That the owner or operator of a housed commercial swine feeding operation must obtain division approval of construction, operations and swine waste management plans that, for any land waste application, includes a detailed agronomic analysis. Said plans shall employ the best available waste management practices, provide for remediation of residual soil and groundwater contamination, and ensure that disposal of solid or liquid waste to the soil not exceed agronomic rates of application.

(b) That appropriate setbacks for maintaining water quality be established for land waste application areas and waste impoundments;

(c) That waste impoundments or manure stock piles shall not be located within a one-hundred-year floodplain unless proper flood proofing measures are designed and constructed;

(d) That the owner or operator of the housed commercial swine feeding operation shall provide financial assurances for the final closure of the housed commercial swine feeding operation, the conduct of any necessary postclosure activities, the undertaking of any corrective action made necessary by migration of contaminants from the housed commercial swine feeding operation into the soil and groundwater, or cleanup of any spill or breach;

(e) That the owner or operator of a housed commercial swine feeding operation shall ensure that no solid or liquid waste generated by it shall be applied to land by any person at a rate that exceeds, in amount or duration, the agronomic rate of application; and

(f) That, because waste storage and disposal by housed commercial swine feeding operations pose particular jeopardy for state trust lands, in light of the mandate in the Colorado constitution, article IX, section 10, that state land board trust lands be held in trust and be protected and enhanced to promote long-term productivity and sound stewardship, the construction, operations and waste management plans approved for housed commercial swine feeding operations on such lands, shall not permit the degradation of the physical attributes or value of any state trust lands.

(5) Any spill or contamination by a housed commercial swine feeding operation shall be reported immediately to the division and the county or district public health agency for the county in which the housed commercial swine feeding operation is conducted, and, within twenty-four hours after the spill or contamination, a written report shall be filed with the division and the county or district public health agency for the county in which the housed commercial swine feeding operation is conducted.

(6) Housed commercial swine feeding operations shall submit to the division and the county or district public health agency quarterly, comprehensive monitoring reports and agronomic analyses that demonstrate that the operation has land-applied solid and liquid waste at no greater than agronomic rates. The division shall require the sampling and monitoring of chemical and appropriate biological parameters to protect the quality and existing and future beneficial uses of groundwater including, at a minimum, nitrogen, phosphorus, heavy metals, and salts. At a minimum, the monitoring program shall include quarterly samples, analysis, and reporting of the groundwater, soils within the root zone, and soils beneath the root zone within each waste application site, and shall also include monitoring to ensure that no excessive seepage occurs from any waste impoundments.

(7) Repealed.

(8) The division shall enforce the provisions of this section and shall take immediate enforcement action against any housed commercial swine feeding operation that has exceeded the agronomic rate limit of this section. In addition, any person who may be adversely affected by a housed commercial swine feeding operation may enforce these provisions directly against the operation by filing a civil action in the district court in the county in which the person resides.

(9) These provisions shall not preclude any local government from imposing requirements more restrictive than those contained in this section.

Source: Initiated 98: Entire section added, effective upon proclamation of the Governor, December 30, 1998. **L. 2007:** (7) repealed, p. 1454, § 2, effective July 1. **L. 2010:** (5) and (6) amended, (HB 10-1422), ch. 419, p. 2104, § 119, effective August 11.

Editor's note: (1) This section was contained in an initiated measure that was adopted by the people at the general election held November 3, 1998. The measure enacting this section was effective upon the proclamation of the Governor, December 30, 1998.

(2) The vote count on the measure at the general election held November 3, 1998, was as follows:

FOR: 790,852

AGAINST: 438,873

ANNOTATION

Law reviews. For article, “Colorado’s Not-So-Little Pig Farms Meet the Big Bad Wolf”, see 28 Colo. Law. 85 (June 1999).

25-8-502. Application - definitions - fees - water quality control fund - animal feeding operations fund - public participation - repeal. (1) (a) For the purposes of this section:

(I) “Discharge” means discharge of pollutants as defined in section 25-8-103 (3), and also includes land application.

(II) “Land application” is any discharge being applied to the land for treatment purposes.

(b) (I) Except as otherwise provided by law, in addition to the fees assessed pursuant to paragraphs (b.5), (b.6), (b.7), and (g) of this subsection (1), the only fee the division may assess is an annual fee upon a discharger, and such fee shall be in accordance with the following schedule:

Facility Categories and Subcategories for Permit Fees		Annual Fees
(A) Category 01 Sand and gravel and placer mining		
Subcategory 1	Pit dewatering only	\$ 500
Subcategory 2	Pit dewatering and/or washwater discharge	\$ 570
Subcategory 3	Mercury use with discharge impact	\$ 640
Subcategory 4	Storm water discharge only	\$ 435
(B) Category 02 Coal mining		
Subcategory 1	Sedimentation ponds, surface runoff only	\$ 980
Subcategory 2	Mine water, preparation plant discharge	\$ 1,320
(C) Category 03 Hardrock mining		
Subcategory 1	Mine dewatering from 0 up to 49,999 gallons per day	\$ 1,140
Subcategory 2	Mine dewatering from 50,000 up to 999,999 gallons per day	\$ 2,150
Subcategory 3	Mine dewatering from 1,000,000 gallons per day or over	\$ 3,280
Subcategory 4	Mine dewatering and milling with no discharge	\$ 3,280
Subcategory 5	Mine dewatering and milling with discharge	\$ 9,880
Subcategory 6	No discharge	\$ 1,140
Subcategory 7	Milling with discharge from 0 up to 49,999 gallons per day	\$ 3,350
Subcategory 8	Milling with discharge from 50,000 gallons per day or greater	\$ 6,680
(D) Category 04 Oil shale		
Subcategory 1	Sedimentation ponds, surface runoff only	\$ 1,990
Subcategory 2	Mine water from 0 up to 49,999 gallons per day	\$ 2,150
Subcategory 3	Mine water from 50,000 up to 999,999 gallons per day	\$ 2,670
Subcategory 4	Mine water from 1,000,000 gallons per day or over	\$ 2,600
Subcategory 5	Mine water and process water discharge	\$ 9,880
Subcategory 6	No discharge	\$ 1,830

(E) Category 05 Concentrated animal feeding operations (CAFOs)

Subcategory 1	General permit: The division shall assess a CAFO an annual permit fee, not to exceed \$250 plus \$0.04 per animal unit, based on the CAFO's permitted capacity; except that, from July 1, 2009, through June 30, 2015, the division shall assess a CAFO an annual permit fee not to exceed \$750 plus \$0.09 per animal unit, based on the CAFO's permitted capacity
Subcategory 2	Individual permit: The division shall assess a CAFO an annual permit fee, not to exceed \$500 plus \$0.08 per animal unit, based on the CAFO's permitted capacity; except that, from July 1, 2009, through June 30, 2015, the division shall assess a CAFO an annual permit fee not to exceed \$1,500 plus \$0.09 per animal unit, based on the CAFO's permitted capacity

(F) Category 06 Water treatment plants

Subcategory 1	Intermittent discharge	\$ 570
Subcategory 2	Routine discharge	\$ 820

(G) Category 07 General permits

Subcategory 1A	Sand and gravel with process discharge and storm water	\$ 270
Subcategory 1B	Sand and gravel without process discharge - storm water only	\$ 75
Subcategory 2	Construction dewatering	\$ 500
Subcategory 3	[Reserved for future use]	
Subcategory 4	Placer mining	\$ 520
Subcategory 5	Coal mining	\$ 780
Subcategory 6	Water treatment plants - intermittent discharge	\$ 475
Subcategory 7	Water treatment plants - routine discharge	\$ 715
Subcategory 8	Oil and gas cleanup	\$ 1,840
Subcategory 9A	Construction - storm water only; 5 acres or more of disturbed area	\$ 245
Subcategory 9B	Construction - storm water only; 1 to less than 5 acres of disturbed area	\$ 245
Subcategory 10	Industrial - single municipal industrial - storm water only	\$ 185
Subcategory 11	(Deleted by amendment, L. 2002, p. 1657, § 2, effective June 7, 2002.)	
Subcategory 12	Active mineral mines less than ten acres - storm water only	\$ 125
Subcategory 13	Active mineral mines - ten acres or larger - storm water only	\$ 375
Subcategory 14	Inactive mineral mines - storm water only	\$ 75
Subcategory 15	Department of transportation - sand and gravel storm water permit	\$ 4,360
Subcategory 16	Department of transportation - storm water construction discharges from projects for which the department of transportation is the permittee - statewide permit	\$ 9,400
Subcategory 17	Coal degasification - process water from 0 up to 49,999 gallons per day	\$ 2,150
Subcategory 18	Coal degasification - process water from 50,000 up to 99,999 gallons per day	\$ 3,280

Subcategory 19	Coal degasification - process water more than 100,000 gallons per day	\$ 9,880
Subcategory 20	Storm water municipal greater than 100,000 population	\$ 4,050
Subcategory 21	Storm water municipal from 50,000 up to 100,000 population	\$ 2,020
Subcategory 22	Storm water municipal from 10,000 up to 49,999 population	\$ 810
Subcategory 23	Storm water municipal less than 10,000 population	\$ 355
Subcategory 24	Discharges associated with treated water distribution systems less than or equal to 3,300 population	\$ 105
Subcategory 25	Discharges associated with treated water distribution systems from 3,301 up to 9,999 population	\$ 210
Subcategory 26	Discharges associated with treated water distribution systems greater than or equal to 10,000 population	\$ 315

(H) Category 08 Power plants

Subcategory 1	Cooling water only, no discharge	\$ 1,140
Subcategory 2	Process water from 0 up to 49,999 gallons per day	\$ 2,150
Subcategory 3	Process water from 50,000 up to 999,999 gallons per day	\$ 3,280
Subcategory 4	Process water from 1,000,000 up to 4,999,999 gallons per day	\$ 9,880
Subcategory 5	Process water from 5,000,000 gallons per day or over	\$ 9,880

(I) Category 09 Sugar processing

Subcategory 1	Cooling water only, no discharge	\$ 1,210
Subcategory 2	Process water from 0 up to 49,999 gallons per day	\$ 1,480
Subcategory 3	Process water from 50,000 up to 999,999 gallons per day	\$ 3,700
Subcategory 4	Process water from 1,000,000 up to 4,999,999 gallons per day	\$ 9,880
Subcategory 5	Process water from 5,000,000 gallons per day or over	\$ 9,880

(J) Category 10 Petroleum refining

Subcategory 1	Cooling water only, no discharge	\$ 1,140
Subcategory 2	Process water from 0 up to 49,999 gallons per day	\$ 2,560
Subcategory 3	Process water from 50,000 up to 999,999 gallons per day	\$ 3,285
Subcategory 4	Process water from 1,000,000 up to 4,999,999 gallons per day	\$ 9,880
Subcategory 5	Process water from 5,000,000 gallons per day or over	\$ 9,880

(K) Category 11 Fish hatcheries

\$ 820

(L) Category 12 Manufacturing and other industry

Subcategory 1	Cooling water only	\$ 1,140
Subcategory 2	Process water from 0 up to 49,999 gallons per day	\$ 2,150
Subcategory 3	Process water from 50,000 up to 999,999 gallons per day	\$ 3,280
Subcategory 4	Process water from 1,000,000 up to 4,999,999 gallons per day	\$ 9,880
Subcategory 5	Process water from 5,000,000 up to 19,999,999 gallons per day	\$ 12,140

Subcategory 6	Process water 20,000,000 gallons per day or over	\$ 19,760
Subcategory 7	No discharge	\$ 1,480

(M) Category 20 Domestic wastewater - lagoons

Subcategory 1	Sewage from 0 up to 49,999 gallons per day	\$ 525
Subcategory 2	Sewage from 50,000 up to 99,999 gallons per day	\$ 845
Subcategory 3	Sewage from 100,000 up to 499,999 gallons per day	\$ 1,230
Subcategory 4	Sewage from 500,000 up to 999,999 gallons per day	\$ 2,120
Subcategory 5	Sewage from 1,000,000 up to 1,999,999 gallons per day	\$ 3,170
Subcategory 6	Sewage 2,000,000 gallons per day or over	\$ 6,460

(N) Category 21 Domestic wastewater - mechanical plants

Subcategory 1	Sewage from 0 up to 19,999 gallons per day	\$ 615
Subcategory 2	Sewage from 20,000 up to 49,999 gallons per day	\$ 980
Subcategory 3	Sewage from 50,000 up to 99,999 gallons per day	\$ 1,440
Subcategory 4	Sewage from 100,000 up to 499,999 gallons per day	\$ 2,240
Subcategory 5	Sewage from 500,000 up to 999,999 gallons per day	\$ 3,720
Subcategory 6	Sewage from 1,000,000 up to 2,499,999 gallons per day	\$ 6,090
Subcategory 7	Sewage from 2,500,000 up to 9,999,999 gallons per day	\$ 11,410
Subcategory 8	Sewage from 10,000,000 up to 49,999,999 gallons per day	\$ 19,780
Subcategory 9	Sewage from 50,000,000 up to 99,999,999 gallons per day	\$ 22,820
Subcategory 10	Sewage from 100,000,000 gallons per day or over	\$ 25,100

(O) Category 22 Domestic facilities discharging to unclassified waters - general permit

Subcategory 1	Sewage from 0 up to 49,999 gallons per day	\$ 455
Subcategory 2	Sewage from 50,000 up to 199,999 gallons per day	\$ 800
Subcategory 3	Sewage from 200,000 up to 599,999 gallons per day	\$ 1,170
Subcategory 4	Sewage from 600,000 up to 999,999 gallons per day	\$ 1,860

(P) Category 23 Municipal storm water permits

Subcategory 1	Municipalities of 250,000 and over in population	\$ 10,580
Subcategory 2	Municipalities of 100,000 or more, but less than 250,000 in population	\$ 6,225
Subcategory 3	Municipalities of 50,000 or more, but less than 100,000 in population	\$ 3,110
Subcategory 4	Municipalities of 10,000 or more, but less than 50,000 in population	\$ 1,245
Subcategory 5	Statewide permit for department of transportation-owned or -operated municipal separate storm water systems in municipal areas where storm water permits are required	\$ 4,360

(Q) Category 24 Individual industrial storm water permits If a storm water permit is integrated into an existing permit for a facility that has other point source discharges, or for facilities that have individual permits with only storm water discharges, the following additional charges shall apply:

Subcategory 1	Individual industrial - less than ten acres	\$ 295
Subcategory 2	Individual industrial - ten acres or more	\$ 375
Subcategory 3	Individual industrial - storm water only - international airports	\$ 6,220

(R) Category 24.5 Housed commercial swine feeding operations

Except as otherwise provided in this sub-paragraph (R), the division shall assess on each housed commercial swine feeding operation an annual permit fee, not to exceed twenty cents per animal, based on the operation’s working capacity, to offset the direct and indirect costs of the program created in section 25-8-501.1. From July 1, 2009, through June 30, 2015, the division shall assess on each housed commercial swine feeding operation an annual permit fee that shall not exceed twenty-six cents per animal, based on the operation’s working capacity, to offset the direct and indirect costs of the program created in section 25-8-501.1. As used in this sub-subparagraph (R), “working capacity” means the number of swine the housed commercial swine feeding operation is capable of housing at any one time.

(S) Category 25 Permit Amendments Should a permittee holding a permit issued under any of categories 1 to 24 or 26 to 46 or, through June 30, 2015, category 24.5, request an amendment to said permit, the following fees shall apply:

Subcategory 1	Minor amendment - an amount equal to twenty-five percent of the annual fee for the permit being amended, not to exceed	\$ 2,810
Subcategory 2	Major amendment - an amount equal to fifty-five percent of the annual fee for the permit being amended, not to exceed	\$ 5,950

(T) Category 26 Minimal discharge of industrial or commercial wastewaters - general permit

\$ 630

Note: Gallons per day is based on design capacity of the facility, not flow. This applies to all categories.

(II) The division may establish an interim fee which shall be consistent and equitable with the fees contained in subparagraph (I) of this paragraph (b) in any case where a facility other than those listed must be permitted. This interim fee shall apply until the date of adjournment sine die of the next regular session of the general assembly following the imposition of the interim fee.

(b.5) (I) Effective July 1, 2007, in accordance with the provisions of section 25-8-508, the division may assess an annual fee upon each industrial discharger and upon each publicly owned treatment works, and all such fees shall be in accordance with the following schedule:

Facility Categories and Subcategories for Permit Fees	Annual Fees
--	--------------------

(A) Category 30 Industrial dischargers subject to categorical effluent standards discharging to publicly owned treatment works with pretreatment programs (not including categorical industries subject to zero discharge standards)

Subcategory 1	100 to 9,999 gallons per day	\$ 699
Subcategory 2	10,000 to 50,000 gallons per day	\$ 1,047

Subcategory 3	Greater than 50,000 gallons per day	\$ 1,397
Subcategory 4	Very low flow - less than 100 gallons per day	\$ 292

(B) Category 31 All other significant industrial dischargers
discharging to publicly owned treatment works with pretreatment (including categorical industries subject to zero discharge standards)

Subcategory 1	Less than 10,000 gallons per day	\$ 175
Subcategory 2	10,000 to 50,000 gallons per day	\$ 349
Subcategory 3	Greater than 50,000 gallons per day	\$ 465
Subcategory 4	Pit dewatering only	\$ 270

(C) Category 32 Industrial dischargers subject to categorical
effluent standards discharging to publicly owned treatment works without pretreatment programs (not including categorical industries subject to zero discharge standards)

Subcategory 1	Less than 10,000 gallons per day	\$ 815
Subcategory 2	10,000 to 50,000 gallons per day	\$ 1,280
Subcategory 3	Greater than 50,000 gallons per day	\$ 1,746

(D) Category 33 All other significant industrial dischargers
discharging to publicly owned treatment works without pretreatment programs (including categorical industries subject to zero discharge standards)

Subcategory 1	Less than 10,000 gallons per day	\$ 349
Subcategory 2	10,000 to 50,000 gallons per day	\$ 524
Subcategory 3	Greater than 50,000 gallons per day	\$ 699

(E) Category 34 Domestic wastewater - lagoons

Subcategory 1	Sewage from 0 up to 49,999 gallons per day	\$ 75
Subcategory 2	Sewage from 50,000 up to 99,999 gallons per day	\$ 75
Subcategory 3	Sewage from 100,000 up to 499,999 gallons per day	\$ 75
Subcategory 4	Sewage from 500,000 up to 999,999 gallons per day	\$ 75
Subcategory 5	Sewage from 1,000,000 up to 2,499,999 gallons per day	\$ 81
Subcategory 6	Sewage from 2,500,000 gallons per day	\$ 94

(F) Category 35 Domestic wastewater - mechanical plants

Subcategory 1	Sewage from 0 up to 19,999 gallons per day	\$ 75
Subcategory 2	Sewage from 20,000 up to 49,999 gallons per day	\$ 75
Subcategory 3	Sewage from 50,000 up to 99,999 gallons per day	\$ 75
Subcategory 4	Sewage from 100,000 up to 499,999 gallons per day	\$ 75
Subcategory 5	Sewage from 500,000 up to 999,999 gallons per day	\$ 75
Subcategory 6	Sewage from 1,000,000 up to 2,499,999 gallons per day	\$ 81
Subcategory 7	Sewage from 2,500,000 up to 9,999,999 gallons per day	\$ 94
Subcategory 8	Sewage from 10,000,000 up to 49,999,999 gallons per day	\$ 105
Subcategory 9	Sewage from 50,000,000 up to 99,999,999 gallons per day	\$ 117
Subcategory 10	Sewage from 100,000,000 gallons per day or over	\$ 128

Note: Gallons per day is based on design capacity of the facility, not flow. This applies to all categories.

(II) (A) As used in subparagraph (I) of this paragraph (b.5), “categorical effluent standards” means those standards established by the federal environmental protection agency pursuant to section 307 (b) of the federal act.

(B) As used in subparagraph (I) of this paragraph (b.5), “significant industrial dischargers” means those industrial dischargers which meet one or more criteria established by the federal environmental protection agency pursuant to section 307 (b) of the federal act.

(III) All fees collected pursuant to this paragraph (b.5) shall be transmitted to the state treasurer, who shall credit the same to the water quality control fund created in paragraph (c) of this subsection (1). Moneys so collected shall be kept in a separate account in the water quality control fund and shall be annually appropriated by the general assembly to the department of public health and environment for allocation to the division. The general assembly shall review expenditures of such moneys to assure that they are used only to fund the expenses of the industrial pretreatment program. Publicly owned treatment works with approved programs shall each be afforded the opportunity to pay a fee in lieu of an assessment upon indirect dischargers in such publicly owned treatment works’ programs.

(b.6) In accordance with section 25-8-702, the division may assess a fee for the determination of preliminary effluent limitations upon a domestic wastewater treatment works, as defined in section 25-8-103, pursuant to the site location approval process, and all such fees shall be paid in advance of any work done in accordance with the schedule established in this paragraph (b.6). Furthermore, at the request of an entity that is not a domestic wastewater treatment works, and upon payment of the appropriate fee in accordance with the schedule established in this paragraph (b.6), the division may determine preliminary effluent limits for a proposed discharge as described by the requestor. Fees set forth in the schedule established in this paragraph (b.6) shall be increased by an amount equal to seventy-five percent of the applicable fees for each set of preliminary effluent limitations requested by domestic wastewater treatment works for discharges to a second or additional receiving water bodies. The division may, where an entity requests modification of existing division-approved preliminary effluent limitations, complete such modification for a fee equal to twenty-five percent of the applicable fee as set forth in the following schedule:

**Facility Categories and Subcategories
for Preliminary Effluent Limit Fees**

(I) Category 40 Preliminary effluent limitations for individual permits		
Subcategory 1	Less than 100,000 gallons per day	\$ 2,100
Subcategory 2	From 100,000 up to 999,999 gallons per day	\$ 4,200
Subcategory 3	From 1,000,000 up to 9,999,999 gallons per day	\$ 6,300
Subcategory 4	10,000,000 gallons per day or more	\$ 8,400
(II) Category 41 Preliminary effluent limitations for general permits		
	From 0 up to 1,000,000 gallons per day	\$ 1,050
Note: This group includes preliminary effluent limitations for minor domestic facilities that discharge to: Unclassified waters; class 2 (aquatic life) streams with a zero low flow; or class 2 (aquatic life) streams with a low flow greater than zero.		
(III) Category 42 Preliminary effluent limitations for discharges to groundwater		
Subcategory 1	Minor facilities (less than 1,000,000 gallons per day)	\$ 525
Subcategory 2	Major facilities (at least 1,000,000 gallons per day)	\$ 840
(IV) Category 43 Review of preliminary effluent limitations for individual permits (professionally prepared by others)		
Subcategory 1	Minor facilities (less than 1,000,000 gallons per day)	\$ 1,575
Subcategory 2	Major facilities (at least 1,000,000 gallons per day)	\$ 3,150

(b.7) Effective July 1, 2007, in accordance with section 25-8-702, the division may assess a fee upon a domestic wastewater treatment works, and all such fees shall be paid in advance of any work done in accordance with the following schedule:

(I) Category 44 Wastewater site applications			
Subcategory 1	Wastewater treatment plants (less than 100,000 gallons per day)	new	\$ 7,738
		expansion	\$ 6,191
Subcategory 2	Wastewater treatment plants (100,000 gallons to 999,999 gallons per day)	new	\$ 15,477
		expansion	\$ 12,381
Subcategory 3	Wastewater treatment plants (1,000,000 gallons to 9,999,999 gallons per day)	new	\$ 23,215
		expansion	\$ 18,572
Subcategory 4	Wastewater treatment plants (10,000,000 gallons per day or more)	new	\$ 30,953
		expansion	\$ 24,763
Subcategory 5	Lift stations (less than 100,000 gallons per day)	new	\$ 1,935
		expansion	\$ 1,548
Subcategory 6	Lift stations (100,000 gallons to 999,999 gallons per day)	new	\$ 3,869
		expansion	\$ 3,095
Subcategory 7	Lift stations (1,000,000 gallons to 9,999,999 gallons per day)	new	\$ 5,804
		expansion	\$ 4,643
Subcategory 8	Lift stations (10,000,000 gallons per day or more)	new	\$ 7,738
		expansion	\$ 6,191
Subcategory 9	Amendments to site applications concerning a change from gas chlorination to liquid chlorination or from any form of chlorination to ultraviolet light disinfection (less than 100,000 gallons per day)		\$ 451
Subcategory 10	Amendments to site applications concerning a change from gas chlorination to liquid chlorination or from any form of chlorination to ultraviolet light disinfection (100,000 gallons to 999,999 gallons per day)		\$ 903
Subcategory 11	Amendments to site applications concerning a change from gas chlorination to liquid chlorination or from any form of chlorination to ultraviolet light disinfection (1,000,000 gallons to 9,999,999 gallons per day)		\$ 1,354
Subcategory 12	Amendments to site applications concerning a change from gas chlorination to liquid chlorination or from any form of chlorination to ultraviolet light disinfection (10,000,000 gallons per day or more)		\$ 1,806
Subcategory 13	Other amendments to site applications (less than 100,000 gallons per day)		\$ 645

Subcategory 14	Other amendments to site applications (100,000 gallons to 999,999 gallons per day)	\$ 1,290
Subcategory 15	Other amendments to site applications (1,000,000 gallons to 9,999,999 gallons per day)	\$ 1,935
Subcategory 16	Other amendments to site applications (10,000,000 gallons per day or more)	\$ 2,579
Subcategory 17	On-site wastewater treatment systems	\$ 4,500
Subcategory 18	Extension	\$ 650
Subcategory 19	Interceptors site applications	\$ 1,300
Subcategory 20	Interceptor certifications	\$ 300
Subcategory 21	Outfall sewers	\$ 1,300

(II) Category 45 Wastewater design review

Subcategory 1	Wastewater treatment plants (less than 100,000 gallons per day)	
	new	\$ 4,900
	expansion	\$ 3,900
Subcategory 2	Wastewater treatment plants (100,000 gallons to 999,999 gallons per day)	
	new	\$ 9,900
	expansion	\$ 7,900
Subcategory 3	Wastewater treatment plants (1,000,000 gallons to 9,999,999 gallons per day)	
	new	\$ 14,800
	expansion	\$ 11,800
Subcategory 4	Wastewater treatment plants (10,000,000 gallons per day or more)	
	new	\$ 19,700
	expansion	\$ 15,800
Subcategory 5	Lift stations (less than 100,000 gallons per day)

(c) Except as otherwise provided in paragraph (i) of this subsection (1), fees collected pursuant to paragraphs (b), (b.6), and (b.7) of this subsection (1) shall be transmitted to the state treasurer, who shall credit the same to the water quality control fund, which fund is hereby created. The moneys in such fund that are collected pursuant to paragraph (b) of this subsection (1) shall be appropriated annually to the department of public health and environment by the general assembly, which shall review expenditures of such moneys to assure that they are used only to fund the expenses of the discharge permit system and other activities included in paragraphs (b), (b.6), and (b.7) of this subsection (1). All interest earned on the investment or deposit of moneys in the fund and all unencumbered or unappropriated balances in the fund shall remain in the fund, shall be appropriated only for the expenses of the discharge permit system, and shall not be transferred or revert to the general fund or any other fund at the end of any fiscal year or any other time. It is the intent of the general assembly that a portion of the expenses of the discharge permit system be funded from the general fund, reflecting the benefit derived by the general public; except that the general assembly may determine, in any given fiscal year, that general fund revenues are inadequate to meet general fund demands and that, as a consequence, it shall be necessary to forego, subject to future reconsideration, all or some portion of such general fund contribution to the discharge permit program pursuant to this part 5.

(d) Notwithstanding the amount specified for any fee in paragraph (b) or paragraph (b.5) of this subsection (1), the commission by rule or as otherwise provided by law may reduce the amount of one or more of the fees if necessary pursuant to section 24-75-402 (3), C.R.S., to reduce the uncommitted reserves of the fund to which all or any portion of one or more of the fees is credited. After the uncommitted reserves of the fund are sufficiently

reduced, the commission by rule or as otherwise provided by law may increase the amount of one or more of the fees as provided in section 24-75-402 (4), C.R.S.

(e) and (f) Repealed.

(g) (I) Effective July 1, 2009, through June 30, 2015, the division shall assess unpermitted concentrated animal feeding operations an annual administrative fee, not to exceed six cents per animal unit based upon the CAFO's registered capacity, to cover the direct and indirect costs associated with the environmental agriculture program, including inspections, compliance assurance, compliance assistance, and associated regulatory interpretation and review.

(II) This paragraph (g) is repealed, effective July 1, 2015.

(h) Commencing with the first regular session of the sixty-eighth general assembly, the department of public health and environment shall report annually to the senate agriculture and natural resources committee and the house of representatives agriculture, livestock, and natural resources committee, or their successor committees, on the environmental agriculture program. The report shall include, but is not limited to, the number of permits processed, the number of inspections conducted, the number of enforcement actions taken, and the costs associated with all program activities during the preceding year. Such report shall be made on or before March 31 of each year.

(i) There is hereby created the animal feeding operations fund, which shall consist of fees collected pursuant to sub-subparagraphs (E) and (R) of subparagraph (I) of paragraph (b) of this subsection (1), fees collected for amendments requested by housed commercial swine feeding operations pursuant to sub-subparagraph (S) of subparagraph (I) of paragraph (b) of this subsection (1), and fees collected under paragraph (g) of this subsection (1). Any unexpended and unencumbered moneys remaining in the animal feeding operations fund at the end of any fiscal year shall remain in the animal feeding operations fund and shall not be transferred or revert to the general fund or any other fund. Moneys in the animal feeding operations fund shall be annually appropriated by the general assembly to the department of public health and environment for the direct and indirect costs associated with the permitting and oversight of animal feeding operations under this article.

(2) (a) A complete and accurate application for all discharges shall be filed with the division not less than one hundred eighty days prior to the date proposed for commencing the discharge.

(b) The application shall contain such relevant plans, specifications, water quality data, and other information related to the proposed discharge as the division may reasonably require. Prior to submitting an application for a permit, the applicant may request and, if so requested, the division shall grant a planning meeting with the applicant. At such meeting, the division shall advise the applicant of the applicable permit requirements, including the information, plans, specifications, and data required to be furnished with the permit application.

(c) The division shall begin the review of an application within forty-five days after the receipt of the application and shall notify the applicant within ninety days after receipt of the application whether the application is complete. If the division determines that an application is incomplete, the division may request that the applicant submit additional information. If additional information is requested by the division and submitted by the applicant, the division shall have fifteen days after the date the additional information is submitted to determine whether the additional information satisfies the request and to advise the applicant if, and in what respects, the additional information does not satisfy the request. A final decision that an application is not complete shall be considered final agency action upon issuance of such decision to the applicant and shall be subject to judicial review. A petition for review of such decision shall be given priority scheduling by the court.

(3) (a) The division shall evaluate complete permit applications to determine whether the proposed discharge will comply with all applicable federal and state statutory and regulatory requirements.

(b) The division shall give public notice of a complete permit application and the division's preliminary analysis of the application as provided in subsection (4) of this section. The notice shall advise of the opportunity for interested persons to submit written comments on the permit application and the division's preliminary analysis or to request,

for good cause shown, a public meeting on the application and analysis. A request for a public meeting shall be made within thirty days after the initial public notice of the permit application and the division's preliminary analysis. If a public meeting is requested and the division, in its discretion and for good cause shown, grants the request, the division shall hold the public meeting not more than seventy-five days after the initial public notice. The division shall provide notice as provided in subsection (4) of this section of the public meeting not less than thirty days prior to the date of the meeting.

(c) The period for public comment shall close thirty days from the date of notice of the permit application and the division's preliminary analysis thereof; except that, if a public meeting is held on the application and analysis, the period for public comment shall close sixty days from the date of notice of the application.

(4) Public notice of every complete permit application and the division's preliminary analysis thereof shall be circulated in a manner designed to inform interested and potentially interested persons of the application and analysis. Procedures for the circulation of such public notice or a notice regarding a public meeting concerning an application and analysis shall be established by the commission and shall include at least the following:

(a) Notice shall be given by at least one publication in a newspaper of general circulation which is distributed within the geographical areas of the proposed discharge.

(b) Notice shall be mailed to any person or group upon request.

(c) The division shall add the name of any person or group upon request to a mailing list to receive copies of notices for all discharge permit applications within the state or within a certain geographical area.

(d) The division shall also, during the period from the date of the initial public notice of the application and analysis to the close of the public comment period, maintain in the office of the county clerk and recorder of the county in which the proposed discharge, or a part thereof, is to occur a copy of its preliminary analysis and a copy of the permit application with all accompanying data for public inspection.

(5) (a) (I) Except as provided in this subsection (5), if the division has not finally issued or denied a permit within one hundred eighty days after receipt of the permit application, unless this time limit is waived or extended by the applicant or if the division determines at any time after receiving an application that it cannot issue a permit prior to the expiration of an existing permit, the division shall issue a temporary permit or the existing permit shall be extended pursuant to the operation of section 24-4-104, C.R.S.

(II) The deadlines established pursuant to subparagraph (I) of this paragraph (a) for a determination on a permit application shall be extended by:

(A) The number of days which an applicant takes to submit information requested by the division pursuant to paragraph (c) of subsection (2) of this section plus the fifteen days provided for the division to evaluate such additional information; and

(B) Forty-five days, if a public meeting is held pursuant to subsection (3) of this section.

(b) All temporary permits shall contain such conditions as are necessary to protect public health and shall not be less restrictive than required by state and federal effluent guidelines unless a schedule of compliance or a variance is set forth therein. A temporary permit shall be issued for a period not to exceed two years and shall expire as provided in the issuance or denial of the final permit. Issuance of a temporary permit shall be final agency action for the purposes of section 24-4-106, C.R.S.

(6) Repealed.

Editor's note: Subsection (1)(e)(II) provided for the repeal of subsections (1)(e) and (1)(f), effective July 1, 2005. (See L. 2003, p. 1501.)

Cross references: (1) For circumstances that will result in the repeal of this section, see § 25-8-507.

(2) For the legislative declaration contained in the 1992 act amending this section, see section 1 of chapter 188, Session Laws of Colorado 1992. For the legislative declaration contained in the 1994 act amending subsections (1)(b.5)(III) and (1)(c), see section 1 of chapter 345, Session Laws of Colorado 1994.

25-8-503. Permits - when required and when prohibited - variances. (1) (a) The division shall issue a permit in accordance with regulations promulgated under this article when the division has determined that the provisions of this article and the federal act and regulations thereunder have been met with respect to both the application and proposed permit.

(b) When necessary for compliance with the federal act for the achievement of technology-based effluent limitations, the division may exercise best professional judgment in establishing effluent limitations on a case-by-case basis for permits as granted pursuant to paragraph (a) of this subsection (1). Technology-based effluent limitations based on best professional judgment shall be made only for good cause and in the absence of federally promulgated effluent guidelines or effluent limitation regulations promulgated by the commission and shall be subject to review as provided for in paragraph (c) of this subsection (1). Any effluent limitations established according to this paragraph (b) shall be made after considering the availability of appropriate technology, its economic reasonableness, the age of equipment and facilities involved, the process employed, and any increase in water or energy consumption.

(c) Review by a hearing officer or an administrative law judge of the department of personnel of technology-based effluent limitations based on best professional judgment shall be on request of the permit applicant or permittee or any aggrieved person and shall take place in an adjudicatory hearing to be held pursuant to section 24-4-105, C.R.S. The necessity of effluent limitations based on best professional judgment, as well as the reasonableness of the effluent limitation, considering all factors enumerated in paragraph (b) of this subsection (1), must be supported by substantial evidence. If such hearing is requested, it shall be held as part of a hearing requested to challenge the conditions of the permit.

(d) Repealed.

(2) No permit shall be issued which is inconsistent with any duly promulgated and controlling state, regional, or local land use plan or any portion of an approved regional wastewater management plan which has been adopted as a regulation pursuant to this article, unless all other requirements and conditions of this act have been met or will be met pursuant to a schedule of compliance or a variance specifying treatment requirements as determined by the division.

(3) No permit shall be issued which allows a violation of a control regulation unless the waste discharge permit contains effluent limitations and a schedule of compliance or a variance specifying treatment requirements as determined by the division.

(4) No permit shall be issued which allows a discharge that by itself or in combination with other pollution will result in pollution of the receiving waters in excess of the pollution

permitted by an applicable water quality standard unless the permit contains effluent limitations and a schedule of compliance specifying treatment requirements. Effluent limitations designed to meet water quality standards shall be based on application of appropriate physical, chemical, and biological factors reasonably necessary to achieve the levels of protection required by the standards.

(5) Activities such as diversion, carriage, and exchange of water from or into streams, lakes, reservoirs, or conveyance structures, or storage of water in or the release of water from lakes, reservoirs, or conveyance structures, in the exercise of water rights shall not be considered to be point source discharges of pollution under this article. Water quality standards may apply to discharges from such activities only if the commission has adopted appropriate control regulations pursuant to section 25-8-205. Nothing in this article shall supersede the provisions of articles 80 to 93 of title 37, C.R.S.

(6) Nothing in subsection (5) of this section shall exempt any point source discharger which generates wastewater effluent from the requirement of obtaining a permit pursuant to this article. All permits for such discharges shall apply at the point where wastewater effluent is released from the control of the discharger. All permits for discharges into ditches or other man-made conveyance structures shall contain such provisions as are necessary for the protection of agricultural, domestic, industrial, and municipal beneficial uses made of the waters of the ditch or other man-made conveyance structures, which use or uses were decreed and in existence prior to the inception of the discharge.

(7) Repealed.

(8) Where a permit requires treatment to levels necessary to protect water quality standards and beyond levels required by technology-based effluent limitation requirements, the division must determine whether or not any or all of the water-quality-standard-based effluent limitations are reasonably related to the economic, environmental, public health, and energy impact to the public and affected persons, and are in furtherance of the policies set forth in sections 25-8-102 and 25-8-104. The division's determination shall be based upon information available to it including information provided during the public comment period on the draft permit or in response to specific requests for information. Such determinations shall be included as a part of the written record of the issuance of the final permit, whether or not a variance is available under subsection (9) of this section to alter the water quality standard based effluent limitations.

(9) The division may grant a variance from otherwise applicable requirements only to the extent authorized in the federal act or implementing regulations. Variances may be granted for no longer than the duration of the permit. Variances shall be granted or renewed according to the procedure established in section 25-8-401 (5). Any variances granted prior to June 4, 1985, which were validly granted under the provisions then in effect shall be valid according to their original terms.

ing Relationship Between Environmental Regulations and Colorado Water Law", see 53 U. Colo. L. Rev. 597 (1982).

25-8-504. Agricultural wastes. (1) Neither the commission nor the division shall require any permit for any flow or return flow of irrigation water into state waters except as may be required by the federal act or regulations. The provisions of any permit that are so required shall not be any more stringent than, and shall not contain any condition for monitoring or reporting in excess of, the minimum required by the federal act or regulations.

(2) (a) Neither the commission nor the division shall require any permit for animal or agricultural waste on farms, ranches, and horticultural or floricultural operations, except as may be required by the federal act or regulations. The provisions of any permit that are so required shall not be any more stringent than, and shall not contain any condition for monitoring or reporting in excess of, the minimum required by the federal act or regulations.

(b) Nothing in paragraph (a) of this subsection (2), as amended by House Bill 05-1180, as enacted at the first regular session of the sixty-fifth general assembly, shall be construed as changing the property tax classification of property owned by a horticultural or floricultural operation.

(3) No permit or fee shall ever be required pursuant to this part 5 for the diversion of water from natural surface streams.

(4) Nothing in this section shall be construed to affect the requirement of permits for housed commercial swine feeding operations pursuant to section 25-8-501.1.

Source: **L. 81:** Entire article R&RE, p. 1332, § 1, effective July 1. **Initiated 98:** (4) added, effective upon proclamation of the Governor, December 30, 1998. **L. 2005:** (2) amended, p. 350, § 7, effective August 8.

Editor's note: (1) Subsection (4) was enacted by an initiated measure that was adopted by the people at the general election held November 3, 1998. The measure enacting subsection (4) was effective upon the proclamation of the Governor, December 30, 1998.

(2) The vote count on the measure at the general election held November 3, 1998, was as follows:

FOR:	790,852
AGAINST:	438,873

ANNOTATION

Law reviews. For article, "The Emerging Relationship Between Environmental Regulations and Colorado Water Law", see 53 U. Colo. L. Rev. 597 (1982).

25-8-505. Permit conditions concerning publicly owned wastewater treatment works. The division is authorized to impose, as conditions in permits for the discharge of pollutants from publicly owned wastewater treatment works, appropriate measures to establish and insure compliance by industrial users with any system of user charges or industrial cost recovery.

Source: **L. 81:** Entire article R&RE, p. 1332, § 1, effective July 1.

Cross references: For circumstances that will result in the repeal of this section, see § 25-8-507.

ANNOTATION

Law reviews. For article, "Liabilities of Non-operating Mineral Interest Owners", see 51 U. Colo. L. Rev. 153 (1980).

Applied in Nat'l Wildlife Fed'n v. Cotter Corp., 646 P.2d 393 (Colo. App. 1981).

25-8-506. Nuclear and radioactive wastes. (1) It is unlawful for any person to discharge, deposit, or dispose of any radioactive waste underground in liquid, solid, or explosive form unless the division, upon application of the person desiring to undertake such activity and after investigation and hearing, has first found, based upon a preponder-

ance of the evidence, that there will be no significant pollution resulting therefrom or that the pollution, if any, will be limited to waters in a specified limited area from which there is no significant migration.

(2) (a) In such case the division shall issue a permit for the proposed activity, upon the payment of a fee of one thousand dollars. The division may include in such permit issued under this subsection (2) such reasonable terms and conditions as it may from time to time require to implement this section in a manner consistent with the purposes of this article. The terms or conditions which may be imposed shall include, without limitation, those with respect to duration of use or operation; monitoring; reporting; volume of discharge or disposal; treatment of wastes; and the deposit with the state treasurer of a bond, with or without surety as the division may in its discretion require, or other security, to assure that the permitted activities will be conducted in compliance with the terms and conditions of the permit, and that upon abandonment, cessation, or interruption of the permitted activities or facilities, appropriate measures will be taken to protect the waters of the state. Other than relief from provisions of this article to the extent specified in this subsection (2), no permit issued pursuant to this subsection (2) shall relieve any person of any duty or liability to the state or to any other person existing or arising under any statute or under common law.

(b) Notwithstanding the amount specified for the fee in paragraph (a) of this subsection (2), the commission by rule or as otherwise provided by law may reduce the amount of the fee if necessary pursuant to section 24-75-402 (3), C.R.S., to reduce the uncommitted reserves of the fund to which all or any portion of the fee is credited. After the uncommitted reserves of the fund are sufficiently reduced, the commission by rule or as otherwise provided by law may increase the amount of the fee as provided in section 24-75-402 (4), C.R.S.

(3) No permit for the discharge, deposit, or disposal of nuclear or radioactive waste underground shall be required in any case where groundwater quality regulation is conducted under article 11 of this title, or under the uranium mill tailings radiation control act of 1978 (Pub.L. 95-604) or a successor statute, where such regulation is determined by the division to comply with the standard set forth in subsection (1) of this section.

(4) (a) The provisions of this section revise and replace, in part, section 25-8-505 of this article, the "Colorado Water Quality Control Act", as said article existed prior to July 1, 1981. All permits issued pursuant to said section 25-8-505 prior to July 1, 1981, shall be deemed a permit issued pursuant to this section and subject to the standards of subsection (1) of this section unless or until:

(I) Such permitted activities are exempted by the provisions of subsection (3) of this section. In such case, all permits issued pursuant to said section 25-8-505 shall terminate and have no effect whatsoever; or

(II) Such permitted activities are the subject of a new permit issued pursuant to this section.

(b) Repealed.

Source: **L. 81:** Entire section amended, p. 1340, § 1, effective July 1. **L. 98:** (2) amended, p. 1336, § 52, effective June 1. **L. 2005:** (4)(b) repealed, p. 284, § 27, effective August 8.

Editor's note: This section was originally enacted as § 25-8-505 in House Bill 81-1468, but has been renumbered on revision as § 25-8-506 for ease of location and harmonized with Senate Bill 81-10.

ANNOTATION

Law reviews. For article, "1974 Land Use Legislation in Colorado", see 51 Den. L.J. 467 (1974). For article, "Liabilities of Nonoperating Mineral Interest Owners", see 51 U. Colo. L. Rev. 153 (1980). For article, "Synthetic Fuels

— Policy and Regulation", see 51 U. Colo. L. Rev. 465 (1980). For article, "Oil Shale and Water Quality: The Colorado Prospectus Under Federal, State, and International Law", see 58 Den. L.J. 715 (1981).

25-8-507. Program repeal. If final federal agency action is taken revoking or withdrawing prior federal approval of all or any part of the state permit program, sections 25-8-203, 25-8-204, 25-8-501, 25-8-502, 25-8-503, and 25-8-505 and regulations adopted to implement such provisions are repealed as of the date of that final federal action.

Source: L. 85: Entire section added, p. 911, § 13, effective June 4.

25-8-508. Industrial pretreatment program - creation - fees. (1) The division shall establish an industrial pretreatment program for the state which is designed to eliminate problems that occur when pollutants from industrial wastewaters are discharged into publicly owned treatment works, including health hazards caused to the public and to workers in sewers and treatment plants, pollution of state waters, interference with the operation of treatment plants or increased expense to dispose of sludges, damage to the pipes and equipment that may occur from pollutants, and the potential for explosion caused by highly volatile wastes. The program shall be adopted by the commission pursuant to section 25-8-205 and shall be adequate to comply with requirements set forth in section 307 (a), (b), and (c) of the federal act.

(2) The division is authorized to require compliance with applicable pretreatment requirements and standards by any domestic wastewater treatment works or by any industrial user of such treatment works. The division may grant a variance from applicable requirements only to the extent authorized in the federal act or implementing regulations.

25-8-509. Permit conditions concerning use and disposal of biosolids. The division is authorized to impose, as conditions to the issuance of permits, requirements, prohibitions, standards, and concentration limitations on the use and disposal of biosolids in accordance with the regulations promulgated by the commission pursuant to section 25-8-205 (1) (e). The requirements, prohibitions, standards, and concentration limitations imposed by the division shall not be more restrictive than the requirements adopted for the solid wastes disposal sites and facilities pursuant to part 1 of article 20 of title 30, C.R.S., except as necessary to be consistent with section 405 of the federal act.

Source: L. 93: Entire section added, p. 1579, § 4, effective July 1.

PART 6

VIOLATIONS, REMEDIES, AND PENALTIES

25-8-601. Division to be notified of suspected violations and accidental discharges - penalty. (1) Any person or any agency of the state or federal government may apply to the division to investigate and take action upon any suspected or alleged violation of any provision of this article or of any order, permit, or regulation issued or promulgated under authority of this article.

(2) Any person engaged in any operation or activity which results in a spill or discharge of oil or other substance which may cause pollution of the waters of the state contrary to the provisions of this article, as soon as he has knowledge thereof, shall notify the division of such discharge. Any person who fails to notify the division as soon as practicable is guilty of a misdemeanor and, upon conviction thereof, shall be punished by a fine of not more than ten thousand dollars, or by imprisonment in the county jail for not more than one year, or by both such fine and imprisonment. Notification received pursuant to this subsection (2) or information obtained by the exploitation of such notification shall not be used against any such person in a criminal case except prosecution for perjury, for false swearing, or for failure to comply with a clean-up order issued pursuant to section 25-8-606.

(3) Any penalty collected under this section shall be credited to the general fund.

ANNOTATION

Law reviews. For article, “Liabilities of Non-operating Mineral Interest Owners”, see 51 U. Colo. L. Rev. 153 (1980). For article, “Regulation of Spills of Hazardous Materials”, see 12 Colo. Law. 277 (1983).

Applied in *National Wildlife Fed’n v. Cotter Corp.*, 646 P.2d 393 (Colo. App. 1981).

25-8-602. Notice of alleged violations. (1) Whenever the division has reason to believe that a violation of an order, permit, or control regulation issued or promulgated under authority of this article has occurred, the division shall cause written notice to be served personally or by certified mail, return receipt requested, upon the alleged violator or his agent for service of process. The notice shall state the provision alleged to be violated and the facts alleged to constitute a violation, and it may include the nature of any corrective action proposed to be required.

(2) Each cease-and-desist and clean-up order issued pursuant to sections 25-8-605 and 25-8-606 shall be accompanied by or have incorporated in it the notice provided for in subsection (1) of this section unless such notice has been given prior to issuance of such cease-and-desist or clean-up order.

Source: L. 81: Entire article R&RE, p. 1333, § 1, effective July 1.

25-8-603. Hearing procedures for alleged violations. (1) In any notice given under section 25-8-602, the division shall require the alleged violator to answer each alleged violation and may require the alleged violator to appear before it for a public hearing to provide such answer. Such hearing shall be held no sooner than fifteen days after service of the notice; except that the division may set an earlier date for hearing if it is requested by the alleged violator.

(2) If the division does not require an alleged violator to appear for a public hearing, the alleged violator may request the division to conduct such a hearing. Such request shall be in writing and shall be filed with the division no later than thirty days after issuance of a notice under section 25-8-602. If such a request is filed, a hearing shall be held within a reasonable time.

(3) If a hearing is held pursuant to the provisions of this section, it shall be public and, if the division deems it practicable, shall be held in any county in which the violation is alleged to have occurred. The division shall permit all parties to respond to the notice served under section 25-8-602, to present evidence and argument on all issues, and to conduct cross-examination required for full disclosure of the facts.

(4) Hearings held pursuant to this section shall be conducted in accordance with section 24-4-105, C.R.S.

Source: L. 81: Entire article R&RE, p. 1333, § 1, effective July 1.

25-8-604. Suspension, modification, and revocation of permit. Upon a finding and determination, after hearing, that a violation of a permit provision has occurred, the division may suspend, modify, or revoke the pertinent permit or take such other action with respect to the violation as may be authorized pursuant to regulations promulgated by the commission.

Source: L. 81: Entire article R&RE, p. 1333, § 1, effective July 1.

25-8-605. Cease-and-desist orders. If the division determines, with or without hearing, that a violation of any provision of this article or of any order, permit, or control

regulation issued or promulgated under authority of this article exists, the division may issue a cease-and-desist order. Such order shall set forth the provision alleged to be violated, the facts alleged to constitute the violation, and the time by which the acts or practices complained of must be terminated.

Source: L. 81: Entire article R&RE, p. 1333, § 1, effective July 1.

25-8-606. Clean-up orders. The division may issue orders to any person to clean up any material which he, his employee, or his agent has accidentally or purposely dumped, spilled, or otherwise deposited in or near state waters which may pollute them. The division may also request the district attorney to proceed and take appropriate action under section 16-13-305 and sections 16-13-307 to 16-13-315, C.R.S., or section 18-4-511, C.R.S.

Source: L. 81: Entire article R&RE, p. 1334, § 1, effective July 1.

ANNOTATION

Law reviews. For article, "Liabilities of Non-operating Mineral Interest Owners", see 51 U. Colo. L. Rev. 153 (1980).

25-8-607. Restraining orders and injunctions. (1) The division may request the district attorney for the judicial district with jurisdiction pursuant to subsection (2) of this section or the attorney general to bring, and if so requested it shall be the duty of such district attorney or the attorney general to bring, a suit for a temporary restraining order, preliminary injunction, or permanent injunction to prevent any threatened violation of this article or any order, permit, or control regulation issued or promulgated pursuant to this article which violation poses imminent and substantial endangerment to the beneficial uses of state waters and which cannot be timely prevented by a permit modification or permit enforcement action, or any continued violation of this article, or any order, permit, or control regulation issued or promulgated pursuant to this article. In any suit for a violation of an order, the final findings of the division, after opportunity for a hearing, based upon evidence in the record, shall be prima facie evidence of the facts found in such record.

(2) Suits under this section shall be brought in the district or county court for the district or county in which the violation or threatened violation occurs. Emergencies shall be given precedence over all other matters pending in such court. The institution of such injunction proceeding by the division shall confer upon such court exclusive jurisdiction to determine finally the subject matter of the proceeding; except that the exclusive jurisdiction of the court shall apply only to such injunctive proceeding and shall not preclude assessment of civil penalties or any other enforcement action or sanction authorized by this article.

Source: L. 81: Entire article R&RE, p. 1334, § 1, effective July 1. **L. 94:** Entire section amended, p. 643, § 1, effective April 14; (1) amended, p. 1650, § 96, effective May 31.

25-8-608. Civil penalties - rules - fund created - temporary moratorium on penalties for minor violations - definitions - repeal. (1) Except as otherwise provided in subsection (3) of this section, any person who violates any provision of this article or of any permit issued under this article, or any control regulation promulgated pursuant to this article, or any final cease-and-desist order or clean-up order shall be subject to a civil penalty of not more than ten thousand dollars per day for each day during which such violation occurs. In determining the amount of a penalty under this part 6, the following factors shall be considered:

- (a) The potential damage from the violation;
- (b) The violator's compliance history;
- (c) Whether the violation was intentional, reckless, or negligent;
- (d) The impact upon or threat to the public health or environment as a result of the violation;

- (e) The duration of the violation; and
- (f) The economic benefit realized by the violator as a result of the violation.

(1.5) All penalties collected pursuant to subsection (1) of this section shall be transmitted to the state treasurer, who shall credit the same to the water quality improvement fund, which is hereby created. The moneys in such fund shall be subject to annual appropriation. Any interest earned on moneys in the fund shall remain in the fund to be used for purposes of this section.

(1.7) (a) The department shall expend moneys in the water quality improvement fund for the following purposes:

(I) Improving the water quality in the community or water body impacted by the violation;

(II) Providing grants for storm water projects or to assist with planning, design, construction, or repair of domestic wastewater treatment works;

(III) Providing the nonfederal match funding for nonpoint source projects under 33 U.S.C. sec. 1329; or

(IV) Providing grants for storm water management training and best practices training to prevent or reduce the pollution of state waters.

(b) The division may retain five percent of the moneys in the water quality improvement fund to cover the cost of administering the projects or grants under paragraph (a) of this subsection (1.7).

(c) The commission shall promulgate rules as may be necessary to administer this subsection (1.7), including, but not limited to, rules defining who is eligible for grants, and what criteria shall be used in awarding grants. Any rules shall be promulgated in accordance with article 4 of title 24, C.R.S.

(1.8) Notwithstanding any provision of subsection (1.5) or (1.7) of this section to the contrary, on April 20, 2009, the state treasurer shall deduct seven hundred thousand dollars from the water quality improvement fund and transfer such sum to the general fund.

(1.9) The division shall include in a separate section of the annual report required pursuant to section 25-8-305 a full accounting of all projects funded pursuant to this section for the preceding year.

(2) The division may institute a civil action or administrative action to impose and collect penalties under this section. Upon application of the division, penalties shall be determined by the executive director or his or her designee. The final decision of the executive director or his or her designee may be appealed to the commission. The final decision of the commission is subject to judicial review in accordance with article 4 of title 24, C.R.S. Any penalty may be collected by the division by action instituted in a court of competent jurisdiction for collection of such penalty. A stay of any order of the division pending judicial review shall not relieve any person from any liability under subsection (1) of this section, but the reason for the request for judicial review shall be considered in the determination of the amount of the penalty. In the event that such an action is instituted for the collection of such penalty, the court may consider the appropriateness of the amount of the penalty, if such issue is raised by the party against whom the penalty was assessed.

(3) (a) As used in this subsection (3):

(I) "Inspection-related violation" means a civil violation of a provision of this article or of a permit issued under this article that governs storm water discharges occurring in connection with construction activities and that the division or its agent discovers through an inspection of the facilities or of work performed by the violator.

(II) "Minor violation" means a violation that does not harm or threaten public health or safety or the environment and that is either an inspection-related violation or a paperwork violation.

(III) "Paperwork violation" means a civil violation of a provision of this article or of a permit issued under this article that governs storm water discharges occurring in connection with construction activities and that:

(A) Involves the failure of the violator to meet a filing deadline or other deadline; or

(B) Is a nonsubstantive technical error or, as determined by the division, a substantive error reasonably made by the violator in good faith, on a required form or filing.

(b) The division shall not commence any enforcement action against a violator for a minor violation committed on or after June 6, 2012, unless the division notifies the violator of the violation and the violator fails to cure the violation within a reasonable time as determined by the division. In the case of a violator failing to cure the violation within a reasonable time as determined by the division, the division may assess a financial penalty of up to two times the amount authorized in subsection (1) of this section.

(c) Commencing as soon as feasible after June 6, 2012, the division shall collaborate with the construction industry and other interested persons to develop more responsive and streamlined processes for preventing violations of provisions of this article and of permits issued under this article and for enforcing such provisions when violations occur. No later than December 1, 2012, the division shall submit to the general assembly a written report that includes the results of the collaboration, the actions it plans to take to develop more streamlined and responsive processes, and any legislative recommendations that it may have.

(d) This subsection (3) is repealed, effective July 1, 2013.

Source: **L. 81:** Entire article R&RE, p. 1334, § 1, effective July 1. **L. 83:** (1) amended, p. 1080, § 5, effective July 1. **L. 90:** (1) amended, p. 1345, § 4, effective July 1. **L. 2006:** Entire section amended, p. 1273, § 2, effective May 26. **L. 2009:** (1.8) added, (SB 09-208), ch. 149, p. 624, § 23, effective April 20. **L. 2011:** (1.7)(a)(II) and (1.7)(a)(III) amended and (1.7)(a)(IV) added, (HB 11-1026), ch. 159, p. 550, § 2, effective August 10. **L. 2012:** IP(1) amended and (3) added, (HB 12-1119), ch. 264, p. 1378, § 1, effective June 6.

ANNOTATION

Law reviews. For article, “Liabilities of Non-operating Mineral Interest Owners”, see 51 U. Colo. L. Rev. 153 (1980).

Subsection (2) provides only for additional review of the amount of an existing penalty using an abuse of discretion standard, but does not authorize a de novo determination of

the amount of the penalty. The familiar and generally accepted meaning of the words compels the conclusion that the amount of the penalty has already been determined and the role of the court is to consider only its appropriateness. *Water Quality Control Div. v. Casias*, 843 P.2d 665 (Colo. App. 1992).

25-8-609. Criminal pollution - penalties. (1) Any person who recklessly, knowingly, intentionally, or with criminal negligence discharges any pollutant into any state waters or into any domestic wastewater treatment works commits criminal pollution if such discharge is made:

- (a) In violation of any permit issued under this article; or
 - (b) In violation of any cease-and-desist order or clean-up order issued by the division which is final and not stayed by court order; or
 - (c) Without a permit, if a permit is required by the provisions of this article for such discharge; or
 - (d) Repealed.
 - (e) In violation of any pretreatment regulations promulgated by the commission.
- (2) Prosecution under paragraph (a) of subsection (1) of this section shall be commenced only upon complaint filed by the division or a peace officer.
- (3) Any person who commits criminal pollution of state waters shall be fined, for each day the violation occurs, as follows:

- (a) If the violation is committed with criminal negligence or recklessly, as defined in section 18-1-501, C.R.S., the maximum fine shall be twelve thousand five hundred dollars.
- (b) If the violation is committed knowingly or intentionally, as defined in section 18-1-501, C.R.S., the maximum fine shall be twenty-five thousand dollars.
- (c) If two separate offenses under this article occur in two separate occurrences during a period of two years, the maximum fine for the second offense shall be double the amounts specified in paragraph (a) or (b) of this subsection (3), whichever is applicable.
- (d) (Deleted by amendment, L. 2009, (SB 09-119), ch. 223, p. 1009, § 1, effective August 5, 2009.)

(4) Any criminal penalty collected under this section shall be credited to the general fund.

(5) No provision of this article shall be interpreted to supersede, limit, abrogate, or impair the ability to enforce:

(a) Civil or criminal penalties pursuant to article 22 of title 29, C.R.S., if the pollutant discharged into state waters or domestic wastewater treatment works is a “hazardous substance” as defined in section 29-22-101, C.R.S.; or

(b) Civil penalties pursuant to section 25-15-309 or criminal penalties pursuant to section 25-15-310 if the pollutant discharged into state waters or domestic wastewater treatment works is a “hazardous waste” as defined in section 25-15-101.

Source: **L. 81:** Entire article R&RE, p. 1334, § 1, effective July 1. **L. 83:** (3)(d) amended, p. 1080, § 6, effective July 1. **L. 85:** (1)(c) amended and (1)(d) repealed, p. 911, §§ 14, 15, effective June 4. **L. 88:** (1)(e) added, p. 1021, § 7, effective July 1. **L. 90:** IP(1) amended, p. 1345, § 5, effective July 1. **L. 2009:** (2) and (3)(d) amended and (4) and (5) added, (SB 09-119), ch. 223, p. 1009, § 1, effective August 5; (2) amended, (SB 09-292), ch. 369, p. 1971, § 88, effective August 5.

Editor’s note: Amendments to subsection (2) by Senate Bill 09-292 and Senate Bill 09-119 were harmonized.

25-8-610. Falsification and tampering. (1) Any person who knowingly makes any false statement, representation, or certification in any application, record, report, plan, or other document filed or required to be maintained under this article or who falsifies, tampers with, or knowingly renders inaccurate any monitoring device or method required to be maintained under this article is guilty of a misdemeanor and, upon conviction thereof, shall be punished by a fine of not more than ten thousand dollars, or by imprisonment in the county jail for not more than six months, or by both such fine and imprisonment.

(2) Any penalty collected under this section shall be credited to the general fund.

Source: **L. 81:** Entire article R&RE, p. 1335, § 1, effective July 1. **L. 83:** (2) amended, p. 1080, § 7, effective July 1.

25-8-611. Proceedings by other parties. (1) The factual or legal basis for proceedings or other actions that result from a violation of any control regulation inure solely to, and shall be for the benefit of the people of, the state generally, and it is not intended by this article, in any way, to create new private rights or to enlarge existing private rights. A determination that water pollution exists or that any standard has been disregarded or violated, whether or not a proceeding or action may be brought by the state, shall not create any presumption of law or finding of fact which shall inure to or be for the benefit of any person other than the state.

(2) A permit issued pursuant to this article may be introduced in any court of law as evidence that the permittee’s activity is not a public or private nuisance. Introduction into evidence of such permit and evidence of compliance with the permit conditions shall constitute a prima facie case that the activity to which the permit pertains is not a public or private nuisance.

Source: **L. 81:** Entire article R&RE, p. 1335, § 1, effective July 1.

ANNOTATION

Neither this section nor § 25-8-612 authorizes injunctions or creates a private cause of action or right to proceed in the public interest. Nor do they explicitly dispense with the

requirements for a preliminary injunction as set forth in C.R.C.P. 65. *Baseline Farms Two, LLP v. Hennings*, 26 P.3d 1209 (Colo. App. 2000).

25-8-612. Remedies cumulative. (1) It is the purpose of this article to provide additional and cumulative remedies to prevent, control, and abate water pollution and protect water quality.

(2) No action pursuant to section 25-8-609 shall bar enforcement of any provision of this article or of any rule or order issued pursuant to this article by any authorized means.

(3) Nothing in this article shall abridge or alter rights of action or remedies existing on or after July 1, 1981, nor shall any provision of this article or anything done by virtue of this article be construed as estopping individuals, cities, towns, counties, cities and counties, or duly constituted political subdivisions of the state from the exercise of their respective rights to suppress nuisances.

Source: L. 81: Entire article R&RE, p. 1336, § 1, effective July 1.

ANNOTATION

Neither this section nor § 25-8-611 authorizes injunctions or creates a private cause of action or right to proceed in the public interest. Nor do they explicitly dispense with the

requirements for a preliminary injunction as set forth in C.R.C.P. 65. Baseline Farms Two, LLP v. Hennings, 26 P.3d 1209 (Colo. App. 2000).

PART 7

DOMESTIC WASTEWATER TREATMENT WORKS

25-8-701. Definitions. As used in this part 7, unless the context otherwise requires:

(1) “Construction” means entering into a contract for the erection or physical placement of materials, equipment, piping, earthwork, or buildings which are to be part of a domestic wastewater treatment works.

(2) “Eligible project” means a project for the planning, design, or construction of domestic wastewater treatment works or of facilities for the discharge of wastewater or backwash water from public water treatment plants which is, in the judgment of the division, necessary for the accomplishment of the state water quality control program, which conforms with applicable rules and regulations of the commission, and which is eligible for federal assistance under provisions of the federal act.

(3) “Federal assistance” means funds available to a municipality, either directly or through allocation by the state, from the federal government as grants for planning, design, or construction of domestic wastewater treatment works, or funds which are used for such planning, design, or construction, under provisions of the federal act.

Source: L. 81: Entire article R&RE, p. 1336, § 1, effective July 1.

25-8-702. Approval for commencement of construction. (1) No person shall commence the construction of any domestic wastewater treatment works or the enlargement of the capacity of an existing domestic wastewater treatment works, unless the site location and the design for the construction or expansion have been approved by the division.

(2) In evaluating the suitability of a proposed site location for a domestic wastewater treatment works, the division shall:

(a) Consider the local long-range comprehensive plan for the area as it affects water quality and any approved regional wastewater management plan for the area;

(b) Determine that the plant on the proposed site will be managed to minimize the potential adverse impacts on water quality; and

(c) Encourage the consolidation of wastewater treatment facilities whenever feasible.

(3) Ninety days prior to commencement of construction of an interceptor line, the entity responsible for that line shall notify the planning agency and the division of such construction. This notification shall be accompanied with a certification by the agency receiving the wastewater for treatment that it has or will have the capacity to treat the

projected wastewater from that interceptor line in accordance with the treatment agency's site approval and discharge permit. Within thirty days of receipt of notification, the planning agency, or the division, if a planning agency does not exist, shall certify that the proposed interceptor line has the capacity to carry the projected flow. In the event the entity responsible for an interceptor line does not have the said certification from the treatment agency and the planning agency, the entity shall be required to apply for a site location approval prior to commencement of construction.

(4) The decision of the division concerning approval of the site location or design may be appealed to the commission. The commission shall hold a hearing on the site location or design in accordance with the provisions of section 24-4-105, C.R.S., and the decision of the commission shall be final administrative action for the purposes of section 24-4-106, C.R.S.

Source: L. 81: Entire article R&RE, p. 1336, § 1, effective July 1. L. 88: (1) R&RE and (2)(a) amended, p. 1021, §§ 8, 9, effective July 1.

ANNOTATION

Law reviews. For article, "Synthetic Fuels — Policy and Regulation", see 51 U. Colo. L. Rev. 465 (1980).

Rule providing that a site approval will expire one year from its approval date and that reapplication or request for an extension must be made if construction has not been commenced is well within the powers conferred upon the commission and the division to regu-

late approval as to location, construction, and remodeling of domestic wastewater treatment facilities. Barr Lake Vill. Metro. District v. Colo. Water Quality Control Comm'n., 835 P.2d 613 (Colo. App. 1992).

Applied in Colo. Water Quality Control Comm'n v. Town of Frederick, 641 P.2d 958 (Colo. 1982).

25-8-703. State contracts for construction of domestic wastewater treatment works. (1) (a) To meet the responsibility of the state with respect to the protection of public health and to assist municipalities and counties, the division, in the name of the state and to the extent of state funds appropriated therefor, may enter into contracts with municipalities with populations of not more than five thousand persons concerning the planning, design, or construction of domestic wastewater treatment works.

(b) Repealed.

(2) The division shall be the state agency for the administration of funds appropriated for such project grants and shall contract for grant projects only to the extent state general funds have been appropriated. The division may use not more than five percent of the funds appropriated for such project grants for the administration and management thereof.

(3) Domestic wastewater treatment grants shall be authorized based upon water quality needs and public health related problems. The commission shall promulgate a project categorization system for use in determining the relative priority of proposed domestic wastewater projects. The division shall review applications for state funds and may approve only those applications that are consistent with the project categorization system.

(4) During the review process the division shall seek from the division of local government in the department of local affairs a fiscal analysis of the applicant to determine financial need. Based upon its fiscal analysis, the division of local government shall issue or deny a certificate of financial need. If a certificate of financial need is issued, the division may authorize a state grant percentage contribution to the project in accordance with the recommendation of the division of local government and with the project categorization adopted by the commission.

(5) Any contract entered into pursuant to this section shall include an estimate of the reasonable cost of the project as determined by the division and shall also include, but not be limited to, provisions which set forth that the municipality shall:

(a) Proceed expeditiously and complete the project in accordance with design documents reviewed by the division;

(b) Provide a plan of operation to the division for approval and shall commence operation of the domestic wastewater treatment works on completion of the project;

(c) Not discontinue operation of the domestic wastewater treatment works without prior approval of the division;

(d) Operate and maintain the domestic wastewater treatment works in accordance with the plan of operation;

(e) Provide for the payment of its share of the project.

(6) In connection with each contract concerning an eligible project, the division shall keep accurate records on the project, including, but not limited to, records of the amount of payment by the state and the amount of federal assistance received by the applicant. Such records may establish the basis for application for federal reimbursement of such payments made by the state, and the division is authorized to make such application in appropriate cases.

Source: **L. 81:** Entire article R&RE, p. 1337, § 1, effective July 1. **L. 2001:** (1), (3), (4), and (6) amended, p. 100, § 1, effective March 20. **L. 2006:** (1)(b)(II) amended, p. 211, § 1, effective March 31.

Editor's note: Subsection (1)(b)(II) provided for the repeal of subsection (1)(b), effective July 1, 2011. (See L. 2006, p. 211.)

ANNOTATION

Applied in Colorado Water Quality Control Comm'n v. Town of Frederick, 641 P.2d 958 (Colo. 1982).

PART 8

STORM WATER MANAGEMENT SYSTEM ADMINISTRATORS

25-8-801. Definitions. As used in this part 8, unless the context otherwise requires:

(1) "Administrator" or "storm water management system administrator" means a nonprofit entity designated by the division to conduct the activities required under this part 8.

(2) "Advisory board" means an oversight group, established as a required element within each storm water management system administrator's program, that is made up of volunteers representing industry sector stakeholders active in the program, including nonprofit administrator representatives, participants, participating MS4s, and third-party auditors. While acting in the capacity of a board of directors, the advisory board has the authority to establish all program policies and procedures, collect and maintain program records, compile annual participant performance summary reports, and take all necessary actions to maintain the department's designation of the administrator.

(3) "CDPS" means the Colorado discharge permit system.

(4) "CDPS MS4 permit" means a CDPS permit for storm water discharges associated with an MS4.

(5) "CDPS storm water construction permit" means a CDPS permit for storm water discharges associated with construction activities.

(6) "MS4" means a municipal separate storm sewer system.

(7) "MS4 permittee" means a governmental entity with a CDPS permit for storm water discharges associated with an MS4.

(8) "Participant" means a person that is required to obtain a CDPS storm water construction permit from the division and that volunteers to participate in a storm water management system program administered by a storm water management system administrator.

(9) "SWMP" means a storm water management plan as defined in the CDPS permit for storm water discharges associated with construction activities.

(10) "Third-party auditor" means a person who meets the professional qualifications defined in the administrator's written program and who operates independently from, and is not an employee of, any participant or MS4 in the administrator's program.

Source: L. 2011: Entire part added, (HB 11-1026), ch. 159, p. 546, § 1, effective August 10.

25-8-802. Storm water management system administrator. (1) A nonprofit entity may apply to be a storm water management system administrator by completing an application in such form as the division may require. The division may designate one or more storm water management system administrators. To be designated as an administrator, the applicant must demonstrate to the satisfaction of the division that:

(a) The applicant has in place a standardized compliance assistance and assurance program that contains processes, procedures, and associated training for participants that, when fully implemented by the program participants, would result in full compliance with the requirements of the applicable CDPS storm water construction permit. The compliance assistance and assurance program shall assure, at a minimum, that each participant:

(I) Maintains a qualified permit compliance manager in accordance with the CDPS storm water construction permit and the administrator's written policies;

(II) Maintains complete and updated permit documentation available for inspection at the permitted facility;

(III) Completes established minimum requirements for training to maintain permit compliance manager status; and

(IV) Complies with all applicable terms and conditions required by any MS4 permittee with jurisdiction over the participant's construction activities.

(b) The applicant ensures that a third-party audit of each participant facility operating under a CDPS storm water construction permit is completed on a monthly basis using standardized inspection reporting forms and procedures approved by the division. Third-party audit reports must include standardized compliance performance measurement and scoring clearly demonstrating the following:

(I) The adequacy of implementation of each aspect of the administrator's storm water management systems;

(II) The adequacy of the SWMP in meeting all applicable permit requirements defined in this part 8; and

(III) The adequacy of each storm water management practice used to implement the SWMP.

(c) The applicant maintains records of its compliance assistance and assurance program, including a list of participants and each participant facility, and monthly required third-party audits, in a form approved by the division;

(d) The applicant has fully implemented the compliance assistance and assurance program with a sufficient number of participants to demonstrate the adequacy of the program for one year prior to submittal of an application for designation as an administrator;

(e) The applicant maintains an advisory board that meets regularly, but not less than quarterly, and such meetings are open to the public; and

(f) The applicant has a written storm water management program that includes:

(I) An organizational chart defining relationships among stakeholders, including the roles and responsibilities of each;

(II) Advisory board make-up and associated policies and procedures;

(III) Participant policies and procedures, including performance standards and measurement methodology;

(IV) Third-party auditor policies and procedures; and

(V) Other policies and procedures the division may require to demonstrate a complete and functional program.

(2) Upon the division's approval of the application, the division shall designate the applicant as a storm water management system administrator. The applicant shall maintain a compliance assistance and assurance program, including requiring third-party audits and record keeping, consistent with the requirements of this part 8.

(3) A storm water management system administrator shall provide to the division on at least a yearly basis a summary report that describes in detail significant program accomplishments and changes and that adequately demonstrates the overall performance of the

administrator's program in improving participant compliance with the participants' storm water permits. The division shall make the yearly administrator summary report available to the public.

(4) To the extent permitted by federal law, the division may reduce compliance oversight activities for facilities authorized to discharge under a CDPS storm water construction permit participating in a storm water management system administrator program based on a determination by the division that the participants or the participant facilities have a demonstrated record of reduced potential for occurrences of noncompliance and reduced risk of negative impacts on receiving waters. This part 8 does not prohibit or restrict any compliance oversight, including inspections, by the division.

(5) The division may revoke the designation of an administrator for evidence of repeated failure to meet the requirements of this part 8.

(6) The disclosure of any information related to a participant's third-party audit to an administrator is not a disclosure under section 25-1-114.5.

(7) Participation in a storm water management system administrator program by a holder of a CDPS storm water construction permit is strictly voluntary, and a participant may end its participation at any time upon written notice to the administrator.

(8) The administrator may work with the division to establish reporting requirements acceptable to the division that would allow participants in the administrator's program to participate in environmental performance recognition programs, including the department's environmental leadership program.

Source: L. 2011: Entire part added, (HB 11-1026), ch. 159, p. 547, § 1, effective August 10.

25-8-803. Storm water management system administrator audits to support MS4 permittees' programs. (1) MS4 permittees may choose to work with any administrator to assist the MS4 permittee in complying with the terms and conditions of the MS4 permittee's CDPS MS4 permit. An MS4 permittee may utilize all, or portions of, the storm water management system administrator's program as part of the MS4 permittee's program for oversight of construction sites to demonstrate compliance with the requirements of the MS4 permittee's CDPS permit for storm water discharges associated with an MS4.

(2) The division may consider third-party audits conducted pursuant to a storm water management system administrator's program to be part of the MS4 permittee's compliance oversight program required by its CDPS MS4 permit if the MS4 permittee formally utilizes the storm water management system administrator's program that conducted the audit, and the MS4 permittee implements procedures to demonstrate and report to the division, upon division request, that the administrator's program is meeting the requirements for third-party audits in section 25-8-802 (1) and (3) for participant construction activities located within the jurisdiction of the MS4 permittee.

(3) An MS4 permittee may reduce compliance oversight activities for facilities authorized to discharge under a CDPS storm water construction permit that are operated by participants in a storm water management system administrator's program based on a determination by the MS4 permittee that the participants or participant facilities have a demonstrated record of reduced potential for occurrences of noncompliance and reduced risk of negative impacts on receiving waters. This part 8 does not prohibit or restrict any compliance oversight, including inspections, by an MS4 permittee.

(4) Modification of the MS4 permittee's program is subject to division approval in accordance with the requirements of the applicable CDPS MS4 permit.

(5) An MS4 permittee's use of a storm water management system administrator's program is strictly voluntary, and an MS4 permittee may end its use of the program at any time upon written notice to the administrator.

(6) Nothing in this part 8 grants regulatory authority to a storm water management system administrator or the authority to impose any fine.

(7) Nothing in this part 8 preempts or supersedes any authority of an MS4 permittee or any other local agency.

(8) Nothing in this part 8 removes, reduces, or transfers the responsibility for compliance with an MS4 permit from the MS4 permittee.

25-8.5-101. Legislative declaration. (1) The general assembly hereby finds and declares that the organization of a Cherry Creek basin water quality authority will:

(a) Be for the public benefit and advantage of the people of the state of Colorado;

(b) Benefit the inhabitants and landowners within the authority by preserving water quality in Cherry Creek and Cherry Creek reservoir;

(c) Benefit the people of the state of Colorado by preserving waters for recreation, fisheries, water supplies, and other beneficial uses;

(d) Promote the health, safety, and welfare of the people of the state of Colorado.

(2) It is further declared that the authority will provide for effective efforts by the various counties, municipalities, special districts, and landowners within the boundaries of the authority in the protection of water quality.

(3) It is further declared that the authority should provide that new developments and construction activities pay their equitable proportion of costs for water quality preservation and facilities.

(4) This article, being necessary to secure the public health, safety, convenience, and welfare, shall be liberally construed to effect its purposes.

Source: L. 88: Entire article added, p. 1029, § 1, effective April 28.

25-8.5-102. Definitions. As used in this article, unless the context otherwise requires:

(1) "Agricultural lands" means all lands except land rezoned by a county or municipality for business, commercial, residential, or similar uses or subdivided lands. Those include property consisting of a lot one acre or more in size which contains a dwelling unit.

(2) "Authority" means the Cherry Creek basin water quality authority created pursuant to section 25-8.5-103.

(3) "Board" means the governing body of the authority provided for in section 25-8.5-106.

(3.5) "Conservation district" means any conservation district created pursuant to article 70 of title 35, C.R.S.

(4) "County" means any county enumerated in article 5 of title 30, C.R.S.

(5) "Municipality" means a municipality as defined in section 31-1-101 (6), C.R.S.

(6) "Publication" means three consecutive weekly advertisements in a newspaper or newspapers of general circulation within the boundaries of the authority. It shall not be necessary that an advertisement be made on the same day of the week in each of the three

weeks, but not less than twelve days, excluding the day of first publication, shall intervene between the first publication and the last publication. Publication shall be complete on the date of the last publication.

(7) "Resolution" means an ordinance as passed by a member municipality or a resolution as passed by a member county or special district.

(8) (Deleted by amendment, L. 2002, p. 517, § 12, effective July 1, 2002.)

(9) "Special district" means any district created pursuant to article 1 of title 32, C.R.S., which has the power to provide sanitation services or water and sanitation services and has wastewater treatment facilities within the boundaries of the authority.

(10) "Wastewater treatment facility" means a facility providing wastewater treatment services which has a designed capacity to receive sewage for treating, neutralizing, stabilizing, and reducing pollutants contained therein prior to the disposal or discharge of the treated sewage. "Wastewater treatment facility" does not include any pretreatment facilities, lift stations, interceptor lines, or other transmission facilities to transmit sewage effluent outside the boundaries of the authority.

Source: L. 88: Entire article added, p. 1030, § 1, effective April 28. **L. 2002:** (3.5) added and (8) amended, p. 517, § 12, effective July 1.

25-8.5-103. Creation and organization. The Cherry Creek basin water quality authority is hereby created. The authority shall be a quasi-municipal corporation and political subdivision of the state, with the powers provided in this article.

Source: L. 88: Entire article added, p. 1030, § 1, effective April 28.

25-8.5-104. Boundaries of authority. (1) The boundaries of the authority shall be determined by the authority, subject to the following:

(a) The boundaries shall be limited to the drainage basin of Cherry Creek from its headwaters to the dam at Cherry Creek reservoir, which the general assembly hereby finds to be:

(I) Arapahoe county: Portions of sections thirty-five and thirty-six, township four south, range sixty-seven west of the sixth principal meridian; a portion of section thirty-one, township four south, range sixty-six west of the sixth principal meridian; portions of sections one, two, three, ten, fifteen, twenty-two, twenty-three, twenty-seven, and thirty-four, and all of sections eleven, twelve, thirteen, fourteen, twenty-four, twenty-five, twenty-six, thirty-five and thirty-six, township five south, range sixty-seven west of the sixth principal meridian; all of sections seven, seventeen, eighteen, nineteen, twenty, twenty-one, twenty-two, twenty-five, twenty-six, twenty-seven, twenty-eight, twenty-nine, thirty, thirty-one, thirty-two, thirty-three, thirty-four, thirty-five, thirty-six and portions of sections five, six, eight, nine, fourteen, fifteen, sixteen, twenty-three and twenty-four, township five south, range sixty-six west of the sixth principal meridian; all of section thirty-one and portions of sections nineteen, twenty-nine, thirty, and thirty-two, township five south, range sixty-five west of the sixth principal meridian;

(II) Douglas county: Portions of sections four, nine, sixteen, twenty-one, twenty-eight and thirty-three, and all of sections five, six, seven, eight, seventeen, eighteen, nineteen, twenty, twenty-nine, thirty, thirty-one, and thirty-two, township six south, range sixty-five west of the sixth principal meridian; township six south, range sixty-six west of the sixth principal meridian; portions of sections three, ten, fifteen, twenty-one, twenty-two, twenty-eight, thirty-one, thirty-two and thirty-three, and all of sections one, two, eleven, twelve, thirteen, fourteen, twenty-three, twenty-four, twenty-five, twenty-six, twenty-seven, thirty-four, thirty-five and thirty-six, township six south, range sixty-seven west of the sixth principal meridian; portions of sections four, nine, sixteen, and twenty-one, and all of sections five, six, seven, eight, seventeen, eighteen, nineteen, twenty, twenty-eight, twenty-nine, thirty, thirty-one, thirty-two, and thirty-three, township seven south, range sixty-five west of the sixth principal meridian; township seven south, range sixty-six west of the sixth principal meridian; portions of sections four, five, nine, fourteen, fifteen, sixteen, twenty-

three, twenty-five, twenty-six, and thirty-six, and all of sections one, two, three, ten, eleven, twelve, thirteen, and twenty-four, township seven south, range sixty-seven west of the sixth principal meridian; portions of sections twenty-eight and thirty-three and all of sections four, five, six, seven, eight, nine, sixteen, seventeen, eighteen, nineteen, twenty, twenty-one, twenty-nine, thirty, thirty-one, and thirty-two, township eight south, range sixty-five west of the sixth principal meridian; portions of sections six, seven, eighteen, nineteen, twenty-nine, thirty, and thirty-one, and all of sections one, two, three, four, five, eight, nine, ten, eleven, twelve, thirteen, fourteen, fifteen, sixteen, seventeen, twenty, twenty-one, twenty-two, twenty-three, twenty-four, twenty-five, twenty-six, twenty-seven, twenty-eight, thirty-two, thirty-three, thirty-four, thirty-five and thirty-six, township eight south, range sixty-six west of the sixth principal meridian; a portion of section one, township eight south, range sixty-seven west of the sixth principal meridian; all of sections four, five, six, seven, eight, nine, sixteen, seventeen, eighteen, nineteen, twenty, twenty-one, twenty-eight, twenty-nine, thirty, thirty-one, thirty-two and thirty-three, township nine south, range sixty-five west of the sixth principal meridian; all of township nine south, range sixty-six west excepting portions of sections six and seven; portions of sections thirteen, twenty-three, twenty-four, twenty-five, and thirty-six, township nine south, range sixty-seven west of the sixth principal meridian; portions of sections twenty-eight and thirty-three, and all of sections four, five, six, seven, eight, nine, sixteen, seventeen, eighteen, nineteen, twenty, twenty-one, twenty-nine, thirty, thirty-one, and thirty-two, township ten south, range sixty-five west of the sixth principal meridian; portions of sections five, six, seven, eight, seventeen, eighteen, nineteen, twenty-nine, thirty, thirty-one, and all of sections one, two, three, four, nine, ten, eleven, twelve, thirteen, fourteen, fifteen, sixteen, twenty, twenty-one, twenty-two, twenty-three, twenty-four, twenty-five, twenty-six, twenty-seven, twenty-eight, thirty-two, thirty-three, thirty-four, thirty-five and thirty-six, township ten south, range sixty-six west of the sixth principal meridian; a portion of section one, township ten south range sixty-seven west of the sixth principal meridian.

(b) Lands may be included within the boundaries of the authority pursuant to section 25-8.5-119.

(c) Lands within the boundaries identified in paragraph (a) of this subsection (1) may be excluded from the authority pursuant to section 25-8.5-120.

(2) The authority shall maintain a current map, showing all lands that are included in the authority's boundaries.

Source: L. 88: Entire article added, p. 1031, § 1, effective April 28.

25-8.5-105. Authority members. (1) The following entities shall be members of the authority:

(a) Each county that has property within the authority's boundaries shall have one member;

(b) Each municipality that has property within the authority's boundaries shall have one member;

(c) The special districts that include in their service areas property within the Cherry Creek basin and that own and operate wastewater treatment services facilities in the Cherry Creek basin shall collectively be represented by a single member of the authority. For the purposes of this paragraph (c), wastewater treatment services shall mean a wastewater treatment facility with a designed capacity to receive more than two thousand gallons of sewage per day.

(d) A total of seven members shall be appointed by the governor to represent sports persons, recreational users, and concerned citizens. A minimum of two of these appointees shall be residents of Colorado and shall be from bona fide sports persons' or recreational organizations that have members who use the reservoir. A minimum of two of these appointees shall be from bona fide citizen or environmental organizations interested in preserving water quality with members who use the reservoir or live within Cherry Creek basin. At least three of the appointed members shall have backgrounds in or professional training regarding water quality issues. A simple majority of the appointed members shall be appointed to four-year terms, the remainder shall be appointed to initial two-year terms,

and the members appointed to fill the vacancies upon expiration of such two-year terms shall serve four-year terms. The governor may replace any appointed member with a new member by appointment every four years.

Source: L. 88: Entire article added, p. 1032, § 1, effective April 28. L. 2001: (1) amended, p. 896, § 1, effective August 8.

25-8.5-106. Board of directors. (1) The governing body of the authority shall be a board of directors which shall exercise and perform all powers, rights, privileges, and duties invested or imposed by this article.

(2) Each authority member shall appoint one representative and two alternates to serve on the board. The representative and alternates for the special district authority member shall be chosen by unanimous consent of the special districts referenced in section 25-8.5-105 (1) (c), or included under section 25-8.5-119. Any county, municipality, or special district that provides wastewater treatment services by contract with another entity that is a member of the authority shall not be entitled to a separate member on the board, and such a special district shall not be entitled to representation by the special district member.

(3) Directors shall be appointed for terms of two years. Notice of each appointment shall be given to the recording secretary for the authority.

(4) No director shall receive compensation as an employee of the authority. Reimbursement of actual expenses for directors shall not be considered compensation.

(5) An appointment to fill a vacancy on the board shall be made by the authority member for the remainder of the unexpired term.

(6) If a board member or designated alternate fails to attend two consecutive regular meetings of the board, the authority may submit a written request to the appointing authority member to have its representative attend the next regular meeting. If, following such request, said representative fails to attend the next regular board meeting, the board may appoint an interim representative from the authority member's jurisdiction to serve until the authority member appoints a new representative.

(7) An authority member, at its discretion, may remove from office any board member or designated alternate representing the authority member and appoint a successor.

(8) The board shall elect one of its members as chairman of the authority and one of its members as secretary-treasurer and shall appoint a recording secretary who may be a member of the board.

(9) The recording secretary shall keep in a visual text format that may be transmitted electronically a record of all of the authority's meetings, resolutions, certificates, contracts, bonds given by employees or contractors, and all corporate acts which shall be open to inspection of all interested parties.

(10) The secretary-treasurer shall keep strict and accurate accounts of all money received by and disbursed for and on behalf of the authority.

Source: L. 88: Entire article added, p. 1032, § 1, effective April 28. L. 2001: (2) amended, p. 897, § 2, effective August 8. L. 2009: (9) amended, (HB 09-1118), ch. 130, p. 561, § 3, effective August 5.

25-8.5-107. Voting. (1) Each authority member, through its designated director or designated alternate acting in the director's place, shall be entitled to one vote.

(2) Board action upon proposed waste load allocations, site location or site plans selected pursuant to section 25-8-702, discharge permits secured pursuant to section 25-8-501, amendments to the authority's wastewater management plan, and all budget and funding decisions shall require an affirmative vote of a majority of all authority members. Any vote by the special district member on such board action shall reflect the majority of the represented special districts.

(3) All decisions of the board not enumerated in subsection (2) of this section shall be made and decided by a majority of the quorum. A quorum requires that at least fifty percent of all authority members be present.

(4) A director shall disqualify himself from voting on any issue in which he has a conflict of interest unless such director has disclosed such conflict of interest in compliance with section 18-8-308, C.R.S., in which case such disclosure shall cure the conflict. A director shall abstain from voting if the director would obtain a personal financial gain from the contract or services being voted upon by the authority.

(5) Notwithstanding subsection (2) of this section, any vote regarding a change in the levy and collection of ad valorem taxes pursuant to section 25-8.5-111 (1) (p) (I) shall be limited to authority members representing municipalities or counties within the authority's boundaries.

Source: L. 88: Entire article added, p. 1033, § 1, effective April 28. **L. 2001:** (2) and (3) amended and (5) added, p. 897, § 3, effective August 8.

25-8.5-108. Ex officio members. (1) Ex officio members shall be provided with notice of the authority meetings. Ex officio members shall not serve on the board. Ex officio members are not voting members. The following shall be considered ex officio members:

(a) Every conservation district of which more than two-thirds of its territory is included within the authority's boundaries;

(b) Any other governmental or quasi-governmental agency designated as an ex officio member by the authority.

Source: L. 88: Entire article added, p. 1034, § 1, effective April 28. **L. 2002:** (1)(a) amended, p. 517, § 13, effective July 1.

25-8.5-109. Meetings. (1) The board shall fix the time and place at which its regular meetings shall be held and provide for the calling and holding of special meetings.

(2) Notice of the time and place designated for all regular meetings shall be posted at the office of the county clerk and recorder of each of the counties included within the authority. Such notices shall remain posted and shall be changed in the event that the time or place of such regular meetings is changed.

(3) Special meetings of the board shall be held at the call of the chairman or upon request of two board members. The authority shall inform all board members five calendar days before the special meeting and shall post notice in accordance with subsection (2) of this section at least three days before the special meeting of the date, time, and place of such special meeting and the purpose for which it is called.

(4) All business of the board shall be conducted only during said regular or special meetings, and all said meetings shall be open to the public, but the board may hold executive sessions as provided in part 4 of article 6 of title 24, C.R.S.

Source: L. 88: Entire article added, p. 1034, § 1, effective April 28. **L. 91:** (4) amended, p. 821, § 5, effective June 1.

25-8.5-110. Powers of board - organization - administration. (1) The board has the following powers relating to carrying on the affairs of the authority:

(a) To organize, adopt bylaws and rules of procedure, and select a chairman and chairman pro tempore;

(b) To make and pass resolutions and orders which are necessary for the governance and management of the affairs of the authority, for the execution of the powers vested in the authority, and for carrying out the provisions of this article;

(c) To fix the location of the principal place of business of the authority and the location of all offices maintained under this article;

(d) To prescribe by resolution a system of business administration, to create any and all necessary offices, to establish the powers and duties and compensation of all employees, and to require and fix the amount of all official bonds necessary for the protection of the funds and property of the authority;

(e) To appoint and retain employees, agents, and consultants to make recommendations, coordinate authority activities, conduct routine business of the authority, and act on behalf of the authority under such conditions and restrictions as shall be fixed by the board;

(f) To prescribe a method of auditing and allowing or rejecting claims and demands and a method for the letting of contracts on a fair and competitive basis for the construction of works, structures, or equipment or for the performance or furnishing of such labor, materials, or supplies as may be required for the carrying out of any of the purposes of this article.

Source: L. 88: Entire article added, p. 1034, § 1, effective April 28.

25-8.5-111. Powers of authority - general and financial. (1) In order to accomplish its purposes, the authority has the power to:

(a) Develop and implement, with such revisions as become necessary in light of changing conditions, plans for water quality controls for the reservoir, applicable drainage basin, waters, and watershed, to achieve and maintain the water quality standards. In particular, the authority shall submit, within two years after August 8, 2001, a plan to the water quality control commission that is intended to meet state water quality standards, including measures to mitigate the impacts of nonpoint source pollutants.

(b) Conduct pilot studies and other studies that may be appropriate for the development of potential water quality control solutions;

(c) Develop and implement programs to provide credits, incentives, and rewards within the Cherry Creek basin plan for water quality control projects;

(d) Recommend the maximum loads of pollutants allowable to maintain the water quality standards;

(e) Recommend erosion controls and urban runoff control standards and conduct educational programs regarding such controls in the basin;

(f) Recommend septic system maintenance programs;

(g) Incur debts, liabilities, and obligations;

(h) Have perpetual existence;

(i) Have and use a corporate seal;

(j) Sue and be a party to suits, actions, and proceedings;

(k) Enter into contracts and agreements affecting the affairs of the authority including, but not limited to, contracts with the United States and the state of Colorado and any of their agencies or instrumentalities, political subdivisions of the state of Colorado, corporations, and individuals;

(l) Acquire, hold, lease (as lessor or lessee), and otherwise dispose of and encumber real and personal property;

(m) Acquire, lease, rent, manage, operate, construct, and maintain water quality control facilities or improvements for drainage, nonpoint sources, or runoff within or without the authority;

(n) Establish rates, tolls, fees, charges, and penalties except on agricultural land for the functions, services, facilities, and programs of the authority; except that the total annual revenue collected from said rates, tolls, fees, and charges, less the cost of said functions, services, facilities, and programs, shall not exceed thirty percent of the annual authority budget;

(o) Establish in cooperation with the department of natural resources fees for Cherry Creek reservoir users, which amounts shall be subject to the review and approval of the board of parks and outdoor recreation, which shall not unreasonably withhold approval. Said reservoir fees, including all users regardless of activity, however established, shall not in total exceed the amount that would be collected if the reservoir user fee was one dollar per reservoir user per year.

(p) (I) Levy and collect ad valorem taxes on and against all taxable property within the authority subject to the limitation that no mill levy for any fiscal year shall exceed one-half mill; however, ad valorem taxes greater than one-half mill can be levied by the authority if it is approved by the electors at an election held according to the procedures of part 8 of article 1 of title 32, C.R.S.

(II) No property tax shall be levied until the fees from the recreation users and the development fees are established.

(q) Issue and refund revenue and assessment bonds and pledge the revenues of the authority or assessments therefor to the payment thereof in the manner provided in part 4 of article 35 of title 31, C.R.S., and as provided in this article;

(r) Invest any moneys of the authority in securities meeting the investment requirements established in part 6 of article 75 of title 24, C.R.S.;

(s) Review and approve water quality control projects of any entity other than the authority within the boundaries of the authority;

(t) Except that the authority shall not have the power to regulate agricultural nonpoint source activities; such agricultural nonpoint source activities shall be subject only to the provisions of section 25-8-205 (5);

(u) Have and exercise all rights and powers necessary or incidental to or implied from the specific powers granted to the authority by this article. Such specific powers shall not be considered as a limitation upon any power necessary or appropriate to carry out the purposes and intent of this article.

(2) Nothing in subsection (1) of this section shall be construed as authorizing the authority to take any action or spend any moneys in a manner that is inconsistent with its statutory purpose to protect and preserve the water quality of Cherry Creek reservoir. Consistent therewith, the authority shall expend funds only pertaining to the water quality standards, control regulations, or similar regulations regarding the water quality of Cherry Creek and Cherry Creek reservoir if such expenditures are clearly consistent with improving, protecting, and preserving such water quality. The authority shall focus its efforts on improving, protecting, and preserving the water quality of Cherry Creek and Cherry Creek reservoir, and on achieving and maintaining the existing water quality standards.

(3) Of the revenues collected by the authority under paragraphs (n), (o), and (p) of subsection (1) of this section, a minimum of sixty percent on an annual basis shall be spent on construction and maintenance of pollution abatement projects in the Cherry Creek basin or on payments due under loans or other debt incurred and spent by the authority entirely upon such projects.

Source: L. 88: Entire article added, p. 1035, § 1, effective April 28. L. 89: (1)(r) amended, p. 1111, § 17, effective July 1. L. 2001: (1)(a), (1)(d), (1)(e), and (1)(n) amended and (2) and (3) added, p. 898, § 4, effective August 8.

25-8.5-112. Power to issue bonds. To carry out the purposes of this article, the board is authorized to issue revenue or assessment bonds of the authority. Bonds shall bear interest at a rate such that the net effective interest rate of the issue of bonds does not exceed the maximum interest rate set forth in the resolution adopted by the board authorizing the issuance of the bonds, payable semiannually, and shall be due and payable serially, either annually or semiannually, commencing not later than three years after date of issuance. The form and terms of said bonds, including provisions for their payment and redemption, shall be determined by the board. If the board so determines, such bonds may be redeemable prior to maturity upon payment of a premium not exceeding three percent of the principal thereof. Said bonds shall be executed in the name and on behalf of the authority, signed by the chairman of the board with the seal of the authority affixed thereto, and attested by the secretary of the board. Said bonds shall be in such denominations as the board shall determine, and the bonds and coupons shall bear the original or facsimile signature of the chairman of the board.

25-8.5-113. Revenue refunding bonds. Any revenue bonds issued by the authority may be refunded by the authority, or by any successor thereof, in the name of the authority, subject to the provisions concerning their payment and to any other contractual limitations in the proceedings authorizing their issuance or otherwise appertaining thereto, by the

issuance of bonds to refund, pay, and discharge all or any part of such outstanding bonds, including any interest on the bonds in arrears or about to become due, for the purpose of avoiding or terminating any default in the payment of the interest on and principal of the bonds, of reducing interest costs or effecting other economies, or of modifying or eliminating restrictive contractual limitations appertaining to the issuance of additional bonds or to any system appertaining thereto or for any combination of such purposes. Refunding bonds may be delivered in exchange for the outstanding bonds refunded or may be sold as provided in this article for an original issue of bonds.

Source: L. 88: Entire article added, p. 1036, § 1, effective April 28.

25-8.5-114. Use of proceeds of revenue refunding bonds. The proceeds of revenue refunding bonds shall either be immediately applied to the retirement of the bonds being refunded or be placed in escrow in any state or national bank within the state which is a member of the federal deposit insurance corporation to be applied to the payment of the bonds being refunded upon their presentation therefor; but, to the extent any incidental expenses have been capitalized, such refunding bond proceeds may be used to defray such expenses, and any accrued interest and any premium appertaining to a sale of refunding bonds may be applied to the payment of the interest thereon or the principal thereof, or both interest and principal, or may be deposited in a reserve therefor, as the board may determine. Any such escrow shall not necessarily be limited to proceeds of refunding bonds but may include other moneys available for its purpose. Any proceeds in escrow, pending such use, may be invested or reinvested in securities meeting the investment requirements established in part 6 of article 75 of title 24, C.R.S. Such proceeds and investments in escrow, together with any interest to be derived from any such investment, shall be in an amount at all times sufficient as to principal, interest, any prior redemption premium due, and any charges of the escrow agent payable therefrom to pay the bonds being refunded as they become due at their respective maturities or due at any designated prior redemption dates in connection with which the board shall exercise a prior redemption option. Any purchase of any refunding bond issued under this article shall in no manner be responsible for the application of the proceeds thereof by the authority or any of its officers, agents, or employees.

25-8.5-115. Facilities - comprehensive program. (1) The authority, acting by and through the board, may acquire, construct, lease, rent, improve, equip, relocate, maintain, and operate water quality control facilities, any project, or any part thereof for the benefit of the authority and the inhabitants thereof, after the board has made such preliminary studies and otherwise taken such action as it determines to be necessary or desirable.

(2) (a) The authority shall develop a comprehensive program for the water quality control facilities specified in subsection (1) of this section. A comprehensive program may consist of one project or more than one project.

(b) A hearing on the proposed comprehensive program shall be scheduled, and notice of the hearing shall be given by publication and posted in the office of the county clerk and recorder of each member county. Upon closure of the hearing, the board may either require changes to be made in the comprehensive program or the board may approve or reject the comprehensive program as prepared.

(c) If any substantial changes to the comprehensive program are ordered at any time, a further hearing shall be held pursuant to notice which shall be given by publication.

Source: L. 88: Entire article added, p. 1037, § 1, effective April 28.

25-8.5-116. Coordination with drainage and flood control measures. (1) Any exercise by the authority of the powers granted by section 25-8.5-111 or 25-8.5-115 which

affects drainage and flood control shall be consistent with and conform to the drainage and flood control program of the urban drainage and flood control district adopted pursuant to section 32-11-214, C.R.S., the resolutions, rules, regulations, and orders of the district issued pursuant to section 32-11-218 (1) (e), C.R.S., and any flood plain zoning resolutions, rules, regulations, and orders of any public body having jurisdiction to adopt the same.

(2) Construction by the authority of drainage or water quality control facilities which might or will affect drainage or flood control within the boundaries of the urban drainage and flood control district shall not be undertaken until a proposal therefor has been presented to and approved by the board of directors of said district. Such proposal shall demonstrate compliance with the requirements of subsection (1) of this section, and the board shall apply the same standards of flood control and drainage criteria for approval thereof as it applies for review of proposals presented for approval pursuant to section 32-11-221, C.R.S. The provisions of section 32-11-221, C.R.S., shall apply to the presentation, consideration, and determination by said board of directors of any such proposal or modification thereof.

Source: L. 88: Entire article added, p. 1038, § 1, effective April 28.

25-8.5-117. Transfer of powers. (1) Upon the adoption of the board of directors of the urban drainage and flood control district and the board of directors of the authority created herein of a joint resolution delegating the agreed-upon responsibility to the urban drainage and flood control district for carrying out and meeting, within the district's boundaries, the compliance requirements and the permitting requirements imposed with respect to storm water runoff quality by the federal "Water Quality Act of 1987" and any regulations and standards adopted pursuant thereto or pursuant to state law, all powers contained in this act to deal with water quality control and compliance relating to the agreed-upon aspects of storm water runoff and nonpoint sources of pollution, including financial powers and special assessment powers but not including ad valorem taxation powers, shall be transferred to the urban drainage and flood control district.

(2) Upon the transfer of powers as provided in subsection (1) of this section, any allocation of waste loads affecting storm water runoff or nonpoint sources of pollution proposed or adopted by the authority shall be effective only upon adoption thereof or concurrence therewith by the board of directors of the urban drainage and flood control district.

(3) If the urban drainage and flood control district accepts the responsibility and the transfer of powers as provided in subsection (1) of this section, after completion of a plan for water quality controls by the authority which involves storm drainage runoff or nonpoint sources and after commencement of implementation of such plan, the district shall be bound to carry out the plan as it relates to the storm water and nonpoint source powers transferred to it within the time requirements, if any, of the plan.

Source: L. 88: Entire article added, p. 1038, § 1, effective April 28.

25-8.5-118. Power to levy special assessments. (1) The board, in the name of the authority, for the purpose of defraying all the cost of acquiring or constructing, or both, any project or facility authorized by this article, or any portion of the cost thereof not to be defrayed with moneys available therefor from its own funds, any special funds, or otherwise, also has the power under this article:

(a) To levy assessments against all or portions of the property within the authority and to provide for collection of the assessments pursuant to part 6 of article 20 of title 30, C.R.S.;

(b) To pledge the proceeds of any assessments levied under this article to the payment of assessment bonds and to create liens on such proceeds to secure such payments;

(c) To issue assessment bonds payable from the assessments, which assessment bonds shall constitute special obligations of the authority and shall not be a debt of the authority; and

(d) To make all contracts, to execute all instruments, and to do all things necessary or convenient in the exercise of the powers granted in this article or in the performance of the authority's duties or in order to secure the payment of its assessment bonds.

(2) The authority shall give notice, by publication once in a newspaper of general circulation in the authority, to the owners of the property to be assessed, which shall include:

- (a) The kind of improvements proposed;
- (b) The number of installments and the time in which the cost of the project will be payable;
- (c) A description of the properties which will be assessed;
- (d) The probable cost per acre or other unit basis which, in the judgment of the authority, reflects the benefits which accrue to the properties to be assessed; except that no benefit shall accrue to agricultural lands;
- (e) The time, not less than thirty days after the publication, when a resolution authorizing the improvements will be considered;
- (f) A map of the properties to be assessed, together with an estimate and schedule showing the approximate amounts to be assessed, and a statement that all resolutions and proceedings are on file and may be seen and examined by any interested person at the office of the authority or other designated place at any time within said period of thirty days; and
- (g) A statement that all complaints and objections by the owners of property to be assessed in writing concerning the proposed improvements will be heard and determined by the authority before final action thereon.

(3) The finding, by resolution, of the board that said improvements were ordered after notice given and after hearing held and that such proposal was properly initiated by the said authority shall be conclusive of the facts so stated in every court or other tribunal.

(4) Any resolution or order regarding the assessments or improvements may be modified, confirmed, or rescinded at any time prior to the passage of the resolution authorizing the improvements.

Source: L. 88: Entire article added, p. 1039, § 1, effective April 28.

25-8.5-119. Inclusion of property. (1) Any municipality, county, or special district, or any portion thereof, shall be eligible for inclusion upon resolution of its governing body requesting inclusion in the authority and describing the property to be included. The authority, by resolution, may include such property on such terms and conditions as may be determined appropriate by the board.

(2) Upon receipt of a resolution requesting inclusion, the board shall cause an investigation to be made within a reasonable time to determine whether or not the municipality, county, or special district, or portion thereof, may feasibly be included within the authority, whether the municipality, county, or special district has any property which is tributary to the basin, waters, or watersheds governed by the authority, and the terms and conditions upon which the municipality, county, or special district may be included within the authority. If it is determined that it is feasible to include the municipality, county, or special district, or portion thereof, in the authority, and the municipality, county, or special district has property tributary to the basin, waters, or watersheds governed by the authority, the board by resolution shall set the terms and conditions upon which the municipality, county, or special district, or portion thereof, may be included within the authority and shall give notice thereof to the municipality, county, or special district. If the board determines that the municipality, county, or special district, or portion thereof, cannot feasibly be included within the authority or otherwise determines that the municipality, county, or special district should not be included within the authority, the board shall pass a resolution so stating and notifying the municipality, county, or special district of the action of the board. The board's determination that the county, municipality, or special district, or portion thereof, should not be included in the authority shall be conclusive.

(3) (a) If the governing body of the municipality, county, or special district desires to include the municipality, county, or special district, or portion thereof, within the authority upon the terms and conditions set forth by the board, the governing body shall adopt a

resolution declaring that the public health, safety, and general welfare requires the inclusion of said municipality, county, or special district within the authority and that the governing body desires to have said municipality, county, or special district, or portion thereof, included therein upon the terms and conditions prescribed by the board. The governing body of such municipality, county, or special district, before final adoption of said resolution, shall hold a public hearing thereon, notice of which shall be given by publication in a newspaper of general circulation within such municipality, county, or special district, which shall be complete at least ten days before the hearing. Upon the final adoption of said resolution, the clerk of the governing body of such municipality, county, or special district shall forthwith transmit a certified copy of the resolution to the board and to the division of local government in the department of local affairs.

(b) After receipt of a copy of such resolution, the board shall pass and adopt a resolution including said municipality, county, or special district, or portion thereof, in the authority and shall cause a certified copy thereof to be transmitted to the division of local government and a certified copy to the governing body of the municipality, county, or special district.

(4) The director of said division, upon receipt of a certified copy of the resolution of the board, shall forthwith issue a certificate reciting that the municipality, county, or special district, or portion thereof, described in such resolution has been duly included within the authority according to the laws of the state of Colorado. The inclusion of such territory shall be deemed effective upon the date of the issuance of such certificate, and the validity of such inclusion shall not be contestable in any suit or proceeding which has not been commenced within thirty days from such date. The said division shall forthwith transmit to the governing body of such municipality, county, or special district and to the board five copies of such certificate, and the clerk of such governing body shall forthwith record a copy of the certificate in the office of the clerk and recorder of each county in which such municipality, county, or special district, or portion thereof, is located and file a copy thereof with the county assessor of each such county. Additional copies of said certificate shall be issued by the division of local government upon request.

Source: L. 88: Entire article added, p. 1040, § 1, effective April 28.

25-8.5-120. Exclusion of property. (1) Any owner of property within the boundaries of the authority may petition to be excluded from the authority.

(2) In order for such property to be excluded, the board must determine that the property does not receive wastewater treatment services or have an on-site wastewater treatment system located within the authority and either:

(a) Was improperly included within the authority; or

(b) Is not tributary to the basin, waters, or watersheds governed by the authority or will not benefit from projects or improvements provided by the authority.

(3) Any petition for exclusion shall specify the property to be excluded and evidence that the property complies with the criteria of subsection (2) of this section.

(4) The authority shall provide notice of the date, time, and place of the authority's meeting to consider the petition for exclusion.

(5) The authority may approve, modify, or deny a petition for exclusion.

(6) If the authority approves a petition for exclusion of property, the authority shall file a copy of said resolution with the division of local government and with the county, municipality, or special district authority members which includes within its boundaries the excluded property, record a copy of the resolution in the office of the county clerk and recorder in the county in which said excluded property is located, and file a copy with the county assessor in such county.

ANNOTATION

Law reviews. For article, “1974 Land Use Legislation in Colorado”, see 51 Den. L.J. 467 (1974).

- 25-9-102. Definitions.** As used in this article, unless the context otherwise requires:
- (1) “Board” means the water and wastewater facility operators certification board.
 - (2) “Certificate” means the certificate of competency issued by the board stating that the operator named thereon has met the requirements for the specified operator classification of the certification program.
 - (3) “Certified operator” means the person who has responsibility for the operation of any water and wastewater facility covered under this article and is certified in accordance with the provisions of this article.
 - (4) “Department” means the Colorado department of public health and environment.
 - (4.3) “Division” means the water quality control division within the department of public health and environment.
 - (4.5) “Domestic wastewater treatment facility” means any facility or group of units used for the treatment of domestic wastewater or for the reduction and handling of solids and gases removed from such wastes, whether or not the facility or group of units is discharging into state waters. “Domestic wastewater treatment facility” specifically excludes on-site wastewater treatment systems.
 - (4.7) “Industrial wastewater treatment facility” means any facility or group of units used for the pretreatment, treatment, or handling of industrial waters, wastewater, reuse water, and wastes that are discharged into state waters. “Industrial wastewater treatment facility” includes facilities that clean up contaminated groundwater or spills; except that such term does not include facilities designed to operate for less than one year or facilities with in-situ discharge.

(4.8) “Small system” means a water or wastewater facility that serves a population of three thousand three hundred or less.

(4.9) “Wastewater collection system” means a system of pipes, conduits, and associated appurtenances that transports domestic wastewater from the point of entry to a domestic wastewater treatment facility. The term does not include collection systems that are within the property of the owner of the facility.

(5) “Wastewater treatment facility” means either a domestic wastewater treatment facility or an industrial wastewater treatment facility.

(5.3) “Water and wastewater facility” means a water treatment facility, wastewater treatment facility, water distribution system, or wastewater collection system.

(6) “Water distribution system” means any combination of pipes, tanks, pumps, or other facilities that delivers water from a source or treatment facility to the consumer.

(7) “Water treatment facility” means the facility or facilities within the water distribution system that can alter the physical, chemical, or bacteriological quality of the water.

ANNOTATION

Law reviews. For article, “1974 Land Use Legislation in Colorado”, see 51 Den. L.J. 467 (1974).

25-9-103. Water and wastewater facility operators certification board - composition - repeal of article. (1) There is hereby created the water and wastewater facility operators certification board, which shall constitute a section of the division of administration of the department and shall consist of the following ten members:

(a) A certified water treatment or domestic wastewater treatment facility operator with the highest level of certification available in Colorado;

(b) A certified industrial wastewater treatment facility operator or other representative of a private entity that operates an industrial wastewater treatment facility;

(c) A city manager, manager of a special district, or utility manager in a city, county, or city and county that operates a domestic water or wastewater treatment facility;

(d) A representative of the department of public health and environment, who shall be an ex officio, nonvoting member;

(e) A certified water distribution or wastewater collection system operator with the highest level of certification available in Colorado;

(f) A representative from the Colorado rural water association; and

(g) Four members appointed to achieve geographical representation and to reflect the various interests in the water and wastewater facility certification program. At least one of such members shall reside west of the continental divide, and at least one shall reside in the rural portion of the eastern plains of Colorado.

(2) All members of the board shall be appointed by the governor. At least four of the voting members of the board shall be certified water or wastewater facility operators, including representatives of both the water and wastewater industries.

(3) (a) Except as otherwise provided in paragraph (b) of this subsection (3), appointments are for terms of four years.

(b) The board shall be reconstituted as of July 1, 2004. The governor shall make initial appointments or reappointments to the reconstituted board so that two voting members’

terms expire in 2005, two voting members' terms expire in 2006, two voting members' terms expire in 2007, and three voting members' terms expire in 2008.

(4) This article is repealed, effective July 1, 2013. Prior to such repeal, the water and wastewater facility operators certification board shall be reviewed as provided for in section 24-34-104, C.R.S.

Source: L. 73: p. 748, § 1. C.R.S. 1963: § 66-38-3. L. 88: (4) added, p. 931, § 17, effective April 28. L. 91: (4) amended, p. 688, § 58, effective April 20. L. 96: Entire section amended, p. 357, § 2, effective July 1. L. 2000: (1) and (4) amended, p. 768, § 3, effective May 23. L. 2004: Entire section amended, p. 280, § 3, effective July 1. L. 2011: (3) amended, (SB 11-021), ch. 66, p. 174, § 1, effective July 1.

25-9-104. Duties of board - rules. (1) (a) The board shall elect a chair and secretary each year and shall establish rules in accordance with article 4 of title 24, C.R.S., setting forth the requirements governing certification for water and wastewater facility operators, including application for certification; admission to the examinations; setting and coordination of examination schedules; recording and issuing of certificates for the class of operator for which the applicant is found to be qualified; renewal of certificates; issuance of certificates based on reciprocity; minimum standards of operator performance; and standards for the accreditation of training programs. The board may select and appoint one or more independent nonprofit corporations to carry out the administration of the program and examinations, including, but not limited to, maintaining records of certified operators; notifying operators of expiration of certification; providing information on accredited training requirements; preparing and furnishing the examination material; collecting fees as set forth in section 25-9-108; setting the times, dates, and places for holding examinations, one of which shall be given at least annually, in accordance with rules of the board; grading examination papers; evaluating work experience of applicants; evaluating continuing training achievements for renewal of certification; and evaluating requests for reciprocity. The board shall ensure that an office is maintained for contact with operators and employers. The board shall also ensure, through the use of subject matter experts, that all certification examinations test for information that is relevant to the knowledge that is necessary to operate the level of facility for which certification is sought. The board may adopt such rules in accordance with article 4 of title 24, C.R.S., as are necessary to ensure the proper administration of the program and shall enter into contracts with any nonprofit corporation selected or appointed by the board to ensure that each nonprofit corporation receives applications and fees, conducts such examinations as may be directed by the board, records the results thereof, notifies applicants of results, recommends issuance of certificates, provides feedback to examinees upon request following each examination, and prepares and distributes an annual report. With the permission of the board, a nonprofit corporation contracted with by the board may enter into subsidiary agreements with other nonprofit corporations, educational institutions, and for-profit corporations to carry out the duties assigned by the board; except that any such subsidiary agreements shall be subject to prior approval by the board. The board shall be responsible for and shall retain the final authority for all actions and decisions carried out on behalf of the board by any such nonprofit corporation, educational institution, or for-profit corporation. Such authority shall include, but shall not be limited to, the authority to modify, suspend, or reverse any action or decision of any nonprofit corporation, educational institution, or for-profit corporation.

(b) In order to qualify for consideration to administer the duties set forth in this section, a nonprofit corporation must have expertise in training and testing procedures, as well as demonstrated knowledge of water and wastewater treatment, collection, and distribution systems.

(2) The board may promote and assist in regular training schools and programs designed to aid applicants and other interested persons to acquire the necessary knowledge to meet the certification requirements of this article.

(3) The board shall establish classes of certified water treatment facility operators, classes of domestic wastewater treatment facility operators, classes of industrial wastewater treatment facility operators, classes of water distribution system operators, classes of

wastewater collection system operators, classes of operators for small systems, and classes of other persons who require and qualify for multiple certifications. In establishing each classification, the board shall differentiate the various levels of complexity to be encountered in water and wastewater facility operation and the appropriate qualifications for certification for each class. The board shall set minimum education, experience, examination, and ongoing training requirements for each class.

(4) The board shall maintain for each water and wastewater facility a minimum class of certified operators required for its supervision; except that the board may exempt certain industrial wastewater treatment facilities or classes of facilities from the requirement to operate under the supervision of a certified operator, based upon a determination that such an exemption is not inconsistent with the goal of assuring adequate operation of water and wastewater facilities to protect public health and the environment. In determining whether to provide such an exemption, the board may consider criteria including, but not limited to:

- (a) Discharges of limited duration;
- (b) The sensitivity of the receiving waters;
- (c) The level of toxic pollutants in the discharge; and
- (d) Situations where chemical, mechanical, or biological treatment techniques are not required to meet permit limits, including, but not limited to, sedimentation ponds at mining operations for construction materials, as that term is defined in section 34-32.5-103 (3), C.R.S.

(5) The board shall establish a procedure whereby any decision of the board, the division, or any organization performing duties on behalf of the division can be subject to appeal to the board.

(6) The board shall exercise such other powers and duties as are deemed necessary within the scope of this article. The board, in accordance with the “State Administrative Procedure Act”, article 4 of title 24, C.R.S., shall establish criteria for the discipline or reprimand of any water or wastewater facility operator and for the suspension or revocation of the certification of any such operator. Such criteria shall include but shall not be limited to:

- (a) Willfully or negligently violating, causing, or allowing the violation of rules promulgated pursuant to this article or failing to comply with the provisions of this article;
- (b) Submitting false or misleading information on any document provided to the department, the board, or any organization acting on behalf of the board;
- (c) Using fraud or deception in the course of employment as an operator;
- (d) Failing to conform with minimum standards in the performance of an operator’s duties; and
- (e) Engaging in dishonest conduct during an examination.

(6.5) The division shall have the primary responsibility for the investigation of instances of possible misconduct by water and wastewater facility operators and shall report the results of any investigation to the board and make recommendations regarding appropriate disciplinary action to the board. The board may promulgate rules in accordance with article 4 of title 24, C.R.S., to allow the division to immediately suspend or revoke certifications where such immediate action is necessary to protect the public health or environment.

(7) Members of the board shall serve without compensation, but shall be reimbursed for their necessary expenses.

(8) The board shall exercise its powers and perform its duties and functions as if it were transferred to the department by a **type 1** transfer under the “Administrative Organization Act of 1968”, article 1 of title 24, C.R.S.

25-9-106. Domestic wastewater treatment facility operator. (1) Persons who by specifically relevant examination, education, and experience are found to be qualified for certification as domestic wastewater treatment facility operators or wastewater collection system operators shall be certified as having the minimum qualifications required for each of the respective classes as established by the board by rules promulgated in accordance with article 4 of title 24, C.R.S.

(a) to (d) (Deleted by amendment, L. 2000, p. 772, § 6, effective May 23, 2000.)

Source: L. 73: p. 749, § 1. C.R.S. 1963: § 66-38-6. L. 96: IP(1) and (1)(d) amended, p. 359, § 5, effective July 1. L. 2000: (1) amended, p. 772, § 6, effective May 23.

25-9-106.2. Industrial wastewater treatment facility operator. (1) Persons who by specifically relevant examination, education, and experience are found to be qualified for certification as industrial wastewater treatment facility operators shall be certified as having the minimum qualifications required for each of the respective classes as established by the board by rules promulgated in accordance with article 4 of title 24, C.R.S.

(a) to (c) (Deleted by amendment, L. 2000, p. 773, § 7, effective May 23, 2000.)

Source: L. 96: Entire section added, p. 359, § 6, effective July 1. L. 2000: (1) amended, p. 773, § 7, effective May 23.

25-9-106.3. Multiple facility operator. Persons who by specifically related examination, education, and experience are found to be qualified for certification in more than one category of facility operators shall be certified as having the minimum qualifications required for such applicable multiple facility operator classes as the board may establish by rules promulgated in accordance with article 4 of title 24, C.R.S. Such classes of multiple facility operators shall be designed to minimize the number of separate examinations and separate operator certifications that must be held by persons working for small systems, persons in the private sector performing work for a municipality or industry, and other categories and classes where a multiple facility operator certification would be efficient and meet the goals of this article. Such multiple facility certifications may contain conditions established by the board restricting the certification to specific facilities, types of facilities, or activities.

Source: L. 2000: Entire section added, p. 773, § 8, effective May 23.

25-9-106.5. Education and experience - substitution allowed. Water and wastewater facility operator applicants must have a high school diploma or have successfully completed the GED as defined in section 22-33-102 (7), C.R.S.; except that experience or relevant training may be substituted for the high school diploma or GED. Education, training as established under section 25-9-104 (2), and cross-experience may be substituted for experience requirements for certification as a water facility operator, as a water distribution system operator, as a domestic wastewater facility operator, as a wastewater collection system operator, as an industrial wastewater treatment facility operator, or as a multiple facility operator; except that at least fifty percent of any experience requirement shall be met by actual on-site operating experience in a water facility or a wastewater facility, as the case

may be. For the lowest classification of operator in each category, the board may establish rules allowing complete substitution of education for experience for any applicant who passes the applicable examination. For purposes of this section, "cross-experience" means that experience as a wastewater treatment facility operator may be substituted for experience requirements for certification as water treatment facility operator and vice versa.

(2) For the legislative declaration stating the purpose of and the provision directing legislative staff agencies to conduct a post-enactment review pursuant to § 2-2-1201 scheduled in 2016, see sections 21 and 46 of chapter 188, Session Laws of Colorado 2012. To obtain a copy of the review, once completed, view Colorado Legislative Council's web site.

25-9-107. Certification procedure. (1) Any individual possessing the required education and experience may apply for certification in the manner designated by the board on such forms as required and approved by the board. The application shall be accompanied by such fee as required by section 25-9-108. Those applicants who meet the minimum qualifications as established by rules of the board promulgated in accordance with article 4 of title 24, C.R.S., for certification shall be admitted for examination.

(2) When an individual desires certification in a field other than the field in which the individual has experience, the individual's experience shall be evaluated by the board or as directed by the board. The certificate issued is to be based upon the knowledge demonstrated by the applicant through examination and the individual's verified record of work experience in water and wastewater facility operation.

(3) Certificates shall be awarded by the board or at the direction of the board for a period of three years only to those applicants successfully meeting all of the requirements.

(4) (a) Certificates shall be renewed upon payment of the required renewal fee and a showing that the applicant for renewal has met the requirements established by the board for ongoing training.

(b) If any operator fails to renew the operator's certification before the expiration date of such certification, such certification is expired. If a certification expires because of failure to renew before the expiration date of such certification, the operator may renew the certification up to two years after the expiration date upon paying the required renewal fee and meeting the applicable ongoing training requirements for the certification being renewed. If an operator does not renew a certification within two years after the expiration date of such certification, the certification is automatically revoked and an applicant for recertification must meet all the requirements for certification as a new applicant.

(4.5) (Deleted by amendment, L. 96, p. 360, 8, effective July 1, 1996.)

(5) The board, upon application therefor, may issue a certificate, without examination, in a comparable classification to any person who holds a certificate in any state, territory, or possession of the United States or any country, providing the requirements for certification of operators under which the person's certificate was issued do not conflict with the provisions of this article and are of a standard not lower than that specified by regulations adopted under this article. Where there is a question as to the level of certification that should be granted, the board may authorize special examination or other procedures to confirm the appropriate certification level.

25-9-108. Fees. (1) Each application for certification shall be accompanied by a fee in the amount of fifteen dollars that is not refundable. The board shall adopt rules that set program fees in addition to the nonrefundable application fee in accordance with the provisions of article 4 of title 24, C.R.S., and such fees shall reflect the actual costs of administering the program as set forth in section 25-9-104 (1). Such fees may be collected and retained by a nonprofit corporation selected and appointed by the board pursuant to section 25-9-104 (1) to pay for its actual costs to administer the program as approved by the board through duly adopted rules. However, any such nonprofit corporation shall remit a portion of the fee in the amount of five dollars for each new and renewal certificate to be issued to the department of the treasury pursuant to the provisions of section 24-36-103, C.R.S. With the approval of the board, all moneys may be paid to the nonprofit corporation and except for the five dollars for new and renewal certifications may be retained by the nonprofit corporation to defray program expenses. Alternatively, if certification and renewal fees are received directly by the board, all moneys shall be deposited with the department of the treasury pursuant to the provisions of section 24-36-103, C.R.S.

(2) Notwithstanding the amount specified for any fee in subsection (1) of this section, the board by rule or as otherwise provided by law may reduce the amount of one or more of the fees if necessary pursuant to section 24-75-402 (3), C.R.S., to reduce the uncommitted reserves of the fund to which all or any portion of one or more of the fees is credited. After the uncommitted reserves of the fund are sufficiently reduced, the board by rule or as otherwise provided by law may increase the amount of one or more of the fees as provided in section 24-75-402 (4), C.R.S.

Source: **L. 73:** p. 751, § 1. **C.R.S. 1963:** § 66-38-8. **L. 98:** Entire section amended, p. 1336, § 53, effective June 1. **L. 2000:** (1) amended, p. 775, § 11, effective May 23.

25-9-109. Use of title. Only a person who has been qualified by the board as a certified operator and who possesses a valid certificate attesting to this certification in this state shall have the right and privilege of using the title “certified water treatment facility operator, class”, “certified domestic wastewater treatment facility operator, class”, “certified industrial wastewater treatment facility operator, class”, “certified wastewater collection system operator, class”, “certified water distribution system operator, class”, or “multiple facilities operator, class”.

Source: **L. 73:** p. 751, § 1. **C.R.S. 1963:** § 66-38-9. **L. 96:** Entire section amended, p. 361, § 9, effective July 1. **L. 2000:** Entire section amended, p. 776, § 12, effective May 23. **L. 2010:** Entire section amended, (HB 10-1422), ch. 419, p. 2104, § 120, effective August 11.

25-9-110. Violations - penalty. (1) It is unlawful for any person to represent himself or herself as a certified operator of any category and of any class without first being so certified by the board and without being the holder of a current valid certificate issued by the board. Any person violating the provisions of this subsection (1) is guilty of a misdemeanor and, upon conviction thereof, shall be punished by a fine of not more than three thousand dollars.

(2) (a) It is unlawful for any owner of a water treatment facility, a domestic or industrial wastewater treatment facility, a wastewater collection system, or a water distribution system in the state of Colorado to allow the facility to be operated without the supervision of a certified operator of the classification required by the board for the specific facility.

(b) Notwithstanding paragraph (a) of this subsection (2), a sedimentary pond maintained in accordance with a permit issued by the division of reclamation, mining, and safety that does not require a permit issued by the water quality control division of the department of public health and environment shall not require the supervision of a certified operator.

(3) Whenever the division has reason to believe that a violation of subsection (2) of this section has occurred, the division shall cause written notice to be served personally or by certified mail, return receipt requested, upon the alleged violator or their agent for service of process. The notice shall state the provision of subsection (2) alleged to be violated and the facts alleged to constitute a violation and it may include specific action proposed to be required to cease the alleged violation. The division shall require the alleged violator to answer each alleged violation.

(4) Upon being served with any notice given under subsection (3) of this section, the alleged violator may request a public hearing. Such request shall be filed in writing with the division no later than thirty days after service of the notice. If such a request is made, a hearing shall be held within a reasonable time. Hearings held pursuant to this subsection (4) shall be conducted before the board in accordance with section 24-4-105, C.R.S. The determination of the board following a hearing shall be considered final agency action as to whether a violation has occurred.

(5) Any owner of a water treatment facility, a domestic or industrial wastewater treatment facility, a wastewater collection system, or a water distribution system in the state of Colorado who violates subsection (2) of this section shall be subject to a civil penalty of not more than three hundred dollars per day for each day during which such violation occurs. Any civil penalty collected under this section shall be credited to the general fund.

(6) Upon application of the division, any penalty for a violation of subsection (2) of this section shall be determined by the executive director of the department or his or her designee and may be collected by the division through a collection action instituted in a court of competent jurisdiction. The final decision of the executive director or his or her designee may be appealed to the board. A stay of any order of the division pending judicial review shall not relieve any person from any liability under this section, but the reason for the request for judicial review shall be considered in the determination of the amount of the penalty. In the event that such an action is instituted for the collection of such penalty, the court may consider the appropriateness of the amount of the penalty if the party against whom the penalty was assessed raises the issue.

ANNOTATION

Law reviews. For article, “1974 Land Use and Regulation”, see 51 U. Colo. L. Rev. 465 (1980).
For article, “Synthetic Fuels — Policy (1974).

25-10-102. Legislative declaration. (1) The general assembly declares it to be in the public interest to establish minimum standards and rules for on-site wastewater treatment systems in the state and to provide the authority for the administration and enforcement of those minimum standards and rules:

- (a) To preserve the environment and protect the public health and water quality;
- (b) To eliminate and control causes of disease, infection, and aerosol contamination; and
- (c) To reduce and control the pollution of the air, land, and water.

Source: L. 97: Entire article amended with relocations, p. 122, § 1, effective July 1.
L. 2012: Entire article amended, (HB 12-1126), ch. 137, p. 481, § 1, effective August 8.

25-10-103. Definitions. As used in this article, unless the context otherwise requires:

(1) “Absorption system” means a leaching field and adjacent soils or other system for the treatment of sewage in an on-site wastewater treatment system by means of absorption into the ground.

(2) “Applicant” means a person who submits an application for a permit for an on-site wastewater treatment system.

(3) “Cesspool” means an unlined or partially lined underground pit or underground perforated receptacle into which raw household wastewater is discharged and from which the liquid seeps into the surrounding soil. “Cesspool” does not include a septic tank.

(4) “Commission” means the water quality control commission created by section 25-8-201.

(5) “Department” means the department of public health and environment created by section 25-1-102.

(6) “Division” means the division of administration of the department.

(7) “Effluent” means the liquid flowing out of a component or device of an on-site wastewater treatment system.

(8) “Environmental health specialist” means a person trained in physical, biological, or sanitary science to carry out educational and inspectional duties in the field of environmental health.

(9) “Health officer” means the chief administrative and executive officer of a local public health agency, or the appointed health officer of the local board of health. “Health officer” includes a director of a local public health agency.

(10) “Local board of health” means any local, county, or district board of health.

(11) “Local public health agency” means any county, district, or municipal public health agency and may include a county, district, or municipal board of health or local agency delegated by a county, district, or municipal board of health to oversee OWTS permitting and inspection or an OWTS program.

(12) “On-site wastewater treatment system” or “OWTS” and, where the context so indicates, the term “system”, means an absorption system of any size or flow or a system or facility for treating, neutralizing, stabilizing, or dispersing sewage generated in the vicinity, which system is not a part of or connected to a sewage treatment works.

(13) “Percolation test” means a subsurface soil test at the depth of a proposed absorption system or similar component of an on-site wastewater treatment system to determine the water absorption capability of the soil, the results of which are normally expressed as the rate at which one inch of water is absorbed.

(14) “Permit” means a permit for the construction or alteration, installation, and use or for the repair of an on-site wastewater treatment system.

(15) “Person” means an individual, partnership, firm, corporation, association, or other legal entity and also the state, any political subdivision thereof, or other governmental entity.

(16) “Professional engineer” means an engineer licensed in accordance with part 1 of article 25 of title 12, C.R.S.

(17) “Septage” means a liquid or semisolid that includes normal household wastes, human excreta, and animal or vegetable matter in suspension or solution generated from a residential septic tank system. “Septage” may include such material issued from a commercial establishment if the commercial establishment can demonstrate to the department that the material meets the definition for septage set forth in this subsection (17). “Septage” does not include chemical toilet residuals.

(18) “Septic tank” means a watertight, accessible, covered receptacle designed and constructed to receive sewage from a building sewer, settle solids from the liquid, digest organic matter, store digested solids through a period of retention, and allow the clarified liquids to discharge to other treatment units for final disposal.

(19) “Sewage” means a combination of liquid wastes that may include chemicals, house wastes, human excreta, animal or vegetable matter in suspension or solution, and other solids in suspension or solution, and that is discharged from a dwelling, building, or other establishment.

(20) “Sewage treatment works” has the same meaning as “domestic wastewater treatment works” under section 25-8-103.

(21) “Soil evaluation” means a percolation test, soil profile, or other subsurface soil analysis at the depth of a proposed soil treatment area or similar component or system to determine the water absorption capability of the soil, the results of which are normally expressed as the rate at which one inch of water is absorbed or as an application rate of gallons per square foot per day.

(22) “Soil treatment area” means the physical location where final treatment and dispersal of effluent occurs. “Soil treatment area” includes drainfields and drip fields.

(23) “State waters” has the meaning set forth under section 25-8-103.

(24) “Systems cleaner” means a person engaged in and who holds himself or herself out as a specialist in the cleaning and pumping of on-site wastewater treatment systems and removal of the residues deposited in the operation thereof.

(25) “Systems contractor” means a person engaged in and who holds himself or herself out as a specialist in the installation, renovation, and repair of on-site wastewater treatment systems.

Source: L. 97: Entire article amended with relocations, p. 122, § 1, effective July 1. **L. 2004:** (16) amended, p. 1312, § 60, effective May 28. **L. 2006:** (2.5) added and (8) and (21) amended, p. 1129, § 6, effective July 1. **L. 2010:** (11) and (12) amended, (HB 10-1422), ch. 419, p. 2105, § 121, effective August 11. **L. 2012:** Entire article amended, (HB 12-1126), ch. 137, p. 482, § 1, effective August 8.

25-10-104. Regulation of on-site wastewater treatment systems - state and local rules. (1) The division shall develop, and recommend to the commission for adoption, rules setting forth minimum standards for the location, design, construction, performance, installation, alteration, and use of on-site wastewater treatment systems within Colorado. The commission may establish criteria for issuing variances in the rules.

(2) Every local board of health in the state shall develop and adopt detailed rules for on-site wastewater treatment systems within its area of jurisdiction. The rules must comply with the rules adopted by the commission pursuant to subsection (1) of this section and with sections 25-10-105 and 25-10-106. Before finally adopting such rules or any amendment to

the rules, the local board of health shall hold a public hearing on the proposed rules or amendments. The local board of health shall give notice of the time and place of the hearing at least once, at least twenty days before the hearing, in a newspaper of general circulation within its area of jurisdiction. After the public hearing and before final adoption, the local board of health may make changes or revisions to the proposed rules or amendments, and no further public hearing is required regarding the changes or revisions. All rules and amendments must be transmitted to the department no later than five days after final adoption and become effective forty-five days after final adoption unless the department notifies the local board of health before the forty-fifth day that the rules or amendments are not in compliance with this section or section 25-10-105 or 25-10-106.

(3) If a local board of health has not adopted rules in compliance with this section and submitted them to the commission, the commission shall promulgate rules for the areas of the state for which no complying rules have been adopted, except for areas serviced exclusively by a sewage treatment works. Rules for such areas of the state promulgated by the commission must comply with the rules adopted under subsection (1) of this section and sections 25-10-105 and 25-10-106. The rules must be the same for all the areas of the state for which the commission promulgates such rules, except as may be appropriate to provide for differing geologic conditions.

(4) A local board of health may adopt rules after action by the commission under subsection (3) of this section, if the rules comply with the procedural requirements of subsection (2) of this section and are no less stringent than those promulgated by the commission. Rules of the local board so adopted become effective only after they are transmitted to the division and the division determines that they comply with this section and sections 25-10-105 and 25-10-106.

(5) In promulgating rules under this article, the commission and local boards of health shall give consideration to the protection of public health and water quality.

Source: L. 97: Entire article amended with relocations, p. 124, § 1, effective July 1. L. 2006: (1) to (4) amended, p. 1129, § 7, effective July 1. L. 2012: Entire article amended, (HB 12-1126), ch. 137, p. 484, § 1, effective August 8.

25-10-105. Minimum standards - variances. (1) Rules adopted by local boards of health under section 25-10-104 (2) or (4) or promulgated by the department under section 25-10-104 (1) govern all aspects of the location, design, construction, performance, alteration, installation, and use of on-site wastewater treatment systems and must include minimum standards established by the commission.

(2) (a) A local board of health may grant variances to OWTS rules in accordance with the criteria adopted by the commission under this article.

(b) Applicants for a variance from OWTS rules have the burden of supplying the local board of health with information demonstrating that conditions exist that warrant the granting of the variance.

Source: L. 97: Entire article amended with relocations, p. 126, § 1, effective July 1. L. 2004: (1)(f) to (1)(h) and (1)(l) amended, p. 1312, § 61, effective May 28. L. 2006: (1)(g) and (2)(a) amended, p. 1130, § 8, effective July 1. L. 2012: Entire article amended, (HB 12-1126), ch. 137, p. 485, § 1, effective August 8.

25-10-106. Basic rules for local administration. (1) Local boards of health or the commission, as appropriate, shall adopt rules under section 25-10-104 that govern all aspects of the application for and issuance of permits, the inspection and supervision of installed systems, the issuance of cease-and-desist orders, the maintenance and cleaning of systems, and the disposal of waste material. The rules must, at a minimum, include provisions regarding:

(a) Procedures by which a person may apply for a permit for an on-site wastewater treatment system. The permit application must be in writing and must include any

information, data, plans, specifications, statements, and commitments as required by the local board of health to carry out the purposes of this article.

(b) Review of the application and inspection of the proposed site by the local public health agency;

(c) Specification of studies to be performed and reports to be made by the applicant and the circumstances under which the studies or reports may be required by the local public health agency;

(d) Determination on behalf of the local public health agency by an environmental health specialist or a professional engineer after review of the application, site inspection, test results, and other required information, whether the proposed system complies with the requirements of this article and the rules adopted under this article;

(e) Issuance of a permit by the health officer or the health officer's designated representative if the proposed system is determined to be in compliance with this article and the rules adopted under this article;

(f) Review by the local board of health, upon request of an applicant, of applications denied by the local public health agency;

(g) The circumstances under which all applications are subject to mandatory review by the local public health agency to determine whether a permit shall issue;

(h) Final inspection of a system to be made by the local public health agency or its designated professional engineer after construction, installation, alteration, or repair work under a permit has been completed, but before the system is placed in use, to determine that the work has been performed in accordance with the permit and that the system is in compliance with this article and the rules adopted under this article;

(i) Inspection of operating systems at reasonable times, and upon reasonable notice to the occupant of the property, to determine if the system is functioning in compliance with this article and the rules adopted under this article. Officials of the local public health agency are permitted to enter upon private property for purposes of conducting such inspections.

(j) Issuance of a repair permit to the owner or occupant of property on which a system is not in compliance. An owner or occupant shall apply to the local public health agency for a repair permit within two business days after receiving notice from the local public health agency that the system is not functioning in compliance with this article or the rules adopted under this article or otherwise constitutes a nuisance or hazard to public health or water quality. The permit shall provide for a reasonable period of time within which the owner or occupant must make repairs, at the end of which period the local public health agency shall inspect the system to ensure that it is functioning properly. Concurrently with the issuance of a repair permit, the local public health agency may authorize the continued use of a malfunctioning system on an emergency basis for a period not to exceed the period stated in the repair permit. The period of emergency use may be extended, for good cause shown, if, through no fault of the owner or occupant, repairs may not be completed in the period stated in the repair permit and only if the owner or occupant will continue to make repairs to the system.

(k) (I) Issuance of an order to cease and desist from the use of any on-site wastewater treatment system or sewage treatment works that is found by the health officer not to be in compliance with this article or the rules adopted under this article or that otherwise constitutes a nuisance or a hazard to public health or water quality. Such an order may be issued only after a hearing is conducted by the health officer not less than forty-eight hours after written notice of the hearing is given to the owner or occupant of the property on which the system is located and at which the owner or occupant may be present, with counsel, and be heard. The order must require that the owner or occupant bring the system into compliance or eliminate the nuisance or hazard within a reasonable period of time, not to exceed thirty days, or thereafter cease and desist from the use of the system. A cease-and-desist order issued by the health officer is reviewable in the district court for the county in which the system is located and upon a petition filed no later than ten days after the order is issued.

(II) For the purposes of this paragraph (k), any system or sewage treatment works that does not comply with any statute or rule of this title constitutes a nuisance.

(III) For the purposes of this paragraph (k), a sewage treatment works does not include any sewage treatment facility with a discharge permit issued pursuant to section 25-8-501.

(l) Reasonable periodic collection and testing by the local public health agency of effluent samples from on-site wastewater treatment systems for which monitoring of effluent is necessary in order to ensure compliance with this article or the rules adopted under this article. The sampling may be required not more than two times a year, except when required by the health officer in conjunction with action taken pursuant to paragraph (k) of this subsection (1). The local public health agency may charge a fee not to exceed actual costs, plus locally established mileage reimbursement rates for each mile traveled from the principal office of the local public health agency to the site of the system and return, for each sample collected and tested, and payment of such charges may be stated in the permit for the system as a condition for its continued use. Any owner or occupant of property on which an on-site wastewater treatment system is located may request the local public health agency to collect and test an effluent sample from the system. The local public health agency may, at its option, perform such collection and testing services, and is entitled to charge a fee not to exceed actual costs, plus locally established mileage reimbursement rates for each mile traveled from the principal office of the local public health agency to the site of the system and return, for each sample collected and tested.

(m) At the option of the local board of health, maintenance and cleaning schedules and practices adequate to ensure proper functioning of various types of on-site wastewater treatment systems. The local board of health may additionally require proof of proper maintenance and cleaning, in compliance with the schedule and practices adopted under this subsection (1), to be submitted periodically to the local public health agency by the owner of the system.

(n) Disposal of septage at a site and in a manner that does not create a hazard to the public health, a nuisance, or an undue risk of pollution.

Source: **L. 97:** Entire article amended with relocations, p. 128, § 1, effective July 1. **L. 2001:** (1)(k) amended, p. 304, § 1, effective April 9. **L. 2004:** (1)(c), (1)(e), and (1)(h) amended, p. 1313, § 62, effective May 28. **L. 2010:** (1)(f) amended, (HB 10-1422), ch. 419, p. 2105, § 122, effective August 11. **L. 2012:** Entire article amended, (HB 12-1126), ch. 137, p. 487, § 1, effective August 8.

25-10-107. Fees. (1) A local board of health may set fees for permits. The permit fees may be no greater than required to offset the actual indirect and direct costs of the local public health agency's services. With respect to any permit, the local board of health shall set the fee for the permit so as to recover, as nearly as can be practically established, the costs associated with that permit, not to exceed one thousand dollars. A local board of health may also set fees for soil evaluation and other services as requested by the applicant. Such fees may be no greater than required to offset the actual indirect and direct costs of such services.

(2) Local boards of health may set fees for percolation tests and other soil evaluation services that are performed by the local public health agency. The fees may be no greater than required to offset the actual indirect and direct costs of such services.

(3) In addition to the fees established in this section, the division may assess a fee of twenty-three dollars for each permit authorized for a new, repaired, or upgraded on-site wastewater treatment system. Of that fee, the county in which the on-site wastewater treatment system is or will be located shall retain three dollars to cover the county's administrative costs, and twenty dollars shall be transmitted to the state treasurer, who shall deposit that sum in the water quality control fund created in section 25-8-502 (1) (c).

Editor's note: This section was relocated to § 25-10-108 in 1997.

25-10-108. Performance evaluation and approval of systems employing new technology. (1) A systems contractor, a professional engineer, or a manufacturer of on-site wastewater treatment systems that employ new technology may apply to the division for a determination of reliability of the system. The division may hold a public hearing to determine whether the particular design or type of system, based upon improvements or developments in the technology of sewage treatment, has established a record of performance reliability that would justify approval of applications for such systems by the health officer without mandatory review by the local board of health. If the division determines, based upon reasonable performance standards and criteria, that reliability has been established, the division shall so notify each local board of health, and applications for permits for the systems may thereafter be acted upon by the health officer, the health officer's designated representative, or the local board of health's designated representative, in the same manner as applications for systems described in section 25-10-106. The division shall not arbitrarily deny any person the right to a hearing on an application for a determination of reliability under this section.

(2) Except for designs or types of systems that have been approved by the division pursuant to subsection (1) of this section, the local public health agency may approve an application for a type of system not otherwise provided for in section 25-10-106, only if the system has been designed by a professional engineer and only if the application provides for the installation of a backup system, of a type previously approved by the division under subsection (1) of this section, in the event of failure of the primary system. A local public health agency shall not arbitrarily deny any person the right to consideration of an application for such a system and shall apply reasonable performance standards in determining whether to approve an application.

Editor's note: This section is similar to former § 25-10-107 as it existed prior to 1997, and the former § 25-10-108 was relocated to § 25-10-109.

25-10-109. Licensing of systems contractors and systems cleaners. (1) The local board of health may adopt rules that provide for the licensing of systems contractors. The local public health agency may charge a fee, not to exceed actual costs, for the initial license of a systems contractor and for a renewal of the license. Initial licensing and renewals thereof shall be for a period of not less than one year. The local board of health may revoke the license of a systems contractor for violation of this article or the rules adopted under this article or for other good cause shown, after a hearing conducted upon reasonable notice to the systems contractor and at which the systems contractor may be present, with counsel, and be heard.

(2) The local board of health may adopt rules that provide for the licensing of systems cleaners, pursuant to section 25-10-104 (2). The local public health agency may charge a fee, not to exceed actual costs, for the initial license of a systems cleaner and for the renewal of the license. Initial licensing and renewals thereof shall be for a period of not less than one year. The local board of health may suspend or revoke the license of a systems cleaner for violation of this article or the rules adopted under this article or for other good cause shown after a hearing conducted upon reasonable notice to the systems cleaner and at which the systems cleaner may be present, with counsel, and be heard.

Editor's note: This section is similar to former § 25-10-108 as it existed prior to 1997, and the former § 25-10-109 was relocated to § 25-10-110.

25-10-110. Enforcement by local public health agencies and local boards of health. The primary responsibility for the enforcement of this article and the rules adopted under

this article lies with local public health agencies and local boards of health. If a local public health agency or local board of health substantially fails to administer and enforce this article and the rules adopted under this article, the department may assume any functions of the local public health agency or board of health as may be necessary to protect the public health and water quality.

Editor's note: This section is similar to former § 25-10-109 as it existed prior to 1997, and the former § 25-10-110 was relocated to § 25-10-111.

25-10-111. Authority of local boards of health to deny permits for on-site wastewater treatment systems in unsuitable areas. Nothing in this article preempts or affects the ability of a local board of health to prohibit issuance of OWTS permits, in accordance with applicable land use laws and procedures, for defined areas in which the local board of health determines that construction and use of additional on-site wastewater treatment systems may constitute a hazard to public health or water quality.

Editor's note: This section is similar to former § 25-10-110 as it existed prior to 1997, and the former § 25-10-111 was relocated to § 25-10-112.

25-10-112. General prohibitions - rules. (1) No city, county, or city and county shall issue to any person:

(a) A permit to construct or remodel a building or structure that is not serviced by a sewage treatment works until the local public health agency has issued a permit for an on-site wastewater treatment system; or

(b) A city, county, or city and county occupancy permit for the use of a building that is not serviced by a sewage treatment works until the local public health agency makes a final inspection of the on-site wastewater treatment system, as provided for in section 25-10-106 (1) (h), and the local public health agency approves the installation.

(2) Construction of new cesspools is prohibited.

(3) A person shall not connect more than one dwelling, commercial, business, institutional, or industrial unit to the same on-site wastewater treatment system unless such multiple connection was specified in the application submitted and in the permit issued for the system.

(4) No person shall construct or maintain any dwelling or other occupied structure that is not equipped with adequate facilities for the sanitary disposal of sewage.

(5) All persons shall dispose of septage removed from systems in the process of maintenance or cleaning at an approved site and in an approved manner under this article.

Source: L. 97: Entire article amended with relocations, p. 132, § 1, effective July 1.
L. 2012: Entire article amended, (HB 12-1126), ch. 137, p. 492, § 1, effective August 8.

Editor's note: This section is similar to former § 25-10-111 as it existed prior to 1997, and the former § 25-10-112 was relocated to § 25-10-113.

25-10-113. Penalties. (1) Any person who commits any of the following acts or violates this article commits a class 1 petty offense and shall be punished as provided in section 18-1.3-503, C.R.S.:

(a) Constructs, alters, installs, or permits the use of any on-site wastewater treatment system without first applying for and receiving a permit as required under this article;

(b) Constructs, alters, or installs an on-site wastewater treatment system in a manner that involves a knowing and material variation from the terms or specifications contained in the application, permit, or variance;

(c) Violates the terms of a cease-and-desist order that has become final under section 25-10-106 (1) (k);

(d) Conducts a business as a systems contractor without having obtained the license provided for in section 25-10-109 (1) in areas in which the local board of health has adopted licensing regulations pursuant to that section;

(e) Conducts a business as a systems cleaner without having obtained the license provided for in section 25-10-109 (2) in areas in which the local board of health has adopted licensing regulations pursuant to that section;

(f) Falsifies or maintains improper record-keeping concerning system cleaning activities not performed or performed improperly; or

(g) Willfully fails to submit proof of proper maintenance and cleaning of a system as required by rules adopted pursuant to section 25-10-106.

(2) Upon a finding by the local board of health that a person is in violation of this article or of rules adopted and promulgated pursuant to this article, the local board of health may assess a penalty of up to fifty dollars for each day of violation. In determining the amount of the penalty to be assessed, the local board of health shall consider the seriousness of the danger to the health of the public caused by the violation, the duration of the violation, and whether the person has previously been determined to have committed a similar violation.

(3) A person subject to a penalty assessed pursuant to subsection (2) of this section may appeal the penalty to the local board of health by requesting a hearing before the appropriate body. The request must be filed within thirty days after the penalty assessment is issued. The local board of health shall conduct a hearing upon the request in accordance with section 24-4-105, C.R.S.

		25-11-305.	Restriction - termination.

PART 1

GENERAL PROVISIONS

25-11-101. Definitions. As used in this part 1, unless the context otherwise requires:

(1) "Civil penalty" means a monetary penalty levied against a licensee or registrant because of a violation of a statute, rule, license, or registration certificate. "Civil penalty" does not include any criminal penalty levied under section 25-1-114 or 25-11-107 (3).

(2) "Department" means the department of public health and environment.

(2.5) "Mammographer" means a person who operates a machine source of radiation, commonly known as an "X-ray machine", in the conduct of a mammography exam.

(2.7) "Naturally occurring radioactive material" means any nuclide that is radioactive in its natural physical state and is not manufactured. "Naturally occurring radioactive material" does not include source material, special nuclear material, or by-products of fossil fuel combustion, including bottom ash, fly ash, and flue-gas emission by-products.

(3) "Radiation" means ionizing radiation, which includes gamma rays, X rays, alpha particles, beta particles, high-speed electrons, high-speed neutrons, high-speed protons, and other high-speed nuclear particles.

(4) "Radiation machine" means a device capable of producing radiation; except that "radiation machine" does not include a device with radioactive material as its only source of radiation.

(5) "Radioactive" means emitting radiation.

(6) "Radioactive material" means any material, whether solid, liquid, or gas, that emits radiation spontaneously.

(7) "Specific license" means a license issued to a person to use, manufacture, produce, transfer, receive, acquire, own, or possess quantities of, or devices or equipment utilizing, radioactive materials occurring naturally or produced artificially.

(8) "State board" means the state board of health created in section 25-1-103.

Source: **L. 65:** p. 716, § 1. **C.R.S. 1963:** § 66-26-1. **L. 79:** IP amended and (4) added, p. 1063, § 1, effective July 1; IP amended, p. 1070, § 3, effective January 1, 1980. **L. 83:** (1) R&RE and (1.5) added, p. 1084, §§ 1, 2, effective July 1. **L. 93:** (2.7) added, p. 487, § 1, effective April 26; (2.5) added, p. 701, § 2, effective July 1. **L. 94:** (1.5) amended, p. 2791, § 525, effective July 1. **L. 2010:** Entire section amended, (HB 10-1149), ch. 282, p. 1309, § 1, effective May 26.

Editor's note: (1) Subsection (2.7) was enacted as subsection (2.5) by Senate Bill 93-126, Session Laws of Colorado 1993, but was renumbered on revision for ease of location.

(2) Subsections (4), (5), and (6) were numbered as subsections (6), (4), and (5), respectively, in House Bill 10-1149 but were renumbered on revision to place defined terms in alphabetical order.

Cross references: For the legislative declaration contained in the 1993 act enacting subsection (2.7), see section 1 of chapter 184, Session Laws of Colorado 1993. For the legislative declaration contained in the 1994 act enacting subsection (1.5), see section 1 of chapter 345, Session Laws of Colorado 1994.

ANNOTATION

Law reviews. For article, "1974 Land Use Legislation in Colorado", see 51 Den. L.J. 467 (1974).

25-11-101.5. Coordination of regulatory interpretations regarding in situ leach uranium mining. The general assembly recognizes that the proper and orderly regulation of in situ leach mining, as defined in section 34-32-103, C.R.S., for uranium ore has aspects that may involve more than one regulatory agency of state government and that the statutes that each agency is responsible for administering may, due to the use of terms of art and other technical words, phrases, and definitions, hold the potential of being interpreted inconsistently or to be held in conflict with each other. It is the intent of the general assembly that, with regard to in situ leach mining for uranium ore, the relevant agencies coordinate to the maximum extent practicable to resolve any such conflicts or inconsistencies.

Source: L. 2010: Entire section added, (HB 10-1348), ch. 388, p. 1818, § 1, effective June 8.

25-11-102. Agreements for transfer of functions from federal government to state government. (1) The governor, on behalf of this state, is authorized, from time to time, to enter into agreements with the federal government providing for the assumption by this state through the department, and the discontinuance by the federal government, of any responsibilities within the state of Colorado relating to the protection of persons and property from the hazards of radioactive materials and other sources of radiation.

(2) The governor, on behalf of this state, is authorized, from time to time, to enter into agreements with the federal government, other states, or interstate agencies whereby the department shall perform, on a cooperative basis with the federal government, other states, or interstate agencies, inspections or other functions relating to control of sources of radiation.

(3) No such agreement entered into pursuant to the provisions of subsections (1) or (2) of this section shall transfer to, delegate to, or impose upon the department any power, authority, or responsibility that is not fully consistent with the provisions of this article.

Source: L. 65: p. 716, § 2. **C.R.S. 1963:** § 66-26-2. **L. 2010:** (1) and (2) amended, (HB 10-1149), ch. 282, p. 1310, § 2, effective May 26.

25-11-103. Radiation control agency - powers and duties. (1) The department is designated as the radiation control agency of this state.

(2) Pursuant to rules adopted as provided in section 25-11-104, the department shall issue licenses pertaining to radioactive materials, prescribe and collect fees for such licenses, and require registration of other sources of radiation. No other agency or branch of this state has such power or authority.

(3) The department shall develop and conduct programs for evaluation and control of hazards associated with the use of radioactive materials and other sources of radiation, including criteria for disposal of radioactive wastes and materials to be considered in approving facilities and sites pursuant to part 2 of this article.

(4) The department may institute training programs for the purpose of qualifying personnel to carry out the provisions of this part 1 and may make said personnel available for participation in any program of the federal government, other states, or interstate agencies in furtherance of the purposes of this part 1.

(5) In the event of an emergency relating to any source of radiation that endangers the public peace, health, or safety, the department has the authority to issue such orders for the protection of the public health and safety as may be appropriate, including orders to lay an embargo upon or impound radioactive materials and other sources of radiation in the

possession of any person who is not equipped to observe or who fails to comply with this part 1 or any rules promulgated under this part 1.

(6) The department or its duly authorized representatives has the power to enter at all reasonable times, in accordance with applicable state or federal regulations, into the areas in which sources of radiation are reasonably believed to be located for the purpose of determining whether or not the owner, occupant, or licensee is in compliance with or in violation of this part 1 and the rules promulgated under this part 1, and the owner, occupant, or person in charge of such property shall permit such entry and inspection.

(7) (a) In order to provide for the concentration, storage, or permanent disposal of radioactive materials consistent with adequate protection of the public health and safety, the state, through the department, may acquire by gift, transfer from another state department or agency, or other transfer any and all lands, buildings, and grounds suitable for such purposes. Any such acquisition shall be subject to the provisions of paragraph (h) of this subsection (7).

(b) The state, through the department, may, by lease or license with private persons or corporations, provide for the operation of sites or facilities, for the purposes stated in paragraph (a) of this subsection (7), in, under, and upon lands and grounds acquired under said paragraph (a) in accordance with rules and regulations established by the department; but no lease or license shall be authorized except with the prior approval of the state engineer. The department may permit the conduct thereon of other related activities involving radioactive materials not contrary to the public interest, health, and safety. Each such lease or license shall cover only one site or facility and shall provide for a term up to ninety-nine years, which shall be renewable. Each such lease or license shall provide for the payment to the state of a fee based upon the quantity of radioactive material stored in the lands covered thereby. Such fee shall be established at such rate that interest on the sum of all fees reasonably anticipated as payable under any lease or license shall provide an annual amount equal to the anticipated reasonable costs to the state of such maintenance, monitoring, and other supervision of the lands and facilities covered by such lease or license, following the term thereof, as are required in the interest of the public health and safety. In arriving at the rate of the fee, the department shall consider the nature of the material to be stored, the storage space available, estimated future receipts, and estimated future expenses of maintenance, monitoring, and supervision.

(c) Said lease shall include a payment in lieu of taxes which shall be paid over to local governmental units in compensation for loss of valuation for assessment. Said payment shall be adjusted annually to conform with current mill levies, assessment practices, and value of land and improvements.

(d) All fees provided in this section shall be paid quarterly, as accrued, to the department, which shall receipt for the same and shall transmit such payment to the state treasurer and take his receipt therefor.

(e) The department may require, as a condition to the issuance of any lease or license under paragraph (b) of this subsection (7), that the lessee or licensee give reasonable security for the payment of the amount of all fees reasonably anticipated during the full term of such lease or license, and the department may also require, as a condition to the issuance of any lease or license, that the lessee or licensee post a bond or other security under such regulation as the department may prescribe to cover any tortious act committed during the term of the lease or license.

(f) Prior to the issuance of any lease or license under paragraph (b) of this subsection (7), the department, at the expense of the applicant, shall hold a public hearing on the application, in the area of the proposed site or facility, after reasonable public notice.

(g) The operation of any and all sites and appurtenant facilities established for the purposes of paragraph (a) of this subsection (7) shall be under the direct supervision of the department and shall be in accordance with rules and regulations adopted under section 25-11-104.

(h) It is recognized by the general assembly that any site used for the concentration, disposal, or storage of radioactive material and the contents thereof will represent a continuing and perpetual responsibility involving the public health, safety, and general welfare and that ownership of said site and its contents must ultimately be reposed in a

solvent government, without regard for the existence of any particular agency, instrumentality, department, division, or officer thereof. To this end and subject only to the terms of any lease or license issued under paragraph (b) of this subsection (7), all lands, buildings, and grounds acquired by the state under paragraph (a) of this subsection (7) which are used as sites for the concentration, storage, or disposal of radioactive materials shall be owned in fee simple absolute by the state and dedicated in perpetuity to such purposes, and all radioactive material received at such facility, upon permanent storage therein, shall become the property of the state and shall be in all respects administered, controlled, and disposed of, including transfer by sale, lease, loan, or otherwise, by the state, through the department, unless the general assembly shall designate another agency, instrumentality, department, or division of the state so to act.

(8) The state board of health shall prescribe, revise periodically as appropriate, and provide for the collection of fees from any person for radiation control services provided by the department.

Source: **L. 65:** p. 717, § 3. **C.R.S. 1963:** § 66-26-3. **L. 67:** p. 763, § 1. **L. 75:** (6) amended, p. 884, § 1, effective July 14. **L. 79:** (2) to (6) amended and (8) added, p. 1063, § 2, effective July 1; (4) to (6) amended, p. 1070, § 4, effective January 1, 1980. **L. 2010:** (2), (3), (5), and (6) amended, (HB 10-1149), ch. 282, p. 1310, § 3, effective May 26.

ANNOTATION

County exercises a separate power from that of the department of public health and environment in the issuance of licenses under this section, and therefore has standing to chal-

lenge the department's licensing decisions. *Adams Bd. of County Comm'rs v. Colo. Dept. of Pub. Health & Env't*, 218 P.3d 336 (Colo. 2009).

25-11-104. Rules to be adopted - fees - fund created. (1) (a) The state board shall formulate, adopt, and promulgate rules as provided in subsection (2) of this section that cover subject matter relative to radiation machines and radioactive materials, including naturally occurring radioactive materials and other sources of radiation. The subject matter of the rules shall include: Licenses and registration; records; permissible levels of exposure; notification and reports of accidents; technical qualifications of personnel; technical qualifications of mammographers; handling, transportation, and storage; waste disposal; posting and labeling of hazardous sources and areas; surveys; monitoring; and financial assurance warranties.

(b) The state board may adopt rules concerning the disposal of naturally occurring radioactive materials at any time after the promulgation by the federal environmental protection agency or its successor of rules for the disposal of naturally occurring radioactive materials.

(c) Notwithstanding any provision of section 25-11-103 (7) (h), it is not necessary that a governmental entity own any site that is used for the concentration, storage, or disposal of radioactive material that at the time of its acceptance for concentration, storage, or disposal is owned or generated by the United States department of energy and is defined as low-level radioactive waste under the federal "Low-level Radioactive Waste Policy Act Amendments of 1986", as amended, if the owner of the site complies with rules promulgated by the board in accordance with this section. The rules shall ensure the long-term protection of the public health and safety and may include financial assurance warranties pursuant to this part 1, deed annotations and restrictions, easement provisions, restrictive covenants, and adequate markers to warn of the presence of radioactive materials.

(2) Rules promulgated under this section shall be consistent with regulations proposed by the conference of radiation control program directors, inc., or its successor, under the title, "Suggested State Regulations for Control of Radiation"; except that, if the state board concludes on the basis of detailed findings that a substantial deviation from any of the suggested state regulations is warranted and that a substitute rule or no rule would effectively permit maximum utilization of sources of radiation consistent with the health and safety of all persons who might otherwise become exposed to the radiation, the state

board need not maintain the suggested state regulation or may promulgate a substitute rule as the case may be.

(2.5) (Deleted by amendment, L. 2010, (HB 10-1149), ch. 282, p. 1311, § 4, effective May 26, 2010.)

(3) The rules adopted pursuant to this part 1 shall never be construed to limit the kind or amount of radiation that may be intentionally applied to a person for diagnostic or therapeutic purposes by or under the direction of a duly licensed practitioner of the healing arts.

(4) (Deleted by amendment, L. 2010, (HB 10-1149), ch. 282, p. 1311, § 4, effective May 26, 2010.)

(5) In adopting, amending, or repealing rules under this section, the board shall comply with article 4 of title 24, C.R.S.

(6) (a) The state board shall promulgate a fee schedule, in accordance with section 24-4-103, C.R.S., for radiation control services provided by the department. Radiation control services for which fees may be established include application processing for qualified inspectors, qualified experts, and service companies as defined by the state board, which fees shall be paid by the applicants or service companies; issuance of categories of specific licenses to accord with categories established by the nuclear regulatory commission and which shall include licenses for special nuclear material, source material, by-product material, well logging and surveys and tracer studies, and for human use; and inspections of licensees as authorized by section 25-11-103 (6). Licenses and fees shall, where appropriate, be in accordance with policies and priorities of the nuclear regulatory commission.

(b) The state board shall set fees that provide sufficient revenues to reimburse the state for the actual direct and indirect costs of the radiation control services specified in paragraph (a) of this subsection (6). In so doing, the state board shall take into account any special arrangements between the state and the licensee, another state, or a federal agency whereby the cost of the service is otherwise recovered.

(c) All fees collected pursuant to this subsection (6) shall be transmitted to the state treasurer, who shall credit the same to the radiation control fund, which fund is hereby created. Moneys credited to the radiation control fund, in amounts determined annually by the general assembly by appropriation, shall be expended for radiation control services as provided in this subsection (6).

(7) The state board shall promulgate rules as necessary to implement section 25-11-107 (5).

(8) (a) The state board shall adopt rules requiring that all machine sources of radiation be inspected and certified by qualified inspectors as safe for the intended uses consistent with 42 U.S.C. sec. 263b and in compliance with the specifications of the state board and the equipment manufacturer. Rules shall include minimum specifications for radiation machines, minimum standards for the qualifications of individuals authorized to inspect and certify radiation machines, and procedures for inspection of radiation machines. If a qualified inspector determines that a radiation machine fails to meet the required specifications, the inspector shall notify the owner or operator immediately and shall notify the department within three days after the determination. A radiation machine that fails to meet the required specifications and is determined by a qualified inspector to be unsafe for human use shall not thereafter be used for human use until subsequent certification, and the qualified inspector shall affix an official noncertification sticker issued by the department indicating that the machine is not authorized for human use. A certification or noncertification sticker shall be affixed on each radiation machine in a location conspicuous to machine operators and to persons on whom the machine is used.

(a.5) and (b) (Deleted by amendment, L. 2010, (HB 10-1149), ch. 282, p. 1311, § 4, effective May 26, 2010.)

(c) In establishing or revising specifications for each type of machine that is a source of radiation, the standards for approval of qualified inspectors, and the procedures for making inspections, the department shall consult with manufacturers of radiation equipment, health care providers and operators who use the equipment in diagnostic and therapeutic treatment of humans, and qualified inspectors and individuals.

(d) The general assembly hereby finds that the setting of minimum specifications for radiation machines and the establishment of minimum standards for qualified inspectors of those machines are matters of statewide concern. Therefore, no other state agency, political subdivision, or local government shall establish any other specifications for radiation machines or standards for radiation machine inspectors, or impose any fees therefor.

ANNOTATION

Law reviews. For article, "Regulation of Spills of Hazardous Materials", see 12 Colo. Law. 277 (1983).

25-11-105. Radiation advisory committee. (1) The governor shall appoint a radiation advisory committee of nine members, no more than four of whom shall represent any one political party and three of whom shall represent industry, three the healing arts, and three the public and private institutions of higher education. Members of the committee shall serve at the discretion of the governor and shall be reimbursed for necessary and actual expenses incurred in attendance at meetings or for authorized business of the board. The committee shall furnish to the department such technical advice as may be desirable or required on matters relating to the radiation control program.

25-11-106. Injunction proceedings. If, in the judgment of the department, any person has engaged in or is about to engage in an act or practice that constitutes a violation of this part 1 or of any license, registration, rule, or order issued under this part 1, the attorney general shall, at the request of the department, apply to the district court for an order

enjoining the act or practice or for an order directing compliance with this part 1 and all rules and orders and the terms and conditions of a license or registration issued under this part 1.

ANNOTATION

Private parties who are adversely affected or aggrieved have standing to seek judicial review of the department's action. Nat'l Wild-

life Fed'n v. Cotter Corp., 665 P.2d 598 (Colo. App. 1983).

25-11-107. Prohibited acts - violations - penalties - rules - cease-and-desist orders.

(1) Except as allowed by rule of the state board:

(a) No person shall acquire, own, possess, or use any radioactive material occurring naturally or produced artificially without having been granted a license therefor from the department; or

(b) Transfer to another or dispose of such material without first having been granted approval of the department therefor.

(2) Except as allowed by rule of the state board, no person shall knowingly use, manufacture, produce, transport, transfer, receive, send, acquire, own, or possess any source of radiation unless such person is licensed by or registered with the department. The exceptions promulgated by the state board shall include use of domestic television receivers, computer monitors, household microwave ovens, radiant heat devices, cellular telephones, incandescent gas mantles, and vacuum tubes.

(2.5) No person shall knowingly use any radiation machine to treat or diagnose any disease or conditions of the human body if the radiation machine is not certified for such treatment or diagnosis as provided in section 25-11-104 (8).

(3) Any person who violates the provisions of subsection (1), (2), or (2.5) of this section is guilty of a misdemeanor and, upon conviction thereof, shall be punished by a fine of not less than one hundred dollars nor more than five hundred dollars, or by imprisonment in the county jail for not less than thirty days nor more than ninety days, or by both such fine and imprisonment.

(4) If a person does not pay the fee for radiation control services, the department may request the attorney general to commence a civil action against the person. If the court finds in such action that such person has not paid the fee for radiation control services, the court shall require such person to pay the fee together with a penalty not greater than twice the amount of the fee or one thousand dollars, whichever is greater. All civil penalties collected pursuant to this subsection (4) shall be transmitted to the state treasurer, who shall credit them to the general fund.

(5) (a) Any person who violates subsection (1), (2), or (2.5) of this section, any licensing or registration provision, any rule or order issued under this part 1, or any term, condition, or limitation of any license or registration certificate issued pursuant to this part 1 is subject to an administrative penalty not to exceed fifteen thousand dollars per day for each violation.

(b) If the department has reason to believe, based upon facts available to it, that a person has committed any of the violations designated in paragraph (a) of this subsection (5), it shall send the person, within a reasonable time, a written notice of the violation specifying:

(I) The factual basis of each act or omission with which the person is charged; and

(II) The particular provision of the statute, rule, order, license, or registration certificate violated.

(c) (I) The department shall send the notice required by paragraph (b) of this subsection (5) by certified or registered mail, return receipt requested, to the last-known address

of the alleged violator, or the department shall personally serve the notice of the violation upon the alleged violator or the alleged violator's agent.

(II) The alleged violator shall have thirty days following the receipt of the notice to submit a written response containing data, views, and arguments concerning the alleged violation and potential corrective measures.

(III) In addition, the alleged violator may request an informal conference with department personnel to discuss the notice of violation required by paragraph (b) of this subsection (5). The alleged violator shall request the informal conference within fifteen days after receiving the notice, and the conference shall be held within the thirty days allowed for a written response.

(IV) After consideration of any written response and informal conference, the department shall issue a letter, within thirty days after the date of the informal conference or the receipt of a written response, whichever is later, affirming or dismissing the violation. Any remaining corrective measures that are necessary, and any administrative penalty determined to be appropriate, will be incorporated into an administrative order.

(c.3) In determining the amount of any administrative penalty, the department shall consider the factors in subparagraphs (I) to (X) of this paragraph (c.3). The factors contained in subparagraphs (VII), (VIII), and (IX) of this paragraph (c.3) are mitigating factors and may be applied, with other factors, to reduce any administrative penalty. Such factors are:

(I) The seriousness of the violation;

(II) Whether the violation was intentional, reckless, or negligent;

(III) The impact on, or threat to, the public health or the environment as a result of the violation;

(IV) The degree of recalcitrance, if any, on the part of the violator;

(V) Whether the violator is a recidivist;

(VI) The economic benefit realized by the violator as a result of the violation;

(VII) The violator's voluntary, timely, and complete disclosure of the violation, if prior to the department's knowledge of the violation, and if all reports required pursuant to state environmental control laws have been submitted as required;

(VIII) The violator's full and prompt cooperation with the department following disclosure or discovery of a violation, including, when appropriate, entering into and implementing, in good faith, a legally enforceable agreement with the department to undertake compliance and remediation efforts;

(IX) The existence of a comprehensive regulatory compliance program or an audit program that the violator adopted in good faith and in a timely manner, which program includes measures determined by the department to be sufficient to identify and prevent future noncompliance; and

(X) Any other aggravating or mitigating circumstance.

(c.5) In accordance with article 4 of title 24, C.R.S., and based upon the factors enumerated in paragraph (c.3) of this subsection (5), the state board shall adopt rules for determining administrative penalties imposed under this subsection (5).

(c.7) The department may compromise, mitigate, or remit an administrative penalty imposed pursuant to this subsection (5). The department may enter into a settlement agreement regarding any penalty or claim resolved under this part 1. The settlement agreement may include the payment or contribution of moneys to state or local agencies for other environmentally beneficial purposes.

(d) If the circumstances warrant, the department shall issue an order containing the elements of both the notice of violation specified in paragraph (b) of this subsection (5) and the letter described in subparagraph (IV) of paragraph (c) of this subsection (5).

(e) (I) The letter issued pursuant to subparagraph (IV) of paragraph (c) of this subsection (5) and the order issued pursuant to paragraph (d) of this subsection (5) shall notify the alleged violator of the right to request a hearing within thirty days, which hearing shall be held in accordance with section 24-4-105, C.R.S., to determine any of the following:

(A) Whether the alleged violation exists or did exist;

(B) The reasonableness of the time set for abatement; and

(C) Whether the administrative penalty is reasonable in light of the statutory criteria on which it is based.

(II) The alleged violator shall address each alleged violation in the request for the hearing and shall specify which of the alleged violations the alleged violator is appealing. An allegation not addressed in the request for the hearing shall be deemed admitted.

(III) No person engaged in conducting the hearing or participating in a decision or an initial decision shall be responsible for or subject to the supervision or direction of any department employee engaged in the performance of an investigatory or prosecuting function for the department.

(IV) The final action of the department is subject to judicial review pursuant to section 24-4-106, C.R.S.

(f) and (g) (Deleted by amendment, L. 2010, (HB 10-1149), ch. 282, p. 1315, § 6, effective May 26, 2010.)

(h) At the request of the department, the attorney general may institute a civil action to collect an administrative penalty imposed pursuant to this subsection (5).

(i) Except as specified in paragraph (c.3) of this subsection (5), all administrative penalties collected pursuant to this subsection (5) shall be transmitted to the state treasurer, who shall credit them to the general fund.

(j) For any site or facility licensed under part 2 of this article determined by the department to have caused a release to the groundwater that exceeds the basic standards for groundwater as established by the water quality control commission, until remediation has been completed, the licensee shall provide annual written notice of the status of the release and any remediation activities associated with the release, by certified or registered mail, return receipt requested, to the current address for each registered groundwater well within one mile of the release as identified in the corrective action monitoring program, unless the licensee demonstrates that a distance less than one mile is warranted.

(6) Any qualified inspector who incorrectly certifies a machine that is a source of radiation as meeting the applicable specifications as required in section 25-11-104 (8) is subject to disciplinary action in accordance with section 24-4-104, C.R.S.

(7) If the department has reasonable cause to believe that a violation of this part 1 or of a license, registration, rule, or order issued under this part 1 has occurred or is occurring, the department may issue a cease-and-desist order setting forth the provision alleged to be violated, the facts alleged to constitute the violation, and the time by which the violation must cease. Except for emergency orders issued to protect the public health or the environment, for which a person to whom the emergency order has been issued may request an immediate hearing pursuant to section 24-4-105 (12), C.R.S., a person to whom a cease-and-desist order has been issued may petition the district court for the district in which the violation is alleged to have occurred or be occurring for a stay of the order. The court shall grant the request to stay if the person demonstrates that immediate and irreparable injury will result if the stay is not granted and that granting the stay will not result in serious harm to the public health, safety, or welfare or the environment.

L. 2010: (1), (2), (2.5), (4), (5), and (6) amended and (7) added, (HB 10-1149), ch. 282, p. 1315, § 6, effective May 26; (5)(j) added, (HB 10-1348), ch. 388, p. 1818, § 2, effective June 8.

Editor's note: Amendments to subsection (5) by House Bill 10-1149 and House Bill 10-1348 were harmonized.

25-11-108. Exemptions. (1) The provisions of sections 25-11-103 and 25-11-104 shall not apply to the following sources or conditions:

(a) Electrical or other equipment or material that is not intended primarily to produce radiation and that, by nature of design, does not produce radiation at the point of nearest approach at a weekly rate higher than one-tenth the appropriate limit generally accepted by

the medical profession for any critical organ exposed. The production testing or production servicing of such equipment shall not be exempt.

(b) Radiation machines during process of manufacture or in storage or transit. The production testing or production servicing of such machines shall not be exempt.

(c) Any radioactive material while being transported in conformity with regulations adopted by the atomic energy commission, or any successor thereto, or the surface transportation board and specifically applicable to the transportation of such radioactive materials;

(d) Sound and radio waves and visible infrared and ultraviolet light.

(2) No exemptions under this section are granted for those quantities or types of activities which do not comply with the established rules and regulations promulgated by the atomic energy commission or any successor thereto.

(3) Section 25-11-107 shall not apply to unmined minerals containing radioactive materials including such as are involved in mining operations.

(4) (Deleted by amendment, L. 2010, (HB 10-1149), ch. 282, p. 1320, § 7, effective May 26, 2010.)

(5) Any person may file application for exemption under this section for activities including, but not limited to, licensed sources of radiation for educational or noncommercial public displays or scientific collections.

Source: L. 65: p. 719, § 8. C.R.S. 1963: § 66-26-8. L. 79: (3) amended and (4) and (5) added, p. 1066, § 6, effective July 1. L. 2001: (1)(c) amended, p. 1275, § 38, effective June 5. L. 2010: (3) and (4) amended, (HB 10-1149), ch. 282, p. 1320, § 7, effective May 26.

25-11-109. Provisional license. In the event the department has failed to issue or has denied a request for a license, or an amendment thereto, as authorized by this article, within thirty days of the date of receipt by the department of a completed application made on the appropriate forms designated by the department to a hospital as licensed or certified pursuant to section 25-1.5-103 (1) (a) (I) and (1) (a) (II), a provisional license shall be deemed to have been issued by the department. In the case of a denial, the department shall provide the applicant in writing with information and substantive reasons in explanation thereof. The provisional license shall be in effect for a period of ninety days and may be continued for one additional ninety-day period. Such provisional license shall apply only to licensed or certified hospitals when the purpose is to acquire, possess, and use radioactive material for diagnostic or therapeutic human use.

Source: L. 79: Entire section added, p. 1066, § 7, effective July 1. L. 2003: Entire section amended, p. 711, § 44, effective July 1.

25-11-110. Financial assurance warranties - definitions. (1) As a part of any license, certificate, or authorization issued under this article and pursuant to regulations promulgated by the state board of health, the department may require financial assurance warranties.

(2) As used in this section, unless the context otherwise requires:

(a) "Decommissioning warranty" means a financial assurance arrangement provided by a person licensed, certified, or authorized pursuant to this article that is required to ensure decommissioning and decontamination of a facility and proper disposal of radioactive materials to meet the requirements of this part 1, the regulations promulgated pursuant thereto, or the license.

(b) "Financial assurance warranty" means a decommissioning warranty or a long-term care warranty.

(c) "Indirect costs" means those costs established annually in accordance with federal circular A-87, or any applicable successor document.

(d) "Long-term care warranty" means a financial assurance arrangement provided by a person licensed, certified, or authorized pursuant to this article that is required to cover the

costs incurred by the department in conducting surveillance of a disposal site in perpetuity subsequent to the termination of the radioactive materials license for that site.

(3) (a) Financial assurance warranties may be provided by the licensee or by a third party or combination of persons.

(b) Any financial assurance warranty required pursuant to this section shall be in a form prescribed by the state board of health by regulation.

(c) The department may refuse to accept any financial assurance warranty if:

(I) The form, content, or terms of the warranty are other than as prescribed by the state board of health by regulation;

(II) The financial institution providing the financial assurance instrument is an off-shore, nondomestic institution or does not have a registered agent in the state of Colorado;

(III) The value of the financial assurance warranty offered is dependent upon the success, profitability, or continued operation of the licensed business or operation; or

(IV) The department determines that the financial assurance warranty cannot be converted to cash within thirty days after forfeiture.

(4) (a) The department shall determine the amount of financial assurance warranties required, taking into account the nature, extent, and duration of the licensed activities and the magnitude, type, and estimated cost for proper disposal of radioactive materials, decontamination, and decommissioning or long-term care.

(b) The amount of a decommissioning warranty shall be sufficient to enable the department to dispose of radioactive materials and complete decontamination and decommissioning of affected buildings, fixtures, equipment, personal property, and lands if necessary.

(c) The amount of the decommissioning warranty shall be based upon cost estimates of the total costs that would be incurred if an independent contractor were hired to perform the decommissioning, decontamination, and disposal work, and may include reasonable administrative costs, including indirect costs, incurred by the department in conducting or overseeing disposal, decontamination, and decommissioning and to cover the department's reasonable attorney costs that may be incurred in successfully revoking, foreclosing, or realizing the decommissioning warranty as authorized in section 25-11-111 (4).

(d) The amount of a long-term care warranty shall be enough that, with an assumed six percent annual real interest rate, the annual interest earnings will be sufficient to cover the annual costs of site surveillance by the department, including reasonable administrative costs incurred by the department, in perpetuity, subsequent to the termination of the radioactive materials license for that site.

(e) If the state of Colorado is the long-term caretaker for the disposal facility pursuant to section 25-11-103 (7) (h), long-term care moneys shall be transferred, pursuant to section 25-11-113 (3), to the long-term care fund, created in section 25-11-113, prior to license termination and shall be used by the department to perform site surveillance and to cover the department's administrative and reasonable attorney costs.

(f) The department is authorized to transfer a long-term care warranty to the United States department of energy or another federal agency if that agency will be the long-term caretaker for the disposal facility.

(5) (a) The department shall take reasonable measures to assure the continued adequacy of any financial assurance warranty and may annually or for good cause increase or decrease the amount of required financial assurance warranties or require proof of the value of existing warranties.

(b) The licensee shall submit an annual report to the department demonstrating proof of the value of existing warranties. The annual report shall describe any changes in operations, estimated costs, or any other circumstances that may affect the amount of the required financial assurance warranties, including any increased or decreased costs attributable to inflation.

(c) Public notice of the submittal of the licensee's annual report shall be posted on the department's web site and published by the operator in the local paper of general circulation. Any person may submit written comments to the department concerning the adequacy of any financial assurance warranties. The act of submitting such comments does not provide a right to administrative appeal concerning the financial assurance warranties.

(d) The licensee shall have sixty days after the date of written notification by the department of a required adjustment to establish a warranty fulfilling all new requirements unless granted an extension by the department. If the licensee disputes the amount of the required financial assurance warranties, the licensee may request a hearing to be conducted in accordance with section 24-4-105, C.R.S.

(e) If the licensee requests a hearing, no new classified material, as that term is defined in section 25-11-201, may be brought on site and no classified material may be processed until the licensee's dispute over the financial assurance warranty is resolved, unless the licensee posts a bond in a form approved by the department equal to the amount in dispute.

(6) (a) Financial assurance warranties shall be maintained in good standing until the department has authorized in writing the discontinuance of such warranties.

(b) (I) If a financial warranty is provided by a corporate surety, the department shall require the surety to be A.M. Best rated "A-V" or better and listed on the United States treasury's federal register of companies holding certificates of authority as acceptable sureties on federal bonds; except that, the corporate surety shall notify the department and the licensee, in writing, as soon as practicable in the event its A.M. Best, or equivalent, rating deteriorates below an "A-V" rating or such corporate surety is removed from the department of the treasury's list of companies holding certificates of authority as acceptable sureties on federal bonds.

(II) The board may promulgate rules and regulations concerning other circumstances that may constitute an impairment of the warranties referenced in this article that would require reasonable notice to the department by the warrantor.

(III) A financial warrantor shall notify the department not less than ninety days prior to any cancellation, termination, or revocation of the warranty, unless the department has authorized in writing the discontinuance of such warranties.

Source: L. 97: Entire section added, p. 1633, § 2, effective August 15. **L. 2010:** (5) amended, (HB 10-1348), ch. 388, p. 1819, § 3, effective June 8.

25-11-111. Forfeiture of decommissioning warranties - use of funds. (1) A decommissioning warranty shall be subject to immediate forfeiture whenever the department determines that any one of the following circumstances exist:

(a) The licensee has violated an emergency, abatement, or cease-and-desist order or court-ordered injunction or temporary restraining order related to decommissioning, decontamination, or disposal and, if decommissioning, decontamination, or disposal was required in such order, has failed to complete such decommissioning, decontamination, or disposal although reasonable time to have done so has elapsed; or

(b) The licensee is in violation of decommissioning, decontamination, or disposal requirements as specified in the license and the regulations and has failed to cure such violation although the licensee has been given written notice thereof pursuant to section 25-11-107 (5) and has had reasonable time to cure such violation; or

(c) The licensee has failed to provide an acceptable replacement warranty when:

(I) The licensee's financial warrantor no longer has the financial ability to carry out obligations under this article; or

(II) The department has received notice or information that the financial warrantor intends to cancel, terminate, or revoke the warranty; or

(d) The licensee has failed to maintain its financial assurance warranty in good standing as required by section 25-11-110 (6) (a); or

(e) An emergency endangering public health or safety has been caused by or resulted from the licensee's use or possession of radioactive materials.

(2) (a) Upon determining that a decommissioning warranty should be forfeited under subsection (1) of this section, the department shall issue to the licensee an order forfeiting the decommissioning warranty. The order shall contain written findings of fact and conclusions of law to support its decision and shall direct affected financial warrantors to deliver to the department the full amounts warranted by applicable decommissioning warranties within not more than thirty days after the date of the order.

(b) The licensee may request a hearing on the order of forfeiture that shall be conducted in accordance with section 24-4-105, C.R.S., and that, if the department alleges in the forfeiture order a violation of a license, regulation, or order, the hearing may be conducted in conjunction with a hearing requested under section 25-11-107 (5). Any request for a hearing pursuant to this part 1 shall be made within twenty days after the date of the order of forfeiture and shall not affect the obligation to submit to the department funds from decommissioning warranties forfeited by such order unless a stay of forfeiture is granted by the department or by administrative or judicial order.

(3) The department may request the attorney general, and the attorney general is authorized, to commence legal proceedings necessary to secure or recover amounts warranted by decommissioning warranties. The attorney general shall have the power to collect, foreclose upon, present for payment, take possession of, or dispose of pledged property, and otherwise reduce to cash any financial assurance arrangement required by this article.

(4) (a) Decommissioning funds recovered by the department pursuant to this section shall be immediately deposited into the decommissioning fund created in section 25-11-113 and shall be used solely for the disposal of radioactive materials for the facility covered by the forfeited financial assurance warranties; the decommissioning and decontamination of buildings, equipment, personal property, and lands covered by the forfeited financial assurance warranties; and to cover the department's reasonable attorney and administrative costs associated with disposal, decommissioning, and decontamination for such facility.

(b) The department or its agent shall have a right to enter property of the licensee to dispose of radioactive materials, decommission, and decontaminate buildings, equipment, personal property, and lands. Upon completion of disposal, decommissioning, and decontamination activities, the department shall present to the licensee a full accounting and shall refund all unspent decommissioning warranty moneys, including interest.

(5) Licensees shall remain liable for the total actual cost of disposal of, decommissioning, and decontaminating affected buildings, equipment, personal property, and lands, less any amounts expended by the department pursuant to subsection (4) of this section, notwithstanding any discharge of applicable financial assurance warranties.

Source: L. 97: Entire section added, p. 1635, § 2, effective August 15.

25-11-112. Forfeiture of long-term care warranty - use of funds. (1) A long-term care warranty shall be subject to immediate forfeiture whenever the department determines that any one of the following circumstances exist:

(a) The licensee is in violation of long-term care requirements as specified in the license and the regulations and has failed to cure such violation although the licensee has been given written notice thereof pursuant to section 25-11-107 (5) and has had reasonable time to cure such violation; or

(b) The licensee has failed to provide an acceptable replacement warranty when:

(I) The licensee's financial warrantor no longer has the financial ability to carry out obligations under this article; or

(II) The department has received notice or information that the financial warrantor intends to cancel, terminate, or revoke the warranty; or

(c) The licensee has failed to maintain its financial assurance warranty in good standing as required by section 25-11-110 (6) (a).

(2) (a) A long-term care warranty shall be subject to immediate use and expenditure by the department whenever the department determines that disposal, decommissioning, and decontamination requirements specified in the license conditions and regulations have been satisfied. The department shall give the licensee written notice of the department's intent to use the long-term care warranty for long-term care purposes. The notice shall contain findings of fact and conclusions of law to support its decision and shall direct affected financial warrantors to deliver to the department the full amounts warranted by applicable long-term care warranties within not more than thirty days after the date of the notice.

(b) The licensee may request a hearing on a notice under paragraph (a) of this subsection (2) that shall be conducted in accordance with section 24-4-105, C.R.S. Any

request for a hearing under this subsection (2) shall be made within thirty days after the date of the notice and shall not affect the obligation to submit to the department funds from long-term care warranties unless a stay is granted by the department or by administrative or judicial order.

(3) The department may request the attorney general, and the attorney general is authorized, to commence legal proceedings necessary to secure or recover amounts warranted by long-term care warranties. The attorney general shall have the power to collect, foreclose upon, present for payment, take possession of, or dispose of pledged property, and otherwise reduce to cash any financial assurance arrangement required by this article.

(4) (a) Long-term care funds recovered by the department pursuant to this section shall be immediately deposited into the long-term care fund created in section 25-11-113 and shall be used solely for the long-term care for the facility covered by the financial assurance warranty and to cover the department's reasonable attorney and administrative costs associated with long-term care for such facility.

(b) The department or its agent shall have a right to enter property of the licensee to perform long-term care and monitoring. Upon completion of long-term care activities, the department shall present to the licensee a full accounting and shall refund all unspent warranty moneys, including interest.

Source: L. 97: Entire section added, p. 1637, § 2, effective August 15.

25-11-113. Forfeitures - deposit - radiation control - decommissioning fund - long-term care fund. (1) The department is hereby authorized to collect funds from forfeited decommissioning warranties and from long-term care warranties.

(2) (a) A fund to be known as the decommissioning fund is hereby created in the state treasury. The fund shall be interest-bearing and invested to return the maximum income feasible as determined by the state treasurer and consistent with otherwise applicable state law. All moneys collected from decommissioning warranties pursuant to this section shall be transmitted to the state treasurer, who shall credit the same to the decommissioning fund. All moneys deposited in the fund and all interest earned on moneys in the fund shall remain in the fund for the purposes set forth in this article, and no part of the fund shall be expended or appropriated for any other purpose.

(b) The moneys in the fund shall be continuously appropriated for the purposes set forth in this part 1 and shall not be transferred to or revert to the general fund.

(3) Moneys in the decommissioning fund shall be available for use by the department for the sole purpose of disposing of radioactive materials and completing decontamination and decommissioning of affected buildings, fixtures, equipment, personal property, and lands, and to cover the department's reasonable attorney costs that may be incurred in successfully revoking, foreclosing, or realizing any decommissioning warranty, and reasonable administrative costs, including indirect costs, incurred by the department in conducting disposal, decontamination, and decommissioning.

(4) (a) A fund to be known as the long-term care fund is hereby created and established in the state treasury. Such fund shall be interest-bearing and invested to return the maximum income feasible as determined by the state treasurer and consistent with otherwise applicable state law. All moneys collected from long-term care warranties pursuant to this section shall be transmitted to the state treasurer who shall credit the same to the long-term care fund. All moneys deposited in the fund and all interest earned on moneys in the fund shall remain in the fund for the purposes set forth in this part 1 and no part thereof shall be expended or appropriated for any other purpose.

(b) Moneys in the long-term care fund shall be annually appropriated by the general assembly to the department in an amount sufficient to implement the provisions of this part 1.

(c) Moneys in the long-term care fund shall be available for use by the department for the sole purposes of:

(I) Performing annual site inspections to confirm the integrity of the stabilized waste system, environmental monitoring, and maintenance of the waste disposal site, including fixtures, cover, and equipment;

(II) Covering the department's reasonable attorney costs that may be incurred in successfully collecting or realizing any long-term care warranty, and reasonable administrative costs, including indirect costs, incurred by the department in conducting long-term care of the disposal facility.

Source: L. 97: Entire section added, p. 1638, § 2, effective August 15. **L. 99:** (2)(a) and (4)(a) amended, p. 625, § 27, effective August 4. **L. 2010:** (2)(a) amended, (HB 10-1348), ch. 388, p. 1819, § 4, effective June 8.

PART 2

RADIOACTIVE WASTE DISPOSAL

25-11-201. Definitions. As used in this part 2, unless the context otherwise requires:

(1) (a) "Classified material" means radioactive materials that are one or more of the following types:

(I) "Type 2 byproduct material" as byproduct material is defined in 42 U.S.C. sec. 2014 (e) (2);

(II) Naturally occurring or technologically enhanced naturally occurring radioactive material;

(III) Non-11 e (2) material; or

(IV) Ore.

(b) Nothing in this subsection (1) shall be deemed to include the following naturally occurring radioactive materials or technologically enhanced naturally occurring radioactive materials:

(I) Residuals or sludges from the treatment of drinking water by aluminum, ferric chloride, or similar processes; except that the material may not contain hazardous substances that otherwise would preclude receipt;

(II) Sludges, soils, or pipe scale in or on equipment from oil and gas exploration, production, or development operations or drinking water or wastewater treatment operations; except that the material may not contain hazardous substances that otherwise would preclude receipt;

(III) Materials from or activities related to construction material mining regulated under article 32.5 of title 34, C.R.S.

(c) Nothing in this part 2 shall be deemed to apply to the treatment, storage, management, processing, or disposal of solid waste, which may include naturally occurring radioactive material as defined in section 25-11-101 (2.7), and tenorm as defined in subsection (4) of this section, either pursuant to a certificate of designation issued under article 20 of title 30, C.R.S., or at a solid waste disposal site and facility considered approved or otherwise deemed to satisfy the requirement for a certificate of designation pursuant to article 20 of title 30, C.R.S., or section 25-15-204 (6).

(1.5) "Disposal" means burial in soil, release through a sanitary sewerage system, incineration, or long-term storage with no intention of or provision for subsequent removal; except that, with regard to classified material, "disposal" shall not include release through a sanitary sewer or incineration at a facility.

(1.6) "Facility" means a uranium mill, processing, or disposal facility required to be licensed pursuant to this article and a site for such facility.

(1.7) "Non-11 e (2) material" means material that is not type 2 byproduct material or ore. "Non-11 e (2) byproduct material" does not include depleted or enriched uranium as defined by Colorado or federal statute or rule.

(1.8) "Ore" means naturally occurring uranium-bearing, thorium-bearing, or radium-bearing material in its natural form prior to chemical processing such as roasting, beneficiating, or refining, and specifically includes material that has been physically processed, such as by crushing, grinding, screening, or sorting.

(2) “Radioactive” means emitting alpha rays, beta rays, gamma rays, high-energy neutrons or protons, or other high-level radioactive particles. The term “radioactive” does not include material in which the estimated specific activity is not greater than .002 microcuries per gram of material, and in which the radioactivity is essentially uniformly distributed.

(3) “Radioactive waste” means all radioactive materials which have no useful purpose and are to be discarded and are:

(a) Capable of producing radiation exposures with acute effects associated with the operation and decommissioning of nuclear reactors for commercial, military, research, and other purposes, including spent fuel if discarded, fuel reprocessing waste and radionuclides removed from associated process streams or effluents, and with the United States nuclear weapons program;

(b) Transuranic (radionuclides with atomic numbers greater than 92); and

(c) Radionuclides which have been used for industrial and research use, and material contaminated with them, and which are capable of producing radiation exposures with acute effects as determined by the department of public health and environment.

(4) “Technologically enhanced naturally occurring radioactive material” or “tenorm” means naturally occurring radioactive material whose radionuclide concentrations are increased by or as a result of past or present human practices. “Tenorm” does not include:

(a) Background radiation or the natural radioactivity of rocks or soils;

(b) “Byproduct material” or “source material”, as defined by Colorado statute or rule; or

(c) Enriched or depleted uranium as defined by Colorado or federal statute or rule.

Source: L. 79: Entire part added, p. 1066, § 8, effective July 1. L. 94: (3)(c) amended, p. 2791, § 526, effective July 1. L. 2002: (1) amended and (1.5) added, p. 230, § 1, effective April 5. L. 2003: (1) and (1.5) amended and (1.6), (1.7), (1.8), and (4) added, p. 2188, § 1, effective June 3.

Cross references: For the legislative declaration contained in the 1994 act amending subsection (3)(c), see section 1 of chapter 345, Session Laws of Colorado 1994.

25-11-202. Disposal of foreign radioactive waste prohibited. The disposal of any radioactive waste which originates or has been used outside this state and has not been used in this state is prohibited except as provided in section 25-11-203.

Source: L. 79: Entire part added, p. 1067, § 8, effective July 1.

25-11-203. Approval of facilities, sites, and shipments for disposal of radioactive waste. (1) (a) No facility shall be constructed or site approved for the disposal of radioactive waste originating or used outside Colorado unless such facility or site has been approved as provided in subsection (3) of this section.

(b) (I) No facility shall dispose of or receive for storage incident to disposal or processing at the facility classified material unless such facility has received a license, a five-year license renewal, or license amendment pertaining to the facility’s receipt of classified material, in accordance with sections 24-4-104 and 24-4-105, C.R.S., for such receipt, storage, processing, or disposal of classified material and such license, license renewal, or license amendment approves that type of classified material.

(II) Nothing in this paragraph (b) shall apply to a contract for the storage, processing, or disposal of less than the sum of one hundred ten tons of classified material per source or to a contract for a bench-scale or a pilot-scale testing project or a contract for less than a de minimis amount of classified material as determined by the department for storage, processing, or disposal.

(III) License amendments for the receipt of classified material at a facility are subject to subsections (2) and (3) of this section except when the material is from an approved source and such amendment would not result in a change in ownership, design, or operation

of the facility. License amendments not subject to subsections (2) and (3) of this section are subject to subsection (4) of this section.

(2) (a) Any person desiring to have a facility or site referred to in subsection (1) of this section approved shall apply to the department of public health and environment for approval of such facility or site. The application shall contain such information as the department requires and shall be accompanied by an application fee determined by the board pursuant to the provisions of part 1 of this article.

(b) In addition to the requirements of paragraph (a) of this subsection (2), each proposed license, five-year license renewal, or license amendment pertaining to the facility's receipt of classified material shall include a written application to the department and information relevant to the pending application, including:

(I) Transcripts of two public meetings hosted and presided over by a person selected upon agreement by the department, the board of county commissioners of the county where the facility is located, and the applicant. One or both of the meetings shall be a hearing conducted to comply with section 24-4-104 or 24-4-105, C.R.S. The reasonable, necessary, and documented expense of the meetings or hearing shall be paid by the facility. Such meetings shall not be held until the department determines that the application is substantially complete. The facility shall provide the public with:

(A) Pursuant to part 1 of article 70 of title 24, C.R.S., at least two weeks' written notice before the first meeting and an additional two weeks' written notice before the second meeting;

(B) At both meetings, summaries of the facility's license to receive, store, process, or dispose of classified material and the nature of the classified material, and an opportunity to be heard; and

(C) Access to make copies of a transcript of the meetings, and shall provide an electronic copy to the department in a manner that allows posting on the department's web site within ten days after receipt from the transcription service;

(II) An environmental assessment as defined in paragraph (c) of this subsection (2);

(III) A response, if any, to the environmental assessment written by the board of county commissioners of the county in which the classified material is proposed to be received for storage, processing, or disposal at a facility and provided to the facility within ninety days after the first public meeting. Upon request of and documentation of the expenditure by such board, the applicant shall provide the board with up to fifty thousand dollars, which shall be available to the board for the reasonable and necessary expenses during the pendency of the application to assist the board in responding to the application, including to pay for an independent environmental analysis by a disinterested party with appropriate environmental expertise to assist the board in preparing its response. The board's response may consider whether the approval of the license, five-year license renewal, or license amendment pertaining to the facility's receipt or disposal of the classified material will present any substantial adverse impact upon the safety or maintenance of transportation infrastructure or transportation facilities within the county.

(c) As used in paragraph (b) of this subsection (2), "environmental assessment" means a report and assessment submitted to the department by a facility upon and in connection with application for a license, a five-year renewal, or license amendment pertaining to the facility's receipt of classified material, proposing to receive classified material for storage, processing, or disposal at a facility that addresses the impacts of the receipt for storage, processing, or disposal of such material. The environmental assessment shall contain all information deemed necessary by the department, and shall include, at a minimum:

(I) The identification of the types of classified material to be received, stored, processed, or disposed of;

(II) A representative presentation of the physical, chemical, and radiological properties of the type of classified material to be received, stored, processed, or disposed of;

(III) An evaluation of the short-term and long-range environmental impacts of such receipt, storage, processing, or disposal;

(IV) An assessment of the radiological and nonradiological impacts to the public health from the application;

(V) Any facility-related impact on any waterway and groundwater from the application;

(VI) An analysis of the environmental, economic, social, technical, and other benefits of the proposed application against environmental costs and social effects while considering available alternatives;

(VII) A list of all material violations of local, state, or federal law at the facility since the submittal date of the previous license application or license renewal application;

(VIII) For an application for a license or license amendment pertaining to the facility's receipt of classified material for storage, processing, or disposal at the facility, a demonstration that:

(A) There are no outstanding material violations of any state or federal statutes, compliance orders, or court orders applicable to the facility, and any releases giving rise to any such violation have been remediated;

(B) The operator, after a good faith review of the facility and its operations, is not aware of any current license violation at the facility;

(C) There are no current releases to the air, ground, surface water, or groundwater that exceed permitted limits; and

(D) No conditions exist at the facility that would prevent the department of energy's receipt of title to the facility pursuant to the federal "Atomic Energy Act of 1954", 42 U.S.C. sec. 2113;

(IX) A list of all necessary permits and any changes to local land use ordinances that are needed to construct or operate the facility; and

(X) For sites or facilities placed on the national priority list pursuant to the federal "Comprehensive Environmental Response, Compensation, and Liability Act", 42 U.S.C. sec. 9605, a copy of the most recent five-year review and any associated updates that have been issued by the United States environmental protection agency.

(3) (a) Upon receipt of an application or notice as provided in subsection (2) of this section, the department of public health and environment shall notify the public and forward a copy of the application or notice to the governor and the general assembly, as appropriate.

(b) (I) No facility or site referred to in paragraph (a) of subsection (1) of this section shall be constructed or approved by the department of public health and environment unless the governor and the general assembly have approved such facility or site.

(II) The governor and the general assembly, in making their determination, shall consider criteria developed by the department of public health and environment for disposal of radioactive wastes pursuant to section 25-11-103 (3) in approving or disapproving the proposed facility or site.

(c) (I) In deciding whether to approve a license, five-year license renewal, or license amendment pertaining to the facility's receipt of classified material, the department shall consider the transcripts of the public meetings held pursuant to subparagraph (I) of paragraph (b) of subsection (2) of this section, the facility's license, any environmental assessment or analysis performed pursuant to this section, the facility's compliance with financial assurance requirements of section 25-11-110, and the board of county commissioners' response to the environmental assessment prepared pursuant to subparagraph (III) of paragraph (b) of subsection (2) of this section. The department shall deny or approve the application as a whole.

(II) The department may order reasonable mitigation measures to address any substantial adverse impacts to public health or the environment or transportation infrastructure or transportation facilities within the county attributable solely to approval of the license, five-year renewal, or license amendment pertaining to the facility's receipt of classified material.

(III) The applicant shall demonstrate that if the license, five-year renewal, or license amendment pertaining to the facility's receipt of classified material is approved, then the receipt, storage, processing, and disposal of classified material shall:

(A) Be conducted such that the exposures to workers and the public are within the dose limits of part 4 of the department's rules pertaining to radiation control for workers and the public;

(B) Not cause releases to the air, ground, or surface or groundwater that exceed permitted limits; and

(C) Not prevent transfer of the facility to the United States in accordance with 42 U.S.C. sec. 2113 upon completion of decontamination, decommissioning, and reclamation of the facility.

(IV) No facility may be permitted as a hazardous waste treatment, storage, or disposal facility under part 3 of article 15 of this title.

(V) (A) The department shall publish a determination as to whether an application submitted pursuant to paragraph (b) of subsection (2) of this section is substantially complete within forty-five days after receipt of the application.

(B) The first public meeting or hearing required by subparagraph (I) of paragraph (b) of subsection (2) of this section shall be convened within forty-five days after publication of its determination that the application is substantially complete. The second such public meeting or hearing shall be convened within thirty days after the first public meeting.

(C) The department shall approve, approve with conditions, or deny the application submitted under paragraph (b) of subsection (2) of this section within three hundred sixty days after the second public meeting; except that, for an applicant that has completed the second public meeting on or before June 8, 2010, the department shall act upon the application within the time frame prescribed by this sub-subparagraph (C) as it existed as of the date of the application.

(4) (a) (I) At least ninety days before a facility proposes to receive, store, process, or dispose of classified material in a license application or amendment that is not subject to subsections (2) and (3) of this section and for which a material acceptance report has not already been filed with the department, the facility shall notify the department, and the department shall notify the public and the board of county commissioners of the county in which the facility is located, of the specific classified material to be received, stored, processed, or disposed of. The notice shall include:

(A) A representative analysis of the physical, chemical, and radiological properties of the classified material;

(B) The material acceptance report that demonstrates that the classified material does not contain hazardous waste characteristics not found in uranium ore;

(C) A detailed plan for transport, acceptance, storage, handling, processing, and disposal of the material;

(D) A demonstration that the material contains technically and economically recoverable uranium, without taking into account its value as disposal material;

(E) The existing location of the classified material;

(F) The history of the classified material;

(G) A written statement by the applicant describing any preexisting regulatory classification of the classified waste in the state of origin that describes all steps taken by the applicant to identify such classification;

(H) A written statement from the United States department of energy or successor agency that the receipt, storage, processing, or disposal of the classified material at the facility will not adversely affect the department of energy's receipt of title to the facility pursuant to the federal "Atomic Energy Act of 1954 ", 42 U.S.C. sec. 2113;

(I) Documentation showing any necessary approvals of the United States environmental protection agency; and

(J) An environmental assessment as defined in paragraph (c) of subsection (2) of this section, which may incorporate by reference relevant information contained in an environmental assessment previously submitted for the facility.

(II) For classified material that would otherwise be subject to the "Low-level Radioactive Waste Act", part 22 of article 60 of title 24, C.R.S., the facility's notice shall also include written documentation that the rocky mountain low-level radioactive waste board has been notified that the classified material is being considered for disposal in the subject facility.

(b) Within thirty days after the department's receipt of notice pursuant to subparagraph (I) of paragraph (a) of this subsection (4), the department shall determine whether the notice is complete.

(c) Once the department determines that the notice is complete, the department shall publish the notice on its web site and provide a sixty-day public comment period for the receipt of written comments concerning the notice. A public hearing may be held, at the department's discretion, at the operator's expense.

(d) Within thirty days after the close of the written public comment period provided by paragraph (c) of this subsection (4), the department shall approve, approve with conditions, or deny the receipt, storage, processing, or disposal as described in the notice based on whether the material proposed for receipt, storage, processing, or disposal at the facility complies with the facility's license and meets the standards established pursuant to subparagraph (III) of paragraph (c) of subsection (3) of this section.

PART 3

DISPOSAL OF URANIUM MILL TAILINGS

Law reviews: For article, "Administrative Law", which discusses Tenth Circuit decisions dealing with administrative actions based upon agency findings of scientific fact, see 64 Den. U. L. Rev. 111 (1987).

25-11-301. Legislative declaration. (1) The general assembly hereby finds and declares that the existence of uranium mill tailings at active and inactive mill operations poses a potential and significant radiation health hazard. This part 3 is therefore enacted to protect the public health, safety, and welfare by cooperating with the federal government in providing for the stabilization, disposal, and control of such tailings in a safe and environmentally sound manner to prevent or minimize other environmental impacts from such tailings.

(2) The general assembly recognizes the need for the state to expend such funds as are necessary to provide land annotation and site information for purposes of protecting prospective purchasers or users of mill sites designated for cleanup pursuant to public law 95-604. The general assembly therefore declares its intent to assist local governments with the identification, removal, storage, and disposal of tailing deposits associated with such designated mill sites for which remedial action is not taken pursuant to the federal "Uranium Mill Tailings Radiation Control Act of 1978".

Source: **L. 79:** Entire part added, p. 1069, § 1, effective January 1, 1980. **L. 97:** Entire section amended, p. 337, § 2, effective April 16.

25-11-302. Terms defined. For the purposes of this part 3, the terms "processing site" and "residual radioactive material" shall have the meanings specified in section 101 (6) and (7), respectively, of Public Law 95-604, as from time to time amended.

Source: **L. 79:** Entire part added, p. 1069, § 1, effective January 1, 1980.

25-11-303. Authorization to participate - implementation - repeal. (1) The general assembly hereby authorizes the department of public health and environment to participate

in federal implementation of the “Uranium Mill Tailings Radiation Control Act of 1978”, and for such purpose the department has the authority to:

(a) Enter into cooperative agreements with the secretary of energy to perform remedial actions at processing sites designated by the secretary;

(b) Obtain written consent from the record owner of a designated processing site to perform remedial actions at such site;

(c) Provide for reimbursement for the actual cost of any remedial action in accordance with the terms of Public Law 95-604;

(d) (I) Acquire by gift, transfer, exchange, or purchase pursuant to the requirements of article 56 of title 24, C.R.S., any designated processing site, including any interest in such site, and any site to be used for the permanent disposition and stabilization of residual radioactive materials. Acquisition of any such sites shall be for the purpose of performing remedial action and ultimate disposition of the site as required under the federal “Uranium Mill Tailings Radiation Control Act of 1978”.

(II) If the negotiation procedures established in section 24-56-117, C.R.S., fail to accomplish acquisition of the site, the matter may be submitted to arbitration within ten days’ notice by the fee title holder. The arbitration panel shall consist of one arbitrator chosen by the siteowner, one arbitrator chosen by the department, and one arbitrator chosen by the other two arbitrators. If the two arbitrators cannot agree within ten days on a third arbitrator, a request by either party shall be made to the district court for the judicial district of the county in which the site is located for appointment of a third impartial arbitrator. The department and the siteowner shall share equally the cost of the use of the third arbitrator. All arbitrators shall be residents of the county in which the land is located. The arbitration panel shall issue its decision thirty days after its appointment, and the decision shall be made in accordance with the criteria established in section 24-56-117 (1) (c), C.R.S., and the provisions of the federal “Uranium Mill Tailings Radiation Control Act of 1978”. If the arbitration panel will not be able to issue its decision thirty days after its appointment, but at least two of the three arbitrators determine that the panel is near a decision, the panel shall be allowed fifteen days after the expiration of the initial thirty-day period to make its decision. Such decision shall be made by at least a majority of the arbitrators and shall not be binding on any court.

(III) If the acquisition of any such site is not accomplished pursuant to the arbitration procedures established in subparagraph (II) of this paragraph (d), the department is authorized to obtain such site by condemnation proceedings pursuant to the provisions of article 1 of title 38, C.R.S. A decision made pursuant to the provisions of article 1 of title 38, C.R.S., shall be made in accordance with the criteria established in section 24-56-117 (1) (c), C.R.S., and the provisions of the federal “Uranium Mill Tailings Radiation Control Act of 1978”.

(IV) This paragraph (d) is repealed, effective upon the acquisition of all of the nine currently designated sites, as certified by the executive director of the department, for purposes of participating in the federal “Uranium Mill Tailings Radiation Control Act of 1978”;

(e) Participate in the selection and performance of remedial actions in which the state pays a portion of the cost;

(f) Participate in the following activities for which the state may pay any portion or all of the costs:

(I) Land annotation and information gathering, identification, removal, and disposal of tailing deposits associated with mill sites designated for cleanup pursuant to public law 95-604 that remain outside of the disposal cells constructed for remedial purposes pursuant to the federal “Uranium Mill Tailings Radiation Control Act of 1978”; and

(II) The groundwater restoration phase of the federal “Uranium Mill Tailings Radiation Control Act of 1978”.

Source: L. 79: Entire part added, p. 1069, § 1, effective January 1, 1980. L. 86: (1)(d) R&RE, p. 980, § 1, effective May 16. L. 94: IP(1) amended, p. 2791, § 528, effective July 1. L. 97: (1)(f) added, p. 337, § 3, effective April 16.

Editor’s note: As of the 2012 publication date, notice had not been received that all nine designated processing sites as specified in subsection (1)(d)(IV) have been acquired.

Cross references: For the legislative declaration contained in the 1994 act amending the introductory portion to subsection (1), see section 1 of chapter 345, Session Laws of Colorado 1994.

ANNOTATION

Although the policies specified in § 24-56-117 apply to condemnation of property under this section, such policies are modified by the policies for state land acquisition included in the federal Uranium Mill Tailings Radiation Control Act. *The Mill v. State*, Dept. of Health, 868 P.2d 1099 (Colo. App. 1993).

Notwithstanding the rule against consideration of enhanced value in determining fair

value in condemnation proceedings, determination of the fair value of property that is condemned under the federal Uranium Mill Tailings Radiation Control Act may include evidence of the value of the property if it were uncontaminated. *The Mill v. State*, Dept. of Health, 868 P.2d 1099 (Colo. App. 1993).

25-11-304. Financial participation. (1) The general assembly accepts the provisions of section 107 (a) of Public Law 95-604 requiring the state to pay ten percent of the actual cost of any remedial action and administrative costs from nonfederal moneys.

(2) The state of Colorado may receive a share of the net profits derived from the recovery of minerals from residual radioactive materials at any designated processing site within the state in accordance with the provisions of section 108 (b) of Public Law 95-604.

Source: L. 79: Entire part added, p. 1070, § 1, effective January 1, 1980.

25-11-305. Restriction - termination. (1) Nothing in this part 3 shall supersede the provisions of part 1 of this article.

(2) The authority to participate in federal implementation of remedial actions at designated processing sites shall terminate at such time as the authority of the federal government to perform remedial action terminates under the provisions of section 112 (a) of Public Law 95-604.

Source: L. 79: Entire part added, p. 1070, § 1, effective January 1, 1980.

25-12-101. Legislative declaration. The general assembly finds and declares that noise is a major source of environmental pollution which represents a threat to the serenity and quality of life in the state of Colorado. Excess noise often has an adverse physiological and psychological effect on human beings, thus contributing to an economic loss to the community. Accordingly, it is the policy of the general assembly to establish statewide standards for noise level limits for various time periods and areas. Noise in excess of the limits provided in this article constitutes a public nuisance.

Source: L. 71: p. 647, § 1. **C.R.S. 1963:** § 66-35-1.

ANNOTATION

Applied in City of Lakewood v. DeRoos, 631 P.2d 1140 (Colo. App. 1981).

25-12-102. Definitions. As used in this article, unless the context otherwise requires:

- (1) "Commercial zone" means:
 - (a) An area where offices, clinics, and the facilities needed to serve them are located;
 - (b) An area with local shopping and service establishments located within walking distances of the residents served;
 - (c) A tourist-oriented area where hotels, motels, and gasoline stations are located;
 - (d) A large integrated regional shopping center;
 - (e) A business strip along a main street containing offices, retail businesses, and commercial enterprises;
 - (f) A central business district; or
 - (g) A commercially dominated area with multiple-unit dwellings.
- (2) "db(A)" means sound levels in decibels measured on the "A" scale of a standard sound level meter having characteristics defined by the American national standards institute, publication S1. 4 - 1971.

(3) "Decibel" is a unit used to express the magnitude of a change in sound level. The difference in decibels between two sound pressure levels is twenty times the common logarithm of their ratio. In sound pressure measurements sound levels are defined as twenty times the common logarithm of the ratio of that sound pressure level to a reference level of 2×10^{-5} N/m² (Newton's/meter squared). As an example of the effect of the formula, a three-decibel change is a one hundred percent increase or decrease in the sound level, and a ten-decibel change is a one thousand percent increase or decrease in the sound level.

(4) (a) "Industrial zone" means an area in which noise restrictions on industry are necessary to protect the value of adjacent properties for other economic activity but shall not include agricultural, horticultural, or floricultural operations.

(b) Nothing in paragraph (a) of this subsection (4), as amended by House Bill 05-1180, as enacted at the first regular session of the sixty-fifth general assembly, shall be construed as changing the property tax classification of property owned by a horticultural or floricultural operation.

- (5) "Light industrial and commercial zone" means:
 - (a) An area containing clean and quiet research laboratories;
 - (b) An area containing light industrial activities which are clean and quiet;
 - (c) An area containing warehousing; or
 - (d) An area in which other activities are conducted where the general environment is free from concentrated industrial activity.

(5.2) "Motorcycle" means a self-propelled vehicle with not more than three wheels in contact with the ground that is designed primarily for use on the public highways.

(5.4) "Motor vehicle" means a self-propelled vehicle with at least four wheels in contact with the ground that is designed primarily for use on the public highways.

(5.6) "Off-highway vehicle" means a self-propelled vehicle with wheels or tracks in contact with the ground that is designed primarily for use off the public highways. "Off-highway vehicle" shall not include the following:

- (a) Military vehicles;
- (b) Golf carts;
- (c) Snowmobiles;
- (d) Vehicles designed and used to carry persons with disabilities; and
- (e) Vehicles designed and used specifically for agricultural, logging, firefighting, or mining purposes.

(6) "Residential zone" means an area of single-family or multifamily dwellings where businesses may or may not be conducted in such dwellings. The zone includes areas where multiple-unit dwellings, high-rise apartment districts, and redevelopment districts are located. A residential zone may include areas containing accommodations for transients such as motels and hotels and residential areas with limited office development, but it may

not include retail shopping facilities. “Residential zone” includes hospitals, nursing homes, and similar institutional facilities.

(7) “SAE J1287” means the J1287 stationary sound test or any successor test published by SAE international or any successor organization.

(8) “SAE J2567” means the J2567 stationary sound test or any successor test published by SAE international or any successor organization.

(9) “Snowmobile” means a self-propelled vehicle primarily designed or altered for travel on snow or ice when supported in part by skis, belts, or cleats and designed primarily for use off the public highways. “Snowmobile” shall not include machinery used strictly for the grooming of snowmobile trails or ski slopes.

Source: **L. 71:** p. 647, § 1. **C.R.S. 1963:** § 66-35-2. **L. 73:** p. 1406, § 47. **L. 86:** (2) amended, p. 501, § 121, effective July 1. **L. 2005:** (4) amended, p. 350, § 8, effective August 8. **L. 2008:** (5.2), (5.4), (5.6), (7), (8), and (9) added, p. 2101, § 1, effective July 1, 2010.

25-12-103. Maximum permissible noise levels. (1) Every activity to which this article is applicable shall be conducted in a manner so that any noise produced is not objectionable due to intermittence, beat frequency, or shrillness. Sound levels of noise radiating from a property line at a distance of twenty-five feet or more therefrom in excess of the db(A) established for the following time periods and zones shall constitute prima facie evidence that such noise is a public nuisance:

Zone	7:00 a.m. to next 7:00 p.m.	7:00 p.m. to next 7:00 a.m.
Residential	55 db(A)	50 db(A)
Commercial	60 db(A)	55 db(A)
Light industrial	70 db(A)	65 db(A)
Industrial	80 db(A)	75 db(A)

(2) In the hours between 7:00 a.m. and the next 7:00 p.m., the noise levels permitted in subsection (1) of this section may be increased by ten db(A) for a period of not to exceed fifteen minutes in any one-hour period.

(3) Periodic, impulsive, or shrill noises shall be considered a public nuisance when such noises are at a sound level of five db(A) less than those listed in subsection (1) of this section.

(4) This article is not intended to apply to the operation of aircraft or to other activities which are subject to federal law with respect to noise control.

(5) Construction projects shall be subject to the maximum permissible noise levels specified for industrial zones for the period within which construction is to be completed pursuant to any applicable construction permit issued by proper authority or, if no time limitation is imposed, for a reasonable period of time for completion of project.

(6) All railroad rights-of-way shall be considered as industrial zones for the purposes of this article, and the operation of trains shall be subject to the maximum permissible noise levels specified for such zone.

(7) This article is not applicable to the use of property for purposes of conducting speed or endurance events involving motor or other vehicles, but such exception is effective only during the specific period of time within which such use of the property is authorized by the political subdivision or governmental agency having lawful jurisdiction to authorize such use.

(8) For the purposes of this article, measurements with sound level meters shall be made when the wind velocity at the time and place of such measurement is not more than five miles per hour.

(9) In all sound level measurements, consideration shall be given to the effect of the ambient noise level created by the encompassing noise of the environment from all sources at the time and place of such sound level measurement.

(10) This article is not applicable to the use of property for the purpose of manufacturing, maintaining, or grooming machine-made snow. This subsection (10) shall not be construed to preempt or limit the authority of any political subdivision having jurisdiction to regulate noise abatement.

(11) This article is not applicable to the use of property by this state, any political subdivision of this state, or any other entity not organized for profit, including, but not limited to, nonprofit corporations, or any of their lessees, licensees, or permittees, for the purpose of promoting, producing, or holding cultural, entertainment, athletic, or patriotic events, including, but not limited to, concerts, music festivals, and fireworks displays. This subsection (11) shall not be construed to preempt or limit the authority of any political subdivision having jurisdiction to regulate noise abatement.

(12) (a) Notwithstanding subsection (1) of this section, the public utilities commission may determine, while reviewing utility applications for certificates of public convenience and necessity for electric transmission facilities, whether projected noise levels for electric transmission facilities are reasonable. Such determination shall take into account concerns raised by participants in the commission proceeding and the alternatives available to a utility to meet the need for electric transmission facilities. When applying, the utility shall provide notice of its application to all municipalities and counties where the proposed electric transmission facilities will be located. The public utilities commission shall afford the public an opportunity to participate in all proceedings in which permissible noise levels are established according to the "Public Utilities Law", articles 1 to 7 of title 40, C.R.S.

(b) Because of the statewide need for reliable electric service and the public benefit provided by electric transmission facilities, notwithstanding any other provision of law, no municipality or county may adopt an ordinance or resolution setting noise standards for electric transmission facilities that are more restrictive than this subsection (12). The owner or operator of an electric transmission facility shall not be liable in a civil action based upon noise emitted by electric transmission facilities that comply with this subsection (12).

(c) For the purposes of this section:

(I) "Electric transmission facility" means a power line or other facility that transmits electrical current and operates at a voltage level greater than or equal to 44 kilovolts.

(II) "Rights-of-way for electric transmission facilities" means all property rights and interests obtained by the owner or operator of an electric transmission facility for the purpose of constructing, maintaining, or operating the electric transmission facility.

Source: **L. 71:** p. 648, § 1. **C.R.S. 1963:** § 66-35-3. **L. 82:** (10) added, p. 424, § 1, effective March 11. **L. 87:** (11) added, p. 1154, § 1, effective May 20. **L. 2004:** (12) added, p. 736, § 2, effective July 1.

Cross references: For the legislative declaration contained in the 2004 act enacting subsection (12), see section 1 of chapter 219, Session Laws of Colorado 2004.

ANNOTATION

Residential development of property is not precluded when noise emanating onto property exceeds limits set forth in this section. *Einarsen v. City of Wheat Ridge*, 43 Colo. App. 232, 604 P.2d 691 (1979).

Trier of fact to determine mode to use in measuring noise. *Davis v. Izaak Walton League of Am.*, 717 P.2d 984 (Colo. App. 1985).

Applied in *City of Lakewood v. DeRoos*, 631 P.2d 1140 (Colo. App. 1981).

25-12-104. Action to abate. Whenever there is reason to believe that a nuisance exists, as defined in section 25-12-103, any county or resident of the state may maintain an action in equity in the district court of the judicial district in which the alleged nuisance exists to abate and prevent such nuisance and to perpetually enjoin the person conducting or maintaining the same and the owner, lessee, or agent of the building or place in or upon which such nuisance exists from directly or indirectly maintaining or permitting such nuisance. Notwithstanding any other provision of this section, a county shall not maintain an action pursuant to this section if the alleged nuisance involves a mining operation or the

development, extraction, or transportation of construction materials, as those terms are defined in section 34-32.5-103, C.R.S., a commercial activity, the commercial use of property, avalanche control activities, a farming or ranching activity, an activity of a utility, or a mining or oil and gas operation. When proceedings by injunction are instituted, such proceedings shall be conducted under the Colorado rules of civil procedure. The court may stay the effect of any order issued under this section for such time as is reasonably necessary for the defendant to come into compliance with the provisions of this article.

Source: L. 71: p. 649, § 1. C.R.S. 1963: § 66-35-4. L. 2008: Entire section amended, p. 57, § 1, effective August 5.

Cross references: For injunctions, see C.R.C.P. 65.

ANNOTATION

Construction and operation of a public highway are not activities which can be abated as a public nuisance. City of Lakewood v. DeRoos, 631 P.2d 1140 (Colo. App. 1981).

Applied in Einarsen v. City of Wheat Ridge, 43 Colo. App. 232, 604 P.2d 691 (1979).

25-12-105. Violation of injunction - penalty. Any violation or disobedience of any injunction or order expressly provided for by section 25-12-104 shall be punished as a contempt of court by a fine of not less than one hundred dollars nor more than two thousand dollars. Each day in which an individual is in violation of the injunction established by the court shall constitute a separate offense. The court shall give consideration in any such case to the practical difficulties involved with respect to effecting compliance with the requirements of any order issued by the court.

Source: L. 71: p. 650, § 1. C.R.S. 1963: § 66-35-5.

25-12-106. Noise restrictions - sale of new vehicles. (1) Except for such vehicles as are designed exclusively for racing purposes, no person shall sell or offer for sale a new motor vehicle that produces a maximum noise exceeding the following noise limits, at a distance of fifty feet from the center of the lane of travel, under test procedures established by the department of revenue:

- (a) Any motorcycle manufactured on or after July 1, 1971, and before January 1, 197388 db(A);
 - (b) Any motorcycle manufactured on or after January 1, 197386 db(A);
 - (c) Any motor vehicle with a gross vehicle weight rating of six thousand pounds or more manufactured on or after July 1, 1971, and before January 1, 197388 db(A);
 - (d) Any motor vehicle with a gross vehicle weight rating of six thousand pounds or more manufactured on or after January 1, 197386 db(A);
 - (e) Any other motor vehicle manufactured on or after January 1, 1968, and before January 1, 197386 db(A);
 - (f) Any other motor vehicle manufactured after January 1, 197384 db(A).
 - (g) (Deleted by amendment, L. 2008, p. 2102, § 2, effective July 1, 2010.)
- (2) Test procedures for compliance with this section shall be established by the department, taking into consideration the test procedures of the society of automotive engineers.

(3) Any person selling or offering for sale a motor vehicle or other vehicle in violation of this section is guilty of a misdemeanor and, upon conviction thereof, shall be punished by a fine of not less than fifty dollars nor more than three hundred dollars.

Source: L. 71: p. 650, § 1. C.R.S. 1963: § 66-35-6. L. 2008: IP(1) and (1)(g) amended, p. 2102, § 2, effective July 1, 2010. L. 2009: (1)(a) and (1)(b) amended, (HB 09-1026), ch. 281, p. 1259, § 20, effective October 1.

25-12-107. Powers of local authorities. (1) Counties or municipalities may adopt resolutions or ordinances prohibiting the operation of motor vehicles within their respective jurisdictions that produce noise in excess of the sound levels in decibels, measured on the “A” scale on a standard sound level meter having characteristics established by the American national standards institute, publication S1.4 - 1971, and measured at a distance of fifty feet from the center of the lane of travel and within the speed limits specified in this section:

	Speed limit of 35 mph or less	Speed limit of more than 35 mph but less than 55 mph
(a) Any motor vehicle with a manufacturer’s gross vehicle weight rating of six thousand pounds or more, any combination of vehicles towed by such motor vehicle, and any motorcycle other than a low-power scooter:		
(I) Before January 1, 1973	88 db(A)	90 db(A)
(II) On and after January 1, 1973	86 db(A)	90 db(A)

- (b) (Deleted by amendment, L. 2008, p. 2102, § 3, effective July 1, 2010.)
- (2) The governing board shall adopt resolutions establishing any test procedures deemed necessary.
- (3) This section applies to the total noise from a vehicle or combination of vehicles.
- (4) For the purpose of this section, a truck, truck tractor, or bus that is not equipped with an identification plate or marking bearing the manufacturer’s name and manufacturer’s gross vehicle weight rating shall be considered as having a manufacturer’s gross vehicle weight rating of six thousand pounds or more if the unladen weight is more than five thousand pounds.

Source: L. 71: p. 651, § 1. C.R.S. 1963: § 66-35-7. L. 73: p. 1406, § 48. L. 2008: IP(1) and (1)(b) amended, p. 2102, § 3, effective July 1, 2010. L. 2009: IP(1)(a) amended, (HB 09-1026), ch. 281, p. 1259, § 21, effective October 1.

25-12-108. Preemption. Except as provided in sections 25-12-103 (12) and 25-12-110, this article shall not be construed to preempt or limit the authority of any municipality or county to adopt standards that are no less restrictive than the provisions of this article.

Source: L. 71: p. 651, § 1. C.R.S. 1963: § 66-35-8. L. 88: Entire section amended, p. 1116, § 2, effective May 19. L. 2008: Entire section amended, p. 2103, § 4, effective July 1, 2010.

25-12-109. Exception - sport shooting ranges - legislative declaration - definitions. (1) The general assembly hereby finds, determines, and declares that the imposition of inconsistent, outdated, and unnecessary noise restrictions on qualifying sport shooting ranges that meet specific, designated qualifications work to the detriment of the public health, welfare, and morale as well as to the detriment of the economic well-being of the state. The general assembly further finds, determines, and declares that a need exists for statewide uniformity with respect to exempting qualifying shooting ranges from the enforcement of laws, ordinances, rules, and orders regulating noise. As the gain associated with having a uniform statewide exemption for qualifying sport shooting ranges outweighs any gains associated with enforcing noise regulations against such ranges, the general assembly further declares that the provisions of this section, as enacted, are a matter of statewide concern and preempt any provisions of any law, ordinance, rule, or order to the contrary.

- (2) As used in this section, unless the context otherwise requires:
 - (a) “Local government” means any county, city, city and county, town, or any governmental entity, board, council, or committee operating under the authority of any county, city, city and county, or town.
 - (b) “Local government official” means any elected, appointed, or employed individual or group of individuals acting on behalf of or exercising the authority of any local government.
 - (c) “Person” means an individual, proprietorship, partnership, corporation, club, or other legal entity.
 - (d) “Qualifying sport shooting range” or “qualifying range” means any public or private establishment, whether operating for profit or not for profit, that operates an area for the discharge or other use of firearms or other equipment for silhouette, skeet, trap, black powder, target, self-defense, recreational or competitive shooting, or professional training.
- (3) Notwithstanding any other law or municipal or county ordinance, rule, or order regulating noise to the contrary:
 - (a) A local governmental official may not commence a civil action nor seek a criminal penalty against a qualifying sport shooting range or its owners or operators on the grounds of noise emanating from such range that results from the normal operation or use of the qualifying shooting range except upon a written complaint from a resident of the jurisdiction in which the range is located. The complaint shall state the name and address of the complainant, how long the complainant has resided at the address indicated, the times and dates on which the alleged excessive noise occurred, and such other information as the local government may require. The local government shall not proceed to seek a criminal penalty or pursue a civil action against a qualifying sport shooting range on the basis of such a noise complaint if the complainant established residence within the jurisdiction after January 1, 1985.
 - (b) No person may bring any suit in law or equity or any other claim for relief against a qualifying sport shooting range located in the vicinity of the person’s property or against the owners or operators of such range on the grounds of noise emanating from the range if:
 - (I) The qualifying range was established before the person acquired the property;
 - (II) The qualifying range complies with all laws, ordinances, rules, or orders regulating noise that applied to the range and its operation at the time of its construction or initial operation;
 - (III) No law, ordinance, rule, or order regulating noise applied to the qualifying range at the time of its construction or initial operation.

Source: L. 98: Entire section added, p. 240, § 1, effective April 13.

25-12-110. Off-highway vehicles. (1) An off-highway vehicle operated within the state shall not emit more than the following level of sound when measured using SAE J1287:

- (a) If manufactured before January 1, 199899 db(A);
- (b) If manufactured on or after January 1, 199896 db(A).
- (2) A snowmobile shall not emit more than the following level of sound when measured using SAE J2567:
 - (a) If manufactured on or after July 1, 1972, and before July 2, 197590 db(A);
 - (b) If manufactured on or after July 2, 197588 db(A).
- (3) (a) A person shall not sell or offer to sell a new off-highway vehicle that emits a level of sound in excess of that prohibited by subsection (1) of this section unless the off-highway vehicle complies with federal noise emission standards. A person shall not sell or offer to sell a new snowmobile that emits a level of sound in excess of that prohibited by subsection (2) of this section unless the snowmobile complies with federal noise emission standards.
- (b) For the purposes of this section, a “new” snowmobile or off-highway vehicle means a snowmobile or off-highway vehicle that has not been transferred on a manufacturer’s statement of origin and for which an ownership registration card has not been submitted by the original owner to the manufacturer.

- (4) This section shall not apply to the following:
 - (a) A vehicle designed or modified for and used in closed-circuit, off-highway vehicle competition facilities;
 - (b) An off-highway vehicle used in an emergency to search for or rescue a person; and
 - (c) An off-highway vehicle while in use for agricultural purposes.
- (5) A person who violates this section commits a class 2 petty offense and, upon conviction thereof, shall be punished by a fine of not more than one hundred dollars.
- (6) No municipality or county may adopt an ordinance or resolution setting noise standards for off-highway vehicles or snowmobiles that are more restrictive than this section.
- (7) (a) Nothing in this section shall be construed to modify the authority granted in section 25-12-103.
 - (b) Nothing in this section shall be construed to authorize the test to produce a less restrictive standard than the J1287 stationary sound test or the J2567 stationary sound test published by SAE international or any successor organization.
- (8) The following shall be an affirmative defense to a violation under this section if the off-highway vehicle or snowmobile:
 - (a) Was manufactured before January 1, 2005;
 - (b) Complied with federal and state law when purchased;
 - (c) Has not been modified from the manufacturer’s original equipment specifications or to exceed the sound limits imposed by subsection (1) or (2) of this section; and
 - (d) Does not have a malfunctioning exhaust system.

25-13-103. Definitions. As used in this article, unless the context otherwise requires:

- (1) “Board” means the state board of health.
- (2) “Campsite” means any specific area within organized campgrounds or other recreation areas which is used for overnight stays by an individual, a single camping family, a group, or any other similar entity.
- (3) “Department” means the department of public health and environment.

(4) "Operator" means the person responsible for managing the organized campground or recreation area.

(5) "Organized campgrounds" means all federal, state, municipal, and county owned and designated roadside parks and campgrounds and privately owned campgrounds which are made available, either with or without a fee, to the public.

(6) "Person" means any private or public institution, corporation, individual, partnership, firm, association, or other entity.

(7) "Public accommodation facilities" means all motels, hotels, dude ranches, youth camps, and other similar facilities rented out to the public in areas used predominantly for recreation.

(8) "Recreation areas" means all public lands and surface waters of the state, other than organized campgrounds, used for picnicking, camping, and other recreational activities.

(9) "Refuse" means all combustible or noncombustible solid waste, garbage, rubbish, debris, and litter.

(10) "Sewage" means any liquid or solid waste material which contains human excreta.

(11) "Surface of ground" means any portion of the ground from the surface to a depth of six inches.

(12) "Waters of the state" means all streams, lakes, rivers, ponds, wells, impounding reservoirs, watercourses, springs, drainage systems, and irrigation systems; all sources of water such as snow, ice, and glaciers; and all other bodies or accumulations of water, surface and underground, natural or artificial, public or private, located wholly or partly within or bordering upon this state and within the jurisdiction of this state.

Source: L. 71: p. 643, § 1. C.R.S. 1963: § 66-34-3. L. 94: (3) amended, p. 2792, § 529, effective July 1.

Cross references: For the legislative declaration contained in the 1994 act amending this section, see section 1 of chapter 345, Session Laws of Colorado 1994.

25-13-104. Administration. (1) Except as provided in section 25-13-111, the department shall administer the provisions of this article.

(2) The board shall promulgate reasonable rules and regulations to carry out the purposes of this article.

(3) The department shall furnish consulting services to county commissioners, municipalities, other governmental agencies, and private landowners regarding toilet facilities and procedures for refuse collection and disposal.

Source: L. 71: p. 644, § 1. C.R.S. 1963: § 66-34-4.

25-13-105. Unlawful acts. (1) Except as otherwise provided in this article, it is unlawful for any person:

(a) Within the recreation areas of the state to discharge untreated sewage upon the surface of the ground or in any waters of the state;

(b) To deposit or bury refuse on the public lands or waters within this state, except within areas or receptacles designated by the operator for this purpose;

(c) To deposit refuse on private or public land in such a way that said refuse may be blown, carried, or otherwise transported from its point of deposit;

(d) To willfully mar, mutilate, deface, disfigure, or injure beyond normal use any rocks, trees, shrubbery, wild flowers, or other features of the natural environment in recreation areas of the state;

(e) To willfully cut down, uproot, break, or otherwise destroy any living trees, shrubbery, wild flowers, or natural flora in recreation areas of the state;

(f) To build fires unless in compliance with rules and regulations of the board, to abandon or to leave fires unattended, or to store flammable liquids in a container which is not of a type approved by the department in an organized campground or other recreation area subject to this article;

(g) In organized campgrounds or recreation areas to use any cleansing agents, whether organic or inorganic in nature, in waters of the state for any purpose, including but not limited to bathing, clothes washing, and similar activities, or to dispose of any water containing such agents on the surface of the ground within fifty feet of any waters of the state. Such water shall be disposed of in facilities provided by the operator or in the manner specified by the operator.

Source: L. 71: p. 644, § 1. C.R.S. 1963: § 66-34-5.

Cross references: For leaving campfires unextinguished and causing a fire in woods or prairie, see § 18-13-109; for civil damages from fire set in woods or prairie, see § 13-21-105.

25-13-106. Sewage disposal. (1) In organized campgrounds, all sewage shall be disposed of in facilities provided by the campground operator. The operator shall maintain such facilities in the manner prescribed by rules and regulations of the board.

(2) Sewage in recreation areas may be disposed of by burial at a depth greater than six inches at a distance of more than one hundred feet from any surface waters. Adequate precautions shall be taken to prevent the intrusion of such sewage and wastewater upon the environment in a manner which is unhealthful, injurious to the environment, or otherwise degrading to the environment.

(3) Public accommodation sewage and wastewater disposal facilities shall conform to such reasonable rules and regulations as may be promulgated by the board.

Source: L. 71: p. 645, § 1. C.R.S. 1963: § 66-34-6.

25-13-107. Refuse disposal. (1) All persons shall dispose of refuse in containers which shall be provided for that purpose by operators of organized campgrounds. Organized campground operators shall keep the grounds free of uncontained refuse and shall provide a sufficient number of secure waterproof containers, preferably metal, with flyproof tops for the disposal of refuse. The containers shall be emptied as often as necessary to maintain the organized campground free of uncontained refuse. The presence of uncontained refuse in excess of the capacity of the containers provided shall be prima facie proof that the numbers of containers or frequency of container emptying is inadequate and that the operator is in violation of this subsection (1).

(2) Whenever containers for refuse are filled or are not available in campgrounds or recreation areas, all persons shall dispose of refuse in compliance with rules and regulations adopted by the board or operator or remove the refuse from the area for disposal in a manner not in violation of this article.

(3) Refuse in public accommodation facilities shall be disposed in the manner specified in such reasonable rules and regulations as may be promulgated by the board.

(4) Food wastes normally edible to human beings may be deposited on the surface of the ground if the quantity of such wastes does not result in an unhealthful or unpleasant aesthetic appearance by virtue of an unreasonable time required for decay of the waste or consumption of the waste by fauna of the area.

Source: L. 71: p. 645, § 1. C.R.S. 1963: § 66-34-7.

25-13-108. Water supplies. All water supplied to the public in an organized campground shall conform to the requirements of standards adopted by the board, rules and regulations adopted by the board, or any higher local standards.

Source: L. 71: p. 646, § 1. C.R.S. 1963: § 66-34-8.

25-13-109. Group gatherings. Any group of twenty-five or more persons assembled for a meeting, festival, social gathering, or other similar purpose in an organized campground or recreation area for a period which reasonably could have been anticipated to

exceed ten hours shall make provision for sewage, wastewater, and refuse disposal in accordance with rules and regulations of the board. The organizers of and performers at any gathering in violation of this section shall be punished as provided in section 25-13-114.

Source: L. 71: p. 646, § 1. C.R.S. 1963: § 66-34-9.

25-13-110. Camping duration. No person may camp in a campsite within recreation areas for a period exceeding two weeks. Any campsite may be closed by the department or other lawful authority for an indefinite period to permit recovery of the campsite to its natural state following excessive use and resulting environmental deterioration.

Source: L. 71: p. 646, § 1. C.R.S. 1963: § 66-34-10.

25-13-111. Enforcement. This article shall be enforced by the department, the division of parks and wildlife, all county, district, and municipal public health agencies and boards of health, and any peace officer in this state.

PART 1

PROHIBITION AGAINST THE USE OF TOBACCO ON SCHOOL PROPERTY

25-14-101. Legislative declaration. (Repealed)

Source: L. 77: Entire article added, p. 1298, § 1, effective July 1. L. 2006: Entire section repealed, p. 60, § 2, effective July 1.

25-14-102. Definitions. (Repealed)

Source: L. 77: Entire article added, p. 1298, § 1, effective July 1. L. 91: (1) amended, p. 821, § 6, effective June 1. L. 2006: Entire section repealed, p. 60, § 3, effective July 1.

25-14-103. Smoking prohibited in certain public places. (Repealed)

Source: L. 77: Entire article added, p. 1299, § 1, effective July 1. L. 94: (1)(f) repealed, p. 676, § 2, effective April 19; (1)(c) amended, p. 1957, § 2, effective August 1. L. 2003: (1)(b)(IV) amended, p. 711, § 45, effective July 1. L. 2006: Entire section repealed, p. 60, § 4, effective July 1.

25-14-103.5. Prohibition against the use of tobacco products on school property - legislative declaration - education program - special account. (1) The general assembly finds that many of the schools in this state permit the use of tobacco products in and around school property. The general assembly further finds that secondhand smoke generated by such activity and the negative example set and frequently imitated by our school children are detrimental to the health and well-being of such children as well as to school teachers, staff, and visitors. Accordingly, the general assembly finds and declares that it is appropriate to create a safe and healthy school environment by prohibiting the use of tobacco products on all school property.

(2) As used in this section, unless the context otherwise requires:

(a) “School” means a public nursery school, day care center, child care facility, head start program, kindergarten, or elementary or secondary school through grade twelve.

(b) “School property” means all property, whether owned, leased, rented, or otherwise used by a school, including, but not limited to, the following:

(I) All interior portions of any building used for instruction, administration, support services, maintenance, and storage and any other structure used by a school; except that such term shall not apply to a building primarily used as a residence;

(II) All school grounds surrounding any building specified in subparagraph (I) of this paragraph (b) over which the school is authorized to exercise dominion and control. Such grounds shall include any playground, athletic field, recreation area, and parking area; and

(III) All vehicles used by the school for the purpose of transporting students, workers, visitors, or any other persons.

(c) “Tobacco product” shall have the same meaning as set forth in section 18-13-121 (5), C.R.S.

(d) “Use” means the lighting, chewing, smoking, ingestion, or application of any tobacco product.

(3) (a) (I) The board of education of each school district shall adopt appropriate policies and rules which mandate a prohibition against the use of all tobacco products on all school property by students, teachers, staff, and visitors and which provide for the enforcement of such policies and rules.

(II) Repealed.

(b) Signs regarding such prohibition and the consequences of violation shall be displayed prominently on all school property to ensure compliance no later than September 1, 1994.

(4) This section shall not be applicable to the use of a tobacco product in a limited classroom demonstration to show the health hazards of tobacco.

(5) The board of education of each school district is authorized to seek and accept gifts, donations, or grants of any kind from any private or charitable source or from any governmental agency to meet expenses required by this section. Such gifts, donations, and grants shall be accounted for separately, and, to the extent that such moneys are available, the board of education of each school district may maintain and operate an educational program designed to assist students, faculty, and staff to avoid and discontinue the use of tobacco products. Such program shall be offered at each school under the board's direction and control.

(6) This section shall not prohibit any school from enacting more stringent policies or rules than required by this section.

PART 2

COLORADO CLEAN INDOOR AIR ACT

25-14-201. Short title. This part 2 shall be known and may be cited as the "Colorado Clean Indoor Air Act".

Source: L. 2006: Entire part added, p. 53, § 1, effective July 1.

ANNOTATION

The Colorado Clean Indoor Air Act's (CCIAA) airport smoking concession exemption does not violate the equal protection clause of the fourteenth amendment to the U.S. constitution. The Colorado legislature, by exempting airport smoking concessions from the CCIAA's operation, rationally distinguished those concessions from the majority of other indoor facilities in the state that are open to the public. *Coal. for Equal Rights, Inc. v. Ritter*, 517 F.3d 1195 (10th Cir. 2008).

The CCIAA does not violate due process by infringing on the use of property of bar and restaurant owners. *Coal. for Equal Rights, Inc. v.*

Owens, 458 F. Supp. 2d 1251 (D. Colo. 2006), *aff'd sub nom. Coal. for Equal Rights, Inc. v. Ritter*, 517 F.3d 1195 (10th Cir. 2008).

The CCIAA does not consist of more than one subject. On its face, the CCIAA's addresses the health risks of indoor secondhand smoke. Even assuming the CCIAA's exemptions are based in part on economic concerns, it does not violate art. V, § 21, of the constitution. *Coal. for Equal Rights v. Owens*, 458 F. Supp. 2d 1251 (D. Colo. 2006), *aff'd sub nom. Coal. for Equal Rights, Inc. v. Ritter*, 517 F.3d 1195 (10th Cir. 2008).

25-14-202. Legislative declaration. The general assembly hereby finds and determines that it is in the best interest of the people of this state to protect nonsmokers from involuntary exposure to environmental tobacco smoke in most indoor areas open to the public, public meetings, food service establishments, and places of employment. The general assembly further finds and determines that a balance should be struck between the health concerns of nonconsumers of tobacco products and the need to minimize unwarranted governmental intrusion into, and regulation of, private spheres of conduct and choice with respect to the use or nonuse of tobacco products in certain designated public areas and in private places. Therefore, the general assembly hereby declares that the purpose of this part 2 is to preserve and improve the health, comfort, and environment of the people of this state by limiting exposure to tobacco smoke.

Source: L. 2006: Entire part added, p. 53, § 1, effective July 1.

25-14-203. Definitions. As used in this part 2, unless the context otherwise requires:

(1) "Airport smoking concession" means a bar or restaurant, or both, in a public airport with regularly scheduled domestic and international commercial passenger flights, in which bar or restaurant smoking is allowed in a fully enclosed and independently ventilated area by the terms of the concession.

(2) "Auditorium" means the part of a public building where an audience gathers to attend a performance, and includes any corridors, hallways, or lobbies adjacent thereto.

(3) "Bar" means any indoor area that is operated and licensed under article 47 of title 12, C.R.S., primarily for the sale and service of alcohol beverages for on-premises consumption and where the service of food is secondary to the consumption of such beverages.

(4) "Cigar-tobacco bar" means a bar that, in the calendar year ending December 31, 2005, generated at least five percent or more of its total annual gross income or fifty thousand dollars in annual sales from the on-site sale of tobacco products and the rental of on-site humidors, not including any sales from vending machines. In any calendar year after December 31, 2005, a bar that fails to generate at least five percent of its total annual gross income or fifty thousand dollars in annual sales from the on-site sale of tobacco products and the rental of on-site humidors shall not be defined as a "cigar-tobacco bar" and shall not thereafter be included in the definition regardless of sales figures.

(5) (a) "Employee" means any person who:

(I) Performs any type of work for benefit of another in consideration of direct or indirect wages or profit; or

(II) Provides uncompensated work or services to a business or nonprofit entity.

(b) "Employee" includes every person described in paragraph (a) of this subsection (5), regardless of whether such person is referred to as an employee, contractor, independent contractor, or volunteer or by any other designation or title.

(6) “Employer” means any person, partnership, association, corporation, or nonprofit entity that employs one or more persons. “Employer” includes, without limitation, the legislative, executive, and judicial branches of state government; any county, city and county, city, or town, or instrumentality thereof, or any other political subdivision of the state, special district, authority, commission, or agency; or any other separate corporate instrumentality or unit of state or local government.

(7) “Entryway” means the outside of the front or main doorway leading into a building or facility that is not exempted from this part 2 under section 25-14-205. “Entryway” also includes the area of public or private property within a specified radius outside of the doorway. The specified radius shall be determined by the local authority or, if the local authority has not acted, the specified radius shall be fifteen feet.

(8) “Environmental tobacco smoke”, “ETS”, or “secondhand smoke” means the complex mixture formed from the escaping smoke of a burning tobacco product, also known as “sidestream smoke”, and smoke exhaled by the smoker.

(9) “Food service establishment” means any indoor area or portion thereof in which the principal business is the sale of food for on-premises consumption. The term includes, without limitation, restaurants, cafeterias, coffee shops, diners, sandwich shops, and short-order cafes.

(10) “Indoor area” means any enclosed area or portion thereof. The opening of windows or doors, or the temporary removal of wall panels, does not convert an indoor area into an outdoor area.

(11) “Local authority” means a county, city and county, city, or town.

(12) “Place of employment” means any indoor area or portion thereof under the control of an employer in which employees of the employer perform services for, or on behalf of, the employer.

(13) “Public building” means any building owned or operated by:

(a) The state, including the legislative, executive, and judicial branches of state government;

(b) Any county, city and county, city, or town, or instrumentality thereof, or any other political subdivision of the state, a special district, an authority, a commission, or an agency; or

(c) Any other separate corporate instrumentality or unit of state or local government.

(14) “Public meeting” means any meeting open to the public pursuant to part 4 of article 6 of title 24, C.R.S., or any other law of this state.

(15) “Smoke-free work area” means an indoor area in a place of employment where smoking is prohibited under this part 2.

(16) “Smoking” means the burning of a lighted cigarette, cigar, pipe, or any other matter or substance that contains tobacco or medical marijuana as defined by section 12-43.3-104 (7), C.R.S.

(17) “Tobacco” means cigarettes, cigars, cheroots, stogies, and periques; granulated, plug cut, crimp cut, ready rubbed, and other smoking tobacco; snuff and snuff flour; cavendish; plug and twist tobacco; fine-cut and other chewing tobacco; shorts, refuse scraps, clippings, cuttings, and sweepings of tobacco; and other kinds and forms of tobacco, prepared in such manner as to be suitable for chewing or for smoking in a cigarette, pipe, or otherwise, or both for chewing and smoking. “Tobacco” also includes cloves and any other plant matter or product that is packaged for smoking.

(18) “Tobacco business” means a sole proprietorship, corporation, partnership, or other enterprise engaged primarily in the sale, manufacture, or promotion of tobacco, tobacco products, or smoking devices or accessories, either at wholesale or retail, and in which the sale, manufacture, or promotion of other products is merely incidental.

(19) “Work area” means an area in a place of employment where one or more employees are routinely assigned and perform services for or on behalf of their employer.

Source: L. 2006: Entire part added, p. 54, § 1, effective July 1. **L. 2010:** (16) amended, (HB 10-1284), ch. 355, p. 1687, § 11, effective July 1.

ANNOTATION

The small business exemption in § 25-14-205 (1)(h) is not unconstitutionally vague nor are the definitions in subsection (5)(a) and (5)(b) of this section. Coal. for Equal Rights v.

Owens, 458 F. Supp. 2d 1251 (D. Colo. 2006), aff'd sub nom. Coal. for Equal Rights, Inc. v. Ritter, 517 F.3d 1195 (10th Cir. 2008).

25-14-204. General smoking restrictions. (1) Except as provided in section 25-14-205, and in order to reduce the levels of exposure to environmental tobacco smoke, smoking shall not be permitted and no person shall smoke in any indoor area, including, but not limited to:

- (a) Public meeting places;
- (b) Elevators;
- (c) Government-owned or -operated means of mass transportation, including, but not limited to, buses, vans, and trains;
- (d) Taxicabs and limousines;
- (e) Grocery stores;
- (f) Gymnasiums;
- (g) Jury waiting and deliberation rooms;
- (h) Courtrooms;
- (i) Child day care facilities;
- (j) Health care facilities including hospitals, health care clinics, doctor's offices, and other health care related facilities;

(k) (I) Any place of employment that is not exempted.

(II) In the case of employers who own facilities otherwise exempted from this part 2, each such employer shall provide a smoke-free work area for each employee requesting not to have to breathe environmental tobacco smoke. Every employee shall have a right to work in an area free of environmental tobacco smoke.

- (l) Food service establishments;
- (m) Bars;
- (n) Limited gaming facilities and any other facilities in which any gaming or gambling activity is conducted;
- (o) Indoor sports arenas;
- (p) Restrooms, lobbies, hallways, and other common areas in public and private buildings, condominiums, and other multiple-unit residential facilities;
- (q) Restrooms, lobbies, hallways, and other common areas in hotels and motels, and in at least seventy-five percent of the sleeping quarters within a hotel or motel that are rented to guests;
- (r) Bowling alleys;
- (s) Billiard or pool halls;
- (t) Facilities in which games of chance are conducted;
- (u) (I) The common areas of retirement facilities, publicly owned housing facilities, and, except as specified in section 25-14-205 (1) (k), nursing homes, but not including any resident's private residential quarters or areas of assisted living facilities specified in section 25-14-205 (1) (k).

(II) Nothing in this part 2 affects the validity or enforceability of a contract, whether entered into before, on, or after July 1, 2006, that specifies that a part or all of a facility or home specified in this paragraph (u) is a smoke-free area.

- (v) Public buildings;
- (w) Auditoria;
- (x) Theaters;
- (y) Museums;
- (z) Libraries;
- (aa) To the extent not otherwise provided in section 25-14-103.5, public and nonpublic schools;
- (bb) Other educational and vocational institutions; and

(cc) The entryways of all buildings and facilities listed in paragraphs (a) to (bb) of this subsection (1).

(2) A cigar-tobacco bar shall not expand its size or change its location from the size and location in which it existed as of December 31, 2005. A cigar-tobacco bar shall display signage in at least one conspicuous place and at least four inches by six inches in size stating: "Smoking allowed. Children under eighteen years of age must be accompanied by a parent or guardian."

Source: L. 2006: Entire part added, p. 56, § 1, effective July 1. L. 2007: (1)(u) amended, p. 398, § 1, effective August 3.

ANNOTATION

The Colorado Clean Indoor Air Act's (CCIAA) airport smoking concession exemption does not violate the equal protection clause of the fourteenth amendment to the U.S. constitution. The Colorado legislature, by exempting airport smoking concessions from the CCIAA's operation, rationally distinguished those concessions from the majority of other indoor facilities in the state that are open to the public. *Coal. for Equal Rights, Inc. v. Ritter*, 517 F.3d 1195 (10th Cir. 2008).

The CCIAA does not violate substantive due process by imposing criminal liability on bar and restaurant owners for the acts of others. The plain language of subsection (1) prohibits both smoking by patrons and the allowing of smoking by bar and restaurant owners. The CCIAA does not criminalize owners for the acts of others. It criminalizes their own actions allowing their patrons to smoke. *Coal. for Equal Rights v. Owens*, 458 F. Supp. 2d 1251 (D. Colo. 2006), *aff'd* sub nom. *Coal. for Equal Rights, Inc. v. Ritter*, 517 F.3d 1195 (10th Cir. 2008).

The CCIAA does not violate due process by infringing on bar and restaurant owners' use of their property. *Coal. for Equal Rights v. Owens*, 458 F. Supp. 2d 1251 (D. Colo. 2006), *aff'd* sub nom. *Coal. for Equal Rights, Inc. v. Ritter*, 517 F.3d 1195 (10th Cir. 2008).

The plain language of subsection (2) states that a plaintiff who legally expands his cigar-tobacco bar prior to July 1, 2006 would become subject to penalties as of July 1, 2006 for his pre-enactment expansion. This is impermissible *ex post facto* legislation; however, the challenge to the retroactive law has become moot by the simple passage of time. *Coal. for Equal Rights v. Owens*, 458 F. Supp. 2d 1251 (D. Colo. 2006), *aff'd* sub nom. *Coal. for Equal Rights, Inc. v. Ritter*, 517 F.3d 1195 (10th Cir. 2008).

The CCIAA does not violate theaters' rights under the first amendment to the U.S. constitution or section 10 of article II of the

Colorado constitution. *Curious Theatre Co. v. Dept. of Pub. Health & Env't*, 216 P.3d 71 (Colo. App. 2008), *aff'd*, 220 P.3d 544 (Colo. 2009).

Smoking on stage during the course of a play is expressive conduct for purposes of the first amendment, and the CCIAA does place an incidental burden on this conduct by prohibiting it in indoor theaters. *Curious Theatre Co. v. Dept. of Pub. Health & Env't*, 216 P.3d 71 (Colo. App. 2008), *aff'd* on other grounds, 220 P.3d 544 (Colo. 2009).

The CCIAA is content neutral, however, because it focuses on the adverse health effects of tobacco smoke, not on expression. *Curious Theatre Co. v. Dept. of Pub. Health & Env't*, 216 P.3d 71 (Colo. App. 2008), *aff'd*, 220 P.3d 544 (Colo. 2009).

Because the CCIAA is content neutral, it is subject to an intermediate level of scrutiny as set forth in *United States v. O'Brien*. The four factors of *O'Brien* are satisfied in this case. First, the statute is within the constitutional power of the government because the legislature has the authority to enact statutes designed to promote the public health. Second, the statute furthers an important or substantial governmental interest by protecting the health of its citizens. Third, the government's interest in establishing the statute is unrelated to the suppression of free expression because it is content neutral and justified by health concerns unrelated to expression. Finally, the incidental restriction is no greater than necessary to further the interest because it is narrowly tailored by focusing on the one form of conduct, smoking, upon which the state's announced interest in protecting the public's health depends. The statute allows alternative channels of expression, such as outdoor theaters and fake and prop cigarettes. The theaters did not demonstrate that the use of the alternatives is so inadequate as to outweigh the state's overriding interest in protecting the health of its citizens. *Curious Theatre Co. v. Dept. of Pub. Health & Env't*, 216 P.3d 71 (Colo. App. 2008), *aff'd*, 220 P.3d 544 (Colo. 2009).

25-14-205. Exceptions to smoking restrictions. (1) This part 2 shall not apply to:

- (a) Private homes, private residences, and private automobiles; except that this part 2 shall apply if any such home, residence, or vehicle is being used for child care or day care or if a private vehicle is being used for the public transportation of children or as part of health care or day care transportation;
- (b) Limousines under private hire;
- (c) A hotel or motel room rented to one or more guests if the total percentage of such hotel or motel rooms in such hotel or motel does not exceed twenty-five percent;
- (d) Any retail tobacco business;
- (e) A cigar-tobacco bar;
- (f) An airport smoking concession;
- (g) The outdoor area of any business;
- (h) A place of employment that is not open to the public and that is under the control of an employer that employs three or fewer employees;
- (i) A private, nonresidential building on a farm or ranch, as defined in section 39-1-102, C.R.S., that has annual gross income of less than five hundred thousand dollars; or
- (j) Repealed.
- (k) (I) The areas of assisted living facilities:
 - (A) That are designated for smoking for residents;
 - (B) That are fully enclosed and ventilated; and
 - (C) To which access is restricted to the residents or their guests.
- (II) As used in this paragraph (k), "assisted living facility" means a nursing facility, as that term is defined in section 25.5-4-103, C.R.S., and an assisted living residence, as that term is defined in section 25-27-102.

Source: L. 2006: Entire part added, p. 58, § 1, effective July 1. L. 2007: (1)(k) added, p. 398, § 2, effective August 3; (1)(j) repealed, p. 1751, § 1, effective January 1, 2008.

ANNOTATION

The Colorado Clean Indoor Air Act's (CCIAA) airport smoking concession exemption does not violate the equal protection clause of the fourteenth amendment to the U.S. constitution. The Colorado legislature, by exempting airport smoking concessions from the CCIAA's operation, rationally distinguished those concessions from the majority of other indoor facilities in the state that are open to the public. *Coal. for Equal Rights, Inc. v. Ritter*, 517 F.3d 1195 (10th Cir. 2008).

The small business exemption in subsection (1)(h) is not unconstitutionally vague nor are

the definitions in § 25-14-203 (5)(a) and (5)(b). *Coal. for Equal Rights v. Owens*, 458 F. Supp. 2d 1251 (D. Colo. 2006), *aff'd sub nom. Coal. for Equal Rights, Inc. v. Ritter*, 517 F.3d 1195 (10th Cir. 2008).

The exemptions for licensed casinos, bars and restaurants within licensed casinos, and cigar-tobacco bars are not special legislation. *Coal. for Equal Rights v. Owens*, 458 F. Supp. 2d 1251 (D. Colo. 2006) (decided prior to 2007 repeal of subsection (1)(j)), *aff'd on other grounds sub nom. Coal. for Equal Rights, Inc. v. Ritter*, 517 F.3d 1195 (10th Cir. 2008).

25-14-206. Optional prohibitions. (1) The owner or manager of any place not specifically listed in section 25-14-204, including a place otherwise exempted under section 25-14-205, may post signs prohibiting smoking or providing smoking and nonsmoking areas. Such posting shall have the effect of including such place, or the designated nonsmoking portion thereof, in the places where smoking is prohibited or restricted pursuant to this part 2.

(2) If the owner or manager of a place not specifically listed in section 25-14-204, including a place otherwise exempted under section 25-14-205, is an employer and receives a request from an employee to create a smoke-free work area as contemplated by section 25-14-204 (1) (k) (II), the owner or manager shall post a sign or signs in the smoke-free work area as provided in subsection (1) of this section.

Source: L. 2006: Entire part added, p. 58, § 1, effective July 1.

25-14-207. Other applicable regulations of smoking - local counterpart regulations authorized. (1) This part 2 shall not be interpreted or construed to permit smoking where it is otherwise restricted by any other applicable law.

(2) (a) A local authority may, pursuant to article 16 of title 31, C.R.S., a municipal home rule charter, or article 15 of title 30, C.R.S., enact, adopt, and enforce smoking regulations that cover the same subject matter as the various provisions of this part 2. No local authority may adopt any local regulation of smoking that is less stringent than the provisions of this part 2; except that a local authority may specify a radius of less than fifteen feet for the area included within an entryway.

(b) The municipal courts or their equivalent in any city, city and county, or town have jurisdiction over violations of smoking regulations enacted by any city, city and county, or town under this section.

Source: L. 2006: Entire part added, p. 59, § 1, effective July 1.

25-14-208. Unlawful acts - penalty - disposition of fines and surcharges. (1) It is unlawful for a person who owns, manages, operates, or otherwise controls the use of a premises subject to this part 2 to violate any provision of this part 2.

(2) It is unlawful for a person to smoke in an area where smoking is prohibited pursuant to this part 2.

(3) A person who violates this part 2 is guilty of a class 2 petty offense and, upon conviction thereof, shall be punished by a fine not to exceed two hundred dollars for a first violation within a calendar year, a fine not to exceed three hundred dollars for a second violation within a calendar year, and a fine not to exceed five hundred dollars for each additional violation within a calendar year. Each day of a continuing violation shall be deemed a separate violation.

(4) All judges, clerks of a court of record, or other officers imposing or receiving fines collected pursuant to or as a result of a conviction of any persons for a violation of any provision of this part 2 shall transmit all such moneys so collected in the following manner:

(a) Seventy-five percent of any such fine for a violation occurring within the corporate limits of a city, town, or city and county shall be transmitted to the treasurer or chief financial officer of said city, town, or city and county, and the remaining twenty-five percent shall be transmitted to the state treasurer, who shall credit the same to the general fund.

(b) Seventy-five percent of any fine for a violation occurring outside the corporate limits of a city or town shall be transmitted to the treasurer of the county in which the city or town is located, and the remaining twenty-five percent shall be transmitted to the state treasurer, who shall credit the same to the general fund.

Source: L. 2006: Entire part added, p. 59, § 1, effective July 1.

25-14-209. Severability. If any provision of this part 2 or the application thereof to any person or circumstance is held invalid, such invalidity shall not affect other provisions or applications of this part 2 that can be given effect without the invalid provision or application, and to this end the provisions of this part 2 are declared to be severable.

Source: L. 2006: Entire part added, p. 60, § 1, effective July 1.

PART 3

TOBACCO USE BY MINORS

25-14-301. Possession of cigarettes or tobacco products by a minor prohibited - definitions. (1) This section shall be known and may be cited as the "Teen Tobacco Use Prevention Act".

(2) (a) Possession of a cigarette or tobacco product by a person who is under eighteen years of age is prohibited.

(b) It shall not be an offense under paragraph (a) of this subsection (2) if the person under eighteen years of age was acting at the direction of an employee of a governmental agency authorized to enforce or ensure compliance with laws relating to the prohibition of the sale of cigarettes and tobacco products to minors.

(3) As used in this section, unless the context otherwise requires:

(a) "Cigarette" shall have the same meaning as set forth in section 39-28-202 (4), C.R.S.

(b) "Possession" means that a person:

(I) Has or holds any amount of cigarettes or tobacco products anywhere on his or her person;

(II) Owns or has custody of cigarettes or tobacco products; or

(III) Has cigarettes or tobacco products within his or her immediate presence and control.

(c) "Tobacco product" shall have the same meaning as set forth in section 18-13-121 (5), C.R.S.

(4) Nothing in this section shall be construed to prohibit any statutory or home rule municipality from enacting an ordinance that prohibits the possession of cigarettes or tobacco products by a person who is under eighteen years of age or imposes requirements more stringent than provided in this section.

(5) A violation of paragraph (a) of subsection (2) of this section is a noncriminal offense.

ARTICLE 15

Hazardous Waste

Editor's note: This article was added in 1979 and was not amended prior to 1981. The substantive provisions of this article were repealed and reenacted in 1981, resulting in the addition, relocation, and elimination of sections as well as subject matter. For the text of this article prior to 1981, consult the Colorado statutory research explanatory note and the table itemizing the replacement volumes and supplements to the original volume of C.R.S. 1973 beginning on page vii in the front of this volume.

Cross references: For transportation of hazardous materials by motor vehicle, see article 20 of title 42.

Law reviews: For article, "Colorado Municipal Liability after Annexing a Potential Superfund Site", see 16 Colo. Law. 258 (1987).

PART 1

GENERAL PROVISIONS

25-15-101.	Definitions.	25-15-203.	Colorado geological survey - hearing.
25-15-102.	Effective dates.	25-15-204.	Grounds for approval.
25-15-103.	Technical assistance.	25-15-205.	Certificate.
25-15-104.	Disposal service.	25-15-206.	Permit required for operation - burial of liquids prohibited.
		25-15-206.5.	Substantial change in ownership, design, or operation.

PART 2

HAZARDOUS WASTE DISPOSAL SITES

25-15-200.1.	Short title.	25-15-207.	Revocation or suspension of certificate.
25-15-200.2.	Legislative declaration.	25-15-208.	Judicial review.
25-15-200.3.	Definitions.	25-15-209.	Commission to promulgate rules and regulations - limitations.
25-15-201.	Certificate required - disposal prohibited - exceptions.	25-15-209.5.	Inventory required.
25-15-202.	Application for certificate - review by department and Col-	25-15-209.6.	Inspection required.
		25-15-210.	Performance audits.
		25-15-211.	Sites deemed public nuisance - when.
			Violation - criminal penalty.

25-15-212.	Violation - civil penalty - reimbursement of costs.	25-15-315.	Solid and hazardous waste commission fund - creation.
25-15-213.	County or municipal hazardous waste disposal site fund - tax - fees.	25-15-316.	Prior acts validated and rules continued.
25-15-214.	Hazardous waste disposal site fund - fees.	25-15-317.	Legislative declaration.
25-15-215.	Contracts with governmental units authorized.	25-15-318.	Nature of environmental covenants.
25-15-216.	Colorado geological survey to designate optimally suitable areas.	25-15-318.5.	Nature of a notice of environmental use restrictions.
25-15-217.	Circumstances allowing state designation of a hazardous waste disposal site - conditions and limitations. (Repealed)	25-15-319.	Contents of environmental covenants and notices of environmental use restrictions.
25-15-218.	State hazardous waste siting council - composition. (Repealed)	25-15-320.	Environmental covenants - when required - waiver.
25-15-219.	Department to study need for disposal sites and feasibility of alternative technologies.	25-15-321.	Creation, modification, and termination of an environmental covenant.
25-15-220.	Effect of 1983 amendments. (Repealed)	25-15-321.5.	Notice of environmental use restrictions - creation, modification, and termination.
		25-15-322.	Enforcement - remedies.
		25-15-323.	Registry of environmental covenants and notices of environmental use restrictions.
		25-15-324.	Coordination with affected local governments.
		25-15-325.	Other interests not impaired.
		25-15-326.	Validation.
		25-15-327.	Applicability.

PART 3

STATE HAZARDOUS WASTE
MANAGEMENT PROGRAM

25-15-301.	Powers and duties of department.
25-15-301.5.	Additional powers of department - legislative declaration - report.
25-15-302.	Solid and hazardous waste commission - creation - membership - rules - fees - administration.
25-15-303.	Requirements for hazardous waste treatment, storage, and disposal sites and facilities - permits.
25-15-304.	Hazardous waste service fund created.
25-15-305.	Judicial review.
25-15-306.	Local control of facilities - authorization by department - allocation of fees.
25-15-307.	Coordination with other programs.
25-15-308.	Prohibited acts - enforcement.
25-15-309.	Administrative and civil penalties.
25-15-310.	Criminal offenses - penalties.
25-15-311.	Disposition of fines and penalties.
25-15-312.	Repeal. (Repealed)
25-15-313.	Right to claim reimbursement.
25-15-314.	Solid and hazardous waste commission funding.

PART 4

INFECTIOUS WASTE

25-15-401.	Legislative declaration.
25-15-402.	Infectious waste - definitions.
25-15-402.5.	Disposition of fetal tissue.
25-15-403.	Generator management plan.
25-15-404.	On-site disinfection.
25-15-405.	Appropriate treatment and disposal - nonliability.
25-15-406.	Penalty.
25-15-407.	Presumption of noninfectiousness.

PART 5

HAZARDOUS WASTE
INCINERATOR OR
PROCESSOR SITES

25-15-501.	Short title.
25-15-502.	Definitions.
25-15-503.	Certificate required - incineration or processing of hazardous waste prohibited - exceptions.
25-15-504.	Application for certificate - review by governing body.
25-15-505.	Grounds for approval.
25-15-506.	Certificate.
25-15-507.	Substantial change in ownership, design, or operation.

25-15-508.	Revocation or suspension of certificate.	25-15-513.	incinerator or processor sites.
25-15-509.	Judicial review.	25-15-514.	Violation - criminal penalty.
25-15-510.	Rules - limitations.		Violation - civil penalty - reimbursement of costs.
25-15-511.	List of hazardous wastes - final inventory.	25-15-515.	Annual fees - commercial hazardous waste incinerator or processor funds.
25-15-512.	Inspections of hazardous waste		

PART 1

GENERAL PROVISIONS

25-15-101. Definitions. As used in this article, unless the context otherwise requires:

(1) "Commission" means the solid and hazardous waste commission created in part 3 of this article.

(2) "Department" means the department of public health and environment created by section 25-1-102.

(3) "Disposal" means the discharge, deposit, injection, dumping, spilling, leaking, or placing of any hazardous waste into or on any land or water so that such hazardous waste or any constituent thereof may enter the environment or be emitted into the air or discharged into any waters, including groundwaters.

(4) "Domestic sewage" means untreated sanitary wastes that pass through a sewer system.

(4.3) "Environmental covenant" means an instrument containing environmental use restrictions created pursuant to section 25-15-321.

(4.5) "Environmental remediation project" means closure of a hazardous waste management unit or solid waste disposal site or any remediation of environmental contamination, including determinations to rely solely or partially on environmental use restrictions to protect human health and the environment but excluding interim measures that are not intended as the final remedial action, that is conducted under any of the following:

(a) Subchapter III or IX of the federal "Resource Conservation and Recovery Act of 1976", 42 U.S.C. sec. 6921 to 6939e and 6991 to 6991i, as amended;

(b) Section 7002 or 7003 of the federal "Resource Conservation and Recovery Act of 1976", 42 U.S.C. sec. 6972 and 6973, as amended;

(c) The federal "Comprehensive Environmental Response, Compensation, and Liability Act of 1980", 42 U.S.C. sec. 9601 et seq., as amended;

(d) The federal "Uranium Mill Tailings Radiation Control Act of 1978", 42 U.S.C. sec. 7901 et seq., as amended;

(e) Part 1 of article 11 of this title, including any decommissioning of sites licensed under that part;

(f) Part 3 of article 11 of this title;

(g) Part 3 of article 15 of this title; and

(h) Article 20 of title 30, C.R.S.

(4.7) "Environmental use restriction" means a prohibition of one or more uses of or activities on specified real property, including drilling for or pumping groundwater; a requirement to perform certain acts, including requirements for maintenance, operation, or monitoring necessary to preserve such prohibition of uses or activities; or both, where such prohibitions or requirements are relied upon in the remedial decision for an environmental remediation project for the purpose of protecting human health or the environment.

(5) "Federal act" means the federal "Solid Waste Disposal Act", as amended by the federal "Resource Conservation and Recovery Act of 1976", as amended (42 U.S.C. sec. 6901, et seq.).

(5.5) "Hazardous substance" means any substance that is defined as a hazardous substance, pollutant, or contaminant under the federal "Comprehensive Environmental Response, Compensation, and Liability Act of 1980", 42 U.S.C. sec. 9601 et seq., as amended, or its implementing regulations.

(6) (a) “Hazardous waste” means any material, alone or mixed with other materials, which has no commercial use or value, or which is discarded or is to be discarded by the possessor thereof, either of which because its quantity, concentration, or physical or chemical characteristics may:

(I) Cause, or significantly contribute to, an increase in mortality or an increase in serious irreversible, or incapacitating reversible, illness; or

(II) Pose a substantial present or potential hazard to human health or the environment when improperly treated, stored, transported, or disposed of, or otherwise managed.

(b) “Hazardous waste” does not include:

(I) Solid or dissolved material in discharges which are point sources subject to permits under section 402 of the “Federal Water Pollution Control Act”, as amended;

(II) Source, special nuclear, or by-product material as defined by the federal “Atomic Energy Act of 1954”, as amended;

(III) (A) Agricultural, horticultural, or floricultural waste from the raising of crops or animals, including animal manures, that are returned to the soil as fertilizers or soil conditioners;

(B) Nothing in sub-subparagraph (A) of this subparagraph (III), as amended by House Bill 05-1180, as enacted at the first regular session of the sixty-fifth general assembly, shall be construed as changing the property tax classification of property owned by a horticultural or floricultural operation.

(IV) Solid or dissolved material in domestic sewage;

(V) Irrigation return flows;

(VI) Inert materials deposited for construction fill or topsoil placement in connection with actual or contemplated construction at such location or for changes in land contour for agricultural and mining purposes, if such depositing does not fall within the definition of treatment, storage, or disposal of hazardous waste;

(VII) Any waste or other materials exempted or otherwise not regulated as a hazardous waste under the federal act, except as provided in section 25-15-302 (4);

(VIII) Indigenous waste from prospecting and mining operations which is disposed of in accordance with the requirements of an approved reclamation plan contained in a permit issued pursuant to article 32 of title 34, C.R.S., or article 33 of title 34, C.R.S.;

(IX) Waste from oil and gas activities, including but not limited to drilling fluids, produced water, and other wastes associated with the exploration, development, or production of crude oil, natural gas, or geothermal energy, which is disposed of in accordance with the requirements of the oil and gas commission pursuant to article 60 of title 34, C.R.S.

(c) Any material which would be hazardous waste subject to the provisions of this article except for the fact that it has commercial use or value may be subject to regulations promulgated by the commission when it is transported or stored prior to reuse.

(7) “Hazardous waste generation” means the act or process of producing hazardous waste.

(8) “Hazardous waste management” means the systematic control of the collection, source separation, storage, transportation, treatment, recovery, and disposal of hazardous waste.

(9) “Inert material” means non-water-soluble and nondecomposable inert solids together with such minor amounts and types of other materials as will not significantly affect the inert nature of such solids according to rules and regulations of the commission. The term includes but is not limited to earth, sand, gravel, rock, concrete which has been in a hardened state for at least sixty days, masonry, asphalt paving fragments, and other non-water-soluble and nondecomposable inert solids including those the commission may identify by regulation.

(10) “Manifest” means the document used for identifying the quantity, composition, origin, routing, and destination of hazardous waste during its transportation from the point of generation to the point of storage, treatment, or disposal.

(10.5) “Notice of environmental use restrictions” or “restrictive notice” means an instrument containing environmental use restrictions created pursuant to section 25-15-321.5.

(11) “Operation”, when used in connection with hazardous waste management, means the use of procedures, equipment, personnel, and other resources to provide hazardous waste management.

(12) “Operator” means the person operating a hazardous waste management facility or site either by contract or permit.

(12.5) “Owner”, as used in sections 25-15-317 to 25-15-326, means the record owner of real property and, if any, any other person or entity otherwise legally authorized to make decisions regarding the transfer of the subject property or placement of encumbrances on the subject property, other than by the exercise of eminent domain.

(13) “Person” means any individual, public or private corporation, partnership, association, firm, trust or estate; the state or any executive department, institution, or agency thereof; any municipal corporation, county, city and county, or other political subdivision of the state; or any other legal entity whatsoever which is recognized by law as the subject of rights and duties.

(13.5) “Remedial decision” means the administrative determination by the department, the United States environmental protection agency, or other appropriate government entity under the laws cited in subsection (4.5) of this section, that establishes the remedial requirements for the environmental remediation project.

(14) “Resource recovery”, when used in connection with hazardous waste, means the operation of preparing and treating any such material or portion thereof for recycling or reuse or the recovery of material or energy.

(15) “Storage”, when used in connection with hazardous waste, means the containment of hazardous waste, either on a temporary basis or for a period of years, in such a manner as not to constitute disposal of hazardous waste. The term “storage” does not apply to any hazardous waste generation if such waste is retained on the site by the generator in quantities or for time periods exempted by rules and regulations promulgated by the commission.

(16) “Transportation”, when used in connection with hazardous waste, means the off-site movement of hazardous waste to any intermediate point or any point of storage, treatment, or disposal.

(17) “Treatment”, when used in connection with an operation involved in hazardous waste management, means any method, technique, or process, including neutralization or incineration, designed to change the physical, chemical, or biological character or composition of a hazardous waste, so as to neutralize such waste or to render such waste less hazardous, safer for transport, amenable for recovery or reuse, amenable for storage, or reduced in volume.

(18) “Treatment, storage, or disposal site or facility” means a location at which hazardous waste is subjected to treatment, storage, or disposal and may include a facility where hazardous waste is generated.

Cross references: For the legislative declaration contained in the 1994 act amending subsection (2), see section 1 of chapter 345, Session Laws of Colorado 1994.

ANNOTATION

The general assembly did not manifestly indicate its intent to include passive migra-

tion of waste within the meaning of “disposal”; hence, relying on the rule of lenity, a

company's failure to remediate contaminated soil and prevent the passive migration of previously spilled hazardous waste does not constitute a continuing crime that subjects the company to the possibility of criminal charges 12 years after the last affirmative act of disposal. *People v. Thoro Prods. Co., Inc.*, 70 P.3d 1188 (Colo. 2003).

Legal, technical meaning of "hazardous waste". Uranium and vanadium tailings from a

proposed mill are not hazardous waste, the disposal of which is prohibited under a county zoning resolution. By its own terms, the zoning resolution restricts hazardous waste disposal in the specialized context of state solid waste laws. *Sheep Mt. Alliance v. Montrose Bd. of County Comm'rs*, 271 P.3d 597 (Colo. App. 2012).

25-15-102. Effective dates. (1) Parts 1 and 2 of this article shall take effect July 1, 1981.

(2) Section 25-15-302 shall take effect January 1, 1982.

(3) Part 3 of this article, except section 25-15-302, shall take effect November 2, 1984.

Source: **L. 81:** Entire article R&RE, p. 1346, § 1, effective July 1. **L. 92:** (3) amended, p. 1258, § 16, effective August 1.

Editor's note: Subsection (3), as enacted by Senate Bill 81-519, provided that the effective date of part 3 was July 1, 1983, or the date upon which the department of health received final federal authorization to conduct the state hazardous waste program in lieu of the entire federal program under section 3006 of the federal act, whichever was later. The authorization was received on November 2, 1984. Subsection (3) was changed on revision to reflect this date.

25-15-103. Technical assistance. The department may upon request provide technical advice to hazardous waste generators, to owners or operators of treatment plants, storage facilities, or disposal sites, and to counties and municipalities in which such facilities may be located in order to assure that appropriate measures are taken to protect the public health, safety, and welfare and the environment. The department may charge its actual costs of providing compliance assistance; except that, for company-specific compliance assistance, the department shall not charge fees for the first two hours in any given fiscal year.

Source: **L. 81:** Entire article R&RE, p. 1346, § 1, effective July 1. **L. 2000:** Entire section amended, p. 1066, § 1, effective July 1.

25-15-104. Disposal service. In order to encourage proper disposal of small quantities of hazardous wastes by individuals and local governmental agencies when such wastes cannot be reasonably handled by commercial services, the department may receive such hazardous wastes from such individuals or local governmental agencies and arrange for their proper detoxification, storage, reuse, or disposal. The department may impose a reasonable fee for such services to recover the actual costs thereof.

Source: **L. 81:** Entire article R&RE, p. 1346, § 1, effective July 1.

PART 2

HAZARDOUS WASTE DISPOSAL SITES

Law reviews: For article, "Local Governments and the Environment: Part 1 CERCLA", see 17 Colo. Law. 1997 (1988); for article, "Local Governments and the Environment: Part II, RCRA", see 17 Colo. Law. 2159 (1988); for article, "Hazardous Waste Incinerator Siting in Colorado", see 22 Colo. Law. 1267 (1993).

25-15-200.1. Short title. This part 2 shall be known and may be cited as the "State Hazardous Waste Siting Act".

Source: **L. 83:** Entire section added, p. 1089, § 3, effective June 3.

25-15-200.2. Legislative declaration. (1) The general assembly hereby finds that adverse public health and environmental impacts can result from the improper land disposal of hazardous waste and that the need for establishing safe sites with adequate capacity for the disposal of hazardous waste is a matter of statewide concern, and the provisions of this part 2 are therefore enacted to provide an effective method of establishing such sites.

(2) It is the intent of the general assembly that generators of hazardous waste be encouraged to use on-site and off-site alternative treatment methods to reduce the amount of hazardous waste that must be discharged into the environment and the associated hazards to the health and welfare of the citizens of this state. Alternative management technologies which detoxify, stabilize, and reduce the amount of hazardous waste that must be buried are available. For such purpose, the provisions of this part 2 are enacted to allow the development of safe alternative methods for the treatment of hazardous waste and to provide a means for the designation of hazardous waste disposal sites when such methods are unable to obviate the need for hazardous waste disposal on land. Whereas the state of Colorado may be responsible for the perpetual care of hazardous waste land disposal facilities, alternative technologies such as incineration, resource recovery, or physical, chemical, or biological degradation should be implemented to the maximum extent possible.

Source: L. 83: Entire section added, p. 1089, § 3, effective June 3.

ANNOTATION

Preemption. This act preempts all county or other local regulations concerning the construction of a hazardous waste disposal site, and any proceedings conducted or permits issued outside

the ambit of this act are void. U.S. Pollution Control, Inc. v. Bd. of County Comm'rs, 714 P.2d 511 (Colo. App. 1985).

25-15-200.3. Definitions. As used in this part 2, unless the context otherwise requires:

(1) Repealed.

(2) "Existing hazardous waste disposal site" means a hazardous waste disposal site which is in active operation prior to July 1, 1981.

(3) "Governmental unit" means the state of Colorado, every county, city and county, municipality, school district, special district, and authority located in this state, every public body corporate created or established under the constitution or any law of this state, and every board, commission, department, institution, or agency of any of the foregoing or of the United States.

(4) (a) "Hazardous waste disposal" means any final action to abandon, deposit, inter, or otherwise discard hazardous waste after its use has been achieved or a use is no longer intended or any discharging of hazardous waste into the environment.

(b) The term includes the off-site surface impoundment of hazardous waste such as a holding, storage, settling, or aeration pit, pond, or lagoon, except as provided in paragraph (c) of this subsection (4) or section 25-15-201 (4).

(c) The term does not include:

(I) (A) Recycling, reclaiming, incineration, processing, or other treatment of hazardous waste.

(B) For the purposes of this subparagraph (I), the surface impoundment which is part of a sewage treatment works or feedlot operation shall be considered as treatment and not disposal.

(C) Any recycling, reclaiming, incineration, processing, or treatment facility shall be subject to all local land use regulations.

(II) The beneficial use, including use for fertilizer, soil conditioner, fuel, or livestock feed, of sludge from wastewater treatment plants if such sludge meets all applicable standards of the department.

(5) "Hazardous waste disposal site" means all contiguous land, including publicly-owned land, under common ownership which is used for hazardous waste disposal; except that such term shall not include any site which is in compliance with an approved

reclamation plan contained in a permit issued pursuant to article 32 of title 34, C.R.S., or article 33 of title 34, C.R.S.

(6) "Publicly owned land" means any land owned by the federal government or any agency thereof or land owned by the state or any agency or political subdivision thereof.

Source: L. 83: Entire section added, p. 1089, § 3, effective June 3. L. 91: (1) repealed, p. 855, § 8, effective June 5. L. 92: (5) amended, p. 1258, § 17, effective August 1.

25-15-201. Certificate required - disposal prohibited - exceptions. (1) Any person who operates a hazardous waste disposal site shall first obtain a certificate of designation from the board of county commissioners if the site is in the unincorporated portion of any county, or from the governing body of a municipality if the site is in an incorporated area.

(2) Hazardous waste disposal by any person is prohibited except on or at a hazardous waste disposal site for which a certificate of designation has been obtained as provided in this part 2.

(3) Any existing hazardous waste disposal site which has obtained and possesses a certificate of designation pursuant to part 1 of article 20 of title 30, C.R.S., and which meets all applicable requirements and regulations under the federal act shall be deemed to have a certificate of designation issued pursuant to this part 2 and shall be fully subject to the provisions of this part 2 which apply to certificates of designation issued pursuant to this part 2.

(4) Notwithstanding the provisions of subsections (1) and (2) of this section, any person other than a governmental unit may dispose of his own hazardous waste on his own property, as long as such hazardous waste disposal site is part of that originally zoned or otherwise approved for the activity that generates the hazardous waste, the owner has notified the local government or the department of the types and methods of hazardous waste disposal, and such disposal complies with the rules and regulations of the commission issued pursuant to this part 2 and does not constitute a public nuisance. For the purposes of this part 2, the site of such hazardous waste disposal shall be an approved site for which obtaining a certificate of designation under the provisions of this part 2 shall be unnecessary. This subsection (4) shall not preclude any person from applying for a certificate of designation for the disposal of his own hazardous waste on his own property.

(5) Notwithstanding the provisions of subsections (1) and (2) of this section, any person who is engaged in mining operations pursuant to a permit issued by the mined land reclamation board or office of mined land reclamation which contains an approved plan of reclamation may dispose of hazardous waste generated by such operations within the permitted area for such operations. For the purposes of this part 2, the site of such hazardous waste disposal shall be an approved site for which obtaining a certificate of designation under the provisions of this part 2 shall be unnecessary.

Source: L. 81: Entire article R&RE, p. 1346, § 1, effective July 1. L. 92: (4) amended, p. 1258, § 18, effective August 1; (5) amended, p. 1971, § 76, effective July 1.

ANNOTATION

Law reviews. For article, "Regulation of Spills of Hazardous Materials", see 12 Colo. Law. 277 (1983).

Applied in *City & County of Denver v. Eggert*, 647 P.2d 216 (Colo. 1982).

25-15-202. Application for certificate - review by department and Colorado geological survey - hearing. (1) Any person desiring to operate a hazardous waste disposal site shall make application for a certificate of designation to the board of county commissioners of the county or to the governing body of the municipality in which such site is proposed to be located.

(2) The application shall be accompanied by a fee established by the board of county commissioners or the governing body of the municipality by resolution or ordinance, which

fee shall not exceed fifty thousand dollars and which fee may be refunded in whole or in part. Fifty percent of such fee shall be transmitted to the department to offset the costs of the department's review pursuant to subsection (4) of this section, including possible costs of reimbursement to other state agencies which assist in such review. The application shall set forth the following: The location of the site; the types of waste to be accepted or rejected; the types of waste disposal; the method of supervision; and the anticipated access routes in the county in which the site is located. The application shall also contain such data as may reasonably be required by rules of the commission developed pursuant to section 25-15-208 to enable the department and the Colorado geological survey to perform their duties under subsection (4) of this section.

(3) The clerk of the county or municipality shall promptly notify the county commissioners and the governing body of any other county or municipality within twenty miles of a proposed hazardous waste disposal site of the filing of an application for a certificate of designation therefor.

(4) (a) Within ten working days of an application for a certificate of designation and prior to further consideration, the board of county commissioners or the governing body of the municipality, as the case may be, shall forward a copy of the application to the department and to the Colorado geological survey.

(b) The Colorado geological survey shall review each application received by it and make a recommendation to the department on the geological suitability of the proposed hazardous waste disposal site for land disposal of hazardous waste, based upon the geological, hydrological, climatological, geochemical, and geomorphological characteristics of the site. Such recommendation shall be submitted to the department within sixty days of the Colorado geological survey's receipt of the application.

(c) Within ninety days of its receipt of the application, the department shall make findings of fact on the technical merits of the application and provide such findings of fact to the board of county commissioners or the governing body of the municipality. The findings of fact shall at a minimum include:

(I) A determination as to whether the site could be designed and operated in compliance with applicable rules and regulations adopted by the commission pursuant to section 25-15-208;

(II) A determination as to whether the site is located within an area designated to be optimally suitable for hazardous waste disposal by the most recent study of the Colorado geological survey made pursuant to section 25-15-216 and, if not, as to whether the site is suitable for the land disposal of hazardous waste as demonstrated by reliable geologic, hydrologic, and other scientific data;

(III) A recommendation to the board of county commissioners or the governing body of a municipality, as the case may be, as to whether the application for a certificate of designation should be approved. A recommendation for approval may only be made upon affirmative findings of facts under subparagraphs (I) and (II) of this paragraph (c).

(5) The application shall be considered by the board of county commissioners or the governing body of the municipality, as the case may be, at a public hearing to be held after notice. Such notice shall contain the time and place of the hearing and shall state that the matter to be considered is the applicant's proposal for a hazardous waste disposal site. The notice shall be published in a newspaper having general circulation in the region in which the proposed hazardous waste disposal site is located at least ten but no more than thirty days prior to the date of the hearing.

Source: L. 81: Entire article R&RE, p. 1347, § 1, effective July 1. L. 83: (2) amended and (4) R&RE, p. 1090, §§ 4, 5, effective June 3. L. 91: (2) amended, p. 891, § 20, effective June 5. L. 92: (2) and (4)(c)(I) amended, p. 1259, § 19, effective August 1.

ANNOTATION

Preemption. This act preempts all county or other local regulations concerning the construction of a hazardous waste disposal site, and any proceedings conducted or permits issued outside the ambit of this act are void. *U.S. Pollution Control, Inc. v. Bd. of County Comm'rs*, 714 P.2d 511 (Colo. App. 1985).

County's authority under this section is not limited to site or location approval and may include limitations on the types of materials that

may be disposed of at the site. *Adams Bd. of County Comm'rs v. Colo. Dept. of Pub. Health & Env't*, 218 P.3d 336 (Colo. 2009).

No bar from res judicata where substantial changes in fact or circumstances occur subsequent to prior application or when the Board's decision is based on consideration of public need, which is required of the board in § 25-15-203. *Whelden v. Bd. of County Comm'rs*, 782 P.2d 853 (Colo. App. 1989).

25-15-203. Grounds for approval. (1) The board of county commissioners or the governing body of the municipality, as the case may be, may approve an application for a certificate of designation only upon a finding of all of the following factors:

(a) The department has made a recommendation of approval pursuant to section 25-15-202 (4) (c) (III).

(b) The site would not pose a significant threat to the safety of the public, taking into consideration:

(I) The density of population areas neighboring the site;

(II) The density of population areas adjacent to the portion of the delivery roads within a fifty-mile radius of the site;

(III) The risk of accidents during the transportation of waste to or at the site.

(c) The applicant has demonstrated a need for the facility by Colorado hazardous waste generators.

(d) The applicant has documented its financial ability to operate the proposed site.

(e) The applicant, taking into account its prior performance record, if any, in the treatment, storage, or disposal of hazardous waste, has documented sufficient reliability, expertise, and competency to operate and manage the proposed facility.

(f) The site conforms to officially adopted land use plans, policies, regulations, and resolutions.

(2) The board of county commissioners or the governing body of the municipality, as the case may be, shall notify the department of any approval of an application for a certificate of designation within five days after such approval.

Source: L. 81: Entire article R&RE, p. 1348, § 1, effective July 1. **L. 83:** Entire section R&RE, p. 1091, § 6, effective June 3.

25-15-204. Certificate. (1) The certificate of designation shall identify the general types of waste which may be accepted or which shall be rejected.

(2) The certificate of designation shall be displayed in a prominent place at the hazardous waste disposal site.

(3) Repealed.

(4) The certificate of designation may provide such conditions as may reasonably be necessary for the safe operation of such site including but not limited to the provision by the site owner or operator of additional fire protection, security, or trained personnel for monitoring, inspections, and incident responses.

(5) Repealed.

(6) A certificate of designation issued pursuant to this part 2 shall be deemed to satisfy any requirement imposed by part 1 of article 20 of title 30, C.R.S., for a certificate of designation as a solid wastes disposal site and facility.

Source: L. 81: Entire article R&RE, p. 1348, § 1, effective July 1. **L. 83:** (1) amended and (3) and (5) repealed, pp. 1092, 1105, §§ 7, 28(1), effective June 3.

ANNOTATION

Conditions may be provided in the certificate of designation without another public hearing where such conditions are related to the

safe operation of the site. *Whelden v. Bd. of County Comm'rs*, 782 P.2d 853 (Colo. App. 1989).

25-15-205. Permit required for operation - burial of liquids prohibited. (1) Operation of a hazardous waste disposal site for which a certificate of designation has been issued shall not begin until the applicant obtains for such operation a federal permit issued under the federal act or a state permit issued under part 3 of this article.

(2) A certificate of designation for a hazardous waste disposal site shall not become effective until such time as the certificated facility has received a permit under section 3005 (c) of the federal act or the equivalent state permit.

(3) The burial of liquid hazardous waste both on-site and off-site is prohibited in this state. The commission may develop rules and regulations which phase out the land disposal of highly mobile, toxic, and persistent waste.

Source: **L. 81:** Entire article R&RE, p. 1349, § 1, effective July 1. **L. 83:** Entire section amended, p. 1092, § 8, effective June 3. **L. 92:** (3) amended, p. 1259, § 20, effective August 1.

25-15-206. Substantial change in ownership, design, or operation. (1) A substantial change in the ownership of a hazardous waste disposal site, including an assignment or a transfer of the certificate of designation therefor, or in the design or operation of a hazardous waste disposal site, as "substantial change" is defined in rules and regulations of the commission, shall be submitted to the board of county commissioners or the governing body of the municipality for its approval before such change shall become effective; except that, in the case of a hazardous waste disposal site which was designated by the council pursuant to section 25-15-217, as said section existed upon its repeal, such change shall be subject to approval by the department.

(2) Any approval of a substantial change under this section shall be made only upon the finding of all of the factors required in section 25-15-203.

(3) The application for approval of a substantial change under this section shall be accompanied by a fee established by the jurisdiction whose approval is required for such substantial change, which fee shall not exceed ten thousand dollars and which fee may be refunded in whole or in part. If the department is not the approving jurisdiction, up to fifty percent of such fee shall be transmitted to the department to offset the costs of the department's review pursuant to section 25-15-202 (4), including possible costs of reimbursement to other state agencies which assist in such review.

Source: **L. 81:** Entire article R&RE, p. 1349, § 1, effective July 1. **L. 83:** Entire section amended, p. 1092, § 9, effective June 3. **L. 92:** (1) amended, p. 1259, § 21, effective August 1. **L. 2005:** (1) amended, p. 285, § 28, effective August 8.

ANNOTATION

Applied in *City & County of Denver v. Eggert*, 647 P.2d 216 (Colo. 1982).

25-15-206.5. Revocation or suspension of certificate. (1) The jurisdiction which granted the certificate of designation may revoke or suspend the certificate of designation of any hazardous waste disposal site if it finds that:

(a) There was a material misrepresentation or misstatement of fact in the application for the certificate of designation;

(b) The hazardous waste disposal site is not being operated in substantial compliance

with any term, condition, or limitation of its certificate of designation or any applicable rule or regulation adopted pursuant to this part 2; or

(c) The owner or operator of the site has failed to pay the annual fee to the county or municipality as required by section 25-15-214 (1).

(2) The revocation or suspension of a certificate of designation shall not relieve the owner or operator of the hazardous waste disposal site from any legal liability.

Source: L. 83: Entire section added, p. 1093, § 10, effective June 3.

25-15-207. Judicial review. (1) The award, denial, revocation, or suspension of a certificate of designation by the board of county commissioners or by the governing body of the municipality shall be subject to judicial review in the district court for the judicial district in which the hazardous waste disposal site is located or is proposed to be located. Any request for such judicial review must be made within thirty days of such award, denial, revocation, or suspension. If the court finds no error, it shall affirm the action. If the court finds that the action is arbitrary and capricious, not in accord with the procedures or procedural limitations of this part 2, unsupported by substantial evidence when the record is considered as a whole, or otherwise contrary to law, then the court shall hold unlawful and set aside the action and remand the case to the board of county commissioners or to the governing body of the municipality for further proceedings as may be appropriate.

(2) In the case of any action or decision of the council or department pursuant to section 25-15-206, judicial review shall be in the district court for the judicial district within which the hazardous waste disposal site is or may be located and shall be in accordance with section 24-4-106, C.R.S.

Source: L. 81: Entire article R&RE, p. 1349, § 1, effective July 1. **L. 83:** Entire section amended, p. 1093, § 11, effective June 3. **L. 2005:** (2) amended, p. 285, § 29, effective August 8.

ANNOTATION

Substantial evidence standard. Judicial review pursuant to the Hazardous Waste Siting Act, when pursuant to the "substantial evidence" standard, requires more than merely

some evidence in some particulars to affirm the board's decision. *Whelden v. Bd. of County Comm'rs.*, 782 P.2d 853 (Colo. App. 1989).

25-15-208. Commission to promulgate rules and regulations - limitations. (1) The commission may promulgate rules and regulations establishing criteria for the engineering design of hazardous waste disposal sites and for the location of such sites to the extent that site characteristics are integrally related to the safe engineering design of such sites. Such rules and regulations shall take into account at least the following: Protection of surface and subsurface waters, suitable physical characteristics, distance from waste generation centers, access routes, distance from water wells, and final closure.

(2) The commission may also promulgate rules and regulations establishing what constitutes a substantial change in ownership, design, or operation of a hazardous waste disposal site under section 25-15-206.

(3) The rules and regulations promulgated by the commission pursuant to this section shall be based upon generally accepted scientific data.

Source: L. 81: Entire article R&RE, p. 1349, § 1, effective July 1. **L. 83:** Entire section R&RE, p. 1094, § 12, effective June 3. **L. 92:** Entire section amended, p. 1260, § 22, effective August 1.

ANNOTATION

Law reviews. For article, "Regulation of Spills of Hazardous Materials", see 12 Colo. Law. 277 (1983).

25-15-209. Inventory required. The operator of every hazardous waste disposal site shall maintain an inventory of the types of hazardous wastes accepted for disposal at such site, and a copy of such inventory shall be provided to any person upon request and upon payment of a reasonable charge for the costs of the reproduction. Upon a closure of the site, a final inventory shall be prepared and filed with the department where it shall remain available for public inspection and copying at a reasonable cost.

Source: L. 81: Entire article R&RE, p. 1350, § 1, effective July 1.

25-15-209.5. Inspection required. A department employee shall inspect each off-site hazardous waste disposal site during times when hazardous wastes are ordinarily received. Such inspection shall be conducted at intervals determined by rule and regulation of the commission based on the volume and toxicity of the wastes being received. Such department employee shall be permitted reasonable access to disposal operations for the purpose of monitoring and inspecting such operations. Such department employee, whose salary and benefits shall be paid out of the department's share of the annual fee collected by the county or municipality pursuant to section 25-15-214 (1), shall have training and experience in relevant aspects of hazardous waste management.

Source: L. 83: Entire section added, p. 1094, § 13, effective June 3. **L. 92:** Entire section amended, p. 1260, § 23, effective August 1.

25-15-209.6. Performance audits. Each designated and permitted hazardous waste disposal site shall be subject to a performance audit at least once every five years, for the purpose of reviewing the systems that provide assurance the site is protecting human health and the environment. Such performance audit shall be conducted by the department.

Source: L. 83: Entire section added, p. 1094, § 13, effective June 3. **L. 94:** Entire section amended, p. 633, § 1, effective April 14.

25-15-210. Sites deemed public nuisance - when. Any hazardous waste disposal site that is found to be abandoned or that is operated or maintained in a manner so as to violate any of the provisions of this part 2 or any rule or regulation adopted pursuant thereto shall be deemed a public nuisance, and such violation may be enjoined by the district court for the judicial district wherein the violation occurred in an action brought by the department, the board of county commissioners of the county wherein the violation occurred, or the governing body of the municipality wherein the violation occurred.

Source: L. 81: Entire article R&RE, p. 1350, § 1, effective July 1.

ANNOTATION

Law reviews. For article, "Colorado Municipal Liability after Annexing a Potential Superfund Site", see 16 Colo. Law. 258 (1987).

25-15-211. Violation - criminal penalty. Any person who violates any provision of this part 2 commits a class 3 misdemeanor and shall be punished as provided in section 18-1.3-501, C.R.S. Each day of violation shall be deemed a separate offense under this section. Except in regard to matters of statewide concern as expressed in section 25-15-

200.2 (1), nothing in this part 2 shall preclude or preempt a county, a city, a city and county, or an incorporated town from the enforcement of its local resolutions or ordinances or of its land use plans, policies, or regulations.

Source: **L. 81:** Entire article R&RE, p. 1350, § 1, effective July 1. **L. 83:** Entire section amended, p. 1095, § 14, effective June 3. **L. 2002:** Entire section amended, p. 1537, § 270, effective October 1.

Cross references: For the legislative declaration contained in the 2002 act amending this section, see section 1 of chapter 318, Session Laws of Colorado 2002.

25-15-212. Violation - civil penalty - reimbursement of costs. (1) Any person who violates any provision of this part 2 shall be subject to a civil penalty of not more than ten thousand dollars per day of violation. Such penalty shall be determined and collected by the district court for the judicial district in which such violation occurs upon action instituted by the department, the board of county commissioners of the county in which the violation occurs, or the governing body of the municipality in which the violation occurs. In determining the amount of any such penalty, the court shall take into account the seriousness of the violation, whether the violation was willful or due to mistake, the economic impact of the penalty on the violator, and any other relevant factors. All penalties collected pursuant to this section shall be transmitted to the state treasurer and credited to the general fund. Except in regard to matters of statewide concern as expressed in section 25-15-200.2 (1), nothing in this part 2 shall preclude or preempt a county, city, city and county, or an incorporated town from enforcement of its local resolutions or ordinances or of its land use plans, policies, or regulations.

(2) If the violation for which a penalty has been assessed and paid into the general fund pursuant to this section results in a county, city, municipality, or town incurring costs to remove, contain, or otherwise mitigate the effects of the hazardous waste which was involved in the court action, such entity shall be entitled to reimbursement for its costs, which reimbursement shall not exceed the amount of the penalty collected. A claim for reimbursement shall be filed with the state treasurer. Reimbursement shall be paid by the state treasurer out of those funds attributable to such penalty.

Source: **L. 81:** Entire article R&RE, p. 1350, § 1, effective July 1. **L. 83:** (1) amended, p. 1095, § 15, effective June 3.

25-15-213. County or municipal hazardous waste disposal site fund - tax - fees. Any county or municipality that operates a county or municipal hazardous waste disposal site or sites is authorized to establish a county or municipal hazardous waste disposal site fund. The board of county commissioners of such county or the governing body of the municipality may levy a hazardous waste disposal site tax in addition to any other tax authorized by law, on the taxable property within said county or municipality, the proceeds of which shall be deposited to the credit of said fund and appropriated to pay the cost of land, labor, equipment, and services needed in the operation of county or municipal hazardous waste disposal sites. Any such county or municipality is also authorized, after a public hearing, to fix, modify, and collect service charges from users of county or municipal hazardous waste disposal sites for the purpose of financing the operations at those sites.

Source: **L. 81:** Entire article R&RE, p. 1351, § 1, effective July 1.

25-15-214. Hazardous waste disposal site fund - fees. (1) Any hazardous waste disposal site which is issued a certificate of designation on or after July 1, 1981, or which receives approval for a substantial change in ownership as required in section 25-15-206 (1) on or after said date shall be required, contingent upon the issuance of a federal or state permit by the county or municipality in which it is located, to pay to the county or municipality in which it is located an annual fee for the purpose of offsetting the estimated

direct costs of increased state, county, and municipal services created by the hazardous waste disposal site, including, but not limited to, the improvement and maintenance of roads and bridges, fire protection, law enforcement, monitoring by county or municipal health officials, and emergency preparation and response. The amount of the fee shall be two percent of the annual estimated gross revenue received by the hazardous waste disposal site. Out of the annual fee, the board of county commissioners or the governing body of the municipality shall provide for the reimbursement of governmental units for their estimated direct costs of increased services created by the hazardous waste disposal site. In the event that the site owner or operator fails to pay the annual fee, the board of county commissioners or the governing body of the municipality may suspend the site's certificate of designation until the annual fee has been paid.

(2) Any county or municipality is authorized to establish a hazardous waste disposal site fund. All fees collected pursuant to subsection (1) of this section shall be deposited to the credit of said fund and appropriated for the purposes for which collected.

25-15-215. Contracts with governmental units authorized. (1) Any governmental unit may contract for the operation of a hazardous waste disposal site.

(2) Any city, city and county, county, or incorporated town acting by itself or in association with any other such governmental unit may establish and operate a hazardous waste disposal site under such terms and conditions as may be approved by the governing bodies of the governmental units involved. In the event such site is not operated by the governmental unit involved, any contract to operate such a site shall be awarded on a competitive bid basis if there is more than one applicant for a contract to operate such site.

(3) Any hazardous waste disposal site established in accordance with this section shall be required to obtain a certificate of designation pursuant to this part 2.

25-15-216. Colorado geological survey to designate optimally suitable areas. Subject to available appropriations, the Colorado geological survey shall conduct a study of the geological suitability of areas of the state for hazardous waste disposal sites. Such study shall designate those areas of the state which the Colorado geological survey finds to be optimally suitable for hazardous waste disposal based upon detailed criteria relating to hydrology, geology, geochemistry, structural geology, geomorphology, climatology, and mineral resources. The designation of optimally suitable areas and the criteria utilized shall be produced in a publication available to the public at a reasonable cost.

25-15-218. State hazardous waste siting council - composition. (Repealed)

Source: L. 83: Entire section added, p. 1099, § 18, effective June 3. L. 91: Entire section repealed, p. 883, § 1, effective June 5.

25-15-219. Department to study need for disposal sites and feasibility of alternative technologies. (1) The department shall conduct a study assessing the need for hazardous waste disposal sites in this state. Such study shall identify the volumes and types of hazardous wastes generated in this state and the appropriateness and feasibility of treatment and disposal technologies as alternatives to land disposal. To offset the cost of such study, the department is authorized to expend a maximum of sixty thousand dollars out of the annual appropriation to the department from the hazardous waste service fund pursuant to section 25-15-304.

(2) The department may also develop and submit to the general assembly proposed legislation to encourage the development and utilization of alternative technologies for hazardous waste management, which may include, by way of example, tax incentives for the purchase of equipment to implement alternative technologies.

PART 3

STATE HAZARDOUS WASTE MANAGEMENT PROGRAM

Cross references: For the effective date of this part 3, see § 25-15-102 (2) and (3) in accordance with Senate Bill 81-519. For the effective date of this part 3 as amended by Senate Bill 83-282, see section 29(1) of chapter 322, Session Laws of Colorado 1983.

Law reviews: For comment, "Clean Up Your Federal Mess in My State: Colorado Has A State RCRA-Voice At The Rocky Mountain Arsenal", see 71 Den. U. L. Rev. 257 (1993).

25-15-301. Powers and duties of department. (1) The department shall be the entity in the state responsible for the regulation of hazardous waste management; however, the department may, in accordance with section 25-15-306, enter into agreements with local governments to conduct specified activities involving monitoring, inspections, and technical services but not permit issuance or enforcement.

(2) Pursuant to rules and regulations as provided for in section 25-15-302, the department shall:

(a) Issue permits for treatment, storage, and disposal facilities, provide for the inspection of such operations, and enforce the limitations and conditions of such permits, including any conditions and schedules established to correct noncompliance; and

(b) Assure that all generators, transporters, storers, treaters, and disposers of hazardous waste have received appropriate identification by the department, use a manifest system, and provide periodic reports on wastes manifested.

(3) The department, by its duly authorized representatives, shall have the power to enter and inspect any property, premises, or place in which hazardous waste is reasonably believed to be located or in which relevant records may be located for the purpose of determining the compliance or noncompliance with any provision of this part 3, any rules and regulations promulgated pursuant to this part 3, or any order or permit, or term or condition thereof, issued pursuant to this part 3. Unless an emergency exists or the department has reason to believe that any unlawful activity is being conducted or will be conducted, the department shall provide prior notification of such inspection, which inspection shall be during normal business hours. If such entry or inspection is denied or not consented to and no emergency exists, the department is empowered to and shall obtain from the district court for the judicial district in which such property, premises, or place is located a warrant to enter and inspect any such property, premises, or place prior to entry and inspection. The district courts of this state are empowered to issue such warrants upon

a showing that such entry and inspection is required to verify that the purposes of this part 3 are being carried out. Any information relating to proprietary processes or methods of manufacture or production obtained in the course of the inspection shall be kept confidential in accordance with section 24-72-204 (3) (a) (IV), C.R.S., of the open records law. If samples are taken, the owner and operator of the premises from which such samples are taken shall be entitled to a receipt for such samples and, upon request, a sufficient portion to perform an analysis equivalent to that which the department may perform.

(4) (a) In the event of an emergency involving hazardous waste which presents an immediate and substantial threat to the public health and safety or the environment, the department shall have the authority to issue such orders as may be appropriate to protect the public health and safety or the environment, including emergency authorization to transport, treat, store, or dispose of hazardous waste.

(b) Any person against whom an emergency order is issued pursuant to this subsection (4) shall be entitled to an immediate hearing as provided in section 24-4-105 (12), C.R.S.

(5) In order to provide for the essential long-term care of hazardous waste consistent with adequate protection of the public health and safety and the environment, the department may acquire by gift, purchase, transfer from another state department or agency, or other transfer any and all lands, buildings, and grounds that have been designated as a hazardous waste site and may lease such properties to others for hazardous waste management. Any such acquisition shall be subject to the provisions of section 25-15-303 (4).

Source: L. 81: Entire article R&RE, p. 1352, § 1, effective July 1. L. 83: (3) amended, p. 1101, § 19, effective November 2, 1984. L. 92: (3) amended, p. 1236, § 4, effective August 1.

Editor's note: Although the act repealing and reenacting this article was effective July 1, 1981, this section was not effective until November 2, 1984. (See § 25-15-102 (3).)

ANNOTATION

Law reviews. For article, "Regulation of Spills of Hazardous Materials", see 12 Colo. Law. 277 (1983).

County exercises a separate power from that of the department of public health and environment in the issuance of permits under this section, and therefore has standing to challenge the department's permitting decisions. *Adams Bd. of County Comm'rs v. Colo. Dept.*

of Pub. Health & Env't, 218 P.3d 336 (Colo. 2009).

Exclusive authority for enforcement of § 25-15-301 et seq. is the department of health, and attorney general has no authority to bring suit for violations except upon request of the department. *Harris v. Jefferson County Court*, 808 P.2d 364 (Colo. App. 1991).

25-15-301.5. Additional powers of department - legislative declaration - report.

(1) The general assembly hereby finds, determines, and declares that the hazardous waste control program shall be implemented to protect human health and the environment in a manner that:

- (a) Maintains program authorization by the federal government;
- (b) Promotes a community ethic to reduce or eliminate waste problems;
- (c) Is credible and accountable to industry and the public;
- (d) Is innovative and cost-effective; and
- (e) Protects the environmental quality of life for impacted residents as required by other provisions of this part 3 and rules promulgated in connection therewith.

(2) The department shall develop, implement, and continuously improve policies and procedures for carrying out its statutory responsibilities at the lowest possible cost without jeopardizing the intent stated in subsection (1) of this section. At a minimum, these policies and procedures shall, to the extent practicable, include the following:

- (a) Establish cost-effective level-of-effort guidelines for reviewing submittals including, but not limited to, permit applications and corrective action plans, to assure conformity with regulatory requirements, taking into consideration the degree of risk addressed and the complexity of the issues raised;

(b) Establish cost-effective level-of-effort guidelines for performing inspections that focus on major violations of regulatory requirements that pose an immediate and significant threat to human health and the environment;

(c) Streamline the corrective action process with features that include, without limitation, the following:

(I) Cost-effective level-of-effort guidelines for site investigations and remediation that focus on result-based outcomes and performance-based oversight by the department;

(II) Cost-effective level-of-effort guidelines for reviewing site investigation reports and corrective action plans;

(III) The use of enforceable institutional controls to avoid unnecessary cleanup costs; and

(IV) Realistic cleanup standards that address actual risk to human health and the environment on a site-specific basis and that take into account any applicable institutional controls.

(d) Establish cost-effective level-of-effort guidelines for enforcement activities;

(e) Establish schedules for timely completion of department activities including, but not limited to, submittal reviews, inspections and inspection reports, and corrective action activities;

(f) Establish a prioritization methodology for completing activities that focuses on actual risk to human health and the environment;

(g) Establish a preference for compliance assistance with at least ten percent of the annual budget amount being allocated to compliance assistance efforts;

(h) Establish a preference for alternative dispute resolution mechanisms to timely resolve disputed issues; and

(i) Establish a mechanism that continually values and provides incentives for further improvements in the policies and procedures of the department.

(3) The department is directed to submit a report to the general assembly on or before February 1, 2002, and annually on or before each February 1 thereafter that describes the status of the hazardous waste control program, the department's efforts to carry out its statutory responsibilities at the lowest possible cost without jeopardizing the intent stated in subsection (1) of this section, and the department's implementation of the authority to accept environmental covenants created pursuant to section 25-15-321.

Source: L. 2000: Entire section added, p. 1066, § 2, effective July 1. **L. 2001:** (3) amended, p. 459, § 3, effective July 1.

25-15-302. Solid and hazardous waste commission - creation - membership - rules - fees - administration. (1) (a) There is hereby created in the department of public health and environment a solid and hazardous waste commission, referred to in this part 3 as the "commission", which shall exercise its powers and perform its duties and functions as if it were transferred to said department by a **type 1** transfer. The commission shall consist of nine citizens of the state who shall be appointed by the governor, with the consent of the senate, for terms of three years each; except that, of the members appointed to take office initially, three shall be appointed for one-year terms, three shall be appointed for two-year terms, and three shall be appointed for three-year terms. Members of the commission shall be appointed so as to achieve geographical representation and to reflect the various interests in waste management in the state.

(b) Appointments to the commission shall be made so that all persons shall have appropriate scientific, technical, industrial, legal, public health, or environmental training or experience. Three members shall be from the regulated community. Three members shall be from the public at large. Three members shall be from government or the academic community; except that no member shall be an employee of the department. No more than five members of the commission shall be members of the same political party.

(c) The members of the commission shall disclose any potential conflicts of interest to the governor and the committee of reference of the general assembly prior to confirmation and shall disclose any potential conflicts of interest which arise during their terms of membership to the other commission members in a public meeting of the commission.

(d) Whenever a vacancy exists on the commission, the governor shall appoint a member for the remaining portion of the unexpired term created by the vacancy, subject to confirmation by the senate.

(e) The governor may remove any appointed member of the commission for malfeasance in office, for failure to attend meetings regularly, or for any cause that renders such member incapable or unfit to discharge the duties of such member's office.

(f) If any member of the commission is absent from two consecutive meetings or fails to attend at least seventy-five percent of the regularly scheduled meetings of the commission held in any one year and such absences were without sufficient cause as determined by the commission, the chairman of the commission shall notify the governor, who may remove such member and appoint a qualified person for the remaining portion of such member's term, subject to confirmation by the senate.

(g) Each member of the commission shall receive traveling and other necessary expenses actually incurred in the performance of such member's official duties as a member of the commission.

(h) The commission shall select from its own membership a chairman, a vice-chairman, and a secretary. The commission shall keep a record of its proceedings.

(i) The commission shall hold regular public meetings and may hold special meetings on the call of the chairman or vice-chairman at such other times as deemed necessary. Written notice of the time and place of each meeting shall be mailed to each member at least twenty days in advance of such meeting.

(j) (I) The commission shall hold an annual public meeting to hear public comment on hazardous waste issues within the state. At such meeting, the commission shall answer reasonable questions from the public concerning rules, regulations, appeals of penalties, and any other commission activities under the authority of this part 3 occurring during the previous year.

(II) Prior to the meeting required under subparagraph (I) of this paragraph (j), the commission shall prepare and make available to the public a report which shall contain the following specific information:

(A) All rules and regulations promulgated by the commission during the previous year;

(B) All interpretive rules issued by the commission during the previous year;

(C) All appeals of penalties heard before the commission and the commission's determinations in such appeals; and

(D) Any other commission activities as appropriate.

(k) Each member of the commission shall have a vote. Two-thirds of the members of the commission shall constitute a quorum, and, except as otherwise provided in subsection (4) of this section, the concurrence of a majority of the members present at any meeting at which a quorum is present on any matter within its powers and duties shall be required for any determination made by the commission.

(2) The commission shall promulgate rules pertaining to hazardous waste in accordance with this part 3 and in accordance with the procedures and other provisions of article 4 of title 24, C.R.S. Such rules shall provide protection of public health and the environment and shall include:

(a) Criteria for establishing characteristics and listings of hazardous wastes, including mechanisms for determining whether any waste is hazardous for the purpose of this part 3;

(b) Regulations governing those wastes or combinations of wastes which are not compatible and which may not be stored, treated, or disposed of together;

(c) Regulations for the storage, treatment, and disposal of hazardous wastes, including regulations for the issuance of permits based on best engineering judgment, including but not limited to interim status, regulations concerning information required to be submitted to obtain such permits, and regulations concerning the requirement of a permit prior to the construction of a treatment, storage, or disposal facility;

(d) Regulations for the operation and maintenance of hazardous waste treatment, storage, and disposal facilities, including such qualifications and requirements as to ownership, continuity of operation, training of personnel, and closure and postclosure care, as may be necessary or desirable;

(e) Regulations for the design and construction of treatment, storage, and disposal facilities;

(f) Regulations, promulgated in accordance with article 20 of title 42, C.R.S., providing procedures and requirements for:

(I) The use of a manifest during transportation of hazardous waste, applying equally to those persons transporting hazardous waste they have generated themselves and to persons who have contracted to transport hazardous waste for other parties, consistent with federal and state regulations on the transportation of hazardous wastes;

(II) Record-keeping concerning the transportation of hazardous waste, including its source and destination;

(III) Notification and cleanup of spills or discharges during the transportation of hazardous waste;

(IV) Transportation of hazardous wastes only if such hazardous wastes are properly labeled and for restricting the transportation of all hazardous wastes only to permitted hazardous waste treatment, storage, or disposal facilities which the shipper designates on the manifest form;

(g) Regulations requiring reports and record-keeping requirements for hazardous waste management, including notification of accidents;

(h) Regulations establishing procedures for maintaining confidentiality relating to methods of manufacture or secret processes and establishing fees and financial assurance and ownership requirements, including bonds, required by this part 3;

(i) Regulations for issuing compliance orders and administrative penalties, for establishing compliance conditions and schedules, and for issuing, modifying, revoking and reissuing, or terminating permits; except that nothing in this paragraph (i) shall be interpreted to impair the department's authority to take such actions pending promulgation of such regulations;

(j) Regulations for the classification of sites in terms of wastes that can be received and managed thereon and hydrological, soil, and other siting characteristics for assuring long-term isolation of designated wastes from the environment;

(k) Regulations establishing standards applicable to generators of hazardous waste, including requirements for:

(I) Record-keeping practices that accurately identify the quantities of hazardous waste generated, the constituents of such hazardous waste which are significant in quantity or of potential harm to human health or the environment, and the disposition of such hazardous waste;

(II) Labeling practices for any container that is used for the storage, transportation, or disposal of hazardous waste so as to identify accurately such waste;

(III) The use of appropriate containers for hazardous waste;

(IV) The furnishing of information on the general chemical composition of hazardous waste to persons transporting, treating, storing, or disposing of such waste;

(V) The use of a manifest system and any other reasonable means necessary to assure that all hazardous waste generated is designated for treatment, storage, or disposal at a permitted facility;

(VI) The submission of reports;

(I) Regulations requiring contingency plans for effective action to minimize unanticipated damage from any treatment, storage, or disposal of any hazardous waste.

(3) The commission shall promulgate rules establishing categories of hazardous wastes and hazardous waste management practices based on degree of hazard considerations. Such rules may vary from category to category to reflect the degree of hazard involved in each such category. The commission's rules may also provide for general permits to be issued based on degree of hazard considerations.

(3.5) The commission shall promulgate rules pertaining to the assessment of fees to offset program costs from facilities that treat, store, or dispose of hazardous waste pursuant to a permit or interim status and from generators of hazardous waste in accordance with the following:

(a) On or after July 1, 2000, to July 1, 2002, the fees shall be as follows:

(I) The annual fees for facilities that treat, store, or dispose of hazardous waste pursuant to a permit or interim status shall be as set forth in 6 CCR 1007-3, section 100.31;

(II) The annual fee shall be one thousand nine hundred dollars for generators of hazardous waste who are subject to regulation under this part 3 during any calendar month of the year for which the annual fee is being assessed and who generate in each of any four calendar months in that year an amount greater than one thousand kilograms of hazardous wastes, one kilogram of acute hazardous wastes, or one hundred kilograms of any residue, contaminated soil, waste, or debris resulting from the clean-up of a spill, into or on any land or water, of any acute hazardous wastes;

(III) The annual fee shall be three hundred dollars for all other generators of hazardous waste that are subject to this part 3 during any calendar month of the year for which the annual fee is being assessed; except that no annual fee shall be assessed against those generators of hazardous waste who generate in every month of that year no more than one hundred kilograms of hazardous wastes, one kilogram of acute hazardous wastes, or one hundred kilograms of any residue, contaminated soil, waste, or debris resulting from the clean-up of a spill, into or on any land or water, of any acute hazardous wastes;

(IV) The document review and activity fee charged by the department shall be in accordance with 6 CCR 1007-3, section 100.32; except that the hourly charge shall be increased from eighty-five dollars to one hundred dollars;

(V) The document review and activity fee ceiling shall be in accordance with 6 CCR 1007-3, section 100.32; except that the department may, on a case-by-case basis and upon demonstration of need consistent with section 25-15-301.5, request a waiver of the ceiling from a facility subject to the document review and activity fee.

(b) On or after July 1, 2002, the commission may adjust the fees then in effect if the department has demonstrated that it has developed, implemented, and is continuing to improve policies and procedures for carrying out its statutory responsibilities at the lowest possible cost without jeopardizing the intent set out in section 25-15-301.5 (1), and that, despite these efforts or as a result of these efforts, the fee adjustments are necessary; except that the adjusted fees shall be subject to the following limitations:

(I) Annual fees for facilities that treat, store, or dispose of hazardous waste pursuant to a permit or interim status shall be established at a level that will, when combined with an appropriate share of available federal grant moneys, generate revenues approximating the actual, reasonable program costs attributable to such facilities. Such annual fees shall take into account equitable factors including, without limitation, the quantity and degree of hazard of the hazardous waste involved and whether the hazardous waste is to be disposed of, stored, or treated.

(II) Annual fees for generators of hazardous waste who are subject to regulation under this part 3 during any calendar month of the year for which the annual fee is being assessed shall be established at a level that will, when combined with an appropriate share of available federal grant moneys, generate revenues approximating the actual, reasonable program costs attributable to generators with an appropriate differentiation between generators described in subparagraphs (II) and (III) of paragraph (a) of this subsection (3.5);

(III) The hourly charge for the document review and activity fees shall be established at a rate comparable to industry rates for performing similar tasks with maximum levels on document review and activity fees that reflect timely and cost-effective reviews; and

(IV) The overall fee structure shall be consistent with the trend in hazardous waste generation, treatment, storage, disposal, and corrective action in the state and with the authorized funding for the program.

(c) In addition to any other review provided in law, any rule adopted, or fee modified, by the commission pursuant to paragraph (b) of this subsection (3.5) may be reviewed by the joint budget committee of the general assembly upon its own motion or upon written request submitted within thirty days after the adoption of the rule by the commission. The joint budget committee shall review such rule for accuracy and compliance with the statutory provision set forth in this subsection (3.5). Request may be made by any person regulated under this part 3. Any review by the joint budget committee shall be completed within ninety days after the date requested. Such rule shall not become effective until approved by the joint budget committee or upon the failure of the joint budget committee

to take action within ninety days after the day of the request for review. Such rule may not result in a level of funding for the program that exceeds amounts appropriated or that will be appropriated by the general assembly.

(d) The department shall provide a receipt for the fees paid pursuant to this subsection (3.5) and shall transmit such payments to the state treasurer and take the treasurer's receipt therefor. The state treasurer shall credit all fees received to the hazardous waste service fund as provided in section 25-15-304.

(3.7) If the department determines that a facility is, and has been, treating, storing, or disposing of hazardous wastes without a permit or interim status, and that facility legally should have been operating pursuant to a permit or interim status, then, in addition to any other remedies the department may have, the department may assess a fee to offset program costs from that facility that is equivalent to the estimated annual fees, without interest, that such facility should have paid the department if the facility had been operating pursuant to a permit or interim status; except that such fee shall not be assessed under any one the following circumstances:

(a) The only hazardous waste being treated, stored, or disposed of is in-place contaminated media or debris, or contaminated structures;

(b) The treatment, storage, and disposal is part of a corrective action plan approved by the department; or

(c) The facility modified the facility's operations within one month after being notified in writing that the facility should be operating pursuant to a permit or interim status so that any treatment, storage, or disposal of hazardous wastes at the facility is no longer subject to a permit or interim status.

(4) (a) Except as provided in paragraph (b) of this subsection (4), the rules promulgated by the commission pursuant to the provisions of this part 3 may be more stringent than the corresponding rules of the federal environmental protection agency promulgated pursuant to the federal act; however, more stringent rules including, without limitation, rules that list or define as a hazardous waste any waste or other material exempted or otherwise not regulated as a hazardous waste under the federal act may only be adopted if the commission makes a written finding, after a public hearing and based upon substantial evidence in the record that such rules are necessary to protect the public health and the environment of the state, and such findings and rules are approved by an affirmative vote of at least six members of the commission. Such findings and rules shall be accompanied by a commission opinion referring to and evaluating the public health and environmental information and studies contained in the record that form the basis for such findings and rules.

(b) The rules promulgated by the commission pursuant to the provisions of this part 3 concerning the regulation of mining and mineral processing wastes, including exploration, mining, milling, and smelting and the refining of waste, shall be identical to and no more inclusive than the regulations of the federal environmental protection agency promulgated pursuant to the federal act.

(c) (Deleted by amendment, L. 2000, p. 1068, § 3, effective July 1, 2000.)

(4.5) The commission shall adopt rules concerning solid waste disposal sites and facilities in accordance with part 1 of article 20 of title 30, C.R.S.

(4.6) The commission may adopt rules that specify types of composting facilities, by size, volume, or other suitable criteria that provide equivalent protection of public health and the environment that would not be required to obtain a certificate of designation in accordance with section 30-20-102, C.R.S.

(4.7) The commission shall adopt rules pertaining to waste tire haulers pursuant to section 25-17-204.

(5) The rules and regulations promulgated by the commission shall be subject to expiration in accordance with sections 24-4-103 (8) (c) and 24-4-108, C.R.S.

(6) The commission may advise and consult and cooperate with other agencies of the state, the federal government, and other states and with groups, political subdivisions, and industries affected by the provisions of this article or by the policies or rules of the commission.

(7) (a) The commission may hold hearings. Such hearings shall be held pursuant to and in conformity with article 4 of title 24, C.R.S., and with this article.

(b) The commission shall adopt such rules governing procedures and hearings before the commission as may be necessary to assure that such procedures and hearings will be fair and impartial. Such rules shall be consistent with the pertinent provisions of article 4 of title 24, C.R.S. Such rules shall include a voting rule that excludes a member from voting on any matter arising under section 25-15-305, 25-15-308, or 25-15-309 if such member has a conflict of interest with respect to such matter.

(c) The disclosure of any information relating to secret processes or methods of manufacture or production which may be required, ascertained, or discovered by the commission shall be governed by the provisions of part 2 of article 72 of title 24, C.R.S.

(8) (a) Prior to promulgating any rule authorized by this article, the commission shall conduct a public hearing thereon as provided in section 24-4-103, C.R.S. Notice of any such hearing shall conform to the requirements of section 24-4-103, C.R.S.; except that such notice shall include a summary or the text of each proposed rule or rule revision. The commission may, if requested or when otherwise appropriate, lengthen the notice period to provide sufficient time for public review of a proposed rule or revision.

(b) Rules promulgated pursuant to this article shall take effect as provided in section 24-4-103 (5) or (6), C.R.S.

(9) (a) The commission shall employ an administrator and shall delegate to such administrator such duties and responsibilities as it may deem necessary; except that no authority shall be delegated to such administrator to promulgate rules or to make determinations as provided in this part 3. Such administrator shall have appropriate practical, educational, technical, and administrative training or experience related to solid and hazardous waste management and shall be employed pursuant to section 13 of article XII of the Colorado constitution.

(b) Notice of meetings of the commission shall be published in the Colorado register at least twenty days prior to the date of such meeting and shall state the time, place, and nature of the subject matter to be considered at such meeting. The administrator shall maintain a mailing list of persons requesting to be included thereon and shall mail notice of any meeting of the commission to such persons at least twenty days prior to such meeting. Opportunity shall be afforded to interested persons to submit views orally or in writing on the proposals under consideration or to otherwise participate informally in a commission proceeding. For commission proceedings under this part 3 other than the review of administrative penalties pursuant to section 25-15-309, the department shall furnish such personnel to the commission as the commission may reasonably require.

ANNOTATION

Law reviews. For article, "Regulation of Spills of Hazardous Materials", see 12 Colo. Law. 277 (1983).

25-15-303. Requirements for hazardous waste treatment, storage, and disposal sites and facilities - permits. (1) Any site or facility for the treatment, storage, or disposal of hazardous waste shall be unlawful unless a permit is granted by the department for such site or facility. Each permit shall provide for a specified term and conditions for renewal and shall provide for modification upon the permittee's request or upon a finding that a substantial threat to the public health or safety or the environment exists at the site or facility. In issuing permits for disposal facilities the department shall consider the variations within this state in climate, geology, and such other factors as may be relevant to the management of hazardous wastes.

(2) A separate permit shall not be required, unless the permittee so requests, of a person otherwise subject to the requirements of this part 3 who is engaged in mining operations pursuant to a permit issued under the "Colorado Surface Coal Mining Reclamation Act", article 33 of title 34, C.R.S.

(3) Any person who possesses a federal permit or has federal interim status under section 3005 (c) of the federal act for the treatment, storage, or disposal of hazardous waste shall be deemed to possess an identical permit or status with the department. Any such permit shall remain in effect until it expires or is suspended or revoked for failure to meet conditions in the permit or the requirements of this part 3.

(4) (a) Any deed for property which has been utilized for the disposal of hazardous waste and has received interim status or a permit under the federal act or a permit under this part 3 or has received a certificate of designation under part 2 of this article shall contain a notation that such property has been utilized for the disposal of hazardous waste.

(b) and (c) (Deleted by amendment, L. 92, p. 1244, § 7, effective August 1, 1992.)

(5) Repealed.

(6) Any operation conducted at sites acquired by the state for the express purpose of hazardous waste treatment, storage, or disposal shall be in accordance with a lease which shall provide for payments to the state based on the quantity of waste managed, and shall also require, in lieu of taxes, payments to be transferred to the local government having jurisdiction as compensation for loss of valuation and which shall be adjusted annually to conform with current mill levies, assessment practices, and value of land improvements.

(7) As a condition to the issuance of any permit under subsection (1) of this section, the department may require, in accordance with rules and regulations, that the permittee post a bond or provide other evidence of financial assurance so that the department may, if the permittee is unable or unwilling to do so, arrange to rectify any improper hazardous waste management technique committed during the term of the permit. If a bond is posted, a portion of the bond shall be refunded to the permittee upon proper closure of the permitted hazardous waste management activity if use of such portion of the bond is not required.

(8) Prior to the issuance of any permit under subsection (1) of this section, the department shall, in accordance with the "State Administrative Procedure Act", article 4 of title 24, C.R.S., give reasonable public notice and shall, upon sufficient interest, hold a public hearing on the application in the locality of the proposed site or facility.

L. 92: (1), (3), (4), and (5)(a) amended, p. 1244, § 7, effective August 1. L. 2000: (5) repealed, p. 1071, § 4, effective July 1.

Editor's note: Although the act repealing and reenacting this article was effective July 1, 1981, this section was not effective until November 2, 1984. (See § 25-15-102 (3).)

ANNOTATION

Law reviews. For article, "Regulation of Spills of Hazardous Materials", see 12 Colo. Law. 277 (1983). For article, "Hazardous Waste

Regulation: Issues for the Real Estate Practitioner", see 13 Colo. Law. 48 (1984).

25-15-304. Hazardous waste service fund created. There is created in the state treasury a hazardous waste service fund, which shall consist of fees collected pursuant to section 25-15-302 (3.5) to reimburse the state for its annual program expenses incurred in the maintenance, monitoring, and other supervision of the lands and facilities used for the storage, treatment, and disposal of hazardous waste. Such moneys shall be appropriated annually to the department by the general assembly which shall review such expenditures to assure that they are used to accomplish the purposes of this section. All unappropriated balances in the hazardous waste service fund shall remain therein and shall not revert to the general fund.

Source: L. 81: Entire article R&RE, p. 1357, § 1, effective July 1. L. 2000: Entire section amended, p. 1071, § 5, effective July 1.

Editor's note: Although the act repealing and reenacting this article was effective July 1, 1981, this section was not effective until November 2, 1984. (See § 25-15-102 (3).)

25-15-305. Judicial review. (1) (a) Any final rule issued by the commission shall be subject to judicial review in accordance with the provisions of this article and article 4 of title 24, C.R.S.

(b) Judicial review of any rules promulgated by the commission shall be filed in the district court for the second judicial district.

(2) (a) Except as provided in section 25-15-308, any final determination issued by the department pursuant to this part 3, including but not limited to, permit determinations, permit terms or conditions, determinations regarding closure plans, or determinations regarding permits, closure plans, or corrective action plans required by a compliance order, shall be subject to review in accordance with the provisions of this section and section 24-4-106, C.R.S. A hearing pursuant to section 24-4-105, C.R.S., shall not be required prior to the issuance of any final determination described in this paragraph (a).

(b) Any proceeding for judicial review of any final determination of the department shall be filed in the district court for the district in which the site or facility is or may be located.

(c) Any proceeding for judicial review of any final determination of the department described in paragraph (a) of this subsection (2) shall be filed within thirty days after said determination has become effective. Such determination shall become effective upon issuance or upon such later date as is specified in such determination.

(d) The contested provisions of a determination under review and the uncontested provisions that are not severable from such contested provisions, as determined by the department, shall be stayed during the pendency of the judicial review of such determination. All other provisions of the department's determination under review shall be fully effective unless, upon application and a showing of good cause by a party to the judicial review, the court stays such other provisions. The stay of any portion of a determination pursuant to this paragraph (d) shall have no effect on the obligations of the person to whom such determination applies to comply with applicable laws, regulations, and valid existing orders. The commission shall promulgate regulations governing the continuance of existing, expiring, or superseded permits, closure plans, or corrective action plans during the time period of any appeal of such determination pursuant to this section.

(e) Upon motion of a party to the judicial review, and in the discretion of the court, the court may request an interpretive rule from the commission pertaining to any rule adopted pursuant to this part 3 which is at issue in the judicial review only in the event that there is no genuine issue of material fact, or in the event that the parties have stipulated to the material facts for the purposes of such interpretive rule. The court may adjust the schedule of the judicial review to accommodate the receipt of such information. Notwithstanding the provisions of section 24-4-103 (1), C.R.S., in the event that an interpretive rule is requested by the court and the commission agrees to issue such an interpretation, notice to the public of the interpretive rule-making proceeding shall be given in accordance with the provisions of section 24-4-103, C.R.S. Such notice shall be provided within forty-five days following the receipt of the request. The commission shall receive written material, not to exceed

fifteen pages in length, from any interested person no later than fifteen days following the date that notification is given. The commission shall issue the written interpretive rule no later than thirty days following the deadline for the receipt of any such written material. The legal effect of any such interpretive rule shall be determined in accordance with applicable law and is not presumed to be binding on any party to the judicial review.

Source: **L. 81:** Entire article R&RE, p. 1357, § 1, effective July 1. **L. 92:** Entire section R&RE, p. 1245, § 8, effective August 1.

Editor's note: Although the act repealing and reenacting this article was effective July 1, 1981, this section was not effective until November 2, 1984. (See § 25-15-102 (3).)

25-15-306. Local control of facilities - authorization by department - allocation of fees. The department may enter into an agreement with a county, a city and county, or a municipality within whose jurisdiction is located one or more hazardous waste treatment, storage, or disposal sites or facilities for such local government to provide inspection, monitoring, and emergency response for such sites and facilities. The department shall make available to any such local government a reasonable portion of the fees appropriated from the hazardous waste service fund for conducting such functions. The department shall have the power to reassume any such function granted a local government if it appears to the department that the appropriate expertise is unavailable or that the resources provided are not appropriately applied for the agreed purpose, or if the department and the local government mutually so agree.

Source: **L. 81:** Entire article R&RE, p. 1357, § 1, effective July 1.

Editor's note: Although the act repealing and reenacting was effective July 1, 1981, this section was not effective until November 2, 1984. (See § 25-15-102 (3).)

25-15-307. Coordination with other programs. (1) The department shall coordinate the hazardous waste program with all other programs within the department and with other agencies of federal, state, or local government which are related to hazardous waste.

(2) For the purposes of the administration and enforcement of this part 3, the department shall coordinate its activities with those of the Colorado state patrol relating to the transportation of hazardous materials. Rules and regulations of the commission relating to the transportation of hazardous waste shall be consistent with the rules and regulations of the Colorado state patrol on the transportation of hazardous materials promulgated pursuant to article 20 of title 42, C.R.S.

Source: **L. 81:** Entire article R&RE, p. 1357, § 1, effective July 1. **L. 87:** (2) amended, p. 1570, § 4, effective July 1. **L. 92:** (2) amended, pp. 1246, 1260, §§ 9, 24, effective August 1. **L. 94:** (2) amended, p. 2563, § 72, effective January 1, 1995.

Editor's note: Although the act repealing and reenacting this article was effective July 1, 1981, this section was not effective until November 2, 1984. (See § 25-15-102 (3).)

25-15-308. Prohibited acts - enforcement. (1) On or after the date specified in section 25-15-102 (3), no person shall:

(a) Dispose of any hazardous waste off-site at any facility that does not have state or federal interim status, a federal permit, or a permit granted by the department pursuant to section 25-15-303;

(b) Dispose of on-site, treat, or store any hazardous waste without having therefor either state or federal interim status, a federal permit, or a permit granted by the department pursuant to section 25-15-303;

(c) Substantially alter any hazardous waste treatment, storage, or disposal facility or site without first obtaining from the department a modification of an existing permit or a new permit.

(2) (a) Whenever the department finds that any person is or has been in violation of any permit, rule, regulation, or requirement of this part 3, the department may issue an order identifying the factual and legal elements of such violation with particularity and requiring such person to comply with any such permit, rule, regulation, or requirement and may request the attorney general to bring suit for injunctive relief or for penalties pursuant to section 25-15-309 or 25-15-310.

(b) Such orders may contain an administrative penalty assessment as provided in section 25-15-309. Issuance of an administrative order without a penalty assessment shall not preclude the department from subsequently seeking an administrative or civil penalty for the violations detailed in the order. A hearing pursuant to section 24-4-105, C.R.S., shall not be required prior to the issuance of an order pursuant to this section.

(c) Any order issued pursuant to this section shall be served upon the person who is the subject of such order by personal service or by registered mail, return receipt requested. Any such order may be prohibitory or mandatory in effect. Unless provided otherwise in such order, the order shall be effective immediately upon issuance.

(3) (a) Any appeal of an order issued by the department pursuant to this section shall be taken in accordance with the provisions of this section. Notice of appeal shall be filed by personal service or by registered mail, return receipt requested, with the office of administrative courts in the department of personnel, with the executive director of the department or the executive director's designee, and with the commission in the case of an appeal of an administrative law judge's determination concerning an administrative penalty assessment. Notice of appeal shall be filed no later than thirty calendar days after the effective date of the order which is the subject of the appeal.

(b) The filing of an appeal of any order shall stay the obligation to submit payment of any monetary penalty pursuant to such order. Such filing shall not negate the appellant's obligation to otherwise comply with the order. An appellant may seek a stay of any other provision of an order in accordance with this section. The issuance of a stay shall not prevent the department from subsequently imposing a penalty for any subsequent violation by an appellant.

(c) Any person appealing an order may make a motion that the administrative law judge stay the enforcement of such order. The administrative law judge may stay the enforcement of any portion of an order if the administrative law judge determines that the balance of equities favors the moving party. An administrative law judge shall consider the following factors in considering a request for a stay of an order:

(I) The probability of serious harm to the moving party if the motion for a stay is denied;

(II) The probability that no serious harm to the public health or the environment will occur if the motion for a stay is granted;

(III) The merits of the moving party's case on appeal; and

(IV) The public interest.

(d) The stay of any portion of an order shall have no effect on the recipient's obligations under applicable statutes, regulations, permits, and valid, existing orders.

(e) The administrative law judge shall expedite hearing and determinations in regards to a motion for a stay pursuant to this subsection (3). The moving party shall have the burden of proof in any hearing regarding a motion for a stay.

(f) Any hearing held by an administrative law judge pursuant to this section shall be conducted in accordance with section 24-4-105, C.R.S., except as otherwise provided in this section. Except as provided in paragraph (e) of this subsection (3), the department shall bear the burden of proof by a preponderance of the evidence in any hearing before an administrative law judge pursuant to this section.

(g) Upon motion of a party to the appeal, and in the discretion of the administrative law judge, an administrative law judge may request an interpretive rule from the commission pertaining to any rule which is at issue in the appeal only in the event that there is no genuine issue of material fact or in the event that the parties have stipulated to the material facts for the purposes of such interpretive rule. The administrative law judge may adjust the schedule of the appeal to accommodate the receipt of such information. Notwithstanding the provisions of section 24-4-103 (1), C.R.S., in the event that an interpretive rule is requested

by an administrative law judge and the commission agrees to issue such an interpretation, notice to the public of the interpretive rule-making proceeding shall be given in accordance with the provisions of section 24-4-103, C.R.S. Such notice shall be provided within forty-five days following the receipt of the request. The commission shall accept written material, not to exceed fifteen pages in length, that is received from any interested person no later than fifteen days following the date that notification is given. The commission shall issue the written interpretive rule no later than thirty days following the deadline for the receipt of any such written material. The legal effect of any such interpretive rule shall be determined in accordance with applicable law and is not presumed to be binding on any party to the appeal.

(h) Except as provided in paragraph (i) of this subsection (3) and notwithstanding the provisions of section 24-4-105 (15), C.R.S., any appeal of the determination of the administrative law judge pursuant to this section or section 25-15-301 (4) (b) shall be taken to the district court in accordance with section 24-4-106, C.R.S.

(i) Questions raised upon appeal of the determination of an administrative law judge as to the amount of penalty assessed by an order issued pursuant to this section shall be heard by the commission based upon the record developed by the administrative law judge. Notwithstanding the provisions of section 24-4-103 (1), C.R.S., in the event that the commission is requested to review the amount of a penalty, notice to the public of such penalty review shall be given in accordance with the provisions of section 24-4-103, C.R.S. Such notice shall be provided within forty-five days following receipt of such request for review of a penalty.

(4) (a) Any action pursuant to this part 3 shall commence within two years after the date upon which the department discovers an alleged violation of this part 3 or within five years after the date upon which the alleged violation occurred, whichever date occurs earlier; except that such limitation period is tolled during any period that the alleged violation is intentionally concealed. For the purposes of this section, "intentionally" shall have the meaning provided for such term in section 18-1-501 (5), C.R.S.

(b) If any action has not been commenced within the limitation period provided by paragraph (a) of this subsection (4) in connection with any disposal of hazardous waste without either state or federal interim status, a federal permit, or a permit granted by the department pursuant to section 25-15-303, the department, within two years after the date upon which the department discovers such disposal, may issue an order pursuant to this section requiring action to remediate such disposal. The department is not authorized under these circumstances to seek any administrative, civil, or criminal penalties for such disposal of hazardous waste.

Editor's note: Although the act repealing and reenacting this article was effective July 1, 1981, this section was not effective until November 2, 1984. (See § 25-15-102 (3).)

ANNOTATION

Exclusive authority for enforcement of § 25-15-301 et seq. is the department of health, and attorney general has no authority to bring suit for violations except upon request of the department. *Harris v. Jefferson County Court*, 808 P.2d 364 (Colo. App. 1991).

Citizen suit provision of the Resource Conservation and Recovery Act (RCRA) may be employed to allege violations of Colorado's hazardous waste program. *Sierra Club v.*

Chemical Handling Corp., 824 F. Supp. 195 (D. Colo. 1993).

"Disposal" must be construed to require a discrete act of disposal actuated by human conduct; otherwise, the statute of limitations might not run until a remote moment in time that could seldom if ever be conclusively pinpointed. *People v. Thoro Prods. Co., Inc.*, 45 P.3d 737 (Colo. App. 2001), *aff'd*, 70 P.3d 1188 (Colo. 2003).

25-15-309. Administrative and civil penalties. (1) Any person who violates the provisions of section 25-15-308 or who violates any compliance order of the department which is not subject to a stay pending judicial review and which has been issued pursuant to this part 3 shall, for each such violation, be subject to a penalty for each day during which such violation occurs or continues. The department may impose an administrative penalty of no more than fifteen thousand dollars per day per violation. In lieu of imposing an administrative penalty pursuant to this section, the department may seek a civil penalty for violation of state environmental law in the district court of the judicial district in which the violation occurs. The district court may impose a civil penalty of no more than twenty-five thousand dollars per day per violation.

(2) The department shall not be precluded from referring a matter for criminal prosecution regardless of whether an order is issued pursuant to section 25-15-301 (4) (a) or 25-15-308. The department shall not impose both a civil penalty and an administrative penalty for any particular instance of a violation of this part 3.

(3) The department, the administrative law judge, the commission, or the court shall consider the factors contained in paragraphs (a) to (i) of this subsection (3) in determining the amount of any administrative or civil penalty for a violation of this part 3. The factors contained in paragraphs (f), (g), and (h) of this subsection (3) shall be mitigating factors and may be applied, together with other factors, to reduce penalties. Such factors are:

- (a) The seriousness of the violation;
- (b) Whether the violation was intentional, reckless, or negligent;
- (c) The impact upon or the threat to the public health or the environment as a result of the violation;
- (d) The degree, if any, of recalcitrance or recidivism upon the part of the violator;
- (e) The economic benefit realized by the violator as a result of the violation;
- (f) The voluntary and complete disclosure by the violator of such violation in a timely fashion after discovery and prior to the department's knowledge of the violation, provided that all reports required pursuant to state environmental law have been submitted as and when otherwise required;
- (g) Full and prompt cooperation by the violator following disclosure of a violation, including, when appropriate, entering into in good faith and implementing a legally enforceable agreement to undertake compliance and remedial efforts;
- (h) The existence of a regularized and comprehensive environmental compliance program or an environmental audit program that was adopted in a timely and good faith manner and that includes sufficient measures to identify and prevent future noncompliance; and
- (i) Any other aggravating or mitigating circumstances.

(4) Notwithstanding the provisions of subsection (3) of this section, the department may enter into settlement agreements regarding any penalty or claim resolved pursuant to this part 3. Any settlement agreement may include but is not necessarily limited to the payment or contribution of moneys to state or local agencies or for other environmentally beneficial purposes.

Source: **L. 81:** Entire article R&RE, p. 1358, § 1, effective July 1, 1981. **L. 92:** Entire section R&RE, p. 1250, § 11, effective August 1.

Editor's note: Although the act repealing and reenacting this article was effective July 1, 1981, this section was not effective until November 2, 1984. (See § 25-15-102 (3).)

ANNOTATION

Before imposing a civil penalty under subsection (3), court must hold a hearing on the amount of the civil penalties and give the

defendant an opportunity to present evidence on mitigating factors. *Colo. Dept. of Pub. Health v. Caulk*, 969 P.2d 804 (Colo. App. 1998).

25-15-310. Criminal offenses - penalties. (1) On or after the date specified in section 25-15-102 (3), no person shall:

(a) Transport or cause to be transported any hazardous waste identified or listed pursuant to this article to a facility which does not have a permit under this article or the federal act;

(b) Treat, store, or dispose of any hazardous waste identified or listed pursuant to this article either without having obtained a permit as required by this article or the federal act or in knowing violation of any material condition or requirement of a permit or interim status requirement;

(c) Omit any material information or make any false material statement or representation in any application, label, manifest, record, report, permit, or other document filed, maintained, or used for purposes of compliance with this article or with the federal act or regulations promulgated under this article or the federal act;

(d) Destroy, alter, or conceal any record required to be maintained or fail to file any record required to be filed under regulations promulgated by the commission under this part 3 or pursuant to the federal act; or

(e) Treat, store, or dispose of any hazardous waste identified or listed pursuant to this article in violation of any material condition or requirement of a permit or interim status requirement.

(2) Except as provided in section 18-13-112, 29-22-108, or 42-20-113, C.R.S., any person acting with criminal negligence as defined in section 18-1-501 (3), C.R.S., who violates any of the provisions of paragraph (a), (c), (d), or (e) of subsection (1) of this section is guilty of a misdemeanor and, upon conviction thereof, shall be punished by a fine of not more than twenty-five thousand dollars for each day of violation. If such conviction is for a violation committed after a previous conviction under this subsection (2), the maximum fine shall be doubled.

(3) Any person who knowingly, as defined in section 18-1-501 (6), C.R.S., violates any of the provisions of paragraph (a), (b), (c), or (d) of subsection (1) of this section is guilty of a felony and, upon conviction thereof, shall be punished by a fine of not more than fifty thousand dollars for each day of violation, or by imprisonment not to exceed four years, or by both such fine and imprisonment. If said conviction is for a violation committed after a previous conviction of such person under this subsection (3), the maximum punishment shall be doubled with respect to both fine and imprisonment.

(4) (a) (Deleted by amendment, L. 92, p. 1252, § 12, effective August 1, 1992.)

(b) Any generator who otherwise stores waste on-site in compliance with the requirements of 6 CCR 1007-3, section 262.34 (a), as those requirements exist on July 1, 1988, but who knowingly exceeds the ninety-day storage period or any extension thereof is guilty of a misdemeanor and, upon conviction thereof, shall be punished as provided in subsection (2) of this section.

(5) The court shall consider the factors contained in paragraphs (a) to (i) of this subsection (5) in determining the amount of any criminal sanction to be imposed pursuant to this article. The factors contained in paragraphs (f), (g), and (h) of this subsection (5) shall be mitigating factors and may be applied, together with other factors, to reduce or eliminate sanctions or penalties. Such factors are:

(a) The seriousness of the violation;

(b) Whether the violation was intentional, reckless, or negligent;

(c) The impact upon or the threat to the public health or the environment as a result of the violation;

(d) The degree, if any, of recalcitrance or recidivism upon the part of the violator;

(e) The economic benefit realized by the violator as a result of the violation;

(f) The voluntary and complete disclosure by the violator of such violation in a timely fashion after discovery and prior to the department's knowledge of the violation, provided that all reports required pursuant to state environmental law have been submitted as and when otherwise required;

(g) Full and prompt cooperation by the violator following disclosure of a violation, including, when appropriate, entering into in good faith and implementing a legally enforceable agreement to undertake compliance and remedial efforts;

(h) The existence of a regularized and comprehensive environmental compliance program or an environmental audit program that was adopted in a timely and good faith manner and that includes sufficient measures to identify and prevent future noncompliance; and

(i) Any other aggravating or mitigating circumstances.

ANNOTATION

Exclusive authority for enforcement of § 25-15-301 et seq. is the department of health, and attorney general has no authority to bring suit for violations except upon request of

the department. *Harris v. Jefferson County Court*, 808 P.2d 364 (Colo. App. 1991).

Applied in *People v. Inman*, 950 P.2d 640 (Colo. App. 1997).

25-15-311. Disposition of fines and penalties. All receipts from penalties or fines collected under the provisions of sections 25-15-309 and 25-15-310 shall be credited to the general fund of the state.

Editor's note: Although the act repealing and reenacting this article was effective July 1, 1981, this section was not effective until November 2, 1984. (See § 25-15-102 (3).)

25-15-312. Repeal. (Repealed)

Source: **L. 81:** Entire article R&RE, p. 1358, § 1, effective July 1. **L. 83:** Entire section repealed, p. 1105, § 28(2), effective November 2, 1984.

25-15-313. Right to claim reimbursement. (1) A public entity, political subdivision of the state, or unit of local government is hereby given the right to claim reimbursement from the parties or persons responsible for the hazardous waste abandonment or hazardous waste spill for costs resulting from action taken to remove, contain, or otherwise mitigate the effects of a hazardous waste abandonment or hazardous waste spill.

(2) As used in this section, "abandonment" means the act of leaving a thing with the intent not to retain possession of or assert ownership or control over it. The intent need not coincide with the act of leaving.

(3) Nothing contained in this section shall be construed to change or impair any right of recovery or subrogation arising under any other provision of law.

(4) Claims for reimbursement made pursuant to this section shall be in accordance with article 22 of title 29, C.R.S.

Source: **L. 83:** Entire section added, p. 1106, § 1, effective June 3.

25-15-314. Solid and hazardous waste commission funding. (1) The commission is hereby authorized to promulgate rules regarding the following:

(a) (I) The establishment of fees to offset the reasonable costs actually associated with the operations of the commission. Such fees may be imposed upon generators and transporters of hazardous wastes and upon facilities that treat, store, or dispose of hazardous wastes. Such fees may be based upon a consideration of the quantity of hazardous wastes that is generated, transported, treated, stored, or disposed and the impact on small businesses. The fees imposed by this subparagraph (I) shall not exceed an amount equal to one-half of the appropriation made by the general assembly annually pursuant to section 25-15-315.

(II) In addition to the fees imposed pursuant to subparagraph (I) of this paragraph (a), an amount equal to one-half of the appropriation made by the general assembly annually pursuant to section 25-15-315 shall be appropriated from the solid waste management fund created in section 30-20-118, C.R.S., to be expended for the commission's direct and indirect costs pursuant to this article.

(b) The establishment of a nominal filing fee to help defray reasonable administrative costs actually associated with processing petitions for interpretive rulings pursuant to sections 25-15-305 and 25-15-308. No filing fee established pursuant to the provisions of this paragraph (b) shall exceed one hundred dollars.

(2) All moneys collected pursuant to this section by the commission shall be transmitted to the state treasurer, who shall credit the same to the solid and hazardous waste commission fund created pursuant to section 25-15-315.

Source: L. 92: Entire section added, p. 1253, § 13, effective August 1. **L. 2006:** (1)(a) and (2) amended, p. 1132, § 11, effective July 1.

25-15-315. Solid and hazardous waste commission fund - creation. There is hereby established in the state treasury a fund to be known as the solid and hazardous waste commission fund, which shall consist of moneys collected pursuant to section 25-15-314. All moneys in such fund shall be subject to annual appropriation by the general assembly to the department for the purpose of covering the reasonable costs actually associated with the operation of the solid and hazardous waste commission. All moneys in the solid and hazardous waste commission fund that are not appropriated shall remain in such fund and shall not be transferred or revert to the general fund at the end of any fiscal year. In accordance with section 24-36-114, C.R.S., all interest derived from the deposit and investment of moneys in the solid and hazardous waste commission fund shall be credited to the general fund.

Source: L. 92: Entire section added, p. 1254, § 13, effective August 1. **L. 2005:** Entire section amended, p. 287, § 32, effective August 8. **L. 2006:** Entire section amended, p. 1132, § 12, effective July 1.

25-15-316. Prior acts validated and rules continued. (1) All acts, orders, and rules adopted by the state board of health under the authority of this article prior to August 1, 1992, that were valid prior to said date and not otherwise subject to judicial review shall, to the extent that they are not inconsistent with this article, be deemed and held to be legal and valid in all respects, as though issued by the commission under the authority of this article. No provision of this part 3 shall be construed to validate any actions, orders, or rules that were not valid when adopted by the board of health prior to such date.

(2) All acts, orders, and rules adopted by the state board of health under the authority of part 1 of article 20 of title 30, C.R.S., prior to July 1, 2006, that were valid prior to said date and not otherwise subject to judicial review shall, to the extent that they are not inconsistent with said provisions, be deemed and held to be legal and valid in all respects, as though issued by the commission under the authority of said provisions. No provision of this part 3 shall be construed to validate any actions, orders, or rules that were not valid when adopted by the board of health prior to such date.

Source: L. 92: Entire section added, p. 1254, § 13, effective August 1. L. 2006: Entire section amended, p. 1132, § 13, effective July 1.

25-15-317. Legislative declaration. The general assembly declares that it is in the public interest to ensure that environmental remediation projects protect human health and the environment. The general assembly finds that environmental remediation projects may leave residual contamination at levels that have been determined to be safe for a specific use, but not all uses, and may incorporate engineered structures that must be maintained or protected against damage to remain effective. The general assembly finds that in such cases, it is necessary to provide an effective and enforceable means of ensuring the conduct of any required maintenance, monitoring, or operation, and of restricting future uses of the land, including placing restrictions on drilling for or pumping groundwater for as long as any residual contamination remains hazardous. The general assembly, therefore, declares that it is in the public interest to create environmental covenants and notices of environmental use restrictions because such covenants and restrictive notices are necessary for the protection of human health and the environment.

Source: L. 2001: Entire section added, p. 452, § 2, effective July 1. L. 2008: Entire section amended, p. 169, § 2, effective March 24.

25-15-318. Nature of environmental covenants. (1) An environmental covenant shall be perpetual unless by its terms it is limited to a specific duration, unless the department approves a request to terminate or modify it pursuant to section 25-15-319 (1) (h), or unless it is terminated by a court of competent jurisdiction. An environmental covenant may not be extinguished, limited, or impaired through issuance of a tax deed or through adverse possession, nor may an environmental covenant be extinguished, limited, or impaired by reason of the doctrines of abandonment, waiver, lack of enforcement, or other common law principles relating to covenants, or by the exercise of eminent domain.

(2) Notwithstanding any other provision of law, including any common-law requirement for privity of estate, an environmental covenant shall run with the land and shall bind the owner of the land, the owner's successors and assigns, and any person using the land. An environmental covenant shall not be deemed unenforceable on the basis of:

- (a) A lack of privity of contract;
 - (b) A lack of benefit to a particular parcel of land;
 - (c) Failure of the environmental covenant to expressly state that it runs with the land;
- or
- (d) Any other inconsistency with common-law requirements applicable to common-law covenants.

(3) The requirements and restrictions of an environmental covenant are requirements under this part 3 but may only be enforced as provided in section 25-15-322. The creation of an environmental covenant does not trigger the application of any other requirement of this part 3.

(4) The department shall not acquire any liability under state law by virtue of accepting an environmental covenant, nor shall any named beneficiary of an environmental covenant acquire any liability under state law by virtue of being such a beneficiary.

Source: L. 2001: Entire section added, p. 453, § 2, effective July 1. L. 2008: (2) amended, p. 170, § 3, effective March 24.

25-15-318.5. Nature of a notice of environmental use restrictions. (1) A notice of environmental use restrictions is an agency action based on the state's police power.

(2) A notice of environmental use restrictions is binding on current and subsequent owners of the affected land and any person using or possessing an interest in the land.

(3) The requirements and restrictions contained in a notice of environmental use restrictions are requirements under this part 3, but may be enforced only as provided in section 25-15-322. The creation of a notice of environmental use restrictions does not trigger the application of any other requirement of this part 3.

Source: L. 2008: Entire section added, p. 170, § 4, effective March 24.

25-15-319. Contents of environmental covenants and notices of environmental use restrictions. (1) Environmental covenants and notices of environmental use restrictions shall include provisions regarding:

(a) Duration and any conditions under which the environmental covenant or restrictive notice may be modified or terminated;

(b) Any environmental use restrictions relied on in the remediation decision for the environmental remediation project for the subject property;

(c) A requirement that the owner of the property subject to the environmental covenant or restrictive notice notify the department at least fifteen days in advance of any transfer of ownership of some or all of the real property subject to the environmental covenant or restrictive notice;

(d) A requirement that the owner of the property notify the department simultaneously with submitting any application to a local government for a building permit or change in land use;

(e) A requirement to allow the department right of entry at reasonable times with prior notice for the purpose of determining compliance with the terms of the environmental covenant or restrictive notice. Nothing in this section shall impair any other authority the department may otherwise have to enter and inspect property subject to the environmental covenant or restrictive notice.

(f) (I) For environmental covenants, inclusion of the following statement on the first page of the instrument creating the environmental covenant in fifteen-point, bold-faced type: "This property is subject to an environmental covenant held by the Colorado department of public health and environment pursuant to section 25-15-321, Colorado Revised Statutes."

(II) For restrictive notices, inclusion of the following statement on the first page of the restrictive notice in fifteen-point, bold-faced type: "This property is subject to a notice of environmental use restrictions imposed by the Colorado department of public health and environment pursuant to section 25-15-321.5, Colorado Revised Statutes."

(g) A requirement to incorporate, either in full or by reference, the environmental covenant or restrictive notice in any leases, licenses, or other instruments granting a right to use the property that may be affected by the environmental covenant or restrictive notice;

(h) Modification or termination of the environmental covenant or restrictive notice consistent with this subsection (1). The owner of land subject to an environmental covenant or restrictive notice may request that the department approve modification or termination of the covenant or restrictive notice. The request shall contain information showing that the proposed modification or termination shall, if implemented, ensure protection of human health and the environment. The department shall review any submitted information and may request additional information. If the department determines that the proposal to modify or terminate the environmental covenant or restrictive notice will ensure protection of human health and the environment, it shall approve the proposal. No modification or termination of an environmental covenant or restrictive notice shall be effective unless it has been approved in writing by the department. Information to support a request for modification or termination may include one or more of the following:

(I) A proposal to perform additional remedial work;

(II) New information regarding the risks posed by the residual contamination;

(III) Information demonstrating that residual contamination has diminished;

(IV) Information demonstrating that an engineered feature or structure is no longer necessary;

(V) Information demonstrating that the proposed modification would not adversely impact the remedy and is protective of human health and the environment; and

- (VI) Other appropriate supporting information; and
(i) Such other subjects as may be appropriate.

Source: L. 2001: Entire section added, p. 453, § 2, effective July 1. L. 2008: IP(1), (1)(a), (1)(c), (1)(e), (1)(f), (1)(g), and IP(1)(h) amended, p. 170, § 5, effective March 24.

25-15-320. Environmental covenants - when required - waiver. (1) No environmental covenant shall be required for any environmental remediation project that results in residual contamination levels that have been determined by the relevant regulatory agency to be safe for all uses and that does not incorporate any engineered feature or structure or require any monitoring, maintenance, or operation.

(2) Except as specified in subsections (3) and (4) of this section, an environmental covenant under this part 3 shall be required for any environmental remediation project in which the relevant regulatory authority makes a remedial decision on or after July 1, 2001, that would result in either or both of the following:

(a) Residual contamination at levels that have been determined to be safe for one or more specific uses, but not all uses; or

(b) Incorporation of an engineered feature or structure that requires monitoring, maintenance, or operation or that will not function as intended if it is disturbed.

(3) The department may waive the requirement for an environmental covenant in the following circumstances:

(a) If the department determines that it is authorized under another statute or decision of the Colorado supreme court to implement and enforce environmental use restrictions against the present and subsequent owners of real property remediated pursuant to an environmental remediation project and implements environmental use restrictions under such statute or decision; or

(b) For a parcel of land involved in an environmental remediation project that is owned by any person who is not being required to remediate the contamination, and:

(I) The owner of any such parcel does not grant an environmental covenant under this section;

(II) The county, city and county, or municipality having jurisdiction over the affected land has enacted an ordinance or resolution imposing the relevant environmental use restrictions; and

(III) The county, city and county, or municipality having jurisdiction and the department have entered into an intergovernmental agreement for oversight and enforcement of the local ordinance or resolution pursuant to section 29-1-203, C.R.S. Such agreement shall be binding and mutually enforceable. The department shall have such authority as may be provided in the intergovernmental agreement to bring suit for injunctive relief to enforce any local ordinance or resolution described in this subsection (3), but only with respect to properties that are subject to the requirements of this section. Any intergovernmental agreement under this section shall require that, insofar as the local ordinance or resolution applies to properties that are subject to the requirements of this section, any amendments to the local ordinance or resolution shall incorporate such requirements as the department may recommend to ensure continued protection of human health and the environment.

(4) (a) When an environmental covenant is required under subsection (2) of this section, a restrictive notice may be substituted for the covenant as follows:

(I) An owner of a parcel of land involved in an environmental remediation project who is being required to remediate contamination may request that the department approve a proposed restrictive notice for such parcel or may request that the department issue a restrictive notice.

(II) The department may unilaterally issue a restrictive notice containing the provisions described in section 25-15-319 when an environmental covenant is required under subsection (2) of this section and the owner of the subject property fails to create a covenant or restrictive notice within thirty days after:

(A) The date of a remedial decision for an environmental remediation project that relies solely on environmental use restrictions to protect human health and the environment; or

(B) The completion of construction work for environmental remediation projects that require physical work.

(b) Prior to issuing a restrictive notice unilaterally under subparagraph (II) of paragraph (a) of this subsection (4), the department shall make a good faith attempt to reach agreement with the owner of the subject property regarding a consensual covenant or notice.

(c) The department may not issue a restrictive notice for a parcel of land involved in an environmental remediation project that is owned by a person who is not being required to remediate the contamination, unless such person consents in writing.

(5) The department may accept environmental covenants or issue restrictive notices in cases where such covenants or notices are not required, including approvals of voluntary cleanup plans or petitions for no action determinations under sections 25-16-306 and 25-16-307, but the owner of the remediated land nonetheless desires to create such a covenant or requests that the department issue such a notice. A covenant or notice created under this subsection (5) may be enforced as any other covenant or notice.

Source: L. 2001: Entire section added, p. 455, § 2, effective July 1. L. 2008: IP(2), (3)(b)(III), (4), and (5) amended, p. 171, § 6, effective March 24.

25-15-321. Creation, modification, and termination of an environmental covenant.

(1) An environmental covenant under this part 3 may be created only by the owner of the property through a written grant to the department by a deed or other instrument of conveyance specifically stating the intention of the grantor to create such a restriction under this article.

(2) The department is authorized to accept, refuse to accept, conditionally accept, hold, modify, and terminate environmental covenants.

(3) Instruments creating, modifying, or terminating an environmental covenant shall be recorded as any other instrument affecting title to and interests in real property.

(4) If the only uses allowed under the proposed environmental covenant are prohibited by existing ordinance or resolution, the department shall condition its acceptance of the covenant upon the applicant's demonstration that such applicant has obtained approval from the relevant authority that would allow for one or more of the proposed uses.

(5) Persons proposing to create, modify, or terminate an environmental covenant shall provide written notice of their intention to all persons holding an interest of record in the real property that will be subject to the environmental covenant, to all persons known to them to have an unrecorded interest in the property, and to all affected persons in possession of the property prior to such creation, modification, or termination, and shall provide the department with:

(a) A copy of the notice provided;

(b) A list of the persons to whom notice was given and the address or other location to which the notice was directed; and

(c) Such title information as the department may require.

(6) The department shall review and make a determination regarding all applications for creating, modifying, or terminating an environmental covenant within sixty days after receipt of such application, including the information described in subsection (5) of this section.

(7) Any determination by the department regarding a proposal to create, modify, or terminate an environmental covenant shall be subject to appeal in accordance with section 25-15-305.

Source: L. 2001: Entire section added, p. 456, § 2, effective July 1. L. 2008: (6) amended, p. 173, § 7, effective March 24.

25-15-321.5. Notice of environmental use restrictions - creation, modification, and termination. (1) A person who proposes to create, modify, or terminate a restrictive notice shall provide written notice of the person's intention to all persons holding an interest of record in the real property that will be subject to the restrictive notice, to all persons

known to the person to have an unrecorded interest in the property, and to all affected persons in possession of the property prior to such creation, modification, or termination and shall provide the department with:

- (a) A copy of the notice provided;
- (b) A list of the persons to whom notice was given and the address or other location to which the notice was directed; and
- (c) Such title information as the department may require.

(2) Before issuing a notice of environmental use restrictions unilaterally, the department shall provide a copy of the proposed restrictive notice to all persons holding an interest of record in the real property that will be subject to the restrictive notice, all persons known to the department to have an unrecorded interest in such property, and all affected persons in possession of such property, and shall offer such persons a minimum of thirty days to comment on the proposed restrictive notice, unless notice has already been provided pursuant to subsection (1) of this section. In determining whether to issue the restrictive notice unilaterally, the department shall consider any comments received.

(3) The department shall review and make a determination regarding all requests to create, modify, or terminate a restrictive notice within sixty days after receipt of such request, including the information described in subsection (1) of this section.

(4) Upon issuance or approval of the restrictive notice, the department shall record the restrictive notice in the clerk and recorder's office for the county or counties in which the affected land is situated. For approved restrictive notices, the department may allow the owner of the property to record the notice. No person may record a restrictive notice that does not have the department's written approval.

(5) The department may authorize any notice of environmental use restrictions created in accordance with this section to be replaced by an environmental covenant as described in section 25-15-319. The department may condition its authorization and approval of the termination of the notice of environmental use restrictions on the prior creation, department approval and acceptance, and effective recording of the environmental covenant.

(6) Modifications or terminations of restrictive notices shall be recorded as provided in subsection (4) of this section. No person may record a modification or termination of a restrictive notice that does not have the department's written approval.

(7) Any determination by the department to issue, approve, modify, or terminate a notice of environmental use restrictions shall be subject to appeal in accordance with section 25-15-305.

Source: L. 2008: Entire section added, p. 173, § 8, effective March 24.

25-15-322. Enforcement - remedies. (1) An environmental covenant or restrictive notice imposed at any environmental remediation project shall be enforceable as provided in this section, even if the environmental remediation project is not otherwise subject to this part 3.

(2) In the event of an actual or threatened failure to comply with an environmental covenant or restrictive notice, the department may issue an order under this section requiring compliance with the terms of the environmental covenant or restrictive notice and may request the attorney general to bring suit in district court to enforce the terms of the environmental covenant or restrictive notice, to enforce the order issued pursuant to this section, or to seek other appropriate injunctive relief. An administrative order issued under this subsection (2) shall be subject to appeal in accordance with section 25-15-308.

(3) If a court of competent jurisdiction determines that an environmental covenant or restrictive notice is void or otherwise unenforceable, the department may take such action as may be authorized by any other law.

(4) The grantor of an environmental covenant may file suit in district court to enjoin actual or threatened violations of the covenant. Any third-party beneficiary specifically named in an environmental covenant or restrictive notice may file suit in district court to enjoin actual or threatened violations of the covenant or restrictive notice. The person who requested creation of a restrictive notice may file suit in district court to enjoin actual or threatened violations of the restrictive notice.

(5) An affected local government, as defined in section 25-15-324, may file suit in district court to enjoin actual or threatened violations of any environmental covenant or restrictive notice that applies to land within its jurisdiction.

(6) (Deleted by amendment, L. 2008, p. 174, § 9, effective March 24, 2008.)

(7) A court of competent jurisdiction is authorized to issue orders requiring compliance with an environmental covenant or restrictive notice, to enjoin actual or threatened violations of environmental covenants or restrictive notices, and to grant such other injunctive relief as it may deem appropriate.

Source: L. 2001: Entire section added, p. 457, § 2, effective July 1. **L. 2008:** Entire section amended, p. 174, § 9, effective March 24.

25-15-323. Registry of environmental covenants and notices of environmental use restrictions. The department shall create and maintain a registry of all environmental covenants and notices of environmental use restrictions, including any modification or termination thereof.

Source: L. 2001: Entire section added, p. 458, § 2, effective July 1. **L. 2008:** Entire section amended, p. 175, § 10, effective March 24.

25-15-324. Coordination with affected local governments. (1) For purposes of this part 3, “affected local government” means every county, city and county, or municipality in which land subject to an environmental covenant or restrictive notice is located. The department shall provide each affected local government with a copy of every environmental covenant and restrictive notice within such local government’s jurisdiction and shall also provide a copy of any documents modifying or terminating such environmental covenant or restrictive notice.

(2) Whenever an affected local government receives an application affecting land use or development of land that is subject to an environmental covenant or restrictive notice and that may relate to or impact such covenant or restrictive notice, the affected local government shall notify the department of the application. The department shall evaluate whether the application is consistent with the environmental covenant or restrictive notice and shall notify the affected local government of the department’s determination in a timely fashion, considering the time frame for the local government’s review of the application.

Source: L. 2001: Entire section added, p. 458, § 2, effective July 1. **L. 2008:** Entire section amended, p. 175, § 11, effective March 24.

25-15-325. Other interests not impaired. Except as specifically provided in an environmental covenant or restrictive notice or pursuant to section 25-15-326, no transfer of a water right or any change of a point of diversion at any time, nor any interest in real property cognizable under statute, common law, or custom in effect in this state prior to July 1, 2001, nor any lease or sublease thereof at any time shall be impaired, invalidated, or in any way adversely affected by sections 25-15-317 to 25-15-326. All interests not transferred or conveyed in the environmental covenant shall remain in the grantor of the environmental covenant, including the right to engage in all uses of the lands affected by the environmental covenant that are not inconsistent with the environmental covenant and not expressly prohibited by the environmental covenant or by law.

Source: L. 2001: Entire section added, p. 458, § 2, effective July 1. **L. 2008:** Entire section amended, p. 175, § 12, effective March 24.

25-15-326. Validation. (1) Any document recorded by the owner of real property that restricts or requires certain uses or activities relating to such real property, including any restrictions on drilling for or pumping groundwater, to protect human health or the environment by limiting exposure to hazardous substances or by ensuring the integrity of

a response action, shall be considered valid and enforceable by its terms, regardless of whether such document is denominated an easement, covenant, deed restriction, or some other instrument.

(2) The provisions of subsection (1) of this section shall apply only to:

(a) Documents that were required as part of an environmental remediation decision that was rendered prior to July 1, 2001; and

(b) Documents recorded in connection with a voluntary cleanup plan approved under section 25-16-306 or petition for a no action determination approved under section 25-16-307.

(3) Nothing in this section shall impair the validity or enforceability of an environmental covenant created under section 25-15-321.

Source: L. 2001: Entire section added, p. 458, § 2, effective July 1.

25-15-327. Applicability. The requirements of section 25-15-320 apply to remedial decisions made on or after July 1, 2001, that would create one or more of the conditions described in section 25-15-320 (2).

Source: L. 2001: Entire section added, p. 459, § 2, effective July 1.

PART 4

INFECTIOUS WASTE

25-15-401. Legislative declaration. (1) The general assembly hereby finds that there is a need for more clarity and uniformity regarding the definition of infectious waste and in the requirements for the handling, treatment, and disposal thereof and that the absence of such clarity and the inappropriate designation of general waste as infectious waste will result in further substantial and unnecessary costs, disparity, and confusion in the management of infectious waste, ultimately affecting many business and residential operations and facilities, including the operations and quality of care rendered by health care providers.

(2) For the purposes set forth in subsection (1) of this section, the provisions of this part 4 are enacted as a matter of statewide concern. The provisions of this part 4 shall not apply to infectious waste which is also deemed to be hazardous waste pursuant to section 25-15-101 (6), nor shall infectious waste be deemed hazardous waste solely because it is characterized as infectious waste.

(3) The general assembly further finds that, because of the nature of infectious waste and the manner of its designation as provided in this part 4 and because this part 4 recommends portions of the guidelines of the United States environmental protection agency, no rules or regulations governing the generators of infectious waste are necessary for nor shall be applicable to the implementation of this part 4. This limitation shall not be construed to limit any other rule-making which is permitted under other authorizing statutes.

Source: L. 89: Entire part added, p. 1175, § 1, effective April 23. **L. 92:** (2) amended, p. 1261, § 25, effective August 1.

25-15-402. Infectious waste - definitions. (1) For the purposes of this part 4 and statewide applicability:

(a) "Infectious waste" means waste capable of producing an infectious disease and requires the consideration of certain factors necessary for induction of disease. These factors include:

(I) Presence of a pathogen of sufficient virulence;

(II) Dose;

(III) Portal of entry;

(IV) Resistance of host.

(b) For a waste to be infectious, it must contain pathogens with sufficient virulence and quantity so that exposure to the waste by a susceptible host could result in disease. All the factors specified in paragraph (a) of this subsection (1) must be present simultaneously for disease transmission to occur and must be present in a manner which constitutes a substantial risk of infection to humans.

(2) (a) Infectious waste shall be designated as such by the generator in accordance with this part 4. Such designation shall not be based solely upon any source or type of waste but shall be based upon the factors specified in subsection (1) of this section.

(b) It is recommended by the general assembly that the following categories of waste, as published in the "EPA Guide for Infectious Waste Management", May 1986, by the United States environmental protection agency, be designated as infectious:

(I) Isolation wastes from persons diagnosed as having a disease caused by an organism requiring, pursuant to recommendations by the centers for disease control in the 1988 publication "Biosafety in the Microbiological and Biomedical Laboratory" (second edition), biosafety level IV containment;

(II) Cultures and stocks of infectious agents and associated biologicals;

(III) Human blood and blood products and body fluids consisting of serum, plasma and other blood components, cerebrospinal fluid, synovial fluid, pleural fluid, peritoneal fluid, pericardial fluid, and amniotic fluid;

(IV) Human pathological/anatomical waste consisting of tissues and body parts that are discarded from surgical, obstetrical, autopsy, and laboratory procedures;

(V) Contaminated sharps;

(VI) Contaminated laboratory or research animal carcasses, body parts, and bedding.

Source: L. 89: Entire part added, p. 1176, § 1, effective April 23.

25-15-402.5. Disposition of fetal tissue. (1) As used in this section, unless the context otherwise requires, "fetal death" means death prior to the complete expulsion or extraction from its mother of a product of human conception, irrespective of the duration of pregnancy. The death is indicated by the fact that after such expulsion or extraction the fetus does not breathe or show any other evidence of life such as beating of the heart, pulsation of the umbilical cord, or definite movement of voluntary muscles.

(2) Nothing in this part 4 shall be deemed to prohibit the treatment of the remains from a fetal death pursuant to article 54 of title 12, C.R.S.

Source: L. 2001: Entire section added, p. 1032, § 1, effective June 5.

25-15-403. Generator management plan. (1) Each generator of infectious waste shall develop and implement an on-site infectious waste management plan which is appropriate for the particular facility. Such plan shall include:

(a) The designation of infectious waste generated by the facility;

(b) The handling of infectious waste which includes segregation, identification, packaging, storage, transportation, treatment techniques for each waste type, if applicable, and disposal;

(c) Contingency planning for spills or loss of containment;

(d) Staff training and the designation of a person responsible for implementation of the management plan;

(e) If on-site treatment is not available, the management plan shall provide for appropriate off-site treatment or disposal.

(2) The management plan, including the documentation provided in section 25-15-404 (2), shall be available for inspection to the hauler of any waste, to the disposal facility, and to the licensing or regulatory agency, if applicable, of the generator.

Source: L. 89: Entire part added, p. 1177, § 1, effective April 23.

25-15-404. On-site disinfection. (1) Any infectious waste which has been appropriately treated at the site of generation by the generator so as to render it noninfectious shall not thereafter be deemed infectious for purposes of handling or disposal.

(2) Appropriate treatment shall include any method of treatment which renders the infectious waste noninfectious. Use of a treatment method recommended by the United States environmental protection agency, as published in the "EPA Guide for Infectious Waste Management", May 1986, shall be conclusively presumed to be an appropriate treatment method. Any method of treatment shall include:

(a) Documentation by the generator that the method of treatment utilized for his operation is effective in rendering infectious waste noninfectious in such operation;

(b) Written standard operating procedures for the use of or implementation of the treatment method;

(c) Regular monitoring of the standard operating procedures and the effectiveness of such disinfective method.

(3) Upon request of the chairman of either the senate or house of representatives committees on health, environment, welfare, and institutions, or any successor committees, the department of public health and environment shall make a report to the senate and house of representatives committees on health, environment, welfare, and institutions, or any successor committees, on the current status, in view of scientific knowledge and technology, of the recommendations contained in the "EPA Guide for Infectious Waste Management", May 1986, and may make any additional recommendations it deems necessary.

Source: L. 89: Entire part added, p. 1177, § 1, effective April 23. L. 94: (3) amended, p. 2792, § 531, effective July 1. L. 2007: (3) amended, p. 2042, § 68, effective June 1.

Cross references: For the legislative declaration contained in the 1994 act amending subsection (3), see section 1 of chapter 345, Session Laws of Colorado 1994.

25-15-405. Appropriate treatment and disposal - nonliability. (1) A generator of infectious waste using an appropriate treatment method with appropriate documentation as provided in section 25-15-404 (2) and, in good faith, utilizing disposal facilities for such waste shall not be civilly or criminally liable for injuries or damages allegedly resulting from the infectious character of such waste; except that any generator who does not use an appropriate treatment method or any generator who fails to utilize disposal facilities in good faith shall not be relieved of civil or criminal liability.

(2) When any infectious waste has been appropriately treated, the generator shall either identify it as such or provide the hauler and disposal facility with a written statement that its general waste includes infectious waste which has been appropriately treated to render it noninfectious.

Source: L. 89: Entire part added, p. 1177, § 1, effective April 23.

25-15-406. Penalty. (1) (a) Any generator who knowingly removes, causes to be removed, or allows to be removed from the site of generation any infectious waste which he knew was not appropriately treated and not identified as untreated when such infectious waste was so removed from the site of generation shall be subject to the civil penalties set forth in paragraph (b) of this subsection (1).

(b) Upon conviction of a first offense, a generator shall be subject to a civil penalty of not more than three thousand dollars per day for each day of violation, not to exceed fifteen thousand dollars. Upon conviction of a second or subsequent offense which occurs within five years of a previous conviction, a generator shall be subject to a civil penalty of three thousand dollars per day for each day of violation, not to exceed twenty-five thousand dollars.

(2) (a) Any person who knowingly hauls untreated infectious waste and recklessly spills or loses such waste or knowingly disposes of such waste at an unlawful site or

disposal or treatment facility shall be subject to the civil penalties set forth in paragraph (b) of this subsection (2).

(b) Upon conviction of a first offense, a person shall be subject to a civil penalty of not more than three thousand dollars per day for each day of violation, not to exceed fifteen thousand dollars. Upon conviction of a second or subsequent offense which occurs within five years of a previous conviction, a person shall be subject to a civil penalty of three thousand dollars per day, not to exceed twenty-five thousand dollars.

(3) All civil penalties set forth in this section shall be determined by a court of competent jurisdiction upon action instituted by the department of public health and environment.

Source: L. 89: Entire part added, p. 1178, § 1, effective April 23. L. 94: (3) amended, p. 2792, § 532, effective July 1.

Cross references: For the legislative declaration contained in the 1994 act amending subsection (3), see section 1 of chapter 345, Session Laws of Colorado 1994.

25-15-407. Presumption of noninfectiousness. It is conclusively presumed that any infectious waste which has been appropriately treated and documented in section 25-15-404 (2) either on the site or off the site is not infectious after it has been so treated.

Source: L. 89: Entire part added, p. 1178, § 1, effective April 23.

PART 5

HAZARDOUS WASTE INCINERATOR OR PROCESSOR SITES

25-15-501. Short title. This part 5 shall be known and may be cited as the “State Hazardous Waste Incinerator or Processor Siting Act”.

Source: L. 92: Entire part added, p. 1264, § 1, effective July 1. L. 2002: Entire section amended, p. 87, § 1, effective March 22.

25-15-502. Definitions. As used in this part 5, unless the context otherwise requires:

(1) “Existing hazardous waste incinerator” means a hazardous waste incinerator that was in active operation, as authorized by applicable federal and state laws and regulations, on or before August 21, 1991.

(1.5) “Existing hazardous waste processor” means a hazardous waste processing facility that was in active operation, regardless of the amount of hazardous waste treated annually, as authorized by applicable federal and state laws and rules, on or before March 22, 2002.

(2) “Governing body having jurisdiction” means the board of county commissioners if a hazardous waste incinerator or processor site is located in any unincorporated portion of a county and means the governing body of the appropriate municipality if a hazardous waste incinerator or processor site is located within an incorporated area.

(3) (a) “Hazardous waste incinerator” means:

(I) Any hazardous waste incinerator as defined in regulations of the commission promulgated pursuant to section 25-15-302; or

(II) Any boiler or industrial furnace that burns hazardous waste, as defined in subpart B of part 260 of title 40, code of federal regulations, as from time to time amended, until such time as the commission, pursuant to section 25-15-302, promulgates a definition of boiler or industrial furnace, at which time such state definition shall operate in lieu of the foregoing federal definition. Such term shall include, but is not limited to, any cement kiln, lime kiln, aggregate kiln, or blast furnace.

(b) The term “hazardous waste incinerator” excludes any facility for incineration of a hazardous waste performing on-site remediation pursuant to the federal “Comprehensive Environmental Response, Compensation, and Liability Act”.

(4) (a) “Hazardous waste processing” means both of the following, except as provided in paragraph (b) of this subsection (4):

(I) Any treatment method, technique, or process designed to change the physical, chemical, or biological character or composition of acute hazardous waste, as defined in rules of the commission promulgated pursuant to part 3 of this article, in order to neutralize such waste, reduce the volume of such waste, or render such waste less hazardous, safer for transport, amenable to recovery or use, or amenable to storage; and

(II) Any acute hazardous waste processing, as defined in rules of the commission promulgated pursuant to section 25-15-302.

(b) “Hazardous waste processing” does not include:

(I) The treatment of less than one thousand kilograms of acute hazardous waste per year;

(II) The treatment, storage, or disposal of hazardous waste pursuant to a certificate of designation issued under, or otherwise regulated by, part 2 of this article;

(III) The processing of hazardous waste that is not listed as acute hazardous waste in rules of the commission promulgated pursuant to part 3 of this article;

(IV) The processing of any hazardous waste pursuant to any record of decision, consent decree, or administrative order authorized by or made pursuant to applicable federal or state laws and rules, as amended or revised, or any record of decision issued pursuant to a periodic revision of a record of decision that was made on or before March 22, 2002;

(V) The performance of on-site processing or treatment of hazardous waste associated with efforts to clean up contaminated soil, groundwater, or surface water pursuant to federal or state environmental laws;

(VI) The processing of hazardous waste incidental to commercial manufacturing;

(VII) The treatment, storage, management, or processing of solid waste pursuant to a certificate of designation issued under article 20 of title 30, C.R.S.;

(VIII) The conduct of any activities pursuant to an approved reclamation plan contained in a permit issued under, or otherwise regulated by, article 32 or 33 of title 34, C.R.S.; or

(IX) The conduct of any activities regulated under article 60 of title 34, C.R.S.

(5) “Hazardous waste processor” means a facility that engages in hazardous waste processing subject to the requirement for a part B permit or interim status under rules of the commission promulgated pursuant to section 25-15-302.

(6) “Hazardous waste processor site” means a location where hazardous waste is:

(a) Processed; or

(b) Generated or stored by the owner of a hazardous waste processor or by an affiliate or customer of a hazardous waste processor who produces hazardous waste.

Source: L. 92: Entire part added, p. 1264, § 1, effective July 1; (3)(a) and (3)(b) amended, p. 1261, § 26, effective August 1. L. 93: (3) amended, p. 267, § 1, effective April 3. L. 2002: (1.5), (4), (5), and (6) added and (2) amended, p. 87, § 2, effective March 22.

25-15-503. Certificate required - incineration or processing of hazardous waste prohibited - exceptions. (1) Any person desiring to own or operate a hazardous waste incinerator or processor shall first obtain a certificate of designation from the governing body having jurisdiction over the area in which such proposed hazardous waste incinerator or processor site is located.

(2) Hazardous waste incineration or processing by any person is prohibited except on or at a hazardous waste incinerator or processor site for which a certificate of designation has been obtained as provided in this part 5.

(3) Notwithstanding the provisions of subsections (1) and (2) of this section and section 25-15-507, any existing hazardous waste incinerator or processor shall be an approved activity for which obtaining a certificate of designation under the provisions of this part 5 shall be unnecessary.

Source: L. 92: Entire part added, p. 1265, § 1, effective July 1. L. 2002: Entire section amended, p. 89, § 3, effective March 22.

25-15-504. Application for certificate - review by governing body. (1) Any person desiring to own or operate a hazardous waste incinerator or processor shall make application to the governing body having jurisdiction over the area in which such incinerator, incinerator site, processor, or processor site is or is proposed to be located for a certificate of designation.

(2) An application made pursuant to the provisions of subsection (1) of this section shall be accompanied by a fee to be established by the governing body having jurisdiction. Such fee shall be based on the reasonable anticipated costs that may be incurred by such governing body in the application review and approval process imposed by this article. Such fee shall be for the reasonable costs necessary in the application review and hearing process imposed by this article and shall not exceed one hundred thousand dollars. The local governing body having jurisdiction shall provide an accounting of the actual costs incurred by such body in the application review and hearing process and shall refund any payment in excess of such costs within ninety days after completion of the certification process.

(3) An application made pursuant to the provisions of subsection (1) of this section shall set forth the location of the incinerator or processor site and incinerator or processor, the types of hazardous waste to be accepted or rejected, the types of incinerator or processor by-product disposal, the method of supervision, the anticipated access routes in the county in which the site is located, and such other information as may be required by the governing body having jurisdiction.

(4) The clerk of the governing body having jurisdiction shall promptly notify the county commissioners and the governing body of any other county or municipality within twenty miles of a proposed hazardous waste incinerator or processor upon the filing of any application for a certificate of designation for such incinerator, processor, or site.

Source: L. 92: Entire part added, p. 1265, § 1, effective July 1. L. 2002: Entire section amended, p. 89, § 4, effective March 22.

25-15-505. Grounds for approval. (1) A governing body having jurisdiction shall approve or disapprove an application for a hazardous waste incinerator or processor site certificate of designation within one hundred eighty days after receiving such application. Such governing body having jurisdiction may approve an application for a certificate of designation upon a finding of all of the following factors:

(a) That the proposed hazardous waste incinerator or processor site would not pose a significant threat to the health or safety of the public or the environment, taking into consideration:

(I) The density of population in the areas neighboring such proposed site;

(II) The density of population in the areas that are adjacent to any portion of delivery roads to such proposed site and that lie within a fifty-mile radius of such proposed site; and

(III) The risk of accidents occurring during the transportation of waste to or at the proposed site;

(b) That the applicant has documented such applicant's financial ability to operate the proposed hazardous waste incinerator or processor;

(c) That the applicant, taking into account such applicant's prior performance records, if any, in the treatment, storage, disposal, processing, or incineration of hazardous waste, has documented sufficient reliability, expertise, and competency to operate and manage the proposed hazardous waste incinerator or processor; and

(d) That the proposed site conforms to the comprehensive land use plans and relevant land use regulations of the governing body having jurisdiction; except that, to the extent the commission has promulgated a rule imposing a condition on incinerator or processor operation pursuant to section 25-15-302, such comprehensive land use plans and rules shall not impose a condition more stringent than that contained in such state rule.

(2) In considering an application for a proposed hazardous waste incinerator or processor, the governing body having jurisdiction shall take into account the effect that such hazardous waste incinerator or processor will have on the surrounding property, taking into consideration the types of processing to be used, wind and climatic conditions, and both the quality and quantity of public and private infrastructure necessary to facilitate the construction and subsequent operation of such incinerator, processor, or site.

(3) (a) Prior to the issuance of a certificate of designation for a hazardous waste incinerator or processor, the application, comprehensive land use plans, any relevant zoning ordinances, and any other pertinent information shall be presented to the governing body having jurisdiction at a public hearing to be held after notice. Such notice shall contain the date, time, and location of the hearing and shall state that the matter to be considered at such hearing is the applicant's application for a hazardous waste incinerator or processor. Such notice shall be published in a newspaper having general circulation in the county or municipality in which the proposed hazardous waste incinerator or processor site is located at least ten days but no more than thirty days prior to the date of such hearing. Any such notice shall be printed prominently in at least ten-point, bold-faced type. Such notice shall be posted at the proposed hazardous waste incinerator or processor site for a period beginning at least thirty days before such public hearing and continuing through the date of such hearing.

(b) At any public hearing held pursuant to the provisions of paragraph (a) of this subsection (3), the governing body having jurisdiction shall hear or receive any written or oral testimony presented by the applicant and by governmental entities and residents or any interested party concerning such proposed incinerator or processor site. All such testimony shall be considered by the governing body having jurisdiction in making a decision concerning such application.

(4) The governing body having jurisdiction shall notify the department of the approval or disapproval of any application for a hazardous waste incinerator or processor certificate of designation within five days after such approval or disapproval.

(5) The governing body having jurisdiction over a hazardous waste incinerator or processor may enact local procedural rules in order to implement the provisions of this part 5. If a local procedural rule conflicts with any of the provisions of this article, the provisions of this article shall control.

Source: L. 92: Entire part added, p. 1266, § 1, effective July 1; (1)(d) amended, p. 1261, § 27, effective August 1. L. 2002: Entire section amended, p. 90, § 5, effective March 22.

25-15-506. Certificate. (1) A certificate of designation for a hazardous waste incinerator or processor site shall identify the general types of waste that shall be incinerated or processed and the types of waste that shall be rejected by such hazardous waste incinerator or processor site, subject to a more specific statement of waste to be rejected in the hazardous waste permit issued pursuant to part 3 of this article or the federal act.

(2) Such certificate of designation shall be displayed in a prominent place at the hazardous waste incinerator or processor site.

(3) Such certificate of designation may provide such conditions as may reasonably be necessary for the safe operation of such site. Such conditions may include but are not limited to the provision by the site owner or operator of additional fire protection, security, or trained personnel for monitoring, inspections, and incident responses.

(4) A certificate of designation issued pursuant to this part 5 shall be deemed to satisfy any requirement imposed by part 1 of article 20 of title 30, C.R.S., for a certificate of designation as a solid wastes disposal site and facility.

Source: L. 92: Entire part added, p. 1268, § 1, effective July 1. L. 2002: (1) and (2) amended, p. 91, § 6, effective March 22.

25-15-507. Substantial change in ownership, design, or operation. (1) Any substantial change in the ownership of a hazardous waste incinerator or processor, including but not limited to an assignment or a transfer of the certificate of designation, or in the design or operation of a hazardous waste incinerator, incinerator site, processor, or processor site shall be submitted to the governing body having jurisdiction for its approval. Approval by the governing body having jurisdiction shall be required before such a substantial change may become effective. For the purposes of this section, "substantial change" shall have such meaning as is provided for such term in the rules of the commission promulgated pursuant to section 25-15-510.

(2) Except as provided in subsection (3) of this section, approval of a substantial change under this section shall be made if the governing body having jurisdiction finds all of the factors required by the provisions of section 25-15-505 (1) and has considered the factor provided in section 25-15-505 (2).

(3) A substantial change involving only a change in ownership, including an assignment or transfer of the certificate of designation, shall be made if the governing body having jurisdiction finds the factors required in section 25-15-505 (1) (b) and (1) (c).

(4) An application for approval of a substantial change under this section shall be accompanied by a fee established by the governing body having jurisdiction, which fee shall not exceed ten thousand dollars and which fee may be refunded in whole or in part.

Source: L. 92: Entire part added, p. 1268, § 1, effective July 1; (1) amended, p. 1261, § 28, effective August 1. L. 2002: (1) amended, p. 92, § 7, effective March 22.

25-15-508. Revocation or suspension of certificate. (1) A governing body having jurisdiction that has granted a certificate of designation for a hazardous waste incinerator or processor may revoke or suspend such certificate of designation if such governing body having jurisdiction finds that:

(a) There was a material misrepresentation or misstatement of fact in the application for such certificate of designation;

(b) Such hazardous waste incinerator or processor is not being operated in substantial compliance with any term, condition, or limitation of its certificate of designation or any applicable rule adopted pursuant to this part 5; or

(c) The owner or operator of such hazardous waste incinerator or processor has failed to pay the annual fee to the governing body having jurisdiction as required by the provisions of section 25-15-515 (1).

(2) The revocation or suspension of a certificate of designation shall not relieve the owner or operator of the hazardous waste incinerator or processor from any legal liability.

Source: L. 92: Entire part added, p. 1269, § 1, effective July 1. L. 2002: Entire section amended, p. 92, § 8, effective March 22.

25-15-509. Judicial review. The award, denial, revocation, or suspension of a certificate of designation by the governing body having jurisdiction shall be subject to judicial review in the district court for the judicial district in which the hazardous waste incinerator or processor is located or is proposed to be located. Any request for such judicial review shall be made within thirty days after such award, denial, revocation, or suspension. If the court finds that the governing body having jurisdiction has acted reasonably and in accordance with the procedures and procedural limitations of this part 5, the court shall affirm the action of the governing body having jurisdiction. If the court finds that the action is arbitrary and capricious, not in accord with the procedures or procedural limitations of this part 5, unsupported by substantial evidence when the record is considered as a whole, or otherwise contrary to law, then the court shall hold unlawful and set aside the action and shall remand the case to the governing body having jurisdiction for further proceedings as appropriate.

Source: L. 92: Entire part added, p. 1269, § 1, effective July 1. L. 2002: Entire section amended, p. 92, § 9, effective March 22.

25-15-510. Rules - limitations. (1) The commission may promulgate rules establishing what constitutes a substantial change in ownership, design, or operation of a hazardous waste incinerator or processor under the provisions of section 25-15-507.

(2) The regulations promulgated by the commission pursuant to this section shall be based upon generally accepted scientific data.

Source: L. 92: Entire part added, p. 1269, § 1, effective July 1; entire section amended, p. 1262, § 29, effective August 1. L. 2002: (1) amended, p. 93, § 10, effective March 22.

25-15-511. List of hazardous wastes - final inventory. The operator of any hazardous waste incinerator or processor site shall maintain a list of the hazardous wastes accepted for incineration or processing at such site. Such list shall indicate the types of hazardous waste accepted for incineration or processing at such hazardous waste incinerator or processor and the location of such waste. A copy of such list shall be provided to any person upon request and upon payment of a reasonable charge for the costs of the reproduction of such list. Upon the closure of a hazardous waste incinerator or processor site, a final inventory of hazardous wastes shall be prepared and filed with the department. The department shall make any such final inventory available for public inspection and copying at reasonable cost.

Source: L. 92: Entire part added, p. 1270, § 1, effective July 1. L. 2002: Entire section amended, p. 93, § 11, effective March 22.

25-15-512. Inspections of hazardous waste incinerator or processor sites. (1) The department shall conduct inspections of each hazardous waste incinerator or processor site at intervals determined by rules of the commission based upon the volume and toxicity of the wastes being received at such site. Such inspections shall include, but are not limited to, inspections conducted during the reception of hazardous wastes, during the incineration of hazardous wastes, during the processing of hazardous wastes, and during the shipment of incineration or processing by-products. The department shall be permitted reasonable access to all operations at any hazardous waste incinerator or processor site for the purpose of monitoring and inspecting such operations. Unless an emergency exists at such site, or unless the department has reason to believe that unlawful activity is being conducted or will be conducted at such site, the department shall provide prior notification of the inspection and shall conduct such inspection during normal business hours.

(2) The governing body having jurisdiction over any hazardous waste incinerator or processor site or the governing body of any other county or municipality having jurisdiction over such site pursuant to an intergovernmental agreement shall have physical and structural access to such site during the operating hours of such site for the purpose of periodic inspections by the agents of such governing body.

Source: L. 92: Entire part added, p. 1270, § 1, effective July 1. L. 93: (1) amended, p. 1787, § 70, effective June 6. L. 2002: Entire section amended, p. 93, § 12, effective March 22.

25-15-513. Violation - criminal penalty. Any person who violates any provision of this part 5 commits a class 3 misdemeanor and shall be punished as provided in section 18-1.3-501, C.R.S.

Source: L. 92: Entire part added, p. 1270, § 1, effective July 1. L. 2002: Entire section amended, p. 1538, § 271, effective October 1.

Cross references: For the legislative declaration contained in the 2002 act amending this section, see section 1 of chapter 318, Session Laws of Colorado 2002.

25-15-514. Violation - civil penalty - reimbursement of costs. (1) Any person who violates any provision of this part 5 shall be subject to a civil penalty of not more than ten thousand dollars per day of violation. Such penalty shall be determined and collected by the district court for the judicial district in which such violation occurs upon action instituted by the department or the governing body having jurisdiction. In determining the amount of any such penalty, the court shall take into account the seriousness of the violation, whether the violation was willful or due to mistake, the economic impact of the penalty on the violator, and any other relevant factors. All penalties collected pursuant to this section shall be transmitted to the state treasurer, who shall credit fifty percent of such moneys to the general fund and shall transmit the remaining fifty percent of such moneys to the governing body having jurisdiction.

(2) If the violation of the provisions of this part 5 for which a penalty has been assessed and paid into the general fund pursuant to the provisions of subsection (1) of this section results in a county, municipality, or other local government incurring costs to remove, contain, or otherwise mitigate the effects of the hazardous waste which was involved in the violation, such local government shall be entitled to reimbursement for such costs. A local government requesting reimbursement of such costs shall file a claim for reimbursement with the state treasurer. The state treasurer shall make reimbursements out of any funds attributable to the civil penalty imposed for such violation pursuant to the provisions of subsection (1) of this section.

Source: L. 92: Entire part added, p. 1271, § 1, effective July 1.

25-15-515. Annual fees - commercial hazardous waste incinerator or processor funds. (1) (a) The owner or operator of any hazardous waste incinerator or processor for which a certificate of designation has been issued pursuant to this article shall be required, contingent upon the issuance of federal or state permits, to pay the governing body having jurisdiction an annual fee for the purpose of offsetting the estimated direct costs necessitated by such hazardous waste incinerator or processor. The governing body having jurisdiction shall provide the owner or operator of such hazardous waste incinerator or processor with an accounting of the basis of such fees. Such costs may include but are not limited to the improvement and maintenance of roads and bridges; fire protection; law enforcement; monitoring by county or municipal health officials pursuant to the requirements of state law, rules, and the certificate of designation; and emergency preparation and response. The amount of such fee shall be no more than the greater of two percent of the annual estimated operating cost of or the annual estimated gross revenue received for the incineration or processing of hazardous wastes by the hazardous waste incinerator or processor. The governing body having jurisdiction may provide reimbursement out of such fee moneys to other governmental units for the reasonable direct costs to such governmental units of increased services necessitated by such hazardous waste incinerator or processor.

(b) In lieu of the annual fees imposed under paragraph (a) of this subsection (1), the governing body may request that the owner or operator of any hazardous waste incinerator or processor site make a lump-sum payment covering the total amount of fees imposed under this section. Such lump sum payment shall not be made unless the governing body having jurisdiction and the owner or operator of a hazardous waste incinerator or processor agree to such payment.

(2) In the event that the owner or operator of a hazardous waste incinerator or processor site fails to pay the annual fee imposed pursuant to the provisions of subsection (1) of this section, the governing body having jurisdiction may suspend the certificate of designation for such site until such annual fee has been paid.

(3) Any governing body having jurisdiction is authorized to establish a hazardous waste incinerator or processor fund. All fees collected pursuant to subsection (1) of this section shall be deposited to the credit of said fund and appropriated by the governing body for the purposes for which such fees are collected.

PART 1**CLEAN-UP**

Law reviews: For comment, "Comprehensive General Liability Insurance Coverage for CERCLA Liabilities: A Recommendation for Judicial Adherence to State Canons of Insurance Contract Construction", see 61 U. Colo. L. Rev. 407 (1990).

25-16-101. Legislative declaration. (1) The general assembly hereby finds and declares that the existence of facilities subject to the federal "Comprehensive Environmental Response, Compensation, and Liability Act of 1980", including old radium mill residue deposits, poses a potential and significant health hazard. This article is therefore enacted to protect the public health, safety, and welfare by cooperating with the federal government in providing for the disposal and control of such wastes in a safe and environmentally sound manner to prevent or minimize other environmental impacts from such wastes and by providing for the creation of a hazardous substance response fund to provide the necessary state's share of the response costs of cleaning up such sites.

(2) The general assembly also finds and declares that in order to further the purposes of section 30-20-100.5, C.R.S., it is necessary for a portion of the solid waste user fee imposed under section 25-16-104.5 to be used for the purposes specified in part 1 of article 20 of title 30, C.R.S.

Source: **L. 84:** Entire article RC&RE, p. 785, § 1, effective April 12. **L. 85:** Entire section amended, p. 915, § 1, effective July 1. **L. 98:** Entire section amended, p. 879, § 1, effective July 1.

25-16-102. Definitions. As used in this article, unless the context otherwise requires:

(1) "Attended solid waste disposal site" means a site established pursuant to part 1 of article 20 of title 30, C.R.S., at which an attendant is present during the normal hours of operation on or after December 31, 1984. This term shall not include any site which is deemed to hold a certificate of designation, but for which such certificate is not required, pursuant to section 30-20-102 (4), C.R.S.; nor shall it include any site used by a person for disposal of solid waste on his own property pursuant to section 30-20-102 (3), C.R.S.

(1.5) "Commission" means the solid and hazardous waste commission created in section 25-15-302.

(2) "Department" means the department of public health and environment.

(3) "Federal act" means the federal "Comprehensive Environmental Response, Compensation, and Liability Act of 1980", as from time to time amended.

(4) "Hazardous substance" has the same meaning as that ascribed to it in the federal act.

(5) "National contingency plan" has the same meaning as that ascribed to it in the federal act.

(6) "Remedial action" has the same meaning as that ascribed to it in the federal act.

(7) "Removal" has the same meaning as that ascribed to it in the federal act.

(8) "Response" has the same meaning as that ascribed to it in the federal act.

(9) "Responsible party" has the same meaning as that ascribed to it in the federal act.

(10) "Solid waste" has the same meaning as that ascribed to it in section 30-20-101 (6), C.R.S.

(11) "Waste producer" means any legal person who contracts for the transportation of waste ultimately destined for an attended solid waste disposal site.

Source: **L. 84:** Entire article RC&RE, p. 785, § 1, effective April 12. **L. 85:** Entire section R&RE, p. 915, § 2, effective July 1. **L. 94:** (2) amended, p. 2792, § 533, effective July 1. **L. 2010:** (1.5) added, (HB 10-1329), ch. 358, p. 1702, § 1, effective June 7.

Cross references: For the legislative declaration contained in the 1994 act amending subsection (2), see section 1 of chapter 345, Session Laws of Colorado 1994.

25-16-103. Authorization to participate - implementation. (1) The general assembly hereby authorizes the department of public health and environment to participate in federal implementation of the federal act and, for such purpose, the department has the authority to participate in the selection and performance of responses and remedial actions and to enter into cooperative agreements with the federal government providing for remedial actions and responses. The department with the consent of the governor has the authority to decline to participate with the federal government on remedial actions which the department determines are not in the interest of the state. Any cooperative agreements entered into under this article may provide assurances acceptable to the federal government that:

(a) The state will assure all future maintenance of the removal and remedial actions provided for the expected life of such actions;

(b) The state will assure the availability of an acceptable hazardous waste disposal facility for any necessary off-site storage, destruction, treatment, or secure disposition of the hazardous substances.

(2) Any state matching payment required by a cooperative agreement entered into pursuant to this section must be approved by the general assembly acting by bill.

Source: **L. 84:** Entire article RC&RE, p. 785, § 1, effective April 12. **L. 88:** IP(1) amended, p. 1050, § 1, effective April 4. **L. 94:** IP(1) amended, p. 2792, § 534, effective July 1.

Cross references: (1) For the approval by the general assembly of the state matching payment as required by subsection (2) of this section, see L. 85, p. 919, § 7.

(2) For the legislative declaration contained in the 1994 act amending the introductory portion to subsection (1), see section 1 of chapter 345, Session Laws of Colorado 1994.

25-16-104. Financial participation. Subject to the provisions of section 25-16-103, the general assembly accepts the provisions of section 104 (c) (3) (C) of the federal act requiring the state to pay or assure payment of the necessary state share of response costs, as appropriated by the general assembly, including all future operation and maintenance costs. Any remedial action requiring state matching payment shall be explicitly approved by the general assembly acting by bill and shall be subject to appropriation.

Source: L. 84: Entire article RC&RE, p. 785, § 1, effective April 12. L. 88: Entire section amended, p. 1050, § 2, effective April 4.

Cross references: For the approval by the general assembly of the state matching payment as required by this section, see L. 85, p. 919, § 7.

25-16-104.5. Solid waste user fee - imposed - rate - direction - legislative declaration - repeal.

(1) Repealed.

(1.5) The general assembly hereby finds and declares that, for purposes of this section, a user fee is intended to be a charge imposed upon waste producers in addition to any charge specified by contract. Any such user fee imposed by this section shall be itemized and depicted on any bill, receipt, or other mechanism used for solid waste management services rendered to any person disposing of solid waste and shall be in addition to the costs of any other solid waste management services provided.

(1.7) (a) On or after July 1, 2010, the commission shall promulgate rules that establish a solid waste user fee upon each person disposing of solid waste at an attended solid waste disposal site. The operator of the site at the time of disposal shall collect the fee from waste producers or other persons disposing of solid waste. The effective date and amount of the fee shall be set by rule of the commission, and the amount shall be sufficient to offset:

(I) The department's direct and indirect costs associated with implementation of the solid waste management program under section 30-20-101.5, C.R.S.;

(II) The department's direct and indirect costs for the implementation of its responsibilities under the federal act, as described in this part 1, and to provide matching funds and cover future maintenance costs pursuant to section 25-16-103; and

(III) The anticipated payments to the department of law, pursuant to subparagraph (II) of paragraph (b) of this subsection (1.7), for the direct and indirect costs of the department of law for the implementation of its responsibilities under the federal act, as described in this part 1, which costs are distinct from those described in subparagraph (II) of this paragraph (a).

(b) (I) The portion of the fee collected for the costs described in subparagraph (I) of paragraph (a) of this subsection (1.7) shall be transmitted to the department for deposit into the solid waste management fund created in section 30-20-118, C.R.S.

(II) The portions of the fee imposed under this subsection (1.7) that are collected for the costs described in subparagraphs (II) and (III) of paragraph (a) of this subsection (1.7) shall be transmitted to the department for deposit into the hazardous substance response fund created in section 25-16-104.6. The department may expend moneys from the portion of the fee collected under subparagraph (III) of paragraph (a) of this subsection (1.7) to compensate the department of law for all or a portion of the expenses incurred for services rendered under the federal act, as billed to the department by the department of law.

(c) The fee established by the commission under this subsection (1.7) shall not exceed fifty cents per cubic yard of solid waste, of which no more than three and one-half cents shall pay for the costs described in subparagraph (III) of paragraph (a) of this subsection (1.7).

(d) The department shall give the operators of attended solid waste disposal sites written notice of changes to the solid waste user fees no later than ninety days before the effective date of the changes. Failure to provide the notice required by this paragraph (d) shall invalidate the rules that changed the fees.

(2) (a) Repealed.

(a.5) Notwithstanding any provision of law to the contrary, one hundred percent of the moneys collected pursuant to subparagraph (II) of paragraph (a) of subsection (1.7) of this section from persons disposing of solid waste at an attended solid waste disposal site where a local government solid waste disposal fee is imposed to fund hazardous substance response activities at sites designated on the national priority list pursuant to the federal act shall be transmitted to the owner of the solid waste disposal site to the extent that the moneys are used to fund the response activities at the sites on the national priority list. The balance of any moneys described under this paragraph (a.5) that are not used to fund such response activities shall be credited to the hazardous substance response fund created in section 25-16-104.6.

(b) At the end of each fiscal year, the state treasurer shall transfer any moneys in the solid waste management fund created in section 30-20-118, C.R.S., that exceed sixteen and one-half percent of the moneys expended from such fund during the fiscal year to the hazardous substance response fund created in section 25-16-104.6.

(3) to (3.7) Repealed.

(3.9) (a) Subject to the provisions of subsection (1.5) of this section, in addition to any other user fee imposed by this section, on or after July 1, 2007, there is hereby imposed a user fee to fund the recycling resources economic opportunity program created in section 25-16.5-106.7. Such fee shall be collected by the operator of an attended solid waste disposal site at the time of disposal and shall be imposed and passed through to waste producers and other persons disposing of waste at the following rate or at an equivalent rate established by the department:

(I) Two cents per load transported by a motor vehicle that is commonly used for the noncommercial transport of persons over public highways;

(II) Four cents per load transported by a truck, as defined in section 42-1-102 (108), C.R.S., that is commonly used for the noncommercial transport of persons and property over the public highways; and

(III) Seven cents per cubic yard per load transported by any commercial vehicle or other vehicle not included in the vehicles described in subparagraph (I) or (II) of this paragraph (a).

(b) Any user fee collected by the operator of a solid waste disposal site or facility pursuant to paragraph (a) of this subsection (3.9) shall be transmitted by the last day of the month following the end of each calendar quarter to the state treasurer, who shall credit one hundred percent of such moneys to the recycling resources economic opportunity fund created in section 25-16.5-106.5, to fund the recycling resources economic opportunity program pursuant to section 25-16.5-106.7.

(4) The department shall credit an amount equal to two and one-half percent of the money collected as fees by a solid waste disposal site or facility in order to defray the costs of such collection.

(5) Any operator who fails to collect or to transmit, within thirty days of the day specified in subsection (2) of this section, the fee imposed pursuant to this section is liable for payment of a civil penalty of ten percent of the total amount of fee money uncollected or untransmitted. Collection of such penalty and fee shall be in the manner provided for the collection and enforcement of taxes pursuant to article 21 of title 39, C.R.S.

(6) This section is repealed, effective July 1, 2017.

(7) Repealed.

25-16-104.6. Fund established - administration - revenue sources - use.

(1) (a) There is hereby established in the state treasury the hazardous substance response fund. The fund shall be composed of any moneys that the general assembly may choose to appropriate from the general fund and any moneys derived from the fee imposed pursuant to section 25-16-104.5 and any interest derived therefrom; any moneys recovered from responsible parties pursuant to the federal act that are not generated by the state litigating as trustee for natural resources pursuant to section 25-16-104.7; any moneys recovered through litigation by the state pursuant to the federal act that are designated for future response cost; and any other moneys derived from public or private sources that may be credited to the fund. Moneys in the fund shall be annually appropriated by the general assembly, subject to the provisions of section 25-16-104, shall remain available for the purposes of this article, and shall not revert or be transferred to the general fund of the state at the end of any fiscal year. If the fund balance exceeds ten million dollars in any state fiscal year and the fund balance is not projected to fall below ten million dollars within twenty-four months, the department shall evaluate the need to reduce fees to bring the balance of the fund below ten million dollars, and shall present the evaluation to the commission.

(b) (I) Notwithstanding any provision of paragraph (a) of this subsection (1) to the contrary, on March 27, 2002, the state treasurer shall deduct thirty million dollars from the hazardous substance response fund and transfer such sum to the general fund.

(II) In order to restore the amount transferred from the hazardous substance response fund pursuant to subparagraph (I) of this paragraph (b), moneys from the general fund shall be transferred to the hazardous substance response fund in accordance with section 24-75-217, C.R.S.

(c) Notwithstanding any provision of paragraph (a) of this subsection (1) to the contrary, on April 20, 2009, the state treasurer shall deduct seventeen million four hundred sixty-eight thousand five hundred seventeen dollars from the hazardous substance response fund and transfer such sum to the general fund.

(d) Notwithstanding any provision of paragraph (a) of this subsection (1) to the contrary, on June 1, 2009, the state treasurer shall deduct twelve million five hundred thousand dollars from the hazardous substance response fund and transfer such sum to the general fund.

(e) Notwithstanding any provision of paragraph (a) of this subsection (1) to the contrary, on July 1, 2009, the state treasurer shall deduct two million five hundred thousand dollars from the hazardous substance response fund and transfer such sum to the general fund.

(f) Notwithstanding any provision of paragraph (a) of this subsection (1) to the contrary, for the state fiscal year commencing July 1, 2010, the state treasurer shall make

a one-time transfer from the hazardous substance response fund to the solid waste management fund created in section 30-20-118, C.R.S., of up to four hundred thousand dollars, to be used in connection with the department's solid waste management activities.

(2) The general assembly may appropriate up to two and one-half percent of the moneys in the hazardous substance response fund for the department's costs of administration and its costs of collection of fees or civil penalties pursuant to section 25-16-104.5. In addition, the department is authorized, subject to appropriation by the general assembly, to use the moneys in the fund for the following purposes:

(a) To maintain an inventory of all sites and facilities at which hazardous substances have been disposed of in the state;

(b) To supply such state matching funds as may be needed to perform response actions at any site where action is being taken pursuant to the federal act;

(c) To provide any post-cleanup monitoring and maintenance required pursuant to the federal act;

(d) To provide for future response costs in connection with state activities at natural resource damage sites;

(e) To provide such state matching funds as may be needed to perform remediation activities at sites subject to remediation under the federal "Water Pollution Control Act", 33 U.S.C. sec. 1251 et seq., where such remediation activities would keep the site from being added to the national priorities list established pursuant to the federal act;

(f) To remediate sites:

(I) That do not have a responsible party that will perform a remediation;

(II) That have been determined to present a threat to human health or the environment; and

(III) Where the remediation will allow the redevelopment of the property for the public good;

(g) Repealed.

(2.5) Moneys in the hazardous substance response fund created pursuant to this section may be appropriated as follows:

(a) To finance any litigation arising under this part 1 or the federal act on behalf of the state;

(b) For the enforcement of court-approved remedies under the federal act out of moneys in the hazardous substance response fund received for future response costs, excluding fines, under the federal act.

(2.7) (Deleted by amendment, L. 2007, p. 1503, § 1, effective May 31, 2007.)

(3) Before the department supplies hazardous substance response fund money as state matching funds for a particular site pursuant to paragraph (b) of subsection (2) of this section, the executive director of the department shall first make a written determination that no potentially responsible party or parties have offered to implement a proper removal and remedial action plan at such site at their own expense, consistent with the national contingency plan established pursuant to the federal act.

(4) It is the intent of the general assembly that state matching moneys be appropriated solely from the hazardous substance response fund.

Editor's note: (1) Amendments to the introductory portion to subsection (2) by Senate Bill 90-176 and House Bill 90-1205 were harmonized.

(2) Subsection (2)(g)(IV) provided for the repeal of subsection (2)(g), effective July 1, 2009. (See L. 2008, p. 1634.)

Cross references: For the legislative declaration contained in the 1990 act amending this section, see section 1 of chapter 205, Session Laws of Colorado 1990. For the legislative declaration contained in the 2008 act enacting subsection (2)(g), see section 1 of chapter 347, Session Laws of Colorado 2008.

25-16-104.7. Natural resource damage recoveries - fund created - repeal. (1) Except as provided in subsection (3) of this section, any moneys recovered through litigation by the state acting as trustee of natural resources pursuant to the federal act, and any interest derived therefrom, shall be credited to the natural resource damage recovery fund, which fund is hereby created. Moneys in the fund shall be subject to annual appropriation by the general assembly and shall be used only for purposes authorized by the federal act, including the restoration, replacement, or acquisition of the equivalent of natural resources that have been injured, destroyed, or lost as a result of a release of a hazardous substance. In addition, the appropriation and use of moneys in the natural resource damage recovery fund shall be consistent with any judicial order, decree, or judgment governing the use of any particular recovery credited to the fund.

(2) Repealed.

(3) To the extent authorized by law, and consistent with a final judicial order or decree in any litigation by the state acting as trustee of natural resources pursuant to the federal act, any recovery of natural resource damage assessment or other costs, including litigation costs and fees, shall be credited to the fund from which such costs were originally paid.

(4) (a) Notwithstanding any other provision of law and except as provided in paragraph (b) of this subsection (4), on June 30, 2010, and each June 30 thereafter, the state treasurer shall:

(I) Deduct an amount equal to sixty-two and three-tenths percent of the interest earned on those moneys in the natural resource damage recovery fund that were received in the settlement reached in the case denominated *State of Colorado v. United States of America, Shell Oil Company, et al.*, Case No. 83 CV 2386, in the United States district court for the district of Colorado, and shall transfer such amount to the hazardous substance response fund created in section 25-16-104.6; and

(II) Deduct an amount equal to thirty-seven and seven-tenths percent of the interest earned on those moneys in the natural resource damage recovery fund that were received in the settlement reached in the case denominated *State of Colorado v. United States of America, Shell Oil Company, et al.*, Case No. 83 CV 2386, in the United States district court for the district of Colorado, and shall transfer such amount to the general fund.

(b) The state treasurer shall continue to make the transfer specified in subparagraph (I) of paragraph (a) of this subsection (4) until the total amount transferred to the hazardous substance response fund equals one million six hundred fifty-seven thousand five hundred seventy-seven dollars, at which time the state treasurer shall cease the transfers. The state treasurer shall continue to make the transfer specified in subparagraph (II) of paragraph (a) of this subsection (4) until the total amount transferred to the general fund reaches one million four thousand eight hundred seventy-three dollars, at which time the state treasurer shall cease the transfers.

(c) This subsection (4) is repealed, effective July 1, 2017.

PART 3**VOLUNTARY CLEAN-UP AND REDEVELOPMENT ACT**

25-16-301. Short title. This part 3 shall be known and may be cited as the "Voluntary Clean-up and Redevelopment Act".

Source: **L. 94:** Entire part added, p. 1948, § 1, effective July 1.

ANNOTATION

Law reviews. For article, "Brownfield Developments and Environmental Risk Assessments," see 25 Colo. Law. 53 (April 1996). For

article, "Remediation of Brownfields Under the Colorado Voluntary Cleanup and Redevelopment Act", see 78 Den. U. L. Rev. 1 (2000).

25-16-302. Legislative declaration. (1) The general assembly hereby declares that the purpose of this part 3 is to provide for the protection of human health and the environment and to foster the transfer, redevelopment, and reuse of facilities and sites that have been previously contaminated with hazardous substances or petroleum products. The general assembly further declares that this program is intended to permit and encourage voluntary clean-ups of contaminated property by providing persons interested in redeveloping existing industrial sites with a method of determining what the clean-up responsibilities will be when they plan the reuse of existing sites. It is the further intent of the general assembly that this voluntary program operate in such a way as to:

- (a) Eliminate impediments to the sale or redevelopment of previously contaminated property;
- (b) Encourage and facilitate prompt clean-up activities; and
- (c) Minimize administrative processes and costs.

Source: **L. 94:** Entire part added, p. 1948, § 1, effective July 1.

25-16-303. Voluntary clean-up and redevelopment program - general provisions - fees - access to property during reviews. (1) The program established in this part 3 shall be voluntary and may be initiated by:

(a) The submission to the department of an application for approval of a voluntary clean-up plan pursuant to section 25-16-304 for properties where remediation may be necessary to protect human health and the environment in light of the current or proposed use of the property; or

(b) The submission to the department of a no action petition pursuant to section 25-16-307 for properties where remediation is complete or not necessary to protect human health and the environment in light of the current or proposed use of the property.

(2) No person, financial institution, or other entity financing a commercial real estate transaction shall require a purchaser to participate in the voluntary program contained in this part 3, and no entity of Colorado state government regulating any person, financial institution, or other entity financing a commercial real estate transaction shall require evidence of participation in this program to be a component of standard real estate loan documentation.

(3) (a) The program contained in this part 3 is voluntary and may only be initiated by the owner of the subject real property.

(b) The provisions of this part 3 shall not apply to the following:

(I) Property that is listed or proposed for listing on the national priorities list of superfund sites established under the federal act;

(II) Property that is the subject of corrective action under orders or agreements issued pursuant to the provisions of part 3 of article 15 of this title or the federal "Resource Conservation and Recovery Act of 1976", as amended;

(III) Property that is subject to an order issued by or an agreement with the water quality control division pursuant to part 6 of article 8 of this title;

(IV) A facility which has or should have a permit or interim status pursuant to part 3 of article 15 of this title for the treatment, storage, or disposal of hazardous waste; or

(V) Property that is subject to the provisions of part 2 of article 20.5 of title 8, C.R.S.

(4) (a) Each application for approval of a voluntary clean-up plan and each petition for a no action determination shall be accompanied by a filing fee determined by the department at a level sufficient to cover the direct and indirect costs of the department in processing applications for approval of voluntary clean-up plans and petitions for no action under this part 3, but such filing fee shall not exceed two thousand dollars.

(b) (I) The department shall establish and publish hourly rates for review charges performed by the department in connection with applications for approval of voluntary clean-up plans and petitions for no action under this part 3. Within thirty days after the department's approval or denial of a voluntary clean-up plan or no action petition, the department shall bill an applicant or petitioner for all direct and indirect charges of review of applications and petitions under this part 3 in accordance with the hourly rate structure established pursuant to this subparagraph (I). The department's charges shall be billed against the application fee paid pursuant to this subsection (4) in accordance with subparagraph (II) of this paragraph (b).

(II) (A) If the department bills charges in an amount less than the application fee, the department shall return any unused balance to the applicant or petitioner after the department's final determination in the matter has been made.

(B) If the department bills charges that exceed the application fee, the department may bill the applicant or petitioner for direct and indirect charges that the department incurs in excess of the application fee up to a maximum of an additional one thousand dollars.

(C) If the department determines that review of the application cannot be completed for three thousand dollars or less due to the size or complexity of the site, the department shall contact the applicant or petitioner prior to incurring additional charges. The applicant or petitioner shall then be given the opportunity to either negotiate an agreement containing an upper limit on the department's charges and complete the review, or withdraw the application and receive a refund of the unbilled balance of fees already paid to the department. Agreements negotiated pursuant to this sub-subparagraph (C) shall be in writing and shall be signed by authorized representatives of the parties.

(D) The department shall make its best efforts to determine whether the application review will exceed three thousand dollars within the first ten hours of review or, if the applicant or petitioner requests a pre-application conference, within ten business days after such conference.

(c) All moneys collected pursuant to this subsection (4) shall be transmitted to the state treasurer, who shall credit the same to the hazardous substance response fund, created in section 25-16-104.6 (1). Moneys collected pursuant to this subsection (4) shall be subject to annual appropriation by the general assembly only to defray the direct and indirect costs of the department in processing voluntary clean-up plans and petitions for no action determination as specified in this part 3.

(5) During the time allocated for review of applications for voluntary clean-up plans and petitions for no action determination under this part 3, the department shall, upon reasonable notice to the property owner, have access at all reasonable times to the subject real property.

Source: L. 94: Entire part added, p. 1949, § 1, effective July 1. L. 95: (3)(b)(V) amended, p. 420, § 9, effective July 1. L. 2003: (4)(b) amended, p. 823, § 1, effective August 6.

25-16-304. Voluntary clean-up plan. (1) Any person who owns real property which has been contaminated with hazardous substances or petroleum products may submit an application for the approval of a voluntary clean-up plan to the department under the provisions of this section.

(2) A voluntary clean-up plan shall include:

(a) An environmental assessment of the real property which describes the contamination, if any, on the property and the risk the contamination currently poses to public health and the environment;

(b) A proposal, if needed, to remediate any contamination or condition which has or could lead to a release which poses an unacceptable risk to human health or the environment, considering the present and any differing proposed future use of the property and a timetable for implementing the proposal and for monitoring the site after the proposed measures are completed;

(c) A description of applicable promulgated state standards establishing acceptable concentrations of constituents in soils, surface water, or groundwater and, for constituents present at the site for which such state standards do not exist, a description of proposed clean-up levels and any current risk to human health or the environment based upon the current or proposed use of the site.

Source: L. 94: Entire part added, p. 1950, § 1, effective July 1.

25-16-305. Remediation alternatives. (1) Remediation alternatives shall be based on the actual risk to human health and the environment currently posed by contaminants on the real property, considering the following factors:

(a) The present or proposed uses of the site;

(b) The ability of the contaminants to move in a form and manner which would result in exposure to humans and the surrounding environment at levels which exceed applicable promulgated state standards or, in the absence of such standards, which represent an unacceptable risk to human health or the environment;

(c) The potential risks associated with proposed clean-up alternatives and the economic and technical feasibility and reliability of such alternatives.

Source: L. 94: Entire part added, p. 1951, § 1, effective July 1.

25-16-306. Approval of voluntary clean-up plan - time limits - contents of notice - conditions under which approval is void - expiration of approval. (1) (a) The department shall provide formal written notification that a voluntary clean-up plan has been

approved or disapproved within no more than forty-five days after a request by a property owner, unless the property owner and the department agree to an extension of the review to a date certain. Such review shall be limited to a review of the materials submitted by the applicant and documents or information readily available to the department. If the department fails to act on an application within the time limits specified in this subsection (1), the voluntary clean-up plan shall be deemed approved. If the department has received eight applications for review of voluntary clean-up plans or no action petitions in a calendar month, the department may notify any additional applicants in that month that their plan or petition will be considered the following month, and the forty-five day period for department review shall begin on the first day of the month following receipt of the plan or petition.

(b) The department shall approve a voluntary clean-up plan if, based on the information submitted by the property owner, the department concludes that the plan will:

(I) Attain a degree of clean-up and control of hazardous substances or petroleum products, or both, that complies with all promulgated applicable state requirements, regulations, criteria, or standards;

(II) For constituents not governed by subparagraph (I) of this paragraph (b), reduce concentrations such that the property does not present an unacceptable risk to human health or the environment based upon the property's current use and any future uses proposed by the property owner.

(c) In the event that a voluntary clean-up plan is not approved by the department, the department shall promptly provide the property owner with a written statement of the reasons for such denial. If the department disapproves a voluntary clean-up plan based upon the applicant's failure to submit the information required by section 25-16-304, the department shall notify the applicant of the specific information omitted by the applicant.

(d) The approval of a voluntary clean-up plan by the department applies only to conditions on the property and state standards that exist as of the time of submission of the application.

(2) Written notification by the department that a voluntary clean-up plan is approved shall contain the basis for the determination and the following statement:

Based upon the information provided by [insert name(s) of property owner(s)] concerning property located at [insert address], it is the opinion of the Colorado Department of Public Health and Environment that upon completion of the voluntary clean-up plan no further action is required to assure that this property, when used for the purposes identified in the voluntary clean-up plan, is protective of existing and proposed uses and does not pose an unacceptable risk to human health or the environment at the site.

(3) (a) Failure of a property owner to materially comply with the voluntary clean-up plan approved by the department pursuant to this section shall render the approval void.

(b) Submission of materially misleading information by the applicant in the context of the voluntary clean-up plan shall render the department approval void.

(4) (a) If a voluntary clean-up plan is not initiated within twelve months and completed within twenty-four months after approval by the department, such approval shall lapse; except that the department may grant an extension of the time limit for completion of the voluntary clean-up plan.

(b) A property owner desiring to implement a voluntary clean-up plan after the time limits permitted in paragraph (a) of this subsection (4) shall submit a written petition for reapplication accompanied by written certification of a qualified environmental professional that the conditions on the subject real property are substantially similar to those that existed at the time of the original approval.

(c) Reapplications pursuant to paragraph (b) of this subsection (4) shall be subject to limited review by the department, which shall complete such review within thirty days of receipt of a petition for reapplication; except that any reapplication that involves real property, the condition of which has substantially changed since approval of the original voluntary clean-up plan, shall be treated as a new application and shall be subject to all the requirements of this part 3.

(5) (a) Within forty-five days after the completion of the voluntary clean-up described in the voluntary clean-up plan approved by the department, the property owner shall provide to the department a certification from a qualified environmental professional that the plan has been fully implemented.

(b) If the owner is applying for the tax credit provided in section 39-22-526, C.R.S., the owner shall submit to the department the certification along with an application pursuant to section 25-16-303. The certification shall, in addition to certifying that the plan has been fully implemented, disclose the costs of implementation and include supporting documentation of those costs. The department shall then certify the accuracy of the costs and issue the property owner a certificate stating that the clean-up has occurred and the costs of such clean-up. The property owner may submit this certificate to the department of revenue to claim a tax credit under section 39-22-526 (2), C.R.S.

Source: L. 94: Entire part added, p. 1951, § 1, effective July 1. L. 2000: (5) amended, p. 891, § 1, effective January 1, 2001. L. 2008: (1)(b)(II) amended, p. 1907, § 105, effective August 5.

25-16-307. No action determinations. (1) A property owner may file with the department a written petition to request a no action determination pursuant to this section. The department shall provide formal written notification that a no action petition has been approved or disapproved within no more than forty-five days after a request by a property owner, unless the property owner and the department agree to an extension of the review to a date certain. Such review shall be limited to a review of the materials submitted by the applicant and documents or information readily available to the department. If the department fails to act on a petition within the time limits specified in this subsection (1), the no action petition shall be deemed approved. If the department has received eight applications for review of voluntary clean-up plans or no action petitions in a calendar month, the department may notify any additional applicants in that month that their plan or petition will be considered the following month, and the forty-five day period for department review shall begin on the first day of the month following receipt of the plan or petition.

(2) (a) The department shall issue a written determination approving a no action petition when:

(I) The environmental assessment described in section 25-16-308 performed by a qualified environmental professional indicates the existence of contamination which does not exceed applicable promulgated state standards or contamination which does not pose an unacceptable risk to human health and the environment; or

(II) The department finds that contamination or a release or threatened release of a hazardous substance or petroleum product originates from a source on adjacent or nearby real property if a person or entity responsible for such a source of contamination is or will be taking necessary action, if any, to address the contamination.

(b) The department shall provide formal written notification of a no action determination, which shall contain the basis for the determination and the following statement:

Based upon the information provided by [insert name(s) of property owner(s)] concerning property located at [insert address], it is the opinion of the Colorado department of public health and environment that no further action is required to assure that this property, when used for the purposes identified in the no action petition, is protective of existing and proposed uses and does not pose an unacceptable risk to human health or the environment at the site.

(c) The approval of a no action petition by the department applies only to conditions on the property and state standards that exist as of the time of submission of the petition.

(3) Submission of materially misleading information by the applicant in the context of a no action petition shall render the department approval void.

(4) In the event that a no action petition is not approved by the department, the department shall promptly provide the property owner with a written statement of the

reasons for such denial. If the department disapproves a no action petition based upon the applicant's failure to submit required information, the department shall notify the applicant of the specific information omitted.

Source: L. 94: Entire part added, p. 1953, § 1, effective July 1.

25-16-308. Environmental assessment - requirements. (1) The department may only accept environmental assessments under this part 3 that are prepared by a qualified environmental professional. A qualified environmental professional is a person with education, training, and experience in preparing environmental studies and assessments.

(2) The environmental assessment described in section 25-16-304 (2) (a) shall include the following information:

(a) The legal description of the site and a map identifying the location and size of the property;

(b) The physical characteristics of the site and areas contiguous to the site, including the location of any surface water bodies and groundwater aquifers;

(c) The location of any wells located on the site or on areas within a one-half mile radius of the site and a description of the use of those wells;

(d) The current and proposed use of on-site groundwater;

(e) The operational history of the site and the current use of areas contiguous to the site;

(f) The present and proposed uses of the site;

(g) Information concerning the nature and extent of any contamination and releases of hazardous substances or petroleum products which have occurred at the site including any impacts on areas contiguous to the site;

(h) Any sampling results or other data which characterizes the soil, groundwater, or surface water on the site; and

(i) A description of the human and environmental exposure to contamination at the site based upon the property's current use and any future use proposed by the property owner.

Source: L. 94: Entire part added, p. 1954, § 1, effective July 1.

25-16-309. Coordination with other laws. (1) Nothing in this part 3 shall absolve any person from obligations under any other law or regulation, including any requirement to obtain permits or approvals for work performed under a voluntary clean-up plan.

(2) If the United States environmental protection agency indicates that it is investigating a site which is the subject of an approved voluntary clean-up plan or no action petition, the department shall actively pursue a determination by the United States environmental protection agency that the property not be addressed under the federal act or, in the case of property being addressed through a voluntary clean-up plan, that no further federal action be taken with respect to the property at least until the voluntary clean-up plan is completely implemented.

Source: L. 94: Entire part added, p. 1955, § 1, effective July 1.

25-16-310. Enforceability of voluntary clean-up plans and no action determinations. (1) Voluntary clean-up plans are not enforceable against a property owner; except that, if the department can demonstrate that a property owner who initiated a voluntary clean-up under an approved plan has failed to fully and properly implement that plan, the department may require further action if the action is authorized by other laws or regulations of this state.

(2) Information provided by a property owner to support a voluntary clean-up plan or no action petition shall not provide the department with an independent basis to seek penalties from the property owner pursuant to state environmental statutes or regulations. If, pursuant to other state statutes or regulations, the department initiates an enforcement action against the property owner subsequent to the submission of a voluntary clean-up plan or no action petition regarding the contamination addressed in the plan or petition, the

voluntary disclosure of the information in the plan or petition shall be considered by the enforcing authority to reduce or eliminate any penalties assessed to the property owner.

25-16.5-101. Short title. This article shall be known and may be cited as the “Pollution Prevention Act of 1992”.

Source: L. 92: Entire article added, p. 1326, § 1, effective July 1.

25-16.5-102. Legislative declaration - state policy on pollution prevention.

- (1) The general assembly hereby finds and declares that:

(a) Colorado is blessed by natural beauty and an excellent quality of life, which should be maintained;

(b) The prevention of pollution will assist in maintaining quality of life in our state;

(c) There are resources and expertise in Colorado, including industry, government, and citizen groups, which can provide information and assistance to promote the cost-effective prevention of pollution;

(d) There are opportunities to reduce or prevent pollution through voluntary changes in procurement, production, operations, and use of raw materials throughout the state;

(e) The purpose of this article is to create a cooperative partnership among business, agriculture, the environmental community, and the department of public health and environment in which technical assistance, outreach, and education activities are coordinated and conducted to achieve pollution prevention and waste reduction and source reduction;

(f) The prevention of pollution is preferable to treatment and disposal of toxic substances and is the cornerstone of the future of environmental management.
- (2) The general assembly, therefore, determines and declares that the state policy of Colorado shall be that pollution prevention is the environmental management tool of first choice. The state policy shall be that: Pollution should be prevented or reduced at the source by means including the reduction in the production or use of hazardous substances; pollution that cannot be prevented should be recycled in an environmentally safe manner; pollution that cannot be prevented or recycled should be treated in an environmentally safe manner; and disposal or other releases into the environment should be employed only as a last resort and should be conducted in an environmentally safe manner.

Cross references: (1) For further provisions concerning the purchase of recycled paper and recycled products, see §§ 13-1-133, 24-103-207, and 30-11-109.5; for further provisions concerning the recycling of plastics and other materials and strategies for waste diversion of motor vehicle tires, see article 17 of this title.

(2) For the legislative declaration contained in the 1994 act amending subsection (1)(e), see section 1 of chapter 345, Session Laws of Colorado 1994.

25-16.5-103. Definitions. As used in this article, unless the context otherwise requires:

(1) “Advisory board” means the pollution prevention advisory board created in section 25-16.5-104.

(2) “By-product” means all toxic or hazardous substances, other than a product, that are generated from production processes prior to recycling, handling, treatment, disposal, or release.

(3) “Department” means the department of public health and environment.

(4) “Federal act” means the federal “Emergency Planning and Community Right-to-know Act of 1986”, 42 U.S.C. sec. 11001 et seq., Title III of the federal “Superfund Amendments and Reauthorization Act of 1986”, Pub.L. 99-499, as amended.

(5) “Hazardous substance” or “toxic substance” means those chemicals defined as hazardous substances under section 313 of the federal “Superfund Amendments and Reauthorization Act of 1986” (SARA Title III) and sections 101(14) and 102 of the federal “Comprehensive Environmental Response, Compensation, and Liability Act” (CERCLA), as amended.

(6) “Pollution prevention” means any practice which reduces the use of any hazardous substance or amount of any pollutant or contaminant prior to recycling, treatment, or disposal, and reduces the hazards to public health and the environment associated with the use or release or both of such substances, pollutants, or contaminants.

(7) “Production process” means a process, line, method, activity, or technique, or a series or combinations of such processes, necessary to and integral to making a product or providing a service, and does not include waste management activities.

(8) “Small and medium-sized business” means a business which has five hundred or fewer employees and which has gross annual sales of seventy-five million dollars or less.

(9) “Toxics use reduction” means changes in production processes, products, or raw materials that reduce, avoid, or eliminate the use of toxic or hazardous substances and the generation of hazardous by-products per unit of production, so as to reduce the overall risks to the health of workers, consumers, or the environment without creating new risks of concern.

(10) “Waste management” means the recycling, treatment, handling, transfer, controlled release, cleanup, and disposal of waste, and the containment of accidents and spills.

(11) “Waste reduction” and “source reduction” mean any practice which reduces the amount of any hazardous substances, pollutant, or contaminant entering any waste stream or otherwise being released into the environment (including fugitive emissions) prior to recycling, treatment, or disposal, and reduces the hazards to public health and the environment associated with the release of such substances, pollutants, or contaminants. The terms include equipment or technology modifications, process or procedure modifications, reformulation or redesign of products, substitution of raw materials, and improvements in housekeeping, maintenance, training, or inventory control. The term “source reduction” does not include any practice which alters the physical, chemical, or biological characteristics or the volume of a hazardous substance, pollutant, or contaminant through a process or activity which itself is not integral to and necessary for the production of a product or the providing of a service.

Cross references: For the legislative declaration contained in the 1994 act amending subsection (3), see section 1 of chapter 345, Session Laws of Colorado 1994.

25-16.5-104. Pollution prevention advisory board - creation. (1) There is hereby created in the department of public health and environment a pollution prevention advisory board for the purposes of providing overall policy guidance, coordination, and advice to the department on pollution prevention activities and for carrying out the duties specified in section 25-16.5-105. The advisory board shall consist of fifteen members to be appointed by the governor. The members appointed shall include representatives of businesses, agriculture, environmental groups, academic institutions of higher education, community groups, and local governments. In addition, the governor shall appoint two representatives from state agencies to serve as ex-officio members of the advisory board, with at least one of such appointees to be from the department of public health and environment. In making the appointments, the governor shall provide for geographic diversity. The board shall elect its own chairperson. Members of the advisory board shall serve without compensation.

(2) Repealed.

Source: L. 92: Entire article added, p. 1328, § 1, effective July 1. L. 95: (2) repealed, p. 116, § 3, effective March 31; (2) repealed, p. 181, § 2, effective April 7. L. 2005: (1) amended, p. 287, § 34, effective August 8.

25-16.5-105. Powers and duties of advisory board. (1) The advisory board shall have the following powers and duties:

(a) To provide overall policy guidance, coordination, and advice in the development and implementation of the pollution prevention activities of the department;

(b) To support nonregulatory public and private efforts that promote the prevention of pollution in this state;

(c) To develop pollution prevention goals and objectives;

(d) To review environmental regulatory programs, laws, and policies to identify pollution prevention opportunities and incentives;

(e) To provide direction for pollution prevention outreach, education, training, and technical assistance programs;

(f) Repealed.

(g) To contract with a provider or providers, which may include the department, to provide pollution prevention activities as described in section 25-16.5-106;

(h) To award grants from the recycling resources economic opportunity fund, referred to in this section as the “fund”, in accordance with the requirements of section 25-16.5-106.7 and to develop criteria for awarding grants from the fund in accordance with the provisions of section 25-16.5-106.7 (3) (b). Grant awards shall be made, and the criteria for awarding grants shall be developed, in consultation with the pollution prevention advisory board assistance committee created in section 25-16.5-105.5 (2), referred to in this section as the “committee”.

(i) To make loans from the fund in accordance with the provisions of section 25-16.5-106.7 (5);

(j) To receive and expend gifts, grants, and bequests from any source, public or private, specifically including state and federal moneys and other available moneys, to fund grants made available from the fund in accordance with the provisions of section 25-16.5-106.7;

(j.5) (Deleted by amendment, L. 2010, (HB 10-1018), ch. 421, p. 2163, § 3, effective June 10, 2010.)

(k) (1) In consultation with the committee, to develop a formula for paying a rebate to any local government or to any nonprofit or for-profit entity that recycles any commodity. The rebate authorized by this paragraph (k) shall be paid on commodities recycled on a per-ton basis with differential rates for different commodities. For any one state fiscal year, the amount rebated pursuant to this paragraph (k) shall equal one-fourth of the amount of moneys collected in the fund in the immediately previous state fiscal year. Any rebate shall be paid out of moneys collected:

(A) Repealed.

(B) From the user fee imposed by section 25-16-104.5 (3.9) (a) to fund the recycling resources economic opportunity program created in section 25-16.5-106.7.

(II) Applications to the advisory board for any rebate may be submitted after the last day of the month following the end of each calendar quarter for recycling activities undertaken in such calendar quarter, beginning with the calendar quarter ending on December 31, 2007; except that the period for the first rebate payment shall cover July 1, 2007, through December 31, 2007.

(l) To make recommendations, as requested, on policy matters related to sustainable resource and discarded materials management; and

(m) (I) In accordance with the provisions of subparagraph (II) of this paragraph (m), to submit an annual report to the department of local affairs, the department, the Colorado energy office created in section 24-38.5-101, C.R.S., and the standing committee of reference in each house of the general assembly exercising jurisdiction over matters concerning public health and the environment.

(II) The annual report required by subparagraph (I) of this paragraph (m) shall include a calculation of the proportion of solid waste generated in the state in the previous year that was diverted to other uses and the number of jobs created and any other economic impacts resulting from grants made from the fund by the advisory board pursuant to paragraph (h) of this subsection (1) and section 25-16.5-106.7 (3).

(2) (Deleted by amendment, L. 2010, (HB 10-1018), ch. 421, p. 2163, § 3, effective June 10, 2010.)

Editor's note: (1) Subsection (2) was formerly numbered as § 23-1-106.5 (9).

(2) Subsection (1)(k)(I)(A) provided for the repeal of subsection (1)(k)(I)(A), effective July 1, 2011. (See L. 2010, p. 2163.)

Cross references: For the legislative declaration contained in the 1996 act amending this section, see section 1 of chapter 237, Session Laws of Colorado 1996. For the legislative declaration contained in the 2007 act enacting subsections (1)(h), (1)(i), (1)(j), (1)(k), (1)(l), and (1)(m), see section 2 of chapter 278, Session Laws of Colorado 2007.

25-16.5-105.5. Pollution prevention advisory board assistance committee - appointments - membership - definitions. (1) As used in this section, unless the context otherwise requires:

(a) "Committee" means the pollution prevention advisory board assistance committee created in subsection (2) of this section.

(b) "Fund" means the recycling resources economic opportunity fund created in section 25-16.5-106.5 (1).

(2) (a) There is hereby created in the department the committee that shall assist the advisory board in undertaking the powers and duties given to the board as specified in this article.

(b) The committee shall consist of thirteen members as described in paragraph (c) of this subsection (2), each of whom shall be appointed by the executive director of the department no later than September 1, 2007.

(c) The members appointed to the committee shall include representatives of industry, nonprofit and community organizations, state agencies, and local governments in accordance with the following:

(I) One member of the committee shall be a representative of the department.

(II) One member of the committee shall be a representative of the Colorado office of economic development created in section 24-48.5-101 (1), C.R.S.

(III) One member of the committee shall be a representative of the Colorado energy office created in section 24-38.5-101, C.R.S.

(IV) Two members of the committee shall represent counties that operate county solid waste or recycling facilities, one member of which shall represent a county that is predominately rural in character and the other of which shall represent a county that is predominately urban in character.

(V) Two members of the committee shall represent municipalities that operate municipal solid waste or recycling facilities, one member of which shall represent a municipality that is located in a county that is predominately rural in character and the other of which shall represent a municipality that is located in a county that is predominately urban in character.

(VI) The remaining six members of the committee shall be balanced equally to the extent practicable from among representatives of nonprofit and for-profit entities engaged in recycling or composting through the collection of recyclable material, the manufacturing of products containing recycled material, the marketing of products manufactured with recycling material, or other entities whose mission is directed to advance and promote recycling and composting through educational programs, technical assistance, research, or community outreach.

(d) The terms of members of the committee shall be for four years; except that the initial terms of seven of the members of the committee shall, in the discretion of the executive director of the department, be for two years. All appointments made following the expiration of the initial two-year terms shall be for four years. Members of the committee shall serve no more than three consecutive four-year terms on the committee. No more than six members of the committee shall be from the same political party.

(e) Any vacancy on the committee shall be filled for the unexpired term in the same manner as the original appointment. Any member of the committee may be removed by the executive director of the department at any time and for any reason.

(f) The committee shall elect a chairperson and vice-chairperson by majority vote of the members. The members of the committee shall serve without compensation; except that members of the committee shall receive a per diem amount of ninety-nine dollars for each day actually engaged in the duties of the committee and shall be reimbursed for necessary traveling and other reasonable expenses incurred in the performance of their official duties.

(3) The committee shall have the following powers and duties:

(a) To make recommendations to the advisory board in connection with the awarding of grants by the board from the fund pursuant to section 25-16.5-105 (1) (h) and to make recommendations to the board on the development of criteria to guide the board in making decisions concerning the awarding of grants pursuant to section 25-16.5-106.7 (3) (b);

(b) To make recommendations to the advisory board in connection with the making of loans by the board from the fund pursuant to section 25-16.5-105 (1) (i);

(c) To make recommendations to the advisory board in connection with the receipt or expenditure of gifts, grants, and bequests by the board pursuant to section 25-16.5-105 (1) (j);

(d) To make recommendations to the advisory board, as requested, on policy matters related to sustainable resource and discarded materials management;

(e) To make recommendations to the advisory board on the formula created for paying rebates to entities recycling commodities pursuant to section 25-16.5-105 (1) (k); and

(f) To make additional recommendations to the advisory board on such other matters as will further the purposes of this article.

Cross references: For the legislative declaration contained in the 2007 act enacting this section, see section 2 of chapter 278, Session Laws of Colorado 2007.

25-16.5-106. Pollution prevention activities program. (1) The advisory board shall contract with a provider or providers, which may include the department, to develop a pollution prevention activities program. The pollution prevention activities program shall be carried out to make pollution prevention the environmental management tool of first choice, and the provider which provides the services pursuant to contract shall have the following powers and duties:

(a) To provide education and training about pollution prevention to businesses that use or produce hazardous substances and their employees, local and state governments, and the general public. Such education and training may include pollution prevention techniques, total cost analysis of toxics use and pollution prevention techniques, economic evaluation methods of such techniques, and management and employee involvement and public involvement.

(b) To expand the pollution prevention technical library and resource center providing access to information on new products, production process techniques, and raw materials for production related to pollution prevention, technical reports, fact-sheets, case studies, articles, and other reference materials;

(c) To collect and evaluate information on toxics use reduction and waste reduction and the amount of hazardous substances used in Colorado as the basis for establishing pollution prevention priorities and measuring progress in achieving pollution prevention program objectives;

(d) To conduct an evaluation of pollution prevention activities in this state analyzing existing data to determine what priority should be given to different hazardous substances and production processes;

(e) To prepare a report with data on the amount of hazardous substances, pollutants, and contaminants used in Colorado and the amount of pollution released in Colorado prior to recycling, treatment, or disposal. Such report shall be developed from existing sources and updated every two years and used as a tool to measure the success of the pollution prevention activities program and the technical assistance program in Colorado.

(f) To develop other methods to measure the success of pollution prevention projects at facilities. Methods shall be developed to measure the use of hazardous substances for production processes and the amount of waste prior to waste management practices.

(g) To cooperate with the advisory board in the performance of duties assigned to the board, including the review of environmental regulatory programs, laws, and policies for identifying pollution prevention opportunities and incentives;

(h) To coordinate with any of the academic institutions or other recipients of grants under the technical assistance program pursuant to section 25-16.5-107.

Source: L. 92: Entire article added, p. 1329, § 1, effective July 1.

25-16.5-106.5. Recycling resources economic opportunity fund - creation - repeal.

(1) (a) The recycling resources economic opportunity fund is hereby created in the state treasury, referred to in this section as the "fund". The fund shall consist of:

(I) (A) Repealed.

(B) Effective July 1, 2011, moneys collected for the fund pursuant to section 25-16-104.5 (3.9) (a) and credited to the fund in accordance with section 25-16-104.5 (3.9) (b).

(II) Any moneys appropriated to the fund by the general assembly; and

(III) All other moneys that may be available to the fund, including moneys made available from gifts, grants, or bequests.

(b) All interest derived from the deposit of moneys in the fund shall be credited to the fund. At the end of any fiscal year, all unexpended and unencumbered moneys in the fund shall remain in the fund and shall not be credited or transferred to the general fund or any other fund.

(2) Any moneys generated pursuant to subsection (1) of this section shall be annually appropriated to the department for allocation to the advisory board for the purpose of funding the recycling resources economic opportunity activities authorized by section 25-16.5-106.7, as well as any administrative costs associated therewith, including without

limitation the grants authorized to be made under section 25-16.5-106.7 (3) and grant program oversight authorized by section 25-16.5-105.5 (3).

(3) Moneys in the fund shall be used to pay for administrative costs incurred by the department in implementing the provisions of House Bill 07-1288 as enacted by the first regular session of the sixty-sixth general assembly.

(4) Except as otherwise provided in this section, no moneys in the fund shall be used for the administration, implementation, or enforcement of any state law or rule.

(4.5) Notwithstanding any provision of this section to the contrary, on April 20, 2009, the state treasurer shall deduct one million five hundred thousand dollars from the recycling resources economic opportunity fund and transfer such sum to the general fund.

(5) This section is repealed, effective July 1, 2017.

Source: **L. 2007:** Entire section added, p. 1138, § 5, effective July 1. **L. 2008:** (2) amended, p. 914, § 1, effective May 20. **L. 2009:** (4.5) added, (SB 09-208), ch. 149, p. 625, § 25, effective April 20. **L. 2010:** (1) and (2) amended, (HB 10-1018), ch. 421, p. 2164, § 4, effective June 10; (1) and (2) amended, (HB 10-1018), ch. 421, p. 2181, § 16, effective July 1; (1), (2), and (5) amended, (HB 10-1052), ch. 84, p. 281, § 3, effective July 1.

Editor's note: Subsection (1)(a)(I)(A) provided for the repeal of subsection (1)(a)(I)(A), effective July 1, 2011. (See L. 2010, p. 2181.)

Cross references: For the legislative declaration contained in the 2007 act enacting this section, see section 2 of chapter 278, Session Laws of Colorado 2007. For the legislative declaration in the 2010 act amending subsections (1), (2), and (5), see section 1 of chapter 84, Session Laws of Colorado 2010.

25-16.5-106.7. Recycling resources economic opportunity program - grants - loans - definitions - repeal. (1) As used in this section, unless the context otherwise requires:

(a) "Committee" means the pollution prevention advisory board assistance committee created in section 25-16.5-105.5.

(b) "Fund" means the recycling resources economic opportunity fund created in section 25-16.5-106.5 (1).

(c) "Local government" means a county, home rule or statutory city, town, territorial charter city, or city and county.

(2) There is hereby created the recycling resources economic opportunity program. In connection with the program, the advisory board shall accept proposals from local governments requesting an award of a grant from moneys made available under the fund. Subject to the requirements of this subsection (2), the board may award grants under this section to nonprofit or for-profit organizations or other entities where the application submitted by the organization or entity applying for grant moneys has been approved by the local government within the boundaries of which the organization or entity is located. In awarding grants pursuant to this section, the board may consider proposals that have not been approved by a local government if the entity submitting the proposal provides documentation that the proposal will be beneficial to the community that would be affected by the grant award, the award otherwise satisfies the criteria specified in paragraph (b) of subsection (3) of this section, and the grant is made available for one of the purposes specified in subsection (4) of this section.

(3) (a) The advisory board may award grants from the fund to public and private entities, both nonprofit and for-profit, including without limitation the department and solid waste disposal sites and facilities and their local affiliates that collect the solid waste user fee pursuant to section 25-16-104.5 (3.9).

(b) (I) In consultation with the committee, the advisory board shall develop criteria to guide it in making decisions concerning the awarding of grants to implement the purposes described in subsection (4) of this section. Such criteria shall include without limitation:

(A) The amount of moneys raised for the fund by the region of the state in which the applicant's project is located;

- (B) The needs of the community submitting the proposal;
 - (C) The feasibility of the proposal and sustainability of the project that is the subject of the proposal;
 - (D) The economic and environmental benefits that would accrue from the proposal, including the creation of markets for recycled materials;
 - (E) Measurable results; and
 - (F) Adverse impacts on existing businesses.
- (II) In developing the criteria specified in subparagraph (I) of this paragraph (b), the advisory board shall determine priorities for the grants in consultation with the committee.
- (4) Moneys may be awarded from the fund to finance grants made available pursuant to subsection (2) of this section for the following purposes:
- (a) Recycling, beneficial use, and reuse;
 - (b) Public-private partnerships that promote waste diversion, recycling, recycling markets, the beneficial use of discarded materials, or other recycling-related uses;
 - (c) Developing or expanding local economic infrastructure for the sustainable use of discarded materials;
 - (d) Providing local incentives to develop or expand markets for recycled products;
 - (e) Developing or expanding local recycling infrastructure;
 - (f) Undertaking sustainable resource education programs;
 - (g) Developing or implementing sustainable resource plans or programs for the use or collection of organic matter, household hazardous waste, electronic scrap material, or other discarded materials;
 - (h) Providing assistance in connection with the development or improvement of integrated waste management plans by local governments;
 - (i) Cleaning up illegal waste dumping; and
 - (j) Reducing waste tire stockpiles.
- (5) In addition to the purposes specified in subsection (4) of this section, the advisory board may also loan moneys from the fund to public and private entities, both nonprofit and for-profit, including without limitation the department and solid waste disposal sites and facilities and their local affiliates that collect the solid waste user fee pursuant to section 25-16-104.5 (3.9). Moneys may be loaned by the board under this subsection (5) to fund any of the purposes for which the board may award moneys in grants as specified in subsection (4) of this section. Notwithstanding any other provision of this section, for any given state fiscal year, the amount of moneys to be made available in loans pursuant to this subsection (5) shall not be more than ten percent of the amount of moneys allocated to the fund during the immediately previous state fiscal year.
- (6) Any grant award or loan made pursuant to this section shall be made complete by means of a contract entered into between the department and the grant or loan recipient that shall specify the conditions for the grant or loan and the requirements and responsibilities of the grant or loan recipient, as applicable.
- (7) No grant or loan may be made pursuant to this section until on or after July 1, 2008.
- (8) This section is repealed, effective July 1, 2017.

Source: **L. 2007:** Entire section added, p. 1139, § 5, effective July 1. **L. 2010:** (8) amended, (HB 10-1052), ch. 84, p. 282, § 4, effective July 1.

Cross references: For the legislative declaration contained in the 2007 act enacting this section, see section 2 of chapter 278, Session Laws of Colorado 2007. For the legislative declaration in the 2010 act amending subsection (8), see section 1 of chapter 84, Session Laws of Colorado 2010.

25-16.5-107. Technical assistance program. (1) The advisory board shall develop guidelines on how to allocate the portion of and shall select grant recipients for the moneys in the pollution prevention fund created in section 25-16.5-109 which is available under said section for making grants for the purpose of providing technical assistance to small and medium-sized businesses and to other generators or users of hazardous and toxic substances. Grants may be made to academic institutions, trade associations, and environmental or engineering firms with knowledge of pollution prevention techniques and processes. The

advisory board shall develop guidelines for awarding grants to provide technical assistance. In developing such guidelines, the advisory board shall determine priorities for such assistance, including an emphasis on reducing the production processes that use the largest amounts of hazardous substances and an emphasis on assisting small businesses. The advisory board shall select the grant recipients and shall determine the amount of the grant awarded to each recipient. The department shall then award the grants pursuant to this section through a contract entered into between the department and the grant recipient which details the conditions of the grant and the requirements and responsibilities of the grant recipient.

(2) For the purposes of this article, “technical assistance program” means the following types of activities:

(a) Providing technical assistance and outreach on pollution prevention to small and medium-sized businesses and to other generators or users of toxic substances;

(b) Providing on-site toxics use reduction and waste reduction assistance to small and medium-sized businesses and to other generators or users of toxic substances;

(c) Providing to businesses, trade associations, public entities, and to other generators or users of toxic substances information on the annual toxics use reduction and waste reduction that could be achieved by using pollution prevention techniques, the annual savings and implementation costs of such techniques, and the period of time necessary to recoup the money spent to implement the pollution prevention techniques;

(d) Providing on-site pollution prevention assessments of industrial plant production processes and waste generation, upon request of the affected businesses.

(3) Technical assistance programs shall be offered to small and medium-sized businesses and to public generators or users of toxic substances without charge.

(4) It is the intent of the general assembly that the technical assistance program not be used to document violations of or used in the enforcement of state laws or regulations.

Source: L. 92: Entire article added, p. 1331, § 1, effective July 1.

25-16.5-108. Pollution prevention fees. (1) (a) The department shall charge and collect pollution prevention fees from any reporting facility which is required to file a report with the department pursuant to the federal act as follows:

(I) Facilities required to report pursuant to section 11002 of the federal act shall pay an annual fee not to exceed ten dollars per reporting facility.

(II) Each facility required to report pursuant to section 11022 of the federal act shall be required to pay an annual fee not to exceed ten dollars for every hazardous substance located at the facility in excess of the thresholds adopted by the United States environmental protection agency.

(III) Each facility required to report pursuant to section 11023 of the federal act shall pay an annual fee not to exceed twenty-five dollars for every extremely hazardous substance located at the facility in excess of the thresholds adopted by the United States environmental protection agency.

(a.5) The department shall charge and collect pollution prevention fees from any federal agency from which, pursuant to federal Executive Order No. 12856, as published in 58 Fed. Reg. 41981 (1993), the department has the authority to collect pollution prevention fees.

(b) Any retail motor fuel outlet which is required to report pursuant to the federal act shall pay one-half of the fee set forth in paragraph (a) of this subsection (1).

(c) Any single reporting organization which owns or operates multiple reporting facilities shall not be required to pay more than a total of one thousand dollars for all pollution prevention fees required by this section.

(d) Agricultural businesses which are required to report under the federal act are not required to pay the pollution prevention fees set forth in this subsection (1).

(e) It is the intent of the general assembly that the department of public health and environment collect all fees from any reporting facility required to report under the federal act, including the pollution prevention fee, in a single, centralized billing procedure.

(2) Any moneys collected pursuant to subsection (1) of this section shall be transmitted to the treasurer and credited to the pollution prevention fund created in section 25-16.5-109.

(3) (Deleted by amendment, L. 95, p. 182, § 4, effective April 7, 1995.)

Cross references: For the legislative declaration contained in the 1994 act amending subsection (1)(e), see section 1 of chapter 345, Session Laws of Colorado 1994.

25-16.5-109. Pollution prevention fund - created. (1) There is hereby created in the state treasury the pollution prevention fund. Any moneys collected pursuant to section 25-16.5-108 shall be credited to such fund. In accordance with section 24-36-114, C.R.S., all interest derived from the deposit and investment of moneys in the fund shall be credited to the general fund. At the end of any fiscal year, all unexpended and unencumbered moneys in the fund shall remain therein and shall not be credited or transferred to the general fund or any other fund.

(2) The moneys generated from the pollution prevention fees pursuant to section 25-16.5-108 shall be annually appropriated to the department of public health and environment for allocation to the pollution prevention advisory board created in section 25-16.5-104 for contracting for pollution prevention activities programs as set forth in section 25-16.5-106 and for the purpose of making grants under the technical assistance program as set forth in section 25-16.5-107 and as directed by the pollution prevention advisory board created in section 25-16.5-104. None of the moneys in the fund shall be used for the enforcement of any state law or regulation.

PART 1

RECYCLING OF PRODUCTS

25-17-101. Legislative declaration. (1) The general assembly hereby finds and declares that the recycling of materials and products is a matter of statewide concern and that such recycling should be promoted in cooperation with units of local government in light of its economic and environmental benefits. The general assembly further finds that the recycling of materials and products will decrease the amount of materials and products which is disposed of in landfills and will also spur economic development in the recycling industry in Colorado. It is the intent of the general assembly in adopting this act to encourage the development of the recycling industry and the development of markets for recycled materials and products.

- (2) The general assembly further finds and declares that:
- (a) Proper management of waste in all forms is necessary to protect the public health and environment for the citizens of this state;
 - (b) The diversion of waste from the waste stream by encouraging available, affordable, and innovative alternatives to disposal is a key strategy in any state-local waste management policy;
 - (c) A comprehensive, cooperative, and integrated approach to waste management is necessary to achieve the goal of diverting waste from the municipal waste stream;
 - (d) Such an approach should foster public and private initiatives to reduce and divert waste through: Source reductions; recycling, including the secondary use of waste material or products in all forms; composting as a recycling option for materials such as yard debris, food scraps, and soiled or otherwise unrecyclable paper which are not recovered using traditional recycling methods; and other waste management strategies and disposal alternatives; and
 - (e) The state’s waste management policies should include a combination of tax incentives, procurement policies, and economic development incentives: To encourage government entities and businesses and individuals to reduce sources of waste, recycle, and compost; to encourage the development of the recycling industry; and to encourage the development of markets for reusable, recycled, and composted products and materials.

25-17-102. Definitions. As used in this article, unless the context otherwise requires:

(1) “Cathode ray tube product” means an item of scientific equipment or a consumer electronic product that contains a glass tube used to provide an electronic visual display. The term includes, but is not limited to, televisions, computer monitors, and oscilloscopes.

(1.5) "Label" means one of the code labels described in section 25-17-103 that is molded into the bottom of a plastic container.

(2) "Plastic" means any material made of polymeric organic compounds and additives that can be shaped by flow.

(3) "Plastic bottle" means a plastic container that has a neck that is smaller than the body of the container, accepts a screw-type, snap-cap, or other closure, and has a capacity of sixteen fluid ounces or more but less than five gallons.

(4) "Rigid plastic container" means any formed or molded container other than a bottle, intended for single use, composed predominantly of plastic resin, and having a relatively inflexible finite shape or form with a capacity of eight ounces or more but less than five gallons.

Source: L. 89: Entire article added, p. 1180, § 1, effective July 1. **L. 2001:** (1) amended and (1.5) added, p. 1470, § 1, effective June 6.

25-17-103. Labeling and coding. On or after July 1, 1992, no person shall distribute, sell, or offer for sale in this state any plastic bottle or rigid plastic container manufactured on or after July 1, 1992, unless the product is labeled with a code indicating the plastic resin used to produce the bottle or container. Plastic bottles or rigid plastic containers with labels and basecups of a different material shall be coded by their basic material. Such code shall consist of a number placed within a triangle of arrows and letters placed below the triangle of arrows. The triangle shall be equilateral, formed by three arrows with the apex of each point of the triangle at the midpoint of each arrow, rounded with a short radius. The arrowhead of each arrow shall be at the midpoint of each side of the arrow. The triangle, formed by the three arrows curved at their midpoints, shall depict a clockwise path around the code number. The numbers and letters used shall be as follows: 1=PETE (polyethylene terephthalate), 2=HDPE (high density polyethylene), 3=V (vinyl), 4=LDPE (low density polyethylene), 5=PP (polypropylene), 6=PS (polystyrene), 7=OTHER (includes multi-layer).

25-17-104. Local government preemption. No unit of local government shall require or prohibit the use or sale of specific types of plastic materials or products or restrict or mandate containers, packaging, or labeling for any consumer products.

Source: L. 89: Entire article added, p. 1181, § 1, effective July 1. **L. 93:** Entire section amended, p. 2134, § 7, effective June 12.

25-17-105. Pilot program - recycled plastic and products - rules. (1) The executive director of the department of local affairs may establish a pilot program for the purpose of encouraging private industry to engage in the research and development of new technologies for recycling plastics. The executive director of the department of local affairs may cooperate with any other entity of state government, including institutions of higher education, in developing the pilot program.

(2) The executive director of the department of local affairs may make grants or loans to private industry for the research and development authorized by subsection (1) of this section. Said grants and loans shall be made only to private industries for location or expansion in Colorado.

(3) The executive director of the department of local affairs is hereby authorized to accept any grants or loans from any public or private source for the purpose of encouraging plastics recycling. None of such moneys shall be used for overhead or administrative costs of the department.

(4) The executive director of the department of local affairs may establish a pilot program for the purpose of encouraging private enterprises and state and local government entities to develop and implement waste diversion strategies or programs. The executive

director of such department is hereby authorized to accept grants or loans from any public or private source for the purpose of implementing this section. The executive director may make grants or loans from such moneys to such entities for the development of waste diversion strategies.

Source: L. 89: Entire article added, p. 1181, § 1, effective July 1. **L. 93:** (4) added, p. 2134, § 8, effective June 12.

25-17-105.5. Pilot program - cathode ray tube product recycling. (1) The executive director of the department of public health and environment shall establish a cathode ray tube recycling pilot program, only if the department has received a grant, gift, or bequest pursuant to subsection (3) of this section that is sufficient to do so, for the purpose of:

(a) Minimizing the number of cathode ray tube products that are disposed of within Colorado, including through public education regarding:

- (I) Why the disposal of cathode ray tube products in landfills should be minimized; and
- (II) How to recycle cathode ray tube products.

(b) Developing local markets and business opportunities based on the recycling and reuse of cathode ray tube products;

(c) Encouraging private industry and public-private partnerships to undertake research and development of new technologies for the recycling, waste minimization, and disposal of cathode ray tube products;

(d) Providing businesses and individuals with easy access to cathode ray tube product recycling centers; and

(e) Leveraging public support of cathode ray tube recycling with private grants and in-kind contributions to the pilot program.

(2) The executive director of the department of public health and environment may make grants or loans to private industry and public-private partnerships for the purposes specified in subsection (1) of this section from any moneys in the cathode ray tube recycling fund, which fund is hereby created; except that said grants and loans shall be made only to entities that are located, or will be located, in Colorado.

(3) The executive director of the department of public health and environment is hereby authorized to request, receive, and expend grants, gifts, and bequests, specifically including federal moneys, and other moneys available from any public or private source, excluding appropriations from the general fund, for the purposes specified in subsection (1) of this section, subject to annual appropriation by the general assembly. The executive director shall transmit such moneys to the state treasurer, who shall credit the moneys to the cathode ray tube recycling fund.

(4) The general assembly shall make annual appropriations out of the cathode ray tube recycling fund to the department of public health and environment in an amount equal to the department's direct administrative costs in administering the cathode ray tube recycling pilot program and for purposes consistent with subsections (1) and (2) of this section, including developing and distributing public education materials.

(5) Notwithstanding any provision of this section to the contrary, on April 20, 2009, the state treasurer shall transfer the balance of moneys in the cathode ray tube recycling fund to the general fund.

Source: L. 2009: Entire section added, (HB 09-1282), ch. 380, p. 2068, § 1, effective June 1.

Editor's note: Subsection (4) provided for the repeal of this section, effective July 1, 2010. (See L. 2009, p. 2068.)

PART 2

STRATEGIES FOR MOTOR VEHICLE WASTE TIRES

25-17-201. Legislative declaration. The general assembly hereby finds and declares that there is a special need to address problems created by the disposal of waste tires in order to protect the environment and the public health. To that end, it is the intent of the general assembly in adopting this part 2 to encourage the development of techniques for resource recovery, recycling, and reuse of waste tires, to provide for the cleanup of waste tires that have been disposed of illegally, and to study the feasibility and cost-efficiency of creating transportation grants for the purpose of transporting waste tires to other end users.

Source: L. 93: Entire part added, p. 2134, § 10, effective June 12. **L. 95:** Entire section amended, p. 1113, § 1, effective May 31.

25-17-202. Waste tire fees - definitions - repeal. (1) As used in this part 2, unless the context otherwise requires:

(a) "Commission" means the solid and hazardous waste commission created in section 25-15-302.

(b) "Department" means the department of public health and environment.

(c) "End user" means a person who uses a tire-derived product for a commercial or industrial purpose.

(d) "Processor" means a person who processes waste tires in Colorado for recycling or beneficial use.

(e) "Public project" means:

(I) Any publicly funded contract entered into by a governmental body of the executive branch of this state that is subject to the "Procurement Code", articles 101 to 112 of title 24, C.R.S.; and

(II) Any publicly funded contract entered into by any political subdivision of the state.

(f) "Tire" means a tire for any passenger vehicle, including any truck, weighing less than fifteen thousand pounds, and for any truck, including any truck tractor, trailer, or semitrailer, weighing more than fifteen thousand pounds; except that "tire" does not include:

(I) Tires that are recapped or otherwise reprocessed for use; or

(II) Tires that are used for:

(A) Farm equipment exempt from sales and use taxes pursuant to section 39-26-716, C.R.S.; or

(B) A farm tractor or implement of husbandry exempt from registration pursuant to section 42-3-104, C.R.S.

(g) "Tire-derived product" means matter that:

(I) Is derived from a process that uses whole tires as a feedstock, including shredding, crumbing, and chipping; and

(II) Has been sold and removed from the facility of a processor.

(h) (I) "Waste tire" means a tire that is no longer mounted on a motor vehicle and is no longer suitable for use as a tire due to wear, damage, or deviation from the manufacturer's original specifications.

(II) “Waste tire” includes the following types of tires that are not organized for resale by size in a rack or a stack in a manner that allows the inspection of each individual tire: A repairable tire, scrap tire, altered waste tire, and used tire.

(III) “Waste tire” does not include a tire-derived product or crumb rubber.

(i) “Waste tire cleanup program” or “program” means the program created by this part 2.

(j) (I) “Waste tire facility” means:

(A) A waste tire monofill, as that term is defined in section 30-20-1001, C.R.S.;

(B) A facility of an end user or processor;

(C) A facility of a tire retailer or tire wholesaler that is a source of waste tires pursuant to section 30-20-1007 or 30-20-1008, C.R.S.;

(D) A collection facility, as that term is defined by the commission by rule; or

(E) Any other facility at which a quantity of waste tires in excess of a limit established by rule by the commission are stored for at least ninety days, processed, or disposed of.

(II) “Waste tire facility” does not include the facility of a waste tire hauler unless the hauler stores a quantity of waste tires in excess of a limit established by rule by the commission at the facility for at least ninety days.

(k) “Waste tire hauler” means a person who transports waste tires for compensation.

(2) (a) On and after June 10, 2010, retailers of new tires shall collect a waste tire fee of one dollar and fifty cents on the sale of each new tire. The receipt from the retailer to the customer for every new tire shall contain the following statement in the largest bold-faced print capable on existing invoice printers, not to exceed fifteen points: “Section 25-17-202, Colorado Revised Statutes, requires retailers to collect a \$1.50 waste tire fee on the sale of each new motor vehicle tire.”

(b) The retailer shall submit to the department of revenue all fees collected pursuant to this section together with any report required by the department of revenue in conjunction with the remittance of any sales tax in accordance with article 26 of title 39, C.R.S.

(c) A person who fails to comply with this section shall be subject to section 39-21-118, C.R.S. The department of revenue shall notify retailers of new tires concerning the new requirements in this section enacted by Senate Bill 09-289, enacted in 2009.

(3) (a) The department of revenue shall transmit the fees, together with a report of its direct and indirect administrative costs in complying with this section, to the state treasurer at the end of each calendar quarter. The state treasurer shall pay to the department of revenue an amount equal to the department of revenue’s direct and indirect administrative costs specified in this paragraph (a); except that this amount shall not exceed one and two-thirds percent of the total amount of fees credited pursuant to this paragraph (a). The state treasurer shall, subject to paragraph (b) of this subsection (3), credit the remaining fees as follows:

(I) (A) Thirty and thirty-three one-hundredths percent to the processors and end users fund created in section 25-17-202.5 and six and sixty-seven one-hundredths percent to the innovative higher education research fund created in section 23-19.7-104, C.R.S. This sub-subparagraph (A) is repealed, effective July 1, 2014.

(B) Effective July 1, 2014, thirty-seven percent to the processors and end users fund created in section 25-17-202.5;

(II) Thirty-nine and sixty-six one-hundredths percent to the waste tire cleanup fund created in section 25-17-202.6;

(III) (A) Repealed.

(B) Effective July 1, 2011, eight percent to the waste tire fire prevention fund created in section 25-17-202.8;

(IV) Effective July 1, 2011, six and sixty-seven one-hundredths percent to the waste tire market development fund created in section 25-17-202.9; and

(V) Effective July 1, 2011, eight and sixty-seven one-hundredths percent to the law enforcement grant fund created in section 25-17-207 (4).

(VI) Repealed.

(b) The department may reallocate uncommitted moneys among funding categories described in this subsection (3) at the end of each fiscal quarter.

(4) Notwithstanding any other law to the contrary, the department shall distribute, whether by grant, reimbursement, or otherwise, fees collected pursuant to this section only to a person or entity that is located in and has operations in Colorado, and shall not distribute any such fees to a person or entity located outside of Colorado.

25-17-202.5. Processors and end users fund created - rules - repeal. (1) There is hereby created, in the state treasury, the processors and end users fund. Such fund shall consist of the fee revenue credited pursuant to section 25-17-202 (3) (a) (I) and year-end surpluses transferred pursuant to sections 25-17-202.6 (1), 25-17-202.8 (1), 25-17-202.9 (1), and 25-17-207 (4). All interest or any other return on the investment of moneys in the fund shall be deposited in the fund. The general assembly shall appropriate moneys in the fund for monthly partial reimbursement to processors and end users, up to a maximum of sixty-five dollars for each ton of raw Colorado waste tires that are processed or used. The purpose of the partial reimbursements is to assist new and existing waste tire recycling technologies to become economically feasible and to thereby encourage the use of waste tires and reduce the storage of waste tires in Colorado. The department shall not reimburse a processor for processing waste tires unless the processor has end used the tire-derived product or if the tire-derived product has been sold for an end use and moved off-site.

(1.5) Notwithstanding section 25-17-202.9, the department shall identify other markets in the state that are able, without taxpayer or waste tire clean up funds, to eliminate illegal tire dumping and to recycle or reuse waste tires in newer technologies.

(2) This section is repealed, effective July 1, 2020.

Source: **L. 2003:** Entire section added, p. 1968, § 2, effective January 1, 2004. **L. 2006:** (2) amended, p. 175, § 3, effective July 1. **L. 2007:** IP(1) amended, p. 1142, § 8, effective July 1. **L. 2010:** (1.5) added, (HB 10-1327), ch. 135, p. 450, § 6, effective April

15; (1) amended, (HB 10-1018), ch. 421, p. 2168, § 6, effective June 10. **L. 2012:** Entire section amended, (HB 12-1034), ch. 169, p. 593, § 2, effective May 9.

Cross references: For the legislative declaration contained in the 2007 act amending the introductory portion to subsection (1), see section 2 of chapter 278, Session Laws of Colorado 2007.

25-17-202.6. Waste tire cleanup fund - rules. (1) There is hereby created in the state treasury the waste tire cleanup fund, referred to in this section as the “fund”, consisting of revenues credited pursuant to section 25-17-202 (3) (a) (II). All interest or any other return on the investments shall be deposited in the fund. At the end of each fiscal year, the state treasurer shall transfer all unexpended and unencumbered moneys in the fund to the processors and end users fund created in section 25-17-202.5, except for an amount equal to thirty-three percent of the department’s prior year direct and indirect costs. The general assembly shall make annual appropriations out of the fund to the department in an amount equal to the department’s direct and indirect administrative costs incurred pursuant to this part 2, not to exceed twenty percent of the annual income to the fund and to the division of fire prevention and control in the department of public safety for its administrative costs pursuant to section 25-17-206 (3).

(2) The department shall use the remaining moneys in the fund as follows:

(a) Up to two-thirds may be expended to provide grants to counties and municipalities for the disposal, recycling, or reuse of waste tires that have been illegally dumped or abandoned or are otherwise not eligible for reimbursements from a fund created in this article and allow for partial reimbursement to processors and end users up to a maximum of sixty-five dollars for each ton of Colorado raw waste tires that are processed or used at a waste tire facility;

(b) (I) Up to one-third may be expended to provide for tire reuse or recycling incentives in public projects for products that contain or make use of recycled, recapped, and other previously used waste tires, including tire-derived products. The department shall determine how moneys for such incentives shall be distributed among projects. Any state agency is authorized to expend tire reuse or recycling incentive moneys distributed pursuant to this section.

(II) The general assembly hereby finds that the purpose of the tire reuse or recycling incentives under this paragraph (b) is to encourage the beneficial reuse and recycling of Colorado waste tires and is not intended to usurp functions properly performed by the private sector or to compete unfairly with private businesses.

(III) For the purpose of expending tire reuse or recycling incentives under this paragraph (b), the state purchasing director and any purchasing agent have the authority to purchase tire-derived products unless any of the following conditions exist:

(A) The product is not available within a reasonable period of time;

(B) The product fails to meet existing purchasing rules, including any applicable specifications; or

(C) The product fails to meet federal or state health or safety standards as set forth in the code of federal regulations or the Colorado code of regulations.

(c) Per diem expenses for the advisory committee created in section 25-17-208. For each member, per diem payments are capped at ninety-nine dollars per day.

(3) All moneys encumbered by June 30 of a fiscal year shall roll forward for expenditure in the following fiscal year.

(4) In providing assistance to counties pursuant to this section, the department shall give primary consideration to the number of illegal waste tire dumps or storage facilities other than monofills in each county and whether facilities are available to recycle such waste tires.

(5) (a) Counties and municipalities receiving grants pursuant to this section may use such grants to fund the removal and disposal or recycling of waste tires with county or municipal personnel or may contract with private entities, other local governments, or other governmental agencies for such activities if such contracts are otherwise in accordance with law. The use of inmate labor shall be pursued whenever feasible, at the sole discretion of the board of county commissioners or the governing body of the municipality.

(b) In awarding contracts for services pursuant to this section, a county or municipality may give preferential bidding treatment to individuals or entities that will recycle, pursuant to rules of the department concerning recycling, and reuse, rather than dispose of, the waste tires.

(c) The general assembly hereby finds and declares that it is the policy of this state to pursue proposals for recycling and making other beneficial use of waste tires, in lieu of storage or landfill disposal, whenever feasible.

(6) (a) No later than January 1, 2011, and biennially thereafter, each county and municipality in the state that has received funds pursuant to this section shall submit a report to the department concerning:

(I) The quantity, expressed in weight or as a number, of tires removed from illegal dumps or storage facilities in the county or municipality and disposed of at approved facilities or in recycling or reuse projects;

(II) The method in which such disposal was accomplished and the method of recycling or reuse, if any; and

(III) The quantity of waste tires in the county or municipality remaining to be legally disposed of or recycled in future years.

(b) (I) The department shall create a priority abatement list of waste tire storage or disposal facilities and coordinate the list with the ten-year monofill tire landfill elimination plan required by section 30-20-121 (4), C.R.S. Abatement projects shall be ranked based on the potential environmental damage of the individual waste tire facilities. The department shall provide an annual update to the general assembly of the abatement projects.

(II) The department, in conjunction with the waste tire advisory committee created in section 25-17-208, either itself or through a contractor:

(A) Shall provide educational programs to counties and the public regarding methods for proper disposal of tires and the use and availability of tire-derived products; and

(B) May conduct feasibility studies, including site-specific feasibility studies and life cycle assessments, on potential uses of waste tires, including as soil absorption media, lightweight fill used in roadbeds and other types of civil engineering projects, substitute material for aggregate or soil materials, rubberized asphalt for road construction projects, geosynthetic lined landfills, and tire-derived fuel at electric utilities in conjunction with bottom ash, existing portland cement plants, and coal-fired boilers.

(7) The commission may promulgate rules to implement this section.

Source: L. 2010: Entire section added, (HB 10-1018), ch. 421, p. 2169, § 7, effective June 10. **L. 2012:** (1) amended, (HB 12-1283), ch. 240, p. 1135, § 50, effective July 1.

Cross references: For the legislative declaration in the 2012 act amending subsection (1), see section 1 of chapter 240, Session Laws of Colorado 2012.

25-17-202.7. Reports - repeal. (1) On and after July 1, 2005, and each July 1 thereafter, the department of public health and environment shall report to the transportation legislation review committee, created in section 43-2-145, C.R.S., the total number of waste tires recycled in this state according to the information submitted to the department of public health and environment pursuant to section 30-20-109, C.R.S.

(2) The provisions of section 24-1-136, C.R.S., shall not apply to reports generated pursuant to this section.

(3) This section is repealed, effective July 1, 2014.

Source: L. 2004: Entire section added, p. 1785, § 2, effective July 1.

25-17-202.8. Waste tire fire prevention fund. (1) There is hereby created in the state treasury the waste tire fire prevention fund, referred to in this section as the “fund”, consisting of revenues credited pursuant to section 25-17-202 (3) (a) (III). All interest or any other return on the investment of moneys in the fund shall be deposited in the fund. At the end of each fiscal year, the state treasurer shall transfer all unexpended and unencumbered

moneys in the fund to the processors and end users fund created in section 25-17-202.5, except for an amount equal to thirty-three percent of the department's prior year direct and indirect costs.

(2) The department shall use the fund for:

(a) Training fire departments in and purchasing equipment and supplies for the prevention of, preparation for, and response to and proper handling of waste tire fires; and

(b) Training for and enforcement by the state patrol, sheriffs' offices, police departments, and local departments of health to enforce waste tire disposal, registration, decal, and manifest requirements of sections 25-17-204 to 25-17-206, 30-20-121 (3), and 30-20-1006, C.R.S.

Source: L. 2010: Entire section added, (HB 10-1018), ch. 421, p. 2169, § 7, effective June 10.

25-17-202.9. Waste tire market development fund. (1) There is hereby created in the state treasury the waste tire market development fund, referred to in this section as the "fund", consisting of revenues credited pursuant to section 25-17-202 (3) (a) (IV). All interest or any other return on the investment of moneys in the fund shall be deposited in the fund. At the end of each fiscal year, the state treasurer shall transfer all unexpended and unencumbered moneys in the fund to the processors and end users fund created in section 25-17-202.5.

(2) The department shall use the fund to encourage waste tire market development pursuant to a market development plan developed by the waste tire advisory committee created in section 25-17-208. The department may use the fund to hire a contractor in connection with implementation of the plan.

Source: L. 2010: Entire section added, (HB 10-1018), ch. 421, p. 2169, § 7, effective June 10.

25-17-203. Repeal of part. (Repealed)

Source: L. 93: Entire part added, p. 2135, § 10, effective June 12. **L. 95:** Entire section amended, p. 1113, § 3, effective May 31. **L. 98:** Entire section amended, p. 1067, § 5, effective June 1; entire section amended, p. 880, § 4, effective July 1. **L. 2008:** Entire section repealed, p. 177, § 17, effective March 24.

25-17-204. Waste tire haulers - registration - rules - violations. (1) No person shall transport a quantity of waste tires in excess of a limit established by the commission by rule for storage or disposal to any location in this state:

(a) Other than to a waste tire storage site, waste tire landfill site, or municipal or privately owned solid waste landfill site for which a city, county, or city and county has issued a permit and such site is operating in compliance with the requirements of applicable law.

(b) On or after January 1, 2006, if the person has not registered with the department of public health and environment pursuant to rules promulgated pursuant to this section.

(c) Unless the person:

(I) Has affixed to the vehicle used for such transportation a decal acquired from the department pursuant to section 25-17-205; and

(II) Complies with the manifest requirements of section 25-17-205.

(2) Nothing in this section shall prohibit a person from transporting a quantity of waste tires that is not in excess of a limit established by the commission by rule during any one trip to a beneficial user, a waste tire recycling facility, or a facility that possesses a valid air quality permit if the permit allows for an approved beneficial use of the waste tires and the facility is in compliance with section 25-17-206 (4) (b). No person shall transport a quantity of waste tires in excess of the limit established by the commission by rule during any one trip unless the person is registered pursuant to this section.

(3) The commission shall promulgate rules to implement this section, including:

(a) Requirements that persons who transport a certain number or more of waste tires for storage or disposal:

(I) Create and maintain records, including the manifest required by section 25-17-205 (2), relating to such transportation and report to the department;

(II) Register with the department and annually provide a copy of the currently valid registration to each retailer of motor vehicle tires from whom the person accepts a waste tire for hauling;

(III) Post a bond in a form and an amount set by the commission, not to exceed ten thousand dollars; and

(IV) Affix a decal required pursuant to section 25-17-205 (1) on each vehicle used to transport waste tires.

(b) Measures required for the department of public health and environment to enforce the requirements of this section.

(4) A person who violates any provision of this section is guilty of a misdemeanor and, upon conviction thereof, shall be punished by a fine of not more than two thousand dollars, or by imprisonment in the county jail for not more than thirty days, or by both such fine and imprisonment. Nothing in this section shall preclude or preempt a municipality from enforcement of its local ordinances. Each day of violation shall be deemed a separate offense under this section. Fines shall be transmitted to the state treasurer, who shall deposit them in the general fund.

Source: L. 2005: Entire section added, p. 706, § 1, effective June 1. **L. 2008:** IP(3) and (3)(a)(III) amended, p. 432, § 5, effective August 5. **L. 2009:** (3)(a)(II) amended, (SB 09-289), ch. 314, p. 1700, § 3, effective August 5. **L. 2010:** IP(1), (2), IP(3), and (3)(a) amended and (1)(c) added, (HB 10-1018), ch. 421, p. 2172, §§ 8, 9, effective June 10.

25-17-205. Decals - manifests. (1) **Decals.** (a) On and after a date specified by rule promulgated pursuant to section 25-17-207 (1), no person shall store a quantity of waste tires in excess of a limit established by the commission in Colorado for any purpose unless:

(I) The department has issued to the person a decal pursuant to this section; and

(II) The person has, pursuant to rules promulgated pursuant to section 25-17-207 (1), affixed the decal to a uniform location at the address used to store the waste tires.

(b) On and after a date specified by rule promulgated pursuant to section 25-17-207 (1), no person shall transport a quantity of waste tires in excess of a limit established by the commission in Colorado unless:

(I) The department has issued to the person a decal pursuant to this section; and

(II) The person has, pursuant to rules promulgated pursuant to section 25-17-207 (1), affixed the decal to the vehicle used to transport waste tires at a uniform location.

(c) The department shall issue a decal to a person if the person has submitted an application to the department containing all information required by the commission by rule promulgated pursuant to section 25-17-207 (1).

(d) Decals shall be valid for a period determined by the commission by rule, not to exceed five years. A decal issued pursuant to this section shall contain the information required by rule promulgated pursuant to section 25-17-207 (1), including at least an expiration date and the decal number.

(2) **Uniform manifests.** (a) On and after a date specified by rule promulgated pursuant to section 25-17-207 (1), no person shall accept for transportation a quantity of waste tires in excess of a limit established by the commission by rule unless the person has completely filled out in triplicate a uniform manifest, available from the department's web site, in a form established by the department containing the information specified by rule promulgated pursuant to section 25-17-207 (1), including at least the following:

(I) The manifest number;

(II) The decal number of the vehicle used to transport the tires;

(III) The person's signature under penalty of perjury, name, address, and telephone number;

(IV) The current date; the waste tire facility registration number, name, address, and telephone number of the source of the tires; and the waste tire facility registration number, name, address, and telephone number of the waste tire facility to which the waste tires will be transported; and

(V) The number or weight of tires in the load.

(b) The person shall retain one copy of the manifest and shall provide one copy of the manifest to:

(I) The source of the waste tire; and

(II) The waste tire facility to which the waste tires are transported.

(c) (I) The person, the source of the waste tire, and the waste tire facility to which the waste tires are transported shall each keep a copy of the manifest for at least three years after the date stated on the manifest.

(II) The department may enter and inspect the facility of any of the entities named on the manifest during normal working hours and may request a copy of the manifest. Failure to keep the manifest as required by this paragraph (c) or to produce the manifest upon request by the department or the department's agent is a violation of this section.

Source: L. 2010: Entire section added, (HB 10-1018), ch. 421, p. 2173, § 10, effective June 10.

25-17-206. Registration of waste tire facilities - definitions. (1) For purposes of this section, unless the context otherwise requires, "local fire authority" means either:

(a) The chief of a fire department, if the waste tire facility is located in a fire protection district;

(b) The sheriff of the county in which the waste tire facility is located, acting as fire warden, if the facility is located in the unincorporated portion of a county and is not located in a fire protection district;

(c) The chief of a municipal fire department, if the waste tire facility is located in the incorporated portion of a county that is protected by a municipal fire department; or

(d) The governing body of a municipality, if the waste tire facility is located in the incorporated portion of a county and is not located in a fire protection district or protected by a municipal fire department.

(2) On and after a date specified by rule promulgated pursuant to section 25-17-207 (1), no person shall construct or maintain a waste tire facility unless the person has registered with the department.

(3) (a) (I) On and after a date specified by rule promulgated pursuant to section 25-17-207 (1), a waste tire facility shall have a fire prevention, training, and firefighting program as determined by the commission by rule; except that this subsection (3) shall not apply to:

(A) A waste tire facility that is operating with an existing certificate of designation and that is in compliance with all local, state, and federal regulations and laws on June 10, 2010; except that, upon the renewal of or reapplication for a certificate of designation by a waste tire facility, the waste tire facility shall be required to comply with this subsection (3); or

(B) A tire retailer or tire wholesaler that is a source of waste tires pursuant to section 30-20-1007 or 30-20-1008, C.R.S.

(II) (A) The local fire authority shall review the program in accordance with rules and, if appropriate, recommend changes necessary to approve the program.

(B) Upon request of the local fire authority, the director of the division of fire prevention and control in the department of public safety shall hire a contractor to provide technical assistance in the review of the program and, if appropriate, recommend changes necessary for the local fire authority to approve the program.

(b) If the local fire authority approves the program, it shall certify that fact to the department. If the local fire authority recommends changes necessary to approve the program and the waste tire facility fails to implement the changes, it shall certify that fact to the department. The department shall revoke the registration of a waste tire facility that does not have an approved fire prevention, training, and firefighting program.

(4) (a) On and after a date specified by rule promulgated pursuant to section 25-17-207 (1), each waste tire monofill shall:

(I) By an annual date established by rule, submit to the department a waste tire inventory reduction plan that complies with rules established by the commission. The department shall hold any information or data submitted to it by a waste tire monofill or facility of an end user or processor pursuant to this subparagraph (I) as confidential business information upon request of the submitting entity if the information or data satisfies the definition of trade secret as specified in sections 7-74-102 and 18-4-408 (2), C.R.S. The burden of proving that the information or data is protected as a trade secret shall be upon the party asserting the claim.

(II) Comply with the inventory reduction plan as approved by the department by the end of the following year.

(b) On and after a date specified by rule promulgated pursuant to section 25-17-207 (1), during each calendar year, and as determined by rule:

(I) A processor shall process into tire-derived product at least seventy-five percent of the three-year rolling average annual amount, by weight or number, of waste tires that the processor accepted during the previous three calendar years;

(II) An end user shall convert into an end product at least seventy-five percent of the three-year rolling average annual amount by weight of tire-derived product that the end user accepted during the previous three calendar years;

(III) A waste tire monofill shall arrange for the processing into tire-derived product of at least seventy-five percent of the three-year rolling average annual amount, by weight or number, of waste tires that the waste tire monofill accepted during the previous three calendar years.

(c) The department shall revoke the registration of a waste tire facility that violates this subsection (4), and such facility is ineligible for reimbursements from the processors and end users fund created in section 25-17-202.5 and the waste tire cleanup fund created in section 25-17-202.6 until the department reinstates the registration.

(5) (a) Except as specified in paragraph (b) of this subsection (5), on and after a date specified by rule promulgated pursuant to section 25-17-207 (1), a waste tire facility shall:

(I) Have an operations plan, including site security measures that include locked gates and at least a six-foot fence surrounding the facility;

(II) Have an emergency response plan;

(III) Have a facility closure plan;

(IV) Post a bond in a form and amount set by the solid and hazardous waste commission, using one or more of the following financial mechanisms, to cover reclamation of the facility, if applicable, and to financially assure full payment of all closure, post-closure, and, if applicable, corrective action estimated costs:

(A) Trust fund;

(B) Letter of credit;

(C) Surety bond;

(D) Insurance;

(E) Corporate financial test;

(F) Local government financial test;

(G) Corporate guarantee;

(H) Local government guarantee; or

(I) One of the following state-approved mechanisms: Certificate of deposit; multiple financial mechanisms; or other methods as approved by the department and the governing body having jurisdiction;

(V) Have an adequate water supply available for use by the local fire authority in the event of a fire. Owners and operators of waste tire facilities may demonstrate compliance with this requirement through alternative methods as approved by the local fire authority.

(VI) Meet the standards and conditions for the safeguarding of life and property from fire as determined by the local fire authority. In making such determination, the fire code adopted pursuant to section 24-33.5-1203.5, C.R.S., by the division of fire prevention and control within the department of public safety shall be used as the minimum fire safety standard for waste tire facilities.

(b) The requirements of paragraph (a) of this subsection (5):

(I) Shall be implemented by the department in consultation with the local fire officials and in accordance with the adopted minimum fire safety standards; and

(II) Shall not apply to:

(A) A waste tire facility that is operating with an existing certificate of designation and that is in compliance with all local, state, and federal regulations and laws on June 10, 2010; except that, upon the renewal of or reapplication for a certificate of designation by a waste tire facility, the waste tire facility shall be required to comply with paragraph (a) of this subsection (5); or

(B) A tire retailer or tire wholesaler that is a source of waste tires pursuant to section 30-20-1007 or 30-20-1008, C.R.S.

Source: L. 2010: Entire section added, (HB 10-1018), ch. 421, p. 2173, § 10, effective June 10. **L. 2012:** (3)(a)(II)(B) and (5)(a)(VI) amended, (HB 12-1283), ch. 240, p. 1135, § 51, effective July 1.

Cross references: For the legislative declaration in the 2012 act amending subsections (3)(a)(II)(B) and (5)(a)(VI), see section 1 of chapter 240, Session Laws of Colorado 2012.

25-17-207. Rules - penalties - enforcement - fund. (1) (a) The commission shall adopt rules as necessary and convenient for the administration of this part 2.

(b) Once the rules have been promulgated, the department shall report to the transportation legislation review committee, created in section 43-2-145, C.R.S., on the promulgation of the rules.

(c) The department shall annually report to the house transportation and energy committee and the senate transportation committee, or their successor committees, on the status of the waste tire cleanup program.

(2) A peace officer and the department shall enforce the requirements of this part 2 in connection with sections 30-20-113 and 30-20-114, C.R.S.

(3) The department shall develop an on-line complaint form and processes for law enforcement, fire departments, and citizens to report potential waste tire violations.

(4) There is hereby created in the state treasury the law enforcement grant fund, consisting of the fee revenue credited pursuant to section 25-17-202 (3) (a) (V) and all penalties assessed pursuant to this part 2. All interest or any other return on the investments shall be paid into the fund. At the end of each fiscal year, the state treasurer shall transfer all unexpended and unencumbered moneys in the fund to the processors and end users fund created in section 25-17-202.5. The department shall use the fund for grants to and educational programs for county sheriffs, the state patrol, police departments, fire departments, and local health departments for enforcement, fire prevention and suppression, training, and oversight of waste tire facilities.

Source: L. 2010: Entire section added, (HB 10-1018), ch. 421, p. 2173, § 10, effective June 10.

25-17-208. Waste tire advisory committee - repeal. (1) There is hereby created, under the commission, a waste tire advisory committee consisting of the following nine members:

(a) The executive director of the department or the executive director's designee; and

(b) The following eight members appointed by the governor with the consent of the senate:

(I) One member representing law enforcement from jurisdictions that have a waste tire facility;

(II) One member representing tire retailers;

(III) One member representing end users;

(IV) One member representing tire manufacturers;

(V) One member representing waste tire haulers;

(VI) One member representing waste tire processors;

(VII) One member representing waste tire monofills that are operating in compliance with their certificates of designation; and

(VIII) One member representing local fire authorities that have a waste tire facility within their jurisdiction.

(2) The advisory committee shall meet once per quarter for the first four years after July 1, 2010, to provide input and assessment of the waste tire cleanup program, propose new rules, and recommend to the department and commission potential rules to effectively manage the waste tire cleanup program. The advisory committee shall advise the commission and the department on criteria and priorities for waste tire-related funding; report to the transportation and energy committee of the house of representatives and the transportation committee of the senate, or their successor committees, with recommendations regarding penalties for waste tire disposal, storage, and transportation violations by January 1, 2011, and regarding allocation of the waste tire fee by January 1, 2013, and as appropriate thereafter; make recommendations to the department concerning educational programs and feasibility studies as contemplated by section 25-17-202.6 (6) (b) (II); and assist the department as needed with making grants related to waste tire clean up. The committee shall determine the frequency of its meetings after July 1, 2014. The focus for the committee is to:

(a) Protect the safety and welfare of the citizens, wildlife, and environment adjacent to waste tire facilities;

(b) Develop sound enforcement practices and risk mitigation practices to prevent the loss of life, property, and the environment caused by waste tires;

(c) Prevent the illegal transportation and disposal of waste tires;

(d) Develop markets for tire-derived products; and

(e) Provide a long-term plan to reduce waste tire stockpiles and a waste tire market development plan.

(3) The advisory committee shall have a chair and vice-chair and shall report to the commission, on an annual basis, concerning the progress of the waste tire cleanup program. The advisory committee shall track the violations alleged pursuant to this part 2 and report a summary of the complaints in the annual report to the commission. The department shall provide staff support, as appropriate, to the advisory committee.

(4) Appointed members of the advisory committee shall serve three-year terms; except that, of the initial appointees, two shall be appointed for one-year terms; three shall be appointed for two-year terms; and three shall be appointed for three-year terms. The governor shall designate the length of terms for each of the members first appointed in accordance with this subsection (4). Vacancies shall be filled by appointment for the duration of the unexpired term.

(5) Members of the advisory committee shall hold their first meeting no later than October 10, 2010.

(6) This section is repealed, effective July 1, 2020. Prior to such repeal, the advisory committee shall be reviewed as provided for in section 2-3-1203, C.R.S.

Source: L. 2010: Entire section added, (HB 10-1018), ch. 421, p. 2173, § 10, effective June 10.

PART 3

ELECTRONIC DEVICE RECYCLING

Editor's note: Section 2 of chapter 127, Session Laws of Colorado 2012, provides that the act adding this part 3 applies to acts occurring on or after August 8, 2012.

25-17-301. Short title. This part 3 shall be known and may be cited as the "Electronic Recycling Jobs Act".

Source: L. 2012: Entire part added, (SB 12-133), ch. 127, p. 434, § 1, effective August 8.

25-17-302. Definitions. As used in this part 3, unless the context otherwise requires:
(1) “Commission” means the solid and hazardous waste commission created in section 25-15-302.

(2) “Consumer” means a person who has purchased an electronic device primarily for personal or home business use.

(3) (a) “Electronic device” means a device that is marketed by a manufacturer for use by a consumer and that is:

(I) A computer, peripheral, printer, facsimile machine, digital video disc player, video cassette recorder, or other electronic device specified by rule promulgated by the commission; or

(II) A video display device or computer monitor, including a laptop, notebook, ultrabook, or netbook computer, television, tablet or slate computer, electronic book, or other electronic device specified by rule promulgated by the commission that contains a cathode ray tube or flat panel screen with a screen size that is greater than four inches, measured diagonally.

(b) “Electronic device” does not include:

(I) A device that is part of a motor vehicle or any component part of a motor vehicle, including replacement parts for use in a motor vehicle;

(II) A device, including a touch-screen display, that is functionally or physically part of or connected to a system or equipment designed and intended for use in any of the following settings, including diagnostic, monitoring, or control equipment:

(A) Industrial;

(B) Commercial, including retail;

(C) Library checkout;

(D) Traffic control;

(E) Security, sensing, monitoring, or counterterrorism;

(F) Border control;

(G) Medical; or

(H) Governmental or research and development;

(III) A device that is contained within any of the following:

(A) A clothes washer or dryer;

(B) A refrigerator, freezer, or refrigerator and freezer;

(C) A microwave oven or conventional oven or range;

(D) A dishwasher;

(E) A room air conditioner, dehumidifier, or air purifier; or

(F) Exercise equipment;

(IV) A device capable of using commercial mobile radio service, as defined in 47 CFR 20.3, that does not contain a video display area greater than four inches, measured diagonally; or

(V) A telephone.

(4) “Landfill” means a solid wastes disposal site and facility, as that term is defined in section 30-20-101 (8), C.R.S.

(5) “Peripheral” means a keyboard, mouse, or other device that is sold exclusively for external use with a computer and provides input or output into or from a computer.

(6) “Processing for reuse” means a method, technique, or process by which electronic devices that would otherwise be disposed of or discarded are instead separated, processed, and returned to their original intended purposes or to other useful purposes as electronic devices.

(7) “Recycle” or “recycling” means processing, including disassembling, dismantling, shredding, and smelting, an electronic device or its components to recycle a useable component, commodity, or product, including processing for reuse. “Recycling”, with respect to electronic devices, does not include any process defined as incineration under applicable laws or rules.

(8) “State agency” means any department, commission, council, board, bureau, committee, institution of higher education, agency, or other governmental unit of the executive, legislative, or judicial branch of state government.

(9) (a) “Video display device” means:

(I) An electronic device with an output surface that displays or is capable of displaying moving graphical images or visual representations of image sequences or pictures that show a number of quickly changing images on a screen to create the illusion of motion; or

(II) An electronic device with a viewable screen of four inches or larger, measured diagonally, that contains a tuner that locks on to a selected carrier frequency or cable signal and is capable of receiving and displaying television or video programming via broadcast, cable, or satellite.

(b) “Video display device” includes a device that is an integral part of the display and cannot easily be removed from the display by the consumer and that produces the moving image on the screen. A video display device may use a cathode ray tube, liquid crystal display, gas plasma, digital light processing, or other image-projection technology.

(c) “Video display device” does not include a device that is part of a motor vehicle or any component part of a motor vehicle assembled by, or for, a vehicle manufacturer or franchised dealer, including replacement parts for use in a motor vehicle.

Source: L. 2012: Entire part added, (SB 12-133), ch. 127, p. 434, § 1, effective August 8.

25-17-303. Landfill ban - rules. By July 1, 2013, a person shall not dispose of an electronic device or a component of an electronic device in a landfill in this state; except that a board of county commissioners for a county that does not have at least two electronic waste recycling events per year or an ongoing electronic waste recycling program that serves residents of the county may, by majority vote of the commissioners and in compliance with the requirements of this section, exempt its residents from the ban established by this section. A county shall make a good faith effort to secure the electronic waste recycling services before the board of commissioners may exempt the county’s residents from the landfill ban. An exemption from the landfill ban is valid for two years, after which the board may vote on another two-year exemption after again making a good faith effort to secure a vendor to provide the recycling services. A county is not required to pay for the recycling services. Counties that currently do not have such services are encouraged to work with the department of public health and environment and other entities, such as the Colorado association for recycling, or its successor organization, to find an electronics recycling vendor that will serve that county.

Source: L. 2012: Entire part added, (SB 12-133), ch. 127, p. 437, § 1, effective August 8.

25-17-304. State electronic device recycling - rules. (1) Effective July 1, 2013, each state agency shall recycle its electronic devices. The agency shall use only a recycler that is certified to a national environmental certification standard such as the R2 or e-steward standards or other comparable recycling or disposal standard; except that this certification requirement does not apply to processing for reuse conducted on behalf of state agencies as stipulated in section 17-24-106.6, C.R.S., by the division of correctional industries created in section 17-24-104, C.R.S. The commission may adopt rules to avoid the use of certifications that are not comparable.

(2) Upon receipt of a device, a recycler that accepts an electronic device from a state agency shall provide the agency with appropriate documentation verifying the recycler’s certification as required in subsection (1) of this section.

Source: L. 2012: Entire part added, (SB 12-133), ch. 127, p. 437, § 1, effective August 8.

25-17-305. Immunity. (1) A recycler is not liable for personal or financial data or other information that a consumer or state agency may leave on an electronic device that is collected, processed, or recycled unless the recycler acted in a grossly negligent manner.

(2) A waste hauler, as that term is defined in section 30-20-1001 (16), C.R.S., or owner or operator of a landfill or transfer station does not violate this part 3 if the hauler, owner, or operator has made a good-faith effort to comply with this part 3 by posting and maintaining, in a conspicuous location at the waste hauler's facility, transfer station, or the landfill, a sign stating that electronic devices will not be accepted at the facility, transfer station, or landfill.

Source: L. 2012: Entire part added, (SB 12-133), ch. 127, p. 437, § 1, effective August 8.

25-17-306. Public education. The department of public health and environment shall coordinate with existing public and private efforts regarding the development and implementation of a public education program about the recycling of electronic devices, the removal of data from an electronic device being offered for recycling, the benefits of electronic device recycling, how to find electronic device recyclers, and implementation of the landfill ban pursuant to section 25-17-303. The department shall perform these functions within its existing resources.

Source: L. 2012: Entire part added, (SB 12-133), ch. 127, p. 438, § 1, effective August 8.

25-17-307. Charitable donations of electronic devices. (1) A charitable organization, as defined in section 6-16-103 (1), C.R.S., may:

- (a) Refuse to accept a donation of an electronic device; and
- (b) Establish a surcharge for acceptance of a donation of an electronic device.

Source: L. 2012: Entire part added, (SB 12-133), ch. 127, p. 438, § 1, effective August 8.

25-17-308. Rules. The commission shall adopt rules necessary to implement this part 3.

Source: L. 2012: Entire part added, (SB 12-133), ch. 127, p. 438, § 1, effective August 8.

ARTICLE 18

Underground Storage Tanks

25-18-101 to 25-18-109. (Repealed)

Source: L. 95: Entire article repealed, p. 420, § 12, effective July 1.

Editor's note: This article was added in 1989. For amendments to this article prior to its repeal in 1995, consult the Colorado statutory research explanatory note and the table itemizing the replacement volumes and supplements to the original volume of C.R.S. 1973 beginning on page vii in the front of this volume. The provisions of this article were relocated to article 20.5 of title 8. For the location of specific provisions, see the editor's notes following each section in said article.

ARTICLE 18.5

Illegal Drug Laboratories

Law reviews: For article, "Meth Labs: New Colorado Cleanup Mandate and Regulation", see 34 Colo. Law. 105 (December 2005).

25-18.5-101.	Definitions.		cleanup - liability.
25-18.5-102.	Illegal drug laboratories - rules.	25-18.5-104.	Entry into illegal drug laboratories.
25-18.5-103.	Discovery of illegal drug laboratory - property owner -	25-18.5-105.	Drug laboratories - governing body - authority.

25-18.5-101. Definitions. As used in this article, unless the context otherwise requires:

(1) “Board” means the state board of health in the department of public health and environment.

(2) (Deleted by amendment, L. 2009, (SB 09-060), ch. 140, p. 600, § 1, effective April 20, 2009.)

(2.5) “Governing body” means the agency or office designated by the city council or board of county commissioners where the property in question is located. If there is no such designation, the governing body shall be the county, district, or municipal public health agency, building department, and law enforcement agency with jurisdiction over the property in question.

(2.7) “Illegal drug laboratory” means the areas where controlled substances, as defined by section 18-18-102, C.R.S., have been manufactured, processed, cooked, disposed of, used, or stored and all proximate areas that are likely to be contaminated as a result of such manufacturing, processing, cooking, disposal, use, or storing.

(3) “Property” means anything that may be the subject of ownership, including, but not limited to, land, buildings, structures, and vehicles.

(4) “Property owner”, for the purposes of real property, means the person holding record fee title to real property. “Property owner” also means the person holding the title to a manufactured home.

Source: L. 2004: Entire article added, p. 532, § 1, effective April 21. L. 2005: (2.5) added, p. 1495, § 1, effective June 9. L. 2009: (2) amended and (2.7) added, (SB 09-060), ch. 140, p. 600, § 1, effective April 20. L. 2010: (2.5) amended, (HB 10-1422), ch. 419, p. 2106, § 125, effective August 11.

25-18.5-102. Illegal drug laboratories - rules. The board shall promulgate health-protective rules that establish procedures for testing and evaluation of contamination and the acceptable standards for the cleanup of illegal drug laboratories involving methamphetamine.

Source: L. 2004: Entire article added, p. 533, § 1, effective April 21. L. 2009: Entire section amended, (SB 09-060), ch. 140, p. 600, § 2, effective April 20.

25-18.5-103. Discovery of illegal drug laboratory - property owner - cleanup - liability. (1) (a) Upon notification from a peace officer that chemicals, equipment, or supplies indicative of an illegal drug laboratory are located on a property, or when an illegal drug laboratory used to manufacture methamphetamine is otherwise discovered and the property owner has received notice, the owner of any contaminated property shall meet the clean-up standards for property established by the board in section 25-18.5-102; except that a property owner may, at his or her option and subject to paragraph (b) of this subsection (1), elect instead to demolish the contaminated property. If the owner elects to demolish the contaminated property, the governing body or, if none has been designated, the county, district, or municipal public health agency, building department, or law enforcement agency with jurisdiction over the area where the property is located may require the owner to fence off the property or otherwise make it inaccessible to persons for occupancy or intrusion.

(b) An owner of any personal property within a structure or vehicle contaminated by illegal drug laboratory activity shall have ten days after the date of discovery of the laboratory or contamination to remove or clean his or her personal property according to board rules. If the personal property owner fails to remove the personal property within ten days, the owner of the structure or vehicle may dispose of the personal property during the clean-up process without liability to the owner of the personal property for such disposition.

(2) Once a property owner has met the clean-up standards and documentation requirements established by the board, as evidenced by a copy of the results provided to the governing body, or has demolished the property, compliance with subsection (1) of this section shall establish immunity for the property owner from a suit for alleged health-based civil actions brought by any future owner, renter, or other person who occupies such property, or a neighbor of such property, in which the alleged cause of the injury or loss is the existence of the illegal drug laboratory used to manufacture methamphetamine; except that immunity from a civil suit is not established for the person convicted for the production of methamphetamine.

(3) A person who removes personal property or debris from a drug laboratory shall secure the property and debris to prevent theft or exposing another person to any toxic or hazardous chemicals until the property and debris is appropriately disposed of or cleaned according to board rules.

Source: **L. 2004:** Entire article added, p. 533, § 1, effective April 21. **L. 2005:** Entire section amended, p. 1495, § 2, effective June 9. **L. 2010:** (1)(a) amended, (HB 10-1422), ch. 419, p. 2106, § 126, effective August 11.

25-18.5-104. Entry into illegal drug laboratories. If a structure or vehicle has been determined to be contaminated or if a governing body or law enforcement agency issues a notice of probable contamination, the owner of the structure or vehicle shall not permit any person to have access to the structure or vehicle unless the person is trained or certified to handle contaminated property pursuant to board rules or federal law.

Source: **L. 2005:** Entire section added, p. 1496, § 3, effective June 9.

25-18.5-105. Drug laboratories - governing body - authority. (1) An illegal drug laboratory that has not met the clean-up standards set by the board in section 25-18.5-102 shall be deemed a public health nuisance.

(2) Governing bodies may enact ordinances or resolutions to enforce this article, including, but not limited to, preventing unauthorized entry into contaminated property; requiring contaminated property to meet clean-up standards before it is occupied; notifying the public of contaminated property; coordinating services and sharing information between law enforcement, building, public health, and social services agencies and officials; and charging reasonable inspection and testing fees.

ARTICLE 18.7

Industrial Hemp Remediation Pilot Program

25-18.7-101.	Definitions.	25-18.7-104.	Gifts, grants, and donations -
25-18.7-102.	Industrial hemp - permitted growth.		authority to accept - cash fund - notice of funding through gifts, grants, and donations - repeal.
25-18.7-103.	Industrial hemp remediation pilot program committee - appointments - duties.	25-18.7-105.	Repeal of article.

25-18.7-101. Definitions. As used in this article, unless the context otherwise requires:

(1) “Committee” means the industrial hemp remediation pilot program committee established in section 25-18.7-103.

(2) “Executive director” means the executive director of the department of public health and environment.

(3) “Industrial hemp” means any variety of the plant cannabis sativa L. containing no more than three-tenths of one percent of tetrahydrocannabinols, whether growing or not.

(4) “Phytoremediation” means the mitigation of pollutant concentrations, including

metals, pesticides, solvents, explosives, and crude oil and its derivatives, in contaminated soils, water, and air making soils more conducive to crop production through the growth of industrial hemp.

(5) "Tetrahydrocannabinols" has the same meaning set forth in section 12-22-303 (32), C.R.S.

Source: L. 2012: Entire article added, (HB 12-1099), ch. 253, p. 1262, § 1, effective July 1.

25-18.7-102. Industrial hemp - permitted growth. (1) Growing and possessing industrial hemp for the purposes of this article is permitted in this state.

(2) Notwithstanding any other provision of law, an individual is not subject to any civil or criminal actions for growing industrial hemp or otherwise participating in the industrial hemp remediation pilot program if the individual's actions are in compliance with the pilot program established in this article.

Source: L. 2012: Entire article added, (HB 12-1099), ch. 253, p. 1263, § 1, effective July 1.

25-18.7-103. Industrial hemp remediation pilot program committee - appointments - duties. (1) The chair of the agriculture, livestock, and natural resources committee in the house of representatives and the chair of the agriculture, natural resources, and energy committee in the senate shall jointly appoint seven members to the industrial hemp remediation pilot program committee, which is hereby established.

(2) (a) The committee shall establish an industrial hemp remediation pilot program, referred to in this section as the "pilot program", in order to determine how soils and water may be made more pristine and healthy by phytoremediation, removal of contaminants, and rejuvenation through the growth of industrial hemp. The committee shall choose a secure, indoor growing site for the pilot program.

(b) The committee shall study and include in a final report to the executive director the following components as part of the pilot program:

- (I) The rate of contamination uptake from soil and water;
- (II) The mode of efficient uptake from soil and water;
- (III) The rate of carbon fixation in the Calvin cycle;
- (IV) The locations in the roots, stems, leaves, and flowers of the plants at which contaminant are fixated;
- (V) What contaminants are stabilized in the plants;
- (VI) What contaminants on the site need additional treatment in order to make the soil or water healthy and pristine;
- (VII) What disposal method is best for the different contaminants, including petrification, encasement, incineration, burial, and composting;
- (VIII) Set a baseline for the plants cultivated in a clean soil to set a standard; and
- (IX) Other data deemed important to the pilot program.

(c) The committee shall submit a report to the executive director no later than six months after the conclusion of the pilot program that outlines the findings of the committee.

Source: L. 2012: Entire article added, (HB 12-1099), ch. 253, p. 1263, § 1, effective July 1.

25-18.7-104. Gifts, grants, and donations - authority to accept - cash fund - notice of funding through gifts, grants, and donations - repeal. (1) The committee is authorized to seek and accept gifts, grants, or donations from private or public sources for the purposes of this article; except that the committee shall not accept a gift, grant, or donation that is subject to conditions that are inconsistent with this article or any other law of the state. The committee shall transmit all private and public moneys received through gifts, grants, or donations to the state treasurer, who shall credit the same to the hemp

remediation pilot program cash fund, which fund is hereby created and referred to in this article as the “fund”. The moneys in the fund are subject to annual appropriation by the general assembly to the department of public health and environment for appropriation to the committee for the direct and indirect costs associated with implementing this article.

(2) (a) In seeking or accepting a gift, grant, or donation, the committee shall notify the legislative council staff when it has received adequate funding through gifts, grants, or donations for the industrial hemp remediation pilot program and shall include in the notification the information specified in section 24-75-1303 (3), C.R.S.

(b) This subsection (2) is repealed, effective July 1, 2015.

ENVIRONMENT - SMALL COMMUNITIES

ARTICLE 19

Small Community Environmental Flexibility Act

Law reviews: For article, “Using Local Police Powers to Protect the Environment”, see 24 Colo. Law. 1063 (1995).

25-19-101.	Short title.		compliance agreements.
25-19-102.	Legislative declaration.	25-19-106.	Planning assistance.
25-19-103.	Definitions.	25-19-107.	Mentoring.
25-19-104.	Environmental priorities plan.	25-19-108.	Implementation within exist-
25-19-105.	Integrated environmental		ing resources.

25-19-101. Short title. This article shall be known and may be cited as the “Small Community Environmental Flexibility Act”.

Source: L. 95: Entire article added, p. 1005, § 1, effective July 1.

25-19-102. Legislative declaration. (1) The general assembly hereby finds and determines that small communities throughout the state are struggling to identify adequate resources, particularly for infrastructure improvements, to comply with the numerous environmental requirements that have been established by federal and state laws.

(2) The general assembly further finds and determines that citizens in small communities, as well as all citizens of the state, are entitled to the benefits of appropriate measures for public health and environmental protection.

(3) The general assembly therefore declares that the provisions of this article are enacted to provide maximum flexibility for small communities to comply with the environmental laws of this state without diminishing the public health and environmental protection provided to the citizens of Colorado.

Source: L. 95: Entire article added, p. 1005, § 1, effective July 1.

25-19-103. Definitions. As used in this article, unless the context otherwise requires: (1) “Department” means the department of public health and environment created by section 25-1-102.

(2) “Environmental priorities plan” means a plan prepared in accordance with section 25-19-104.

(3) "Integrated environmental compliance agreement" means an agreement entered into between a small community and the department pursuant to section 25-19-105.

(4) "Small community" means a municipality, county, or special district with a population of less than two thousand five hundred persons or a combination of two or more such municipalities, counties, or special districts working together pursuant to an intergovernmental agreement for purposes of participation in the program established pursuant to this article.

Source: L. 95: Entire article added, p. 1006, § 1, effective July 1.

25-19-104. Environmental priorities plan. (1) Any small community wishing to enter into an integrated environmental compliance agreement pursuant to section 25-19-105 shall submit to the department on or before July 1, 1998, an environmental priorities plan prepared in accordance with the provisions of this section; except that an environmental priorities plan may be submitted by a small community after July 1, 1998, if the department finds that the small community did not become aware of and could not have reasonably anticipated the environmental compliance concerns of the community in time to meet the deadline of July 1, 1998.

(2) An environmental priorities plan shall:

(a) Identify the environmental requirements enumerated in section 25-19-105 that pose an existing compliance problem or a near term compliance problem for the small community;

(b) Demonstrate the resource limitations that make it difficult for the small community to achieve and sustain compliance within the established statutory or regulatory deadlines;

(c) Set forth the small community's proposed environmental compliance priorities, including the identified actions to be taken, anticipated expenditures required for such actions, and a proposed schedule that would result in compliance with all individual environmental requirements as soon as practicable, within an overall period not to exceed ten years, without adversely impacting public health or the environment outside of the small community; and

(d) Describe the public process that has resulted in the formulation of the environmental compliance priorities for the small community.

(3) A small community participating in the program created by this article shall take reasonable steps to provide the public affected by its actions with a meaningful opportunity to participate in the preparation of an environmental priorities plan, through whatever combination of public meetings or hearings or opportunity for written input is most practical for the particular community.

(4) A small community participating in the program created by this article shall provide a copy of its proposed plan to any person who has so requested prior to the small community's submission of its plan to the department.

(5) The multi-media environmental integration advisory committee established pursuant to section 25-1-108 may, following notice to associations of political subdivisions eligible to participate in the program created by this article, develop guidance documents that provide more specific criteria for the preparation of an environmental priorities plan if the advisory committee determines that such criteria would further the purposes of this article.

(6) An environmental priorities plan submitted to the department shall be approved if the plan meets the requirements of this section and is consistent with any criteria for the preparation of such plans set forth in guidance documents developed by the multi-media environmental integration advisory committee.

Source: L. 95: Entire article added, p. 1006, § 1, effective July 1.

25-19-105. Integrated environmental compliance agreements. (1) The department is authorized to enter into integrated environmental compliance agreements with small communities in accordance with the provisions of this section.

(2) The environmental requirements that may be addressed in an integrated environmental compliance agreement are the requirements established by or pursuant to article 7, 8, 11, or 15 of this title, article 20.5 of title 8, C.R.S., or article 20 of title 30, C.R.S. An integrated environmental compliance agreement may address environmental requirements applicable to a solid waste disposal site and facility only if such site and facility receives twenty tons per day or less of solid waste.

(3) Any integrated environmental compliance agreement with a small community shall:

(a) Identify actions to be taken by the small community, including a schedule with interim deadlines, that will result in compliance with each of the applicable individual environmental requirements as soon as practicable, within an overall period not to exceed ten years;

(b) Be consistent with an approved environmental priorities plan for the small community;

(c) Contain a provision directing that the agreement will not take effect until the community's registered electors have approved any creation of a multiple-fiscal year debt or other financial obligation for which an election is required by section 20 of article X of the Colorado constitution and which is required to implement the terms of the agreement;

(d) Be structured as a formal enforcement agreement to ensure continued compliance or to resolve an existing compliance issue involving a small community; and

(e) Be enforceable pursuant to the provisions of the statutes governing the individual environmental requirements addressed in the agreement with respect to any of the agreement deadlines that are not met.

(4) A small community participating in the program created by this article shall provide a copy of its proposed agreement to any person who has so requested in writing prior to the small community's submission of its plan to the department. Before the agreement is approved by the department, the department shall allow at least twenty days within which any person may review and submit written comments on the agreement to the small community and the department.

(5) An integrated environmental compliance agreement may be amended by agreement of the small community and the department to address compliance concerns not anticipated at the time of the original agreement. The amended agreement shall require compliance with any new requirement added to the amended agreement as soon as practicable, within an overall period not to exceed ten years from the date of the amendment. The deadline for any requirement addressed in the original agreement may be extended as a part of the amendment of the agreement, but the deadline may not be extended beyond ten years after the date of the original agreement.

(6) An integrated environmental compliance agreement entered into under this article shall not be deemed to impair, modify, or otherwise affect prior agreements entered into between a small community and any entity other than the department.

(7) Any provision of an integrated compliance agreement implementing a requirement that, absent such agreement, would no longer be applicable as the result of repeal or modification of a statutory or regulatory requirement shall be unenforceable.

(8) No component of an integrated environmental compliance agreement that would result in an increased regulatory compliance burden on any other entity shall be approved without such entity's consent.

(9) Paragraph (e) of subsection (3) of this section notwithstanding, if requested by the small community, the department may file in district court a complaint and a proposed consent order embodying the requirements of the integrated environmental compliance agreement to require compliance with any applicable standard, limitation, or order.

Source: L. 95: Entire article added, p. 1007, § 1, effective July 1. L. 96: (2) amended, p. 1473, § 24, effective June 1.

25-19-106. Planning assistance. The department of local affairs shall provide assistance to small communities in the preparation of environmental priorities plans upon request.

Source: L. 95: Entire article added, p. 1009, § 1, effective July 1.

25-19-107. Mentoring. The department, in cooperation with the department of local affairs, is authorized to identify opportunities for small communities with similar compliance problems to share information or for larger communities to work with small communities in addressing the technical and other issues involved in preparing an environmental priorities plan.

Source: L. 95: Entire article added, p. 1009, § 1, effective July 1.

25-19-108. Implementation within existing resources. Any department of state implementing any provision of this article shall do so without additional appropriations of state moneys and without additional personnel.

SAFETY - DISABLED PERSONS

ARTICLE 20

Duties Owed Disabled Persons - Identification

25-20-101.	Short title.	25-20-105.	Duty of medical practitioners.
25-20-102.	Definitions.	25-20-106.	Duty of others.
25-20-103.	Identifying devices for persons having certain conditions.	25-20-107.	Falsifying identification or misrepresenting condition.
25-20-104.	Duty of peace officer.	25-20-108.	Uniformity of application and construction.

25-20-101. Short title. This article shall be known and may be cited as the “Uniform Duties to Disabled Persons Act”.

Source: L. 73: p. 753, § 1. **C.R.S. 1963:** § 66-39-1.

25-20-102. Definitions. As used in this article, unless the context otherwise requires:

(1) “Disabled condition” means the condition of being unconscious, semiconscious, incoherent, or otherwise incapacitated to communicate.

(2) “Disabled person” means a person in a disabled condition.

(3) “Emergency symbol” means the caduceus inscribed within a six-barred cross used by the American medical association to denote emergency information.

(4) “Identifying device” means an identifying bracelet, necklace, metal tag, or similar device bearing the emergency symbol and the information needed in an emergency.

(5) “Medical practitioner” means a person licensed or authorized to practice medicine pursuant to article 36 of title 12, C.R.S.

(6) “Peace officer” means any county sheriff, undersheriff, deputy sheriff, or coroner, any municipal police officer or marshal, or any Colorado state patrol officer.

Source: L. 73: p. 753, § 1. **C.R.S. 1963:** § 66-39-2. **L. 94:** (4) amended, p. 2564, § 75, effective January 1, 1995. **L. 2005:** (4) amended, p. 651, § 24, effective May 27.

25-20-103. Identifying devices for persons having certain conditions. (1) A person who suffers from epilepsy, diabetes, a cardiac condition, or any other type of illness that causes temporary blackouts, semiconscious periods, or complete unconsciousness, or who suffers from a condition requiring specific medication or medical treatment, is allergic to certain medications or items used in medical treatment, wears contact lenses, has religious objections to certain forms of medication or medical treatment, or is unable to communicate

coherently or effectively in the English language, is authorized and encouraged to wear an identifying device.

(2) Any person may carry an identification card bearing his name, type of medical condition, physician's name, and other medical information.

(3) By wearing an identifying device a person gives his consent for any peace officer or medical practitioner who finds him in a disabled condition to make a reasonable search of his clothing or other effects for an identification card of the type described in subsection (2) of this section.

Source: L. 73: p. 754, § 1. C.R.S. 1963: § 66-39-3.

25-20-104. Duty of peace officer. (1) A peace officer shall make a diligent effort to determine whether any disabled person he finds is an epileptic or a diabetic, or suffers from some other type of illness that would cause the condition. Whenever feasible, this effort shall be made before the person is charged with a crime or taken to a place of detention.

(2) In seeking to determine whether a disabled person suffers from an illness, a peace officer shall make a reasonable search for an identifying device and an identification card of the type described in section 25-20-103 (2) and examine them for emergency information. The peace officer may not search for an identifying device or an identification card in a manner or to an extent that would appear to a reasonable person in the circumstances to cause an unreasonable risk of worsening the disabled person's condition.

(3) A peace officer who finds a disabled person without an identifying device or identification card is not relieved of his duty to that person to make a diligent effort to ascertain the existence of any illness causing the disabled condition.

(4) A claim for relief against a peace officer does not arise from his making a reasonable search of the disabled person to locate an identifying device or identification card, even though the person is not wearing an identifying device or carrying an identification card.

(5) A peace officer who determines or has reason to believe that a disabled person is suffering from an illness causing his condition shall promptly notify the person's physician, if practicable. If the officer is unable to ascertain the physician's identity or to communicate with him, the officer shall make a reasonable effort to cause the disabled person to be transported immediately to a medical practitioner or to a facility where medical treatment is available. If the officer believes it unduly dangerous to move the disabled person, he shall make a reasonable effort to obtain the assistance of a medical practitioner.

Source: L. 73: p. 754, § 1. C.R.S. 1963: § 66-39-4.

25-20-105. Duty of medical practitioners. (1) A medical practitioner, in discharging his duty to a disabled person whom he has undertaken to examine or treat, shall make a reasonable search for an identifying device or identification card of the type described in section 25-20-103 (2) and examine them for emergency information.

(2) A claim for relief against a medical practitioner does not arise from his making a reasonable search of a disabled person to locate an identifying device or identification card, even though the person is not wearing an identifying device or carrying an identification card.

Source: L. 73: p. 754, § 1. C.R.S. 1963: § 66-39-5.

25-20-106. Duty of others. (1) A person, other than a peace officer or medical practitioner, who finds a disabled person shall make a reasonable effort to notify a peace officer. If a peace officer or medical practitioner is not present, a person who finds a disabled person may make a reasonable search for an identifying device, and, if the identifying device is found, may make a reasonable search for an identification card of the type described in section 25-20-103 (2). If a device or card is located, the person making the search shall attempt promptly to bring its contents to the attention of a peace officer or medical practitioner.

- (2) A claim for relief does not arise from a reasonable search to locate an identifying device or identification card as authorized by subsection (1) of this section.
- (3) The duties imposed by this article are in addition to, and not in limitation of, other duties existing under the laws of this state.

Source: L. 73: p. 755, § 1. C.R.S. 1963: § 66-39-6.

25-20-107. Falsifying identification or misrepresenting condition. Any person who, with intent to deceive, provides, wears, uses, or possesses a false identifying device or identification card of the type described in section 25-20-103 (2) is guilty of a misdemeanor and, upon conviction thereof, shall be punished by imprisonment in the county jail for not more than ninety days, or by a fine of not more than three hundred dollars, or by both such fine and imprisonment.

Source: L. 73: p. 755, § 1. C.R.S. 1963: § 66-39-7.

25-20-108. Uniformity of application and construction. This article shall be so applied and construed as to make uniform the law with respect to the subject matter among those states which enact it.

ADMINISTRATION

25-20.5-101. Legislative declaration. (1) The general assembly hereby finds that:

(a) The state operates or state agencies provide funding for a wide variety of preven-
tion, intervention, and treatment programs designed to assist children and youth in achiev-
ing an education, in making informed choices about their health and well-being, in avoiding
the juvenile and criminal justice systems, and, generally, in becoming healthy, law-abiding,
contributing members of society;

(b) These prevention, intervention, and treatment programs are operated by or funded
through several departments within the executive branch, and this high degree of decen-
tralization often makes communications between and among these departments and pro-
grams difficult;

(c) There is some overlap among prevention, intervention, and treatment programs,
sometimes resulting in the potentially inefficient use of state resources which may result in
the provision of fewer services to children and youth;

(d) The dispersion of prevention, intervention, and treatment programs among state
departments makes it difficult for both state employees and the public to determine what
programs are available and what services are provided through prevention, intervention, and
treatment programs that are operated by or funded through state agencies;

(e) The term limitations placed on persons who serve in public office, including
members of the general assembly, make it increasingly important that information concern-
ing the existence, funding, and operation of prevention, intervention, and treatment pro-
grams for youth be readily accessible;

(f) In the area of prevention, intervention, and treatment services, there is a critical need
for local and state programs to overcome barriers and the categorical requirements of

various funding sources in order to design and implement programs that provide a more comprehensive response to the needs of Colorado youth;

(g) Research demonstrates that program coordination among multiple systems for the purpose of improving prevention, intervention, and treatment services results in significant positive outcomes;

(h) A unified, coordinated response to community-based programs for the delivery of prevention, intervention, and treatment services has proven to be an effective and efficient state response to local programs and their needs.

(2) The general assembly therefore finds that it is in the best interests of the children, youth, and families of the state to create a single division in the department of public health and environment to operate prevention and intervention programs and to oversee the provision of prevention, intervention, and treatment services through federally and state-funded prevention, intervention, and treatment programs to ensure collaboration among programs and the availability of a continuum of services for children and youth.

25-20.5-102. Definitions. As used in this article, unless the context otherwise requires:

(1) “Department” means the department of public health and environment, created pursuant to section 25-1-102.

(2) “Division” means the prevention services division created in section 25-20.5-103.

(3) “Executive director” means the executive director of the department of public health and environment.

(4) “Prevention, intervention, and treatment program” means a program that provides prevention, intervention, or treatment services.

(5) “Prevention, intervention, and treatment services” means services that are designed to promote the well-being of children and youth and their families by decreasing high-risk behaviors, strengthening healthy behaviors, and promoting family stability.

(6) “State plan” means the state plan for delivery of prevention, intervention, and treatment services to children and youth throughout the state adopted by the division pursuant to section 25-20.5-105.

Source: L. 2000: Entire article added, p. 562, § 1, effective May 18. **L. 2004:** (2) amended, p. 113, § 2, effective August 4.

25-20.5-103. Prevention services division - creation. (1) There is hereby created within the department of public health and environment a prevention services division. The division shall be headed by the director of prevention services appointed by the executive director of the department of public health and environment in accordance with section 13 of article XII of the state constitution.

(2) The division shall exercise its powers and perform its duties and functions specified in this article under the department of public health and environment as if it were transferred to the department by a **type 2** transfer as such transfer is defined in the “Administrative Organization Act of 1968”, article 1 of title 24, C.R.S.

Source: L. 2000: Entire article added, p. 563, § 1, effective May 18. **L. 2004:** (1) amended, p. 114, § 3, effective August 4.

25-20.5-104. Functions of division. (1) The division has the following functions:

(a) On or before February 1, 2001, to submit to the executive director, to the Tony Grampsas youth services board, and to the governor for approval a state plan for delivery of prevention, intervention, and treatment services to children and youth throughout the state as provided in section 25-20.5-105, and to biennially review the state plan and submit revisions as provided by rule of the state board of health to the executive director, the Tony Grampsas youth services board, and the governor for approval;

(b) To identify performance indicators for prevention, intervention, and treatment programs based on the standards adopted by the state board of health pursuant to section 25-20.5-106 (2) (d), and to review, as provided in section 25-20.5-108, all prevention, intervention, and treatment programs operated by the division and by other state departments;

(c) To act as a liaison with communities throughout the state and assist the communities in their efforts to assess their needs with regard to prevention, intervention, and treatment services and to provide information to assist the communities in obtaining funding for appropriate prevention, intervention, and treatment programs;

(d) To provide technical assistance to communities and to entities that provide prevention, intervention, and treatment services;

(e) To operate the prevention and intervention programs specified in this article and such other prevention and intervention programs as may be created in or transferred to the division by executive order to be funded solely by nonstate moneys, including but not limited to reviewing applications submitted by entities to receive funding through said programs, awarding grants based on such applications, and notifying the state board of health of the grants awarded and the amounts of said grants; except that the Tony Grampsas youth services board shall review applications and award grants for the programs specified in part 2 of this article;

(f) To solicit and accept grants from the federal government and to solicit and accept contributions, grants, gifts, bequests, and donations from individuals, private organizations, and foundations for the operation of any prevention and intervention programs under the authority of the division;

(g) To periodically review the federal funding guidelines for federal prevention, intervention, and treatment programs and to seek the maximum flexibility in the use of federal moneys in funding prevention, intervention, and treatment programs provided through the state plan;

(h) To seek such federal waivers as may be necessary to allow the division to combine federal moneys available through various federal prevention, intervention, and treatment programs and to combine said moneys with moneys appropriated by the general assembly to fund state prevention, intervention, and treatment programs to allow the greatest flexibility in awarding combined program funding to community-based prevention, intervention, and treatment programs;

(i) Repealed.

(2) In addition to any prevention and intervention programs created in or transferred to the division by executive order and any prevention and intervention programs transferred to the division by the executive director pursuant to subsection (4) of this section, the division shall operate the following prevention and intervention programs:

(a) The Tony Grampsas youth services program created in section 25-20.5-201;

(b) The Colorado youth mentoring services program created in section 25-20.5-203;

(c) The Colorado student dropout prevention and intervention program created in section 25-20.5-204;

(d) The Colorado children's trust fund created in article 3.5 of title 19, C.R.S.;

(e) The family resource center program created in section 26-18-104, C.R.S.;

(f) The school-based health center grant program created in part 5 of this article.

(3) In operating prevention and intervention programs, on receipt of an application for funding through any of said prevention and intervention programs, the division shall review the application and determine whether there are other prevention, intervention, and treatment programs operated by state agencies within this state through which funding may be available to the applicant. With the applicant's consent, the division shall forward a copy of the application to any such program for consideration.

(4) The executive director shall transfer any prevention and intervention programs operated by the department to the division, as he or she deems appropriate. The division shall collaborate with any other division within the department that operates a prevention, intervention, and treatment program in the same manner that it collaborates with other state agencies that operate prevention, intervention, and treatment programs.

Editor's note: Subsection (1)(i)(II) provided for the repeal of subsection (1)(i), effective July 1, 2004. (See L. 2000, p. 563.)

25-20.5-105. State plan for delivery of prevention, intervention, and treatment services to children and youth - contents. (1) On or before February 1, 2001, the division shall submit to the governor, the Tony Grampsas youth services board, and the executive director for approval a state plan for delivery of prevention, intervention, and treatment services to children and youth throughout the state. The state plan shall apply to all prevention, intervention, and treatment programs that receive state or federal funds and are operated within the state. The state plan shall be designed to coordinate and provide direction for the delivery of prevention, intervention, and treatment services through the various prevention and intervention programs operated by the division and the prevention, intervention, and treatment programs operated by other state departments and to ensure collaboration among programs that results in a continuum of services available to children and youth throughout the state. At a minimum, the state plan shall:

(a) Target and prioritize community prevention, intervention, and treatment services needs throughout the state;

(b) Specify the standards for and measurable outcomes anticipated to be achieved by prevention, intervention, and treatment programs that receive state and federal funds and the outcomes to be achieved through the coordination of said prevention, intervention, and treatment programs;

(c) Identify all state- and community-based prevention, intervention, and treatment programs that are receiving state and federal funds during the fiscal years for which the plan is submitted and the schedule for review of said prevention, intervention, and treatment programs;

(d) Identify the methods by which the division shall encourage collaboration at the local level among public and private entities, including but not limited to private for-profit and nonprofit providers and faith-based services providers, in providing prevention, intervention, and treatment services;

(e) Include any other information required by rule of the state board of health.

(2) The division shall biennially review and revise the state plan as necessary to ensure the most efficient and effective delivery of prevention, intervention, and treatment services throughout the state. The division shall submit any revised state plan as provided by rule of the state board of health to the governor, the Tony Grampsas youth services board, and the executive director for approval.

(3) In preparing the state plan and biennial revisions to the state plan, the division shall hold at least two public meetings to receive input from members of the public and from state agencies and entities operating prevention, intervention, and treatment programs.

(4) On or before March 15, 2001, the governor and the executive director shall submit copies of the approved state plan to the general assembly, to each state department that operates a prevention, intervention, and treatment program, and to each entity that will receive state or federal funds for the operation of a prevention, intervention, and treatment program during the fiscal years for which the state plan is prepared. The division shall provide copies of the approved state plan to any person upon request. The governor and the executive director shall submit copies of any approved revised state plans as provided by rule of the state board of health.

Source: L. 2000: Entire article added, p. 565, § 1, effective May 18.

25-20.5-106. State board of health - rules - program duties. (1) The state board of health created in section 25-1-103 shall promulgate rules as necessary for the operation of the division, including but not limited to rules establishing the time frames for review of the

state plan and submittal of any revised state plan to the governor, the Tony Grampsas youth services board, and the executive director and to the entities specified in section 25-20.5-105 (4).

(2) The state board of health also shall adopt rules for the uniform operation of federally and state-funded prevention, intervention, and treatment programs. In adopting such rules, the board shall take into account prevention, intervention, and treatment programs' need for responsiveness and flexibility and their need for procedures and standards that will ensure the provision of programs that meet a high standard of excellence. At a minimum such rules shall include:

(a) Standardized procedures for the operation of prevention, intervention, and treatment programs, including but not limited to:

(I) The use of a system whereby entities may use a single application to seek funding from a variety of prevention, intervention, and treatment programs;

(II) The use of uniform application forms promulgated by rule of the state board of health;

(III) Uniform standards regarding the information to be submitted by entities applying for funding for community-based prevention, intervention, and treatment programs;

(IV) Uniform application dates to the extent possible for all prevention, intervention, and treatment programs;

(V) Uniform standards for selecting community-based prevention, intervention, and treatment programs that receive funding through state prevention, intervention, and treatment programs;

(VI) Uniform monitoring and reporting forms, including rules to ensure that no prevention, intervention, and treatment program is required to submit more than one annual report;

(VII) A standard database of service providers by location;

(VIII) Internet access to each prevention, intervention, and treatment program;

(IX) The ability to submit applications and report submissions through the internet; and

(X) The use of contracts to combine multiple state and federal funding sources provided by or through various state agencies as a single funding grant to a prevention, intervention, and treatment program;

(b) Uniform, minimum standards for prevention, intervention, and treatment programs, including but not limited to requirements that each prevention, intervention, and treatment program that receives state or federal funds:

(I) Provide research-based prevention, intervention, and treatment services that have been previously implemented in one or more communities with demonstrated success or that otherwise demonstrate a reasonable potential for success; and

(II) Provide outcome-based prevention, intervention, and treatment services, specifying the outcomes to be achieved; and

(III) Work collaboratively with other public and private prevention, intervention, and treatment programs in the community and with local governments, county, district, and municipal public health agencies, county departments of social services, and faith-based organizations in the community;

(c) Uniform standards and procedures for reviewing state and local prevention, intervention, and treatment programs that receive state or federal funds;

(d) Performance standards and measurable outcomes for state and local prevention, intervention, and treatment programs that receive state or federal funds;

(e) Criteria for determining whether a program operated by a state agency constitutes a prevention, intervention, and treatment program;

(f) A formula for calculating the amount forwarded to the division by each prevention, intervention, and treatment program to offset the costs incurred by the division in reviewing the programs.

(3) The state board of health shall act as the program board for the oversight of the prevention and intervention programs operated by the division; except that the Tony Grampsas youth services board shall act as the program board for the programs specified in part 2 of this article and for any additional programs specified by executive order.

(4) In addition to any other duties specified in law, the state board of health shall have the following duties:

- (a) Repealed.
- (b) To assist division personnel in working with communities and local elected officials to identify the communities' prevention, intervention, and treatment services needs;
- (c) To assist division personnel in reviewing the performance of prevention, intervention, and treatment programs created in this article.

Source: **L. 2000:** Entire article added, p. 566, § 1, effective May 18. **L. 2002:** (4)(a) repealed, p. 222, § 1, effective April 3. **L. 2010:** (2)(b)(III) amended, (HB 10-1422), ch. 419, p. 2106, § 127, effective August 11.

25-20.5-107. Memoranda of understanding - duties of executive director - program meetings. (1) The executive director shall enter into a memorandum of understanding, as described in subsection (2) of this section, with each state agency that operates a prevention, intervention, and treatment program, as identified by the division pursuant to criteria adopted by rule of the state board of health.

(2) On or before July 1, 2001, each state agency that operates a prevention, intervention, and treatment program, as identified by the division based on criteria adopted by rule of the state board of health, shall enter into a memorandum of understanding with the executive director and the division through which, at a minimum, the state agency shall agree to:

(a) Comply with the rules for the operation of prevention, intervention, and treatment programs adopted by the state board of health pursuant to section 25-20.5-106;

(b) Upon receipt of a grant application, forward a copy of the application to other appropriate prevention, intervention, and treatment programs operated by state agencies for consideration and to collaborate in providing combined program grants to appropriate community-based prevention, intervention, and treatment programs;

(c) Comply with the prevention, intervention, and treatment program reporting requirements specified in section 25-20.5-108, and to forward a percentage of the program operating funds, as determined by rule, to the division to offset the costs incurred in reviewing the program;

(d) Seek such federal waivers as may be necessary to allow the agency to combine federal moneys available through various federal prevention, intervention, and treatment programs and to combine said moneys with moneys appropriated to fund state prevention, intervention, and treatment programs to allow the greatest flexibility in awarding combined program funding to community-based prevention, intervention, and treatment programs.

(3) Any state agency that fails to enter into and comply with a memorandum of understanding as described in subsection (2) of this section shall be ineligible for state funding for operation of a prevention, intervention, and treatment program until such time as the agency enters into and complies with the memorandum of understanding.

(4) The governor is strongly encouraged to deny federal funding for prevention, intervention, and treatment programs to any state agency that fails to enter into and comply with a memorandum of understanding as described in subsection (2) of this section.

(5) Beginning July 1, 2001, the office of legislative legal services shall annually review all bills enacted during a regular or special legislative session and identify any bills that appear to create a prevention, intervention, and treatment program in a state agency other than the division. The office of legislative legal services shall notify the division in writing of the enactment of such bill. Upon receipt of such notice, the division shall determine whether the identified program meets the criteria for a prevention, intervention, and treatment program adopted by rule of the state board of health. If the division determines based on such criteria that the program is a prevention, intervention, and treatment program, it shall notify in writing the state agency in which the program is created of the requirements of this section.

(6) (a) The executive director shall meet at least annually with the governor, or his or her designee, and with the executive directors specified in paragraph (b) of this subsection (6) to review the activities and progress of the division and its interaction with the

prevention, intervention, and treatment programs provided by other state agencies. The purpose of the meetings shall be to identify and streamline the prevention, intervention, and treatment programs operated by state agencies, as appropriate to achieve greater efficiencies and effectiveness for the state, for local communities, and for persons receiving services.

(b) The following executive directors shall attend the meetings required under this subsection (6):

(I) (Deleted by amendment, L. 2002, p. 222, § 2, effective April 3, 2002.)

(II) The commissioner of education;

(III) and (IV) (Deleted by amendment, L. 2002, p. 222, § 2, effective April 3, 2002.)

(V) The executive director of the department of human services;

(VI) and (VII) (Deleted by amendment, L. 2002, p. 222, § 2, effective April 3, 2002.)

(VIII) The executive director of the department of public safety; and

(IX) The executive director of the department of transportation.

Source: L. 2000: Entire article added, p. 568, § 1, effective May 18. L. 2002: (6)(a) and (6)(b) amended, p. 222, § 2, effective April 3.

25-20.5-108. Prevention, intervention, and treatment program requirements - reports - reviews - annual review summary. (1) Each state agency that operates a prevention, intervention, and treatment program, as identified by the division based on criteria adopted by rule of the state board of health, annually shall submit to the division the following information:

(a) The name of, statutory authority for, and funding source for each prevention, intervention, and treatment program operated by the state agency;

(b) The parameters of each prevention, intervention, and treatment program, including but not limited to the specific, measurable outcomes to be achieved by each prevention, intervention, and treatment program;

(c) The entities that are receiving funding through each prevention, intervention, and treatment program operated by the state agency, the amount awarded to each entity, and a description of the population served and prevention, intervention, and treatment services provided by each entity.

(2) (a) Except as otherwise provided in paragraph (b) of this subsection (2), each state agency using state or federal moneys to fund local prevention and intervention programs shall submit an annual report concerning these programs to the division. The state board of health by rule shall specify the time frames, procedures, and form for submittal of the report and the information to be included in the report, which at a minimum shall include:

(I) A description of the prevention, intervention, and treatment program, including but not limited to the population served, the prevention, intervention, and treatment services provided, and the goals and specific, measurable outcomes to be achieved by the prevention, intervention, and treatment program;

(II) Evidence of the prevention, intervention, and treatment program's progress in meeting its stated outcomes and goals during the preceding fiscal year and in previous fiscal years, depending on how long the prevention, intervention, and treatment program has been in operation;

(III) The sources from which the prevention, intervention, and treatment program receives funding and the amount received from each source;

(IV) A list of any entities that are collaborating in the delivery of prevention, intervention, and treatment services through the program.

(b) If a community-based prevention, intervention, and treatment program is required to submit an annual report that is comparable to the report described in paragraph (a) of this subsection (2) to a state agency other than the division, the state agency, in lieu of submittal of a report by the prevention, intervention, and treatment program as required in paragraph (a) of this subsection (2), shall forward a copy of the comparable report to the division in accordance with rules adopted by the state board of health. If a forwarded report does not include all of the information specified in paragraph (a) of this subsection (2), the division shall obtain such information directly from the community-based prevention, intervention, and treatment program.

(3) (a) The division, in accordance with the time frames adopted by rule of the state board of health, but at least every four years, shall review, or cause to be reviewed under a contract entered into pursuant to subsection (5) of this section, each state and community-based prevention, intervention, and treatment program operated within this state that receives state or federal funds. The division may establish a schedule for the review of prevention, intervention, and treatment programs pursuant to this subsection (3). The review shall be designed to determine whether the prevention, intervention, and treatment program is meeting its identified goals and outcomes and complying with all requirements of the agency overseeing the operation of the prevention, intervention, and treatment program and the applicable rules adopted by the state board of health pursuant to this article.

(b) If the division determines that a community-based prevention, intervention, and treatment program is not meeting or making adequate progress toward meeting the outcomes specified for the program or is otherwise failing to comply with statutory or regulatory requirements, the division shall revoke the grant issued to the program, if it was issued by the division, or recommend revocation to the state agency that issued the grant. The entity operating any program for which the grant is revoked may appeal as provided in the "State Administrative Procedure Act", article 4 of title 24, C.R.S.

(c) If the division determines that a state-operated prevention, intervention, and treatment program is not meeting or making adequate progress toward meeting the outcomes specified for the prevention, intervention, and treatment program or is otherwise failing to comply with statutory or regulatory requirements, the division shall recommend to the governor or to the general assembly, whichever is appropriate, that the prevention, intervention, and treatment program cease receiving state or federal funding.

(4) The division shall receive a percentage, as determined by rule, of the operating cost of each state prevention, intervention, and treatment program reviewed pursuant to this section to offset the costs incurred by the division in performing such review.

(5) The division may contract with one or more public or private entities to conduct the reviews of prevention, intervention, and treatment programs and assist in preparing the annual executive summary report as required in this section.

(6) The division shall annually prepare or oversee the preparation of an executive summary of the prevention, intervention, and treatment program reviews conducted during the preceding year and submit such summary to the governor, to the general assembly, to each state department that operates a prevention, intervention, and treatment program, and to each entity that received state or federal funds for operation of a prevention, intervention, and treatment program during the fiscal year for which the summary is prepared. In addition, the division shall provide copies of the summary to any person upon request.

25-20.5-109. Programs not included. (1) Notwithstanding any other provisions of this article to the contrary, the following programs are not subject to the requirements of this article:

(a) Any juvenile programs operated by the division of youth corrections in the department of human services;

(b) Any program operated for juveniles in connection with the state judicial system;

(c) Any program pertaining to out-of-home placement of children pursuant to title 19, C.R.S.

PART 2

TONY GRAMPSAS YOUTH SERVICES PROGRAM

25-20.5-201. Tony Grampsas youth services program - creation - standards - applications. (1) (a) The youth crime prevention and intervention program created in part 28 of article 32 of title 24, C.R.S., as it existed prior to August 1, 2000, is hereby transferred to the division and is renamed the Tony Grampsas youth services program. All program grants in existence as of July 1, 2000, shall continue to be valid through July 31, 2001. Persons appointed to the youth crime prevention and intervention program board, hereby renamed the Tony Grampsas youth services board, shall continue serving until completion of their terms and may be reappointed as provided in section 25-20.5-202.

(b) The Tony Grampsas youth services program is established to provide state funding for community-based programs that target youth and their families for intervention services in an effort to reduce incidents of youth crime and violence. In addition, the Tony Grampsas youth services program shall promote prevention and education programs that are designed to reduce the occurrence and reoccurrence of child abuse and neglect and to reduce the need for state intervention in child abuse and neglect prevention and education.

(2) (a) The Tony Grampsas youth services program shall be administered through the division. Subject to the designation in paragraph (b) of this subsection (2), the Tony Grampsas youth services board created in section 25-20.5-202 shall choose those entities that will receive grants through the Tony Grampsas youth services program and the amount of each grant. In addition, the division shall monitor the effectiveness of programs that receive funds through the Tony Grampsas youth services program.

(b) Any grant awarded through the Tony Grampsas youth services program shall be paid from moneys appropriated pursuant to paragraph (c) of this subsection (2) or out of the general fund for such program. Each year, no less than twenty percent of the appropriation shall be designated and used exclusively for programs designed for children younger than nine years of age. The board, in accordance with the timelines adopted pursuant to section 25-20.5-202 (3), shall submit a list of the entities chosen to receive grants to the governor for approval. The governor shall either approve or disapprove the entire list of entities by responding to the board within twenty days. If the governor has not responded to the board within twenty days after receipt of the list, the list shall be deemed approved. No grants shall be awarded through the Tony Grampsas youth services program without the prior approval of the governor.

(c) Pursuant to section 24-75-1104.5 (1) (i), C.R.S., and except as otherwise provided in section 24-75-1104.5 (5), C.R.S., beginning in the 2004-05 fiscal year, and for each fiscal year thereafter so long as the state receives moneys pursuant to the master settlement agreement, the general assembly shall appropriate to the division for the Tony Grampsas youth services program four percent of the amount of moneys transmitted to the state treasurer in accordance with the master settlement agreement, other than attorney fees and costs, for the preceding fiscal year; except that the amount so appropriated to the division in any fiscal year shall not exceed five million dollars. The general assembly shall appropriate the amount specified in this paragraph (c) from moneys credited to the tobacco litigation settlement cash fund created in section 24-22-115, C.R.S.

(3) To participate in the Tony Grampsas youth services program, an entity may apply to the board in accordance with timelines and guidelines adopted by the board pursuant to section 25-20.5-202.

(4) For purposes of this part 2, “entity” means any local government, Colorado public or nonsectarian secondary school, including charter schools, group of public or nonsectarian secondary schools, school district or group of school districts, board of cooperative services, institution of higher education, the Colorado National Guard, state agency, or state-operated program or any private nonprofit or not-for-profit community-based organization.

(5) Entities seeking to provide youth mentoring services or to enhance existing youth mentoring programs are encouraged to submit an application to the board for grants directly from the Tony Grampas youth services program, in addition to any funding the entities may be seeking from the youth mentoring services cash fund pursuant to section 25-20.5-203 (6), to establish or enhance youth mentoring programs. Entities submitting applications for grants directly from the Tony Grampas youth services program pursuant to this section need not meet the requirements of section 25-20.5-203 (5) (b).

Source: L. 2000: Entire article added, p. 575, § 1, effective May 18. **L. 2004:** (2)(b) amended and (2)(c) added, p. 1710, § 9, effective June 4. **L. 2009:** (2)(c) amended, (SB 09-269), ch. 333, p. 1767, § 7, effective June 1.

25-20.5-202. Tony Grampas youth services board - members - duties - student dropout prevention and intervention fund - creation. (1) (a) There is hereby created the Tony Grampas youth services board, referred to in this part 2 as the “board”, consisting of four members appointed by the governor, three members appointed by the speaker of the house of representatives, and two members appointed by the president of the senate and one member appointed by the minority leader of the senate. For the initial appointments, the governor shall appoint members to the board after the speaker of the house of representatives and the president and the minority leader of the senate have made appointments. No more than six of the members appointed to the board shall be members of the same political party.

(b) In addition to the appointed board members, the executive director shall serve as a member of the board.

(c) At the first meeting of the board, the members of the board shall choose a chairperson and a vice-chairperson.

(d) (I) In appointing members to the board, the governor, the speaker of the house of representatives, and the president and the minority leader of the senate shall choose persons who have a knowledge and awareness of innovative strategies for youth crime prevention and intervention services and for reducing the occurrence and reoccurrence of child abuse and neglect.

(II) In appointing members of the board, the governor, the speaker of the house of representatives, and the president and the minority leader of the senate shall appoint one or more persons who possess knowledge and awareness of early childhood care and education. In addition, the speaker of the house of representatives and the president of the senate shall each appoint at least one person who has a knowledge and awareness of student issues, including the causes of student dropout in secondary schools, as well as innovative strategies for reducing the dropout rate among secondary school students. For purposes of this subparagraph (II), “early childhood” means younger than nine years of age.

(III) In appointing members, the governor shall appoint at least one member to the board who is representative of a minority community.

(IV) Beginning with the members appointed to terms beginning July 1, 2001, the governor, in appointing members, shall appoint at least one person who is knowledgeable in the area of child abuse prevention and at least one person who is knowledgeable in the area of community planning for youth violence prevention.

(e) The appointed members of the board shall serve three-year terms; except that, of the members first appointed, one of the members appointed by the governor shall serve a two-year term, two of the members appointed by the governor shall serve one-year terms, one of the members appointed by the speaker of the house of representatives shall serve a two-year term, and one of the members appointed by the president of the senate shall serve a two-year term. The respective appointing person shall choose those members who shall serve initial shortened terms. If a vacancy arises in one of the appointed offices, the

authority making the original appointment shall fill the vacancy for the remainder of the term. Members of the board shall serve without compensation but shall be reimbursed out of available appropriations for all actual and necessary expenses incurred in the performance of their duties.

(f) The board is authorized to meet, when necessary, via telecommunications.

(2) (a) The board shall develop and make available program guidelines including but not limited to:

(I) Guidelines for proposal design;

(II) Local public-to-private funding match requirements; and

(III) Processes for local review and prioritization of program applications.

(b) In addition to the guidelines developed pursuant to paragraph (a) of this subsection (2), the board shall develop criteria for awarding grants under the Tony Grampsas youth services program, including but not limited to the following requirements:

(I) That the program is operated in cooperation with a local government, a local governmental agency, or a local nonprofit or not-for-profit agency;

(II) That the program is community-based, receiving input from organizations in the community such as schools, community mental health centers, local nonprofit or not-for-profit agencies, local law enforcement agencies, businesses, and individuals within the community; and

(III) (A) That the program is directed at providing intervention services to youth and their families in an effort to decrease incidents of crime and violence or that the program is directed at providing services to at-risk students and their families in an effort to reduce the dropout rate in secondary schools pursuant to section 25-20.5-204.

(B) If an entity is seeking a grant from the board for a student dropout prevention and intervention program pursuant to section 25-20.5-204, one of the criteria that the board shall consider is whether the program has been implemented elsewhere, if known, and, if so, the relative success of the program. It shall not be required, however, that the program be previously implemented for the board to award a grant to the entity.

(C) If an entity is seeking a grant from the board for a program directed at providing intervention services to youth and their families in an effort to decrease incidents of crime and violence, one of the criteria that the board shall consider is whether the program includes restorative justice components. It shall not be required, however, that the program include restorative justice components for the board to award a grant to the entity.

(c) In addition to the guidelines and criteria developed pursuant to paragraphs (a) and (b) of this subsection (2), the board shall develop result-oriented criteria for measuring the effectiveness of programs that receive grants under the Tony Grampsas youth services program as deemed appropriate to the nature of each program including, but not limited to, requiring grantees to evaluate the impact of the services provided by the program. Any criteria developed pursuant to this paragraph (c) for measuring the effectiveness of student dropout prevention and intervention programs established pursuant to section 25-20.5-204 shall include the implementation of a method by which to track the students served by the program to evaluate the impact of the services provided, which tracking shall continue, if possible, for at least two years or through graduation from a secondary school, whichever occurs first.

(3) (a) In addition to the guidelines and criteria developed pursuant to subsection (2) of this section, the board shall establish timelines for submission and review of applications for grants through the Tony Grampsas youth services program. The board shall also adopt timelines for submission to the governor of the list of entities chosen to receive grants. If the governor disapproves the list, the board may submit a replacement list within thirty days after such disapproval.

(b) Repealed.

(4) The board shall review all applications received pursuant to section 25-20.5-201 for grants from the Tony Grampsas youth services program and choose those entities that shall receive grants through the Tony Grampsas youth services program and the amount of each grant.

(5) In addition to the duties relating specifically to the Tony Grampsas youth services program specified in this section, the board shall operate the prevention, intervention, and

treatment programs specified in this part 2 and such other prevention, intervention, and treatment programs as may be assigned to the board by executive order to be funded solely by federal funds.

Source: **L. 2000:** Entire article added, p. 576, § 1, effective May 18. **L. 2005:** (3)(b) repealed, p. 288, § 36, effective August 8. **L. 2007:** (2)(b)(III) amended, p. 278, § 4, effective March 29.

25-20.5-203. Colorado Youth Mentoring Services Act. (1) **Short title.** This section shall be known and may be cited as the “Colorado Youth Mentoring Services Act”.

(2) **Legislative declaration.** (a) The general assembly hereby finds and declares that mentoring programs such as big brothers, big sisters, and partners have been active in Colorado for many years. The general assembly finds that national research has indicated that structured mentoring programs are effective tools in combating youth substance abuse and youth crime and violence. The general assembly further finds, based upon recent national research results, that at-risk youth who are matched in a minimum of year-long mentoring relationships are less likely to become involved in substance and alcohol abuse, less likely to be truant, less likely to commit violent acts against other persons, and more likely to show improvements in academic performance and positive peer relations.

(b) The general assembly further finds that, despite the positive results that may be achieved through structured youth mentoring programs, as many as thirty-eight counties in the state of Colorado do not have the organizational resources necessary to carry out successful mentoring programs or lack the adult volunteers to establish such programs or both. The general assembly finds that even counties in which there are established youth mentoring programs, such programs are unable to meet the demand for mentors and that such established programs have waiting lists that exceed two thousand youths.

(c) The general assembly therefore declares and determines that the provision of youth mentoring services that would use public and private entities to recruit, train, screen, and supervise adult volunteers to serve as mentors for at-risk youth would be beneficial and in the best interests of the citizens of the state of Colorado.

(3) **Definition.** For purposes of this section, “at-risk youth” means a person who is at least five years of age but who is less than eighteen years of age and who is challenged by such risk factors as poverty, residence in a substance-abusing household, family conflict, association with peers who commit crimes, residence in a single-parent household, exhibition of indicia of delinquent behavior, or being the victim of child abuse.

(4) **Provision of youth mentoring services.** There is hereby created the Colorado youth mentoring program for the purpose of providing state funding for the provision of community-based youth mentoring services that target at-risk youths in an effort to reduce substance abuse and to decrease the incidents of youth crime and violence. Such funding shall be used to provide new mentoring services in communities that do not have existing mentoring programs as well as to enhance established community-based youth mentoring programs that are already in existence.

(5) **Administration - duties of contracting entities.** (a) To be eligible for moneys from the youth mentoring services cash fund created in subsection (6) of this section, for the provision of youth mentoring services, an entity shall apply to the board in accordance with the timelines and guidelines adopted by the board pursuant to section 25-20.5-202 and shall meet the requirements of paragraph (b) of this subsection (5).

(b) The entities that are selected by the board to provide community-based youth mentoring services shall be responsible for:

(I) Actively recruiting qualified and appropriate adult volunteers who are willing to serve as youth mentors for a period of not less than one year and to commit to spending an average of three hours per week with the at-risk youth;

(II) Effectively screening adult volunteers to serve as mentors, including but not limited to conducting criminal background checks of such adult volunteers;

(III) Providing training and ongoing support to adult volunteers to prepare them to serve in one-year mentoring relationships with at-risk youths;

(IV) Carefully matching each adult volunteer with an at-risk youth based upon the unique qualifications of the adult volunteer and the specific needs of the youth;

(V) Supervising closely and through case managers the activities of the adult volunteer and the mutual benefits and effectiveness of the mentoring relationship;

(VI) Making available life skill workshops, recreational activities, and community service opportunities to the at-risk youth and adult volunteer;

(VII) Implementing a method of evaluating the effectiveness of the community-based youth mentoring program and tracking the youths served by the program to evaluate the impact of the services provided through the program; and

(VIII) Reporting annually to the board concerning the results of the entity's evaluation of youths served by the community-based youth mentoring program as well as the fiscal contributions made by the entity to the program and such other information that the board may require.

(c) Community-based organizations may obtain private and public funds, grants, gifts, or donations for youth mentoring programs. The executive director is authorized to accept and expend on behalf of the state any funds, grants, gifts, or donations from any private or public source for the purpose of implementing this section; except that no grant or donation shall be accepted if the conditions attached to the grant or donation require the expenditure thereof in a manner contrary to law.

(d) Entities selected to receive grants pursuant to this section for the provision of youth mentoring services shall match any grant received with a contribution that is the equivalent of twenty percent of the grant awarded.

(6) **Youth mentoring services cash fund.** (a) There is hereby created in the state treasury the youth mentoring services cash fund. The moneys in the youth mentoring services cash fund shall be subject to annual appropriation by the general assembly for the direct and indirect costs associated with the implementation of this section. The executive director is authorized to accept on behalf of the state any grants, gifts, or donations from any private or public source for the purpose of this section. All private and public funds received through grants, gifts, or donations shall be transmitted to the state treasurer, who shall credit the same to the youth mentoring services cash fund. All investment earnings derived from the deposit and investment of moneys in the fund shall remain in the fund and shall not be transferred or revert to the general fund of the state at the end of any fiscal year.

(b) Notwithstanding any provision of paragraph (a) of this subsection (6) to the contrary, on April 20, 2009, the state treasurer shall transfer the balance of moneys in the youth mentoring services cash fund to the general fund.

Source: L. 2000: Entire article added, p. 579, § 1, effective May 18. L. 2009: (6) amended, (SB 09-208), ch. 149, p. 625, § 27, effective April 20.

25-20.5-204. Colorado student dropout prevention and intervention program.

(1) **Short title.** This section shall be known and may be cited as the "Colorado Student Dropout Prevention and Intervention Act".

(2) **Legislative declaration.** The general assembly hereby finds that:

(a) During the last decade, over one hundred thousand students in Colorado left school without successfully completing a high school program;

(b) In 1996, three million six hundred thousand young adults in the United States were neither enrolled in school nor had they completed a high school program;

(c) In the 1995-1996 academic year, approximately thirteen thousand students withdrew from Colorado schools prior to receiving a diploma, resulting in a four percent dropout rate;

(d) Of those students who withdrew from Colorado schools prior to receiving a diploma, approximately five thousand nine hundred were minority students;

(e) The dropout rate of minority students in Colorado is significantly greater than that of nonminority students;

(f) Numerous factors, including socioeconomic background, lack of adult support, and the inability to communicate well in English, influence a student's decision to drop out of school;

(g) Research has shown that, compared with high school graduates, relatively more dropouts are unemployed, and those dropouts who do succeed in finding work tend to earn less money than high school graduates; and

(h) High school dropouts are more likely to apply for and receive public assistance than high school graduates.

(3) **Definitions.** For purposes of this section:

(a) “At-risk students” means students in secondary schools who are at risk of dropping out of school because of their socioeconomic background, lack of adult support, language barriers, or other identified indicators that cause students to drop out of school.

(b) “Entity” means any local government, Colorado public or nonsectarian secondary school, including charter schools, group of public or nonsectarian secondary schools, school district or group of school districts, board of cooperative services, institution of higher education, the Colorado National Guard, state agency, or state-operated program or any private nonprofit or not-for-profit community-based organization.

(4) **Colorado student dropout prevention and intervention program.** There is hereby created the Colorado student dropout prevention and intervention program in the Tony Grampsas youth services program for the purpose of providing services to at-risk students and their families in an effort to reduce the dropout rate in secondary schools through an appropriate combination of academic and extracurricular activities designed to enhance the overall education and edification of students in secondary schools.

(5) **Administration.** (a) The student dropout prevention and intervention program shall be administered through the division. Subject to the designation in paragraph (b) of this subsection (5), the Tony Grampsas youth services board created in section 25-20.5-202 shall select those entities that will receive grants through the student dropout prevention and intervention program and the amount of each grant. In addition, the division shall monitor the effectiveness of programs that receive funds through the student dropout prevention and intervention program. To be eligible for grants from the Tony Grampsas youth services board for the provision of student dropout prevention and intervention programs targeting at-risk students, an entity shall apply to the board in accordance with the timelines and guidelines adopted by the board pursuant to section 25-20.5-202.

(b) Any moneys awarded by the Tony Grampsas youth services board shall be paid from moneys appropriated out of the general fund for such program. Each year no less than ten percent of the total appropriation from the general fund shall be designated and used exclusively for programs specifically designed to prevent students from dropping out of secondary schools; except that, commencing in fiscal year 2004-05 and in each fiscal year thereafter, no less than twenty percent of the total appropriation shall be designated and used exclusively for such purpose.

(6) **Receipt of moneys.** (a) The executive director is authorized to accept on behalf of the state any funds, grants, gifts, or donations from any private or public source for the purpose of implementing student dropout prevention and intervention programs pursuant to this article; except that no funds, grants, gifts, or donations shall be accepted if the conditions attached thereto require the expenditure thereof in a manner contrary to law.

(b) (I) All private and public moneys received through funds, grants, gifts, or donations pursuant to this subsection (6) shall be transmitted to the state treasurer, who shall credit the same to the student dropout prevention and intervention fund, which fund is hereby created. The moneys in the fund shall be subject to annual appropriation by the general assembly for the direct and indirect costs associated with the administration of this article. The executive director may expend moneys appropriated to the department from the fund for purposes of providing a grant for the implementation and administration of a student dropout prevention and intervention program. All investment earnings derived from the deposit and investment of moneys in the fund shall be credited to the fund. Any moneys not appropriated shall remain in the fund and shall not be transferred or revert to the general fund of the state at the end of any fiscal year.

(II) Notwithstanding any provision of subparagraph (I) of this paragraph (b) to the contrary, on April 20, 2009, the state treasurer shall transfer the balance of moneys in the student dropout prevention and intervention fund to the general fund.

Source: L. 2000: Entire article added, p. 581, § 1, effective May 18. L. 2009: (6)(b) amended, (SB 09-208), ch. 149, p. 626, § 28, effective April 20.

25-20.5-205. Colorado student before-and-after-school project - creation - funding. (1) **Definitions.** As used in this section, unless the context otherwise requires:

(a) “Before-and-after-school program” means a program that meets before regular school hours or after regular school hours or during a period when school is not in session.

(b) “Fund” means the Colorado student before-and-after-school project fund created in subsection (4) of this section.

(c) “Project” means the Colorado before-and-after-school project created in subsection (2) of this section.

(2) **Colorado student before-and-after-school project.** There is hereby created, in the Tony Grampas youth services program, the Colorado student before-and-after-school project for the purpose of providing grants to entities to provide high-quality before-and-after-school programs that may include an alcohol or drug abuse prevention and education component. Entities that receive grants pursuant to this section shall apply the grants to creating and implementing before-and-after-school programs that primarily serve youth enrolled in grades six through eight or youth who are twelve to fourteen years of age. The before-and-after-school programs shall be designed to help youth develop their interests and skills in the areas of sports and fitness, character and leadership, or arts and culture and may provide education regarding the dangers of the use of alcohol and drugs. Before-and-after-school programs that are designed primarily to increase academic achievement or that provide religious instruction are not eligible for funding pursuant to this section.

(3) **Administration.** (a) The division shall administer the project. The board shall select the entities that will receive grants through the project and the amount of each grant. In addition, the division shall monitor the effectiveness of before-and-after-school programs that receive moneys through the project. To be eligible for grants through the project, an entity shall apply to the board in accordance with the timelines and guidelines adopted by the board pursuant to section 25-20.5-202. Notwithstanding any provision of this part 2 or any criteria for awarding grants adopted by the board pursuant to section 25-20.5-202 (2) (b) to the contrary, an entity may be eligible to receive a grant pursuant to this section regardless of whether the before-and-after-school program to which the grant would apply serves youth who are eligible for free or reduced-cost lunch pursuant to the “National School Lunch Act”, 42 U.S.C. sec. 1751 et seq.

(b) The grants awarded through the project shall be paid from moneys appropriated from the fund to the division. The board and grant recipients are encouraged to apply moneys awarded through the project to leverage additional funding as matching funds from private and federal sources.

(4) **Colorado student before-and-after-school project fund.** There is hereby created in the state treasury the Colorado student before-and-after-school project fund that shall consist of moneys that may be appropriated by the general assembly to the fund. The moneys in the fund shall be subject to annual appropriation by the general assembly to the division for the purpose of providing grants as provided in this section and the direct and indirect costs associated with the implementation of this section. Any moneys in the fund not expended for the purpose of this section may be invested by the state treasurer as provided by law. All interest and income derived from the investment and deposit of moneys in the fund shall be credited to the fund. Any unexpended and unencumbered moneys remaining in the fund at the end of a fiscal year shall remain in the fund and shall not be credited or transferred to the general fund or another fund.

PART 3

CANCER, CARDIOVASCULAR DISEASE, AND CHRONIC PULMONARY DISEASE PREVENTION, EARLY DETECTION, AND TREATMENT PROGRAM

Cross references: For the legislative declaration contained in the 2005 act enacting this part 3, see section 1 of chapter 241, Session Laws of Colorado 2005.

25-20.5-301. Definitions. As used in this part 3, unless the context otherwise requires:

(1) "Health disparities" means an unequal burden of cancer, cardiovascular disease, or chronic pulmonary disease impacting specific populations, including but not limited to racial and ethnic populations, minority populations, rural populations, urban populations, low-income populations, or any other underserved population.

(2) "Program" means the cancer, cardiovascular disease, and chronic pulmonary disease prevention, early detection, and treatment program created in section 25-20.5-302.

(3) "Review committee" means the cancer, cardiovascular disease, and chronic pulmonary disease program review committee created pursuant to section 25-20.5-303.

Source: L. 2005: Entire part added, p. 936, § 27, effective June 2.

25-20.5-302. Program. (1) There is hereby created, in the prevention services division of the department, the cancer, cardiovascular disease, and chronic pulmonary disease prevention, early detection, and treatment program for the purpose of assisting in the implementation of the state's strategic plans regarding cancer and cardiovascular disease. The program shall fund competitive grants to provide a cohesive approach to cancer, cardiovascular disease, and chronic pulmonary disease prevention, early detection, and treatment in Colorado. The division shall administer the program with the goal of developing a comprehensive approach that will bring together stakeholders at the community and state level who are interested in impacting cancer, cardiovascular disease, or chronic pulmonary disease. Grant applications shall address at least one of the following program criteria:

(a) Translating evidence-based strategies regarding the prevention and early detection of cancer, cardiovascular disease, and chronic pulmonary disease into practical application in healthcare, workplace, and community settings;

(b) Providing appropriate diagnosis and treatment services for anyone who has abnormalities discovered in screening and early detection programs;

(c) Implementing education programs for the public and health care providers regarding the prevention, early detection, and treatment of cancer, cardiovascular disease, and chronic pulmonary disease; and

(d) Providing evidence-based strategies to overcome health disparities in the prevention and early detection of cancer, cardiovascular disease, and chronic pulmonary disease.

Source: L. 2005: Entire part added, p. 937, § 27, effective June 2.

25-20.5-303. Cancer, cardiovascular disease, and chronic pulmonary disease program review committee. (1) There is hereby created the cancer, cardiovascular disease, and chronic pulmonary disease program review committee. The review committee is established in the prevention services division of the department. The review committee is responsible for overseeing program strategies and activities and ensuring compliance with section 25-20.5-302.

(2) The review committee shall consist of the director of the disease prevention services division of the department, or the director's designee, and fifteen members appointed as follows:

(a) The executive director of the department or the executive director's designee.

(b) The executive director shall appoint three members, all of whom are department staff with expertise in cancer, cardiovascular disease, or chronic pulmonary disease.

(c) The state board shall appoint:

(I) One member who is a member of the state board;

(II) One member who is a chronic pulmonary disease professional;

(III) One member who is cardiovascular disease professional;

(IV) One member who is a cancer professional;

(V) Two members who are public health professionals;

(VI) One member who is a recognized expert in health disparities;

(VII) One member who represents the rural interest in regard to the prevention, early detection, and treatment of cancer, cardiovascular disease, and chronic pulmonary disease; and

(VIII) One member who is a primary care provider.

(d) The president of the senate shall appoint one member of the senate.

(e) The speaker of the house of representatives shall appoint one member of the house of representatives.

(3) (a) Except as provided in paragraph (b) of this subsection (3), members of the review committee shall serve three-year terms; except that, of the members initially appointed to the review committee, five members appointed by the state board shall serve two-year terms. Members of the review committee appointed pursuant to paragraph (c) of subsection (2) of this section shall not serve more than two consecutive terms.

(b) The terms of the members appointed by the speaker of the house of representatives and the president of the senate and who are serving on March 22, 2007, shall be extended to and expire on or shall terminate on the convening date of the first regular session of the sixty-seventh general assembly. As soon as practicable after such convening date, the speaker and the president shall appoint or reappoint members in the same manner as provided in paragraphs (d) and (e) of subsection (2) of this section. Thereafter, the terms of members appointed or reappointed by the speaker and the president shall expire on the convening date of the first regular session of each general assembly, and all subsequent appointments and reappointments by the speaker and the president shall be made as soon as practicable after such convening date. The person making the original appointment or reappointment shall fill any vacancy by appointment for the remainder of an unexpired term. Members shall serve at the pleasure of the appointing authority and shall continue in office until the member's successor is appointed.

(4) The composition of the review committee shall reflect, to the extent practical, Colorado's ethnic, racial, and geographical diversity.

(5) The review committee shall elect from its membership a chair and a vice-chair of the committee.

(6) The division shall provide staff support to the review committee.

(7) Members of the review committee shall serve without compensation but shall be reimbursed from moneys deposited in the prevention, early detection, and treatment fund created in section 24-22-117, C.R.S., for their actual and necessary expenses incurred in the performance of their duties pursuant to this part 3.

(8) If a member of the review committee has an immediate personal, private, or financial interest in any matter pending before the review committee, the member shall disclose the fact and shall not vote upon such matter.

Source: L. 2005: Entire part added, p. 937, § 27, effective June 2. **L. 2007:** (3) amended, p. 188, § 24, effective March 22.

25-20.5-304. Grant program. (1) The program shall fund programs and initiatives that provide evidence-based education and intervention strategies for cancer, cardiovascular disease, and chronic pulmonary disease prevention, early detection, and treatment through a competitive grant program which shall be overseen by the review committee. The state board, upon recommendations of the review committee, shall adopt rules that specify, but need not be limited to, the following:

(a) The procedures and timelines by which an entity may apply for program grants;

(b) Grant application contents;

(c) Criteria for selecting the entities that shall receive grants and determining the amount and duration of the grants;

(d) Reporting requirements for entities that receive grants pursuant to this section; and

(e) The qualifications of an adequate proposal.

(2) The review committee shall review the applications received pursuant to this section and submit to the state board and the executive director of the department recommended grant recipients, grant amounts, and the duration of each grant. Within thirty days after receiving the review committee's recommendations, the executive director shall

submit his or her recommendations to the state board. The review committee's recommendations regarding grants for projects impacting rural areas shall be submitted to the state board and the executive director of the department of local affairs. Within thirty days after receiving the review committee's recommendations, the executive director of the department of local affairs shall submit his or her recommendations to the state board. The state board shall have the final authority to approve the grants under this part 3. If the state board disapproves a recommendation for a grant recipient, the review committee may submit a replacement recommendation within thirty days. In making grant recommendations, the review committee shall follow the intent of the program as outlined in section 25-20.5-302. The state board shall award grants to the entities selected by the review committee, specifying the amount and duration of each grant award. In reviewing and approving grant applications, the review committee and the state board shall ensure that grants are distributed statewide and address the needs of Colorado's disparate populations, as well as the needs of both urban and rural residents of Colorado. Grants providing for treatment services shall not exceed ten percent of the total amount of grant funds distributed in any given year.

(3) (a) For the prevention, early detection, and treatment of cardiovascular disease, the review committee and the state board are encouraged to consider programs that address the major risk factors of cardiovascular disease including but not limited to blood pressure, cholesterol, and diabetes screenings.

(b) For the prevention, early detection, and treatment of cancer, the review committee and the state board are encouraged to consider programs to increase screening for cancer including but not limited to colorectal cancer screening.

(c) For the prevention, early detection, and treatment of chronic pulmonary disease, the review committee and the state board are encouraged to consider programs to expand the prevention, early detection, and treatment of chronic pulmonary diseases.

(4) A minimum of ten percent of the moneys awarded through the grant program shall be directed to projects impacting rural areas as part of the governor's rural healthcare initiative and a minimum of ten percent of the moneys awarded through the grant program shall be directed to each of the following three disease areas: Cancer; cardiovascular disease; and chronic pulmonary disease; except that, if the review committee determines that there are no adequate proposals in a given disease or geographic area for a particular grant cycle, the review committee may waive the ten percent requirement.

Source: L. 2005: Entire part added, p. 939, § 27, effective June 2.

25-20.5-305. Evaluation. Commencing with the 2006-07 fiscal year, and each fiscal year thereafter, the state board shall select a grant recipient to evaluate the effectiveness of the program and the health disparities grant program established pursuant to part 22 of article 4 of this title. Costs for the evaluation shall be adequately funded from the amount annually appropriated by the general assembly to the division from the prevention, early detection, and treatment fund.

Source: L. 2005: Entire part added, p. 940, § 27, effective June 2.

25-20.5-306. Administration - limitation. (1) Except as provided in subsection (2) of this section, the prevention services division of the department may receive up to five percent of the moneys annually appropriated by the general assembly to the division from the prevention, early detection, and treatment fund created in section 24-22-117, C.R.S., for the actual costs incurred in administering the program, including the hiring of sufficient staff within the division to effectively administer the program and the reimbursement of review committee members pursuant to section 25-20.5-303 (4).

(2) For fiscal year 2011-12, and for any fiscal year in which a declaration of a state fiscal emergency is declared pursuant to section 21 (7) of article X of the state constitution, the prevention services division of the department may receive up to five percent of the moneys annually appropriated by the general assembly from the prevention, early detection,

and treatment fund created in section 24-22-117, C.R.S., for the actual costs incurred in administering the program, including the hiring of sufficient staff within the division to effectively administer the program and the reimbursement of review committee members pursuant to section 25-20.5-303 (4).

Source: L. 2005: Entire part added, p. 940, § 27, effective June 2. **L. 2011:** Entire section amended, (SB 11-211), ch. 145, p. 504, § 5, effective June 3.

PART 4

CHILD FATALITY PREVENTION ACT

25-20.5-401. Short title. This part 4 shall be known and may be cited as the “Child Fatality Prevention Act”.

Source: L. 2005: Entire part added, p. 974, § 1, effective June 2.

25-20.5-402. Legislative declaration. (1) The general assembly hereby finds and declares that protection of the health and welfare of the children of this state is an important goal of the citizens of this state, and the injury and death of infants and children are serious public health concerns that require legislative action. The general assembly further finds that the prevention of the abuse, neglect, and death of children is a community responsibility; that professionals from disparate disciplines have responsibilities to children and have expertise that can promote the safety and well-being of children; and that multidisciplinary reviews of the abuse, neglect, and death of children can lead to a greater understanding of the causes of, and methods of preventing, the abuse, neglect, and death of children.

(2) It is, therefore, the intent of the general assembly in enacting this part 4 to establish a statewide multidisciplinary, multi-agency child fatality prevention system. The purpose of the system is to:

(a) Review specified deaths of children from birth to eighteen years of age occurring in Colorado involving circumstances in which the children are receiving services from a county department or in which there has been a report of suspected abuse or neglect in order to develop a community approach to the problem of child abuse and neglect;

(b) Review the records of all other unexpected and unexplained deaths of children from birth to eighteen years of age occurring in Colorado in order to develop a community approach to the prevention of childhood fatalities;

(c) Understand the incidence and causes of childhood deaths;

(d) Identify services provided by public agencies to children and their families that are designed to prevent child abuse, neglect, or death, and that are effective in preventing child abuse, neglect, or death;

(e) Identify any gaps or deficiencies that may exist in the delivery of services provided by public agencies to children and their families that are designed to prevent child abuse, neglect, or death; and

(f) Make recommendations for, act as a catalyst for, and implement any changes to laws, rules, and policies that will support the safe and healthy development of the children in this state and prevent child abuse, neglect, and death.

Source: L. 2005: Entire part added, p. 974, § 1, effective June 2.

25-20.5-403. Definitions. As used in this part 4, unless the context otherwise requires:

(1) “County department” means the county or district department of social services.

(2) “Local review team” means a local child fatality prevention review team established pursuant to section 25-20.5-404.

(3) “State review team” means the Colorado state child fatality prevention review team created pursuant to section 25-20.5-406.

(4) “Unexpected and unexplained death” means a death that, prior to investigation, appears to have been caused by trauma, suspicious or obscure circumstances, or child abuse or neglect. An “unexpected and unexplained death” includes, but is not limited to, death from vehicular trauma, fire, drowning, abuse, suicide, and unknown causes.

Source: L. 2005: Entire part added, p. 975, § 1, effective June 2.

25-20.5-404. Local review teams - creation - membership - authority. (1) Each judicial district may establish, subject to available appropriations, a local child fatality prevention review team. The first meeting of a local review team shall be called by the district attorney of the judicial district in which the local review team is located.

(2) Each local review team shall consist of representatives of public and nonpublic agencies in the judicial district that provide services to children and their families and of other individuals who represent the community.

(3) (a) Local review teams shall include representatives from the following entities located in the judicial district:

- (I) Each county department;
- (II) Local law enforcement agencies;
- (III) The district attorney’s office;
- (IV) School districts;
- (V) Each county department of public health;
- (VI) Each coroner’s office or county medical examiner’s office; and
- (VII) Each county attorney’s office.

(b) Local review teams may include but are not limited to representatives from the following entities or groups located in the judicial district:

- (I) Hospitals, trauma centers, or other providers of emergency medical services;
- (II) Each county board of social services;
- (III) Mental health professionals;
- (IV) Medical professionals specializing in pediatrics;
- (V) Each court-appointed special advocate program;
- (VI) Child advocacy centers;
- (VII) Private out-of-home placement providers;
- (VIII) Victim advocates associated with law enforcement agencies; and
- (IX) The community at large.

(4) Each local review team has the authority to establish committees to review specific types of childhood deaths.

Source: L. 2005: Entire part added, p. 975, § 1, effective June 2.

25-20.5-405. Local review teams - duties - authority. (1) Each local review team shall review the following types of cases:

(a) A case of unexpected and unexplained death of a child eighteen years of age or younger occurring in the judicial district of the local review team;

(b) A case occurring in the judicial district involving the death of a child eighteen years of age or younger who was:

(I) In the custody of the department of human services or the county department at the time of death;

(II) The subject of an open child welfare case maintained by a county department of social services; or

(III) Reported as a child involved in an investigation of suspected abuse or neglect by a county department of social services or a law enforcement agency at any time during the twelve months preceding the child’s death.

(2) With respect to each case reviewed, the local review team shall:

(a) Review the cause and manner of the child’s death as determined by the local coroner, pathologist, or medical examiner, and attempt to determine whether the local review team concurs with the coroner’s, pathologist’s, or medical examiner’s findings;

(b) In cases in which the local review team does not concur with the cause or manner of death as determined by the local coroner, pathologist, or medical examiner, forward a report of the local review team's analysis of the cause and manner of the child's death to the local coroner, pathologist, or medical examiner for his or her consideration;

(c) Evaluate means by which the death might have been prevented;

(d) Report case review findings to public and private agencies that have responsibilities for children and make recommendations to these agencies that may help to reduce the number of child deaths;

(e) Request from an agency a plan of action for improvements to prevent child deaths based upon a report submitted to the agency pursuant to paragraph (d) of this subsection (2) when the case review involves a child in the custody of the agency at the time of death or involves identified system problems at the agency;

(f) Submit to the state review team the following information:

(I) Information about each death reviewed;

(II) A listing of any system issues identified through the review process and recommendations to the state review team and the appropriate agencies for system improvements and needed resources, training, and information dissemination where gaps and deficiencies may exist;

(III) Any changes, positive or negative, that appear to have resulted from implementation of previous recommendations made by the local review team to the state review team and appropriate agencies;

(IV) Examples of services known by the local review team to be provided by public agencies to children and their families that are designed to prevent child abuse, neglect, or death and that are effective in preventing child abuse, neglect, or death; and

(V) Any additional information requested by the state review team.

(3) Each local review team may, within existing appropriations and community resources:

(a) Promote continuing education for professionals involved in investigating, treating, and preventing child abuse and neglect as a means of preventing child deaths due to abuse or neglect; and

(b) Promote public education related to preventing unexpected and unexplained child deaths and deaths related to abuse or neglect.

Source: L. 2005: Entire part added, p. 976, § 1, effective June 2.

25-20.5-406. State review team - creation - membership - vacancies. (1) There is hereby created the Colorado state child fatality prevention review team in the department of public health and environment.

(2) (a) On or before September 1, 2005, the governor shall appoint the seventeen voting members of the state review team specified in this paragraph (a), as follows:

(I) Two members who represent the county sheriffs within the state, one of whom represents a rural area of the state;

(II) Two members who represent the county coroners within the state;

(III) Two members who represent peace officers within the state who specialize in crimes against children;

(IV) Two members who represent the district attorneys within the state, one of whom represents a rural area of the state;

(V) Six members who represent members of the medical profession within the state who specialize in traumatic injury or children's health, including four physicians and two nurses;

(VI) One member who represents local fire department employees within the state;

(VII) One member who represents county attorneys within the state who practice in the area of dependency and neglect; and

(VIII) One member who represents county commissioners within the state.

(b) The executive director of the department of human services shall appoint six ex officio nonvoting members, as follows:

(I) Two members who represent the unit within the department of human services that is responsible for child welfare;

(II) One member who represents the unit within the department of human services that is responsible for mental health services;

(III) One member who represents the unit in the department of human services that administers behavioral health programs and services, including those related to mental health and substance abuse;

(IV) One member who represents the division of youth corrections; and

(V) One member who represents the directors of county departments of social services.

(c) The executive director of the department of public health and environment shall appoint eight ex officio nonvoting members who represent the department of public health and environment, one of whom represents county or district public health agencies.

(d) The commissioner of education shall appoint one ex officio nonvoting member who represents the department of education.

(e) The executive director of the department of public safety shall appoint one ex officio nonvoting member who represents the department of public safety.

(f) A member of the department of public health and environment shall call a preliminary meeting of the members of the state review team specified in paragraphs (a) to (e) of this subsection (2), and the voting members appointed pursuant to said paragraphs may, by a majority vote, select an additional twelve nonvoting members of the state review team as follows:

(I) Four members who represent injury prevention or safety specialists from hospitals within the state;

(II) One member who represents organizations specializing in auto safety or driver safety within the state;

(III) One member who represents sudden infant death specialists within the state;

(IV) One member who represents the state network of child advocacy centers within the state;

(V) One member who represents a state domestic violence coalition;

(VI) One member who represents the court-appointed special advocate program directors, described in section 19-1-203, C.R.S., within the state;

(VII) One member who represents the office of the child's representative, established in section 13-91-104, C.R.S.;

(VIII) One member who represents a private out-of-home placement provider; and

(IX) One member of the community with experience in childhood death.

(3) Members shall be appointed for three-year terms and shall be eligible for reappointment upon the expiration of the terms. Vacancies in the appointed membership shall be filled by the appointing entity.

Source: **L. 2005:** Entire part added, p. 978, § 1, effective June 2. **L. 2010:** (2)(c) amended, (HB 10-1422), ch. 419, p. 2107, § 128, effective August 11. **L. 2011:** (2)(b)(III) amended, (HB 11-1303), ch. 264, p. 1168, § 64, effective August 10.

25-20.5-407. State review team - duties. (1) The state review team shall:

(a) Form committees to review, at a minimum, childhood deaths in the state of Colorado related to the following causes:

(I) Natural causes;

(II) Unintentional injury;

(III) Violence;

(IV) Motor vehicle incidents;

(V) Child abuse or neglect; and

(VI) Sudden infant death syndrome;

(b) Outline trends and patterns of childhood death in Colorado;

(c) Identify and investigate risk factors that may lead to childhood death;

(d) Characterize groups of children who are at risk for childhood death;

(e) Evaluate the services offered and the system responses to children who are at risk of childhood death, review recommendations of local review teams, if any, and plans of

action submitted by agencies for improvements to prevent childhood deaths, if any, offer recommendations for improvement to these services and system responses, and request plans of action for improvement from agencies, when necessary;

(f) Take steps to improve the quality and scope of data obtained through investigations and review of childhood deaths;

(g) Report to the governor and to the health and human services committees and the judiciary committees of the house of representatives and the senate of the Colorado general assembly concerning any recommendations for changes to any law, rule, or policy that the state review team has determined will promote the safety and well-being of children. The state review team shall report annually within the first week of convening or reconvening the general assembly.

(h) Subject to available appropriations and community resources, distribute information to the public concerning risks to children and recommendations for promoting the safety and well-being of children;

(i) Serve as a link with child death review teams throughout the country and participate in national child death review team activities; and

(j) Perform any other functions necessary to enhance the capability of the state of Colorado to reduce and prevent childhood injuries and death.

Source: L. 2005: Entire part added, p. 980, § 1, effective June 2.

25-20.5-408. Access to records. (1) **Review team access to records.** (a) Notwithstanding any other state law to the contrary but subject to the requirements of applicable provisions of federal law, the state review team and the local review teams shall have access to all records and information in the possession of the department of human services and the county departments of social services that are relevant to the review of a child death, including records and information related to previous reports and investigations of suspected child abuse or neglect.

(b) Except as otherwise provided in paragraph (c) of this subsection (1), notwithstanding any other state law to the contrary, but subject to the requirements of applicable provisions of federal law, the state review team and the local review teams shall have access to all other records and information that are relevant to a review of a child death and that are in the possession of a state or local governmental agency. These records include, but are not limited to, birth certificates, records of coroner or medical examiner investigations, and records of the department of corrections.

(c) Mental health and substance abuse treatment records may be accessed only with the written consent of appropriate parties in accordance with applicable federal and state law.

(2) **Public access to records and information.** (a) **Open meetings.** Meetings of the state review team and local review teams shall be subject to the provisions of section 24-6-402, C.R.S.

(b) **Confidentiality.** Each member of the state review team, each member of a local review team, and each invited participant at a meeting shall sign a statement indicating an understanding of and adherence to confidentiality requirements. A person who knowingly violates confidentiality requirements commits a class 3 misdemeanor and, upon conviction, shall be punished as provided in section 18-1.3-501, C.R.S.

(c) **Release of information.** (I) Members of the state review team, members of the local review teams, a person who attends a review team meeting, and a person who presents information to a review team may release information to governmental agencies as necessary to fulfill the requirements of this part 4.

(II) Members of the state review team, members of the local review teams, a person who attends a review team meeting, and a person who presents information to a review team shall not be subject to examination, in any civil or criminal proceeding, concerning information presented to members of the review team or opinions formed by the review team based on that information. A person may, however, be examined concerning information reviewed by the state review team or a local review team that is otherwise available to the public or that is required to be revealed by that person in another official capacity.

(III) Information, documents, and records of the state review team and the local review teams shall not be subject to subpoena, discovery, or introduction into evidence in any civil or criminal proceeding; except that information, documents, and records that would otherwise be available from a person serving on the state review team or a local review team or that would otherwise be required to be revealed by law shall not be immune from subpoena, discovery, or introduction into evidence solely because the information was presented at or became available due to a proceeding of the state review team or a local review team.

(IV) Information received by the state review team or a local review team that contains information exculpatory to a person charged with a criminal offense shall be subject to release pursuant to the rules of criminal procedure.

Source: L. 2005: Entire part added, p. 981, § 1, effective June 2.

25-20.5-409. Administration - funding - cash fund. (1) To the extent funds are available, the state review team and the local review teams may hire staff or consultants to assist them in completing their duties.

(2) Staff and consultants of the state review team or the local review teams shall receive reimbursement for travel and expenses to offset the costs incurred in fulfilling their duties, which shall be paid from moneys appropriated to implement this part 4 and within the limits of those moneys.

(3) The division of prevention services in the department of public health and environment, on behalf of the state review team, is authorized to receive contributions, grants, services, and donations from any public or private entity for any direct or indirect costs associated with the duties of the state review team set forth in this part 4.

(4) All private and public funds received by the state review team through grants, contributions, and donations pursuant to this part 4 shall be transmitted to the state treasurer, who shall credit the same to the child fatality prevention cash fund, which fund is hereby created and referred to in this section as the “fund”. The moneys in the fund shall be subject to annual appropriation by the general assembly for the direct and indirect costs associated with the implementation of this part 4. All moneys in the fund not expended for the purpose of this part 4 may be invested by the state treasurer as provided by law. All interest and income derived from the investment and deposit of moneys in the fund shall be credited to the fund. Any unexpended and unencumbered moneys remaining in the fund at the end of a fiscal year shall remain in the fund and shall not be credited or transferred to the general fund or another fund.

Source: L. 2005: Entire part added, p. 982, § 1, effective June 2.

PART 5

SCHOOL-BASED HEALTH CENTER GRANT PROGRAM

25-20.5-501. Legislative declaration. (1) The general assembly hereby finds that:

(a) Access to school-based primary health care for children and adolescents has been shown to increase the use of primary care, reduce the use of emergency rooms, and result in fewer hospitalizations;

(b) High-risk students who use school-based health centers are more likely to stay in school and be available for instruction;

(c) School-based health centers are effective at managing health conditions, such as asthma;

(d) School-based health centers serve primarily low-income schools. The majority of students who attend schools with on-site health centers are from low-income families, are medically uninsured or underinsured, and qualify for free or reduced-cost school lunch.

Source: L. 2006: Entire part added, p. 1595, § 1, effective July 1.

25-20.5-502. Definitions. As used in this part 5, unless the context otherwise requires:

(1) "School-based health center" means a clinic established and operated within a public school building, including charter schools and state sanctioned GED programs associated with a school district, or on public school property by the school district. School-based health centers are operated by school districts in cooperation with hospitals, public or private health care organizations, licensed medical providers, public health nurses, community health centers, and community mental health centers. The term "school-based health center" includes clinics or facilities authorized to provide clinic services under section 26-4-513, C.R.S., or authorized to apply for and receive medical assistance payments under a contract entered into pursuant to section 26-4-531, C.R.S.

Source: L. 2006: Entire part added, p. 1596, § 1, effective July 1.

25-20.5-503. School-based health center grant program - creation - funding - grants. (1) There is hereby created, in the prevention services division of the department of public health and environment, the school-based health center grant program, referred to in this part 5 as the "grant program", for the purpose of assisting the establishment, expansion, and ongoing operations of school-based health centers in Colorado. The grant program shall be funded by moneys annually appropriated by the general assembly specifically for said program.

(2) Operators of school-based health centers may apply for grants for the benefit of school-based health centers. The grant program shall provide grants for school-based health centers selected by the division. The division, in consultation with school-based health centers, shall develop criteria under which the grants are distributed and evaluated. In developing the criteria for grants, the division shall give priority to centers that serve a disproportionate number of uninsured children or a low-income population or both and may award grants to establish new school-based health centers, to expand primary health services, behavioral health services, or oral health services offered by existing school-based health centers, to expand enrollment in the children's basic health plan, or to provide support for ongoing operations of school-based health centers. None of the grants shall be awarded to provide abortion services in violation of section 50 of article V of the state constitution.

(3) The division shall specify and provide to potential grant recipients the following information:

(a) Procedures and timelines by which an operator of a school-based health center may apply for a grant;

(b) Grant application contents;

(c) Criteria for selection, reporting, evaluation, and other criteria as necessary;

(d) Criteria for determining the amount and duration of the grants;

(e) Reporting requirements for grant recipients; and

(f) Any other information the division deems necessary.

(4) Grant recipients shall submit reports to the division as outlined in the reporting requirements summarizing the use of the grant moneys.

(5) A grant awarded by the division shall be used for the school-based health center for the purposes stated in this part 5. The grants shall supplement existing funding sources for the school-based health center, such as federal funds, patient fees, public and private insurance, and grants and donations, including in-kind donations received from community hospitals, foundations, local governments, and private sources.

Source: L. 2006: Entire part added, p. 1596, § 1, effective July 1.

PART 6

PRIMARY CARE OFFICE

25-20.5-601. Legislative declaration. (1) The general assembly hereby finds and declares that:

(a) There is a shortage of qualified health care professionals in most areas of the state, particularly in rural and low-income communities;

(b) Lack of access to health care increases health inequities in Colorado and increases the overall cost of health care services;

(c) Communities designated as health professional shortage areas, medically underserved areas, or medically underserved populations may benefit from federal, state, and private programs that enhance reimbursement for medical services, provide grants for health service infrastructure, and create incentives for the placement of additional health care professionals in those communities;

(d) Communities designated as health professional shortage areas, medically underserved areas, or medically underserved populations may benefit from the placement of physicians through federal waiver programs such as the national interest waiver program, the Conrad 30 J-1 visa waiver program, and the national health service corps; and

(e) Assessing the health service needs of the state and coordinating workforce programs to address those needs is an important strategy for increasing access to health services in Colorado.

(2) The general assembly therefore finds that it is in the best interests of the citizens of the state of Colorado to create the primary care office within the department of public health and environment for the purpose of identifying the areas within the state that lack sufficient health care resources and coordinating available resources to maximize medical reimbursements, grants, and placements of health care professionals within those areas.

Source: L. 2009: Entire part added, (HB 09-1111), ch. 396, p. 2132, § 1, effective June 2.

25-20.5-602. Definitions. As used in this part 6, unless the context otherwise requires:

(1) “Conrad 30 J-1 visa waiver program” means the program established in 8 U.S.C. sec. 1184 (l) (1) (D) (ii), allowing foreign-trained physicians who meet certain criteria to practice in communities designated as medically underserved areas, medically underserved populations, or health professional shortage areas.

(2) “Health care professional” means a licensed physician, an advanced practice nurse registered pursuant to section 12-38-111.5, C.R.S., a mental health practitioner, a licensed physician assistant, or any other licensed health care provider for which the federal government authorizes participation in a federally matched state loan repayment program to encourage health care professionals to provide services in underserved communities.

(3) “Health professional shortage area” shall have the same meaning as provided in 42 U.S.C. sec. 254e.

(4) “Medically underserved area” means a medically underserved community as defined in 42 U.S.C. sec. 295p.

(5) “Medically underserved population” shall have the same meaning as provided in 42 U.S.C. sec. 254b.

(6) “National health service corps” means the program established in 42 U.S.C. sec. 254d.

(7) “National interest waiver program” means the program established in 8 U.S.C. sec. 1153 (b) (2) (B) (ii) allowing foreign-trained physicians who meet certain criteria to practice in communities designated as medically underserved areas, medically underserved populations, or health professional shortage areas.

(8) “State board” means the state board of health created in section 25-1-103.

Source: L. 2009: Entire part added, (HB 09-1111), ch. 396, p. 2133, § 1, effective June 2.

25-20.5-603. Primary care office - creation. (1) There is hereby created in the prevention services division of the department the primary care office for the purpose of assessing and addressing unmet needs concerning health care professionals, resources, and infrastructure across the state. The executive director of the department, subject to the

provisions of section 13 of article XII of the state constitution, shall appoint the director of the primary care office, who shall be the head of the office.

(2) The primary care office and the director of the office shall exercise their powers and perform their duties and functions specified in this part 6 under the department as if the same were transferred to the department by a type 2 transfer, as such transfer is defined in the “Administrative Organization Act of 1968”, article 1 of title 24, C.R.S.

(3) The primary care office shall include the Colorado health service corps advisory council created in section 25-20.5-704.

Source: L. 2009: Entire part added, (HB 09-1111), ch. 396, p. 2134, § 1, effective June 2. L. 2010: (3) amended, (HB 10-1138), ch. 142, p. 485, § 9, effective July 1.

25-20.5-604. Primary care office - powers and duties. (1) The primary care office shall have, at a minimum, the following powers and duties:

(a) To assess the health care professional needs of areas throughout the state;

(b) To apply to the United States department of health and human services, when appropriate, for designation of communities in the state as medically underserved areas, medically underserved populations, or health professional shortage areas or as any other designations necessary to participate in a federal program to address health care professional shortages;

(c) To maximize the placement of health care professionals who serve communities designated as medically underserved areas, medically underserved populations, or health professional shortage areas, or any other communities eligible for participation in a federal, state, or private program to address health care professional shortages, for the purpose of qualifying said communities for increased reimbursements, grants, and health care professional placements;

(d) To administer the Colorado health service corps pursuant to the provisions of part 7 of this article;

(e) To administer or provide technical assistance to participants in applicable federal programs intended to address health care professional shortages, including the Conrad 30 J-1 visa waiver program, the national interest waiver program, and the national health service corps. The state board may promulgate rules as necessary for the administration of these programs and shall establish by rule application fees for the Conrad 30 J-1 visa waiver program and the national interest waiver program. The primary care office shall transfer the fee amounts collected to the state treasurer for crediting to the visa waiver program fund established in section 25-20.5-605.

(f) To seek and accept public or private gifts, grants, or donations to apply to the costs incurred in fulfilling the duties specified in this section and otherwise administering the programs within the office;

(g) To administer nursing and health care professional faculty loan repayment pursuant to part 7 of this article.

Source: L. 2009: Entire part added, (HB 09-1111), ch. 396, p. 2134, § 1, effective June 2. L. 2010: (1)(d) amended, (HB 10-1138), ch. 142, p. 485, § 10, effective July 1. L. 2011: (1)(g) added, (HB 11-1281), ch. 180, p. 683, § 1, effective May 19.

25-20.5-605. Visa waiver program fund. There is hereby created in the state treasury the visa waiver program fund, referred to in this section as the “fund”, that shall consist of the application fees collected pursuant to section 25-20.5-604 (1) (e) and any additional moneys that the general assembly may appropriate to the fund. In addition, for the 2009-10 fiscal year, the fund shall include the moneys transferred to the fund from the AIDS and HIV prevention fund pursuant to section 25-4-1415 (4). The moneys in the fund shall be subject to annual appropriation by the general assembly to the department for the direct and indirect costs incurred by the department in performing its duties under this part 6. Any moneys in the fund not expended for the purpose of this part 6 may be invested by the state treasurer as provided by law. All interest and income derived from the investment and

deposit of moneys in the fund shall be credited to the fund. Any unexpended or unencumbered moneys remaining in the fund at the end of a fiscal year shall remain in the fund and shall not be credited or transferred to the general fund or another fund.

Source: L. 2009: Entire part added, (HB 09-1111), ch. 396, p. 2135, § 1, effective June 2.

PART 7

STATE HEALTH CARE PROFESSIONAL LOAN REPAYMENT PROGRAM

Editor's note: This part 7 was added with relocations in 2009. Former C.R.S. section numbers are shown in editor's notes following those sections that were relocated.

25-20.5-701. Legislative declaration. (1) The general assembly hereby finds that there are areas of Colorado that suffer from a lack of health care professionals to serve, and a lack of nursing or other health care professional faculty to train health care professionals to meet, the medical needs of communities. The general assembly further finds that the state needs to implement incentives to encourage health care professionals to practice in these underserved areas and to encourage nursing faculty and other health care professional faculty to teach these health care professionals.

(2) It is therefore the intent of the general assembly in enacting this part 7 to create a state health service corps program that uses state moneys, federal moneys, when permissible, and contributions from communities and private sources to help repay the outstanding education loans that many health care professionals, nursing faculty, and health care professional faculty hold. In exchange for repayment of loans incurred for the purpose of obtaining education in their chosen health care professions, the health care professionals will commit to provide health care services in communities with underserved health care needs throughout the state, and the nursing and health care professional faculty will commit to providing a specified period of service in a qualified faculty position.

Source: L. 2009: Entire part added with relocations, (HB 09-1111), ch. 396, p. 2135, § 2, effective June 2. **L. 2010:** (2) amended, (HB 10-1138), ch. 142, p. 479, § 1, effective July 1. **L. 2011:** Entire section amended, (HB 11-1281), ch. 180, p. 683, § 2, effective May 19.

Editor's note: This section is similar to former § 23-3.6-201 as it existed prior to 2009.

25-20.5-702. Definitions. As used in this part 7, unless the context otherwise requires:

(1) "Advisory council" means the Colorado health service corps advisory council created pursuant to section 25-20.5-704.

(1.5) "Colorado health service corps" means the loan repayment program created and operated pursuant to this part 7.

(1.7) "Colorado health service corps fund" or "fund" means the Colorado health service corps fund created in section 25-20.5-706.

(2) "Federally designated health professional shortage area" means a health professional shortage area as defined in 42 U.S.C. sec. 254e.

(3) "Health care professional" means a licensed physician, an advanced practice nurse registered pursuant to section 12-38-111.5, C.R.S., a mental health practitioner, a licensed physician assistant, or any other licensed health care provider for which the federal government authorizes participation in a federally matched state loan repayment program to encourage health care professionals to provide services in underserved communities.

(3.5) "Health care professional faculty member" means a person who has an advanced degree in a health care professional field and is employed in a qualified faculty position.

(4) and (5) (Deleted by amendment, L. 2010, (HB 10-1138), ch. 142, p. 479, § 2, effective July 1, 2010.)

(6) “National health service corps program” means the program established in 42 U.S.C. sec. 254d.

(6.5) “Nursing faculty member” means a person who has an advanced degree in nursing and is employed in a qualified faculty position.

(7) “Primary care office” means the primary care office created pursuant to part 6 of this article.

(8) “Primary health services” means health services regarding family medicine, general practice, general internal medicine, pediatrics, general obstetrics and gynecology, oral health, or mental health that are provided by health care professionals.

(9) “Qualified faculty position” means a part-time or full-time teaching position at an educational institution with accredited nursing or health care professional training programs, which position requires an advanced degree that meets national accreditation standards and is approved by the primary care office.

L. 2010: (1), (4), (5), and (8) amended and (1.5) and (1.7) added, (HB 10-1138), ch. 142, p. 479, § 2, effective July 1. L. 2011: (3.5), (6.5), and (9) added, (HB 11-1281), ch. 180, p. 684, § 3, effective May 19.

Editor’s note: This section is similar to former § 23-3.6-202 as it existed prior to 2009.

25-20.5-703. Colorado health service corps - program - creation - conditions.

(1) (a) (I) (A) Beginning July 1, 2009, the primary care office shall maintain and administer, subject to available appropriations, the Colorado health service corps. Subject to available appropriations, the Colorado health service corps shall provide loan repayment for certain eligible health care professionals who provide primary health services. Beginning July 1, 2011, the Colorado health service corps shall also provide loan repayment for certain eligible nursing faculty or health care professional faculty members in qualified faculty positions.

(B) All contracts entered into by or on behalf of collegeinvest pursuant to part 2 of article 3.6 of title 23, C.R.S., as it existed prior to June 2, 2009, or the primary care office on behalf of the state health care professional loan repayment program pursuant to this part 7, as it existed prior to July 1, 2010, are hereby validated as obligations of the primary care office on behalf of the Colorado health service corps.

(II) Under the Colorado health service corps, subject to the limitations specified in subsection (2) of this section, upon entering into a loan contract, the state may either:

(A) Make payments on the education loans of the health care professional, nursing faculty member, or health care professional faculty member; or

(B) Agree to make an advance payment in a lump sum of all or part of the principal, interest, and related expenses of the education loans of health care professionals, nursing faculty members, or health care professional faculty members, subject to the limitations specified in subsection (2) of this section.

(III) In consideration for receiving repayment of all or part of his or her education loan, the health care professional shall agree to provide primary health services in federally designated health professional shortage areas in Colorado.

(IV) In consideration for receiving repayment of all or part of his or her education loan, the nursing or other health care professional faculty member shall agree to serve two or more consecutive academic years in a qualified faculty position.

(b) Repayment of loans under the Colorado health service corps may be made using moneys in the Colorado health service corps fund. The primary care office is authorized to receive and expend gifts, grants, and donations or moneys appropriated by the general assembly for the purpose of implementing the Colorado health service corps. In administering the Colorado health service corps, the primary care office shall collaborate with the university of Colorado health sciences center and other appropriate partners as needed to maximize the federal moneys available to the state for state loan repayment programs

through the federal department of health and human services. The selection of health care professionals, nursing faculty members, and health care professional faculty members for participation in the Colorado health service corps is exempt from the competitive bidding requirements of the "Procurement Code", articles 101 to 112 of title 24, C.R.S.

(c) Health care professionals practicing in nonprimary care specialties shall not be eligible for loan repayments through the Colorado health service corps.

(d) (I) As a condition of receiving a loan repayment through the Colorado health service corps, a health care professional shall enter into a contract pursuant to which the health care professional agrees to practice for at least two years in a community that is located in a federally designated health professional shortage area. The health care professional, the primary care office, and the community employer with which the health care professional is practicing shall be parties to the contract.

(II) As a condition of receiving a loan repayment through the Colorado health service corps, a nursing faculty or health care professional faculty member shall enter into a contract pursuant to which he or she agrees to serve at least two consecutive academic years or their equivalent in a qualified faculty position. The nursing faculty or health care professional faculty member, the primary care office, and the educational institution where the qualified faculty position is located shall be parties to the contract.

(2) Subject to available appropriations, the primary care office shall annually select health care professionals, nursing faculty members, and health care professional members from the list provided by the advisory council pursuant to section 25-20.5-704 (6) to participate in the Colorado health service corps.

(2.5) The primary care office, after consulting with the advisory council and accredited health care professional training programs in the state, shall develop loan forgiveness criteria for nursing faculty and other health care professional faculty members. In determining whether to forgive the loan of a faculty member, the primary care office shall consider the following criteria:

(a) The faculty positions available at the educational institution at which the health care professional works;

(b) Documented recruiting efforts by the educational institution;

(c) The attributes of the educational or training program that are designed with the intent to address known shortages of health care professionals in Colorado;

(d) The type of programs offered at the educational institution, including associate, bachelor's, master's, or doctoral degrees in the health care professions, and the need for those programs in the state.

(2.7) In soliciting private grants to fund loan repayments, the primary care office shall give priority to soliciting grants to fund repayments of loans for nursing faculty.

(3) A health care professional participating in the Colorado health service corps shall not practice with a for-profit private group or solo practice or at a proprietary hospital or clinic.

(4) A contract for loan repayment entered into pursuant to this part 7 shall not include terms that are more favorable to health care professionals than the most favorable terms that the secretary of the federal department of health and human services is authorized to grant under the national health services corps program. In addition, each contract shall include penalties for breach of contract that are at least as stringent as those available to the secretary of the federal department of health and human services. In the event of a breach of contract for a loan repayment entered into pursuant to this part 7, the primary care office shall be responsible for enforcing the contract and collecting any damages or other penalties owed.

(5) (Deleted by amendment, L. 2009, (HB 09-1111), ch. 396, p. 2136, § 2, effective June 2, 2009.)

Source: L. 2009: Entire part added with relocations, (HB 09-1111), ch. 396, p. 2136, § 2, effective June 2. L. 2010: (1), (2), and (3) amended, (HB 10-1138), ch. 142, p. 480, § 3, effective July 1. L. 2011: (1)(a)(I)(A), (1)(a)(II), (1)(b), (1)(d), and (2) amended and (1)(a)(IV), (2.5), and (2.7) added, (HB 11-1281), ch. 180, pp. 684, 685, §§ 4, 5, effective May 19.

Editor's note: This section is similar to former § 23-3.6-203 as it existed prior to 2009.

25-20.5-704. Colorado health service corps advisory council - creation - membership - duties - repeal. (1) There is hereby created in the primary care office the Colorado health service corps advisory council to review applications for participation in the Colorado health service corps and make recommendations to the primary care office pursuant to section 25-20.5-703 (2).

(2) The advisory council shall consist of fifteen members appointed by the governor as provided in this subsection (2) and in subsection (3) of this section. In appointing members of the advisory council, the governor shall ensure that the advisory council includes:

(a) At least one representative from each of the following organizations:

(I) A public institution of higher education in the state that has experience in administering education loan repayment programs for health care professionals serving in health professional shortage areas;

(II) (Deleted by amendment, L. 2009, (HB 09-1111), ch. 396, p. 2138, § 2, effective June 2, 2009.)

(III) The commission on family medicine created pursuant to part 9 of article 1 of this title;

(IV) A nonprofit statewide membership organization that provides programs and services to enhance rural health care in Colorado;

(V) A membership organization representing federally qualified health centers in Colorado; and

(VI) A statewide membership organization representing physicians in Colorado; and

(b) Not more than four persons with expertise in providing health care in health professional shortage areas of the state, including but not limited to a representative from a public institution of higher education in the state that provides health care professional education programs.

(3) On and after July 1, 2009, in addition to the members specified in subsection (2) of this section, the governor shall appoint representatives to the advisory council as follows:

(a) A representative of a foundation that funds a health care professional loan forgiveness program in Colorado;

(b) A representative of an economic development organization that operates in Colorado;

(c) A representative of a behavioral health organization that operates in Colorado;

(c.5) At least two representatives of a professional organization, designated by the department, that represents nurses in Colorado;

(d) At least two advanced practice nurses in faculty positions at no less than two educational institutions with health care professional programs, each of whom is licensed to practice in Colorado;

(d.5) An advanced practice nurse in a faculty position at a two-year educational institution with health care professional programs who is licensed to practice in Colorado;

(e) A representative of a state loan forgiveness program for oral health professionals in Colorado; and

(f) An actively practicing primary care physician serving in a rural community in Colorado.

(4) (a) Members appointed to the advisory council shall serve terms of three years; except that:

(I) Of the members initially appointed to the advisory council pursuant to subsection (2) of this section, the governor shall select three members who shall serve one-year terms and three members who shall serve two-year terms; and

(II) Of the members initially appointed to the advisory council pursuant to subsection (3) of this section, the governor shall select two members who shall serve one-year terms and two members who shall serve two-year terms.

(b) The governor may appoint the same person to serve as a member of the advisory council for consecutive terms.

(5) (a) Advisory council members shall serve without compensation and without reimbursement for expenses.

(b) The primary care office shall provide staff assistance to the advisory council as necessary for the advisory council to complete the duties specified in this section.

(6) The advisory council shall review applications received from health care professionals, nursing faculty members, and health care professional faculty members to participate in the Colorado health service corps. Subject to available appropriations and federal requirements concerning eligibility for federal loan repayment matching funds, the advisory council shall annually select health care professionals, nursing faculty members, and health care professional faculty members to participate in the Colorado health service corps and shall forward its list of selected participants to the primary care office.

(7) (a) This section is repealed, effective July 1, 2017.

(b) Prior to said repeal, the advisory council shall be reviewed as provided for in section 2-3-1203, C.R.S.

Source: L. 2009: Entire part added with relocations, (HB 09-1111), ch. 396, p. 2138, § 2, effective June 2. L. 2010: (1), IP(2), IP(3), (4), (5), (6), and (7)(b) amended, (HB 10-1138), ch. 142, p. 481, § 4, effective July 1. Editor's note: This section is similar to former § 23-3.6-204 as it existed prior to 2009.

25-20.5-705. Advisory council - report. (1) On or before December 1, 2011, and on or before December 1 every two years thereafter, the advisory council shall submit to the governor, the health and human services committee of the senate, and the health and environment committee of the house of representatives, or any successor committees, a report that includes, at a minimum, the following information:

(a) Identification and a summary of successful loan forgiveness programs for health care professionals and best practices in health care professional loan forgiveness programs across the country;

(b) A description of the programmatic goals of the Colorado health service corps, including the present status of and any barriers to meeting those goals;

(c) Existing efforts and potential future projects to overcome any barriers to meeting the programmatic goals of the Colorado health service corps;

(d) An analysis of the impact of the Colorado health service corps program;

(e) If applicable, results of any surveys conducted of state health professional incentive programs in primary care and any recommendations to individually enhance, improve coordination among, and potentially consolidate existing or potential programs to better address Colorado's primary care workforce issues; and

(f) The number of nursing faculty or other health care professional faculty members who receive moneys from the Colorado health service corps and the number of educational institutions where the recipients teach.

(2) (Deleted by amendment, L. 2010, (HB 10-1138), ch. 142, p. 482, § 5, effective July 1, 2010.)

Source: L. 2009: Entire part added with relocations, (HB 09-1111), ch. 396, p. 2140, § 2, effective June 2. L. 2010: Entire section amended, (HB 10-1138), ch. 142, p. 482, § 5, effective July 1. L. 2011: IP(1), (1)(d), and (1)(e) amended and (1)(f) added, (HB 11-1281), ch. 180, p. 687, § 7, effective May 19.

25-20.5-706. Colorado health service corps fund - created - acceptance of grants and donations. (1) The Colorado health service corps fund is hereby created in the state treasury, which fund consists of:

(a) All general fund moneys appropriated by the general assembly for the Colorado health service corps, the first five hundred thousand dollars of which shall be used solely for loan repayments for nursing faculty;

(b) Grants available from the federal department of health and human services for the purpose of operating loan repayment programs;

- (c) For the 2011-12 fiscal year and each fiscal year thereafter, two hundred fifty thousand dollars transferred pursuant to section 24-75-1104.5 (1.5) (a) (XI), C.R.S.;
- (d) Contributions from communities; and
- (e) (Deleted by amendment, L. 2010, (HB 10-1138), ch. 142, p. 484, § 6, effective July 1, 2010.)
- (f) For the 2009-10 fiscal year, moneys transferred to the fund from the AIDS and HIV prevention fund pursuant to section 25-4-1415 (4).
- (2) (a) The moneys in the fund, other than any federal moneys credited to the fund and the moneys described in paragraph (c) of subsection (1) of this section, are hereby continuously appropriated to the primary care office for the Colorado health service corps. Any moneys in the fund not expended for the purpose of this part 7 may be invested by the state treasurer as provided by law. All interest and income derived from the investment and deposit of moneys in the fund shall be credited to the fund. Any unexpended and unencumbered moneys remaining in the fund at the end of a fiscal year shall remain in the fund and shall not be credited or transferred to the general fund or another fund.
- (b) The moneys described in paragraph (c) of subsection (1) of this section are subject to annual appropriation by the general assembly to the primary care office for the Colorado health service corps.
- (3) The primary care office is authorized to receive contributions, grants, and services from public and private sources to carry out the purposes of this part 7.

25-21-101. Short title. This article shall be known and may be cited as the “Colorado Dental Care Act of 1977”.

Source: L. 77: Entire article added, p. 1301, § 1, effective July 13.

- 25-21-102. Legislative declaration.** (1) It is the purpose of this article to promote the public health and welfare of the people of Colorado by providing an alternative to the present medicaid system which will furnish necessary dental appliances and services to individuals sixty years of age or older whose income and resources are insufficient to meet the costs of such appliances and services, thereby enabling individuals and families to attain or retain their capabilities for independence and self-care.
- (2) The objectives of this article shall be implemented through various executive departments, agencies, and political subdivisions of the state in cooperation with private individuals and organizations.

Source: L. 77: Entire article added, p. 1301, § 1, effective July 13.

25-21-103. Definitions. As used in this article, unless the context otherwise requires:
(1) “Advisory committee” means the dental advisory committee created in section 25-21-107.5.

(2) “Department” means the department of public health and environment.

(3) “Eligible senior” means an adult who:

(a) Is sixty years of age or older; and

(b) (I) Is eligible for old age pension assistance as defined in section 26-2-111 (2), C.R.S.; or

(II) Is eligible for medical assistance pursuant to section 25.5-5-101 (1) (I), C.R.S., but is not eligible for long-term care services pursuant to article 6 of title 25.5, C.R.S.

(4) “Qualified grantee” means an entity that either provides comprehensive dental and oral health services or that can administer funds for such services through sub-grants, awards, or reimbursement processes that comply with the federal “Health Insurance Portability and Accountability Act of 1996”, 42 U.S.C. sec. 1320d to 1320d-9.

(5) “Service grant” means a grant awarded by the department to a qualified grantee pursuant to this article.

Source: L. 77: Entire article added, p. 1301, § 1, effective July 13. **L. 94:** (1) amended, p. 2794, § 541, effective July 1. **L. 2003:** Entire section amended, p. 2040, § 1, effective July 1. **L. 2010:** (4) amended, (HB 10-1422), ch. 419, p. 2107, § 129, effective August 11. **L. 2012:** (3) amended, (HB 12-1326), ch. 195, p. 776, § 2, effective May 22.

Cross references: For the legislative declaration contained in the 1994 act amending subsection (1), see section 1 of chapter 345, Session Laws of Colorado 1994. For the legislative declaration in the 2012 act amending subsection (3), see section 1 of chapter 195, Session Laws of Colorado 2012.

25-21-104. Dental assistance program for seniors. (1) Subject to available appropriations, the department shall award service grants to qualified grantees for the purpose of providing dental and oral health services, including relief for pain and infection, oral cancer screening, dentures, denture maintenance and repair, and related dental services to eligible seniors in Colorado. In awarding service grants, the department shall consider the recommendations and advice of the advisory committee. If the department decides not to accept the recommendations of the advisory committee, the department shall state, in writing, the reasons for not accepting the recommendations.

(2) The department shall:

(a) Develop rules, procedures, and application forms to govern how service grants shall be awarded. Such rules shall include:

(I) Outreach requirements;

(II) Coordination with area agencies on aging.

(b) Accept grant applications from grantees to provide dental and oral health services as described in subsection (1) of this section;

(c) Contract with qualified grantees that are awarded a service grant to provide dental and oral health services to eligible seniors or to administer funds for the provision of such services through sub-grants, awards, or reimbursement processes that comply with the federal “Health Insurance Portability and Accountability Act of 1996”, 42 U.S.C. sec. 1320d to 1320d-9;

(d) Develop a monitoring procedure to assure that service grants are used to provide dental and oral health services to eligible seniors and that grantees are verifying the eligibility of the seniors served in the program for the old age pension program;

(e) In awarding grants, give priority to grantees who can demonstrate the ability to leverage additional resources.

(3) The department may seek alternatives for program administration and funding, including applying for federal waivers.

Source: **L. 77:** Entire article added, p. 1302, § 1, effective July 13. **L. 78:** (1) and (2) amended, p. 431, § 1, effective July 1. **L. 95:** Entire section amended, p. 927, § 29, effective May 25. **L. 2003:** Entire section amended, p. 2041, § 2, effective July 1. **L. 2010:** (2)(c) amended, (HB 10-1422), ch. 419, p. 2107, § 130, effective August 11.

25-21-105. Copayments - fees - rules. (1) Nothing in this article shall preclude a grantee from charging an eligible senior a co-payment, but any co-payment assessed shall not exceed twenty percent of the cost of the services provided.

(2) to (4) (Deleted by amendment, L. 2003, p. 2042, § 3, effective July 1, 2003.)

(5) (Deleted by amendment, L. 2008, p. 353, § 1, effective August 5, 2008.)

(6) The state board of health created in section 25-1-103 shall promulgate rules regarding allowable procedures and fees pursuant to this article based upon recommendations of the dental advisory committee created in section 25-21-107.5. The allowable procedures for which fees may be set shall include, but not be limited to, oral examination (diagnosis and treatment planning); emergency treatment (palliative); X rays - full mouth (periapical or panorex); X rays - bite wing; prophylaxis; full dentures, upper and lower, including adjustments; single, full, or acrylic partial dentures, including adjustments; repair of fractured dentures; replacement or repair of broken teeth; addition of teeth to a partial denture to replace a natural tooth; replacement of clasp, clasp intact; replacement of clasp, new clasp; removal of permanent teeth; surgical removal; reline (chairside); reline (laboratory processed); jump rebase (laboratory processed); partial dentures (chrome base cast); amalgam fillings (per surface); composite (per surface); periodontal treatment; and soft tissue treatment (surgical).

25-21-106. Operation period of program - review - reports.

(1) Repealed.

(1.5) Each qualified grantee receiving a service grant shall report semi-annually to the department concerning the number of eligible seniors served, the types of dental and oral health services provided, co-payments charged, and any other information deemed relevant by the department.

(2) The department shall submit annual reports to the joint budget committee on the operation and effectiveness of the dental assistance program, including any recommendations for legislative changes to the program.

Source: **L. 77:** Entire article added, p. 1303, § 1, effective July 13. **L. 78:** (1) amended and (2) R&RE, p. 433, §§ 3, 4, effective May 2. **L. 79:** (1) amended, p. 1074, § 2, effective June 19. **L. 95:** (1) amended, p. 927, § 31, effective May 25. **L. 2003:** Entire section amended, p. 2042, § 4, effective July 1. **L. 2008:** (1) repealed, p. 355, § 2, effective August 5.

25-21-107. Records - complaints.

(1) (Deleted by amendment, L. 2003, p. 2043, § 5, effective July 1, 2003.)

(2) The department shall designate a major association of dentists in this state, willing to do so, for the receiving and processing of complaints of persons applying for or receiving dental appliances or services under the provisions of this article.

(3) (Deleted by amendment, L. 2003, p. 2043, § 5, effective July 1, 2003.)

Source: **L. 77:** Entire article added, p. 1303, § 1, effective July 13. **L. 78:** (1) and (3) R&RE, p. 433, § 5, effective July 1. **L. 2003:** Entire section amended, p. 2043, § 5, effective July 1.

25-21-107.5. Dental advisory committee - creation - repeal. (1) There is hereby created in the department a dental advisory committee, which shall be appointed by the governor. The dental advisory committee shall be comprised of ten members, including one member representing the department who shall be a nonvoting member, one member representing the department of human services, two dentists providing dental care to the senior population, one dental hygienist, one representative of an agency that coordinates services for low-income seniors, one dentist in private practice who represents the professional dental association, one representative from a dental school, and two eligible seniors. The members of the advisory committee shall be appointed by July 1, 2003. Of the members initially appointed to the advisory committee, five shall be appointed for two-year terms and five shall be appointed for three-year terms. In the event of a vacancy on the advisory committee, the governor shall appoint a successor to fill the unexpired portion of the term of such member.

(2) The advisory committee shall:

- (a) Advise the department on the operation of the dental assistance program;
- (b) Review and make recommendations to the department on the awarding of any service grants to qualified grantees;
- (c) Make recommendations to the state board of health created in section 25-1-103 regarding allowable dental procedures and fees to maximize the number of participating providers and the number of eligible seniors receiving services.

(3) This section is repealed, effective July 1, 2013. Prior to said repeal, the dental advisory committee shall be reviewed, as provided in section 2-3-1203 (3), C.R.S.

Source: **L. 2003:** Entire section added, p. 2043, § 6, effective July 1. **L. 2008:** (2)(c) added, p. 355, § 3, effective August 5.

25-21-107.7. Program funding. The general assembly shall make annual appropriations to the department for service grants and for the payment of administrative costs of the dental assistance program. A grantee's administrative costs shall not exceed ten percent of the grant amount awarded.

Source: **L. 2003:** Entire section added, p. 2043, § 6, effective July 1.

25-21-108. Dental care for infirm people unable to travel to dental offices - limitation on appropriation. (1) The department shall administer a program of dental assistance, through its oral health program, involving the contracting for the provision of dental services to persons so infirm as to be unable to travel to dental offices. Such program may involve the use of vans containing portable dental equipment or other types of equipment. The department, through its oral health program, is authorized to coordinate the use of such equipment within the various communities in the state and to accept the services of local dentists who may wish to use the equipment which is available for the care of infirm persons.

(2) The general assembly each year in the general appropriation bill may require that an amount equal to the state appropriation for services provided in this section be obtained from private sources, including donated services, prior to the disbursement by the state treasurer of the state appropriation.

25-21.5-104.	Dental assistance program for children - rules.	25-21.5-109.	No general fund moneys.
25-21.5-105.	Copayment - eligibility - children's dental plan cash fund - payment schedule.		

25-21.5-101. Short title. This article shall be known and may be cited as the "Colorado Dental Program Act of 1997".

Source: L. 97: Entire article added, p. 1127, § 1, effective May 28.

25-21.5-102. Legislative declaration. (1) It is the purpose of this article to promote the public health and welfare of the people of Colorado by providing:

(a) A dental assistance program of preventive, emergency, diagnostic, and limited restorative dental care for children under twenty-one years of age who are not insured under a dental plan and are not eligible for medicaid;

(b) Coordination of donated dental services for disabled children and adults; and

(c) A grant program to assist communities in attaining appropriate levels of fluoride in drinking water provided by community water systems as a means of primary prevention of dental decay.

(2) The objectives of this article shall be implemented through various executive departments, agencies, and political subdivisions of the state in cooperation with private individuals and organizations.

(3) It is the intent of the general assembly that nothing in this article shall be construed to create an exemption from the applicable provisions of title 10, C.R.S.

Source: L. 97: Entire article added, p. 1127, § 1, effective May 28.

25-21.5-103. Definitions. As used in this article, unless the context otherwise requires:

(1) Repealed.

(2) "Department" means the department of public health and environment.

(3) "Eligible child" means a child:

(a) Who is under the age of twenty-one years;

(b) Who is not covered under a policy of dental insurance;

(c) Who is not eligible for medicaid; and

(d) Whose family income is equal to or less than one hundred eighty-five percent of the federal poverty line.

Source: L. 97: Entire article added, p. 1128, § 1, effective May 28. **L. 2006:** (1) repealed, p. 49, § 1, effective July 1. **L. 2010:** (3)(d) amended, (HB 10-1422), ch. 419, p. 2107, § 131, effective August 11.

25-21.5-104. Dental assistance program for children - rules. (1) Subject to available appropriations, the department shall administer a program of dental assistance to any child who is an eligible child, referred to in this article as "the program". Dental assistance under the program shall consist of preventive, emergency, diagnostic, and limited restorative services provided by appropriate licensed dental providers, including dentists and dental hygienists working in private and public settings.

(2) The department shall promulgate rules necessary for the implementation of the program.

(3) The department shall administer the program through recruitment of qualified providers, including dental hygienists. The department shall contract with appropriate providers, provider networks, or dental plans to provide services and shall determine appropriate payment mechanisms. The department shall collaborate with other state or private entities that determine income eligibility to determine the income eligibility of children applying for the dental assistance program.

Source: L. 97: Entire article added, p. 1128, § 1, effective May 28. L. 2006: (2) amended, p. 49, § 2, effective July 1. L. 2009: (3) amended, (SB 09-292), ch. 369, p. 1972, § 91, effective August 5.

25-21.5-105. Copayment - eligibility - children's dental plan cash fund - payment schedule. (1) A child who meets the eligibility criteria set forth in section 25-21.5-103 (3) shall be eligible for services pursuant to this section; except that the number of children served shall depend on the amounts appropriated for the program. The department shall determine costs for each eligible child and for individual services or combinations of services and shall establish copayments or fees for each participating eligible child, not to exceed a cap per eligible family. Any such payments under this program shall be credited to the children's dental plan cash fund, which fund is hereby created in the state treasury. The fund shall also consist of moneys from gifts, donations, or grants of any kind from any public or private entity. Moneys in the fund shall be subject to annual appropriation by the general assembly to help defray the expenses of the dental assistance program. The department is authorized to spend moneys in the fund for purposes of the dental assistance program. At the end of each fiscal year, any unexpended or unallocated funds shall remain in the cash fund and shall not be transferred to the general fund.

(2) The department is authorized to receive gifts, donations, or grants of any kind from any public or private entity to carry out the purposes of this article subject to the terms and conditions under which given; except that no gift, donation, or grant shall be accepted if the conditions attached thereto require the use or expenditure thereof in a manner contrary to law. All such gifts, donations, and grants shall be transmitted to the state treasurer, who shall credit the same to the children's dental plan cash fund, created pursuant to subsection (1) of this section.

(3) The department shall define the types of dental services to be provided under this article.

(4) The department shall annually set the payment rate for services, which shall be adequate to attract sufficient providers in the program but shall be less than the usual and customary charges for the types of dental services provided in accordance with subsection (3) of this section.

25-21.5-106. Dental advisory committee - creation - repeal. (Repealed)

Source: L. 97: Entire article added, p. 1129, § 1, effective May 28. L. 2006: Entire section repealed, p. 49, § 4, effective July 1.

25-21.5-107. Donated dental services - contract. The department shall contract with a nonprofit organization to administer a donated dental services program to provide dental treatment to people who are disabled or elderly, have serious dental problems but cannot afford such care, and are not eligible for medicaid. Pursuant to the terms of the contract, the nonprofit organization shall determine applicant eligibility and, through the use of referral

coordinators, shall match eligible persons with dentists and laboratories that volunteer to provide donated dental services. Subject to available appropriations, the contract shall cover the costs incurred by the nonprofit organization in implementing the donated dental services program.

Source: L. 97: Entire article added, p. 1130, § 1, effective May 28.

25-21.5-108. Fluoridation of community water supplies - grants - rules. (1) The department shall administer a grant program to assist community water systems in adjusting the level of fluoride in drinking water as a means of preventing dental decay for both children and adults, subject to available appropriations.

(2) Subject to criteria established by the department pursuant to subsection (3) of this section, the department shall award grants to communities that provide for some or all of the following:

(a) Assistance in the design, purchase, installation, and maintenance of equipment to add proper amounts of fluoride to drinking water;

(b) Training of water plant personnel in the proper operation of fluoridation equipment;

(c) Monitoring of the fluoride content by obtaining periodic samples of finished drinking water to assure the proper level of fluoride to prevent dental decay and to prevent risk to the public health.

(3) The department shall establish criteria for awarding grants for assistance under the fluoridation program outlined in this section. The criteria shall include but not be limited to giving priority to those counties or community water systems with the greatest need for dental services and the fewest dental resources and to those communities that agree to share part of the cost of the design, purchase, installation, and maintenance of fluoridation equipment.

(4) The department shall promulgate necessary rules for the implementation of the fluoridation program.

Source: L. 97: Entire article added, p. 1130, § 1, effective May 28.

25-21.5-109. No general fund moneys. It is the intent of the general assembly that no general fund moneys be appropriated for the purposes of implementing this article.

ARTICLE 22

State Loan Repayment Program

25-22-101 to 25-22-104. (Repealed)

Source: L. 2007: Entire article repealed, p. 2109, § 3, effective June 4.

Editor’s note: This article was added in 1991 and was not amended prior to its repeal in 2007. For the text of this article prior to 2007, consult the 2006 Colorado Revised Statutes.

ARTICLE 23

Dental Loan Repayment Program

25-23-101.	Legislative declaration.		ditions.
25-23-102.	Definitions.	25-23-104.	Dental loan repayment fund -
25-23-103.	State loan repayment program		acceptance of grants and
	for dentists and dental hy-		donations.
	gienists serving underserved	25-23-105.	Board - rule-making author-
	populations - creation - con-		ity.

25-23-101. Legislative declaration. (1) The general assembly hereby finds that:

(a) Many dental professionals, particularly dentists, graduate with large debt levels that were used to finance their professional education;

(b) Dentistry is provided predominantly through individual practices, which minimizes the opportunity for dental professionals to provide unreimbursed services while maintaining the costs of a practice and repaying their educational loans;

(c) Many Colorado communities encounter difficulty recruiting dental providers dedicated to serving underserved populations;

(d) Incentives to reduce the indebtedness of dental professionals will increase access to dental care for underserved populations.

(2) The general assembly also finds that, during the 2000 regular session, the general assembly expanded the children's basic health plan to include dental services and paid for such expansion out of the tobacco settlement moneys, but, due to a lack of dental providers, the inclusion of dental care services was made contingent upon an adequate number of dental providers being willing to provide services. The general assembly hereby finds that the loan repayment program created in this article would provide a method to develop the infrastructure and resources needed to provide dental services as part of the children's basic health plan.

(3) The general assembly, therefore, states that the purpose of this article is to encourage and enable dental professionals to provide care through the children's basic health plan and the medicaid program and to other underserved populations in Colorado by the use of a financial incentive program.

Source: L. 2001: Entire article added, p. 923, § 1, effective June 4.

25-23-102. Definitions. As used in this article, unless the context otherwise requires:

(1) "Board" means the state board of health.

(2) "Eligible dental professional" means a person who is:

(a) A dentist licensed in Colorado pursuant to article 35 of title 12, C.R.S.; or

(b) A dental hygienist licensed in Colorado pursuant to article 35 of title 12, C.R.S.

(3) "Loan repayment assistance" means financial assistance in paying all or part of the principal, interest, and other related expenses of a loan for professional education in either dentistry or dental hygiene, whichever is appropriate.

(4) "Master settlement agreement" means the master settlement agreement, the smokeless tobacco master settlement agreement, and the consent decree approved and entered by the court in the case denominated *State of Colorado, ex rel. Gale A. Norton, Attorney General v. R.J. Reynolds Tobacco Co.; American Tobacco Co., Inc.; Brown & Williamson Tobacco Corp.; Liggett & Myers, Inc.; Lorillard Tobacco Co., Inc.; Philip Morris, Inc.; United States Tobacco Co.; B.A.T. Industries, P.L.C.; The Council For Tobacco Research—U.S.A., Inc.; and Tobacco Institute, Inc.*, Case No. 97 CV 3432, in the district court for the city and county of Denver.

(5) "Underserved population" includes but is not limited to:

(a) Individuals eligible for medical assistance under articles 4, 5, and 6 of title 25.5, C.R.S.;

(b) Individuals enrolled in the children's basic health plan pursuant to article 8 of title 25.5, C.R.S.;

(c) Individuals eligible for medical services pursuant to the Colorado indigent care program set forth in part 1 of article 3 of title 25.5, C.R.S.;

(d) Individuals who are provided services by a dental professional and who are charged fees on a sliding scale based upon income or who are served without charge.

Source: L. 2001: Entire article added, p. 924, § 1, effective June 4. **L. 2006:** (5)(a) to (5)(c) amended, p. 2015, § 92, effective July 1.

25-23-103. State loan repayment program for dentists and dental hygienists serving underserved populations - creation - conditions. (1) Subject to available appropriations, the department of public health and environment shall develop and maintain a state dental loan repayment program in which the state agrees to pay all or part of the principal, interest, and related expenses of the educational loans of each eligible dental professional. The department of public health and environment shall operate the program in cooperation with other health professional loan repayment programs.

(2) A dental professional is eligible for loan repayment assistance if the dental professional meets at least one of the following criteria:

- (a) The dental professional is employed by a federally qualified health center;
- (b) The dental professional owns or is employed by a practice that remains open to new clients enrolled in the medicaid program or the children's basic health plan program;
- (c) The dental professional owns or is employed by a practice that provides a significant level of service to underserved populations as defined in rule by the board; or
- (d) The dental professional provides, on a pro bono basis, a significant level of service to underserved populations.

(3) Loan repayments shall be available to eligible dental professionals on an annual basis, however, an eligible dental professional shall enter into a contract, as a condition of qualifying for the loan repayment assistance, in which the dental professional agrees to provide care to underserved populations for a minimum of two years. The department of public health and environment shall enter into contracts with eligible dental professionals on or after April 1, 2002.

(4) The board may establish the total amount of annual financial assistance available under the loan repayment program to any dental professional in order to promote recruitment and retention of a dental professional. Any contracts for loan repayment shall include reasonable penalties for breach of contract. In the event of a breach of contract for a loan repayment entered into pursuant to this article, the department of public health and environment shall be responsible for enforcing the contract and collecting any damages or other penalties owed.

(5) Nothing in this article shall be interpreted to create a legal entitlement to loan repayment assistance. The amount of assistance available is limited by available appropriations.

(6) The department of public health and environment may apply for any available matching federal funds on behalf of an eligible dental professional and shall use such federal funds to provide all or part of the financing for loan repayment for an eligible dental professional.

(7) Repealed.

Source: **L. 2001:** Entire article added, p. 925, § 1, effective June 4. **L. 2003:** (7) amended, p. 2008, § 86, effective May 22. **L. 2005:** (7) repealed, p. 288, § 37, effective August 8.

25-23-104. Dental loan repayment fund - acceptance of grants and donations. (1) The state dental loan repayment program shall be funded by moneys appropriated by the general assembly specifically for said program, moneys transferred thereto pursuant to subsection (2) of this section, and any matching funds or contributions received from any public or private sources. Such funds shall be transmitted to the treasurer, who shall credit the same to the state dental loan repayment fund, which fund is hereby created. At the end of any fiscal year, all unexpended and unencumbered moneys in the fund shall remain therein and shall not be credited or transferred to the general fund or any other fund. Moneys in the fund shall be used to provide loan repayment assistance to eligible dental professionals. Moneys in the fund may also be used to pay for the administrative costs of the department of public health and environment to implement the loan repayment program except that administrative costs shall not exceed ten percent. For fiscal year 2001-02 only, administrative costs shall not exceed thirty-six thousand dollars (\$36,000) and may be paid from the state dental loan repayment fund.

(2) Pursuant to section 24-75-1104.5 (1) (d), C.R.S., beginning in fiscal year 2006-07 and for each fiscal year thereafter so long as the state receives moneys pursuant to the master settlement agreement, the state treasurer shall transfer to the state dental loan repayment fund two hundred thousand dollars from the moneys received by the state pursuant to the master settlement agreement for the preceding fiscal year. The state treasurer shall transfer the amount specified in this subsection (2) from moneys credited to the tobacco litigation settlement cash fund created in section 24-22-115, C.R.S. Moneys in the fund shall be subject to annual appropriation by the general assembly for the purposes of this article. The amount appropriated pursuant to this subsection (2) shall be in addition to and not in replacement of any general fund moneys appropriated to the state dental loan repayment fund.

(3) The department of public health and environment is authorized to receive contributions, grants, and services from public and private sources to carry out the purposes of this article.

Source: **L. 2001:** Entire article added, p. 926, § 1, effective June 4. **L. 2003:** (2) amended, p. 464, § 8, effective March 5; (2) amended, p. 2564, § 6, effective June 5. **L. 2004:** (2) amended, p. 1711, § 10, effective June 4. **L. 2006:** (1) and (2) amended, p. 1037, § 7, effective May 25.

25-23-105. Board - rule-making authority. The board is authorized to promulgate rules necessary to implement the loan repayment program authorized in this article, including determining the amount of financial assistance available; establishing the criteria in section 25-23-103 (2) for loan repayment assistance and the criteria for determining what constitutes a significant level of service to underserved populations for purposes of qualifying for loan repayment assistance; and establishing criteria for prioritizing the repayment of loans if there are insufficient moneys in the state dental loan repayment fund.

25-25-101. Short title. This article shall be known and may be cited as the “Colorado Health Facilities Authority Act”.

Source: L. 77: Entire article added, p. 1304, § 1, effective July 1.

25-25-102. Legislative declaration. (1) The general assembly hereby finds and declares that, for the benefit of the people of the state of Colorado and the improvement of their health, welfare, and living conditions:

(a) It is essential that the people of this state have adequate medical care and health facilities;

(b) It is important that medical care and health facilities are made readily available by networks and organizations of health institutions, whether such networks and organizations are located within the state of Colorado or have facilities located both within and outside the state of Colorado;

(c) It is a benefit to the people of the state of Colorado to serve such multistate institutions, as such service will create health care-related employment opportunities;

(d) It is essential that health institutions that have headquarters in Colorado or that operate or manage health facilities in Colorado, and affiliates of such health institutions, be provided with appropriate additional means to assist in the development and maintenance of public health, health care, hospitals, and related facilities wherever such health institutions are located in order that they can provide more adequate medical care and health facilities to the people of Colorado;

(e) It is the purpose of this article to provide a measure of assistance to enable health institutions in the state to refund or refinance outstanding indebtedness incurred for health facilities and to provide additional facilities and structures that are greatly needed to accomplish the purposes of this article; and

(f) The exemption of bonds and notes issued pursuant to this article from all taxation and assessments in the state of Colorado benefit only the residents of the state of Colorado.

(2) It is the intent of the general assembly to create the Colorado health facilities authority to lend money to health institutions and to authorize the authority to acquire, construct, reconstruct, repair, alter, improve, extend, own, lease, and dispose of properties so that the authority may be able to promote the health and welfare of the people of this state and develop health care-related employment opportunities for the people of this state. In enacting this article, it is the intent of the general assembly to vest the authority with the powers necessary to accomplish these purposes. However, it is not the intent of the general assembly to authorize the authority to operate a health facility.

(3) This article shall be liberally construed to accomplish the intentions expressed in this section.

Source: L. 77: Entire article added, p. 1304, § 1, effective July 1. **L. 97:** Entire section amended, p. 418, § 1, effective August 6. **L. 2007:** Entire section amended, p. 410, § 1, effective August 3.

25-25-103. Definitions. As used in this article, unless the context otherwise requires:

(1) “Authority” means the Colorado health facilities authority created by this article.

(2) “Board” means the board of directors of the authority.

(3) “Bond”, “note”, “bond anticipation note”, or “other obligation” means any bond, note, debenture, interim certificate, or other evidence of financial indebtedness issued by the authority pursuant to this article, including refunding bonds.

(4) “Bond resolution” means the resolution authorizing the issuance of, or providing terms and conditions related to, bonds issued under the provisions of this article and

includes any trust agreement, trust indenture, indenture of mortgage, or deed of trust providing terms and conditions for such bonds.

(5) “Costs”, as applied to facilities financed in whole or in part under the provisions of this article, means and includes the sum total of all reasonable or necessary costs incidental to:

(a) The acquisition, construction, reconstruction, repair, alteration, equipment, enlargement, improvement, and extension of such facilities; and

(b) The acquisition of all lands, structures, real or personal property, rights, rights-of-way, franchises, easements, and interest acquired, necessary, or used for, or useful for or in connection with, a facility; and

(c) All other undertakings that the authority deems reasonable or necessary for the development of a facility, including, without limitation, the cost of or for:

(I) Studies and surveys;

(II) Land title and mortgage guaranty policies;

(III) Plans, specifications, and architectural and engineering services;

(IV) Legal, accounting, organization, marketing, or other special services;

(V) Financing, acquisition, demolition, construction, equipment, and site development of new and rehabilitated buildings;

(VI) Rehabilitation, reconstruction, repair, or remodeling of existing buildings; and

(VII) All other necessary and incidental expenses, including working capital and an initial bond and interest reserve funds, together with interest on bonds issued to finance such facilities to the extent permitted under applicable federal tax law.

(6) (a) “Health facility” or “facility”, in the case of a participating health institution, means any structure or building, whether such structure or building is located within the state or whether such structure or building is located outside the state if an out-of-state health institution that operates or manages such structure or building, or an affiliate of such institution, also operates or manages a health facility within this state, suitable for use as a hospital, clinic, nursing home, home for the aged or infirm, or other health care facility; laboratory; pharmacy; laundry; nurses’, doctors’, or interns’ residences; administration building; research facility; maintenance, storage, or utility facility; auditorium; dining hall; food service and preparation facility; mental or physical health care facility; dental care facility; nursing school; medical or dental teaching facility; mental or physical health facilities related to any such structure or facility; or any other structure or facility required or useful for the operation of a health institution, including but not limited to offices, parking lots and garages, and other supporting service structures; and any equipment, furnishings, appurtenances, or other assets, tangible or intangible, including but not limited to assets related to the medical practice of a health care professional, that are necessary or useful in the development, establishment, or operation of a participating health institution; and the acquisition, preparation, and development of all real and personal property necessary or convenient as a site or sites for any such structure or facility.

(b) “Health facility” or “facility” does not include the following:

(I) Food, fuel, supplies, or other items that are customarily considered as a current operating expense or charges;

(II) Property used or to be used primarily for sectarian instruction or study or as a place for devotional activities or religious worship; or

(III) Property used or to be used primarily in connection with any part of a program of a school or department of divinity of any religious denomination.

(7) (a) “Health institution” means a limited liability company controlled directly or indirectly by one or more nonprofit entities, a private nonprofit hospital, corporation, association, or institution, or a public hospital or institution authorized or permitted by law, whether directly or indirectly through one or more affiliates, to provide, operate, or manage one or more health facilities in this state or outside this state if such entity, or an affiliate of such entity, also operates or manages a health facility within this state.

(b) “Health institution” also includes a cooperative hospital service organization, as described in section 501 (e) of the “Internal Revenue Code of 1986”, as amended, or a similar corporation, whether or not such corporation is exempt from federal income taxation pursuant to said section 501 (e).

(c) (I) "Health institution" also includes a network of health care providers, however organized; an integrated health care delivery system; a joint venture or partnership between or among health care providers; a health care purchasing alliance; health insurers and third-party administrators that are participants in a system, network, joint venture, or partnership that provides health services; an organization whose primary purpose is to provide supporting services to one or more health institutions; or a health care provider or such other health care-related organization, or an affiliate of such organization, whose regional or national headquarters are located in this state.

(II) In order to be a health institution, a network, system, joint venture, partnership, alliance, provider, or organization described in subparagraph (I) of this paragraph (c) shall be a nonprofit entity or controlled by one or more nonprofit entities.

(7.5) "Participating health institution" means a health institution that undertakes the financing and construction or acquisition of health facilities or undertakes the refunding or refinancing of outstanding obligations in accordance with this article.

(8) "Refinancing of outstanding obligations" means liquidation, with the proceeds of bonds or notes issued by the authority, of any indebtedness of a participating health institution incurred prior to, on, or after July 1, 1977, to finance or aid in financing a lawful purpose of such health institution not financed pursuant to this article which would constitute a facility had it been undertaken and financed by the authority, or consolidation of such indebtedness with indebtedness of the authority incurred for a facility related to the purpose for which the indebtedness of the health institution was initially incurred.

(9) "Revenues" means, with respect to facilities, the rents, fees, charges, interest, principal repayments, and other income received or to be received by the authority from any source on account of such facilities.

Source: L. 77: Entire article added, p. 1305, § 1, effective July 1. L. 79: (5), (6)(a), and (7)(a) amended, p. 1075, § 1, effective May 25. L. 95: (6)(a) and (7)(a) amended, p. 573, § 1, effective July 1. L. 97: (6)(a) and (7)(a) amended, p. 419, § 2, effective August 6. L. 2007: (5) to (7) amended and (7.5) added, p. 411, § 2, effective August 3.

25-25-104. Colorado health facilities authority - creation - membership - appointment - terms - vacancies - removal. (1) There is hereby created an independent public body politic and corporate to be known as the Colorado health facilities authority. Said authority is constituted a public instrumentality, and its exercise of the powers conferred by this article shall be deemed and held to be the performance of an essential public function. The authority shall be a body corporate and a political subdivision of the state and shall not be an agency of state government and shall not be subject to administrative direction by any department, commission, board, or agency of the state.

(2) The governing body of the authority shall be a board of directors which shall consist of seven members to be appointed by the governor, with the consent of the senate. Such members shall be residents of the state. No more than four of the members shall be of the same political party. The members of the board first appointed shall serve for terms to be designated by the governor, expiring on June 30 of each year beginning in 1978 and ending in 1984. Persons holding office on June 15, 1987, are subject to the provisions of section 24-1-137, C.R.S. Thereafter, upon the expiration of the term of any member, his successor shall be appointed for a term of four years. Each member shall serve until his resignation or, in the case of a member whose term has expired, until his successor has been appointed and qualified. Any member shall be eligible for reappointment. The governor shall fill any vacancy by appointment for the remainder of an unexpired term. Any member appointed by the governor when the general assembly is not in regular session, whether appointed for an unexpired term or for a full term, shall be deemed to be duly appointed and qualified until the appointment of such member is approved or rejected by the senate. Such appointment shall be submitted to the senate for its approval or rejection during the next regular session of the general assembly following the appointment.

(3) (a) Any member of the board may be removed by the governor for misfeasance, malfeasance, willful neglect of duty, or other cause, after notice and a public hearing, unless such notice and hearing shall be expressly waived in writing.

(b) Notwithstanding the provisions of paragraph (a) of this subsection (3), a member shall be removed by the governor if such member fails, for reasons other than temporary mental or physical disability or illness, to attend three regular meetings of the board during any twelve-month period without the board having entered upon its minutes an approval for any of such absences.

Cross references: For limitation on issuance of private activity bonds, see part 17 of article 32 of title 24; for the provisions which designate the Colorado health facilities authority as a “special purpose authority” for the purposes of § 20 of article X of the state constitution, see § 24-77-102 (15).

25-25-105. Organization meeting - chair - executive director - surety bond - conflict of interest. (1) A member of the board, designated by the governor, shall call and convene the initial organizational meeting of the board and shall serve as its chair pro tempore. At such meeting, appropriate bylaws shall be presented for adoption. The board’s bylaws may provide for the election or appointment of officers, the delegation of certain powers and duties, and such other matters as the authority deems proper. At such meeting and annually thereafter, the board shall elect one of its members as chair and one as vice-chair. It shall appoint an executive director and, if desired, an associate executive director and any other officer designated by the board, who shall not be members of the board and who shall serve at its pleasure. They shall receive such compensation for their services as shall be fixed by the board.

(2) The executive director, the associate executive director, or any other person designated by the board shall keep a record of the board’s proceedings and shall be custodian of all books, documents, and papers filed with the board, the minute books or journal, and the official seal of the authority. This person may make copies of the minutes and other records and documents of the board and may certify under the official seal of the authority that such copies are true copies. All persons dealing with the authority may rely on such certifications.

(3) The board may delegate, by resolution, to one or more of its members or to its executive director, associate executive director, or any other officer designated by the board, such powers and duties as it may deem proper.

(4) (a) Before the issuance of any bonds under this article, the executive director, associate executive director, and any other officer designated by the board shall each execute a surety bond in the penal sum of one hundred thousand dollars, and each member of the board shall execute a surety bond in the penal sum of fifty thousand dollars.

(b) In lieu of the surety bonds required by paragraph (a) of this subsection (4), the chair of the board may execute a blanket bond covering each member, the executive director, the associate executive director, and the employees or other officers of the authority.

(c) Each surety bond shall be conditioned upon the faithful performance of the duties of the office or offices covered and shall be executed by a surety authorized to transact business in this state as surety. The cost of each such bond shall be paid by the authority.

(5) Notwithstanding any other law to the contrary, it shall not constitute a conflict of interest for a trustee, director, officer, or employee of any health institution, financial institution, investment banking firm, brokerage firm, commercial bank or trust company, architecture firm, insurance company, or other firm, person, or corporation to serve as a member of the board; except that such trustee, director, officer, or employee shall disclose such interest to the board and shall abstain from deliberation, action, and voting by the board in each instance where the business affiliation of any such trustee, director, officer, or employee is involved.

25-25-106. Meetings of board - quorum - expenses. (1) Four members of the board shall constitute a quorum for the purpose of conducting business and exercising its powers. Action may be taken by the board upon the affirmative vote of at least four of its members. A vacancy in the membership of the board shall not impair the right of a quorum of the board to exercise all the rights and perform all the duties of the board.

(2) Each meeting of the board for any purpose whatsoever shall be open to the public. Notice of meetings shall be as provided in the bylaws of the authority. One or more members of the board may participate in a meeting of the board or a committee of the board and may vote on resolutions presented at the meeting through the use of telecommunications devices, including, but not limited to, a conference telephone or similar communications equipment. Participation through telecommunications devices shall constitute presence in person at the meeting. The use of telecommunications devices shall not supersede any requirements for public hearing otherwise provided by law. Resolutions need not be published or posted, but resolutions and all proceedings and other acts of the board shall be a public record.

(3) Members of the board shall receive no compensation for services but shall be entitled to the necessary expenses, including traveling and lodging expenses, incurred in the discharge of their official duties. Any payments for expenses shall be paid from funds of the authority.

Source: L. 77: Entire article added, p. 1308, § 1, effective July 1. L. 91: (2) amended, p. 901, § 1, effective April 19. L. 2007: Entire section amended, p. 414, § 4, effective August 3.

25-25-107. General powers of authority. (1) In addition to any other powers granted to the authority by this article, the authority shall have the following powers:

- (a) To have perpetual existence and succession as a body politic and corporate;
- (b) To adopt and from time to time amend or repeal bylaws for the regulation of its affairs and the conduct of its business, consistent with the provisions of this article;
- (c) To sue and be sued;
- (d) To have and to use a seal and to alter the same at pleasure;
- (e) To maintain an office at such place or places as it may designate;
- (f) To determine, in accordance with the provisions of this article, the location and character of any facility to be financed under the provisions of this article; to acquire, construct, reconstruct, renovate, improve, alter, replace, maintain, repair, operate, and lease as lessee or lessor; to enter into contracts for any and all of such purposes and for the management and operation of a facility; and to designate a participating health institution as its agent to determine the location and character of a facility undertaken by such participating health institution under the provisions of this article and, as agent of the authority, to acquire, construct, reconstruct, renovate, replace, alter, improve, maintain, repair, operate, lease as lessee or lessor, and regulate the same, and, as agent of the authority, to enter into contracts for any and all of such purposes including contracts for the management and operation of such facility;
- (g) To lease to a participating health institution any or all of the facilities upon such terms and conditions as the authority shall deem proper; to charge and collect rent therefor and to terminate any such lease upon the failure of the lessee to comply with any of the obligations thereof; and to include in any such lease, if desired, provisions that the lessee thereof shall have options to renew the term of the lease for such period or periods, at such rent, and upon such terms or conditions as shall be determined by the authority or to purchase any or all of the facilities, or provisions that, upon payment of all of the indebtedness incurred by the authority for the financing of such facilities, the authority will convey any or all of the facilities to the lessee or lessees thereof with or without consideration;

(h) To borrow money and to issue bonds, notes, bond anticipation notes, or other obligations for any of its corporate purposes and to fund or refund the same, all as provided for in this article;

(i) To establish rules and regulations and to designate a participating health institution as its agent to establish such rules and regulations, for the use of the facilities undertaken or operated by such participating health institution; to employ or contract for consulting engineers, architects, attorneys, accountants, construction and financial experts, superintendents, managers, and such other employees and agents as may be necessary in its judgment and to fix their compensation;

(j) To receive and accept from the federal government, the state of Colorado, or any other public agency loans, grants, or contributions for or in aid of the construction of facilities or any portion thereof, or for equipping the same, and to receive and accept grants, gifts, or other contributions from any source; and to use such funds only for the purposes for which they were loaned, contributed, or granted;

(k) To mortgage or pledge all or any portion of the facilities and the site or sites thereof, whether then owned or thereafter acquired, for the benefit of the holders of bonds issued to finance such facilities or any portion thereof;

(l) To make mortgage or other secured or unsecured loans to any participating health institution for the cost of the facilities in accordance with an agreement between the authority and such participating health institution; but no such loan shall exceed the total cost of such facilities as determined by such participating health institution and approved by the authority;

(m) To make mortgage loans or other secured or unsecured loans to a participating health institution; to refund outstanding obligations, mortgages, or advances issued, made, or given by such institution for the cost of its facilities, including the issuance of bonds and the making of loans to a participating health institution; and to refinance outstanding obligations and indebtedness incurred for facilities undertaken and completed prior to, on, or after July 1, 1977, when the authority makes a finding consistent with section 25-25-115 (1);

(n) To obtain, or aid in obtaining, from any department or agency of the United States or of this state or any private company, any insurance or guarantee as to, or of, or for the payment or repayment of interest or principal, or both, or any part thereof, on any loan, lease, or obligation or any instrument evidencing or securing the same, made or entered into pursuant to the provisions of this article; and, notwithstanding any other provisions of this article, to enter into any agreement, contract, or any other instrument whatsoever with respect to any such insurance or guarantee, to accept payment in such manner and form as provided therein in the event of default by a participating health institution, and to assign any such insurance or guarantee as security for the authority's bonds;

(o) To do all things necessary and convenient to carry out the purposes of this article;

(p) To charge to and equitably apportion among participating health institutions its administrative costs and expenses incurred in the exercise of the powers granted and duties conferred by this article;

(q) To make and execute contracts and all other instruments necessary or convenient for the exercise of its powers and functions under this article;

(r) To assist, coordinate, and participate with other issuers of tax-exempt bonds and public officials in other states in connection with financing on behalf of a multistate health institution;

(s) In connection with financing on behalf of a multistate health institution:

(I) To determine or agree upon who will be assisting, coordinating, or participating issuers of tax-exempt bonds in other states;

(II) To determine or agree upon what the terms or conditions of the financing will be with assisting, coordinating, or participating issuers of tax-exempt bonds in other states; and

(III) To charge fees to, apportion fees among, or agree upon fees with assisting, coordinating, or participating issuers of tax-exempt bonds in other states.

(2) The authority shall not have the power to operate the facilities as a business other than as a lessee or lessor. Notwithstanding anything contained in this subsection (2) to the contrary, the authority shall have the power to enter into leases which are annually renewable with a public hospital or institution. Any lease of the facilities entered into

pursuant to the provisions of this article shall provide for rentals adequate to pay principal and interest on any bonds issued to finance such facilities as the same fall due and to create and maintain such reserves and accounts for depreciation as the authority shall determine to be necessary.

Source: L. 77: Entire article added, p. 1308, § 1, effective July 1. **L. 81:** (2) amended, p. 1363, § 1, effective July 1. **L. 83:** (2) amended, p. 1110, § 2, effective May 25. **L. 97:** (1)(r) and (1)(s) added, p. 420, § 3, effective August 6. **L. 2007:** (1)(m) amended, p. 415, § 5, effective August 3.

25-25-108. Acquisition of property. The authority may, directly or by or through a participating health institution as its agent, acquire by purchase, lease, gift, devise, or otherwise such lands, structures, real or personal property, rights-of-way, franchises, easements, and other interests in lands, including lands lying under water and riparian rights which are located within or without the state, as it may deem necessary or convenient for the construction, acquisition, or operation of facilities, upon such terms as may be considered by the authority to be reasonable, and may take title thereto in the name of the authority or in the name of such participating health institution as its agent.

Source: L. 77: Entire article added, p. 1310, § 1, effective July 1.

25-25-109. Notes. The authority may issue from time to time its negotiable notes for any corporate purpose, including the payment of all or any part of the cost of any facility, and may renew from time to time any notes by the issuance of new notes, whether the notes to be renewed have or have not matured. The authority may issue notes partly to renew notes or to discharge other obligations then outstanding and partly for any other purpose. The notes may be authorized, sold, executed, and delivered in the same manner as bonds. Any resolution or resolutions authorizing notes of the authority or any issue thereof may contain any provisions which the authority is authorized to include in any resolution or resolutions authorizing bonds of the authority or any issue thereof, and the authority may include in any notes any terms, covenants, or conditions which it is authorized to include in any bonds. All such notes shall be payable from the proceeds of bonds or renewal notes or from the revenues of the authority or other moneys available therefor and not otherwise pledged, subject only to any contractual rights of the holders of any of its notes or other obligations then outstanding.

Source: L. 77: Entire article added, p. 1310, § 1, effective July 1.

25-25-110. Bonds. (1) The authority may issue from time to time its bonds in such principal amount as the authority shall determine for the purpose of financing all or a part of the cost of any health institutions or any facilities authorized by this article or for the refinancing of outstanding obligations. In anticipation of the sale of such bonds, the authority may issue bond anticipation notes and may renew the same from time to time. Such notes shall be paid from any revenues of the authority or other moneys available therefor and not otherwise pledged, or from the proceeds of the sale of the bonds of the authority in anticipation of which they were issued. The notes shall be issued in the same manner as bonds. Such notes and the resolution or resolutions authorizing them may contain any provisions, conditions, or limitations which a bond resolution of the authority may contain.

(2) The bonds may be issued as serial bonds, as term bonds, or as a combination of both types. All bonds issued by the authority shall be payable solely out of the revenues and receipts derived from the leasing, mortgaging, or sale by the authority of the facilities concerned or of any part thereof as designated in the resolutions of the authority under which the bonds are authorized to be issued or as designated in a trust indenture authorized by the authority, which trust indenture shall name a bank or trust company in Colorado, or outside of Colorado if it is determined by the authority to be in the best interests of the

financing, such determination to be conclusive, as trustee, or out of other moneys available therefor and not otherwise pledged. Such bonds may be issued and delivered by the authority at such times and in such manner, may be in such form and denominations and include such terms and maturities, may be in fully registered form or in bearer form registerable either as to principal or interest or both, may bear such conversion privileges, may be payable in such installments and at such time or times not exceeding forty years after the date thereof, may be payable at such place or places whether within or without the state of Colorado, may bear interest at such rate or rates per annum as shall be determined by the authority or as shall be determined by any formula prescribed by the authority or as may be determined from time to time by a designated agent of the authority in accordance with specified standards and procedures and without regard to any interest rate limitation appearing in any other law, may be evidenced in such manner, may be in the form of coupon bonds that have attached thereto interest coupons bearing the facsimile signature of an authorized officer of the authority, and may contain such provisions not inconsistent with this article, all as shall be provided in the resolutions of the authority under which the bonds are authorized to be issued or as is provided in a trust indenture authorized by the authority. Notwithstanding anything in this subsection (2) to the contrary, in the case of short-term notes or other obligations maturing not later than one year after the date of issuance thereof, the board may authorize the executive director, associate executive director, or any officer of the board to fix principal amounts, maturity dates, interest rates, and purchase prices of any particular issue of such short-term notes or obligations, subject to such limitations as to maximum term, maximum principal amount outstanding, and maximum net effective interest rates as the board shall prescribe by resolution, and such authorization shall remain effective for the period of time designated in the initial resolution regardless of whether the composition of the board changes in the interim unless sooner rescinded by the board.

(3) If deemed advisable by the authority, there may be retained in the resolutions or the trust indenture under which any bonds of the authority are authorized to be issued an option to redeem all or any part thereof as may be specified in such resolutions or in such trust indenture, at such price or prices, after such notice or notices, and on such terms and conditions as may be set forth in such resolutions or in such trust indenture and as may be briefly recited on the face of the bonds; but nothing in this article shall be construed to confer on the authority the right or option to redeem any bonds except as may be provided in the resolutions or in such trust indenture under which they are issued.

(4) The bonds or notes of the authority may be sold at public or private sale for such price or prices, in such manner, and at such times as may be determined by the authority, and the authority may pay all expenses, premiums, and commissions that it may deem necessary or advantageous in connection with the issuance thereof. The power to fix the date of sale of bonds and notes, to receive bids or proposals, to award and sell bonds and notes, and to take all other necessary action to sell and issue bonds and notes may be delegated to the executive director, associate executive director, or any officer of the board of the authority by resolution of the authority. Pending preparation of the definitive bonds, the authority may issue interim receipts or certificates, which shall be exchanged for the definitive bonds.

(5) (a) Issuance by the authority of one or more series of bonds for one or more purposes shall not preclude it from issuing other bonds in connection with the same facilities, any other facilities, or any other purpose under this article, but the resolutions or trust indenture under which any subsequent bonds may be issued shall recognize the terms and provisions of any prior pledge or mortgage made for any prior issue of bonds and the terms upon which such additional bonds may be issued and secured. Any outstanding bonds of the authority may at any time and from time to time be refunded or advance refunded by the authority by the issuance of its bonds for such purpose and in a principal amount as may be determined by the authority, which may include interest accrued or to accrue thereon with or without giving effect to investment income thereon and other expenses necessary to be paid in connection therewith. If deemed advisable by the authority, such bonds may be refunded or advance refunded for the additional purpose of paying all or any part of the cost of constructing and acquiring additions, improvements, extensions, or enlargements of a facility or any portion thereof.

(b) Any such refunding may be effected whether the bonds to be refunded shall have then matured or shall thereafter mature either by sale of the refunding bonds and the application of the proceeds thereof for the payment of the bonds to be refunded thereby or by the exchange of the refunding bonds for the bonds to be refunded thereby with the consent of the holders of the bonds to be so refunded, regardless of whether or not the bonds to be refunded were issued in connection with the same facilities or separate facilities or for any other purpose under this article and regardless of whether or not the bonds proposed to be refunded shall be payable on the same date or different dates or shall be due serially or otherwise. The proceeds of any such bonds issued for the purpose of refunding outstanding bonds may, in the discretion of the authority, be applied to the purchase or retirement at maturity or redemption of such outstanding bonds either on their earliest or any subsequent redemption date or upon the purchase or at the maturity thereof and may, pending such application, be placed in escrow to be applied to such purchase or retirement at maturity or redemption on such date as may be determined by the authority. Any such escrowed proceeds, pending such use, may be invested or deposited in securities or depositories meeting the requirements established in part 6 of article 75 of title 24, C.R.S. The interest, income, and profit, if any, earned or realized on any such investment may also, in the discretion of the authority, be applied to the payment of the outstanding bonds or notes to be so refunded or to the payment of principal and interest on the refunding bonds or for any other purpose under this article. After the terms of the escrow have been fully satisfied and carried out, any balance of such proceeds and interest, income, and profits, if any, earned or realized on the investments thereof may be returned to the authority for use by it in any lawful manner. The portion of the proceeds of any such bonds issued for the additional purpose of paying all or any part of the cost of constructing and acquiring additions, improvements, extensions, or enlargements of a facility may be invested or deposited in securities or depositories meeting the requirements established in part 6 of article 75 of title 24, C.R.S. The interest, income, and profits, if any, earned or realized on such investment may be applied to the payment of all or any part of such cost or may be used by the authority in any lawful manner. All such bonds shall be subject to the provisions of this article in the same manner and to the same extent as other bonds issued pursuant to this article.

L. 84: (2) amended, p. 787, § 1, effective April 5. L. 85: (1) and (5)(b) amended, p. 922, § 1, effective July 1. L. 89: (5)(b) amended, p. 1112, § 19, effective July 1. L. 2007: (2) and (4) amended, p. 415, § 6, effective August 3.

25-25-111. Negotiability of bonds. All bonds and the interest coupons applicable thereto are hereby declared and shall be construed to be negotiable instruments.

Source: L. 77: Entire article added, p. 1313, § 1, effective July 1.

25-25-112. Security for bonds and notes. (1) The principal of and interest on any bonds or notes issued by the authority may be secured by a pledge of, or security interest in, the revenues, rentals, and receipts out of which the same may be made payable or from other moneys available therefor and not otherwise pledged or used as security and may be secured by a trust indenture, mortgage, or deed of trust (including assignment of leases or other contract rights of the authority thereunder) covering all or any part of the facilities from which the revenues, rentals, or receipts so pledged or used as security may be derived, including any enlargements of and additions to any such facility thereafter made. The resolution under which the bonds are authorized to be issued and any such trust indenture, mortgage, or deed of trust may contain any agreements and provisions which shall be a part of the contract with the holders of the bonds or notes to be authorized as to:

(a) Pledging or providing a security interest in all or any part of the revenues of a facility or any revenue-producing contract or contracts made by the authority with any individual, partnership, corporation, or association or other body, public or private, to secure

the payment of the bonds or notes or of any particular issue of bonds, subject to such agreements with noteholders or bondholders as may then exist;

(b) Maintenance of the properties covered thereby;

(c) Fixing and collection of mortgage payments, rents, fees, and other charges to be charged and the amounts to be raised in each year thereby, and the use and disposition of the revenues;

(d) Setting aside, creation, and maintenance of special and reserve funds and sinking funds and the use and disposition of the revenues;

(e) Limitations on the right of the authority or its agent to restrict and regulate the use of the facilities;

(f) Limitations on the purpose to which the proceeds of sale of any issue of bonds or notes then or thereafter to be issued may be applied, and pledging or providing a security interest in such proceeds to secure the payment of the bonds or notes or any issue of the bonds or notes;

(g) Limitations on the issuance of additional bonds, the terms upon which additional bonds may be issued and secured, and the refunding of outstanding bonds;

(h) The procedure, if any, by which the terms of any contract with bondholders or noteholders may be amended or abrogated, the amount of bonds or notes the holders of which must consent thereto, and the manner in which such consent may be given;

(i) Limitations on the amount of moneys derived from a facility to be expended for operating, administrative, or other expenses of the authority;

(j) Defining the acts or omissions to act which shall constitute a default in the duties of the authority to holders of its obligations and providing the rights and remedies of such holders in the event of a default;

(k) Mortgaging of a facility and the site thereof for the purpose of securing the bondholders or noteholders;

(l) Such other additional covenants, agreements, and provisions as are judged advisable or necessary by the authority for the security of the holders of such bonds or notes.

(2) Any pledge made by the authority shall be valid and binding from the time when the pledge is made. The revenues, moneys, or property so pledged and thereafter received by the authority shall immediately be subject to the lien of such pledge without any physical delivery thereof or further act, and the lien of such pledge shall be valid and binding as against all parties having claims of any kind in tort, contract, or otherwise against the authority, irrespective of whether such parties have notice thereof. Neither the resolution nor any other instrument by which a pledge is created need be recorded. Each pledge, agreement, lease, indenture, mortgage, and deed of trust made for the benefit or security of any of the bonds of the authority shall continue to be effective until the principal of and interest on the bonds for the benefit of which the same were made shall have been fully paid or provision for such payment duly made. In the event of default in such payment or in any agreements of the authority made as a part of the contract under which the bonds were issued, whether contained in the resolutions authorizing the bonds or in any trust indenture, mortgage, or deed of trust executed as security therefor, said payment or agreement may be enforced by suit, mandamus, the appointment of a receiver in equity, foreclosure of any mortgage and deed of trust, or any one or more of said remedies.

(3) In addition to the provisions of subsections (1) and (2) of this section, bonds of the authority may be secured by a pooling of leases, loans, or mortgages whereby the authority may assign its rights, as lessor, lender, or mortgagee, and pledge rents, loan payments, or mortgage payments under two or more leases, loans, or mortgages, with two or more participating health institutions as lessees, borrowers, or mortgagors, respectively, upon such terms as may be provided for in the resolutions of the authority or as may be provided for in a trust indenture or mortgage or deed of trust authorized by the authority.

Source: L. 77: Entire article added, p. 1313, § 1, effective July 1. L. 81: (3) amended, p. 1363, § 2, effective February 27.

25-25-113. Personal liability. Neither the members of the authority nor any person executing the bonds or notes shall be liable personally on bonds or notes or be subject to any personal liability or accountability by reason of the issuance thereof.

Source: L. 77: Entire article added, p. 1314, § 1, effective July 1.

25-25-114. Purchase. The authority may purchase its bonds or notes out of any funds available therefor. The authority may hold, pledge, cancel, or resell such bonds or notes, subject to and in accordance with agreements with bondholders or noteholders.

Source: L. 77: Entire article added, p. 1314, § 1, effective July 1.

25-25-115. Procedure concerning issuance of bonds. (1) Notwithstanding any other provisions of this article, the authority may not undertake any facility authorized by this article unless, prior to the issuance of any bonds or notes, the board finds that the facility will enable or assist a health institution to fulfill its obligation to provide health facilities.

(2) (Deleted by amendment, L. 2007, p. 416, § 7, effective August 3, 2007.)

Source: L. 77: Entire article added, p. 1314, § 1, effective July 1. **L. 79:** (1)(b) amended, p. 1077, § 5, effective May 25. **L. 81:** Entire section R&RE, p. 1363, § 3, effective February 27. **L. 2007:** Entire section amended, p. 416, § 7, effective August 3.

25-25-116. Trust agreement to secure bonds. (1) In the discretion of the authority, any bonds issued under this article may be secured by a trust agreement between the authority and a corporate trustee or trustees. A corporate trustee may be any trust company or bank in Colorado. If the authority determines it to be in the best interests of the financing, a trust company or bank outside of Colorado may be a corporate trustee. The trust agreement or the resolution providing for the issuance of the bonds may pledge or assign the revenues to be received or the proceeds of any contract or contracts pledged and may convey or mortgage the facilities or any portion of the facilities. The trust agreement or resolution providing for the issuance of the bonds may contain provisions for protecting and enforcing the rights and remedies of the bondholders that are reasonable, proper, and not in violation of law, including provisions that have been specifically authorized to be included in any resolution or resolutions of the authority authorizing the bonds.

(2) Any bank or trust company incorporated under the laws of this state that may act as depository of the proceeds of bonds or of revenues or other moneys may furnish such indemnifying bonds or pledge such securities as may be required by the authority. A trust agreement may set forth the rights and remedies of the bondholders and of the trustee or trustees and may restrict the individual right of action by bondholders. In addition, the trust agreement or resolution may contain such other provisions as the authority may deem reasonable and proper for the security of the bondholders. All expenses incurred in carrying out such trust agreement or resolution may be treated as a part of the cost of the operation of a facility.

25-25-117. Payment of bonds - nonliability of state. Bonds and notes issued by the authority shall not constitute or become an indebtedness, a debt, or a liability of the state, the general assembly, or any county, city, city and county, town, school district, or other subdivision of the state, or of any other political subdivision or body corporate and politic within the state, and neither the state, the general assembly, nor any county, city, city and county, town, school district, or other subdivision of the state shall be liable thereon; nor shall such bonds or notes constitute the giving, pledging, or loaning of the faith and credit of the state, the general assembly, or any county, city, city and county, town, school district, or other subdivision of the state, or of any other political subdivision or body corporate and politic within the state but shall be payable solely from the funds provided for in this article. The issuance of bonds or notes under the provisions of this article shall not, directly, indirectly, or contingently, obligate the state or any subdivision thereof nor empower the authority to levy or collect any form of taxes or assessments therefor, or to create any

indebtedness payable out of taxes or assessments therefor or make any appropriation for their payment, and such appropriation or levy is prohibited. Nothing in this section shall prevent or be construed to prevent the authority from pledging its full faith and credit or the full faith and credit of a participating health institution to the payment of bonds or notes authorized pursuant to this article. Nothing in this article shall be construed to authorize the authority to create a debt of the state within the meaning of the constitution or statutes of Colorado or to authorize the authority to levy or collect taxes or assessments; and all bonds issued by the authority pursuant to the provisions of this article are payable and shall state that they are payable solely from the funds pledged for their payment in accordance with the resolution authorizing their issuance or with any trust indenture, mortgage, or deed of trust executed as security therefor and are not a debt or liability of the state of Colorado. The state shall not in any event be liable for the payment of the principal of or interest on any bonds of the authority or for the performance of any pledge, mortgage, obligation, or agreement of any kind whatsoever which may be undertaken by the authority. No breach of any such pledge, mortgage, obligation, or agreement shall impose any pecuniary liability upon the state or any charge upon its general credit or against its taxing power.

Source: L. 77: Entire article added, p. 1315, § 1, effective July 1.

25-25-118. Exemption from taxation - securities law. The authority is hereby declared to be a public instrumentality of the state, performing a public function for the benefit of the people of the state for the improvement of their health and living conditions. Accordingly, the income or other revenues of the authority, all properties at any time owned by the authority, any bonds, notes, or other obligations issued under this article, the transfer thereof and the income therefrom, including any profit made on the sale thereof, and all mortgages, leases, trust indentures, and other documents issued in connection therewith shall be exempt at all times from all taxation and assessments in the state of Colorado. Bonds issued by the authority shall also be exempt from the “Colorado Securities Act”, article 51 of title 11, C.R.S.

Source: L. 77: Entire article added, p. 1316, § 1, effective July 1. L. 90: Entire section amended, p. 741, § 7, effective July 1.

25-25-119. Rents and charges. A sufficient amount of the revenues derived in respect of a facility, except such part of such revenues as may be necessary to pay the cost of maintenance, repair, and operation and to provide reserves and for renewals, replacements, extensions, enlargements, and improvements as may be provided for in the resolution authorizing the issuance of any bonds or notes of the authority or in the trust agreement securing the same, shall be set aside at such regular intervals as may be provided in such resolution or trust agreement in a sinking or other similar fund, which is hereby pledged to and charged with the payment of the principal of and the interest on such bonds or notes as the same shall become due and the redemption price or the purchase price of bonds retired by call or purchase as therein provided. Such pledge shall be valid and binding from the time when the pledge is made; and the rates, rents, fees, charges, and other revenues or other moneys so pledged and thereafter received by the authority shall immediately be subject to the lien of such pledge without any physical delivery thereof or further act, and the lien of any such pledge shall be valid and binding as against all parties having claims of any kind in tort, contract, or otherwise against the authority, irrespective of whether such parties have notice thereof. Neither the resolution, any trust agreement, any other agreement, nor any lease by which a pledge is created need be filed or recorded except in the records of the authority. The use and disposition of moneys to the credit of such sinking or other similar fund shall be subject to the resolution authorizing the issuance of such bonds or notes or of such trust agreement. Except as may otherwise be provided in such resolution or such trust agreement, such sinking or other similar fund may be a fund for all such bonds or notes issued to finance facilities at a particular health institution without distinction or priority of one over another; except that the authority in any such resolution or trust agreement may

provide that such sinking or other similar fund shall be the fund for a particular facility at a health institution and for the bonds issued to finance a particular facility and may, additionally, permit and provide for the issuance of bonds having a lien in respect of the security authorized which is subordinate to other bonds of the authority, and, in such case, the authority may create separate sinking or other similar funds in respect of such subordinate lien bonds.

Source: L. 77: Entire article added, p. 1316, § 1, effective July 1.

25-25-120. Fees. (1) All expenses of the authority incurred in carrying out the provisions of this article shall be payable solely from funds provided under the authority of this article, and no liability shall be incurred by the authority beyond the moneys which are provided pursuant to this article; except that, for the purposes of meeting the necessary expenses of initial organization and operation until such date as the authority derives moneys from funds provided pursuant to this article, the authority may borrow such moneys as may be required for the necessary expenses of organization and operation. Such borrowed moneys shall be repaid within a reasonable time after the authority receives funds provided pursuant to this article.

(2) An initial planning service fee in an amount determined by the authority shall be paid to the authority by each health institution that applies for financial assistance to provide for its facilities. Such initial planning service fees shall be included in the cost of the facilities to be financed and shall not be refundable by the authority, whether or not any such application is approved, or, if approved, whether or not such financial assistance is accomplished. In addition to such initial fee, an annual planning service fee shall be paid to the authority by each participating health institution in an amount determined by the authority. Such fees shall be paid on dates or in installments as may be satisfactory to the authority. Such fees may be used for:

- (a) (Deleted by amendment, L. 2007, p. 417, § 9, effective August 3, 2007.)
- (b) Necessary administrative and operating expenses; and
- (c) Reserves for anticipated future expenses.

(3) In addition, the authority may retain the services of any other public or private person, firm, partnership, association, or corporation to furnish services and data to be used by the authority in determining the financial feasibility of any facilities for which application is being made or for such other services or surveys as the authority deems necessary to carry out the purposes of this article. The authority may negotiate the fee to be paid to a person or entity that provides these services to the authority.

Source: L. 77: Entire article added, p. 1317, § 1, effective July 1. **L. 79:** IP(2) amended, p. 1077, § 6, effective May 25. **L. 2007:** IP(2), (2)(a), (2)(b), and (3) amended, p. 417, § 9, effective August 3.

25-25-121. Conveyance of title - release of lien. When the principal of and interest on bonds issued by the authority to finance the cost of facilities or to refinance outstanding indebtedness of one or more participating health institutions, including any refunding bonds issued to refund and refinance such bonds, have been fully paid and retired or when adequate provision has been made to fully pay and retire the same, and all other conditions of the resolution, the lease, the trust indenture, and the mortgage, deed of trust, or other form of security arrangement, if any, authorizing and securing the same have been satisfied, the authority shall promptly do all things and execute such deeds, conveyances, and other documents as are necessary and required to release the lien of such mortgage, deed of trust, or other form of security arrangement in accordance with the provisions thereof and to convey its right, title, and interest in such facilities so financed, and any other facilities leased or mortgaged or subject to deed of trust or any other form of security arrangement to secure the bonds, to such participating health institution or institutions.

Source: L. 77: Entire article added, p. 1317, § 1, effective July 1.

25-25-122. Investment of funds. (1) The authority may invest the proceeds from the sale of a series of bonds or any funds related to the series in securities and other investments as may be provided in the proceedings under which the series of bonds are authorized to be issued, whether or not the investment or reinvestment is authorized under any other provision of law. Such investment or reinvestment may include, but is not limited to, the following:

- (a) Bonds or other obligations of the United States;
 - (b) Bonds or other obligations, the payment of the principal and interest of which is unconditionally guaranteed by the United States;
 - (c) Obligations issued or guaranteed as to principal and interest by any agency or person controlled or supervised by and acting as an instrumentality of the United States pursuant to authority granted by the congress of the United States;
 - (d) Obligations issued or guaranteed by any state of the United States or any political subdivision of any such state;
 - (e) Prime commercial paper;
 - (f) Prime finance company paper;
 - (g) Bankers acceptances drawn on and accepted by commercial banks;
 - (h) Repurchase agreements fully secured by obligations issued or guaranteed as to principal and interest by the United States or by any person controlled or supervised by and acting as an instrumentality of the United States pursuant to authority granted by the congress of the United States;
 - (i) Certificates of deposit or time deposits issued by commercial banks or savings and loan associations that are insured by the federal deposit insurance corporation or its successor; or
 - (j) Such other securities and investments as may be authorized by resolution of the board if such securities and investments are rated within one of the three highest rating categories by a nationally recognized rating agency.
- (2) The authority may invest any other funds in the securities as provided in this section and with such maturities as the authority shall determine if such maturities are on a date or dates prior to the time that, in the judgment of the authority, the funds so invested will be required for expenditure. The express judgment of the authority as to the time that any funds will be required for expenditure or be redeemable is final and conclusive.

L. 2004: Entire section amended, p. 155, § 71, effective July 1. L. 2007: Entire section amended, p. 418, § 10, effective August 3.

25-25-123. Proceeds as trust funds. All moneys received pursuant to this article, whether as proceeds from the sale of bonds, notes, or other obligations or as revenues or receipts, shall be deemed to be trust funds to be held and applied solely as provided in this article. Any officer, bank, or trust company with which such moneys are deposited shall act as trustee of such moneys and shall hold and apply the same for the purposes of this article, subject to such regulations as this article and the resolution authorizing the bonds, notes, or other obligations of any issue or the trust agreement securing such obligations shall provide.

Source: L. 77: Entire article added, p. 1318, § 1, effective July 1.

25-25-124. Agreement of state not to limit or alter rights of obligees. The state hereby pledges to and agrees with the holders of any bonds, notes, or other obligations issued under this article, and with those parties who may enter into contracts with the authority pursuant to the provisions of this article, that the state will not limit, alter, restrict, or impair the rights hereby vested in the authority to acquire, construct, reconstruct, maintain, and operate any facility or to establish, revise, charge, and collect rates, rents, fees, and other charges as may be convenient or necessary to produce sufficient revenues to meet the expenses of maintenance and operation thereof and to fulfill the terms of any

agreements made with the holders of bonds, notes, or other obligations authorized and issued pursuant to this article and with the parties who may enter into contracts with the authority pursuant to this article. The state further agrees that it will not in any way impair the rights or remedies of the holders of such bonds, notes, or other obligations of such parties until such bonds, notes, and other obligations, together with interest thereon, with interest on any unpaid installment of interest and all costs and expenses in connection with any action or proceeding by or on behalf of such holders, are fully met and discharged and such contracts are fully performed on the part of the authority. Nothing in this article precludes such limitation or alteration if and when adequate provision is made by law for the protection of the holders of such bonds, notes, or other obligations of the authority or those entering into such contracts with the authority. The authority may include this pledge and undertaking for the state in such bonds, notes, or other obligations and in such contracts.

Source: L. 77: Entire article added, p. 1318, § 1, effective July 1.

25-25-125. Enforcement of rights of bondholders. Any holder of bonds issued pursuant to this article or any trustee under a trust agreement, trust indenture, indenture of mortgage, or deed of trust entered into pursuant to this article, except to the extent that their rights are restricted by any bond resolution, may, by any suitable form of legal proceedings, protect and enforce any rights under the laws of this state or granted by the bond resolution. Such rights include the right to compel the performance of all duties of the authority required by this article or the bond resolution; to enjoin unlawful activities; and, in the event of default with respect to the payment of any principal of, premium on, if any, and interest on any bond or in the performance of any covenant or agreement on the part of the authority in the bond resolution, to apply to a court having jurisdiction of the cause to appoint a receiver to administer and operate the project or projects, the revenues of which are pledged to the payment of principal of, premium on, if any, and interest on such bonds, with full power to pay, and to provide for payment of, principal of, premium on, if any, and interest on such bonds, and with such powers, subject to the direction of the court, as are permitted by law and are accorded receivers in general equity cases, but excluding any power to pledge additional revenues of the authority to the payment of such principal, premium, and interest.

Source: L. 77: Entire article added, p. 1319, § 1, effective July 1.

25-25-126. Bonds eligible for investment. All banks, bankers, trust companies, savings and loan associations, investment companies, and insurance companies and associations and all executors, administrators, guardians, trustees, and other fiduciaries may legally invest any sinking funds, moneys, or other funds belonging to them or within their control in any bonds issued pursuant to this article. Public entities, as defined in section 24-75-601 (1), C.R.S., may invest public funds in such bonds only if said bonds satisfy the investment requirements established in part 6 of article 75 of title 24, C.R.S.

Source: L. 77: Entire article added, p. 1319, § 1, effective July 1. **L. 89:** Entire section amended, p. 1130, § 67, effective July 1.

25-25-127. Account of activities - receipts for expenditures - report - audit. (1) The authority shall keep an accurate account of its activities, receipts, and expenditures and shall annually make a report of its activities, receipts, and expenditures to the board, the governor, and the state auditor. The report shall be submitted within six months after the close of the authority's fiscal year and shall be in a form prescribed by the recipients of the report.

(2) The state auditor may investigate the affairs of the authority, severally examine the properties and records of the authority, and prescribe methods of accounting and the rendering of periodical reports in relation to facilities undertaken by the authority. This article and the expenditures of the authority shall be reviewed by the legislative audit committee every odd-numbered year.

Source: **L. 77:** Entire article added, p. 1319, § 1, effective July 1. **L. 79:** Entire section amended, p. 1078, § 8, effective May 25. **L. 2007:** Entire section amended, p. 419, § 11, effective August 3.

25-25-128. Federal social security act. The authority may take such action as it deems appropriate to enable its employees to come within the provisions and obtain the benefits of the federal “Social Security Act”, as from time to time amended.

Source: **L. 77:** Entire article added, p. 1319, § 1, effective July 1.

25-25-129. Powers of authority not restricted - law complete in itself. This article shall not be construed as a restriction or limitation upon any powers which the authority might otherwise have under any laws of this state but shall be construed as cumulative of any such powers. No proceedings, referendum, notice, or approval shall be required for the creation of the authority or the issuance of any bonds or any instrument as security therefor, except as provided in this article; but nothing in this article shall be construed to deprive the state and its political subdivisions of their respective police powers over properties of the authority or to impair any power thereover of any official or agency of the state and its governmental subdivisions which may be otherwise provided by law.

Source: **L. 77:** Entire article added, p. 1320, § 1, effective July 1.

25-25-130. Powers in addition to those granted by other laws. The powers conferred by this article are in addition and supplementary to, and the limitations imposed by this article do not affect the powers conferred by, any other law, except as provided in this article. Facilities may be acquired, purchased, constructed, reconstructed, improved, bettered, and extended, and bonds may be issued under this article for said purposes notwithstanding that any other law may provide for the acquisition, purchase, construction, reconstruction, improvement, betterment, and extensions of like facilities or the issuance of bonds for like purposes, and without regard to the requirements, restrictions, limitations, or other provisions contained in any other law.

Source: **L. 77:** Entire article added, p. 1320, § 1, effective July 1.

25-25-131. Annual report. The authority shall submit to the governor and the general assembly within six months after the end of the fiscal year a report which shall set forth a complete and detailed operating and financial statement of the authority during such year. Also included in the report shall be any recommendations with reference to additional legislation or other action that may be necessary to carry out the purposes of the authority.

ARTICLE 26

Multiphasic Health Screening

25-26-101.	Short title.	25-26-103.	Definitions.
25-26-102.	Legislative declaration.	25-26-104.	Immunity.

25-26-101. Short title. This article shall be known and may be cited as “The Multiphasic Health Screening Act”.

Source: **L. 81:** Entire article added, p. 1365, § 1, effective May 27.

25-26-102. Legislative declaration. The general assembly declares it to be in the interests of public health, safety, and welfare to protect the people of this state from the

danger of uncertainty and confusion as to the responsibility for, and the rendering of, professional health care. The general assembly further declares that multiphasic health screening units provide to people certain health testing services which do not include diagnosis or treatment. Unless persons are aware of the nature and extent of such services, a false and injurious sense of security relating to personal health may result. Therefore, the general assembly finds that the protection of the public requires that multiphasic health screening units comply with certain minimum standards and practices.

Source: L. 81: Entire article added, p. 1365, § 1, effective May 27.

25-26-103. Definitions. As used in this article, unless the context otherwise requires: (1) “Multiphasic health screening unit” means any fixed or mobile facility where diagnostic testing is performed, where specimens are taken from the human body for laboratory analyses, or where certain measurements such as height and weight determination, blood pressure determination, audio and visual tests, and electrocardiograms are made. The term does not include a facility licensed or certified in this state as a hospital, a home health agency, a clinical laboratory, or the office of a physician licensed to practice medicine in this state.

Source: L. 81: Entire article added, p. 1365, § 1, effective May 27.

25-26-104. Immunity. No cause of action in tort or contract shall accrue against any person on account of receipt by such person of an unsolicited referral arising from a test performed by a multiphasic health screening unit.

Source: L. 81: Entire article added, p. 1366, § 1, effective May 27.

ARTICLE 27

Assisted Living Residences

Law reviews: For article, “Rights of Residents in Assisted Living Facilities and Nursing Homes”, see 22 Colo. Law. 2537 (1993).

25-27-105.5.	Compliance with local government zoning regulations - notice to local governments - provisional licensure.	25-27-111.	Rules.
		25-27-112.	Treatment - religious belief.
		25-27-113.	Fees for providers with high medicaid utilization and disproportionate low-income residences.

25-27-101. Legislative declaration. (1) In order to promote the public health and welfare of the people of Colorado, it is declared to be in the public interest to establish minimum standards and rules for assisted living residences in the state of Colorado and to provide the authority for the administration and enforcement of such minimum standards and rules. These standards and rules shall be sufficient to assure the health, safety, and welfare of assisted living residents. (2) The general assembly further finds that the department of public health and

environment, as the executive branch agency assigned to administer and enforce minimum standards for assisted living residences, is in a position to provide technical assistance, educational materials, and training information to residences. The general assembly determines that a proactive approach by the department, acting as a mentor and educator for residences, will enhance the quality of care of residents of assisted living residences. Additionally, the general assembly finds that the department should explore whether risk-based inspections may be implemented to allocate resources more effectively and at the same time adequately protect the health and safety of the residents.

(3) Further, the general assembly determines and declares that, in administering and enforcing standards for assisted living residences, the department of public health and environment should focus on the outcome related to measures and treatment of residents.

Source: **L. 84:** Entire article added, p. 789, § 1, effective July 1. **L. 85:** Entire section amended, p. 924, § 1, effective July 1. **L. 2002:** Entire section amended, p. 1316, § 1, effective July 1.

25-27-102. Definitions. As used in this article, unless the context otherwise requires:

(1) Repealed.

(1.3) “Assisted living residence” or “residence” means a residential facility that makes available to three or more adults not related to the owner of such facility, either directly or indirectly through an agreement with the resident, room and board and at least the following services: Personal services; protective oversight; social care due to impaired capacity to live independently; and regular supervision that shall be available on a twenty-four-hour basis, but not to the extent that regular twenty-four-hour medical or nursing care is required. The term “assisted living residence” does not include any facility licensed in this state as a residential care facility for individuals with developmental disabilities, or any individual residential support services that are excluded from licensure requirements pursuant to rules adopted by the department of public health and environment.

(2) “Department” means the department of public health and environment of the state of Colorado.

(3) to (5) Repealed.

(6) “Local board of health” means any county, district, or municipal board of health.

(7) Repealed.

(8) (Deleted by amendment, L. 2002, p. 1317, § 2, effective July 1, 2002.)

(9) “Personal services” means those services that the operator and employees of an assisted living residence provide for each resident, including, but not limited to:

(a) An environment that is sanitary and safe from physical harm;

(b) Individualized social supervision;

(c) Assistance with transportation; and

(d) Assistance with activities of daily living, including but not limited to bathing, dressing, and eating.

(10) “Protective oversight” means guidance of a resident as required by the needs of the resident or as reasonably requested by the resident, including the following:

(a) Being aware of a resident’s general whereabouts, although the resident may travel independently in the community; and

(b) Monitoring the activities of the resident while on the premises to ensure the resident’s health, safety, and well-being, including monitoring the resident’s needs and ensuring that the resident receives the services and care necessary to protect the resident’s health, safety, and well-being.

(11) “State board” means the state board of health.

Source: **L. 84:** Entire article added, p. 789, § 1, effective July 1. **L. 85:** (1) and (5) repealed and (9) amended, p. 1362, §§ 23, 24, effective June 28; (3), (4), and (7) repealed and (8) and (9) amended, pp. 928, 924, §§ 7, 2, effective July 1. **L. 90:** (8) R&RE, p. 1354, § 1, effective July 1. **L. 92:** (8) amended, p. 1398, § 59, effective July 1. **L. 94:** (2) and (8) amended, p. 2794, § 542, effective July 1. **L. 2001:** (8) amended, p. 106, § 3, effective

March 21. **L. 2002:** (1.3) added and (8), (9), and (10) amended, p. 1317, § 2, effective July 1. **L. 2010:** (6) amended, (HB 10-1422), ch. 419, p. 2107, § 132, effective August 11.

Cross references: For the legislative declaration contained in the 1994 act amending subsections (2) and (8), see section 1 of chapter 345, Session Laws of Colorado 1994.

25-27-103. License required - criminal and civil penalties. (1) On or after July 1, 2002, it is unlawful for any person, partnership, association, or corporation to conduct or maintain an assisted living residence without having obtained a license therefor from the department of public health and environment. Any person who violates this provision:

(a) Is guilty of a misdemeanor and, upon conviction thereof, shall be punished by a fine of not less than fifty dollars nor more than five hundred dollars;

(b) May be subject to a civil penalty assessed by the department of not less than fifty dollars nor more than one hundred dollars for each day the residence violates this section. The assessed penalty shall accrue from the date the residence is found by the department to be in violation of this section. The assessment, enforcement, and collection of the penalty shall be by the department in accordance with article 4 of title 24, C.R.S., for credit to the assisted living residence cash fund created pursuant to section 25-27-107.5. Enforcement and collection of the penalty shall occur following the decision reached in accordance with procedures set forth in section 24-4-105, C.R.S.

Source: **L. 84:** Entire article added, p. 790, § 1, effective July 1. **L. 85:** Entire section R&RE, p. 925, § 3, effective July 1. **L. 90:** Entire section amended, p. 1354, § 2, effective July 1. **L. 94:** IP(1) amended, p. 2795, § 543, effective July 1. **L. 2002:** IP(1) and (1)(b) amended, p. 1318, § 3, effective July 1.

Cross references: For the legislative declaration contained in the 1994 act amending the introductory portion to subsection (1), see section 1 of chapter 345, Session Laws of Colorado 1994.

25-27-104. Minimum standards for assisted living residences - rules. (1) On or before November 1, 2002, the state board shall promulgate rules pursuant to section 24-4-103, C.R.S., providing minimum standards for the location, sanitation, fire safety, adequacy of facilities, adequacy of diet and nutrition, equipment, structure, operation, provision of personal services and protective oversight, and personnel practices of assisted living residences within the state of Colorado. Such rules shall differentiate between homes of different sizes. In formulating such rules, the state board shall seek recommendations from the advisory committee established pursuant to section 25-27-110.

(2) Rules promulgated by the state board pursuant to subsection (1) of this section shall include, as a minimum, provisions requiring the following:

(a) Compliance with all applicable zoning, housing, fire, sanitary, and other codes and ordinances of the city, city and county, or county where the residence is situated, to the extent that such codes and ordinances are consistent with the federal "Fair Housing Amendment Act of 1988", as amended, 42 U.S.C. sec. 3601 et seq.;

(b) Annual inspection of assisted living residences by the department or its designated representative;

(c) That the premises to be used are in fit, safe, and sanitary condition and properly equipped to provide good care to the residents;

(d) That the Colorado long-term care ombudsman, designated by the department of human services, have access to the premises and residents during reasonable hours for the purposes set out in the federal "Older Americans Act of 1965";

(e) Protection of the individual rights of residents either through a written board and care plan or by means of contracts executed with the residents, which board and care plan or contract shall meet the requirements stated in section 25-27-104.5;

(f) Responsibility of the assisted living residences for social supervision, personal services, and coordination with community resources as needed by the residents;

(g) That the administrator and staff of a residence meet minimum educational, training, and experience standards established by the state board, including a requirement that such

persons be of good, moral, and responsible character. In making such a determination, the owner or licensee of a residence may have access to and shall obtain any criminal history record information from a criminal justice agency, subject to any restrictions imposed by such agency, for any person responsible for the care and welfare of residents of such residence.

(h) Intermediate enforcement remedies as authorized by section 25-27-106 (2);

(i) Written plans, to be submitted by residences to the department for approval, detailing the measures that will be taken to correct violations found as a result of inspections;

(j) The definition for high medicaid utilization facility as a basis for a modified fee schedule. A high medicaid utilization residence shall be a residence in which no less than thirty-five percent of the available beds are occupied by medicaid enrollees as indicated by the most complete claims data available.

(k) A modified fee schedule for residences that serve a disproportionate share of low-income residents. The board may adopt a standard for determining residences that serve a disproportionate share of low-income residents. Such standard may require a residence to submit documentation determined appropriate by the department for verification.

25-27-104.5. Requirements governing forfeiture of security deposits and rent. If a lease provision in a resident care plan or in a contract signed by a resident of an assisted living residence results in or requires forfeiture of more than thirty days of rent if a resident moves due to a medical condition or dies during the term of the plan, then the plan shall be deemed to be against public policy and shall be void; except that inclusion of such a provision shall not render the remainder of the plan or contract void. A lease provision in a written board and care plan or in a contract that requires forfeiture of rent for thirty days after the resident moves due to a medical condition or dies does not violate this section. The provisions regarding forfeiture of rent shall appear on the front page of the plan or contract and shall be printed in no less than twelve-point bold-faced type. The provisions shall read as follows:

This lease agreement is for a month-to-month tenancy. The lessor shall not require the forfeiture of rent beyond a thirty-day period if the lessee moves due to a medical condition or dies during the term of the lease.

In circumstances in which the resident moves due to a medical condition or dies during the term of a plan or contract, the assisted living residence shall return that part of rent paid in excess of thirty days' rent after a patient moves or dies to the resident or the resident's estate. The assisted living residence may assess daily rental charges for any days in which the former or deceased resident's personal possessions remain in the resident's room after the time period for which the resident has paid rent and for the usual time to clean the room after the resident's personal possessions have been removed. For purposes of this section, "daily rental charges" means an amount not to exceed one-thirtieth of thirty days' rental amount plus reasonable expenses.

Source: **L. 2006:** Entire section added, p. 254, § 3, effective January 1, 2007.

25-27-105. License - application - inspection - issuance. (1) An application for a license to operate an assisted living residence shall be submitted to the department annually upon such form and in such manner as prescribed by the department.

(2) The department shall investigate and pass on each original application and each renewal application for a license. The department shall inspect or cause to be inspected the residences to be operated by an applicant for an original license before the license is granted and shall annually thereafter inspect or cause to be inspected the residences of all licensees. The department shall make such other inspections as it deems necessary to insure that the health, safety, and welfare of the residents are being protected. The residence shall submit in writing, in a form prescribed by the department, a plan detailing the measures that will be taken to correct any violations found by the department as a result of inspections undertaken pursuant to this subsection (2).

(2.5) (a) On July 1, 2002, as part of an original application and on and after July 1, 2002, on the first renewal of an application for assisted living residences licensed before July 1, 2002, for a license, an owner, applicant, or licensee shall request from a criminal justice agency designated by the department criminal history record information regarding such owner, applicant, or licensee. The information, upon such request and subject to any restrictions imposed by such agency, shall be forwarded by the criminal justice agency directly to the department.

(a.5) On and after July 1, 2002, the department may require that an administrator request from a criminal justice agency designated by the department a criminal history record on such administrator. The information, upon such request and subject to any restrictions imposed by such agency, shall be forwarded by the criminal justice agency directly to the department.

(b) The information shall be used by the department in ascertaining whether the person applying for licensure has been convicted of a felony or of a misdemeanor, which felony or misdemeanor involves moral turpitude or involves conduct that the department determines could pose a risk to the health, safety, and welfare of residents of the assisted living residence. Information obtained in accordance with this section shall be maintained by the department.

(c) All costs of obtaining any information from a criminal justice agency pursuant to this section shall be borne by the individual who is the subject of such check.

(2.8) No license shall be issued or renewed by the department if the owner, applicant, or licensee of the assisted living residence has been convicted of a felony or of a misdemeanor, which felony or misdemeanor involves moral turpitude or involves conduct that the department determines could pose a risk to the health, safety, and welfare of the residents of the assisted living residence.

(3) Except as otherwise provided in subsection (4) of this section, the department shall issue or renew a license when it is satisfied that the applicant or licensee is in compliance with the requirements set out in this article and the rules promulgated thereunder. Except for provisional licenses issued in accordance with subsection (4) of this section, a license issued or renewed pursuant to this section shall expire one year from the date of issuance or renewal.

(4) The department may issue a provisional license to an applicant for the purpose of operating an assisted living residence for a period of ninety days if the applicant is temporarily unable to conform to all the minimum standards required under this article; except that no license shall be issued to an applicant if the operation of the applicant's residence will adversely affect the health, safety, and welfare of the residents of such residence. As a condition of obtaining a provisional license, the applicant shall show proof to the department that attempts are being made to conform and comply with applicable standards. No provisional license shall be granted prior to the submission of a criminal background check in accordance with subsection (2.5) of this section. A provisional license shall not be renewed.

Source: L. 85: Entire section added, p. 926, § 5, effective July 1. L. 90: (2.5), (2.8), and (4) added and (3) amended, p. 1355, § 4, effective July 1. L. 2002: (1), (2), (2.5)(a), (2.5)(b), (2.8), (3), and (4) amended and (2.5)(a.5) added, p. 1319, § 5, effective July 1.

25-27-105.5. Compliance with local government zoning regulations - notice to local governments - provisional licensure. (1) The department shall require any assisted living residence seeking licensure pursuant to this article to comply with any applicable zoning regulations of the municipality, city and county, or county where the residence is situated. Failure to comply with applicable zoning regulations shall constitute grounds for the denial of a license to a residence; except that nothing in this section shall be construed to supersede the provisions of sections 30-28-115 (2), 31-23-301 (4), and 31-23-303 (2), C.R.S.

(2) The department shall assure that timely written notice is provided to the municipality, city and county, or county where an assisted living residence is situated, including the address of the residence and the population and number of persons to be served by the residence, when any of the following occurs:

(a) An application for a license to operate an assisted living residence pursuant to section 25-27-105 is made;

(b) A license is granted to an assisted living residence pursuant to section 25-27-105;

(c) A change in the license of an assisted living residence occurs; or

(d) The license of an assisted living residence is revoked or otherwise terminated for any reason.

(3) Notwithstanding the provisions of section 25-27-105 (4), in the event of a zoning or other delay or dispute between an assisted living residence and the municipality, city and county, or county where the residence is situated, the department may grant a provisional license to the residence for up to one hundred twenty days pending resolution of the delay or dispute.

Source: L. 2000: Entire section added, p. 1516, § 3, effective June 1. **L. 2002:** Entire section amended, p. 1321, § 6, effective July 1.

Cross references: For the legislative declaration contained in the 2000 act enacting this section, see section 1 of chapter 319, Session Laws of Colorado 2000.

25-27-106. License denial, suspension, or revocation. (1) When an application for an original license has been denied by the department, the department shall notify the applicant in writing of such denial by mailing a notice to the applicant at the address shown on his or her application. Any applicant believing himself or herself aggrieved by such denial may pursue the remedy for review provided in article 4 of title 24, C.R.S., if the applicant, within thirty days after receiving such notice, petitions the department to set a date and place for hearing, affording the applicant an opportunity to be heard in person or by counsel. All hearings on the denial of original licenses shall be conducted in conformity with the provisions and procedures specified in article 4 of title 24, C.R.S.

(2) (a) The department may suspend, revoke, or refuse to renew the license of any residence that is out of compliance with the requirements of this article or the rules promulgated thereunder. Such suspension, revocation, or refusal shall be done after a hearing thereon and in conformance with the provisions and procedures specified in article 4 of title 24, C.R.S.

(b) (I) The department may impose intermediate restrictions or conditions on a licensee that may include at least one of the following:

(A) Retaining a consultant to address corrective measures;

(B) Monitoring by the department for a specific period;

(C) Providing additional training to employees, owners, or operators of the residence;

(D) Complying with a directed written plan, to correct the violation; or

(E) Paying a civil fine not to exceed two thousand dollars in a calendar year.

(II) (A) If the department imposes an intermediate restriction or condition that is not a result of a life-threatening situation, the licensee shall receive written notice of the restriction or condition. No later than ten days after the date the notice is received from the department, the licensee shall submit a written plan that includes the time frame for completing the plan and addresses the restriction or condition specified.

(B) If the department imposes an intermediate restriction or condition that is the result of a life-threatening situation, the department shall notify the licensee in writing, by telephone, or in person during an on-site visit. The licensee shall implement the restriction or condition immediately upon receiving notice of the restriction or condition. If the department provides notice of a restriction or condition by telephone or in person, the department shall send written confirmation of the restriction or condition to the licensee within two business days.

(III) (A) After submission of an approved written plan, a licensee may first appeal any intermediate restriction or condition on its license to the department through an informal review process as established by the department.

(B) If the restriction or condition requires payment of a civil fine pursuant to this paragraph (b), the licensee may request that the informal review be conducted in person. In addition, the licensee may request and the department shall grant a stay in payment of the fine until final disposition of the restriction or condition.

(C) In the event a licensee is not satisfied with the result of the informal review or chooses not to seek informal review, no intermediate restriction or condition on the licensee shall be imposed until after an opportunity for a hearing has been afforded the licensee pursuant to section 24-4-105, C.R.S.

(IV) (A) In the event that the department assesses a civil fine pursuant to this paragraph (b), moneys received by the department shall be transmitted to the state treasurer, who shall credit the same to the assisted living residence improvement cash fund, which fund is hereby created.

(B) The general assembly shall make annual appropriations from the assisted living residence improvement cash fund for expenditures of the department pursuant to subparagraph (V) of this paragraph (b).

(C) Notwithstanding any provision of section 24-36-114, C.R.S., to the contrary, all interest derived from the deposit and investment of moneys from the assisted living residence improvement cash fund created in sub-subparagraph (A) of this subparagraph (IV) shall remain in the assisted living residence improvement cash fund.

(V) Civil fines collected pursuant to this paragraph (b) shall be used for expenses related to:

(A) Continuing monitoring required pursuant to this paragraph (b);

(B) Education for licensees to avoid restrictions or conditions or facilitate the application process or the change of ownership process;

(C) Education for residents and their families about resolving problems with a residence, rights of residents, and responsibilities of residences;

(D) Providing technical assistance to any residence for the purpose of complying with changes in rules or state or federal law;

(E) Relocating residents to other facilities or residences;

(F) Maintaining the operation of a residence pending correction of violations, as determined necessary by the department;

(G) Closing a residence; or

(H) Reimbursing residents for personal funds lost, as determined necessary by the department.

(3) The department shall revoke or refuse to renew the license of a facility where the owner or licensee has been convicted of a felony or misdemeanor involving moral turpitude or involving conduct which the department determines could pose a risk to the health, safety, and welfare of the residents of such facility. Such revocation or refusal shall be made only after a hearing is provided in accordance with article 4 of title 24, C.R.S.

Source: L. 85: Entire section added, p. 926, § 5, effective July 1. L. 90: (3) added, p. 1356, § 5, effective July 1. L. 2002: (1) and (2) amended, p. 1321, § 7, effective July 1.

25-27-107. License fees - rules.

(1) Repealed.

(1.5) (a) No later than January 1, 2009, the state board shall promulgate rules establishing a schedule of fees sufficient to meet the direct and indirect costs of administration

and enforcement of this article. The rules shall set a lower fee for facilities with a high medicaid utilization rate as defined by the state board. The rules shall be adopted in accordance with article 4 of title 24, C.R.S.

(b) Prior to setting a fee by rule pursuant to this subsection (1.5), the department shall hold public stakeholder meetings on behalf of the state board to discuss issues pertaining to setting fees, including, without limitation, a phased-in fee schedule based upon expected licensing program costs, maximum yearly fee increases, risk-based assessments, and technical assistance that may be met by or in collaboration with the private sector.

(c) The department shall assess and collect, from assisted living residences subject to licensure, fees in accordance with the fee schedule established by the state board.

(d) (Deleted by amendment, L. 2010, (HB 10-1422), ch. 419, p. 2108, § 133, effective August 11, 2010.)

(2) The fees collected pursuant to this section shall be transmitted to the state treasurer, who shall credit the same to the assisted living residence cash fund created in section 25-27-107.5.

(3) Notwithstanding the amount specified for any fee in this section, the state board by rule or as otherwise provided by law may reduce the amount of one or more of the fees if necessary pursuant to section 24-75-402 (3), C.R.S., to reduce the uncommitted reserves of the fund to which all or any portion of one or more of the fees is credited. After the uncommitted reserves of the fund are sufficiently reduced, the state board by rule or as otherwise provided by law may increase the amount of one or more of the fees as provided in section 24-75-402 (4), C.R.S.

(4) Fees collected pursuant to subsection (1.5) of this section shall be used by the department, in addition to regulatory and administrative functions, to provide technical assistance and education to assisted living residences related to compliance with Colorado law. The department may contract with private entities to assist the department in providing such technical assistance and education.

Editor's note: Subsections (1)(f) provided for the repeal of subsection (1), effective January 1, 2009. (See L. 2008, p. 662.)

25-27-107.5. Assisted living residence cash fund created. The fees collected pursuant to section 25-27-107, plus any civil penalty collected pursuant to section 25-27-103 (1) (b), shall be transmitted to the state treasurer, who shall credit the same to the assisted living residence cash fund, which fund is hereby created. The moneys in the fund shall be subject to annual appropriation by the general assembly for the direct and indirect costs of the department in performing its duties under this article. At the end of any fiscal year, all unexpended and unencumbered moneys in the fund shall remain therein and shall not be credited or transferred to the general fund or any other fund.

Editor's note: This version of this section is effective until July 1, 2013, only if the revisor of statutes receives notification. (See the editor's note following this section.)

25-27-107.5. Assisted living residence cash fund created. (1) The fees collected pursuant to section 25-27-107, plus any civil penalty collected pursuant to section 25-27-103 (1) (b), shall be transmitted to the state treasurer, who shall credit the same to the assisted living residence cash fund, which fund is hereby created. The moneys in the fund shall be subject to annual appropriation by the general assembly for the direct and indirect costs of the department in performing its duties under this article. Notwithstanding subsection (2) of this section, at the end of any fiscal year, all unexpended and unencum-

bered moneys in the fund shall remain therein and shall not be credited or transferred to the general fund or any other fund.

(2) Notwithstanding subsection (1) of this section, on July 1, 2013, any moneys remaining in the fund from fees collected by the department for assisted living residence building and structure code plan reviews and inspections are transferred to the health facility construction and inspection cash fund created in section 24-33.5-1207.8, C.R.S.

Editor's note: This version of this section is effective July 1, 2013, only if the revisor of statutes receives notification. (See the editor's note following this section.)

Source: **L. 90:** Entire section added, p. 1357, § 7, effective July 1. **L. 2002:** Entire section amended, p. 1325, § 9, effective July 1. **L. 2012:** Entire section amended, (HB 12-1268), ch. 234, p. 1026, §4, effective July 1, 2013.

Editor's note: Section 15 of chapter 234, Session Laws of Colorado 2012, provides that the amendments to this section are effective July 1, 2013, only if the division of fire prevention and control in the department of public safety notifies the revisor of statutes in writing, by June 30, 2013, that the secretary of the United States department of health and human services has granted a modification to the agreement entered into between said secretary and the state of Colorado pursuant to section 1864 of the federal "Social Security Act", 42 U.S.C. sec. 1395aa, which modification allows said division to fulfill the duties under that law associated with the assessment of compliance with the federal fire safety code requirements for health facilities.

25-27-108. Enforcement - ability to contract. (1) The department is responsible for the enforcement of the provisions of this article and the regulations adopted thereunder.

(2) The department may contract with a local board of health to investigate and inspect the facilities to be licensed under this article and may accept reports on such investigations or inspections as a basis for licensing. The department may also contract with local boards of health to enforce the provisions of this article and the regulations adopted thereunder and is required to transfer license fees and additional fees collected in this article to the local boards of health if a contract is so negotiated.

25-27-110. Advisory committee. (1) There is hereby established an advisory committee to the department for the purposes of making recommendations to the department and reporting to the house and senate committees on health and human services, or any successor committees, concerning the rules promulgated by the state board pursuant to this article, implementation of the licensing program, the impact of the program, and the effectiveness of enforcement. The advisory committee shall consist of not fewer than nine members to be appointed by the executive director of the department. The committee shall elect its own chairperson. Such members shall be representatives from assisted living residences, the Colorado commission on the aging, county, district, or municipal public health agencies, or local boards of health, and consumer and other agencies and organizations providing services to or concerned with residents of assisted living residences. Members of the advisory committee shall serve on a voluntary basis and shall serve without compensation.

Source: **L. 85:** Entire section added, p. 927, § 5, effective July 1.

25-27-113. Fees for providers with high medicaid utilization and disproportionate low-income residences. (1) The general assembly hereby finds, determines, and declares that assisted living residences provide necessary services to many residents who receive medicaid benefits pursuant to articles 4, 5, and 6 of title 25.5, C.R.S. Because so many Coloradans benefit from assisted living centers that serve medicaid recipients, the general assembly hereby finds, determines, and declares that assisted living residences that have high medicaid utilization should receive a modified fee schedule for fees required by this article.

(2) Residences identified as high medicaid utilization residences by the department shall be subject to a modified fee schedule as determined by the board.

(3) Residences identified as servicing a disproportionate number of low-income residents may be subject to a modified fee schedule as determined by the board.

25-27.5-105.	Home care agency cash fund created.	25-27.5-110.	Repeal of article - sunset review.

25-27.5-101. Legislative declaration. (1) In order to promote the public health and welfare of the people of Colorado, it is declared to be in the public interest to establish minimum standards and rules for home care agencies in the state of Colorado and to provide the authority for the administration and enforcement of such minimum standards and rules. These standards and rules shall be sufficient to assure the health, safety, and welfare of home care consumers.

(2) The general assembly further finds that the department of public health and environment, as the executive branch agency assigned to administer and enforce minimum standards for home care agencies, should explore whether risk-based inspections may be implemented to allocate resources more effectively and at the same time adequately protect the health and safety of the home care consumers. Risk shall be evaluated based on the home care agency's compliance history, quality performance measures, and other relevant factors set forth in rules promulgated by the state board of health.

(3) Further, the general assembly determines and declares that, in administering and enforcing standards for home care agencies, the inspections by the department should focus on home care consumer safety and outcomes.

Source: L. 2008: Entire article added, p. 2233, § 3, effective August 5.

25-27.5-102. Definitions. As used in this article, unless the context otherwise requires:

(1) "Certified home care agency" means an agency that is certified by either the federal centers for medicare and medicaid services or the Colorado department of health care policy and financing to provide skilled home health or personal care services.

(1.5) "Community centered board" has the meaning set forth in section 27-10.5-102, C.R.S.

(2) "Department" means the Colorado department of public health and environment.

(3) (a) "Home care agency" means any sole proprietorship, partnership, association, corporation, government or governmental subdivision or agency subject to the restrictions in section 25-1.5-103 (1) (a) (II), not-for-profit agency, or any other legal or commercial entity that manages and offers, directly or by contract, skilled home health services or personal care services to a home care consumer in the home care consumer's temporary or permanent home or place of residence. A residential facility that delivers skilled home health or personal care services which the facility is not licensed to provide shall either be licensed as a home care agency or require the skilled home health or personal care services to be delivered by a licensed home care agency.

(b) "Home care agency" does not include:

(I) Organizations that provide only housekeeping services;

(II) Community and rural health networks that furnish home visits for the purpose of public health monitoring and disease tracking;

(III) An individual who is not employed by or affiliated with a home care agency and who acts alone, without employees or contractors;

(IV) Outpatient rehabilitation agencies and comprehensive outpatient rehabilitation facilities certified pursuant to Title XVIII or XIX of the "Social Security Act", as amended;

(V) Consumer-directed attendant programs administered by the Colorado department of health care policy and financing;

(VI) Licensed dialysis centers that provide in-home dialysis services, supplies, and equipment;

(VII) Subject to the requirements of section 25-27.5-103 (3), a facility otherwise licensed by the department;

(VIII) A home care placement agency as defined in subsection (5) of this section; or

(IX) Services provided by a qualified early intervention service provider and overseen jointly by the department of education and the department of human services.

(4) "Home care consumer" means a person who receives skilled home health services or personal care services in his or her temporary or permanent home or place of residence from a home care agency or home care placement agency.

(5) "Home care placement agency" means an organization that, for a fee, provides only referrals of providers to home care consumers seeking services. A home care placement agency does not provide skilled home health services or personal care services to a home care consumer in the home care consumer's temporary or permanent home or place of residence directly or by contract. Such organizations shall follow the requirements of sections 25-27.5-103 (2), 25-27.5-104 (1) (c), and 25-27.5-107.

(6) "Personal care services" means assistance with activities of daily living, including but not limited to bathing, dressing, eating, transferring, walking or mobility, toileting, and

continence care. It also includes housekeeping, personal laundry, medication reminders, and companionship services furnished to a home care consumer in the home care consumer's temporary or permanent home or place of residence, and those normal daily routines that the home care consumer could perform for himself or herself were he or she physically capable, which are intended to enable that individual to remain safely and comfortably in the home care consumer's temporary or permanent home or place of residence.

(6.3) "Qualified early intervention service provider" has the meaning set forth in section 27-10.5-702, C.R.S.

(6.7) "Service agency" has the meaning set forth in section 27-10.5-102, C.R.S.

(7) "Skilled home health services" means health and medical services furnished to a home care consumer in the home care consumer's temporary or permanent home or place of residence that include wound care services; use of medical supplies including drugs and biologicals prescribed by a physician; in-home infusion services; nursing services; home health aide or certified nurse aide services that require the supervision of a licensed or certified health care professional acting within the scope of his or her license or certificate; occupational therapy; physical therapy; respiratory care services; dietetics and nutrition counseling services; medication administration; medical social services; and speech-language pathology services. "Skilled home health services" does not include the delivery of either durable medical equipment or medical supplies.

(8) "State board" means the state board of health.

Cross references: For Title XVIII or XIX of the "Social Security Act", see Pub.L. 89-97.

25-27.5-103. License required - civil and criminal penalties. (1) On or after June 1, 2009, it is unlawful for any person, partnership, association, or corporation to conduct or maintain a home care agency that provides skilled home health services without having submitted a completed application for licensure as a home care agency to the department. On or after January 1, 2010, it is unlawful for any person, partnership, association, or corporation to conduct or maintain a home care agency that provides skilled home health services without having obtained a license therefor from the department. On or after January 1, 2010, it is unlawful for any person, partnership, association, or corporation to conduct or maintain a home care agency that provides in-home personal care services without having submitted a completed application for licensure as a home care agency to the department. On or after January 1, 2011, it is unlawful for any person, partnership, association, or corporation to conduct or maintain a home care agency that provides in-home personal care services without having obtained a license therefor from the department. Any person who violates this provision:

(a) Is guilty of a misdemeanor and, upon conviction thereof, shall be punished by a fine of not less than fifty dollars nor more than five hundred dollars; and

(b) May be subject to a civil penalty assessed by the department of up to ten thousand dollars for each violation of this section. The department shall assess, enforce, and collect the penalty in accordance with article 4 of title 24, C.R.S., for credit to the home care agency cash fund created in section 25-27.5-105. Enforcement and collection of the penalty shall occur following the decision reached in accordance with procedures set forth in section 24-4-105, C.R.S.

(1.5) (a) Notwithstanding any provision of law to the contrary, by March 1, 2011, the following providers of skilled home health services or in-home personal care services shall apply for licensure as a home care agency to the department:

(I) Community centered boards designated pursuant to section 27-10.5-105, C.R.S.; and

(II) Service agencies that have received program approval from the department of human services as a developmental disabilities service agency under rules promulgated by the department of human services that are providing services pursuant to the supported

living services waiver or the children's extensive support waiver of the home- and community-based services waivers administered by the department of health care policy and financing and the department of human services under part 4 of article 6 of title 25.5, C.R.S.

(b) On or after September 1, 2011, it is unlawful for any community centered board that is directly providing home care services, or any service agency as described in paragraph (a) of this subsection (1.5), to conduct or maintain a home care agency that provides skilled home health services or in-home personal care services without having obtained a license therefor from the department. Any person who violates this provision is guilty of a misdemeanor and is subject to the civil and criminal penalties described in paragraphs (a) and (b) of subsection (1) of this section. Nothing in this section relieves an entity that contracts or arranges with a community centered board or service agency, and that meets the definition of a "home care agency" under section 25-27.5-102, from the entity's obligation to apply for and operate under a license in accordance with this article.

(2) (a) On or after June 1, 2009, any home care placement agency shall notify the department in writing that it provides referrals for skilled home health services or personal care services and shall annually update such notice. The department shall maintain a list of all home care placement agencies and shall make the list accessible to the public. A home care placement agency is not licensed or certified by the department and shall not claim or assert that the department licenses or certifies the home care placement agency.

(b) A person who violates this section may be subject to a civil penalty assessed by the department that is not less than five hundred dollars per year or more than one thousand dollars per year for failure to register with the department or for claiming to be licensed or certified by the department. The department shall assess, enforce, and collect the penalty in accordance with article 4 of title 24, C.R.S. Any moneys collected shall be deposited in the home care agency cash fund created in section 25-27.5-105.

(3) If a facility that is licensed pursuant to this title provides skilled home health or personal care services also provides the services outside the premises of the licensed facility, the facility license shall be amended to include the services, and the facility shall meet the requirements promulgated by the state board.

25-27.5-104. Minimum standards for home care agencies - rules - advisory committee. (1) The state board shall promulgate rules pursuant to section 24-4-103, C.R.S., providing minimum standards for the operation of home care agencies within the state of Colorado. In promulgating these rules, the state board shall establish different requirements appropriate to the various types of skilled home health and personal care services, including differentiating requirements for providers that are substantially funded through medicare and medicaid reimbursement, providers for the program of all-inclusive care for the elderly established in section 25.5-5-412, C.R.S., providers that are already licensed under this title, and providers that are solely or substantially privately funded. This differentiation shall consider the requirements already imposed by other federal and state regulatory agencies, shall require the department of health care policy and financing and the department of public health and environment to work jointly to resolve differing requirements, and shall only regulate a provider for the program of all-inclusive care for the elderly consistent with the federal requirements established for the provider pursuant to a three-way agreement between the provider, the centers of medicare and medicaid services, and the department of health care policy and financing; except that the department may require additional information from the provider with regard to reporting instances of abuse. Such rules must include the following:

(a) Inspection of home care agencies by the department or its designated representative;

(b) Minimum educational, training, and experience standards for the administrator and staff of an agency, including a requirement that such persons be of good, moral, and responsible character;

(c) Requirements for disclosure notices to be provided by home care agencies and home care placement agencies to home care consumers concerning the duties and employment status of the individual providing services;

(d) Intermediate enforcement remedies as authorized by section 25-27.5-108;

(e) A requirement and form for written plans, to be submitted by agencies to the department for approval, detailing the measures that will be taken to correct violations found as a result of inspections;

(f) Establishing occurrence reporting requirements pursuant to section 25-1-124;

(g) Fees for home care agency licensure, which shall not exceed one thousand five hundred dollars per year for two years from the effective date of fees established by rule for home care agencies that are certified providers through the federal centers for medicare and medicaid services or the Colorado department of health care policy and financing. Home care agency fees shall be payable to the home care agency cash fund. The annual fee shall include a component that reflects whether a survey is planned for the year based on the agency's compliance history. The fee schedule shall also be tiered to reflect the differences in type and volume of services of various home care agencies, including but not limited to their volume of medicaid and medicare services. The fee schedule shall also provide for reduced fees for home care agencies that are certified prior to initial license application. The department of public health and environment shall not charge a duplicate fee for survey work conducted pursuant to its role as state survey agency for the federal centers for medicare and medicaid services or the Colorado department of health care policy and financing. No later than January 1, 2011, the department of public health and environment shall issue an independent report detailing the direct and indirect costs associated with the administration of home care agency licensure.

(h) Requirements for home care agencies to provide evidence of and maintain either liability insurance coverage or a surety bond in lieu of liability insurance coverage, in amounts set through rules of the state board.

(2) Rules promulgated by the state board are subject to judicial review in accordance with the requirements of section 24-4-106, C.R.S.

(3) There is hereby established a home care advisory committee, which shall make recommendations to the department and the state board of health concerning the rules promulgated pursuant to this article and implementation of the licensing of home care agencies. The home care advisory committee shall be appointed by the executive director of the department. The advisory committee shall, at a minimum, consist of representatives from skilled home health services agencies, personal care services agencies, members of the disabled community who are home care consumers, seniors or representatives of seniors who are home care consumers, providers of medicaid services, providers of in-home support services, and representatives of the departments of health care policy and financing and human services. Members of the advisory committee shall serve at the pleasure of the appointing authority on a voluntary basis and shall serve without compensation.

25-27.5-105. Home care agency cash fund created. The fees collected pursuant to section 25-27.5-104 (1), plus any civil penalty collected pursuant to section 25-27.5-103 (1) (b), shall be transmitted to the state treasurer, who shall credit the same to the home care agency cash fund, which fund is hereby created. The moneys in the fund shall be subject to annual appropriation by the general assembly for the direct and indirect costs of the

department in performing its duties under this article. At the end of any fiscal year, all unexpended and unencumbered moneys in the fund shall remain in the fund and shall not be credited or transferred to the general fund or any other fund.

Source: L. 2008: Entire article added, p. 2238, § 3, effective August 5.

25-27.5-106. License - application - inspection - issuance. (1) An application for a license to operate a home care agency shall be submitted to the department annually upon such form and in such manner as prescribed by the department.

(2) (a) The department shall investigate and review each original application and each renewal application for a license. The department shall determine an applicant's compliance with the rules adopted pursuant to section 25-27.5-104 before a license is issued or renewed. A certified home care agency that applies for a license by June 1, 2009, shall be exempt from licensure inspection prior to issuance of the initial license. The department shall make such inspections as it deems necessary to ensure that the health, safety, and welfare of the home care agency's home care consumers are being protected. Inspections of a home care consumer's home shall be subject to the consent of the home care consumer to access the property. The home care agency shall submit in writing, in a form prescribed by the department, a plan detailing the measures that will be taken to correct any violations found by the department as a result of inspections undertaken pursuant to this subsection (2).

(b) The department shall keep all medical records obtained during an inspection or investigation of a home care agency confidential, and the medical records shall be exempt from disclosure pursuant to sections 24-72-204, C.R.S., and 25-1-124.

(3) (a) With the submission of an application for a license granted pursuant to this article, each owner, applicant, or licensee shall submit a complete set of his or her fingerprints to the department. The department shall forward such fingerprints to the Colorado bureau of investigation for the purpose of conducting a state and national fingerprint-based criminal history record check utilizing the records of the Colorado bureau of investigation and the federal bureau of investigation. The owner, applicant, or licensee shall pay the costs associated with the fingerprint-based criminal history record check to the Colorado bureau of investigation.

(b) The information shall be used by the department in ascertaining whether the person applying for licensure has been convicted of a felony or of a misdemeanor, which felony or misdemeanor involves moral turpitude or involves conduct that the department determines could pose a risk to the health, safety, or welfare of home care consumers of the home care agency. The department shall maintain information obtained in accordance with this section.

(4) No license shall be issued or renewed by the department if the owner, applicant, or licensee of the home care agency has been convicted of a felony or of a misdemeanor, which felony or misdemeanor involves moral turpitude or involves conduct that the department determines could pose a risk to the health, safety, or welfare of the home care consumers of the home care agency.

(5) Except as otherwise provided in subsections (6) and (7) of this section, the department shall issue or renew a license when it is satisfied that the applicant or licensee is in compliance with the requirements set out in this article and the rules promulgated pursuant to this article. Except for provisional licenses issued in accordance with subsections (6) and (7) of this section, a license issued or renewed pursuant to this section shall expire one year after the date of issuance or renewal.

(6) The department may issue a provisional license to an applicant for the purpose of operating a home care agency for a period of ninety days if the applicant is temporarily unable to conform to all of the minimum standards required under this article; except that no license shall be issued to an applicant if the operation of the applicant's home care agency will adversely affect the health, safety, or welfare of the home care consumers of such home care agency. As a condition of obtaining a provisional license, the applicant shall show proof to the department that attempts are being made to conform and comply with applicable standards. No provisional license shall be granted prior to the completion of a criminal background check in accordance with subsection (3) of this section and a finding

in accordance with subsection (4) of this section. A second provisional license may be issued, for a like term and fee, to effect compliance. No further provisional licenses may be issued for the current year after the second issuance.

(7) If requested by the Colorado department of health care policy and financing, the department may issue a provisional license for a period of ninety days to an agency that has applied to be a certified home care agency as defined in section 25-27.5-102. A provisional license shall not be granted prior to the completion of a fingerprint-based criminal history record check in accordance with subsection (3) of this section and a finding in accordance with subsection (4) of this section. A second provisional license may be issued, for a like term and fee, to effect compliance. No further provisional licenses may be issued for the current year after the second issuance.

Source: L. 2008: Entire article added, p. 2238, § 3, effective August 5.

25-27.5-107. Employee criminal history record check. On and after June 1, 2009, prior to employing or placing any person, the home care agency or home care placement agency shall require the person seeking employment or placement to submit to a criminal history record check. The home care agency or home care placement agency or the person seeking employment with the home care agency shall pay the costs of such inquiry. The criminal history record check shall be conducted not more than ninety days prior to the employment of the applicant.

Source: L. 2008: Entire article added, p. 2240, § 3, effective August 5.

25-27.5-108. License denial - suspension - revocation. (1) Upon denial of an application for an original license, the department shall notify the applicant in writing of such denial by mailing a notice to the applicant at the address shown on his or her application. Any applicant believing himself or herself aggrieved by such denial may pursue the remedy for review provided in article 4 of title 24, C.R.S., if the applicant, within thirty days after receiving such notice, petitions the department to set a date and place for hearing, affording the applicant an opportunity to be heard in person or by counsel. All hearings on the denial of original licenses shall be conducted in conformity with the provisions and procedures specified in article 4 of title 24, C.R.S.

(2) (a) The department may suspend, revoke, or refuse to renew the license of any home care agency that is out of compliance with the requirements of this article or the rules promulgated pursuant to this article. Such suspension, revocation, or refusal shall be done after a hearing thereon and in conformance with the provisions and procedures specified in article 4 of title 24, C.R.S.; except that the department may implement a summary suspension prior to a hearing in accordance with article 4 of title 24, C.R.S.

(b) (I) The department may impose intermediate restrictions or conditions on a licensee that may include at least one of the following:

- (A) Retaining a consultant to address corrective measures;
- (B) Monitoring by the department for a specific period;
- (C) Providing additional training to employees, owners, or operators of the home care agency;
- (D) Complying with a directed written plan to correct the violation; or
- (E) Paying a civil fine not to exceed ten thousand dollars per calendar year for all violations.

(II) (A) If the department imposes an intermediate restriction or condition that is not a result of a serious and immediate threat to health or welfare, the licensee shall receive written notice of the restriction or condition. No later than ten days after the date the notice is received from the department, the licensee shall submit a written plan that includes the time frame for completing the plan and addresses the restriction or condition specified.

(B) If the department imposes an intermediate restriction or condition that is the result of a serious and immediate threat to health, safety, or welfare, the department shall notify the licensee in writing, by telephone, or in person during an on-site visit. The licensee shall remedy the circumstances creating harm or potential harm immediately upon receiving notice of the restriction or condition. If the department provides notice of a restriction or condition by telephone or in person, the department shall send written confirmation of the restriction or condition to the licensee within two business days.

(III) (A) After submission of an approved written plan, a licensee may first appeal any intermediate restriction or condition on its license to the department through an informal review process as established by the department.

(B) If the restriction or condition requires payment of a civil fine, the licensee may request, and the department shall grant, a stay in payment of the fine until final disposition of the restriction or condition.

(C) If a licensee is not satisfied with the result of the informal review or chooses not to seek informal review, no intermediate restriction or condition on the licensee shall be imposed until after an opportunity for a hearing has been afforded the licensee pursuant to section 24-4-105, C.R.S.

(IV) If the department assesses a civil fine pursuant to this paragraph (b), moneys received by the department shall be transmitted to the state treasurer, who shall credit the same to the home care agency cash fund created in section 25-27.5-105.

(V) Civil fines collected pursuant to this paragraph (b) shall be used for expenses related to:

(A) Continuing monitoring required pursuant to this paragraph (b);

(B) Education for licensees to avoid restrictions or conditions or facilitate the application process or the change of ownership process;

(C) Education for home care consumers and their families about resolving problems with a home care agency, rights of home care consumers, and responsibilities of home care agencies;

(D) Providing technical assistance to any home care agency for the purpose of complying with changes in rules or state or federal law;

(E) Monitoring and assisting in the transition of home care consumers to other home care agencies, when the transition is a result of the revocation of a license, or other appropriate medical services; or

(F) Maintaining the operation of a home care agency pending correction of violations, as determined necessary by the department.

(3) The department shall revoke or refuse to renew the license of a home care agency where the owner or licensee has been convicted of a felony or misdemeanor involving moral turpitude or involving conduct that the department determines could pose a risk to the health, safety, or welfare of the home care consumers of such home care agency. Such revocation or refusal shall be made only after a hearing is provided in accordance with article 4 of title 24, C.R.S.

25-29-101. Legislative declaration. (1) The general assembly hereby finds and declares that:

(a) The city and county of Denver department of health and hospitals:

(I) Provides access to quality preventive, acute, and chronic health care for all the citizens of Denver regardless of ability to pay;

(II) Provides high quality emergency medical services to the citizens of Denver and the Rocky Mountain region;

(III) Fulfills public health functions as dictated by the Denver charter and the needs of the citizens of Denver;

(IV) Provides health education for patients and participates in the education of the next generation of health care professionals; and

(V) Engages in research which enhances its ability to meet the health care needs of patients of the Denver health system.

(b) In order to carry out its patient care and community service mission in an era of health care reform, it is necessary that the Denver health system be able to take whatever actions are necessary to enable its continuation as a system which provides the finest possible quality of health care.

(c) It is essential that the Denver health system be able to maximize its economic viability and productivity in order to avoid becoming increasingly dependent on city, state, and other governmental subsidies.

(d) Both the quality and economic viability of the Denver health system will be difficult to maintain in the future under the present constraints imposed by government policy and regulation.

(e) The needs of the citizens of the state of Colorado and of the city and county of Denver will therefore be best served if the Denver health system is operated by a political subdivision charged with carrying out the mission and programs of the Denver health system.

(2) The general assembly further finds and declares that, after the transfer date, all new employees of the Denver health system shall be employees of the authority.

Source: L. 94: Entire article added, p. 655, § 1, effective April 19.

25-29-102. Definitions. As used in this article, unless the context otherwise requires:

(1) “Authority” means the political subdivision and body corporate known as the Denver health and hospital authority created by this article.

(2) “Board” or “Board of directors” means the board of directors of the authority.

(3) “City” means the city and county of Denver as constituted under article XX of the state constitution.

(4) “City employee” means a person employed by the city and county of Denver, whether or not a classified employee.

(5) “Denver health system” means the programs, services, and facilities operated by the Denver department of health and hospitals prior to the transfer date.

(6) “Department” means the Denver department of health and hospitals.

(7) “Health system” means the Denver health system or the programs, services, and facilities operated by the authority after the transfer date.

(8) “Health system assets” means all property or rights in property, real and personal, tangible and intangible existing on the transfer date, used by or accruing to the department in the normal course of operations.

(9) “Health system liabilities” means all debts or other obligations, contingent or certain, owing on the transfer date, to any person or other entity, arising out of the operation of the Denver health system and including, without limitation, all debts for the purchase of goods and services, whether or not delivered, and obligations for the delivery of services, whether or not performed.

(10) “Mayor” means the mayor of the city and county of Denver.

(11) “Transfer date” means a date agreed to by the city and the authority for the transfer of Denver health system assets to and the assumption of health system liabilities by such authority.

Source: L. 94: Entire article added, p. 656, § 1, effective April 19.

25-29-103. Denver health and hospital authority. (1) There is hereby created the Denver health and hospital authority, which shall be a body corporate and a political subdivision of the state, which shall not be an agency of the state or local government, and which shall not be subject to administrative direction or control by any department, commission, board, bureau, or agency of state or local government.

(2) The authority shall be governed by a nine-member board of directors which shall be responsible for the operation of the health system. The mayor shall appoint the members of the board whose appointments shall be conditioned upon confirmation by the Denver city council. Of the nine members first appointed, four shall serve a term of two years and five shall serve a term of five years. Thereafter, all members shall serve five-year terms. The seven members of the Denver board of health and hospitals, regardless of constraints upon the terms of office or any appointments or reappointments to the Denver board of health and hospitals, shall serve ex officio as a nonvoting advisory panel to the authority’s board. In the event the Denver charter no longer provides for the Denver board of health and hospitals, the seven members of such board shall no longer serve the authority in any capacity. Actions of the board shall require the affirmative vote of the majority of the total

membership of the board. The board shall annually elect a chairperson from among its members. Any member may be elected to serve successive terms as chairperson.

(3) Each member of the board of directors shall hold office until a successor is appointed and qualified. Any member shall be eligible for reappointment, but voting members shall not be eligible to serve more than two consecutive full terms. Members of the board shall receive no compensation for such services but may be reimbursed for necessary expenses while serving on the board. Any vacancy in office shall be filled in the same manner provided for original appointments.

(4) Any member may be removed pursuant to city ordinance for any cause which renders the member unfit for the position after written notice has been provided to the member by the mayor or council of the city stating the specific grounds which constitute cause for removal and upon providing the member an opportunity to be heard.

(5) No part of the revenues or assets of the authority shall inure to the benefit of, or be distributed to, members of the board of directors, officers of the authority, or any other private person or entity; except that the authority may make reasonable payments for expenses incurred on its behalf relating to any of its lawful purposes and the authority is also authorized and empowered to pay reasonable compensation for services rendered to or for its benefit relating to any of its lawful purposes.

(6) The authority and its corporate existence shall continue until terminated by law; except that no such law shall take effect so long as the authority has outstanding bonds, notes, or other obligations unless adequate provisions have been made for the payment of such outstanding debt.

Source: L. 94: Entire article added, p. 657, § 1, effective April 19.

25-29-104. Mission of authority - action of board of directors. (1) The mission of the authority is to:

(a) Provide access to quality preventive, acute, and chronic health care for all the citizens of Denver regardless of ability to pay;

(b) Provide high quality emergency medical services to Denver and the Rocky Mountain region;

(c) Fulfill public health functions in accordance with the agreement entered into with the city pursuant to the authority granted in section 25-29-105 and the needs of the citizens of Denver;

(d) Provide for the health education of patients and to participate in the education of the next generation of health care professionals; and

(e) Engage in research to the extent that it enhances the ability of the authority to meet the health care needs of its patients.

(2) The board of directors shall not transfer assets of the authority or of the health system to any person or entity except for such grants or transfers as may be incidental to health system programs and which are consistent with the purposes of this article.

(3) Upon the dissolution of the authority, all assets of the authority, after the satisfaction of creditors, shall revert to the city.

(4) The business activities of the authority, including any joint ventures, shall be primarily in furtherance or in support of the duties and responsibilities of the health system as specified in subsection (1) of this section.

Source: L. 94: Entire article added, p. 658, § 1, effective April 19.

ANNOTATION

Providing access to health care services is different from the actual provision of such services; this section does not create a statutory exception to the common law corporate practice of medicine doctrine. Since the Denver health and hospital authority is neither explicitly au-

thorized or required to practice medicine, nor can it control the independent medical judgment of its employees, it is not exposed to vicarious liability. *Estate of Harper ex rel. Al-Hamim v. Denver Health & Hosp. Auth.*, 140 P.3d 273 (Colo. App. 2006).

25-29-105. Transfer of health system assets and liabilities to authority. (1) The authority is authorized to enter into agreements with the city for the purpose of leasing, conveying, or otherwise acquiring Denver's health system assets. Any such lease, conveyance, transfer, or other agreement to acquire such assets shall be on such terms as may be agreed upon by the parties and shall include consideration of the authority's agreement to assume Denver's health system liabilities.

(2) Any transfer of health system assets to the authority shall be conditioned upon the existence of a binding agreement between the city and the authority transferring management and operation of some or all of the Denver health system to the authority and by which the authority shall accept and agree to fulfill the mission specified in section 25-29-104 and the provisions of section 25-29-107 concerning personnel.

(3) Any transfer of health system assets to the authority pursuant to this section shall be further conditioned upon the existence of a binding agreement between the authority and the city which provides that, effective on the transfer date and thereafter, the authority shall assume responsibility for and shall defend, indemnify, and hold the city harmless with respect to:

(a) All liabilities and duties of the city pursuant to contracts, agreements, and leases for commodities, services, and supplies utilized by the Denver health system, including real property leases;

(b) All claims related to the employment relationship between employees of the authority and the authority on and after the transfer date;

(c) All claims for breach of contract resulting from the authority's action or failure to act on and after the transfer date; and

(d) All claims related to the authority's errors and omissions including but not limited to medical malpractice; director and officer liability; workers' compensation; automobile liability; and premises, completed operations, and products liability.

Source: L. 94: Entire article added, p. 659, § 1, effective April 19.

Editor's note: The introductory portion to subsection (3) and subsections (3)(a) to (3)(d) were enacted as the introductory portion to subsection (3)(a) and subsections (3)(a)(I) to (3)(a)(IV) by Senate Bill 94-99, Session Laws of Colorado 1994, chapter 126, section 1, but have been renumbered on revision for ease of location.

25-29-106. Relationship between authority and city and county of Denver. (1) On and after the transfer date, except for the power of the city and the mayor to appoint and remove members of the authority's board of directors, the city shall have no further control over the operation of the health system.

(2) The authority may enter into any agreement with the city including but not limited to contracts for:

(a) The provision of goods, services, and facilities in support of Denver's health system; and

(b) Insurance coverage for the authority and its employees for medical malpractice liability from any self-insurance trust fund controlled or maintained by the city.

(3) The authority shall comply with all of city regulatory laws, ordinances, and rules and regulations generally applicable to entities and property holders in the city.

Source: L. 94: Entire article added, p. 660, § 1, effective April 19.

25-29-107. Personnel. (1) Any employee of the Denver health system who is an employee of the city on the transfer date may elect to remain a city employee or may elect to become an employee of the authority. An employee may elect to become an employee of the authority at any time on or after the transfer date but may not thereafter return to the city's personnel system while employed by the authority. No city employee shall be discriminated against in training, promotion, retention, assignment of duties, granting of rights and benefits, or any other personnel action. Promotion or a change in position shall not be contingent upon the employee becoming an employee of the authority.

(2) Any employee of the authority who elects to remain a city employee shall retain all rights and privileges which are applicable to such employee's position.

(3) In the case of any dispute involving a city employee who is a member of the city personnel system, the authority shall agree to accept resolution of all disciplinary appeals or other employment disputes governed by the city's system according to the rules and procedures applicable to members of the city's personnel system.

(4) Any city employee who elects to become an employee of the authority shall receive credit from the authority for sick leave and annual leave accrued while employed by the city, the cash equivalent of all or part of such leave, or a combination of credit or cash equivalent, all in accordance with a written agreement between the city and the authority.

(5) The authority shall establish and administer its own personnel program, including a wage and benefit structure, for authority employees.

Source: L. 94: Entire article added, p. 660, § 1, effective April 19.

25-29-108. Retirement benefits - rights of former city employees. (1) Any former city employee who elects to become an employee of the authority shall be eligible for membership in the authority's retirement plan.

(2) The authority shall qualify its retirement plan under section 401 (a) of the "Internal Revenue Code of 1986", as amended, as a governmental plan under section 414 (d) of such code.

Source: L. 94: Entire article added, p. 661, § 1, effective April 19.

25-29-109. Records of board of directors. Records of the authority are subject to the open records law under article 72 of title 24, C.R.S.

Source: L. 94: Entire article added, p. 661, § 1, effective April 19.

25-29-110. Meetings of board of directors. (1) All meetings of the board of directors of the authority shall be subject to the provisions of section 24-6-402, C.R.S. No business of the board of directors shall be transacted except at a regular or special meeting at which a quorum consisting of at least a majority of the total membership of the board is present. Any action of the board shall require the affirmative vote of a majority of the total membership of the board.

(2) The board may elect to hold an executive session for the consideration of any documents or data protected from disclosure pursuant to section 25-29-109.

Source: L. 94: Entire article added, p. 661, § 1, effective April 19.

25-29-111. Disclosure of interests required. Any member of the board of directors and any employee or other agent or advisor of the authority, who has a direct or indirect interest in any contract or transaction with the authority, shall disclose this interest to the authority. This interest shall be set forth in the minutes of the authority, and no director, employee, or other agent or advisor having such interest shall participate on behalf of the authority in the authorization of any such contract or transaction; except that the provisions of this section shall not be construed to prohibit any city employee who is a member of the board of directors who has no personal interest in the matter at hand from voting on the authorization of any such contract or transaction between the authority and the city. The status of a board member as a member of the department board, in and of itself, shall not be a conflicting interest.

Source: L. 94: Entire article added, p. 661, § 1, effective April 19.

25-29-112. General powers of authority. (1) In addition to any other powers granted to the authority in this article, the authority shall have the following powers:

- (a) To have the duties, privileges, immunities, rights, liabilities, and disabilities of a body corporate and political subdivision of the state;
- (b) To have perpetual existence and succession;
- (c) To adopt, have, and use a seal and to alter the seal at its pleasure;
- (d) To sue and be sued;
- (e) To enter into any contract or agreement not inconsistent with this article or the laws of this state and to authorize the chief executive officer to enter into contracts, execute all instruments, and do all things necessary or convenient in the exercise of the powers granted in this article and to secure the payment of bonds;
- (f) To borrow money and to issue bonds evidencing the same;
- (g) To purchase, lease, trade, exchange, or otherwise acquire, maintain, hold, improve, mortgage, lease, sell, and dispose of personal property, whether tangible or intangible, and any interest therein; and to purchase, lease, trade, exchange, or otherwise acquire real property or any interest therein, and to maintain, hold, improve, mortgage, lease, and otherwise transfer such real property, so long as such transactions do not interfere with the mission of the authority as specified in section 25-29-104;
- (h) To acquire space, equipment, services, supplies, and insurance necessary to carry out the purposes of this article;
- (i) To deposit any moneys of the authority in any banking institution within or without the state or in any depository authorized in section 24-75-603, C.R.S., and to appoint, for the purpose of making such deposits, one or more persons to act as custodians of the moneys of the authority, who shall give surety bonds in such amounts and form and for such purposes as the board of directors requires;
- (j) To contract for and to accept any gifts, grants, and loans of funds, property, or any other aid in any form from the federal government, the state, any state agency, or any other source, or any combination thereof, and to comply, subject to the provisions of this article, with the terms and conditions thereof;
- (k) To have and exercise all rights and powers necessary or incidental to or implied from the specific powers granted in this article, which specific powers shall not be considered as a limitation upon any power necessary or appropriate to carry out the purposes and intent of this article;
- (l) To fix the time and place or places at which its regular and special meetings are to be held. Meetings shall be held on the call of the presiding officer, but no less than eight meetings shall be held annually.
- (m) To adopt and from time to time amend or repeal bylaws and rules and regulations consistent with the provisions of this article; except that article 4 of title 24, C.R.S., shall not apply to the promulgation of any policies, procedures, rules, or regulations of the authority;
- (n) To appoint one or more persons as secretary and treasurer of the board and such other officers as the board of directors may determine and provide for their duties and terms of office;
- (o) To appoint the authority's chief executive officer and such agents, employees, and professional and business advisers as may from time to time be necessary in its judgment to accomplish the purposes of this article, and to fix the compensation of such chief executive officer, employees, agents, and advisers, and to establish the powers and duties of all such agents, employees, and other persons contracting with the authority;
- (p) To waive, by such means as the authority deems appropriate, the exemption from federal income taxation of interest on the authority's bonds, notes, or other obligations provided by the "Internal Revenue Code of 1986", as amended, or any other federal statute providing a similar exemption;
- (q) To make and execute agreements, contracts, and other instruments necessary or convenient in the exercise of the powers and functions of the authority under this article, including but not limited to contracts with any person, firm, corporation, municipality, state agency, county, or other entity. All municipalities, counties, and state agencies are hereby authorized to enter into and do all things necessary to perform any such arrangement or contract with the authority.

- (r) To arrange for guaranties or insurance of its bonds, notes, or other obligations by the federal government or by any private insurer, and to pay any premiums therefor;
- (s) To engage in joint ventures, or to participate in alliances, purchasing consortia, health insurance pools, or other cooperative arrangements, with any public or private entity;
- (t) To authorize officers or employees of the authority to incorporate a nonprofit corporation to be capitalized and controlled by the authority, or to serve in their official capacities on the governing body of a governmental or nongovernmental entity.

Source: L. 94: Entire article added, p. 661, § 1, effective April 19.

25-29-113. Bonds and notes. (1) (a) The authority has the power and is authorized to issue from time to time its notes and bonds in such principal amounts as the authority determines to be necessary to provide sufficient funds for achieving any of its corporate purposes, including the payment of interest on notes and bonds of the authority, the establishment of reserves to secure such notes and bonds, and all other expenditures of the authority incident to and necessary or convenient to carry out its corporate purposes and powers.

(b) (I) The authority has the power, from time to time, to issue:

(A) Notes to renew notes;

(B) Bonds to pay notes, including the interest thereon, and, whenever it deems refunding expedient, to refund any bonds whether the bonds to be refunded have or have not matured; and

(C) Bonds partly to refund bonds then outstanding and partly for any of its corporate purposes.

(II) Refunding bonds issued pursuant to this paragraph (b) may be exchanged for the bonds to be refunded or sold and the proceeds applied to the purchase, redemption, or payment of such bonds.

(c) The authority has the power to provide for the replacement of lost, destroyed, or mutilated bonds or notes.

(d) Except as may otherwise be expressly provided by the authority, every issue of its notes and bonds shall be general obligations of the authority payable out of any revenues or moneys of the authority, subject only to any agreements with the holders of particular notes or bonds pledging any particular revenues.

(2) The notes and bonds shall be authorized by a resolution adopted by an affirmative vote of a majority of the members of the board of directors.

(3) Any resolution authorizing any notes or bonds or any issue thereof may contain provisions, which shall be a part of the contract with the holders thereof, as to:

(a) Pledging all or any part of the revenues of the authority to secure the payment of the notes or bonds or of any issue thereof, subject to such agreements with noteholders or bondholders as may then exist;

(b) Pledging all or any part of the assets of the authority to secure the payment of the notes or bonds or of any issue of notes or bonds, subject to such agreements with noteholders or bondholders as may then exist, such assets to include any grant or contribution from the federal government or any corporation, association, institution, or person;

(c) The setting aside of reserves or sinking funds and the regulation and disposition thereof;

(d) Limitations on the purpose to which the proceeds of sale of notes or bonds may be applied and pledging such proceeds to secure the payment of the notes or bonds or of any issue thereof;

(e) Limitations on the issuance of additional notes or bonds, the terms upon which additional notes or bonds may be issued and secured, and the refunding of outstanding or other notes or bonds;

(f) The procedure, if any, by which the terms of any contract with noteholders or bondholders may be amended or abrogated, the amount of notes or bonds the holders of which must consent thereto, and the manner in which such consent may be given;

(g) Limitations on the amount of moneys to be expended by the authority for operating expenses of the authority;

(h) Vesting in a trustee such property, rights, powers, and duties in trust as the authority may determine, which may include any or all of the rights, powers, and duties of the trustee appointed by the bondholders pursuant to this article, and limiting or abrogating the right of the bondholders to appoint a trustee under this article or limiting the rights, powers, and duties of such trustee;

(i) Defining the acts or omissions to act which shall constitute a default in the obligations and duties of the authority to the holders of the notes or bonds and providing for the rights and remedies of the holders of the notes or bonds in the event of such default, including as a matter of right the appointment of a receiver; except that such rights and remedies shall not be inconsistent with the general laws of this state and the other provisions of this article;

(j) Any other matters, of like or different character, which in any way affect the security or protection of the holders of the notes or bonds.

(4) The bonds or notes of each issue may, in the discretion of the board of directors, be made redeemable before maturity at such prices and under such terms and conditions as may be determined by the board of directors. Notes shall mature at such time as may be determined by the board of directors, and bonds shall mature at such time, not exceeding thirty-five years from their date of issue, as may be determined by the board. The bonds may be issued as serial bonds payable in annual installments or as term bonds or as a combination thereof. The notes and bonds shall bear interest at such rate, be in such denominations, be in such form, either coupon or registered, carry such registration privileges, be executed in such manner, be payable in such medium of payment and at such place, and be subject to such terms of redemption as such resolution may provide. The notes and bonds of the authority may be sold by the authority, at public or private sale, at such price as the board of directors shall determine.

(5) In case any officer whose signature or a facsimile of whose signature appears on any bonds or notes or coupons attached thereto ceases to be such officer before the delivery thereof, such signature or such facsimile shall nevertheless be valid and sufficient for all purposes the same as if the officer had remained in office until such delivery. The board of directors may also provide for the authentication of the bonds or notes by a trustee or fiscal agent.

(6) Prior to the preparation of definitive bonds or notes, the authority may, under like restrictions, issue interim receipts or temporary bonds or notes until such definitive bonds or notes have been executed and are available for delivery.

(7) The authority, subject to such agreements with noteholders or bondholders as may then exist, has the power out of any funds available therefor to purchase notes or bonds of the authority, which shall thereupon be cancelled at a price not exceeding:

(a) If the notes or bonds are then redeemable, the redemption price then applicable plus accrued interest to the next interest payment thereon; or

(b) If the notes or bonds are not then redeemable, the redemption price applicable on the first date after such purchase upon which the notes or bonds become subject to redemption plus accrued interest to such date.

(8) In the discretion of the authority, the bonds may be secured by a trust indenture by and between the authority and a corporate trustee, which may be any trust company or bank having the power of a trust company within or without this state. Such trust indenture may contain such provisions for protecting and enforcing the rights and remedies of the bondholders as may be reasonable and proper and not in violation of law, including covenants setting forth the duties of the authority in relation to the exercise of its corporate powers and the custody, safeguarding, and application of all moneys. The authority may provide by such trust indenture for the payment of the proceeds of the bonds and the revenues to the trustee under such trust indenture or other depository and for the method of disbursement thereof, with such safeguards and restrictions as it may determine. All expenses incurred in carrying out such trust indenture may be treated as a part of the operating expenses of the authority. If the bonds are secured by a trust indenture, the bondholders shall have no authority to appoint a separate trustee to represent them.

(9) The authority shall not have outstanding, at any one time, bonds, not including bond anticipation notes, or bonds which have been refunded, in an aggregate principal amount exceeding one hundred twenty million dollars without the approval of the city acting by formal resolution of the Denver city council; however, this limitation shall not apply to bonds which are unsecured or secured solely by a pledge of the revenues of the authority and are not in any way secured by a pledge of any of the authority's other assets, including, without limitation, any buildings or real property, and which contain a statement that the bondholders shall not have any recourse against the authority's other assets for repayment of the bonds. Under no circumstances shall the city be liable for any indebtedness incurred by the authority. The general assembly specifically finds there is a substantial public purpose in limiting the indebtedness of the authority in the event the authority assets or the hospital assets are transferred back to or revert to the city.

(10) The authority has the power and is authorized to issue from time to time notes, bonds, and other securities which may be collateralized or otherwise secured in whole or in part by loans or participations or other interests in such loans or which may evidence loans or participations or other interests in such loans to provide net funds that are to be dedicated in whole or in part by resolution of the authority to the carrying out of one or more of the purposes of the authority. The interest on or from such notes, bonds, and other securities may be subject to or exempt from federal income taxation.

(11) Any notes, bonds, or other securities issued pursuant to this section, and the income therefrom, including any profit from the sale thereof, shall at all times be free from taxation by the state or any agency, political subdivision, or instrumentality of the state.

Source: L. 94: Entire article added, p. 663, § 1, effective April 19.

25-29-114. Remedies. Any holder of bonds issued under the provisions of this article, or any coupons appertaining thereto and the trustee under any trust agreement or resolution authorizing the issuance of such bonds, except to the extent the rights under this article may be restricted by such trust agreement or resolution, may, either at law or in equity by suit, action, mandamus, or other proceeding, protect and enforce any and all rights under the laws of the state or granted under this article or under such agreement or resolution, or under any other contract executed by the authority pursuant to this article, and may enforce and compel the performance of all duties required by this article or by such trust agreement or resolution to be performed by the authority or by an officer thereof.

Source: L. 94: Entire article added, p. 667, § 1, effective April 19.

25-29-115. Negotiable instruments. Notwithstanding any of the foregoing provisions of this article or any recitals in any bonds issued under the provisions of this article, all such bonds and interest coupons appertaining thereto shall be negotiable instruments under the laws of this state, subject only to any applicable provisions for registration.

Source: L. 94: Entire article added, p. 667, § 1, effective April 19.

25-29-116. Bonds eligible for investment. Bonds issued under the provisions of this article are hereby made securities in which all insurance companies, trust companies, banking associations, savings and loan associations, investment companies, executors, administrators, trustees, and other fiduciaries may properly and legally invest funds, including capital in their control or belonging to them. Public entities, as defined in section 24-75-601 (1), C.R.S., may invest public funds in such bonds only if said bonds satisfy the investment requirements established in part 6 of article 75 of title 24, C.R.S. Such bonds are hereby made securities which may properly and legally be deposited with and received by any state or municipal officer or any agency or political subdivision of the state for any purpose for which the deposit of bonds, notes, or obligations of the state is authorized by law.

Source: L. 94: Entire article added, p. 667, § 1, effective April 19.

25-29-117. Refunding bonds. (1) The board of directors may provide for the issuance of refunding obligations of the authority for the purpose of refunding any obligations then outstanding which have been issued under the provisions of this article, including the payment of any redemption premium thereon and any interest accrued or to accrue to the date of redemption of such obligations, and for any corporate purpose of the authority.

(2) Refunding obligations issued as provided in subsection (1) of this section may be sold or exchanged for outstanding obligations issued under this article, and, if sold, the proceeds thereof may be applied, in addition to any other authorized purposes, to the purchase, redemption, or payment of such outstanding obligations. Pending the application of the proceeds of any such refunding obligations, with any other available funds, to the payment of the principal, the accrued interest, and any redemption premium on the obligations being refunded and, if so provided or permitted in the resolution authorizing the issuance of such refunding obligations or in the trust agreement securing the same, to the payment of any interest on such refunding obligations and any expenses in connection with such refunding, such proceeds may be invested in securities meeting the investment requirements established in part 6 of article 75 of title 24, C.R.S., which shall mature or which shall be subject to redemption by the holders thereof, at the option of such holders, not later than the respective dates when the proceeds, together with the interest accruing thereon, will be required for the purposes intended.

Source: L. 94: Entire article added, p. 668, § 1, effective April 19.

25-29-118. Nonliability of state for bonds. Neither the state of Colorado nor the city shall be liable for bonds of the authority, and such bonds shall not constitute a debt of the state or the city. The bonds shall contain on the face thereof a statement to such effect.

Source: L. 94: Entire article added, p. 668, § 1, effective April 19.

25-29-119. Members of authority not personally liable on bonds. Neither the members of the board of directors nor any authorized person executing bonds issued pursuant to this article shall be personally liable for such bonds by reason of the execution or issuance thereof.

Source: L. 94: Entire article added, p. 668, § 1, effective April 19.

25-29-120. Annual report. The authority shall submit to the mayor of the city within six months after the end of the fiscal year a report which shall set forth a complete and detailed operating and financial statement of the authority during such year. Also included in the report shall be any recommendations with reference to additional legislation or other action that may be necessary to carry out the purposes of the authority.

Source: L. 94: Entire article added, p. 669, § 1, effective April 19.

25-29-121. Powers of authority - investments. (1) The authority has the power:

(a) To invest any funds not required for immediate disbursement in property or in securities which meet the standard for investments established in section 15-1-304, C.R.S., provided such investment assists the authority in carrying out its public purposes; and to sell from time to time such securities thus purchased and held; and to deposit any securities in any trust bank within or without the state. Any funds deposited in a banking institution or in any depository authorized in section 24-75-603, C.R.S., shall be secured in such manner and subject to such terms and conditions as the board may determine, with or without payment of any interest on such deposit, including, without limitation, time deposits evidenced by certificates of deposit. Any commercial bank incorporated under the laws of

this state which may act as depository of any funds of the authority may issue indemnifying bonds or may pledge such securities as may be required by the board of directors.

(b) Notwithstanding the provisions of paragraph (a) of this subsection (1), to contract with the holders of any of its notes or bonds as to the custody, collection, securing, investment, and payment of any moneys of the authority and of any moneys held in trust or otherwise for the payment of notes or bonds and to carry out such contract. Moneys held in trust or otherwise for the payment of notes or bonds or in any way to secure notes or bonds and deposits of such moneys may be secured in the same manner as moneys of the authority, and all banks and trust companies are authorized to give such security for such deposits.

Source: L. 94: Entire article added, p. 669, § 1, effective April 19.

25-29-122. Agreement of this state. This state does hereby pledge to and agree with the holders of any notes or bonds issued under this article that this state will not limit or alter the rights hereby vested in the authority to fulfill the terms of any agreements made with the said holders thereof or in any way impair the rights and remedies of such holders until such notes and bonds, together with the interest thereon, with interest on any unpaid installments of interest, and all costs and expenses in connection with any action or proceeding by or on behalf of such holders are fully met and discharged. The authority is authorized to include this pledge and agreement of this state in any agreement with the holders of such notes or bonds.

Source: L. 94: Entire article added, p. 669, § 1, effective April 19.

25-29-123. This article not a limitation of powers. Nothing in this article shall be construed as a restriction or limitation upon any other powers which the authority might otherwise have under any other law of this state, and this article is cumulative to any such powers. This article does and shall be construed to provide a complete, additional, and alternative method for the doing of the things authorized thereby and shall be regarded as supplemental and additional to powers conferred by other laws. However, the issuance of bonds, notes, and other obligations and refunding bonds under the provisions of this article need not comply with the requirements of any other state law applicable to the issuance of bonds, notes, and other obligations. No proceedings, notice, or approval shall be required for the issuance of any bonds, notes, or other obligations or any instrument as security therefor, except as is provided in this article.

Source: L. 94: Entire article added, p. 670, § 1, effective April 19.

25-29-124. Exemption from property taxation. The authority shall be exempt from any general ad valorem taxes upon any property of the authority acquired and used for its public purposes. The authority may enter into agreements to pay annual sums in lieu of taxes to any county, municipality, or other taxing entity with respect to any real property which is owned by the authority and is located in such county, municipality, or other taxing entity.

Source: L. 94: Entire article added, p. 670, § 1, effective April 19.

25-29-125. General assembly retains authority to enact laws governing Denver health and hospital authority. The general assembly expressly reserves its plenary legislative authority relating to the Denver health and hospital authority, including but not limited to the authority to enact laws relating thereto. Nothing in this part 5 or part 6 of this article or in section 11 of article II of the state constitution or in section 10 of article I of the federal constitution, relating to impairment of the obligation of contract, shall be construed to limit said legislative authority. Any contract or other obligation of the authority is expressly subject to the provisions of this section, and the parties to such contract or

obligation shall not assert such contract or obligation as a bar to the general assembly’s exercise of legislative authority relating to the Denver health and hospital authority.

Source: L. 94: Entire article added, p. 670, § 1, effective April 19.

25-29-126. Severability. Any provision of this article declared to be unconstitutional or otherwise invalid shall not impair the remaining provisions of this article.

25-31-106.	Program applications - re-		dit.

25-31-101. Short title. This article shall be known and may be cited as the “Colorado Nurse Home Visitor Program Act”.

Source: L. 2000: Entire article added, p. 596, § 5, effective May 18.

25-31-102. Legislative declaration. (1) The general assembly hereby finds that, in order to adequately care for their newborns and young children, new mothers may often benefit from receiving professional assistance and information. Without such assistance and information, a young mother may develop habits or practices that are detrimental to her health and well-being and the health and well-being of her child. The general assembly further finds that inadequate prenatal care and inadequate care in infancy and early childhood often inhibit a child’s ability to learn and develop throughout his or her childhood and may have lasting, adverse effects on the child’s ability to function as an adult. The general assembly recognizes that implementation of a nurse home visitor program that provides educational, health, and other resources for new young mothers during pregnancy and the first years of their infants’ lives has been proven to significantly reduce the amount of drug, including nicotine, and alcohol use and abuse by mothers, the occurrence of criminal activity committed by mothers and their children under fifteen years of age, and the number of reported incidents of child abuse and neglect. Such a program has also been proven to reduce the number of subsequent births, increase the length of time between subsequent births, and reduce the mother’s need for other forms of public assistance. It is the intent of the general assembly that such a program be established for the state of

Colorado, beginning with a limited number of participants and expanding by the year 2010 to be available to all low-income, first-time mothers in the state who consent to receiving services.

(2) The general assembly further finds that, to implement such a program efficiently and effectively and to promote the successful implementation of partnerships between state public entities and the private sector, responsibility for the program should be divided between the department, which shall be responsible for financial administration of the program, and a health sciences facility at the university of Colorado, which shall be responsible for programmatic and clinical support, evaluation, and monitoring for the program, and such other responsibilities as described in this article. It is the intent of the general assembly that the department and the health sciences facility work collaboratively to share information in order to promote efficient and effective program implementation; however, neither entity is responsible for the other entity's statutorily prescribed duties.

Source: **L. 2000:** Entire article added, p. 596, § 5, effective May 18. **L. 2010:** Entire section amended, (SB 10-073), ch. 386, p. 1808, § 3, effective June 30.

25-31-103. Definitions. As used in this article, unless the context otherwise requires:

(1) "Department" means the department of public health and environment created in section 25-1-102.

(2) "Entity" means any nonprofit, not-for-profit, or for-profit corporation, religious or charitable organization, institution of higher education, visiting nurse association, existing visiting nurse program, county, district, or municipal public health agency, county department of social services, political subdivision of the state, or other governmental agency or any combination thereof.

(3) "Health sciences facility" means the Anschutz medical campus or a successor facility located at the university of Colorado health sciences center that is selected by the president of the university of Colorado pursuant to section 25-31-105 to assist the state board in administering the program.

(4) "Low-income" means an annual income that does not exceed two hundred percent of the federal poverty line.

(5) "Master settlement agreement" means the master settlement agreement, the smokeless tobacco master settlement agreement, and the consent decree approved and entered by the court in the case denominated *State of Colorado, ex rel. Gale A. Norton, Attorney General v. R.J. Reynolds Tobacco Co.; American Tobacco Co., Inc.; Brown & Williamson Tobacco Corp.; Liggett & Myers, Inc.; Lorillard Tobacco Co., Inc.; Philip Morris, Inc.; United States Tobacco Co.; B.A.T. Industries, P.L.C.; The Council For Tobacco Research—U.S.A., Inc.; and Tobacco Institute, Inc.*, Case No. 97 CV 3432, in the district court for the city and county of Denver.

(6) "Nurse" means a person licensed as a professional nurse pursuant to article 38 of title 12, C.R.S., or accredited by another state or voluntary agency that the state board of nursing has identified by rule pursuant to section 12-38-108 (1) (a), C.R.S., as one whose accreditation may be accepted in lieu of board approval.

(7) "Program" means the nurse home visitor program established in this article.

(8) "State board" means the state board of health created in section 25-1-103.

Source: **L. 2000:** Entire article added, p. 597, § 5, effective May 18. **L. 2010:** (3) amended, (SB 10-073), ch. 386, p. 1808, § 4, effective June 30; (2) and (4) amended, (HB 10-1422), ch. 419, p. 2108, § 135, effective August 11.

25-31-104. Nurse home visitor program - created - rules. (1) There is hereby established the nurse home visitor program to provide regular, in-home, visiting nurse services to low-income, first-time mothers, with their consent, during their pregnancies and through their children's second birthday. The program shall provide trained visiting nurses to help educate mothers on the importance of nutrition and avoiding alcohol and drugs, including nicotine, and to assist and educate mothers in providing general care for their

children and in improving health outcomes for their children. In addition, visiting nurses may help mothers in locating assistance with educational achievement and employment. Any assistance provided through the program shall be provided only with the consent of the low-income, first-time mother, and she may refuse further services at any time.

(2) The program shall be administered in communities throughout the state by entities selected on a competitive basis by the state board. Any entity that seeks to administer the program shall submit an application to the department as provided in section 25-31-106. The entities selected pursuant to section 25-31-107 shall be expected to provide services to a minimum of one hundred low-income, first-time mothers in the community in which the entity administers the program; except that the state board may grant a waiver of this requirement if the population base of the community does not have the capacity to enroll one hundred eligible families. The state board shall consult with the health sciences facility prior to granting the waiver to ensure that the entity can implement the program within the smaller community and maintain compliance with the program requirements. A mother shall be eligible to receive services through the program if she is pregnant with her first child, or her first child is less than one month old, and her gross annual income does not exceed two hundred percent of the federal poverty line.

(3) The state board shall promulgate, pursuant to the provisions of article 4 of title 24, C.R.S., rules for the implementation of the program. The state board shall base the rules establishing program training requirements, program protocols, program management information systems, and program evaluation requirements on research-based model programs that have been implemented in one or more other states for a period of at least five years and have shown significant reductions in:

(a) The occurrence among families receiving services through the model program of infant behavioral impairments due to use of alcohol and other drugs, including nicotine;

(b) The number of reported incidents of child abuse and neglect among families receiving services through the model program;

(c) The number of subsequent pregnancies by mothers receiving services through the model program;

(d) The receipt of public assistance by mothers receiving services through the model program;

(e) Criminal activity engaged in by mothers receiving services through the model program and their children.

(4) Notwithstanding the provisions of subsection (3) of this section, the board shall adopt rules pursuant to which a nurse home visitation program that is in operation in the state as of July 1, 1999, may qualify for participation in the program if it can demonstrate that it has been in operation in the state for a minimum of five years and that it has achieved a reduction in the occurrences specified in subsection (3) of this section. Any program so approved shall be exempt from the rules adopted regarding program training requirements, program protocols, program management information systems, and program evaluation requirements so long as said program continues to demonstrate a reduction in the occurrences specified in subsection (3) of this section.

(5) The department may propose to the state board rules concerning program applications under section 25-31-106 (1). Any such proposal shall be made in consultation with the health sciences facility.

Source: L. 2000: Entire article added, p. 597, § 5, effective May 18. **L. 2010:** (5) added, (SB 10-073), ch. 386, p. 1809, § 5, effective June 30; (2) amended, (HB 10-1422), ch. 419, p. 2108, § 136, effective August 11.

25-31-105. Health sciences facility - duties. (1) The president of the university of Colorado shall identify a facility at the university of Colorado health sciences center with the knowledge and expertise necessary to:

(a) Assist the state board in selecting entities from among the applications submitted pursuant to section 25-31-106;

(b) Provide programmatic and clinical support, evaluation, and monitoring for the program, including nurse practice support and training, clinical and programmatic technical

assistance, compliance monitoring and support, program development and implementation support, and performance improvement monitoring and support, in communities throughout the state;

(c) Cooperate with the department in connection with the department's financial administration of the program; and

(d) Work with the state auditor's office as required in section 2-3-113 (4), C.R.S.

(1.5) The health sciences facility is not responsible for the duties assigned to the department with respect to the program under section 25-31-107 (2) (a.5).

(2) The health sciences facility shall perform the duties set forth in subsection (1) of this section to ensure that the program is implemented and operated according to the program training requirements, protocols, management information systems, and evaluation requirements established by rule of the state board. The health sciences facility shall evaluate overall program implementation, operation, and effectiveness, and include that evaluation, along with any recommendations concerning the program's selected entities or changes in the program's implementation, operation, and effectiveness, including program training requirements, protocols, management information systems, or evaluation requirements, in the annual report submitted to the department pursuant to section 25-31-108.

(3) The department shall compensate the health sciences facility for the health sciences facility's actual costs incurred in performing its duties under this article, as determined by the health sciences facility. Such duties and actual costs shall be included in the scope of work in the agreement between the department and the health sciences facility for implementation of those duties and shall include the costs incurred by any contractor or subcontractor of the health sciences facility for those duties. Such compensation shall be paid out of the amount allocated for the health sciences facility's costs, in accordance with the maximum allocation of three percent of the amount annually allocated for the program under section 25-31-107 (2).

Source: L. 2000: Entire article added, p. 599, § 5, effective May 18. **L. 2010:** Entire section amended, (SB 10-073), ch. 386, p. 1809, § 6, effective June 30.

25-31-106. Program applications - requirements. (1) An entity that seeks to administer the program in a community shall submit an application to the department in accordance with rules adopted by the state board, in consultation with the department and the health sciences facility. At a minimum, the application shall specify the basic elements and procedures that the entity shall use in administering the program. Basic program elements shall include the following:

(a) The specific training to be received by each nurse employed by the entity to provide home nursing services through the program, which training shall meet or exceed the visiting nurse training requirements established by rule of the state board;

(b) The protocols to be followed by the entity in administering the program, which protocols at a minimum shall comply with the program protocols established by rule of the state board;

(c) The management information system to be used by the entity in administering the program, which at a minimum shall comply with the management information system requirements established by rule of the state board;

(d) The reporting and evaluation system to be used by the entity in measuring the effectiveness of the program in assisting low-income, first-time mothers, which at a minimum shall meet the reporting and evaluation requirements specified by rule of the state board;

(e) An annual report to both the health sciences facility and the community in which the entity administers the program that reports on the effectiveness of the program within the community and is written in a manner that is understandable for both the health sciences facility and members of the community.

(2) Any program application submitted pursuant to this section shall demonstrate strong, bipartisan public support for and a long-time commitment to operation of the program in the community.

(3) The department shall initially review the applications received pursuant to this section and submit to the health sciences facility for review those applications that include the basic program elements as required by the rules adopted by the state board. Following its review, the health sciences facility shall submit to the state board a list of the applying entities that the health sciences facility recommends to administer the program in communities throughout the state.

Source: L. 2000: Entire article added, p. 599, § 5, effective May 18. L. 2010: IP(1) amended, (SB 10-073), ch. 386, p. 1810, § 7, effective June 30.

25-31-107. Selection of entities to administer the program - grants - nurse home visitor program fund - created. (1) On receipt of the list of entities recommended by the health sciences facility, the state board shall select the entities that will administer the program in communities throughout the state. In selecting entities, the state board shall give special consideration to entities that are proposing to administer the program as a collaborative effort among multiple entities.

(2) (a) The entities selected to operate the program shall receive grants in amounts specified by the state board. The grants may include operating costs and additional amounts for training and development of any infrastructure, including but not limited to development of the information management system, necessary to administer the program. For the 2000-01 fiscal year, the state board shall award grants to no more than twelve entities in at least eight communities. The number of entities selected and the number of communities in which the program shall be implemented in subsequent fiscal years shall be determined by moneys available in the nurse home visitor program fund created in paragraph (b) of this subsection (2).

(a.5) Except as otherwise provided in section 25-31-108, the department shall be responsible for financial administration of this article, which shall include compensating the health sciences facility pursuant to section 25-31-105 (3), paying grants to entities selected to administer the program, monitoring financial, contractual, and regulatory compliance; providing medicaid financing oversight; managing accounting and budgeting; and, in cooperation with the health sciences facility, managing grant applications as set forth in section 25-31-106. The department shall also cooperate with the health sciences facility's administration of programmatic and clinical support, evaluation, and monitoring of the program. The department shall not be responsible for any duties assigned to the health sciences facility with respect to the program, as described in section 25-31-105.

(b) Grants awarded pursuant to paragraph (a) of this subsection (2) shall be payable from the nurse home visitor program fund, which fund is hereby created in the state treasury. The nurse home visitor program fund, referred to in this section as the "fund", shall be administered by the department and shall consist of moneys transferred thereto by the state treasurer from moneys received pursuant to the master settlement agreement in the amount described in paragraph (d) of this subsection (2). In addition, the state treasurer shall credit to the fund any public or private gifts, grants, or donations received by the department for implementation of the program, including any moneys received from the United States federal government for the program. The fund shall be subject to annual appropriation by the general assembly to the department for grants to entities for operation of the program. The department may retain a total of up to five percent of the amount annually appropriated from the fund for the program, in order to compensate the health sciences facility pursuant to section 25-31-105 (3), as set forth in the scope of work in the agreement between the department and the health sciences facility, and to compensate the department for the actual costs incurred by the department in implementing the provisions of paragraph (a.5) of this subsection (2), as determined by the department; except that the portion of the costs to compensate the department for implementing the provisions of paragraph (a.5) of this subsection (2) shall not exceed two percent of the amount annually appropriated from the fund for the program, and the portion of such costs to compensate the health sciences facility under section 25-31-105 (3), as set forth in the scope of work in the contract between the department and the health sciences facility, shall not exceed three percent of the amount annually appropriated from the fund for the program. In addition, if the total amount

annually appropriated from the fund for the program exceeds nineteen million dollars, the department and the health sciences facility shall assess whether a smaller percentage of the appropriated funds exceeding nineteen million dollars is adequate to cover their actual costs and shall jointly submit to the general assembly a report articulating their conclusions on this subject. The actual costs of the department include department personnel and operating costs and any necessary transfers to the department of health care policy and financing for administrative costs incurred for the medicaid program associated with the program. The actual costs of the health sciences facility include the facility's own actual program costs and those of its contractors and subcontractors. Any costs for time studies required to obtain medicaid reimbursement for the program may be paid from program funds, and shall not be subject to the five percent limit in this section. Notwithstanding section 24-36-114, C.R.S., all interest derived from the deposit and investment of moneys in the fund shall be credited to the fund. Any unencumbered moneys appropriated from moneys received pursuant to the master settlement agreement remaining in the fund at the end of any fiscal year shall be transferred to the tobacco litigation settlement trust fund created in section 24-22-115.5, C.R.S.

(c) It is the intent of the general assembly that general fund moneys not be appropriated for implementation of the program.

(d) (I) Pursuant to section 24-75-1104.5 (1) (a), C.R.S., and except as otherwise provided in section 24-75-1104.5 (5), C.R.S., beginning with the 2006-07 fiscal year and for each fiscal year thereafter so long as the state receives moneys pursuant to the master settlement agreement, the state treasurer shall transfer to the fund the amounts specified in subparagraph (III) of this paragraph (d) from the master settlement agreement moneys received by the state, other than attorney fees and costs, during the preceding fiscal year, not to exceed nineteen million dollars in any fiscal year. The transfer shall be from moneys credited to the tobacco litigation settlement cash fund created in section 24-22-115, C.R.S.

(II) Repealed.

(III) (A) For the 2004-05 fiscal year, the general assembly shall appropriate to the fund nine percent of the total amount of moneys received by the state.

(A.5) For the 2005-06 fiscal year, the general assembly shall appropriate to the fund ten percent of the total amount of moneys received by the state.

(A.7) For the 2006-07 fiscal year, the state treasurer shall transfer from the moneys received by the state pursuant to the master settlement agreement to the fund eleven percent of the total amount of moneys received by the state.

(B) Beginning with the 2007-08 fiscal year and for each fiscal year thereafter through the 2010-11 fiscal year, the state treasurer shall increase the percentage transferred to the fund pursuant to sub-subparagraph (A.7) of this subparagraph (III) by one percent; except that the percentage transferred to the fund for the 2009-10 fiscal year shall be the same as the percentage transferred to the fund for the 2008-09 fiscal year.

(C) For the 2011-12 and 2012-13 fiscal years, the state treasurer shall transfer to the fund the greater of twelve million seven hundred thirty-seven thousand three hundred fifty dollars or the same percentage of the total amount of moneys received by the state as was transferred to the fund for the 2010-11 fiscal year.

(D) For the 2013-14 fiscal year, the state treasurer shall transfer to the fund fifteen percent of the total amount of moneys received by the state.

(E) For the 2014-15 fiscal year and for each fiscal year thereafter through the 2016-17 fiscal year, the state treasurer shall increase the percentage transferred to the fund by one percent over the percentage transferred to the fund in the preceding fiscal year.

(F) For the 2017-18 fiscal year and for each fiscal year thereafter, the state treasurer shall transfer to the fund nineteen percent of the total amount of moneys received by the state.

(IV) In addition to all other moneys transferred to the fund pursuant to this paragraph (d), the state treasurer shall transfer moneys from the general fund to the fund as specified in section 24-75-1104.5 (5) (a) (I) (B), C.R.S.

5; (2)(d)(I) amended, p. 2563, § 5, effective June 5. **L. 2004:** (2)(d)(I) amended, (2)(d)(II) repealed, and (2)(d)(III) added, pp. 1711, 1713, §§ 11, 16, effective June 4. **L. 2006:** (2)(b) and (2)(d) amended, p. 1038, § 8, effective May 25. **L. 2009:** (2)(d)(I), (2)(d)(III)(B), and (2)(d)(III)(C) amended and (2)(d)(IV) added, (SB 09-269), ch. 333, p. 1765, § 2, effective June 1. **L. 2010:** (2)(a.5) added and (2)(b) amended, (SB 10-073), ch. 386, p. 1810, § 8, effective June 30. **L. 2011:** (2)(d)(III)(B) and (2)(d)(III)(C) amended and (2)(d)(III)(D), (2)(d)(III)(E), and (2)(d)(III)(F) added, (SB 11-224), ch. 155, p. 539, § 2, effective May 5.

Editor’s note: Amendments to subsection (2)(d)(I) by Senate Bill 03-268 and Senate Bill 03-282 were harmonized.

25-31-108. Annual program review - audit. (1) The health sciences facility shall annually prepare and submit to the department a report including an evaluation of the implementation of the program, the results achieved by the program based on the annual reports submitted by the administering entities pursuant to section 25-31-106 (1) (e), the extent to which the program serves medicaid-eligible persons and provides services that may be provided in part through medicaid funding, and any recommendations concerning changes to the program, including any changes that may be appropriate to enable the program to receive medicaid funding. The department shall include the report in the annual report on the program prepared pursuant to section 25-1-108.5 (3). Each program contractor and subcontractor and each entity that administers the program shall work with the health sciences facility and the department to prepare the reports required under this section and sections 2-3-113 (2) and 25-1-108.5 (3), C.R.S. Any entity that is administering the program is subject to a reduction in or cessation of funding if the state board, based on recommendations from the health sciences facility, determines that the entity is not operating the program in accordance with the program requirements established by rule of the state board or is operating the program in such a manner that the program does not demonstrate positive results.

(2) The state auditor’s office, pursuant to section 2-3-113, C.R.S., shall audit each entity administering the program to determine whether the entity is administering the program in compliance with the program requirements and in an effective manner. The audit shall be conducted and reported in accordance with the provisions of section 2-3-113, C.R.S.

25-32-103.	Definitions.		services - duties - contract.
25-32-104.	Poison control services - statewide poison control	25-32-106.	Release of medical informa- tion.

25-32-101. Short title. This article shall be known and may be cited as the “Poison Control Act”.

Source: **L. 2002:** Entire article added, p. 423, § 1, effective July 1.

25-32-102. Legislative declaration. The general assembly hereby declares that it is in the interest of the public’s health and well-being to continue to provide quality poison control services to the people of this state and that the provision of such services is a matter of statewide concern. It is the intent of the general assembly in enacting this article that such services be made available throughout the state on a consistent and prompt basis, by means

of a toll-free telephone network, in order that illness or death that may result from the exposure of an individual to poisonous substances may be avoided. The general assembly finds that the provision of such poison control services may be accomplished on a more cost-efficient basis, at a savings to the taxpayer, if the duty of providing such services is placed with the department of public health and environment with authority to contract with a competitively priced service provider for the entire state.

Source: L. 2002: Entire article added, p. 423, § 1, effective July 1.

25-32-103. Definitions. As used in this article, unless the context otherwise requires:

(1) "Board" means the statewide poison control oversight board, created in section 25-32-104.

(2) "Department" means the department of public health and environment.

(3) "Poison control services" shall include the following services provided by an entity certified by the American association of poison control centers or its successor organization:

(a) Twenty-four-hour toll-free telephone service dedicated to disseminating information on prevention of poisoning and the care and treatment of individuals exposed to poisonous substances;

(b) Dissemination of poison information by persons who are trained in poison control education, and the prevention, triage, and treatment of poisoning and who meet the criteria established by and are certified by the American association of poison control centers, or its successor organization; and

(c) Supervision of poison control centers by a person who meets the criteria established by the American association of poison control centers, or its successor organization, and who shall be available twenty-four hours each day for consultation.

Source: L. 2002: Entire article added, p. 424, § 1, effective July 1; (3)(b) amended, p. 946, § 7, effective August 7. **L. 2005:** (3) amended, p. 323, § 1, effective April 20.

Editor's note: Subsection (3)(b) was originally numbered as § 25.5-2-103 (2)(b), and the amendments to it in House Bill 02-1403 were harmonized with subsection (3)(b) as relocated to this section by House Bill 02-1348.

25-32-104. Poison control services - statewide poison control oversight board - duties. (1) As of July 1, 2002, the department of public health and environment shall allocate moneys for the provision of poison control services on a statewide basis and for the dissemination of information concerning the care and treatment of individuals exposed to poisonous substances. The department shall have the powers and duties outlined in section 25-32-105 in carrying out the poison control services. Provision of such poison control services shall be overseen by a statewide oversight board, described in subsection (3) of this section, which board shall have the duties and responsibilities set forth in subsection (4) of this section.

(2) On July 1, 2002, the statewide poison control oversight board, referred to in this article as the "board", which was created in 1994, in section 25.5-2-103 (2), C.R.S., shall be transferred from the department of health care policy and financing to the department of public health and environment by a **type 2** transfer. The members of the board who are serving terms on July 1, 2002, shall continue to serve for the remainder of the terms for which they were appointed by the governor; except that the member of the board who serves as the representative of the department of health care policy and financing shall no longer serve on the board and the governor shall appoint the executive director of the department of public health and environment or the executive director's designee to fill that position on the board.

(3) (a) As specified in subsection (2) of this section, on and after July 1, 2002, the board shall consist of seven members, appointed by the governor, as follows:

- (I) One member who is involved in the provision of hospital emergency care services;
- (II) One member with expertise in public health;

(III) A designee of the chancellor of the university of Colorado health sciences center;
(IV) The executive director of the department of public health and environment or such executive director's designee; and

(V) Three members from the public at large, at least one of whom has personally utilized the services of the poison control center or has a family member who has utilized the services of the poison control center.

(b) Each congressional district within the state shall be represented by one member of the board designated in paragraph (a) of this subsection (3).

(c) At least one member of the board shall reside west of the continental divide.

(d) Each member appointed pursuant to paragraph (a) of this subsection (3) shall serve a term of four years, and the terms of the members of the board shall remain staggered as originally determined by the governor.

(e) A vacancy on the board occurs whenever any member moves out of the congressional district from which such member was appointed. A member who moves out of such congressional district shall promptly notify the governor of the date of such move, but such notice is not a condition precedent to the occurrence of the vacancy. The governor shall fill the vacancy by appointment for the unexpired term.

(f) No more than four members of the board shall be members of the same major political party.

(g) The board membership shall elect a chairperson from among its members.

(h) The members of the board shall serve without compensation; except that they shall be reimbursed for any actual and necessary expenses incurred in the performance of their official duties pursuant to this section as members of the board including, but not limited to, reasonable expenses incurred for in-state travel.

(4) (a) The board shall have the following powers and duties:

(I) To review contract bids for the provision of poison control services and the dissemination of poison control information by means of a toll-free telephone network;

(II) To provide oversight and input to the department concerning the provision of poison control services and the dissemination of poison control information by means of a toll-free telephone network.

(b) The board shall exercise its powers and duties as a **type 2** board.

Source: L. 2002: Entire article added, p. 424, § 1, effective July 1.

25-32-105. Department - poison control services - duties - contract. (1) The department shall have the following powers and duties with respect to the provision of poison control services on a statewide basis and for the dissemination of information as provided in this article:

(a) To solicit, receive, and review contract bids, with input from the board, for the provision of poison control services and the dissemination of poison control information by means of a toll-free telephone network;

(b) To contract with private, nonprofit, or public entities for the continuing provision of statewide poison control services and the continuing dissemination of poison control information to the citizens of the state by means of a toll-free telephone network, the provision of which services initially commenced on July 1, 1995. The department shall review the contract at least once each year and shall solicit and receive bids on the provision of poison control services no less than once every five years. This paragraph (b) shall apply to contract years commencing July 1, 1995, and thereafter.

(c) To provide, by contract and for adequate reimbursement, poison control services and the dissemination of poison control information to the citizens of other states by this state;

(d) To contract with an auditor for a performance or financial audit at the discretion of the department. A copy of such audit, when performed, shall be sent to the members of the board and the joint budget committee.

(2) Whenever the department of health care policy and financing is referred to or designated by any contract or other document in connection with the duties and functions transferred to the department of public health and environment, such reference or designation shall be deemed to refer to the department of public health and environment.

nation shall be deemed to apply to the department of public health and environment. All contracts entered into by the department of health care policy and financing prior to July 1, 2002, in connection with the duties and functions transferred to the department of public health and environment, are hereby validated, with the department of public health and environment succeeding to all the rights and obligations of such contracts. Any appropriation of funds from prior fiscal years open to satisfy obligations incurred under such contracts are hereby transferred and appropriated to the department of public health and environment for the payment of such obligations.

25-32-106. Release of medical information. Notwithstanding any other provisions to the contrary, when a poison control service provider selected pursuant to section 25-32-105 determines that a medical emergency exists and that information concerning the patient's medical history is necessary to assist in the diagnosis or treatment of such patient, the patient's physician shall release to the poison control service provider such medical information concerning the patient as may be necessary to aid in the diagnosis or treatment of the patient. The poison control service provider receiving such information shall maintain the confidentiality of the information received.

Colorado Cancer Drug Repository Program

25-35-101.	Short title.	25-35-104.	medical devices.
25-35-102.	Definitions.	25-35-105.	Rules.
25-35-103.	Cancer drug repository - administration - donation - dispensing - cancer drugs -		Liability - prescription drug manufacturers.

25-35-101. Short title. This article shall be known and may be cited as the “Colorado Cancer Drug Repository Act”.

Source: L. 2005: Entire article added, p. 311, § 1, effective August 8.

25-35-102. Definitions. As used in this article, unless the context otherwise requires:

(1) “Cancer drug” means a prescription drug that is used to treat cancer or the side effects of cancer.

(2) “Department” means the department of public health and environment.

(3) “Dispense” shall have the same meaning as set forth in section 12-42.5-102 (11), C.R.S.

(4) “Eligible patient” means an uninsured or underinsured cancer patient who meets the eligibility criteria established in rule by the state board.

(5) “Health care facility” means a hospital, hospice, or hospital unit that is required to be licensed pursuant to section 25-3-101.

(6) “Medical clinic” means a community health clinic required to be licensed or certified by the department pursuant to section 25-1.5-103.

(7) “Medical device” means an instrument, apparatus, implement, machine, contrivance, implant, in vitro reagent, or other similar or related article, including a component, part, or accessory that is:

(a) Recognized in the official national formulary, or the United States pharmacopoeia, or any supplement;

(b) Intended for use in the diagnosis of disease or other conditions, or in the cure, mitigation, treatment, or prevention of disease, in humans or animals; or

(c) Intended to affect the structure or any function of the human body or animals, that does not achieve any of its primary intended purposes through chemical action within or on the human body or animals, and that is not dependent upon being metabolized for the achievement of any of its primary intended purposes.

(8) “Pharmacist” means an individual licensed by this state pursuant to article 42.5 of title 12, C.R.S., to engage in the practice of pharmacy.

(9) “Program” means the Colorado cancer drug repository program created in section 25-35-103.

(10) “State board” means the state board of health.

Source: L. 2005: Entire article added, p. 311, § 1, effective August 8. L. 2007: (7) amended, p. 1293, § 1, effective August 3. L. 2012: (3) and (8) amended, (HB 12-1311), ch. 281, p. 1628, § 73, effective July 1.

25-35-103. Cancer drug repository - administration - donation - dispensing - cancer drugs - medical devices. (1) There is hereby established the Colorado cancer drug repository program for the purpose of allowing a cancer patient or the patient's family to donate unused cancer drugs and medical devices to uninsured and underinsured cancer patients in the state of Colorado. The program shall be administered by the department.

(2) The program shall allow a cancer patient or the patient's family to donate unused cancer drugs or medical devices to a health care facility, medical clinic, or pharmacy that elects to participate in the program. A health care facility, medical clinic, or pharmacy that receives a donated cancer drug or medical device under the program may distribute the cancer drug to another eligible health care facility, medical clinic, or pharmacy for use under the program.

(3) A pharmacist may accept and dispense cancer drugs and medical devices donated under the program to eligible patients if all of the following requirements are met:

(a) (I) The cancer drug or medical device is in its original, unopened, sealed, and tamper-evident packaging or, if packaged in single-unit doses, the single-unit-dose packaging is unopened; or

(II) The pharmacist has determined that the cancer drug or medical device is safe for redistribution;

(b) The cancer drug bears an expiration date that has not expired;

(c) The cancer drug or medical device is not adulterated or misbranded, as determined by a pharmacist; and

(d) The cancer drug or medical device is prescribed by a practitioner, as defined in section 12-42.5-102 (32), C.R.S., for use by an eligible patient and is dispensed by a pharmacist.

(4) A cancer drug or medical device donated under the program may not be resold. A health care facility, medical clinic, or pharmacy may charge an eligible patient a handling fee to receive a donated cancer drug or medical device, which fee may not exceed the amount specified in rule by the state board.

(5) Nothing in this section requires a health care facility, medical clinic, or pharmacy to participate in the program.

(6) A health care facility, medical clinic, or pharmacy that elects to participate in the program shall establish eligibility criteria for individuals to receive donated cancer drugs or medical devices. Dispensation shall be prioritized to cancer patients who are uninsured or underinsured. Dispensation to other cancer patients shall be permitted if an uninsured or underinsured cancer patient is not available.

Source: L. 2005: Entire article added, p. 312, § 1, effective August 8. L. 2007: (3)(a) and (3)(c) amended and (6) added, p. 1294, § 2, effective August 3. L. 2012: (3)(d) amended, (HB 12-1311), ch. 281, p. 1628, § 74, effective July 1.

25-35-104. Rules. (1) The state board, in consultation with the state board of pharmacy, shall promulgate any rules necessary for the implementation and administration of the program. The rules shall include, at a minimum:

(a) Requirements for health care facilities, medical clinics, and pharmacies to accept and dispense donated cancer drugs and medical devices under the program, including but not limited to:

(I) Eligibility criteria; and

(II) Standards and procedures for a health care facility, medical clinic, or pharmacy to accept, safely store, and dispense donated cancer drugs and medical devices.

(b) and (c) Repealed.

(d) The maximum handling fee that a health care facility, medical clinic, or pharmacy may charge for distributing or dispensing donated cancer drugs or medical devices.

(e) Repealed.

Source: L. 2005: Entire article added, p. 313, § 1, effective August 8. L. 2007: (1)(b), (1)(c), and (1)(e) repealed, p. 1294, § 3, effective August 3.

25-35-105. Liability - prescription drug manufacturers. Nothing in this article shall be construed to create or abrogate any liability on behalf of a prescription drug manufacturer for the storage, donation, acceptance, or dispensing of a cancer drug or medical device, or to create any civil cause of action against a prescription drug manufacturer, in addition to that which is available under applicable law.

Short-term Grants for Innovative Health Programs

25-36-101. Short-term grants for innovative health programs - grant fund - creation - appropriation from fund - transfer of moneys for fiscal years 2007-08 through 2011-12 - repeal.

25-36-101. Short-term grants for innovative health programs - grant fund - creation - appropriation from fund - transfer of moneys for fiscal years 2007-08 through 2011-12 - repeal.

(1) Repealed.

(2) (a) (I) The short-term innovative health program grant fund is hereby created in the state treasury. The principal of the fund shall include settlement moneys, as defined in section 24-75-1102 (2), C.R.S., transferred to the fund pursuant to sections 24-22-115 (1) (b) and 24-75-1104.5 (1.5) (a) (IX) and (1.5) (b), C.R.S., and any other moneys that the general assembly may appropriate or transfer to the fund. Interest and income earned on the deposit and investment of fund moneys shall remain in the fund and shall not be credited to the general fund or to any other fund at the end of any fiscal year; except that, effective June 30, 2012, all moneys in the fund shall be transferred to the tobacco litigation settlement cash fund created in section 24-22-115 (1) (a), C.R.S.

(II) This paragraph (a) is repealed, effective December 31, 2012.

(b) Repealed.

(3) to (10) Repealed.

25-37-101. Applicability of article. Except as provided in section 25-37-106, a person or entity that contracts with a health care provider shall comply with this article and shall include the provisions required by this article in the contract.

Source: L. 2010: Entire article amended with relocations, (HB 10-1332), ch. 300, p. 1413, § 1, effective May 26.

Editor's note: This section is similar to former § 25-37-101 (1) as it existed prior to 2010.

25-37-102. Definitions. As used in this article, unless the context otherwise requires:

- (1) "Category of coverage" means one of the following types of coverage offered by a person or entity:
 - (a) Health maintenance organization plans;
 - (b) Any other commercial plan or contract that is not a health maintenance organization plan;
 - (c) Medicare;
 - (d) Medicaid; or
 - (e) Workers' compensation.
- (2) "CMS" means the federal centers for medicare and medicaid services in the United States department of health and human services.
- (3) "CPT code set" means the current procedural terminology code, or its successor code, as developed and copyrighted by the American medical association, or its successor entity, and adopted by the CMS as a HIPAA code set.
- (4) "Edit" means a practice or procedure, consistent with the standardized set of payment rules and claim edits developed pursuant to section 25-37-106, pursuant to which one or more adjustments are made regarding procedure codes, including the CPT code sets and the HCPCS, that results in:
 - (a) Payment for some, but not all, of the codes;
 - (b) Payment for a different code;
 - (c) A reduced payment as a result of services provided to a patient that are claimed under more than one code on the same service date;
 - (d) A modified payment related to a permissible and legitimate modifier used with a procedure code, as specified in section 25-37-106 (2); or
 - (e) A reduced payment based on multiple units of the same code billed for a single date of service.

(5) “HCPCS” means the health care common procedure coding system developed by the CMS for identifying health care services in a consistent and standardized manner.

(6) “Health care contract” or “contract” means a contract entered into or renewed between a person or entity and a health care provider for the delivery of health care services to others.

(7) “Health care provider” means a person licensed or certified in this state to practice medicine, pharmacy, chiropractic, nursing, physical therapy, podiatry, dentistry, optometry, occupational therapy, or other healing arts. “Health care provider” also means an ambulatory surgical center, a licensed pharmacy or provider of pharmacy services, and a professional corporation or other corporate entity consisting of licensed health care providers as permitted by the laws of this state.

(8) “HIPAA code set” means any set of codes used to encode elements, such as tables of terms, medical concepts, medical diagnostic codes, or medical procedure codes, that have been adopted by the secretary of the United States department of health and human services pursuant to the federal “Health Insurance Portability and Accountability Act of 1996”, as amended. “HIPAA code set” includes the codes and the descriptors of the codes.

(9) (a) “Material change” means a change to a contract that decreases the health care provider’s payment or compensation, changes the administrative procedures in a way that may reasonably be expected to significantly increase the provider’s administrative expense, replaces the maximum allowable cost list used with a new and different maximum allowable cost list by a person or entity for reimbursement of generic prescription drug claims, or adds a new category of coverage.

(b) “Material change” does not include:

(I) A decrease in payment or compensation resulting solely from a change in a published fee schedule upon which the payment or compensation is based and the date of applicability is clearly identified in the contract;

(II) A decrease in payment or compensation resulting from a change in the fee schedule specified in a contract for pharmacy services such as a change in a fee schedule based on average wholesale price or maximum allowable cost;

(III) A decrease in payment or compensation that was anticipated under the terms of the contract, if the amount and date of applicability of the decrease is clearly identified in the contract;

(IV) An administrative change that may significantly increase the provider’s administrative expense, the specific applicability of which is clearly identified in the contract;

(V) Changes to an existing prior authorization, precertification, notification, or referral program that do not substantially increase the provider’s administrative expense; or

(VI) Changes to an edit program or to specific edits; however, the person or entity shall provide notice of the changes to the health care provider in accordance with paragraph (c) of this subsection (9), and the notice shall include information sufficient for the health care provider to determine the effect of the change.

(c) If a change to the contract is administrative only and is not a material change, the change shall be effective upon at least fifteen days’ notice to the health care provider. All other notices shall be provided pursuant to the contract.

(10) “National correct coding initiative” or “NCCI” means the system developed by the CMS to promote consistency in national correct coding methodologies and to control improper coding leading to inappropriate payment in medicare part B claims for professional services.

(11) “National initiative” means a collaborative effort led by or occurring under the direction of the secretary of the United States department of health and human services, which includes a diverse group of stakeholders, to create a level of understanding of the impact of coding edits on the industry and a uniform, standardized set of claim edits that meets the needs of the stakeholders in the industry.

(12) “Person or entity” means a person or entity that has a primary business purpose of contracting with health care providers for the delivery of health care services.

Source: L. 2010: Entire article amended with relocations, (HB 10-1332), ch. 300, p. 1413, § 1, effective May 26.

Editor's note: This section is similar to former § 25-37-101 (2) as it existed prior to 2010.

25-37-103. Health care contracts - required provisions - permissible provision.

(1) (a) A person or entity shall provide, with each health care contract, a summary disclosure form disclosing, in plain language, the following:

- (I) The terms governing compensation and payment;
- (II) Any category of coverage for which the health care provider is to provide service;
- (III) The duration of the contract and how the contract may be terminated;
- (IV) The identity of the person or entity responsible for the processing of the health care provider's claims for compensation or payment;
- (V) Any internal mechanism required by the person or entity to resolve disputes that arise under the terms or conditions of the contract; and
- (VI) The subject and order of addenda, if any, to the contract.

(b) The summary disclosure form required by paragraph (a) of this subsection (1) shall be for informational purposes only and shall not be a term or condition of the contract; however, such disclosure shall reasonably summarize the applicable contract provisions.

(c) If the contract provides for termination for cause by either party, the contract shall state the reasons that may be used for termination for cause, which terms shall not be unreasonable, and the contract shall state the time by which notice of termination for cause shall be provided and to whom the notice shall be given.

(d) The person or entity shall identify any utilization review or management, quality improvement, or similar program the person or entity uses to review, monitor, evaluate, or assess the services provided pursuant to a contract. The policies, procedures, or guidelines of such program applicable to a provider shall be disclosed upon request of the health care provider within fourteen days after the date of the request.

(2) (a) The disclosure of payment and compensation terms pursuant to subsection (1) of this section shall include information sufficient for the health care provider to determine the compensation or payment for the health care services and shall include the following:

- (I) The manner of payment, such as fee-for-service, capitation, or risk sharing;
- (II) (A) The methodology used to calculate any fee schedule, such as relative value unit system and conversion factor, percentage of medicare payment system, or percentage of billed charges. As applicable, the methodology disclosure shall include the name of any relative value system; its version, edition, or publication date; any applicable conversion or geographic factor; and any date by which compensation or fee schedules may be changed by such methodology if allowed for in the contract.

(B) The fee schedule for codes reasonably expected to be billed by the health care provider for services provided pursuant to the contract, and, upon request, the fee schedule for other codes used by or which may be used by the health care provider. Such fee schedule shall include, as may be applicable, service or procedure codes such as current procedural terminology (CPT) codes or health care common procedure coding system (HCPCS) codes and the associated payment or compensation for each service code.

(C) The fee schedule required in sub-subparagraph (B) of this subparagraph (II) may be provided electronically.

(D) A fee schedule for the codes described by sub-subparagraph (B) of this subparagraph (II) shall be provided when a material change related to payment or compensation occurs. Additionally, a health care provider may request that a written fee schedule be provided up to twice per year, and the person or entity must provide such fee schedule promptly.

(III) The person or entity shall state the effect of edits, if any, on payment or compensation. A person or entity may satisfy this requirement by providing a clearly understandable, readily available mechanism, such as through a web site, that allows a health care provider to determine the effect of edits on payment or compensation before service is provided or a claim is submitted.

(b) Notwithstanding any provision of this subsection (2) to the contrary, disclosure of a fee schedule or the methodology used to calculate a fee schedule is not required:

(I) From a person or entity if the fee schedule is for a plan for dental services, its providers include licensed dentists, the fee schedule is based upon fees filed with the person or entity by dental providers, and the fee schedule is revised from time to time based upon such filings. Specific numerical parameters are not required to be disclosed.

(II) If the fee schedule is for pharmacy services or drugs such as a fee schedule based on use of national drug codes.

(3) When a proposed contract is presented by a person or entity for consideration by a health care provider, the person or entity shall provide in writing or make reasonably available the information required in subsections (1) and (2) of this section. If the information is not disclosed in writing, it shall be disclosed in a manner that allows the health care provider to timely evaluate the payment or compensation for services under the proposed contract. The disclosure obligations in this article shall not prevent a person or entity from requiring a reasonable confidentiality agreement regarding the terms of a proposed contract.

(4) Nothing in this article shall be construed to require the renegotiation of a contract in existence before the applicable compliance date in this article, and any disclosure required by this article for such contracts may be by notice to the health care provider.

(5) A contract subject to this article may include an agreement for binding arbitration.

Source: L. 2010: Entire article amended with relocations, (HB 10-1332), ch. 300, p. 1416, § 1, effective May 26.

Editor's note: This section is similar to former § 25-37-101 (3), (4), (6), (9), and (19) as they existed prior to 2010.

25-37-104. Material change in health care contract - written advance notice.

(1) A material change to a contract shall occur only if the person or entity provides in writing to the health care provider the proposed change and gives ninety days' notice before the effective date of the change. The writing shall be conspicuously entitled "notice of material change to contract".

(2) If the health care provider objects in writing to the material change within fifteen days and there is no resolution of the objection, either party may terminate the contract upon written notice of termination provided to the other party not later than sixty days before the effective date of the material change.

(3) If the health care provider does not object to the material change pursuant to subsection (2) of this section, the change shall be effective as specified in the notice of material change to the contract.

(4) If a material change is the addition of a new category of coverage and the health care provider objects, the addition shall not be effective as to the health care provider, and the objection shall not be a basis upon which the person or entity may terminate the contract.

Source: L. 2010: Entire article amended with relocations, (HB 10-1332), ch. 300, p. 1418, § 1, effective May 26.

Editor's note: This section is similar to former § 25-37-101 (7) as it existed prior to 2010.

25-37-105. Contract modification by operation of law. Notwithstanding section 25-37-103 (3), a contract may be modified by operation of law as required by any applicable state or federal law or regulation, and the person or entity may disclose this change by any reasonable means.

Source: L. 2010: Entire article amended with relocations, (HB 10-1332), ch. 300, p. 1418, § 1, effective May 26.

Editor's note: This section is similar to former § 25-37-101 (8) as it existed prior to 2010.

25-37-106. Clean claims - development of standardized payment rules and code edits - task force to develop - legislative recommendations - short title - applicability - repeal. (1) This section shall be known and may be cited as the “Medical Clean Claims Transparency and Uniformity Act”.

(2) (a) (I) For purposes of facilitating the development of a standardized set of payment rules and claim edits for use by health care providers and payers in the processing of medical claims, the executive director of the department of health care policy and financing shall establish a task force by November 30, 2010, consisting of representatives of all industry segments directly affected by this section, including:

(A) Health care providers or employees thereof from a diverse group of settings, which shall include providers from health care community clinics, ambulatory surgical centers, urgent care centers, and hospitals;

(B) Persons or entities that pay for health care services, referred to in this section as “payers”;

(C) Practice management system vendors;

(D) Billing and revenue cycle management service companies; and

(E) State and federal government entities and agencies that pay for or are otherwise involved in the payment or provision of health care services.

(II) The task force should be comprised of individuals with expertise in the areas of payment rules and claim edits and their impact on the submission and payment of health insurance claims.

(III) The task force shall work to develop a standardized set of payment rules and claim edits as required by this subsection (2) and, while fulfilling its duties, shall monitor and stay informed of the national initiative so as to avoid duplication or creation of competing or conflicting payment rules and claim edits.

(b) Within two years after the task force is established, the task force shall develop a base set of standardized payment rules and claim edits to be used by payers and health care providers in the processing of medical claims that can be implemented into computerized medical claims processing systems. The base set of rules and edits shall be identified through existing national industry sources that are represented by the following:

(I) The NCCI;

(II) CMS directives, manuals, and transmittals;

(III) The medicare physician fee schedule;

(IV) The CMS national clinical laboratory fee schedule;

(V) The HCPCS coding system and directives;

(VI) The CPT coding guidelines and conventions; and

(VII) National medical specialty society coding guidelines.

(c) (I) As the base set of rules and edits developed pursuant to paragraph (b) of this subsection (2) may not address every type of health care service involved in a medical claim, the task force shall work to develop a complete set of uniform, standardized payment rules and claim edits to cover all types of professional services. In working to develop a complete set of rules and edits, the task force shall request to participate in the national initiative or work with national experts to identify any rules and edits that are not encompassed by the national industry sources identified in paragraph (b) of this subsection (2) or that potentially conflict with each other. Additionally, the task force shall consider the CMS medically unlikely edits and commercial claims editing systems that source their edits to national industry sources on a code and code edit pair level in order to create a complete set of payment rules and claim edits.

(II) In developing a complete set of uniform, standardized payment rules and claim edits, the task force shall consider standardizing the following types of edits, without limitation:

(A) Unbundle;

(B) Mutually exclusive;

(C) Multiple procedure reduction;

(D) Age;

(E) Gender;

(F) Maximum frequency per day;

- (G) Global surgery days;
- (H) Place of service;
- (I) Type of service;
- (J) Assistant at surgery;
- (K) Co-surgeon;
- (L) Team surgeons;
- (M) Total, professional, or technical splits;
- (N) Bilateral procedures;
- (O) Anesthesia services; and
- (P) The effect of CPT and HCPCS modifiers on these edits as applicable.

(d) (I) The task force shall submit a report and recommendations concerning the set of uniform, standardized payment rules and claim edits to the executive director of the department of health care policy and financing and the health and human services committees of the senate and house of representatives, or their successor committees, by November 30, 2012, and shall present its report and recommendations to a joint meeting of the said health and human services committees by January 31, 2013.

(II) If, at the time the task force submits its report, the national initiative has reached consensus on a complete or partial set of standardized payment rules and claim edits that the task force determines to be in the best interests of Colorado, the task force shall recommend that standardized set of payment rules and claim edits for use by all payers doing business in Colorado, which shall be implemented by payers as follows:

(A) Payers that are commercial health plans shall implement the standardized set of payment rules and claim edits within their claims processing systems according to a schedule outlined under the national initiative or by January 1, 2014, whichever occurs first; and

(B) Payers that are domestic, nonprofit health plans shall implement the standardized set of payment rules and claim edits within their claims processing systems by January 1, 2015.

(III) If, at the time the task force submits its report, the national initiative work group has not reached consensus on a complete or partial set of standardized payment rules and claim edits:

(A) The base set of standardized payment rules and claim edits developed pursuant to paragraph (b) of this subsection (2) shall become the standards used in Colorado by payers and health care providers; and

(B) The task force shall continue working to develop a complete set of uniform, standardized payment rules and claim edits and, by December 31, 2013, shall submit a report and may recommend implementation of a set of uniform, standardized payment rules and claim edits to be used by payers and health care providers.

(IV) As part of its recommendations pursuant to this paragraph (d), the task force shall make recommendations concerning the implementation, updating, and dissemination of the standardized set of payment rules and claim edits, including identifying who is responsible for establishing a central repository for accessing the rules and edits set and enabling electronic access, including downloading capability, to the rules and edits set.

(V) The standardized payment rules and claim edits developed pursuant to subparagraph (III) of this paragraph (d) shall be implemented by payers as follows:

(A) Payers that are commercial health plans shall implement the standardized set of payment rules and claim edits within their claims processing systems according to a schedule outlined in the task force recommendations or by January 1, 2015, whichever occurs first; and

(B) Payers that are domestic, nonprofit health plans shall implement the standardized set of payment rules and claim edits within their claims processing systems by January 1, 2016.

(3) Once the standardized set of payment rules and claim edits is established and implemented, no other proprietary or other claims edits, other than those edits described in paragraph (c) of subsection (4) of this section, shall be applied to modify the payment of charges for covered services; except that, if national standards are later identified for

standardized payment rules and claim edits, Colorado payers shall comply with the national standards according to the implementation schedule required by federal law.

(4) Nothing in this section shall be construed to:

(a) Interfere with or modify the actual contracted rate that is reimbursed by a contracting person or entity to a health care provider for any procedure or grouping of procedures;

(b) Limit contractual arrangements or terms negotiated between the contracting person or entity and the health care provider; or

(c) Limit the ability of the contracting person or entity to apply proprietary or other claims edits used to determine whether or not a covered service is reasonable and necessary for the patient's condition or treatment. The edits permissible pursuant to this paragraph (c) are those used in utilization review or monitoring for suspected cases of abuse or fraud, and the edits may limit coverage based on the diagnosis or frequency reported on the claim. Information pertaining to these edits shall be disclosed within fourteen days after the request of the health care provider in accordance with section 25-37-103 (1) (d).

(5) Nothing in this section requires the department of health care policy and financing to provide administrative or research support or assistance to the task force in carrying out its duties under this section.

(6) (a) The executive director of the department of health care policy and financing shall designate a nonprofit or private organization as the custodian of funds for the task force. The designated organization is authorized to accept and expend funds as necessary for the operation of the task force and may solicit and accept monetary and in-kind gifts, grants, and donations for use in furtherance of the task force's duties and responsibilities. Any moneys donated or awarded to the designated organization for the benefit of the task force are not subject to appropriation by the general assembly, and any such moneys that are unexpended or unencumbered at the time the task force is dissolved or this section repeals pursuant to subsection (7) of this section shall be returned to the donors or grantors on a pro rata basis, as determined by the designated organization.

(b) The designated organization, on behalf of the task force, may accept in-kind staff support from nonprofit agencies or private groups or may contract with nonprofit agencies or private groups for the purpose of providing staff support to assist the task force in conducting its duties and responsibilities under this section. Any staff support provided by a nonprofit agency or private group, whether donated or engaged through a contract, shall not be considered employees of the task force or the designated organization.

(c) The designated organization shall prepare an operating budget for the task force. Prior to expending any moneys it receives, the designated organization, on behalf of the task force, shall transmit a copy of the budget to the executive director of the department of health care policy and financing and shall certify to the executive director that the designated organization has received or has available adequate funding to cover the expenses of the task force as identified in the budget.

(7) This section is repealed, effective June 30, 2012, unless the executive director of the department of health care policy and financing notifies the revisor of statutes, in writing, that the organization designated pursuant to subsection (6) of this section has certified that, as of June 30, 2012, it has received or has available sufficient moneys to implement this section.

Source: L. 2010: Entire article amended with relocations, (HB 10-1332), ch. 300, p. 1418, § 1, effective May 26.

Editor's note: On June 27, 2012, the revisor of statutes received the notice referred to in subsection (7) from the executive director of the department of health care policy and financing that the designated organization has available sufficient moneys to implement this section.

25-37-107. Claim adjudication information - balance owing. Upon completion of processing of a claim, the person or entity shall provide information to the health care provider stating how the claim was adjudicated and the responsibility for any outstanding balance of any party other than the person or entity.

Source: L. 2010: Entire article amended with relocations, (HB 10-1332), ch. 300, p. 1423, § 1, effective May 26.

Editor's note: This section is similar to former § 25-37-101 (5) as it existed prior to 2010.

25-37-108. Assignment of rights - requirements. (1) A person or entity shall not assign, allow access to, sell, rent, or give the person's or entity's rights to the health care provider's services pursuant to the person's or entity's contract unless the person or entity complies with the requirements of this section.

(2) A person or entity may assign, allow access to, sell, rent, or give his, her, or its rights to the health care provider's services pursuant to the person's or entity's contract if one of the following situations exists:

(a) The third party accessing the health care provider's services under the contract is an employer or other entity providing coverage for health care services to its employees or members and such employer or entity has, with the person or entity contracting with the health care provider, a contract for the administration or processing of claims for payment or service provided pursuant to the contract with the health care provider;

(b) The third party accessing the health care provider's services under the contract is an affiliate of, subsidiary of, or is under common ownership or control with the person or entity; or, is providing or receiving administrative services from the person or entity or an affiliate of, or subsidiary of, or is under common ownership or control with the person or entity; or

(c) The health care contract specifically provides that it applies to network rental arrangements and states that it is for the purpose of assigning, allowing access to, selling, renting, or giving the person's or entity's rights to the health care provider's services.

(3) In addition to satisfying the requirements of subsection (2) of this section, a person or entity may assign, allow access to, sell, rent, or give his, her, or its rights under the contract to the services of the health care provider only if:

(a) The individuals receiving services under the health care provider's contract are provided with appropriate identification stating where claims should be sent and where inquiries should be directed; and

(b) The third party accessing the health care provider's services through the health care provider's contract is obligated to comply with all applicable terms and conditions of the contract; except that a self-funded plan receiving administrative services from the person or entity or its affiliates shall be solely responsible for payment to the provider.

Source: L. 2010: Entire article amended with relocations, (HB 10-1332), ch. 300, p. 1423, § 1, effective May 26.

Editor's note: This section is similar to former § 25-37-101 (10) as it existed prior to 2010.

25-37-109. Waiver of rights prohibited. Except as permitted by this article, a person or entity shall not require, as a condition of contracting, that a health care provider waive or forego any right or benefit to which the health care provider may be entitled under state or federal law, rule, or regulation that provides legal protections to a person solely based on the person's status as a health care provider providing services in this state.

Source: L. 2010: Entire article amended with relocations, (HB 10-1332), ch. 300, p. 1424, § 1, effective May 26.

Editor's note: This section is similar to former § 25-37-101 (11) as it existed prior to 2010.

25-37-110. Provider declining service to new patients - notice - definition. (1) Upon sixty days' notice, a health care provider may decline to provide service pursuant to a contract to new patients covered by the person or entity. The notice shall state the reason or reasons for this action.

(2) As used in this section, “new patients” means those patients who have not received services from the health care provider in the immediately preceding three years. A patient shall not become a “new patient” solely by changing coverage from one person or entity to another person or entity.

Source: L. 2010: Entire article amended with relocations, (HB 10-1332), ch. 300, p. 1424, § 1, effective May 26.

Editor’s note: This section is similar to former § 25-37-101 (12) as it existed prior to 2010.

25-37-111. Termination of contract - effect on payment terms - right to terminate - termination of pharmacy contracts. (1) A term for compensation or payment shall not survive the termination of a contract, except for a continuation of coverage required by law or with the agreement of the health care provider.

(2) In addition to the right to terminate a contract in accordance with section 25-37-104 (2) based on a material change to the contract, a contract with a duration of less than two years shall provide to each party a right to terminate the contract without cause, which termination shall occur with at least ninety days’ written notice. For contracts with a duration of two or more years, termination without cause may be as specified in the contract.

(3) A contract between a pharmacist or a pharmacy and a pharmacy benefit manager, such as a pharmacy benefit management firm as defined in section 10-16-102, C.R.S., shall be terminated if the federal drug enforcement agency or other federal law enforcement agency ceases the operations of the pharmacist or pharmacy due to alleged or actual criminal activity.

Source: L. 2010: Entire article amended with relocations, (HB 10-1332), ch. 300, p. 1424, § 1, effective May 26.

Editor’s note: This section is similar to former § 25-37-101 (13), (15), and (17) as they existed prior to 2010.

25-37-112. Disclosure to third parties - confidentiality. A contract shall not preclude its use or disclosure to a third party for the purpose of enforcing the provisions of this article or enforcing other state or federal law. The third party shall be bound by the confidentiality requirements set forth in the contract or otherwise.

Source: L. 2010: Entire article amended with relocations, (HB 10-1332), ch. 300, p. 1425, § 1, effective May 26.

Editor’s note: This section is similar to former § 25-37-101 (14) as it existed prior to 2010.

25-37-113. Article inapplicable - when. (1) This article shall not apply to:

(a) An exclusive contract with a single medical group in a specific geographic area to provide or arrange for health care services; however, this article shall apply to contracts for health care services between the medical group and other medical groups;

(b) A contract or agreement for the employment of a health care provider or a contract or agreement between health care providers;

(c) A contract or arrangement entered into by a hospital or health care facility that is licensed or certified pursuant to section 25-3-101;

(d) A contract between a health care provider and the state or federal government or their agencies for health care services provided through a program for workers’ compensation, medicaid, medicare, the children’s basic health plan provided for in article 8 of title 25.5, C.R.S., or the Colorado indigent care program created in part 1 of article 3 of title 25.5, C.R.S.;

(e) Contracts for pharmacy benefit management, such as with a pharmacy benefit management firm as defined in section 10-16-102, C.R.S.; except that this exclusion shall not apply to a contract for health care services between a person or entity and a pharmacy, pharmacist, or professional corporation or corporate entity consisting of pharmacies or pharmacists as permitted by the laws of this state; or

(f) A contract or arrangement entered into by a hospital or health care facility that is licensed or certified pursuant to section 25-3-101, or any outpatient service provider that has entered into a joint venture with the hospital or is owned by the hospital or health care facility.

Editor’s note: This section is similar to former § 25-37-101 (16) and (18) as they existed prior to 2010.

25-37-114. Enforcement. (1) With respect to the enforcement of this article, including arbitration, there shall be available:

- (a) Private rights of action at law and in equity;
 - (b) Equitable relief, including injunctive relief;
 - (c) Reasonable attorney fees when the health care provider is the prevailing party in an action to enforce this article, except to the extent that the violation of this article consisted of a mere failure to make payment pursuant to a contract;
 - (d) The option to introduce as persuasive authority prior arbitration awards regarding a violation of this article.
- (2) Arbitration awards related to the enforcement of this article may be disclosed to those who have a bona fide interest in the arbitration.

ARTICLE 38

Physician Designation and Disclosure

25-38-101.	Short title.	25-38-103.	Definitions.
25-38-102.	Legislative declaration.	25-38-104.	Minimum requirements for

	designations - disclaimer required.	25-38-106.	Notice of use or change of designation required - appeal process.
25-38-105.	Disclosure required upon request - information not proprietary.	25-38-107.	Enforcement.
		25-38-108.	Severability.

25-38-101. Short title. This article shall be known and may be cited as the “Physician Designation Disclosure Act”.

Source: L. 2008: Entire article added, p. 2012, § 1, effective September 1.

25-38-102. Legislative declaration. (1) The general assembly hereby finds, determines, and declares that:

(a) Health care entities have instituted or are instituting quantitative and qualitative designations of physicians;

(b) Physician designations are disclosed and represented to consumers and others as part of marketing, sales, and other efforts, and such designations may be used by consumers in selecting the physicians from whom they receive care;

(c) Designations are based on claims data, practice criteria or guidelines, and other criteria, not all of which are made known to consumers or to the physicians designated;

(d) Health care entities differ in the extent to which they provide access to some or all of the data, criteria, and methodologies;

(e) Regulatory agencies in other states have taken action against health care entities to require disclosure of designation information and to set certain criteria by which designations may be used;

(f) For the protection of consumers and physicians and to avoid improper profiling of physicians, health care entities must ensure that they are using designations that are fair and accurate and must accord physicians the right to challenge and correct erroneous designations, data, and methodologies;

(g) Full disclosure of the data and methodologies by which physicians are designated will encourage, to the fullest extent possible, the accuracy, fairness, and usefulness of such designations. Disclosures will help keep patients from being exposed to inaccurate, misleading, and incorrect information about the nature and quality of the care of physicians. The disclosure required by this article will encourage the use of guidelines and criteria from well-recognized professional societies and groups using evidence-based and consensus practice recommendations. Disclosure will allow health care consumers and physicians an opportunity to better understand the criteria, basis, and methods by which physicians are evaluated, and disclosure will foster competition among health care entities to improve the way in which designations are used. Accordingly, the general assembly finds that requiring full disclosure of designation data and methodologies and setting certain minimum standards for making such designations will help improve the quality and efficiency of health care delivered in Colorado.

(h) The general assembly intends this article to serve as the initial stage of a multipart process to increase transparency of information about health care quality and costs in Colorado. Future actions may include, but are not limited to, creation of a multistakeholder work group, comprised of health care entities, health plans, businesses, consumer groups, and others as identified, to develop a system for aggregating cost and quality information across health care entities and consumers. The ultimate goal is to develop standardized quality reporting arrangements, consistent with national standards and subject to evaluation by an independent entity, that are accessible and meaningful to consumers and other stakeholders.

Source: L. 2008: Entire article added, p. 2012, § 1, effective September 1.

25-38-103. Definitions. As used in this article, unless the context otherwise requires:

(1) “Carrier” shall have the same meaning as set forth in section 10-16-102, C.R.S.

(2) “Commissioner” means the commissioner of insurance.

(3) “Consumer” includes members of the public, health care consumers and potential health care consumers, purchasers of health insurance plans, or patients.

(4) “Designation” means an award, assignment, characterization, or representation of the cost efficiency, quality, or other assessment or measurement of the care or clinical performance of any physician that is disclosed or intended for disclosure to the public or persons actually or potentially covered by a health plan, by use of a grade, star, tier, rating, profile, or any other form of designation. “Designation” does not include:

(a) Information that is derived solely from health plan member feedback such as satisfaction ratings; or

(b) Information for programs designed to assist health plan members with estimating a physician’s routine fees or costs.

(5) “Health care entity” means any carrier or other entity that provides a plan of health care coverage to beneficiaries under a plan.

(6) “Methodology” means the method by which a designation is determined, including, but not limited to, the use of algorithms or studies, evaluation of data, application of guidelines, or performance measures.

(7) “Physician” means any physician licensed under the “Colorado Medical Practice Act”, article 36 of title 12, C.R.S.

Source: L. 2008: Entire article added, p. 2013, § 1, effective September 1.

25-38-104. Minimum requirements for designations - disclaimer required.

(1) Any designation of a physician shall include, at a minimum, the following:

(a) A quality of care component that may be satisfied by incorporating a practice guideline or performance measure pursuant to paragraph (f) of this subsection (1), and a clear representation of the weight given to quality of care in comparison with other designation factors;

(b) Statistical analyses that are accurate, valid, and reliable and, where reasonably possible, that appropriately adjust for patient population, case mix, severity of patient condition, comorbidity, outlier events, or other known statistical anomalies;

(c) A period of assessment of data, pertinent to the designation, that shall be updated by the health care entity at appropriate intervals;

(d) If claims data are used in the designation process, accurate claims data appropriately attributed to the physician. When reasonably available, the health care entity shall use aggregated data to supplement its own claims data.

(e) The physician’s responsibility for health care decisions and the financial consequences of those decisions, which shall be fairly and accurately attributed to the physician;

(f) If practice guidelines or performance measures are used in the designation process:

(I) Practice guidelines or performance measures that are promulgated or endorsed by nationally recognized health care organizations that establish or promote guidelines and performance measures emphasizing quality of health care, such as the national quality forum or the AQA alliance, or their successors, or other such national physician specialty organizations, or the Colorado clinical guidelines collaborative or its successor;

(II) Practice guidelines or performance measures that are:

(A) Evidence-based, whenever possible;

(B) Consensus-based, whenever possible; and

(C) Pertinent to the area of practice, location, and characteristics of the patient population of the physician being designated.

(2) (a) Any disclosure of a designation to a physician or consumer shall be accompanied by a conspicuous disclaimer written in bold-faced type. The disclaimer shall state that designations are intended only as a guide to choosing a physician, that designations should not be the sole factor in selecting a physician, that designations have a risk of error, and that consumers should discuss designations with a physician before choosing him or her.

(b) Failure to include the disclaimer makes the use of the designation a violation of this article.

Source: L. 2008: Entire article added, p. 2014, § 1, effective September 1.

25-38-105. Disclosure required upon request - information not proprietary.

(1) Upon request by or on behalf of the designated physician or the commissioner, a health care entity shall disclose to the requesting person a description of the methodology upon which the health care entity's designation is based and all data upon which the designation was based within forty-five days of receiving the request. The description shall be sufficiently detailed to allow the designated physician or commissioner to determine the effect of the methodology on the data being reviewed. The disclosure of the data shall be made in a manner that is reasonably understandable and allows the physician or commissioner to verify the data against his or her records. Where law or the health care entity's contractual obligations with a bona fide third party prevents disclosure of any of the data required to be disclosed by this section, the health care entity shall nonetheless provide sufficient information to allow the physician to determine how the withheld data affected the physician's designation.

(2) After the disclosure of the description of the methodology provided for in subsection (1) of this section and upon further request by or on behalf of the designated physician or the commissioner, the health care entity shall provide the complete methodology within thirty days of such further request.

(3) The "Uniform Trade Secrets Act", article 74 of title 7, C.R.S., shall not be used by a health care entity to prevent it from complying with this section.

Source: L. 2008: Entire article added, p. 2015, § 1, effective September 1.

25-38-106. Notice of use or change of designation required - appeal process.

(1) At least forty-five days before using, changing, or declining to award a designation in an existing program of designation, a health care entity shall provide the physician with written notice of such designation decision. The written notice shall describe the procedures by which the physician may:

(a) Obtain the information pursuant to section 25-38-105, including all of the data upon which the designation was based or declined; and

(b) Request an appeal of the designation decision, including the opportunity for a face-to-face meeting pursuant to subparagraph (IV) of paragraph (a) of subsection (2) of this section.

(2) (a) Any health care entity providing designations of physicians shall establish procedures for the designated physician to appeal the designation, including a change in designation or a declination to award a designation in an existing program of designation. Such procedures, in addition to the written notice provided for in subsection (1) of this section, shall provide for the following:

(I) A reasonable method by which the designated physician shall provide notice of his or her desire to appeal;

(II) If requested by the designated physician, disclosure of the methodology and data upon which the health care entity's decision is based;

(III) The name, title, qualifications, and relationship to the health care entity of the person or persons responsible for the appeal of the designated physician;

(IV) An opportunity to submit or have considered corrected data relevant to the designation decision and to have considered the applicability of the methodology used in the designation decision. If requested by the designated physician, such opportunity may be afforded by the health care entity in a face-to-face meeting with those responsible for the appeal decision at a location reasonably convenient to the physician or by teleconference. All data submitted to the entity by a designated physician shall be presumed valid and accurate. However, this presumption shall not be construed to permit a health care entity to unreasonably withhold consideration of corrected or supplemented data pursuant to this subparagraph (IV).

(V) The right of the physician to be assisted by a representative;

(VI) An opportunity, if so desired, to be considered as part of the appeal, an explanation of the designation decision which is the subject of the appeal by a person or persons deemed by the health care entity as responsible for the designation decision;

(VII) A written decision regarding the physician’s appeal that states the reasons for upholding, modifying, or rejecting the physician’s appeal.

(b) The appeal shall be made to a person or persons with the authority granted by the designating health care entity to uphold, modify, or reject the designation decision or to require additional action to ensure that the designation is fair, reasonable, and accurate.

(c) The appeal process shall be complete within forty-five days from the date upon which the data and methodology are disclosed unless otherwise agreed to by the parties to the appeal.

(3) No change or modification of a designation that is the subject of an appeal shall be implemented or used by the health care entity until the appeal is final.

(4) With respect to any designation previously disclosed publicly, the health care entity shall update any changes to such designation within thirty days after the appeal is final.

25-38-107. Enforcement. (1) No health care entity shall limit, by contract or other means, the right of a physician to enforce this article.

(2) This article may be enforced in a civil action, and any remedies at law and in equity shall be available.

(3) A violation of this article by a health care entity shall constitute an unfair or deceptive act or practice under part 11 of article 3 of title 10, C.R.S.

Source: L. 2008: Entire article added, p. 2017, § 1, effective September 1.

25-38-108. Severability. If any provision of this article or its application to any person or circumstance is held invalid, the invalidity does not affect other provisions or applications of this article that can be given effect without the invalid provision or application, and to this end the provisions of this article are severable.

Source: L. 2008: Entire article added, p. 2017, § 1, effective September 1.

Colorado Alzheimer’s Coordinating Council

25-39-101 to 25-39-108. (Repealed)

Editor’s note: (1) This article was added in 2008 and was not amended prior to its repeal in 2012. For the text of this article prior to 2012, consult the 2011 Colorado Revised Statutes and the Colorado statutory research explanatory note beginning on page vii in the front of this volume.

(2) Section 25-39-108 provided for the repeal of this article, effective July 1, 2012. (See L. 2008, p. 881.)

ARTICLE 40

Umbilical Cord Blood Collection and Awareness

25-40-101.	Short title.	25-40-104.	Standards for cord blood collection and donation - administrative costs.
25-40-102.	Legislative declaration.		
25-40-103.	Adult stem cells cure fund - creation.		

25-40-101. Short title. This article shall be known and may be cited as the “Colorado Cures Act”.

Source: L. 2008: Entire article added, p. 2070, § 1, effective June 3.

25-40-102. Legislative declaration. (1) The general assembly hereby finds and determines that:

(a) The national marrow donor program reports that researchers are studying umbilical cord blood, also known as cord blood, as a source of adult blood stem cells that can be used to treat leukemia, lymphoma, and other life-threatening diseases;

(b) For many patients with a life-threatening disease, a cord blood transplant may be the best and only hope for a cure;

(c) Cord blood is desirable for use in stem cell transplants because it has a large number of adult blood stem cells;

(d) Blood from each donated umbilical cord is frozen and made available for transplant, and if it cannot be used for transplant, the cord blood stem cells may be used for research;

(e) Cord blood donations are urgently needed to keep up with the demand for transplants and research; and

(f) Many women in good health may be eligible to voluntarily donate their children’s cord blood but are unaware of its unique value or of the existence of donation programs.

(2) Therefore, it is the intent of the general assembly to create the adult stem cells cure fund for the purpose of advancing umbilical cord blood collection for public blood banks and promoting awareness across the state.

Source: L. 2008: Entire article added, p. 2070, § 1, effective June 3.

25-40-103. Adult stem cells cure fund - creation. (1) There is hereby created in the state treasury the adult stem cells cure fund, referred to in this section as the “fund”. The fund shall consist of gifts, grants, and donations transferred to the fund, which the department of public health and environment is authorized to accept, and any voluntary contributions to the fund pursuant to part 35 of article 22 of title 39, C.R.S.

(2) The department of public health and environment shall transfer any gifts, grants, and donations to the fund to the state treasurer, who shall credit the same to the fund. All interest derived from the deposit and investment of moneys in the fund shall be credited to the fund. All moneys remaining in the fund at the end of any fiscal year shall remain in the fund and shall not be deposited into any other fund. The moneys in the fund shall be annually appropriated by the general assembly to the department for the purposes of this article.

Source: L. 2008: Entire article added, p. 2071, § 1, effective June 3.

25-40-104. Standards for cord blood collection and donation - administrative costs. (1) The department of public health and environment shall set standards for hospitals for the voluntary donation and collection of umbilical cord blood for hospitals that volunteer to participate in umbilical cord donation. The department is encouraged to take part in efforts to increase the number of umbilical cord donations to public blood banks and to promote public awareness of the availability of umbilical cord donation as an option for new mothers.

(2) The department may use up to five percent of the moneys appropriated from the adult stem cells cure fund, created in section 25-40-103, for administrative costs incurred in the implementation of this article. The department may use up to twenty-five percent of the moneys appropriated to the department from the fund for umbilical cord collection awareness. The department shall work with public cord blood banks and shall use the remaining moneys appropriated to the department from the fund for activities in connection with umbilical cord blood collection for public cord blood banks.

ARTICLE 41**Restroom Access Act**

25-41-101. Restroom access - short title -
definitions - retail establish-
ments - liability - penalty.

25-41-101. Restroom access - short title - definitions - retail establishments - liability - penalty. (1) This article shall be known and may be cited as the "Restroom Access Act".

(2) As used in this article, unless the context otherwise requires:

(a) "Customer" means an individual who is lawfully on the premises of a retail establishment.

(b) "Eligible medical condition" means Crohn's disease, ulcerative colitis, any other inflammatory bowel disease, irritable bowel syndrome, or any other medical condition that requires immediate access to a toilet facility.

(c) "Retail establishment" means a place of business open to the general public for the sale of goods or services. "Retail establishment" does not include a filling station or service station that has an enclosed floor area of eight hundred square feet or less and that has an employee toilet facility located within that enclosed floor area.

(3) A retail establishment that has a toilet facility for its employees shall allow a customer to use the toilet facility during normal business hours if the toilet facility is reasonably safe and all of the following conditions are met:

(a) The customer requesting the use of the employee toilet facility suffers from an eligible medical condition or utilizes an ostomy device and offers a physician's note indicating the eligible medical condition or device;

(b) Three or more employees of the retail establishment are working at the time the customer requests use of the employee toilet facility;

(c) The employee toilet facility is not located in an area where providing access would create an obvious health or safety risk to the customer or an obvious security risk to the retail establishment; and

(d) A public restroom is not immediately accessible to the customer.

(4) A retail establishment or an employee of a retail establishment is not civilly liable for any act or omission in allowing a customer that has an eligible medical condition to use an employee toilet facility that is not a public restroom if the act or omission:

(a) Is not willful or grossly negligent;

(b) Occurs in an area of the retail establishment that is not accessible to the public; and

(c) Results in injury to or death of the customer or any individual other than an employee accompanying the customer.

(5) This article shall not be construed to require a retail establishment to make any physical changes to an employee toilet facility.

(6) A retail establishment or an employee of a retail establishment that violates this article is guilty of a petty offense and, upon conviction thereof, shall be punished by a fine of not more than one hundred dollars.

ARTICLE 42**Taxing Authority of Unit of
Government Hospital Care Providers**

25-42-101. Legislative declaration.

25-42-102. Definitions.

25-42-103. Grant of taxing authority.

25-42-104.

Use of revenues derived from
sales tax.

25-42-105.

Preservation of enterprise sta-

	tus of certain providers and activities.		tax elections.
25-42-106.	Call, notice, conduct, and determination of results of	25-42-107.	Authority granted supplemental to other authority.

25-42-101. Legislative declaration. (1) The general assembly hereby finds and declares that:

- (a) State and local governmental hospital care providers form a critical part of the health care delivery system in Colorado; and
- (b) Federal programs require the state to further define a unit of government for certain state and local governmental hospital care providers.

Source: L. 2008: Entire article added, p. 1181, § 1, effective May 22.

25-42-102. Definitions. As used in this article, unless the context otherwise requires:

- (1) “Eligible elector” means an eligible elector as defined in section 32-1-103 (5) (a) (I), C.R.S., of the taxing area of a unit of government hospital provider.
- (2) “Qualified purchaser” means a person domiciled in Colorado who has been issued a direct payment permit number pursuant to section 39-26-103.5, C.R.S.
- (3) “Taxing area” means:
 - (a) In the case of the Denver health and hospital authority, the city and county of Denver;
 - (b) In the case of a county hospital, the county in which the hospital is located;
 - (c) In the case of a hospital within a health service district, the health service district;
 - (d) In the case of the university of Colorado hospital authority, the counties of Adams, Arapahoe, Boulder, Douglas, and Jefferson and the city and county of Broomfield; and
 - (e) In the case of a municipal hospital, the county in which the hospital is located.
- (4) “Unit of government hospital care provider” means:
 - (a) The Denver health and hospital authority created pursuant to section 25-29-103;
 - (b) The board of any county hospital created pursuant to section 25-3-301;
 - (c) A health service district within the meaning of section 32-1-103 (9), C.R.S.;
 - (d) The university of Colorado hospital authority created pursuant to part 5 of article 21 of title 23, C.R.S.; or
 - (e) A municipally owned hospital created pursuant to section 31-15-711 (1) (e), C.R.S.

Source: L. 2008: Entire article added, p. 1181, § 1, effective May 22.

25-42-103. Grant of taxing authority. (1) Each unit of government hospital care provider, upon the affirmative action of its governing body, shall have the authority to levy and collect a sales tax as follows:

- (a) Upon the approval of the eligible electors of the unit of government hospital care provider’s taxing area at an election held in accordance with section 20 of article X of the state constitution and this article, the unit of government hospital care provider may levy a uniform sales tax throughout its entire taxing area upon every transaction or other incident with respect to which a sales tax is levied by the state pursuant to the provisions of article 26 of title 39, C.R.S.
- (b) A sales tax imposed pursuant to paragraph (a) of this subsection (1) shall not be levied on:
 - (I) The sale of tangible personal property delivered by a retailer or a retailer’s agent or to a common carrier for delivery to a destination outside the taxing area; or
 - (II) The sale of tangible personal property on which a specific ownership tax has been paid or is payable when such sale meets the following conditions:
 - (A) The purchaser does not reside in the taxing area or the purchaser’s principal place of business is outside the taxing area; and
 - (B) The personal property is registered or required to be registered outside the taxing area under the laws of this state.

(c) The sales tax imposed pursuant to paragraph (a) of this subsection (1) shall be in addition to any other sales or use tax imposed pursuant to law.

(2) (a) The collection, administration, and enforcement of a sales tax imposed pursuant to subsection (1) of this section shall be performed by the executive director of the department of revenue in the same manner as that for the collection, administration, and enforcement of the state sales tax imposed pursuant to article 26 of title 39, C.R.S., including, without limitation, the retention by a vendor of the percentage of the amount remitted to cover the vendor's expense in the collection and remittance of the sales tax as provided in section 39-26-105, C.R.S. The executive director of the department of revenue shall make monthly distributions of sales tax collections to the unit of government hospital care provider. The unit of government hospital care provider shall pay the net incremental cost incurred by the department of revenue in the administration and collection of the sales tax.

(b) (I) A qualified purchaser may provide a direct payment permit number issued pursuant to section 39-26-103.5, C.R.S., to a vendor or retailer that is liable and responsible for collecting and remitting any sales tax levied on a sale made to the qualified purchaser pursuant to the provisions of this article. A vendor or retailer that has received a direct payment permit number in good faith from a qualified purchaser shall not be liable or responsible for collection and remittance of any sales tax imposed on the sale that is paid for directly from the qualified purchasers' funds and not the personal funds of any individual.

(II) A qualified purchaser that provides a direct payment permit number to a vendor or retailer shall be liable and responsible for the amount of sales tax levied on a sale made to the qualified purchaser pursuant to the provisions of this article in the same manner as liability would be imposed on a qualified purchaser for state sales tax pursuant to section 39-26-105 (3), C.R.S.

(3) A sales tax shall not be levied by a unit of government hospital care provider without first complying with this section and section 25-42-106.

Source: L. 2008: Entire article added, p. 1182, § 1, effective May 22. L. 2009: (1)(c) amended, (SB 09-292), ch. 369, p. 1973, § 94, effective August 5.

25-42-104. Use of revenues derived from sales tax. The revenues derived by a unit of government hospital care provider from the levy and collection of the sales tax authorized by this article shall be in addition to and shall not be used to replace any state funding that the unit of government hospital care provider or any other state or local government entity would otherwise be entitled to receive from the state. The unit of government hospital care provider may use said revenues for any purpose permitted by law or by the terms of its organizational documents.

Source: L. 2008: Entire article added, p. 1184, § 1, effective May 22.

25-42-105. Preservation of enterprise status of certain providers and activities. The authority granted in this article shall be subject to affirmative action of the governing body of a unit of government hospital care provider to avail itself of this authority and shall be contingent upon electoral approval at an election held pursuant to sections 25-42-103 (1) (a) and 25-42-106. The enactment of this article shall not affect the treatment of any existing or future activity of a unit of government hospital care provider as an enterprise for purposes of section 20 of article X of the state constitution.

Source: L. 2008: Entire article added, p. 1184, § 1, effective May 22.

25-42-106. Call, notice, conduct, and determination of results of tax elections. An election held pursuant to this article may be conducted under the provisions of either the "Uniform Election Code of 1992", articles 1 to 13 of title 1, C.R.S., or the "Colorado Municipal Election Code of 1965", article 10 of title 31, C.R.S.

Source: L. 2008: Entire article added, p. 1184, § 1, effective May 22.

25-42-107. Authority granted supplemental to other authority. The authority granted by this article shall be in addition and supplemental to, and not in lieu of, the authority granted by other laws.

Source: L. 2008: Entire article added, p. 1184, § 1, effective May 22.

ARTICLE 43

Required Head Trauma Guidelines

25-43-101.	Short title.	25-43-103.	Organized school athletic activities - concussion guidelines required.
25-43-102.	Definitions.		

25-43-101. Short title. This article shall be known and may be cited as the “Jake Snakenberg Youth Concussion Act”.

Source: L. 2011: Entire article added, (SB 11-040), ch. 67, p. 176, § 1, effective January 1, 2012.

25-43-102. Definitions. As used in this article, unless the context otherwise requires:

(1) “Health care provider” means a doctor of medicine, doctor of osteopathic medicine, licensed nurse practitioner, licensed physician assistant, or licensed doctor of psychology with training in neuropsychology or concussion evaluation and management.

(2) “Public recreation facility” means a recreation facility owned or leased by the state of Colorado or a political subdivision thereof.

(3) “Youth athletic activity” means an organized athletic activity where the majority of the participants are eleven years of age or older and under nineteen years of age, and are engaging in an organized athletic game or competition against another team, club, or entity or in practice or preparation for an organized game or competition against another team, club, or entity. A “youth athletic activity” does not include college or university activities. “Youth athletic activity” does not include an activity that is entered into for instructional purposes only, an athletic activity that is incidental to a nonathletic program, or a lesson.

Source: L. 2011: Entire article added, (SB 11-040), ch. 67, p. 176, § 1, effective January 1, 2012.

25-43-103. Organized school athletic activities - concussion guidelines required.

(1) (a) Each public and private middle school, junior high school, and high school shall require each coach of a youth athletic activity that involves interscholastic play to complete an annual concussion recognition education course.

(b) Each private club or public recreation facility and each athletic league that sponsors youth athletic activities shall require each volunteer coach for a youth athletic activity and each coach with whom the club, facility, or league directly contracts, formally engages, or employs who coaches a youth athletic activity to complete an annual concussion recognition education course.

(2) (a) The concussion recognition education course required by subsection (1) of this section shall include the following:

- (I) Information on how to recognize the signs and symptoms of a concussion;
 - (II) The necessity of obtaining proper medical attention for a person suspected of having a concussion; and
 - (III) Information on the nature and risk of concussions, including the danger of continuing to play after sustaining a concussion and the proper method of allowing a youth athlete who has sustained a concussion to return to athletic activity.
- (b) An organization or association of which a school or school district is a member may designate specific education courses as sufficient to meet the requirements of subsection (1) of this section.

(3) If a coach who is required to complete concussion recognition education pursuant to subsection (1) of this section suspects that a youth athlete has sustained a concussion following an observed or suspected blow to the head or body in a game, competition, or practice, the coach shall immediately remove the athlete from the game, competition, or practice.

(4) (a) If a youth athlete is removed from play pursuant to subsection (3) of this section and the signs and symptoms cannot be readily explained by a condition other than concussion, the school coach or private or public recreational facility's designated personnel shall notify the athlete's parent or legal guardian and shall not permit the youth athlete to return to play or participate in any supervised team activities involving physical exertion, including games, competitions, or practices, until he or she is evaluated by a health care provider and receives written clearance to return to play from the health care provider. The health care provider evaluating a youth athlete suspected of having a concussion or brain injury may be a volunteer.

(b) Notwithstanding the provisions of paragraph (a) of this subsection (4), a doctor of chiropractic with training and specialization in concussion evaluation and management may evaluate and provide clearance to return to play for an athlete who is part of the United States olympic training program.

(c) After a concussed athlete has been evaluated and received clearance to return to play from a health care provider, an organization or association of which a school or school district is a member, a private or public school, a private club, a public recreation facility, or an athletic league may allow a registered athletic trainer with specific knowledge of the athlete's condition to manage the athlete's graduated return to play.

(5) Nothing in this article abrogates or limits the protections applicable to public entities and public employees pursuant to the "Colorado Governmental Immunity Act", article 10 of title 24, C.R.S.; volunteers and board members pursuant to sections 13-21-115.7 and 13-21-116, C.R.S.; or ski area operators pursuant to sections 33-44-112 and 33-44-113, C.R.S.

THE DEPARTMENT

- 25.5-1-201. Programs to be administered by

PART 1

GENERAL PROVISIONS

25.5-1-101. Short title. This title shall be known and may be cited as the "State Health Care Policy and Financing Act".

Source: L. 93: Entire title added, p. 1097, § 15, effective July 1, 1994. L. 2006: Entire part amended, p. 1781, § 1, effective July 1.

25.5-1-102. Legislative declaration. (1) The general assembly declares that state and local policymakers and health and human services administrators recognize that the

management of and the delivery system for health and human services have become complex, fragmented, and costly and that the health and human services delivery system in this state should be restructured to adequately address the needs of Colorado citizens.

(2) The general assembly further finds and declares that a continuing budget crisis makes it unlikely that funding sources will keep pace with the increasing demands of health and human services.

(3) Therefore, the general assembly finds that it is appropriate to restructure principal departments responsible for overseeing the delivery of health and human services and to reform the state's health and human services administration and delivery system, using guiding principles and within the time frames set forth in article 1.7 of title 24, C.R.S., as said article existed prior to July 1, 1997. It is the general assembly's intent that the departments of public health and environment, health care policy and financing, and human services be operational, effective July 1, 1994.

Source: L. 93: Entire title added, p. 1097, § 15, effective July 1, 1994. **L. 2006:** Entire part amended, p. 1781, § 1, effective July 1.

25.5-1-103. Definitions. As used in this title, unless the context otherwise requires:

(1) "County board" means the county or district board of social services; except that, in the city and county of Denver, "county board" means the department or agency with the responsibility for public assistance and welfare activities, and, in the city and county of Broomfield, "county board" means the city council or a board or commission with the responsibility for public assistance and welfare activities appointed by the city and county of Broomfield.

(2) "County department" means the county or district department of social services.

(3) "County director" means the director of the county or district department of social services.

(4) "Executive director" means the executive director of the department of health care policy and financing.

(5) "Medical assistance" means any program administered by the state department, including but not limited to the "Colorado Medical Assistance Act", as specified in articles 4, 5, and 6 of this title, the "Children's Basic Health Plan Act", article 8 of this title, the old age pension health and medical care program, and the supplemental old age pension health and medical care program; except that "medical assistance" for purposes of articles 4, 5, and 6 of this title shall have the meaning as defined in section 25.5-4-103 (13).

(5.5) "Medical home" means an appropriately qualified medical specialty, developmental, therapeutic, or mental health care practice that verifiably ensures continuous, accessible, and comprehensive access to and coordination of community-based medical care, mental health care, oral health care, and related services for a child. A medical home may also be referred to as a health care home. If a child's medical home is not a primary medical care provider, the child must have a primary medical care provider to ensure that a child's primary medical care needs are appropriately addressed. All medical homes shall ensure, at a minimum, the following:

- (a) Health maintenance and preventive care;
- (b) Anticipatory guidance and health education;
- (c) Acute and chronic illness care;
- (d) Coordination of medications, specialists, and therapies;
- (e) Provider participation in hospital care; and
- (f) Twenty-four-hour telephone care.

(6) "Recipient" means any person who has been determined eligible to receive benefits or services under this title.

(7) "State board" or "board" means the medical services board created pursuant to section 25.5-1-301.

(8) "State department" means the department of health care policy and financing.

(9) "State designated agency" means an agency designated to perform specified functions that would otherwise be performed by the county departments, including the single entry point agencies and medical assistance sites.

Source: **L. 93:** Entire title added, p. 1098, § 15, effective July 1, 1994. **L. 95:** (2.5) added, p. 903, § 2, effective May 25. **L. 96:** (1) repealed, p. 1473, § 25, effective June 1. **L. 2006:** Entire part amended, p. 1782, § 1, effective July 1. **L. 2007:** (5.5) added, p. 1487, § 1, effective May 31.

25.5-1-104. Department of health care policy and financing created - executive director - powers, duties, and functions. (1) There is hereby created the department of health care policy and financing, the head of which shall be the executive director of the department of health care policy and financing, which office is hereby created. The executive director shall be appointed by the governor, with the consent of the senate, and shall serve at the pleasure of the governor. The reappointment of an executive director after an initial election of a governor shall be subject to the provisions of section 24-20-109, C.R.S. The executive director has those powers, duties, and functions prescribed for the heads of principal departments in the "Administrative Organization Act of 1968", article 1 of title 24, C.R.S., and any powers, duties, and functions set forth in this title.

(2) The department of health care policy and financing shall consist of an executive director of the department of health care policy and financing, the medical services board, and such divisions, sections, and other units as shall be established by the executive director pursuant to the provisions of subsection (3) of this section.

(3) The executive director may establish such divisions, sections, and other units within the state department as are necessary for the proper and efficient discharge of the powers, duties, and functions of the state department; except that such action by the executive director shall not conflict with the implementation requirements for the plan for restructuring the delivery of health and human services in this state, as set forth in article 1.7 of title 24, C.R.S.

(4) The department of health care policy and financing shall be responsible for the administration of the functions and programs as set forth in this title.

(5) (a) The executive director of the state department shall appoint an internal auditor who shall have the status of a division director and, as such, shall have the authority to appoint such personnel as may be necessary to carry out the duties of the internal auditor.

(b) The internal auditor appointed by the executive director pursuant to paragraph (a) of this subsection (5) shall:

(I) Conduct and supervise internal audits of the state department;

(II) Coordinate and facilitate external audits that are performed on the state department by state and federal entities;

(III) Conduct and supervise performance audits for the purpose of determining the efficiency and effectiveness of the state department's operation and administration of programs; and

(IV) Conduct such other audits and perform such other duties as may be specified by the executive director.

Cross references: For the legislative declaration stating the purpose of and the provision directing legislative staff agencies to conduct a post-enactment review pursuant to § 2-2-1201 scheduled in 2015, see sections 1 and 17 of chapter 296, Session Laws of Colorado 2010. To obtain a copy of the review, once completed, view Colorado Legislative Council's web site.

25.5-1-105. Transfer of functions. (1) The state department shall, on and after July 1, 1994, execute, administer, perform, and enforce the rights, powers, duties, functions, and obligations vested prior to July 1, 1994, in the Colorado health data commission within the department of local affairs, the department of social services concerning the "Colorado Medical Assistance Act", and the university of Colorado health sciences center concerning health care for the medically indigent.

(2) All rules, regulations, and orders of the department of local affairs, the state department of social services, the state board of social services, the department of regulatory agencies, and the university of Colorado health sciences center adopted prior to July 1, 1994, in connection with the powers, duties, and functions transferred to the state department shall continue to be effective until revised, amended, repealed, or nullified pursuant to law. On and after July 1, 1994, the state board or the executive director, whichever is appropriate, shall adopt rules necessary for the administration of the state department and the administration of the programs set forth in this title.

(3) No suit, action, or other judicial or administrative proceeding lawfully commenced prior to July 1, 1994, or which could have been commenced prior to such date, by or against the department of local affairs, the state department of social services, the department of regulatory agencies, or the university of Colorado health sciences center, or any officer thereof in such officer's official capacity or in relation to the discharge of the official's duties, shall abate by reason of the transfer of duties and functions from said departments to the state department.

(4) The executive director, or a designee of the executive director, may accept, on behalf of and in the name of the state, gifts, donations, and grants for any purpose connected with the work and programs of the state department. Any property so given shall be held by the state treasurer, but the executive director, or the designee therefor, shall have the power to direct the disposition of any property so given for any purpose consistent with the terms and conditions under which such gift was created.

(5) The revisor of statutes is hereby authorized to change all references in the Colorado Revised Statutes to the department of local affairs, the state department of social services, the department of regulatory agencies, and the university of Colorado health sciences center from said references to the state department, as appropriate and with respect to the powers, duties, and functions transferred to the state department. In connection with such authority, the revisor of statutes is hereby authorized to amend or delete provisions of the Colorado Revised Statutes so as to make the statutes consistent with the powers, duties, and functions transferred pursuant to this section.

(6) On and after July 1, 2003, the powers, duties, and functions relating to the old age pension health and medical care program, as specified in section 25.5-2-101, are transferred by a **type 2** transfer to the department of health care policy and financing.

25.5-1-105.5. Chief medical officer - qualifications. (1) The executive director shall appoint a chief medical officer who shall:

(a) Have a degree of doctor of medicine or doctor of osteopathy and be licensed to practice medicine in the state of Colorado;

(b) Have at least two years of postgraduate experience in primary care; and

(c) Have at least two years of experience in an administrative capacity in a health care organization.

(2) The chief medical officer shall, with the assistance of advisory committees of the state department, provide medical judgment and advice regarding all medical issues involving programs administered by the state department.

(3) The chief medical officer shall receive a salary within the limits of moneys made available to the state department by appropriation of the general assembly or otherwise.

Source: **L. 2007:** Entire section added, p. 1492, § 3, effective July 1. **L. 2010:** (1) amended and (3) added, (SB 10-167), ch. 296, p. 1377, § 3, effective May 26.

(2) For the legislative declaration stating the purpose of and the provision directing legislative staff agencies to conduct a post-enactment review pursuant to § 2-2-1201 scheduled in 2015, see sections 1 and 17 of chapter 296, Session Laws of Colorado 2010. To obtain a copy of the review, once completed, view Colorado Legislative Council's web site.

25.5-1-106. Restructure of health and human services - development of plan - participation of department required. (Deleted by amendment)

Source: L. 93: Entire title added, p. 1101, § 15, effective July 1, 1994. L. 2006: Entire part amended, p. 1785, § 1, effective July 1.

25.5-1-107. Final agency action - administrative law judge - authority of executive director. (1) The executive director may appoint one or more persons to serve as administrative law judges for the state department pursuant to section 24-4-105, C.R.S., and pursuant to part 10 of article 30 of title 24, C.R.S., subject to appropriations made to the department of personnel. Except as provided in subsection (2) of this section, hearings conducted by the administrative law judge shall be considered initial decisions of the state department and shall be reviewed by the executive director or a designee of the executive director. In the event exceptions to the initial decision are filed pursuant to section 24-4-105 (14) (a) (I), C.R.S., such review shall be in accordance with section 24-4-105 (15), C.R.S. In the absence of any exception filed pursuant to section 24-4-105 (14) (a) (I), C.R.S., the executive director shall review the initial decision in accordance with a procedure adopted by the state board. Such procedure shall be consistent with federal mandates concerning the single state agency requirement. Review by the executive director in accordance with section 24-4-105 (15), C.R.S., or the procedure adopted by the state board pursuant to this section shall constitute final agency action. The administrative law judge may conduct hearings on appeals from decisions of county departments of social services brought by recipients of and applicants for medical assistance and welfare which are required by law in order for the state to qualify for federal funds, and the administrative law judge may conduct other hearings for the state department. Notice of any such hearing shall be served at least ten days prior to such hearing.

(2) Hearings initiated by a licensed or certified provider of services shall be conducted by an administrative law judge for the state department and shall be considered final agency action and subject to judicial review in accordance with the provisions of section 24-4-106, C.R.S., for any party, including the state department, which shall be considered a person for such purposes.

ANNOTATION

Under the governing regulations, the department of health care policy and financing lacks authority to base its final agency decision on information that was not presented to

the ALJ. Martelon v. Colo. Dept. of Health Care Policy & Fin., 124 P.3d 914 (Colo. App. 2005) (decided prior to the 2006 amendment).

25.5-1-108. Executive director - rules. (1) The executive director shall have authority to promulgate rules in connection with the policies and procedures governing the administration of the department including, but not limited to, rules concerning the following:

- (a) Matters of internal administration of the department, including organization, staffing, records, reports, systems, and procedures;
- (b) Fiscal and personnel administration for the department;
- (c) Accounting and fiscal reporting policies and procedures for disbursement of federal funds, contingency funds, and distribution of available appropriations;
- (d) Such other rules relating to those functions the executive director is required to carry out pursuant to the provisions of this title.

(2) Nothing in this section shall be construed to affect any specific statutory provision granting rule-making authority in relation to a specific program to the executive director.

25.5-1-109. Department of health care policy and financing cash fund. All moneys collected by the state department as fees or otherwise shall be transmitted to the state treasurer, who shall credit the same to the department of health care policy and financing cash fund, which fund is hereby created in the state treasury. Moneys in the fund shall be subject to annual appropriation by the general assembly for the direct and indirect costs of the state department's duties as provided by law.

25.5-1-109.5. Clinical standards - development - reports. (1) The general assembly finds that:

(a) It is important to collect and analyze objective clinical standards to maximize the scarce dollars available for medical care; and

(b) The development of an ongoing, transparent measurement of health outcomes is essential to ensure quality health care for Coloradans.

(2) (a) The state department, following consultation with external clinical advisors, shall develop clinical standards and methods for collecting, analyzing, and disclosing information regarding clinical performance, including but not limited to immunization rates, medical home standards, clinical care guidelines, care coordination, case management, disease management, and coordination and integration of mental health services. The standards and methods shall be consistent with national guidelines and standards regarding the collection and analysis of health data, where feasible, and shall meet the federal reporting requirements established under Titles XIX and XXI of the federal "Social Security Act", 42 U.S.C. secs. 1396 and 1397.

(b) The state department shall review data collected pursuant to paragraph (a) of this subsection (2) and assess the health outcomes for programs administered by the state department. On or before July 1, 2008, and on or before each July 1 thereafter, based on the review of this data, the state department shall recommend to the health and human services committees of the senate and the house of representatives, or any successor committees, strategies to improve health outcomes.

25.5-1-113.5. Children's access to health care - reports. (1) On or before January 1, 2008, and on or before each January 1 thereafter, the state department shall submit a report to the health and human services committees of the senate and the house of representatives, or any successor committees, on measures of access to and quality of health care for children eligible for programs pursuant to this title, including but not limited to data showing whether:

(a) Providers for children are participating in the programs and are accepting eligible children as patients on a regular basis;

(b) Eligible children are enrolling in programs under this title and are remaining enrolled so that the children have continuity of care;

(c) Eligible children are receiving the early and periodic screening, diagnosis, and treatment services required by federal law, including but not limited to regular preventive care and, when appropriate, timely specialty care, and that providers are accurately reporting the data from these visits; and

(d) Providers are using other appropriate measures of access and quality to improve health outcomes and maximize the expenditure of health care resources.

Cross references: For the legislative declaration contained in the 2007 act enacting this section, see section 1 of chapter 347, Session Laws of Colorado 2007.

25.5-1-114. Grants-in-aid - county supervision. (1) The state department shall consult with and coordinate with the counties before making any changes that affect county operations in the implementation of this section, when possible under state statutes and federal statutes and regulations.

(2) In administering any funds appropriated or made available to the state department for medical assistance administration, the state department has the power to:

(a) Require as a condition for receiving grants-in-aid that each county in this state shall bear the proportion of the total expense of furnishing medical assistance administration as is fixed by law relating to such assistance;

(b) Terminate any grants-in-aid to any county of this state if the laws and regulations providing such grants-in-aid and the minimum standards prescribed by rules of the state department thereunder are not complied with;

(c) Undertake forthwith the administration of any or all medical assistance within any county of this state which has had any or all of its grants-in-aid terminated pursuant to paragraph (b) of this subsection (2); but the county shall continue to meet the requirements of paragraph (a) of this subsection (2);

(d) Recover any moneys owed by a county to the state by reducing the amount of any payments due from the state in connection with the administration of medical assistance;

(e) Take any other action which may be necessary or desirable for carrying out the provisions of this title.

(3) The state department, under the supervision of the executive director, shall provide supervision of county departments for the effective administration of medical assistance as set out in the rules of the executive director and the rules of the state board pursuant to section 25.5-1-301; except that nothing in this subsection (3) shall be construed to allow counties to continue to receive an amount equal to the increased funding in the event the said funding is no longer available from the federal government.

Source: L. 2006: Entire part amended, p. 1787, § 1, effective July 1.

Editor's note: This section was contained in a 2006 act that amended this part, resulting in the addition of this section.

25.5-1-115. Locating violators - recoveries. (1) The executive director of the state department, or district attorneys may request and shall receive from departments, boards, bureaus, or other agencies of the state or any of its political subdivisions, and the same are authorized to provide, such assistance and data as will enable the state department and county departments properly to carry out their powers and duties to locate and prosecute any person who has fraudulently obtained medical assistance under this title. Any records established pursuant to the provisions of this section shall be available only to the state department, the department of human services, the county departments, the attorney general, and the district attorneys, county attorneys, and courts having jurisdiction in fraud or recovery proceedings or actions.

(2) (a) All departments and agencies of the state and local governments shall cooperate in the location and prosecution of any person who has fraudulently obtained medical assistance under this title, and, on request of the county board, the county director, the state department, or the district attorney of any judicial district in this state, shall supply all information on hand relative to the location, employment, income, and property of such persons, notwithstanding any other provision of law making such information confidential, except the laws pertaining to confidentiality of any tax returns filed pursuant to law with the department of revenue. The department of revenue shall furnish at no cost to inquiring departments and agencies such information as may be necessary to effectuate the purposes of this article. The procedures whereby this information will be requested and provided shall be established by rule of the state department. The state department or county departments shall use such information only for the purposes of administering medical assistance under this title, and the district attorney shall use it only for the prosecution of persons who have fraudulently obtained medical assistance under this title, and shall not use the information, or disclose it, for any other purpose.

(b) (I) Whenever the state department, or a district attorney for the state department, or the state department on behalf of a county department, recovers any amount of fraudulently obtained medical assistance funds, the federal government shall be entitled to a share proportionate to the amount of federal funds paid unless a different amount is otherwise provided by federal law, the state shall be entitled to a share proportionate to the amount of state funds paid and such additional amounts of federal funds recovered as provided by federal law, and the county department shall be entitled to a share proportionate to the amount of county funds paid unless a different amount is provided pursuant to federal law or this section.

(II) (A) Whenever a county department, a county board, a district attorney, or a state department on behalf of a county department recovers any amount of fraudulently obtained public assistance funds in the form of assistance payments, it shall be deposited in the county social services fund, and the federal government is entitled to a share proportionate to the amount of federal funds paid, unless a different amount is provided for by federal law, the state is entitled to a share proportionate to one-half the amount of state funds paid, and the county is entitled to a share proportionate to the amount of county funds paid and, in addition, a share proportionate to one-half the amount of state funds paid.

(B) Whenever a county department, a county board, a district attorney, or a state department on behalf of a county department recovers any amount of fraudulently obtained medical assistance, it shall be deposited in the county social services fund, and the federal government is entitled to a share proportionate to the amount of federal funds paid, unless a different amount is provided for by federal law, and the county is entitled to the remaining funds.

(3) Whenever a county department, a county board, a district attorney, or the state department on behalf of the county recovers any amount of medical assistance payments that were obtained through unintentional client error, the federal government shall be entitled to a share proportionate to the amount of federal funds paid, unless a different amount is provided for by federal law, the state shall be entitled to a share proportionate to seventy-five percent of the amount of state funds paid, the county shall be entitled to a share proportionate to the amount of county funds paid, if any, and, in addition, a share proportionate to twenty-five percent of the amount of state funds paid.

(4) Actual costs and expenses incurred by the district attorney's office in carrying out the provisions of subsection (2) of this section shall be billed to counties or a county within the judicial district in the proportions specified in section 20-1-302, C.R.S. Each county shall make an annual accounting to the state department on all amounts recovered.

Source: L. 2006: Entire part amended, p. 1788, § 1, effective July 1. L. 2012: (2)(b)(II) amended, (SB 12-060), ch. 166, p. 578, § 3, effective August 8.

Editor's note: This section was contained in a 2006 act that amended this part, resulting in the addition of this section.

25.5-1-115.5. Medical assistance client fraud - report. (1) On or before January 15, 2013, and on or before January 15 each year thereafter, the state department shall submit a written report to the judiciary committee and the health and environment committee of the house of representatives, or their successor committees, and to the judiciary committee and the health and human services committee of the senate, or their successor committees, relating to fraudulent receipt of medicaid benefits including, at a minimum:

- (a) Investigations of client fraud during the year;
- (b) Termination of client medicaid benefits due to fraud;
- (c) District attorney action, including, at a minimum, criminal complaints requested, cases dismissed, cases acquitted, convictions, and confessions of judgment;
- (d) Recoveries, including fines and penalties, restitution ordered, and restitution collected; and
- (e) Trends in methods used to commit client fraud, excluding law enforcement-sensitive information.

Source: L. 2012: Entire section added, (SB 12-060), ch. 166, p. 577, § 1, effective August 8.

25.5-1-116. Records confidential - authorization to obtain records of assets - release of location information to law enforcement agencies - outstanding felony arrest warrants. (1) The state department may establish reasonable rules to provide safeguards restricting the use or disclosure of information concerning applicants, recipients, and former and potential recipients of medical assistance to purposes directly connected with the administration of such medical assistance and related state department activities and covering the custody, use, and preservation of the records, papers, files, and communications of the state and county departments. Whenever, under provisions of law, names and addresses of applicants for, recipients of, or former and potential recipients of medical assistance are furnished to or held by another agency or department of government, such agency or department shall be required to prevent the publication of lists thereof and their uses for purposes not directly connected with the administration of such medical assistance.

(2) (a) (I) Except as provided in subparagraphs (II) and (III) of this paragraph (a), it is unlawful for any person to solicit, disclose, or make use of or to authorize, knowingly permit, participate in, or acquiesce in the use of any lists or names of or any information concerning persons applying for or receiving public assistance and welfare directly or indirectly derived from the records, papers, files, or communications of the state or county departments or subdivisions or agencies thereof or acquired in the course of the performance of official duties. No financial institution or insurance company that provides the data, whether confidential or not, required by the state department, in accordance with the provisions of this subsection (2), shall be liable for the provision of the data to the state department nor for any use made thereof by the state department.

(II) The information described in subparagraph (I) of this paragraph (a) may be disclosed for purposes directly connected with the administration of medical assistance and in accordance with this paragraph (a) and paragraphs (b) and (c) of this subsection (2) and with the rules of the state department.

(III) (A) Notwithstanding any provision of state law to the contrary and to the extent allowable under federal law, at the request of the Colorado bureau of investigation, the state department shall provide the bureau with information concerning the location of any person whose name appears in the department's records who is the subject of an outstanding felony arrest warrant. Upon receipt of such information, it shall be the responsibility of the bureau to provide appropriate law enforcement agencies with location information obtained from the state department. Location information provided pursuant to this section shall be used solely for law enforcement purposes. The state department and the bureau shall determine and employ the most cost-effective method for obtaining and providing location information pursuant to this section. Neither the state department nor its employees or agents shall be liable in civil action for providing information in accordance with the provisions of this sub-subparagraph (A).

(B) As used in sub-subparagraph (A) of this subparagraph (III), "law enforcement agency" means any agency of the state or its political subdivisions that is responsible for enforcing the laws of this state. "Law enforcement agency" includes but is not limited to any police department, sheriff's department, district attorney's office, the office of the state attorney general, and the Colorado bureau of investigation.

(b) By signing an application or redetermination of eligibility form for medical assistance, an applicant authorizes the state department to obtain records pertaining to information provided in that application or redetermination of eligibility form from a financial institution, as defined in section 15-15-201 (4), C.R.S., or from any insurance company. The application or redetermination of eligibility form shall contain language clearly indicating that signing constitutes such an authorization.

(c) (I) In order to determine if applicants for or recipients of medical assistance have assets within eligibility limits, the state department may provide a list of information identifying these applicants or recipients to any financial institution, as defined in section 15-15-201 (4), C.R.S., or to any insurance company. This information may include identification numbers or social security numbers. The state department may require any

such financial institution or insurance company to provide a written statement disclosing any assets held on behalf of individuals adequately identified on the list provided. Before a termination notice is sent to the recipient, the county department or the medical assistance site in verifying the accuracy of the information obtained as a result of the match shall contact the recipient and inform the recipient of the apparent results of the computer match and give the recipient the opportunity to explain or correct any erroneous information secured by the match. The requirement to run a computerized match shall apply only to information that is entered in the financial institution's or insurance company's data processing system on the date the match is run and shall not be deemed to require any such institution or company to change its data or make new entries for the purpose of comparing identifying information. The cost of providing such computerized match shall be borne by the state department.

(II) For the fiscal year beginning July 1, 1984, and thereafter, all funds expended by the state department to pay the cost of providing such computerized matches shall be subject to an annual appropriation by the general assembly.

(III) The state department may expend funds appropriated pursuant to subparagraph (II) of this paragraph (c) in an amount not to exceed the amount of annualized general fund savings that result from the termination of recipients from medical assistance specifically due to disclosure of assets pursuant to this subsection (2).

(d) No applicant shall be denied nor any recipient discontinued due to the disclosure of their assets unless and until the county department or medical assistance site has assured that such assets taken together with other assets exceed the limit for eligibility of countable assets. Any information concerning assets found may be used to determine if such applicant's or recipient's eligibility for other medical assistance is affected.

(3) The applicant for or recipient of medical assistance, or his or her representative, shall have an opportunity to examine all applications and pertinent records concerning said applicant or recipient which constitute a basis for denial, modification, or termination of such medical assistance or to examine such records in case of a fair hearing.

(4) Any person who violates subsection (1) or (2) of this section is guilty of a misdemeanor and, upon conviction thereof, shall be punished by a fine of not more than five hundred dollars, or by imprisonment in the county jail for not more than three months, or by both such fine and imprisonment.

25.5-1-117. County departments - district departments. (1) Except as provided in subsection (2) of this section, there shall be established in each county of the state a county department of social services that shall consist of a county board of social services, a county director of social services, and any additional employees as may be necessary for the efficient performance of public assistance, as defined in section 26-2-103 (7), C.R.S., and medical assistance.

(2) Single entry point agencies established pursuant to part 1 of article 6 of this title, other than county departments acting as single entry point agencies, may act as state designated agencies and are hereby authorized to carry out functions as specified in part 1 of article 6 of this title that are otherwise performed by county departments.

(3) With the approval of the department of human services, two or more counties may jointly establish a district department of social services. All duties and responsibilities for county departments set forth in this title shall also apply to district departments of social services.

Editor's note: This section was contained in a 2006 act that amended this part, resulting in the addition of this section.

25.5-1-118. Duties of county departments. (1) The county departments or other state designated agencies, where applicable, shall serve as agents of the state department and shall be charged with the administration of medical assistance and related activities in the respective counties in accordance with the rules of the state department.

(2) The county departments or other state designated agencies, where applicable, shall report to the state department at such times and in such manner and form as the state department may from time to time direct.

(3) The county department or other state designated agencies, where applicable, in each county shall submit quarterly and annually to the board of county commissioners a budget containing an estimate and supporting data setting forth the amount of money needed to carry out the provisions of this title.

Editor's note: This section was contained in a 2006 act that amended this part, resulting in the addition of this section.

25.5-1-119. County staff. The county director, with the approval of the county board, shall appoint such staff as may be necessary as determined by the state department rules to administer medical assistance within the county. The staff shall be appointed and shall serve in accordance with a merit system for the selection, retention, and promotion of county department employees as described in section 26-1-120, C.R.S. The salaries of the staff members shall be fixed in accordance with the rules and salary schedules prescribed by the state department or the department of human services, whichever is appropriate; except that, once a county transfers its county employees to a successor merit system as provided in section 26-1-120, C.R.S., the salaries shall be fixed by the county commissioners.

Source: L. 2006: Entire part amended, p. 1793, § 1, effective July 1.

Editor's note: This section was contained in a 2006 act that amended this part, resulting in the addition of this section.

25.5-1-120. Appropriations. (1) (a) For carrying out the duties and obligations of the state department and county departments under the provisions of this title and for matching such federal funds or meeting maintenance of effort requirements as may be available for public assistance and welfare activities in the state, including medical assistance administration and related activities, the general assembly, in accordance with the constitution and laws of the state of Colorado, shall make adequate appropriations for the payment of such costs, pursuant to the budget prepared by the executive director.

(b) If the federal law shall provide federal funds, in cash or in another form such as medical assistance, not otherwise provided for in this title, the state department is authorized to make such payments or offer such services in accordance with the requirements accompanying said federal funds within the limits of available state appropriations.

(c) When the executive director determines that adequate appropriations for the payment of the costs described in paragraph (a) of this subsection (1) have not been made and that an overexpenditure of an appropriation will occur based upon the state department's estimates, the state board may take actions consistent with state and federal law to bring the rate of expenditure into line with available funds. The general assembly declares that case load and utilization based on medical necessity are legitimate reasons for supplemental funding.

(2) The general assembly shall appropriate from the general fund to the state department moneys for the costs of administering medical assistance programs and the state's share of the costs of administering such functions by the county departments amounts sufficient for the proper and efficient performance of the duties imposed upon them by law, including a legal advisor appointed by the attorney general. The general assembly shall make two separate appropriations, one for the administrative costs of the state department

and another for the administrative costs of the county departments. Any applicable matching federal funds shall be apportioned in accordance with the federal regulations accompanying such funds. Any unobligated and unexpended balances of appropriated state general funds remaining at the end of each fiscal year shall be credited to the state general fund.

(3) The expenses of training personnel for special skills relating to medical assistance, as such expenses shall be determined and approved by the state department, may be paid from state and federal funds available for such training purposes.

Source: L. 2006: Entire part amended, p. 1793, § 1, effective July 1.

Editor's note: This section was contained in a 2006 act that amended this part, resulting in the addition of this section.

25.5-1-121. County expenditures - advancements - procedures. (1) For purposes of this article, under rules of the state department, administrative costs shall include: Salaries of the county director and employees of the county department staff engaged in the performance of medical assistance activities; the county's payments on behalf of such employees for old age and survivors' insurance or pursuant to a county officers' and employees' retirement plan and for any health insurance plan, if approved by the state department; the necessary travel expenses of the county board and the administrative staff of the county department in the performance of their duties; necessary telephone and other electronic means of communication; necessary equipment and supplies; necessary payments for postage and printing, including the printing and preparation of county warrants required for the administration of the county department; and such other administrative costs as may be approved by the state department; but advancements for office space, utilities, and fixtures may be made from state funds only if federal matching funds are available.

(2) Notwithstanding any other provision of this article, the county department may spend in excess of twenty percent of actual costs for the purpose of matching federal funds for the administration of the child support enforcement program or for the administrative costs of activities involving food stamp, public assistance, or medical assistance fraud investigations or prosecutions.

(3) (a) Notwithstanding any other provision of this article, the county department may receive and spend federal funds to which it is entitled based on the county's certification of public expenditures for administrative costs made by other entities within the county, which expenditures:

(I) Are from sources other than the county social services fund;

(II) Are in excess of the county department's portion, as required pursuant to section 25.5-1-114 (2) (a), of the administrative costs; and

(III) Are for an administrative activity that has been approved by the state department as an activity that is eligible for reimbursement under a federal program.

(b) Acceptance and expenditure of federal funds pursuant to paragraph (a) of this subsection (3) shall not affect the state's share of and contribution to the administrative costs. The county shall be solely responsible for certifying the nonfederal share that is in excess of the county's required portion of the administrative costs. The state department may retain up to five percent of any federal funds received by a county department pursuant to this subsection (3). In addition, the state, in accordance with the provisions of section 26-1-109 (4) (d), C.R.S., shall recover any federal funds received by the county through the certification of public expenditures that are subsequently determined to be ineligible for federal reimbursement.

Source: L. 2006: Entire part amended, p. 1794, § 1, effective July 1. **L. 2011:** (3) added, (HB 11-1196), ch. 160, p. 555, § 6, effective August 10.

Editor's note: This section was contained in a 2006 act that amended this part, resulting in the addition of this section.

25.5-1-122. County appropriation increases - limitations. (1) Beginning in calendar fiscal year 1994 and for each calendar fiscal year thereafter to and including calendar fiscal year 1997, the board of county commissioners in each county of this state shall annually appropriate funds for the county share of the administrative costs of medical assistance in the county in an amount equal to the actual county share for the previous fiscal year adjusted by an amount equal to the actual county share for the previous fiscal year multiplied by the percentage of change in property tax revenue.

(2) For the purposes of this section:

(a) "County share" means the actual amount of the county share for the previous fiscal year. "County share" shall not include:

(I) The amount expended by the county from the county contingency fund or the county tax base relief fund pursuant to section 26-1-126, C.R.S.;

(II) The amount expended by the county for general assistance pursuant to part 1 of article 17 of title 30, C.R.S.; and

(III) The amount expended by the county for programs or services provided by the county on its own, without requirements or funding from any other governmental agency.

(b) "Percentage of change in property tax revenue" means the difference between the total property tax levied for the previous fiscal year less the amount levied for debt service for the previous fiscal year and the total property tax levied for the year for which the percentage of change in tax revenue is being calculated less the amount levied for debt service for the year in which the percentage of change in tax revenue is being calculated divided by the total property tax levied for the previous fiscal year less the amount levied for debt service for the previous fiscal year.

(3) Notwithstanding the provisions of section 25.5-1-121, a county in the state shall not be required to contribute more than the amount set forth in subsection (1) of this section in any fiscal year. Nothing in this section shall be construed to limit the ability of a county to establish programs or services provided by the county on its own, without requirements or funding from any other governmental agency.

(4) (Deleted by amendment, L. 2008, p. 1812, § 3, effective June 2, 2008.)

(5) Any amounts remaining in the county social services fund created in section 26-1-123, C.R.S., at the end of any fiscal year shall remain in the county fund for expenditure as determined by the board of county commissioners for administrative costs of public assistance, medical assistance, and food stamps, and program costs of public assistance and food stamps.

(6) The limitation set forth in this section on the increase in the county share of the administrative costs of medical assistance will result in increased costs to the state. By making state funds available, the state is encouraging counties not to exercise any right a county may have pursuant to section 20 (9) of article X of the Colorado constitution to reduce or end its share of the costs of medical assistance administration for the county for three fiscal years following the fiscal year in which the state funds are received. If a county accepts funds from the state based on the limitation provided in this section for any fiscal year, the county agrees not to exercise any rights the county may have to reduce or end its share of the costs of medical assistance administration for the fiscal year in which the funds are accepted. Nothing in this subsection (6) or any agreement pursuant to this subsection (6) shall be construed to affect the existence or status of any rights accruing to the state or any county pursuant to section 20 (9) of article X of the Colorado constitution.

Source: L. 2006: Entire part amended, p. 1795, § 1, effective July 1. L. 2008: (2)(a)(I) and (4) amended, p. 1812, § 3, effective June 2.

Editor's note: This section was contained in a 2006 act that amended this part, resulting in the addition of this section.

25.5-1-123. Medical homes for children - legislative declaration - duties of the department - reporting requirements. (1) The general assembly hereby finds and declares that:

(a) The best medical care for infants, children, and adolescents is provided through a medical home, as defined in section 25.5-1-103, and that is consistent with the joint

principles of a patient-centered medical home. Those principles shall include a whole-person orientation, care that is coordinated and integrated across all elements of the complex health care system and the patient's community, and care that provides for quality and safety of the patient where qualified health care practitioners provide primary care and help manage and facilitate all aspects of medical care.

(b) Infants, children, and adolescents and their families work best with a health care practitioner who knows the family and who develops a partnership of mutual responsibility and trust;

(c) Medical care provided through emergency departments, walk-in clinics, and other urgent-care facilities is often more costly and less effective than care given by a physician with prior knowledge of the child and his or her family; and

(d) The state department should strive to find a medical home for each child receiving services through the state medical assistance program, articles 4, 5, and 6 of this title, or the children's basic health plan, article 8 of this title.

(2) On or before July 1, 2008, the state department, in conjunction with the Colorado medical home initiative in the department of public health and environment, shall develop systems and standards to maximize the number of children enrolled in the state medical assistance program or the children's basic health plan who have a medical home. The systems and standards developed shall include, but need not be limited to, ways to ensure that a medical home shall offer family-centered, compassionate, culturally effective care and sensitive, respectful communication to a child and his or her family.

(3) On or before January 30, 2008, and every January 30 thereafter, the state department shall report to the health and human services committees of the house of representatives and the senate, or any successor committees, on progress made toward maximizing the number of children with a medical home who are enrolled in the state medical assistance program or the children's basic health plan.

Source: L. 2007: Entire section added, p. 1488, § 2, effective May 31.

25.5-1-124. Early intervention payment system - participation by state department - rules. (1) The state department shall participate in the development and implementation of the coordinated system of payment for early intervention services authorized pursuant to part 7 of article 10.5 of title 27, C.R.S., and Part C of the federal "Individuals with Disabilities Education Act", 20 U.S.C. sec. 1400 et seq., as amended.

(2) The state department shall ensure that the early intervention services and payments for recipients of medical assistance under this title are integrated into the coordinated early intervention payment system developed pursuant to part 7 of article 10.5 of title 27, C.R.S. To the extent necessary to achieve the coordinated payment system and coverage of those early intervention services under this title, the state department shall amend the state plan for medical assistance or seek the necessary federal authorization, promulgate rules, and modify the billing system for medical assistance to facilitate the coordinated payment system.

(3) The state department shall also make any modifications necessary to the "Children's Basic Health Plan Act", article 8 of this title, including promulgating rules, to ensure that the children's basic health plan is integrated into the coordinated early intervention payment system developed pursuant to part 7 of article 10.5 of title 27, C.R.S.

(4) Repealed.

(5) (a) As used in this section, unless the context otherwise requires, "early intervention services" means those services defined as early intervention services by the department of human services in accordance with section 27-10.5-702 (7), C.R.S., that are determined, through negotiation between the state department and the department of human services, to be medically necessary under medical assistance and cost-effective. After negotiating the scope of early intervention services to be covered under medical assistance, the state department and the department of human services shall submit to the joint budget committee of the general assembly, as part of each department's annual budget request, a proposal for the scope of coverage of early intervention services under medical assistance,

including the anticipated costs of such coverage and whether the payment of such costs through medical assistance is cost-effective.

(b) “Early intervention services” shall not include the following:

(I) Nonemergency medical transportation;

(II) Respite care;

(III) Service coordination, as defined in 34 CFR 303.12 (d) (11); and

(IV) (A) Assistive technology.

(B) The exclusion of assistive technology shall not apply to durable medical equipment that is otherwise covered under the children’s basic health plan, as defined in section 25.5-8-103 (2).

Source: **L. 2007:** Entire section added, p. 888, § 2, effective July 1. **L. 2008:** (5)(a) amended, p. 1468, § 14, effective August 5. **L. 2012:** (4) repealed, (HB 12-1247), ch. 53, p. 196, § 6, effective March 22.

25.5-1-125. Centennial care choices - value benefit plans - request for information - request for proposals - report to general assembly - definitions - legislative declaration. (1) The general assembly hereby finds, determines, and declares that:

(a) The blue ribbon commission for health care reform, established pursuant to section 10-16-131, C.R.S., as it existed prior to July 1, 2008, submitted its recommendations to the general assembly in January 2008, regarding comprehensive proposals to reform health care in Colorado, including methods to reduce or eliminate Colorado’s uninsured population;

(b) The general assembly recognizes that while comprehensive health care reform is a laudable goal, the state lacks the financial resources to fully solve all the problems facing this state’s health care system;

(c) It is also critical that the state maximize federal funds for medical assistance programs so as to provide services and access to health care to the state’s needy population;

(d) Colorado cannot wait to address the current problems related to the delivery of affordable health care to residents of the state, and it is therefore critical to start the process toward developing a balanced partnership between private and public sectors in Colorado to begin to provide affordable health insurance to those who are uninsured;

(e) To that end, this section creates the opportunity for health insurance carriers and other interested parties, including the state of Colorado, to develop and offer to individuals throughout the state an affordable, baseline health insurance product, representing the minimum benefits package for the state’s individual market, that is not currently available in the individual market, to provide access to health care coverage for the state’s uninsured population;

(f) In addition, the state department, in coordination with the division of insurance and the panel of expert advisors appointed by the governor pursuant to this section, is urged to conduct the request for information process expeditiously and to submit its reports to the legislative committees earlier than the dates specified in this section, but in no case later than those dates, so as to afford the general assembly sufficient time to consider the reports and take any legislative action the general assembly may deem appropriate during the 2009 legislative session; and

(g) The appropriation and expenditure of state general fund moneys to implement this section shall not exceed one hundred twenty-eight thousand seven hundred dollars, and if the state costs to implement the requirements of this section exceed such amount, the state department shall solicit gifts, grants, and donations to cover any state costs that exceed such appropriated amount.

(2) (a) (I) The state department, in coordination with the division of insurance and a panel of expert advisors appointed by the governor by July 1, 2008, which shall include persons with expertise in actuarial sciences, persons with expertise in designing health benefit plans, persons experienced in the implementation and management of health benefit plans, persons with expertise in disability issues, persons with expertise regarding long-term care, consumers, and persons representing health care providers, shall prepare a request for information to be issued to health insurance carriers and other interested parties, including the state of Colorado, regarding the development of the centennial care choices program, as

described in this section. The state department and division shall begin preparing the request for information by July 1, regardless of whether the panel has been appointed by that date. If the governor fails to appoint the panel of expert advisors by July 1, 2008, then the president of the senate and the speaker of the house of representatives shall be responsible for appointing the panel of expert advisors and shall each appoint at least five expert advisors meeting the criteria specified in this subparagraph (I) by July 15, 2008. The request for information shall request interested health insurance carriers and other interested parties, including the state of Colorado, to provide information regarding:

(A) The design of and benefits included in value benefit plans, referred to in this section as VBPs, to be offered in the individual market with a benchmark standard of approximately eighty percent of the actuarial value of a preferred provider organization plan offered to employees of the state of Colorado at the time the request for information is issued, as specified in the request for information. In addition, the state department, with assistance from the division and the panel, may develop and include a request for information about additional benchmark standards in the request for information process.

(B) The percentage differential in rates for VBPs if all Colorado residents are required to obtain creditable coverage and if no such individual mandate is imposed.

(II) Except as authorized in this section, the request for information shall not specify benefits or other details to be included in the proposed VBP. In developing the request for information, the state department, in coordination with the division and the panel, shall consider the potential risks of adverse selection, crowd out, and other factors that may destabilize the small group and individual markets as a result of offering VBPs in the individual market.

(b) In responding to the request for information, a health insurance carrier or other interested party shall assume the following:

(I) That a VBP will, at a minimum:

(A) Include benefits for primary and preventive care and participation in wellness programs and incentives for plan participants to engage in healthy behavior;

(B) Provide the lowest level of benefits that may be offered in the state's individual market;

(C) Encourage the use of health information technology and telemedicine, including, without limitation, health information exchange, electronic health records, and electronic prescriptions;

(D) Encourage the use of a pay-for-performance system for reimbursing health care providers, where appropriate;

(E) Provide consumers with educational materials regarding how to access internet-based health care tools;

(F) Specify an adequate network of providers available under the VBP;

(G) Encourage the use of regional networks of hospitals, physicians, community health centers and other safety net providers, and other health care professionals, including, but not limited to, hospice and palliative care providers, where available, and innovative or collaborative efforts within communities for the provision of health care services;

(H) Include optional coverage choices for purchase by consumers to add to their VBPs and the estimated consumer cost for each particular coverage option;

(I) Limit the demographic characteristics used by health insurance carriers in determining premium rates to the age of the individuals to be covered under the VBP and the geographic location of the policyholder;

(J) Specify premium levels for each VBP by age group, region by region;

(K) Be offered statewide and issued to any Colorado resident eligible pursuant to the terms of the approved VBP who agrees to make the premium payments required for that person;

(L) Allow for the payment of all or a portion of the covered person's premium from a state-paid premium subsidy, if made available by the state for low-income individuals and families; and

(M) Not destabilize the existing small group and individual markets or the CoverColorado program.

(II) That the state may impose a requirement that all Coloradans obtain creditable coverage, either through a state-sanctioned VBP, another health insurance product available in the private market for individuals or groups, participation in a state or federal program providing benefits or coverage for health care, or any other creditable coverage;

(III) That the state will establish a mechanism to enforce the requirement that all Colorado residents obtain creditable coverage through the state tax laws, if such requirement is imposed;

(IV) That a VBP will be the minimum benefits package available in the state's individual market;

(V) That the state will create a sliding scale premium subsidy program to assist low-income individuals and families in paying the premium costs for health insurance;

(VI) That the state will amend the state plan to expand eligibility for the Colorado medical assistance program to adults whose family income does not exceed one hundred percent of the federal poverty line, adjusted for family size; and

(VII) That the state will create a dedicated source of revenue, if necessary, to fund the premium subsidy program or other new state costs.

(3) (a) By December 15, 2008, the state department, in coordination with the division and the panel, shall submit a progress report to the legislative committees. The progress report shall provide an update on the status of the request for information process.

(b) On or before March 1, 2009, the state department, in coordination with the division and the panel, shall submit a final report to the legislative committees. Prior to submitting the final report, the state department, in coordination with the division and the panel, shall acquire relevant actuarial projections and research potential cost savings. The final report shall detail the results of the request for information process and the actuarial and cost savings research, including a detailed summary of the information submitted by health insurance carriers and other interested parties and an evaluation and analysis of the results of the request for information process. In addition, the final report shall include information regarding any legislation that would be required should the general assembly proceed to implement the centennial care choices program, VBPs, and a premium subsidy program, if applicable, and cost projections regarding the funding needed to implement the program.

(c) After receipt of the final report, the legislative committees, meeting jointly, shall consider the information included in the final report and determine whether to proceed with the centennial care choices program and whether to recommend legislation to the general assembly that is necessary to:

(I) Implement the centennial care choices program, VBPs, and a premium subsidy program; and

(II) Create a funding source to fund a premium subsidy program or other costs of the centennial care choices program.

(d) If the legislative committees recommend legislation to the general assembly to implement the centennial care choices program, including the authorization for the development of VBPs, the creation of a premium subsidy program, and the creation of a funding source, the recommendation should specify inclusion of the following elements in the legislation:

(I) Standards that VBPs must satisfy in order to be certified by the state department and the division and authorized to be offered to Colorado residents by any health insurance carrier, regardless of whether the health insurance carrier developed the VBP in response to the request for proposals, as long as the health insurance carrier offers a VBP that meets such standards and the requirements of this section;

(II) Creation of a process for periodic review of VBPs;

(III) Creation of a consumer advisory council for the centennial care choices program;

(IV) A mechanism to encourage the use of evidence-based medicine through creation of a patient safety council to evaluate patient care with the goals of improving quality of care and minimizing medical care mistakes;

(V) Authorization for the state department and the division to establish health marts through which an individual eligible for a state subsidy, if created, may select a VBP that best meets his or her needs; and

(VI) If the funding source would be created through a new or increased tax or tax rate, a ballot question to seek voter approval at a future general election for the revenue source.

(4) (a) If the general assembly enacts legislation to create the centennial care choices program, including authorization for the development of VBPs, the creation of a premium subsidy program, and the creation of a funding source, the state department, in coordination with the division and the panel, shall determine whether a funding source has been identified to fund the centennial care choices program. If a funding source has been identified and approved by the voters, if necessary, the state department may develop a request for proposals to be issued to interested health insurance carriers and other interested parties, including the state of Colorado. The request for proposals shall request interested parties to submit proposals for plan designs for VBPs to be offered in the individual market, which shall be based on the parameters outlined in subsection (2) of this section in the request for information, as modified by any legislation enacted by the general assembly pursuant to this section.

(b) Prior to issuing a request for proposals, the state department, in consultation with the division and the panel, and based on the information obtained through the request for information process and any other relevant information, shall develop a benchmark price or affordability standard for VBPs to ensure that eligible individuals can afford to purchase VBPs that are developed by interested parties.

(c) The state department shall include the same assumptions in the request for proposals that were included in the request for information pursuant to subsection (2) of this section and shall modify those assumptions to the extent necessary to conform to any legislation enacted by the general assembly pursuant to this section.

(5) The state department shall ensure that the request for information and request for proposals processes encourage collaboration and negotiation between the interested parties responding to the requests and the state department, division, and panel regarding the price for and benefits included in VBPs.

(6) A health insurance carrier or other interested party shall not be required to have a certificate of authority issued by the commissioner of insurance pursuant to section 10-3-105, C.R.S., in order to respond to the request for information or request for proposals, but the health insurance carrier or other interested party shall be allowed to offer an approved VBP to eligible Colorado residents only if the party obtains a certificate of authority to transact the business of insurance in this state prior to offering the VBP.

(7) A health insurance carrier or other interested party that submits information or a proposal in response to the request for information or the request for proposals, respectively, shall not be obligated to offer a VBP if, after submission of information or a proposal, the general assembly, by bill, modifies the design of the VBP.

(8) Nothing in this section shall be construed to establish a requirement for individuals to purchase health insurance or to preclude or limit the ability of the general assembly to use information obtained through the request for information to enact reforms that do not include such a requirement.

(9) As used in this section:

(a) "Colorado medical assistance program" means the program established in the "Colorado Medical Assistance Act", articles 4, 5, and 6 of this title.

(b) "CoverColorado program" means the program created in part 5 of article 8 of title 10, C.R.S.

(c) "Creditable coverage" shall have the same meaning as set forth in section 10-16-102, C.R.S.

(d) "Division of insurance" or "division" means the division of insurance in the department of regulatory agencies.

(e) "Health insurance carrier" shall have the same meaning as "carrier", as defined in section 10-16-102, C.R.S., and shall include a carrier that is not currently providing health coverage in the state or that does not, at the time the request for information or request for proposals is issued, have a certificate of authority from the commissioner of insurance pursuant to section 10-3-105, C.R.S.

(f) "Interested party" means a person or entity that possesses applicable actuarial expertise and has administered or has the capacity to administer a health insurance program.

(g) “Legislative committees” means the health and human services committees of the senate and house of representatives, or their successor committees.

(h) “Panel” means the panel of expert advisors appointed by the governor pursuant to subsection (2) of this section.

(i) “Value benefit plan” or “VBP” means a policy, contract, certificate, or agreement to provide, deliver, arrange for, pay for, or reimburse the costs of health care services that is developed in response to the request for proposals issued pursuant to this section.

25.5-1-126. Discounted prices for durable medical equipment and supplies.

(1) The state department shall work with one or more nonprofit organizations to develop a link of approved vendors who are willing to sell durable medical equipment and medical supplies at discounted prices to persons who have applied for, but are not yet receiving, benefits under the “Colorado Medical Assistance Act”. The state department shall provide the exclusive criteria for a nonprofit organization to use to approve a vendor for placement on the approved vendor list.

(2) The state department shall maintain a link of approved vendors developed pursuant to this section and shall:

(a) Make the link available on the state department’s web site; and

(b) Provide copies of the list to county departments and to sites authorized to accept medical assistance applications pursuant to section 25.5-4-205 (1), through the survey given to applicants.

Source: **L. 2010:** Entire section added, (HB 10-1029), ch. 219, p. 958, § 1, effective May 10.

25.5-1-127. Third-party benefit denials information. The state department shall provide information to recipients of benefits under this title concerning their right to appeal a denial of benefits by a third party and shall post information on the state department’s web site concerning recipients’ abilities to appeal a third party’s denial of benefits, including but not limited to providing a link to information on the insurance commissioner’s web site regarding such appeals.

Source: **L. 2010:** Entire section added, (SB 10-002), ch. 366, p. 1727, § 2, effective June 7.

Cross references: For the legislative declaration in the 2010 act adding this section, see section 1 of chapter 366, Session Laws of Colorado 2010.

25.5-1-128. Provider payments - compliance with state fiscal requirements - definitions - rules. (1) (a) Notwithstanding any provision of law to the contrary, when the state department has regulatory authority over a program and when the provider has already signed a state department-approved provider application to provide a service or to bill the state department or its authorized contractor for a service, the state department-approved provider application shall serve to fulfill the requirements of a commitment voucher and the fiscal requirements of section 24-30-202 (1), C.R.S.

(b) The executive director may promulgate rules to exempt a provider who provides services through a program as described in paragraph (a) of this subsection (1) for any program the state department is authorized by law to administer, including but not limited to:

(I) The “Colorado Medical Assistance Act”, articles 4 to 6 of this title;

(II) The “Children’s Basic Health Plan Act”, article 8 of this title;

(III) The “Colorado Indigent Care Program”, part 1 of article 3 of this title;

(IV) The school health services program authorized by section 25.5-5-318;

(V) Programs that are funded through the primary care fund, created in section 24-22-117 (2) (b), C.R.S.; and

(VI) The state-funded old age pension health and medical care program pursuant to article 2 of this title.

(2) As used in this section, unless the context otherwise provides, “provider” means a health care provider, a mental health care provider, a pharmacist, a home health agency, a general provider as defined in section 25.5-3-103 (3), school district as defined in section 25.5-5-318 (1) (a), or any other entity that provides health care, health care coordination, outreach, enrollment, or administrative support services to recipients through fee-for-service, the primary care physician program, a managed care entity, a behavioral health organization, a medical home, or any system of care that coordinates health care or services as defined and authorized through rules promulgated by the state board or by the executive director.

PART 2

PROGRAMS TO BE ADMINISTERED BY THE DEPARTMENT

25.5-1-201. Programs to be administered by the department of health care policy and financing. (1) Programs to be administered and functions to be performed by the department of health care policy and financing shall be as follows:

(a) The “Colorado Medical Assistance Act”, as specified in articles 4, 5, and 6 of this title;

(b) The “Colorado Indigent Care Program”, as specified in part 1 of article 3 of this title;

(c) Effective July 1, 1996, school entry immunization, as specified in part 9 of article 4 of title 25, C.R.S. Commencing on and after the fiscal year beginning July 1, 1996, the state department is authorized to contract with the department of public health and environment for the purpose of enforcing the school entry immunization requirements.

(d) Repealed.

(e) The “Children’s Basic Health Plan Act”, as specified in article 8 of this title; and

(f) The old age pension health and medical care program, as specified in section 25.5-2-101.

25.5-1-203. Prescription drug information and technical assistance program - expansion. The state department may expand the prescription drug information and technical assistance program created in section 25.5-5-507 to include persons receiving drug benefits pursuant to any program that is administered by the state department.

Source: **L. 2008:** Entire section added, p. 231, § 1, effective August 5.

25.5-1-204. Advisory committee to establish an all-payer health claims database - creation - members - duties - creation of all-payer health claims database - rules - repeal. (1) (a) Within forty-five business days after August 11, 2010, the executive director shall appoint an advisory committee to make recommendations regarding the creation of the framework and implementation plan for a Colorado all-payer claims database for the purpose of facilitating the reporting of health care and health quality data that results in transparent and public reporting of safety, quality, cost, and efficiency information at all levels of health care. The executive director shall appoint an administrator of the database.

(b) The executive director shall appoint the members of the advisory committee, consisting of the following members:

(I) A member of academia with experience in health care data and cost efficiency research;

(II) A representative of a statewide association of hospitals;

(III) A representative of an integrated multi-specialty organization;

(IV) A representative of physicians and surgeons;

(V) A representative of small employers that purchase group health insurance for employees, which representative is not a supplier or broker of health insurance;

(VI) A representative of large employers that purchase health insurance for employees, which representative is not a supplier or broker of health insurance;

(VII) A representative of self-insured employers, which representative is not a supplier or broker of health insurance;

(VIII) A representative of an organization that processes insurance claims or certain aspects of employee benefit plans for a separate entity;

(IX) A representative of a nonprofit organization that demonstrates experience working with employers to enhance value and affordability in health insurance;

(X) A person with a demonstrated record of advocating health care privacy issues on behalf of consumers;

(XI) A person with a demonstrated record of advocating health care issues on behalf of consumers;

(XII) Two representatives of health insurers, one who represents nonprofit insurers and one who represents for-profit insurers;

(XIII) A representative of dental insurers;

(XIV) A representative from a community mental health center that has experience in behavioral health data collection;

(XV) A representative of pharmacists or an affiliate society;

(XVI) A representative of pharmacy benefit managers; and

(XVII) Two representatives of nonprofit organizations that facilitate health information exchange to improve health care for all Coloradans.

(c) The following persons shall serve as ex officio members of the advisory committee:

(I) The executive director or his or her designee;

(II) A representative of the department of personnel and administration;

(III) The commissioner of insurance or his or her designee;

(IV) The director of the office of information technology or his or her designee; and

(V) Two members of the general assembly, one from the majority party and one from the minority party.

(d) When making appointments to the advisory committee, the executive director shall include at least two members who reside in a rural community with a population of less than fifty thousand or who represent rural interests.

(e) (I) This subsection (1) is repealed, effective July 1, 2013.

(II) Prior to the repeal of this subsection (1), the advisory committee shall be reviewed as provided for in section 2-3-1203, C.R.S.

(2) The advisory committee shall make recommendations to the administrator regarding the database that:

(a) Include specific strategies to measure and collect data related to health care safety and quality, utilization, health outcomes, and cost;

(b) Focus on data elements that foster quality improvement and peer group comparisons;

(c) Facilitate value-based, cost-effective purchasing of health care services by public and private purchasers and consumers;

(d) Result in usable and comparable information that allows public and private health care purchasers, consumers, and data analysts to identify and compare health plans, health insurers, health care facilities, and health care providers regarding the provision of safe, cost-effective, high-quality health care services;

(e) Use and build upon existing data collection standards and methods to establish and maintain the database in a cost-effective and efficient manner;

(f) Are designed to measure the following performance domains: Safety, timeliness, effectiveness, efficiency, equity, and patient-centeredness;

(g) Incorporate and utilize claims, eligibility, and other publicly available data to the extent it is the most cost-effective method of collecting data to minimize the cost and administrative burden on data sources;

(h) Include recommendations about whether to include data on the uninsured;

(i) Discuss the harmonization of a Colorado database with other states', regions', and federal efforts concerning all-payer claims databases;

(j) Discuss the harmonization of a Colorado database with federal legislation concerning an all-payer claims database;

(k) Discuss a limit on the number of times the administrator may require submission of the required data elements;

(l) Discuss a limit on the number of times the administrator may change the required data elements for submission in a calendar year considering administrative costs, resources, and time required to fulfill the requests; and

(m) Discuss compliance with the "Health Insurance Portability and Accountability Act of 1996", Pub.L. 104-191, as amended, and other proprietary information related to collection and release of data.

(3) The advisory committee shall make recommendations to the executive director to determine how the ongoing oversight of the operations of the all-payer health claims database should function, including where the database should be housed.

(4) The administrator shall seek funding for the creation of the all-payer health claims database and develop a plan for the financial stability of the database. On or before March 1, 2011, the administrator shall report to the governor and the general assembly on the status of the funding effort and on the status of the recommendations of the advisory committee. The report shall include the final data elements recommended by the advisory committee, the final provisions contemplated to comply with the "Health Insurance Portability and Accountability Act of 1996", Pub.L. 104-191, as amended, and any other final recommendations that are ready at the time of the report. If sufficient funding is received through gifts, grants, and donations on or before January 1, 2012, as determined by the executive director,

the administrator shall, in consultation with the advisory committee, create the Colorado all-payer claims database. The Colorado all-payer claims database shall be operational no later than January 1, 2013.

(5) If sufficient funding is received, the executive director shall direct the administrator to create the database and the administrator shall:

(a) Determine the data to be collected from payers and the method of collection, including mandatory and voluntary reporting of health care and health quality data. If the administrator requires mandatory reporting, CoverColorado, created in part 5 of article 8 of title 10, C.R.S., shall be included in the mandatory reporting requirements.

(b) Seek to establish agreements for voluntary reporting of health care claims data from health care payers that are not subject to mandatory reporting requirements in order to ensure availability of the most comprehensive and systemwide data on health care costs and quality;

(c) Seek to establish agreements or requests with the federal centers for medicare and medicaid services to obtain medicare health claims data;

(d) Determine the measures necessary to implement the reporting requirements in a manner that is cost-effective and reasonable for data sources and timely, relevant, and reliable for consumers, public and private purchasers, providers, and policymakers;

(e) Determine the reports and data to be made available to the public with recommendations from the advisory committee in order to accomplish the purposes of this section, including conducting studies and reporting the results of the studies;

(f) Collect, aggregate, distribute, and publicly report performance data on quality, health outcomes, health disparities, cost, utilization, and pricing in a manner accessible for consumers, public and private purchasers, providers, and policymakers;

(g) Protect patient privacy in compliance with state and federal medical privacy laws while preserving the ability to analyze data and share with providers and payers to ensure accuracy prior to the public release of information;

(h) Report to the governor and the general assembly on or before March 1 of each year on the status of implementing the database and any recommendations for statutory or regulatory changes, with input from the advisory committee or its successor governance entity, that would advance the purposes of this section;

(i) Provide leadership and coordination of public and private health care quality and performance measurements to ensure efficiency, cost-effectiveness, transparency, and informed choice by consumers and public and private purchasers.

(6) The administrator, with input from the advisory committee:

(a) Shall incorporate and utilize publicly available data other than administrative claims data if necessary to measure and analyze a significant health care quality, safety, or cost issue that cannot be adequately measured with administrative claims data alone;

(b) Shall require payer data sources to submit data necessary to implement the all-payer claims database;

(c) Shall determine the data elements to be collected, the reporting formats for data submitted, and the use and reporting of any data submitted. Data collection shall align with national, regional, and other uniform all-payer claims databases' standards where possible.

(d) May audit the accuracy of all data submitted;

(e) May contract with third parties to collect and process the health care data collected pursuant to this section. The contract shall prohibit the collection of unencrypted social security numbers and the use of the data for any purpose other than those specifically authorized by the contract. The contract shall require the third party to transmit the data collected and processed under the contract to the administrator or other designated entity.

(f) May share data regionally or help develop a multi-state effort if recommended by the advisory committee.

(7) The all-payer health claims database shall:

(a) Be available to the public when disclosed in a form and manner that ensures the privacy and security of personal health information as required by state and federal law, as a resource to insurers, consumers, employers, providers, purchasers of health care, and state agencies to allow for continuous review of health care utilization, expenditures, and quality and safety performance in Colorado;

(b) Be available to state agencies and private entities in Colorado engaged in efforts to improve health care, subject to rules promulgated by the executive director;

(c) Be presented to allow for comparisons of geographic, demographic, and economic factors and institutional size;

(d) Present data in a consumer-friendly manner.

(8) The collection, storage, and release of health care data and other information pursuant to this section is subject to the federal "Health Insurance Portability and Accountability Act of 1996", Pub.L. 104-191, as amended.

(9) The executive director shall promulgate rules as necessary to implement this section, which rules shall include the assessment of a fine for a payer required to submit data that does not comply with this section. Any fines collected shall be deposited in the all-payer health claims database cash fund, which is hereby created in the state treasury. The moneys in the fund shall be appropriated to the department of health care policy and financing for the purpose of maintaining the all-payer health claims database. The moneys in the fund shall remain in the fund and not revert to the general fund or any other fund at the end of any fiscal year.

(10) This section is repealed, January 1, 2012, unless the executive director notifies the revisor of statutes on or before such date that sufficient funding to create the database, as determined by the executive director, advisory committee, and administrator, has been received through gifts, grants, and donations.

(11) If at any time, there is not sufficient funding to finance the ongoing operations of the database, the database shall cease operating and the advisory committee and administrator shall no longer have the duty to carry out the functions required pursuant to this section. If the database ceases to operate, the data submitted shall be destroyed or returned to its original source.

Source: L. 2010: Entire section added, (HB 10-1330), ch. 299, p. 1406, § 1, effective August 11.

Editor's note: The revisor of statutes received the notice required pursuant to subsection (10) on November 22, 2011.

25.5-1-205. Providing for the efficient provision of health care through state-supervised cooperative action - rules. (1) Cooperation among health care payors, including both private sector entities and federal and state-administered health care programs, has the potential to eliminate needless and costly complexity in the administration of the programs and to benefit patients, payors, and the government. Further, alignment of financial incentives among private and public entities may accelerate and reinforce improvements in health care quality and patient outcomes.

(2) The executive director shall facilitate departmental oversight of collaboration among providers, medicaid clients and advocates, and payors that is designed to improve health outcomes and patient satisfaction and support the financial sustainability of the medicaid program.

(3) The executive director may promulgate rules relating to the collaborative process set forth in this section.

Source: L. 2012: Entire section added, (HB 12-1281), ch. 246, p. 1182, § 1, effective June 4.

PART 3

MEDICAL SERVICES BOARD

25.5-1-301. Medical services board - creation. (1) There is hereby created in the state department a medical services board, referred to in this part 3 as the "board", which shall consist of eleven members appointed by the governor with the consent of the senate. The governor shall appoint persons to the board who have knowledge of medical assistance

programs, and one or more of the appointments may include a person or persons who have received services through programs administered by the department within two years of the date of appointment. No more than six members of the board shall be members of the same political party. Of the eleven members appointed to the board, at least one shall be appointed from each congressional district. In making appointments to the board, the governor shall include representation by at least one member who is a person with a disability, as defined in section 24-45.5-102 (2), C.R.S., a family member of a person with a disability, or a member of an advocacy group for persons with disabilities, provided that the other requirements of this subsection (1) are met.

(2) Members shall serve at the pleasure of the governor for a term of four years; except that, of the members first appointed, three shall serve for a term of two years and three shall serve for a term of three years. On July 1, 2001, the governor shall appoint one member from the private sector to the board who shall have experience with the delivery of health care, who shall be appointed for a term of two years, and one member who shall have experience or expertise in caring for medically underserved children, who shall be appointed for a term of three years.

(3) Members shall receive no compensation but shall be reimbursed for reasonable and necessary actual expenses incurred in the performance of their official duties as members of the board.

(4) Vacancies on the board shall be filled by appointment of the governor for the remainder of any unexpired term.

Source: L. 94: Entire part added, p. 1557, § 2, effective July 1. L. 2001: (1) and (2) amended, p. 916, § 12, effective August 8. L. 2006: Entire part amended, p. 1797, § 3, effective July 1. L. 2009: (1) amended, (HB 09-1281), ch. 399, p. 2154, § 4, effective August 5. L. 2011: (1) amended, (SB 11-183), ch. 132, p. 465, § 2, effective August 10.

25.5-1-302. Medical services board - organization. (1) The board shall elect from its members a president, a vice-president, and such other board officers as it shall determine. All board officers shall hold their offices at the pleasure of the board.

(2) Regular meetings of the board shall be held not less than once every three months at such times as may be fixed by resolution of the board. All meetings of the board, in every suit and proceeding, shall be considered to have been duly called and regularly held and all orders and proceedings of the board to have been authorized, unless the contrary is proven.

(3) The board shall adopt, and at any time may amend, bylaws in relation to its meetings and the transaction of its business. A majority shall constitute a quorum of the board. The vote of a majority of a quorum of the board shall constitute the action of the board. The board shall act only by resolution adopted at a duly called meeting of the board, and no individual of the board shall exercise any individual administrative authority with respect to the department.

Source: L. 94: Entire part added, p. 1557, § 2, effective July 1. L. 2006: Entire part amended, p. 1798, § 3, effective July 1.

25.5-1-303. Powers and duties of the board - scope of authority - rules. (1) The board shall have the authority set forth in subsection (3) of this section over the following programs administered by the state department:

(a) The “Colorado Medical Assistance Act”, as specified in articles 4, 5, and 6 of this title;

(b) The “Colorado indigent care program”, as specified in part 1 of article 3 of this title;

(c) Repealed.

(d) The “Children’s Basic Health Plan Act”, as specified in article 8 of this title;

(e) The old age pension health and medical care program, as specified in section 25.5-2-101.

(2) Nothing in this section shall be construed to affect any specific statutory provision granting rule-making authority to the board in relation to a specific program.

(3) The board shall adopt rules in connection with the programs set forth in subsection (1) of this section governing the following:

(a) The implementation of legislative and departmental policies and procedures for such programs; except that no rules shall be promulgated for any policy or procedure which governs the administration of the state department as specified in section 25.5-1-108 (1);

(b) The establishment of eligibility requirements for persons receiving services from the state department;

(c) The establishment of the type of benefits that a recipient of services may obtain if eligibility requirements are met, subject to the authorization, requirements, and availability of such benefits;

(d) The requirements, obligations, and rights of clients and recipients;

(e) The establishment of a procedure to resolve disputes that may arise between clients and the state department or clients and providers;

(f) The requirements, obligations, and rights of providers, including policies and procedures related to provider payments that may affect client benefits;

(g) The establishment of a procedure to resolve disputes that may arise between providers and between the state department and providers.

(4) At the request of the executive director, the board shall advise the executive director as to any proposed policies or rules governing programs administered by the state department that are not set forth in subsection (1) of this section.

(5) The board shall have no authority over the revenue of the state department.

(6) All rules and orders of the department of human services in connection with the old age pension health and medical care program shall continue to be effective until revised, amended, repealed, or nullified pursuant to law.

(7) The rules issued by the state board shall be binding upon the county departments. At any public hearing relating to a proposed rule-making, interested persons shall have the right to present their data, views, or arguments orally. Proposed rules of the state board shall be subject to the provisions of section 24-4-103, C.R.S.

(8) To the extent that rules are promulgated by the state board of human services for programs or providers that receive either medicaid only or both medicaid and nonmedicaid funding, the rules shall be developed in cooperation with the state department and shall not conflict with state statutes or federal statutes or regulations.

(1) (Deleted by amendment, L. 2011, (SB 11-210), ch. 187, p. 719, § 2, effective July 15, 2012.)

(2) Any moneys remaining in the state old age pension fund after full payment of basic minimum awards to qualified old age pension recipients and after establishment and maintenance of the old age pension stabilization fund in the amount of five million dollars shall be transferred to a fund to be known as the old age pension health and medical care fund, which is hereby created. The state board shall establish and promulgate rules for administration of a program to provide health and medical care to persons who qualify to receive old age pensions and who are not patients in an institution for tuberculosis or mental

diseases. The costs of such program, not to exceed ten million dollars in any fiscal year, shall be defrayed from such health and medical care fund, but all moneys available, accrued or accruing, received or receivable, in said health and medical care fund in excess of ten million dollars in any fiscal year shall be transferred to the general fund of the state to be used pursuant to law. Moneys in the old age pension health and medical care fund shall be subject to annual appropriation by the general assembly.

(3) Repealed.

(4) The state department shall utilize the cash system of accounting, as enunciated by the governmental accounting standards board, regardless of the source of revenues involved, for all activities of the state department relating to the financial administration of any nonadministrative expenditure for the health and medical care programs described in subsection (2) of this section.

25.5-2.5-101. Short title. This article shall be known and may be cited as the "Colorado Cares Rx Act".

Source: **L. 2007:** Entire article added, p. 1, § 1, effective February 5.

25.5-2.5-102. Legislative declaration. (1) The general assembly finds that:
(a) Uninsured, underinsured, and older Coloradans pay a disproportionately greater share of their income for prescription drugs. In many cases, current drug prices have the

effect of denying residents access to necessary medical care, thereby threatening their health and safety.

(b) Prescription drugs play an increasingly important role in improving or stabilizing a person's health and in reducing overall health care costs;

(c) Additionally, the new medicare prescription drug benefit restricts persons from purchasing insurance in order to fully cover their prescription drug needs. This restriction on a person's ability to purchase adequate coverage may threaten the person's health and safety;

(d) Currently, there is no limit on the amount that a pharmacy may charge for a generic or nonpatented drug, and, although some retail pharmacies are offering some generic and nonpatented drugs at discounted prices, there are no guarantees that the pharmacies will continue to do so.

(2) The general assembly, therefore, declares that it is important to make information available to the public concerning ways to purchase lower-cost generic and nonpatented prescription drugs through the "Colorado Cares Rx Act" in order to protect the health of uninsured, underinsured, and older Coloradans. The general assembly further declares that the state should continue to actively research cost-effective mechanisms or programs that may provide additional options to address this need in Colorado.

25.5-2.5-103. Lower-cost prescription drugs - information - research - reporting.

(1) The state department shall make information available to the public concerning lower-cost prescription drug programs. The information shall include, but need not be limited to:

(a) Ways in which low-income, uninsured persons can obtain lower-cost prescription drugs; and

(b) Contact information concerning programs for lower-cost prescription drugs.

(2) The state department shall research cost-effective programs or mechanisms by which low-income, uninsured persons may purchase lower-cost prescription drugs.

(3) The state department shall report annually to the health and human services committees of the house of representatives and the senate, or any successor committees, concerning the provisions of this article.

PART 1

COLORADO INDIGENT CARE PROGRAM

25.5-3-101. Short title. This part 1 shall be known and may be cited as the “Colorado Indigent Care Program”.

Source: L. 2006: Entire article amended with relocations, p. 1802, § 6, effective July 1.

Editor’s note: This section is similar to former § 26-15-101 as it existed prior to 2006.

25.5-3-102. Legislative declaration. (1) The general assembly hereby determines, finds, and declares that:

(a) The state has insufficient resources to pay for all medical services for persons who are indigent and must therefore allocate available resources in a manner that will provide treatment of those conditions constituting the most serious threats to the health of such medically indigent persons, as well as increase access to primary medical care to prevent deterioration of the health conditions among medically indigent people; and

(b) Such allocation of resources will require the prioritization of medical services by providers and the coordination of administration and delivery of medical services.

(2) The general assembly further determines, finds, and declares that the eligibility of medically indigent persons to receive medical services rendered under the conditions specified in subsection (1) of this section exists only to the extent of available appropriations, as well as to the extent of the individual provider facility's physical, staff, and financial capabilities. The general assembly also recognizes that the program for the medically indigent is a partial solution to the health care needs of Colorado's medically indigent citizens. Therefore, medically indigent persons accepting medical services from such program shall be subject to the limitations and requirements imposed in this part 1.

Source: L. 2006: Entire article amended with relocations, p. 1802, § 6, effective July 1.

Editor's note: This section is similar to former § 26-15-102 as it existed prior to 2006.

25.5-3-103. Definitions. As used in this part 1, unless the context otherwise requires:

(1) "Emergency care" means treatment for conditions of an acute, severe nature which are life, limb, or disability threats requiring immediate attention, where any delay in treatment would, in the judgment of the responsible physician, threaten life or loss of function of a patient or viable fetus.

(2) "Executive director" means the executive director of the state department.

(3) "General provider" means a general hospital, birth center, or community health clinic licensed or certified by the department of public health and environment pursuant to section 25-1.5-103 (1) (a) (I) or (1) (a) (II), C.R.S.; a federally qualified health center, as defined in section 1861 (aa) (4) of the federal "Social Security Act", 42 U.S.C. sec. 1395x (aa) (4); a rural health clinic, as defined in section 1861 (aa) (2) of the federal "Social Security Act", 42 U.S.C. sec. 1395x (aa) (2); a health maintenance organization issued a certificate of authority pursuant to section 10-16-402, C.R.S.; and the health sciences center when acting pursuant to section 25.5-3-108 (5) (a) (I) or (5) (a) (II) (A). For the purposes of the program, "general provider" includes associated physicians.

(4) "Health sciences center" means the schools of medicine, dentistry, nursing, and pharmacy established by the regents of the university of Colorado under section 5 of article VIII of the Colorado constitution.

(5) "Program" means the program for the medically indigent established by section 25.5-3-104.

(6) "University hospital" means the university hospital operated pursuant to article 21 of title 23, C.R.S.

Source: L. 2006: Entire article amended with relocations, p. 1803, § 6, effective July 1. **L. 2011:** (3) amended, (HB 11-1101), ch. 94, p. 278, § 3, effective April 8; (3) amended, (HB 11-1323), ch. 265, p. 1199, § 3, effective June 2.

Editor's note: This section is similar to former § 26-15-103 as it existed prior to 2006.

25.5-3-104. Program for the medically indigent established - eligibility - rules.

(1) A program for the medically indigent is hereby established, to commence July 1, 1983, which shall be administered by the state department, to provide payment to providers for the provision of medical services to eligible persons who are medically indigent. The state board may promulgate rules as are necessary for the implementation of this part 1 in accordance with article 4 of title 24, C.R.S.

(2) A client's eligibility to receive discounted services under the program for the medically indigent shall be determined by rule of the state board based on a specified percentage of the federal poverty line, adjusted for family size, which percentage shall not be less than two hundred fifty percent.

Source: L. 2006: Entire section amended, p. 1606, § 2, effective June 2; entire article amended with relocations, p. 1803, § 6, effective July 1. **L. 2010:** (2) amended, (HB 10-1422), ch. 419, p. 2109, § 138, effective August 11.

Editor's note: (1) This section is similar to former § 26-15-104 as it existed prior to 2006.

(2) Amendments to section 26-15-104 by Senate Bill 06-044 were harmonized with this section as it appeared in Senate Bill 06-219.

Cross references: For the legislative declaration contained in the 2006 act amending this section, see section 1 of chapter 323, Session Laws of Colorado 2006.

25.5-3-105. Eligibility of legal immigrants for services. A legal immigrant who is a resident of the state of Colorado shall be eligible to receive services under this part 1 so long as he or she meets the eligibility requirements. As used in this section, "legal immigrant" has the same meaning as described in section 25.5-4-103 (10). As a condition of eligibility for services under this part 1, a legal immigrant shall agree to refrain from executing an affidavit of support for the purpose of sponsoring an alien on or after July 1, 1997, under rules promulgated by the immigration and naturalization service, or any successor agency, during the pendency of such legal immigrant's receipt of services under this part 1. Nothing in this section shall be construed to affect a legal immigrant's eligibility for services under this part 1 based upon such legal immigrant's responsibilities under an affidavit of support entered into before July 1, 1997.

Source: L. 2006: Entire article amended with relocations, p. 1804, § 6, effective July 1.

Editor's note: This section is similar to former § 26-15-104.3 as it existed prior to 2006.

25.5-3-106. No public funds for abortion - exception - definitions - repeal. (1) It is the purpose of this section to implement the provisions of amendment 3 to article V of the Colorado constitution, adopted by the registered electors of the state of Colorado at the general election November 6, 1984, which prohibits the use of public funds by the state of Colorado or its agencies or political subdivisions to pay or otherwise reimburse, directly or indirectly, any person, agency, or facility for any induced abortion.

(2) If every reasonable effort has been made to preserve the lives of a pregnant woman and her unborn child, then public funds may be used pursuant to this section to pay or reimburse for necessary medical services, not otherwise provided for by law.

(3) (a) Except as provided in paragraph (b) of this subsection (3), any necessary medical services performed pursuant to this section shall be performed only in a licensed health care facility by a provider who is a licensed physician.

(b) However, such services may be performed in other than a licensed health care facility if, in the medical judgment of the attending physician, the life of the pregnant woman or her unborn child is substantially threatened and a transfer to a licensed health care facility would further endanger the life of the pregnant woman or her unborn child. Such medical services may be performed in other than a licensed health care facility if the medical services are necessitated by a life-endangering circumstance described in subparagraph (II) of paragraph (b) of subsection (6) of this section and if there is no licensed health care facility within a thirty-mile radius of the place where such medical services are performed.

(4) (a) Any physician who renders necessary medical services pursuant to subsection (2) of this section shall report the following information to the state department:

(I) The age of the pregnant woman and the gestational age of the unborn child at the time the necessary medical services were performed;

(II) The necessary medical services which were performed;

(III) The medical condition which necessitated the performance of necessary medical services;

(IV) The date such necessary medical services were performed and the name of the facility in which such services were performed.

(b) The information required to be reported pursuant to paragraph (a) of this subsection (4) shall be compiled by the state department and such compilation shall be an ongoing public record; except that the privacy of the pregnant woman and the attending physician shall be preserved.

- (5) For purposes of this section, pregnancy is a medically diagnosable condition.
- (6) For the purposes of this section:
- (a) (I) “Death” means:
- (A) The irreversible cessation of circulatory and respiratory functions; or
- (B) The irreversible cessation of all functions of the entire brain, including the brain stem.
- (II) A determination of death under this section shall be in accordance with accepted medical standards.
- (b) “Life-endangering circumstance” means:
- (I) The presence of a medical condition, other than a psychiatric condition, as determined by the attending physician, which represents a serious and substantial threat to the life of the pregnant woman if the pregnancy continues to term;
- (II) The presence of a lethal medical condition in the unborn child, as determined by the attending physician and one other physician, which would result in the impending death of the unborn child during the term of pregnancy or at birth; or
- (III) The presence of a psychiatric condition which represents a serious and substantial threat to the life of the pregnant woman if the pregnancy continues to term. In such case, unless the pregnant woman has been receiving prolonged psychiatric care, the attending licensed physician shall obtain consultation from a licensed physician specializing in psychiatry confirming the presence of such a psychiatric condition. The attending physician shall report the findings of such consultation to the state department.
- (c) “Necessary medical services” means any medical procedures deemed necessary to prevent the death of a pregnant woman or her unborn child due to life-endangering circumstances.
- (7) If any provision of this section or application thereof is held invalid, such invalidity shall not affect other provisions or applications of this section which can be given effect without the invalid provision or application and, to this end, provisions of this section are declared severable.
- (8) Use of the term “unborn child” in this section is solely for the purposes of facilitating the implementation of section 50 of article V of the state constitution and its use shall not affect any other law or statute nor shall it create any presumptions relating to the legal status of an unborn child or create or affect any distinction between the legal status of an unborn child and the legal status of a fetus.
- (9) This section shall be repealed if section 50 of article V of the Colorado constitution is repealed.

Source: L. 2006: Entire article amended with relocations, p. 1804, § 6, effective July 1.

Editor’s note: This section is similar to former § 26-15-104.5 as it existed prior to 2006.

Cross references: For the text of “amendment 3 to article V of the Colorado constitution” referenced in subsection (1) of this section, see section 50 of article V of the state constitution.

ANNOTATION

Annotator’s note. Since § 25.5-3-106 is similar to § 26-15-104.5 as it existed prior to the 2006 amendments relocating article 15 of title 26 to title 25.5, a relevant case construing that provision has been included in the annotations to this section.

This section does not violate section 50 of article V of the constitution. Under this statutory section, reimbursement may not be provided for an abortion that is not necessary to prevent the death of the pregnant woman. Therefore this section is consistent with section 50 of article V which expresses the intention of the

people that no induced abortion shall be paid for by public funds unless necessary to prevent the death of the pregnant woman and unless every reasonable effort also has been made to preserve the life of the unborn child. *Urbish v. Lamm*, 761 P. 2d 756 (Colo. 1988).

Statutory authority for rules interpreting the exception to the expenditure of public funds for abortions exists where legislation found in this section specifically states that “if every reasonable effort has been made to preserve the lives of a pregnant woman and her unborn child, then public funds may be used pursuant to this

section to pay or reimburse for necessary medical services, not otherwise provided by law.” Urbish v. Lamm, 761 P.2d 756 (Colo. 1988).

Rule promulgated by department of social services which provided that when a pregnant woman’s life is endangered, public funds may be used for an abortion of a viable unborn child before term only in circumstances where every reasonable effort has been made to preserve the lives of both the mother and the unborn child is

within the scope of the exception to the prohibition on the use of public funds to pay for abortions. In contrast, a rule which allowed the public funding of abortions of unborn children who would die of natural causes at or before birth even if the mother’s life was not threatened by carrying the unborn child for a longer period was beyond the scope of the exception. Urbish v. Lamm, 761 P.2d 756 (Colo. 1988).

25.5-3-107. Report concerning the program. The executive director shall prepare an annual report concerning the status of the medically indigent program to be submitted to the health and human services committees of the senate and the house of representatives, or any successor committees, no later than February 1 of each year. The report shall be prepared following consultation with providers in the program, state department personnel, and other agencies, organizations, or individuals as the executive director deems appropriate in order to obtain comprehensive and objective information about the program.

Source: L. 2006: Entire article amended with relocations, p. 1806, § 6, effective July 1.

Editor’s note: This section is similar to former § 26-15-105 as it existed prior to 2006.

25.5-3-108. Responsibility of the department of health care policy and financing - provider reimbursement. (1) The state department shall be responsible for:

(a) Execution of such contracts with providers for partial reimbursement of costs for medical services rendered to the medically indigent as the state department shall determine are necessary for the program;

(b) Promulgation of such reasonable rules as are necessary for the program;

(c) Submission of the report required in section 25.5-3-107; and

(d) Application for federal financial participation under the program.

(2) The contracts required by paragraph (a) of subsection (1) of this section shall be negotiated between the state department and the various general providers, as defined in section 25.5-3-103 (3), and shall include contracts with providers to provide tertiary or specialized services. The state department may award such contracts upon a determination that it would not be cost effective nor result in adequate quality of care for such services to be developed by the contract providers, or upon a determination that the contract providers are unable or unwilling to provide such services.

(3) The state department shall establish procedures requiring the provider to provide for proof of indigency to be submitted by the person seeking assistance, but the provider shall be responsible for the determination of eligibility.

(4) The state department shall establish procedures so that the providers of medical services rendered to the medically indigent cover geographic regions of the state.

(5) (a) The responsibilities of providers who provide medical care through the program for the medically indigent are as follows:

(I) Denver health and hospitals, including associated physicians, shall, up to its physical, staff, and financial capabilities as provided for under this program, be the primary providers of medical services to the medically indigent for the city and county of Denver.

(II) (A) University hospital and the physicians and other faculty members of the health sciences center shall, up to their physical, staff, and financial capabilities as provided for under this program, be the primary provider of medical services to the medically indigent for the Denver primary metropolitan statistical area.

(B) University hospital and the physicians and other faculty members of the health sciences center shall be the primary provider of such complex care as is not available or is not contracted for in the remaining areas of the state up to their physical, staff, and financial capabilities as provided for under this program.

(b) Any two or more providers awarded contracts may, with the approval of the state department, redistribute their respective populations and associated funds.

(c) Every provider who provides medical care through the program for the medically indigent shall comply with all procedures established by the state department.

(6) The state department shall establish procedures that allocate funds to providers based on the anticipated utilization of services.

(7) A provider receiving reimbursement pursuant to this section shall transfer a medically indigent patient to another provider only with the prior agreement of the provider.

(8) (a) Every provider receiving reimbursement pursuant to this section shall prioritize for each fiscal year the medical services which it will be able to render, within the limits of the funds which will be made available by the state department.

(b) Such medical services shall be prioritized in the following order:

(I) Emergency care for the full year;

(II) Any additional medical care for those conditions the state department determines to be the most serious threat to the health of medically indigent persons;

(III) Any other additional medical care.

(9) A provider receiving reimbursement pursuant to this section shall not be liable in civil damages for refusing to admit for treatment or for refusing to treat any medically indigent person for a condition which the state department or the provider has determined to be outside of the scope of the program.

(10) (a) A medically indigent person who wishes to be determined eligible for assistance under this part 1 shall comply with the eligibility requirements set by the state department.

(b) A medically indigent person requesting assistance under this part 1 specifically authorizes the state department or provider to:

(I) Use any information required by the eligibility requirements set by the state department for the purpose of verifying eligibility; and

(II) Obtain records pertaining to eligibility from a financial institution, as defined in section 15-15-201 (4), C.R.S., or from any insurance company.

(c) A medically indigent person requesting assistance under this part 1 shall be provided language clearly explaining the provisions of this subsection (10).

(11) With the approval of the state department, any provider awarded a contract may enter into subcontracts or other agreements for services related to the program.

(12) Providers awarded contracts shall not be paid from funds made available for this program up to the extent, if any, of their annual financial obligation under the Hill-Burton act.

(13) When adopting or modifying procedures under this part 1, the state department shall notify each provider, who is contracted to provide medical care through the program for the medically indigent, at least thirty days prior to implementation of a new procedure. The state department shall hold a meeting for all providers at least thirty days prior to the implementation of a new procedure.

(14) The state department shall require any hospital provider who may receive payment under the program to annually submit data relating to the hospital's number of medicaid-eligible in-patient days and the hospital's total in-patient days in a form specified by the state department. The hospital provider shall verify the data to the state department through the program audit procedures required by the state department. The state department shall include this information by hospital in the department's annual budget request to the joint budget committee of the general assembly and in the report required by section 25.5-3-107.

(15) To qualify for the program's payment formula disproportionate share hospital factor, as described in rule by the state board consistent with the provisions of this part 1, a hospital provider's percent of medicaid-eligible in-patient days relative to total in-patient days shall be equal to or exceed one standard deviation above the mean.

(16) After receiving approval by the state department, a community health clinic may utilize moneys received pursuant to this article, and any gifts, grants, and donations, for the development and implementation of demonstration projects that may include but need not be limited to coordination of care and disease management.

(17) Subject to adequate funding made available under section 25.5-4-402.3, the state department shall increase hospital reimbursements up to one hundred percent of hospital costs for providing medical care under the program.

(18) Repealed.

Editor's note: (1) This section is similar to former § 26-15-106 as it existed prior to 2006.

(2) (a) Amendments to section 26-15-106 (1) by Senate Bill 06-044 were harmonized with subsection (1) as it appeared in Senate Bill 06-219.

(b) Subsection (16) was enacted as § 26-15-106 (20) in Senate Bill 06-044 but was relocated due to its harmonization with this section as it appeared in Senate Bill 06-219.

(3) Subsection (18)(b) provided for the repeal of subsection (18), effective July 1, 2011. (See L. 2009, p. 928.)

Cross references: (1) For the legislative declaration contained in the 2006 act amending subsection (1) and enacting subsection (16), see section 1 of chapter 323, Session Laws of Colorado 2006.

(2) For the "Hill-Burton Act" referenced in subsection (12), also known as the "Hospital Survey and Construction Act", see Pub.L. 725, 79th Congress, 60 Stat. 1040.

25.5-3-109. Appropriations. The general assembly shall make annual appropriations to the state department to accomplish the purposes of this part 1.

Source: **L. 2006:** Entire article amended with relocations, p. 1809, § 6, effective July 1.

Editor's note: This section is similar to former § 26-15-110 as it existed prior to 2006.

25.5-3-110. Effect of part 1. This part 1 shall not affect the department of human services' responsibilities for the provision of mental health care in accordance with article 66 of title 27, C.R.S., and this part 1 shall not affect any provisions of article 22 of title 23, C.R.S., or any other provisions of law relating to the university of Colorado psychiatric hospital.

Source: **L. 2006:** Entire article amended with relocations, p. 1809, § 6, effective July 1. **L. 2010:** Entire section amended, (SB 10-175), ch. 188, p. 800, § 64, effective April 29.

Editor's note: This section is similar to former § 26-15-111 as it existed prior to 2006.

25.5-3-111. Penalties. Any person who represents that any medical service is reimbursable or subject to payment under this part 1 when he or she knows that it is not and any person who represents that he or she is eligible for assistance under this part 1 when he or she knows that he or she is not commits a class 2 misdemeanor and shall be punished as provided in section 18-1.3-501, C.R.S.

Source: **L. 2006:** Entire article amended with relocations, p. 1809, § 6, effective July 1.

Editor's note: This section is similar to former § 26-15-112 as it existed prior to 2006.

25.5-3-112. Health care services fund - creation - state plan amendment - primary care special distribution fund. (1) (a) There is hereby created in the state treasury the Colorado health care services fund, referred to in this section as the "fund". The fund shall consist of moneys credited thereto pursuant to this section.

(b) In fiscal year 2005-06, the general assembly shall appropriate fourteen million nine hundred sixty-two thousand four hundred eight dollars from the general fund to the fund. Of the moneys in the general fund exempt account created in section 24-77-103.6 (2), C.R.S., the following amounts shall be appropriated by the general assembly to the fund:

(I) In fiscal year 2007-08, fifteen million dollars; and

(II) In fiscal year 2008-09, twelve million nine hundred eighteen thousand seven hundred fifty dollars.

(III) (Deleted by amendment, L. 2010, (HB 10-1321), ch. 48, p. 179, § 1, effective March 29, 2010.)

(b.5) In fiscal year 2009-10, the general assembly shall appropriate ten million three hundred ninety thousand dollars from the general fund to the fund.

(b.6) In fiscal year 2011-12, the treasurer shall transfer one million dollars from the general fund to the fund.

(c) All moneys appropriated to the fund shall be used as provided in this section and shall not be deposited in or transferred to the general fund of this state or to any other fund. Notwithstanding any provision of section 24-36-114, C.R.S., to the contrary, all interest derived from the deposit and investment of moneys in the fund shall be credited to the fund.

(1.5) Notwithstanding any provision of subsection (1) of this section to the contrary, on April 20, 2009, the state treasurer shall deduct five hundred thousand dollars from the fund and transfer such sum to the general fund.

(2) In fiscal year 2006-07, and each of the two fiscal years thereafter, notwithstanding the requirements of section 25.5-3-108 (8) (b), the moneys deposited into the fund shall be appropriated as follows:

(a) Of the moneys appropriated pursuant to this subsection (2), eighteen percent of the moneys annually appropriated shall be to Denver health and hospitals as the community health clinic provider for the city and county of Denver.

(b) (I) For fiscal year 2006-07, eighty-two percent of the moneys remaining after the appropriation pursuant to paragraph (a) of this subsection (2) shall be appropriated to community health clinics to provide primary care services pursuant to this article.

(II) For fiscal year 2006-07, eighteen percent of the moneys remaining after the appropriation pursuant to paragraph (a) of this subsection (2) shall be appropriated to primary care clinics operated by a licensed or certified health care facility to provide primary care services pursuant to this article.

(III) For fiscal years 2007-08 and 2008-09, the allocation of the moneys remaining after the appropriation pursuant to paragraph (a) of this subsection (2) shall be determined based on prior utilization as specified in rule by the state board.

(2.5) In fiscal year 2009-10, notwithstanding the requirements of section 25.5-3-108 (8) (b), the moneys deposited into the fund shall be appropriated as follows:

(a) Twenty percent of the moneys shall be appropriated to the state department for distribution to Denver health and hospitals as the community health clinic provider for the city and county of Denver;

(b) Eighty percent of the moneys shall be appropriated to the state department for distribution to community health clinics based upon prior utilizations as determined by the state department to mitigate reductions the clinics experience due to reductions in moneys available from the primary care fund created pursuant to section 24-22-117 (2) (b), C.R.S.

(2.7) In the 2010-11 fiscal year, notwithstanding the requirements of section 25.5-3-108 (8) (b), the moneys deposited into the fund shall be appropriated to the state department for distribution to Denver health and hospitals, as the community health clinic for the city and county of Denver, and to community health clinics. The state department shall develop a distribution formula specifying the distributions based upon prior utilizations and, to the extent possible, mitigation of the reductions in funding that the clinics experience due to reductions in moneys available from the primary care fund established pursuant to section 24-22-117 (2) (b), C.R.S.

(2.8) In the 2011-12 fiscal year, notwithstanding the requirements of section 25.5-3-108 (8) (b), the moneys deposited into the fund shall be appropriated to the state department for distribution to Denver health and hospitals, as the community health clinic for the city and county of Denver, to community health clinics, and to federally qualified health centers. The

state department shall develop a distribution formula specifying the distributions based upon prior utilizations and, to the extent possible, mitigation of the reductions in funding that the clinics experience due to reductions in moneys available from the primary care fund established pursuant to section 24-22-117 (2) (b), C.R.S.

(3) (a) The state department shall submit a state plan amendment for federal financial participation for moneys appropriated to primary care clinics operated by a licensed or certified health care facility. Upon approval of the state plan amendment, the state department is authorized to receive and expend all available federal moneys without a corresponding reduction in spending authority from the fund.

(b) To the extent possible under federal law, the state department shall pursue available federal financial participation for moneys appropriated to community health clinics.

(4) Repealed.

(2) Amendments to section 26-4-1007 (1) and (3)(a) by House Bill 06-1310 were harmonized with subsections (1) and (3), respectively, as they appeared in Senate Bill 06-219.

(3) Subsection (4)(c) provided for the repeal of subsection (4), effective July 1, 2010. (See L. 2010, p. 131.)

(4) Subsection (5) provided for the repeal of this section, effective September 15, 2011. (See L. 2011, p. 520.)

(5) For the amendments to this section that were in effect from May 5, 2011, to September 15, 2011, see chapter 149, Session Laws of Colorado 2011. (L. 2011, p. 520.)

PART 3**COMPREHENSIVE PRIMARY CARE SERVICES**

Editor's note: This part 3 was added in 2006. It was repealed in 2011 and was subsequently recreated and reenacted in 2012, resulting in the addition, relocation, or elimination of sections as well as subject matter. For amendments to this part 3 prior to 2011, consult the 2010 Colorado Revised Statutes and the Colorado statutory research explanatory note beginning on page vii in the front of this volume.

25.5-3-301. Definitions. As used in this part 3, unless the context otherwise requires:

(1) "Comprehensive primary care" means the basic, entry-level health care provided by health care practitioners or non-physician health care practitioners that is generally provided in an outpatient setting. "Comprehensive primary care", at a minimum, includes providing or arranging for the provision of the following services on a year-round basis: Primary health care; maternity care, including prenatal care; preventive, developmental, and diagnostic services for infants and children; adult preventive services; diagnostic laboratory

and radiology services; emergency care for minor trauma; pharmaceutical services; and coordination and follow-up for hospital care. “Comprehensive primary care” may also include optional services based on a patient’s needs. For the purposes of this subsection (1) and subsection (2) of this section, “arranging for the provision” means demonstrating established referral relationships with health care providers for any of the comprehensive primary care services not directly provided by an entity. An entity in a rural area may be exempt from this requirement if it can demonstrate that there are no providers in the community to provide one or more of the comprehensive primary care services.

(2) “Qualified provider” means an entity that provides comprehensive primary care services and that:

(a) Accepts all patients regardless of their ability to pay and uses a sliding fee schedule for payments or that provides comprehensive primary care services free of charge;

(b) Serves a designated medically underserved area or population, as provided in section 330(b) of the federal “Public Health Service Act”, 42 U.S.C. sec. 254b, or demonstrates to the state department that the entity serves a population or area that lacks adequate health care services for low-income, uninsured persons;

(c) Has a demonstrated track record of providing cost-effective care;

(d) Provides or arranges for the provision of comprehensive primary care services to persons of all ages; and

(e) Completes initial screening for eligibility for the state medical assistance program, the children’s basic health plan, and any other relevant government health care program and referral to the appropriate agency for eligibility determination.

(3) “Uninsured or medically indigent patient” means a patient receiving services from a qualified provider:

(a) Whose yearly family income is below two hundred percent of the federal poverty line; and

(b) Who is not eligible for medicaid, medicare, or any other type of governmental reimbursement for health care costs; and

(c) Who is not receiving third-party payments.

Source: L. 2012: Entire part RC&RE, (HB 12-1203), ch. 5, p. 15, § 1, effective March 1.

25.5-3-302. Annual allocation - primary care services - qualified provider - rules.

(1) The state department shall annually allocate the moneys appropriated by the general assembly to the primary care fund created in section 24-22-117 (2) (b), C.R.S., to all eligible qualified providers in the state who comply with the requirements of subsection (2) of this section. The state department shall allocate the moneys in amounts proportionate to the number of uninsured or medically indigent patients served by the qualified provider. For a qualified provider to be eligible for an allocation pursuant to this section, the qualified provider shall meet either of the following criteria:

(a) The qualified provider is a community health center, as defined in section 330 of the federal “Public Health Service Act”, 42 U.S.C. sec. 254b; or

(b) At least fifty percent of the patients served by the qualified provider are uninsured or medically indigent patients, or patients who are enrolled in the medical assistance program, articles 4, 5, and 6 of this title, or the children’s basic health plan, article 8 of this title, or any combination thereof.

(2) A qualified provider shall annually submit to the state department information sufficient to establish the provider’s eligibility status. A qualified provider, except for a provider specified in paragraph (a) of subsection (1) of this section, shall provide an annual report that includes the total number of patients served, the number of uninsured or medically indigent patients served, and the number of patients served who are enrolled in the medical assistance program, articles 4, 5, and 6 of this title, or the children’s basic health plan, article 8 of this title. A community health center specified in paragraph (a) of

subsection (1) of this section shall annually provide to the state department the number of uninsured or medically indigent patients served. Each eligible qualified provider shall annually develop and submit to the state department documentation regarding the quality assurance program in place at the provider’s facility to ensure that quality comprehensive primary care services are being provided. All qualified providers shall submit to the state department the information required under this section, as specified in rule by the state board. The data regarding the number of patients served shall be verified by an outside entity. For purposes of this part 3, the number of patients served is the number of unduplicated users of health care services and is not the number of visits by a patient.

(3) The state department shall make annual direct allocations of the total amount of money annually appropriated by the general assembly to the primary care fund pursuant to section 24-22-117 (2) (b), C.R.S., minus three percent for the administrative costs of the program, to all eligible qualified providers. An eligible qualified provider’s allocation shall be based on the number of uninsured or medically indigent patients served by the provider in proportion to the total number of uninsured or medically indigent patients served by all eligible qualified providers in the previous calendar year. The state department shall establish a schedule for allocating the moneys in the primary care fund for eligible qualified providers. The disbursement of moneys in the primary care fund to eligible qualified providers under this part 3 are exempt from the provisions of the “Procurement Code”, articles 101 to 112 of title 24, C.R.S.

(4) The state board shall adopt any rules necessary for the administration and implementation of this part 3.

Source: L. 2012: Entire part RC&RE, (HB 12-1203), ch. 5, p. 16, § 1, effective March 1.

25.5-3-303. Consultation. At least annually, the state department shall consult with representatives of federally qualified health centers, school-based health centers, family residency directors, certified rural health clinics, other qualified providers, and consumer advocates regarding the implementation and administration of the allocation of moneys to qualified providers under this part 3.

Source: L. 2012: Entire part RC&RE, (HB 12-1203), ch. 5, p. 17, § 1, effective March 1.

COLORADO MEDICAL ASSISTANCE ACT

ARTICLE 4

Colorado Medical Assistance Act -
General Medical Assistance

Editor’s note: This article was added with relocations in 2006 containing provisions of some sections formerly located in article 4 of title 26 or in article 1 of this title. Former C.R.S. section numbers are shown in editor’s notes following those sections that were relocated. For a detailed comparison of this article, see the comparative tables located in the back of the index.

PART 1		25.5-4-105.	Federal requirements under Title XIX.
GENERAL PROVISIONS		25.5-4-106.	Cooperation with federal government - grants-in-aid - cooperation with the department of human services in delivery of services.
25.5-4-101.	Short title.		
25.5-4-102.	Legislative declaration.		
25.5-4-103.	Definitions.		
25.5-4-104.	Program of medical assistance - single state agency.	25.5-4-107.	Retaliation definition.

PART 2

ADMINISTRATION

- 25.5-4-201. Cash system of accounting - financial administration of medical services premiums - medical programs administered by department of human services - federal contributions - rules.
- 25.5-4-202. Comprehensive plan for other services and benefits.
- 25.5-4-203. Advisory council established.
- 25.5-4-204. Automated medical assistance administration.
- 25.5-4-205. Application - verification of eligibility - demonstration project - rules.
- 25.5-4-205.5. Confined persons - suspension of benefits.
- 25.5-4-206. Reimbursement to counties - costs of administration.
- 25.5-4-207. Appeals.
- 25.5-4-208. County duties - transitional medicaid.
- 25.5-4-209. Payments by third parties - copayments by recipients - review - appeal - children's waiting list reduction fund - repeal.
- 25.5-4-210. Purchase of health insurance for recipients.

PART 3

RECOVERY

- 25.5-4-300.4. Last resort for payment - legislative intent.
- 25.5-4-300.7. Prevention of coding errors - prepayment review of claims - report.
- 25.5-4-301. Recoveries - overpayments - penalties - interest - adjustments - liens - review or audit procedures.
- 25.5-4-302. Recovery of assets.
- 25.5-4-303. State income tax refund intercept - garnishment of earning - failure to provide medical support for child.
- 25.5-4-303.3. Provider fraud - attorney general report.
- 25.5-4-303.5. Short title.
- 25.5-4-304. Definitions.
- 25.5-4-305. False medicaid claims - liability for certain acts.
- 25.5-4-306. Civil actions for false medicaid claims.

- 25.5-4-307. False medicaid claims procedures.
- 25.5-4-308. False medicaid claims jurisdiction.
- 25.5-4-309. False medicaid claims civil investigation demands.
- 25.5-4-310. False medicaid claims reports.

PART 4

PROVIDERS - REIMBURSEMENT

- 25.5-4-401. Providers - payments - rules - repeal.
- 25.5-4-402. Providers - hospital reimbursement - rules.
- 25.5-4-402.3. Providers - hospital - provider fees - legislative declaration - federal waiver - fund created - rules - advisory board - repeal.
- 25.5-4-402.5. Providers - state university teaching hospitals.
- 25.5-4-403. Providers - community mental health center and clinics - reimbursement.
- 25.5-4-404. Payments for clinic services - restrictions on use.
- 25.5-4-405. Mental health managed care service providers - requirements.
- 25.5-4-406. Rate setting - medicaid residential treatment service providers - monitoring and auditing - report.
- 25.5-4-407. Services by licensed psychologists without a doctor's referral.
- 25.5-4-408. Services provided by licensed psychologists - cost containment program.
- 25.5-4-409. Authorization of services - nurse anesthetists - advanced practice nurses.
- 25.5-4-410. Services of audiologists and speech pathologists without supervision.
- 25.5-4-411. Authorization of services provided by dental hygienists.
- 25.5-4-412. Medical services provided by certified family planning clinics.
- 25.5-4-413. Certain providers to inform patients of rights concerning advance medical directives.
- 25.5-4-414. Providers - physicians - prohibition of certain referrals - definitions.

25.5-4-415.	No public funds for abortion - exception - repeal.	PART 5
25.5-4-416.	Providers - medical equipment and supplies - requirements.	STATE PLAN AMENDMENTS - WAIVER AUTHORITY
25.5-4-417.	Provider fee - medicaid providers - state plan amendment - rules - definitions. (Repealed)	25.5-4-501. State plan amendment - federal authorization - repeal. (Repealed)
25.5-4-418.	Integration of physical and behavioral health services - department review - report - repeal. (Repealed)	25.5-4-502. Federal authorization - repeal. (Repealed)
		25.5-4-503. Waiver applications - authorization.

PART 1

GENERAL PROVISIONS

25.5-4-101. Short title. This article and articles 5 and 6 of this title shall be known and may be cited as the “Colorado Medical Assistance Act”.

Source: L. 2006: Entire article added with relocations, p. 1815, § 7, effective July 1.

Editor’s note: This section is similar to former § 26-4-101 as it existed prior to 2006.

ANNOTATION

Applied in *Sherman v. District Court*, 637 P.2d 378 (Colo. 1981) (decided prior to the 2006 amendments relocating article 4 of title 26 to title 25.5).

25.5-4-102. Legislative declaration. It is the purpose of the “Colorado Medical Assistance Act” to promote the public health and welfare of the people of Colorado by providing, in cooperation with the federal government, medical and remedial care and services for individuals and families whose income and resources are insufficient to meet the costs of such necessary services and to assist such individuals and families to attain or retain their capabilities for independence and self-care, as contemplated by the provisions of Title XIX of the social security act. The state of Colorado and its various departments, agencies, and political subdivisions are authorized to promote and achieve these ends by any appropriate lawful means, through cooperation with and the utilization of available resources of the federal government and private individuals and organizations.

Source: L. 2006: Entire article added with relocations, p. 1815, § 7, effective July 1.

Editor’s note: This section is similar to former § 26-4-102 as it existed prior to 2006.

ANNOTATION

Annotator’s note. Since § 25.5-4-102 is similar to § 26-4-102 as it existed prior to the 2006 amendments relocating article 4 of title 26 to title 25.5, relevant cases construing that provision have been included in the annotations to this section.

Program not limited to services and procedures available under Medicaid. While this statute furnishes a limiting guide for administra-

tion of Colorado’s medical assistance program, it does not limit the scope of that program to medical services and procedures for reimbursement under the federal Medicaid program. *Dodge v. State Dept. of Soc. Servs.*, 657 P.2d 969 (Colo. App. 1982).

Applied in *City of Colo. Springs v. State*, 640 P.2d 870 (Colo. App. 1982).

25.5-4-103. Definitions. As used in this article and articles 5 and 6 of this title, unless the context otherwise requires:

(1) "1931 medicaid recipient" means any person who is eligible for medicaid as provided in section 25.5-5-101 (1) (a), 25.5-5-201 (1) (a), or 25.5-5-201 (1) (h) and refers to section 1931 of Title XIX of the federal "Social Security Act", 42 U.S.C. sec. 1396u-1.

(2) "Applicant" means any person who has applied for benefits under this article and articles 5 and 6 of this title.

(3) "Case management services" means services provided by community centered boards, as defined by section 27-10.5-102 (3), C.R.S., and community mental health centers and community mental health clinics, as defined by section 27-66-101, C.R.S., to assist developmentally disabled persons, as defined by section 27-10.5-102 (11), C.R.S., and persons with mental illness, as defined by section 27-65-102 (14), C.R.S., by case management agencies, as defined in section 25.5-6-303 (5), providing services, as defined in sections 25.5-6-104 (2) (b) and 25.5-6-303 (6), to elderly, blind, and disabled persons and long-term care clients, in gaining access to needed medical, social, educational, and other services.

(4) "Categorically needy" means those persons who are eligible for medical assistance under this article and articles 5 and 6 of this title due to their eligibility for one or more of the federal categories of public assistance. A person may be categorically needy and eligible for medical assistance under mandatory provisions as provided under section 25.5-5-101 or may be categorically needy under optional provisions as provided under section 25.5-5-201.

(5) "Clinic services" means those services as defined in section 25.5-5-301.

(6) "Essential person" means a person who meets the requirements of section 26-2-103 (5), C.R.S.

(7) "Home health services" is synonymous with "home health care" and includes the following services provided to an eligible person in his place of residence, through a certified home health agency, pursuant to a home health plan of care:

(a) Nursing services;

(b) Home health aide services;

(c) Provision of medical supplies, equipment, and appliances suitable for use in the home;

(d) Physical therapy, occupational therapy, or speech and hearing therapy.

(8) "Hospice care" means services provided by a public agency or private organization, or any subdivision thereof, which entity shall be known as a hospice and shall be primarily engaged in providing care to an individual for whom a certified medical prognosis has been made indicating a life expectancy of six months or less and who has elected to receive such care in lieu of other medical benefits available under this article and articles 5 and 6 of this title.

(9) "Intermediate nursing facility for the mentally retarded" means a tax-supported, state-administered intermediate nursing facility, or a distinct part of such facility, which meets the state nursing home licensing standards set forth in section 25-1.5-103 (1) (a) (I), C.R.S., and the requirements in 42 U.S.C. sec. 1396d and which:

(a) Is maintained primarily to provide health-related care on a regular basis for the mentally retarded or for persons with developmental disabilities, as defined in section 27-10.5-102 (11), C.R.S., who do not require the degree of care and treatment which a hospital or skilled nursing facility can provide but who, because of their mental or physical condition, require care and services above the level of room and board, which can be made available only through institutional facilities; and

(b) May provide care which includes but is not limited to moderate assistance or therapy functions; occasional direction, supervision, or therapy; moderate assistance or therapy for loss of mobility; routine, nonskilled nursing services; and monitoring of the drug regimen.

(10) "Legal immigrant" means an individual who is not a citizen or national of the United States and who was lawfully admitted to the United States by the immigration and naturalization service, or any successor agency, as an actual or prospective permanent resident or whose extended physical presence in the United States is known to and allowed by the immigration and naturalization service, or any successor agency.

(11) "Liable" or "liability" means the legal liability of a third party, either by reason of judgment, settlement, compromise, or contract, as the result of negligent acts or other

wrongful acts or otherwise for all or any part of the medical cost of an injury, a disease, or the disability of an applicant for or recipient of medical assistance.

(12) “Managed care system” means a system for providing health care services which integrates both the delivery and the financing of health care services in an attempt to provide access to medical services while containing the cost and use of medical care.

(13) “Medical assistance” means payment on behalf of recipients eligible for and enrolled in the program established in articles 4, 5, and 6 of this title, which is funded through Title XIX of the federal “Social Security Act”, 42 U.S.C. sec. 1396u-1, to enrolled providers under the state medical assistance program of medical care, services, goods, and devices rendered or provided to recipients under this article and articles 5 and 6 of this title, and other related payments, pursuant to this article and articles 5 and 6 of this title and the rules of the state department.

(14) “Nursing facility” means a facility, or a distinct part of a facility, which meets the state nursing home licensing standards in section 25-1.5-103 (1) (a) (I), C.R.S., is maintained primarily for the care and treatment of inpatients under the direction of a physician, and meets the requirements in 42 U.S.C. sec. 1396r for certification as a qualified provider of nursing facility services. The patients in such a facility require supportive, therapeutic, or compensating services and the availability of a licensed nurse for observation or treatment on a twenty-four-hour basis. Nursing care may include but is not limited to terminal care; extensive assistance or therapy in the activities of daily living; continual direction, supervision, or therapy; extensive assistance or therapy for loss of mobility; nursing assessment and services which involve assessment of the total needs of the patient, planning of patient care, and observing, monitoring, and recording the patient’s response to treatment; and monitoring, observing, and evaluating the drug regimen. “Nursing facility” includes private, nonprofit, or proprietary intermediate nursing facilities for the mentally retarded or developmentally disabled.

(15) “Overpayment” means the amount paid by an agency administering the medical assistance program to an enrolled provider under the state medical assistance program participating in the program, which amount is in excess of the amount that is allowable for services furnished and which is required by Title XIX of the social security act to be refunded to the appropriate medicaid agencies.

(16) “Patient personal needs trust fund” means any fund or account established by the nursing care facility or intermediate care facility or its agents, employees, or designees to manage the personal needs funds of the facility’s patients.

(17) “Personal needs funds” means moneys received by any person admitted to a nursing care facility or intermediate care facility, which moneys are received by said person to purchase necessary clothing, incidentals, or other personal needs items which are not reimbursed by any federal or state program, or items of value, which moneys or items of value are in any way surrendered to the management or control of said facility, its agents, employees, or designees.

(18) “Pilot program”, as used in section 25.5-5-319, means the family planning pilot program established in section 25.5-5-319, which is carried out by all medicaid providers who provide family planning services and which shall be repealed, effective July 1 five years after the issuance of the federal waiver or July 1 in the year in which the waiver is terminated, whichever occurs first.

(19) (a) “Provider” means any person, public or private institution, agency, or business concern providing medical care, services, or goods authorized under this article and articles 5 and 6 of this title and holding, where applicable, a current valid license or certificate to provide such services or to dispense such goods and enrolled under the state medical assistance program. These services must be provided and goods must be dispensed only if performed, referred, or ordered by a doctor of medicine or a doctor of osteopathy. Services of dentists, podiatrists, and optometrists or services provided by a school district under section 25.5-5-318 need not be referred or ordered by a doctor of medicine or a doctor of osteopathy.

(b) “Provider” includes a laboratory certified under the federal “Clinical Laboratories Improvement Act of 1967”, as amended, 42 U.S.C. sec. 263a, to perform high complexity testing.

(19.5) “Psychiatric residential treatment facility” means a facility that is licensed as a residential child care facility, as defined in section 26-6-102 (8), C.R.S., that is not a hospital, and that provides inpatient psychiatric services for individuals who are less than twenty-one years of age under the direction of a physician licensed pursuant to article 36 of title 12, C.R.S., and that meets any other requirement established in rule by the state board.

(20) “Qualified alien” shall have the meaning ascribed to that term in section 431 (b) of the federal “Personal Responsibility and Work Opportunity Reconciliation Act of 1996”, Public Law 104-193, as amended.

(21) “Recipient” means any person who has been determined eligible to receive benefits under this article and articles 5 and 6 of this title, whose need for medical care has been professionally established, and for whose care less than full payment is available through the legal obligation of a contractor, public or private, to pay for or provide such care.

(22) “Recovery” or “amount recovered” means the amount payable to the applicant or recipient or his heirs, assigns, or legal representatives as the result of any liability of a third party.

(23) “Rehabilitative services” means any medical or remedial services recommended by a physician which may reduce physical or mental disability and which may improve functional level.

(24) “Resident” means any individual who is living, other than temporarily, within the state. “Resident” includes any unemancipated child whose parent, or other person entitled to custody, lives within the state. The state board shall adopt rules for making this determination. Temporary absences from the state shall not cause an individual to lose his status as a resident of this state.

(25) “Social security act” means the federal “Social Security Act” and amendments thereto.

(25.5) “State university teaching hospital” means a hospital licensed or certified pursuant to section 25-1.5-103 (1) (a), C.R.S.:

(a) That provides supervised teaching experiences to graduate medical school interns and residents enrolled in a state institution of higher education as defined in section 23-18-102 (10), C.R.S.; and

(b) In which more than fifty percent of its credentialed physicians are members of the faculty at a state institution of higher education as defined in section 23-18-102 (10), C.R.S.

(26) “Third party” means an individual, institution, corporation, or public or private agency which is or may be liable to pay all or any part of the medical cost of an injury, a disease, or the disability of an applicant for or recipient of medical assistance.

(27) “Title XIX” means Title XIX of the social security act, as amended, administered by the federal department of health and human services, or any successor agency, and includes amendments thereto and other federal social security laws replacing said title, in whole or in part.

(28) “Transitional medicaid” means the medical assistance provided to recipients eligible pursuant to section 25.5-5-101 (1) (b).

Editor’s note: (1) This section is similar to former § 26-4-103 as it existed prior to 2006.

(2) Subsection (3) was originally numbered as § 26-4-103 (2), and the amendments to it in House Bill 06-1277 were harmonized with subsection (3) as it appeared in Senate Bill 06-219.

(3) Subsection (19.5) was enacted as § 26-4-103 (13.6) in House Bill 06-1395 but was relocated due to its harmonization with this section as it appeared in Senate Bill 06-219.

25.5-4-104. Program of medical assistance - single state agency. (1) The state department, by rules, shall establish a program of medical assistance to provide necessary medical care for the categorically needy. The state department is hereby designated as the single state agency to administer such program in accordance with Title XIX and this article and articles 5 and 6 of this title. Such program shall not be required to furnish recipients under sixty-five years of age the benefits that are provided to recipients sixty-five years of age and over under Title XVIII of the social security act; but said program shall otherwise be uniform to the extent required by Title XIX of the social security act.

(2) The state department may review any decision of a county department and may consider any application upon which a decision has not been made by the county department within a reasonable time to determine the propriety of the action or failure to take timely action on an application for medical assistance. The state department shall make such additional investigation as it deems necessary and shall, after giving the county department an opportunity to rebut any findings or conclusions of the state department that the action or delay in taking action was a violation of or contrary to state department rules, make such decision as to the granting of medical benefits and the amount thereof as in its opinion is justifiable pursuant to the provisions of this article and articles 5 and 6 of this title and the rules of the state department. Applicants or recipients affected by such decisions of the state department, upon request, shall be given reasonable notice and opportunity for a fair hearing by the state department.

Editor's note: This section is similar to former § 26-4-104 as it existed prior to 2006.

ANNOTATION

Annotator's note. Since § 25.5-4-104 is similar to § 26-4-104 as it existed prior to the 2006 amendments relocating article 4 of title 26 to title 25.5, relevant cases construing that provision have been included in the annotations to this section.

Program for "medically needy" not required. The superimposition of a program for the medically needy could create much administrative difficulty and uncertainty and encourage excessive medical expenses and resultant waste. *Fullington v. Shea*, 320 F. Supp. 500 (D. Colo. 1970), *aff'd mem.*, 404 U.S. 963, 92 S. Ct. 345, 30 L. Ed.2d 282 (1971), *reh'g denied*, 404 U.S. 1027, 92 S. Ct. 692, 30 L. Ed.2d 678 (1972).

Since the federal laws relative to the "medically indigent" are optional, the failure of Colorado to extend medicaid to the "medically indigent" while at the same time extending it to the "categorical" recipients does not constitute an invalid discrimination violative of the equal protection clause of the fourteenth amendment to the constitution of the United States. *Fullington v. Shea*, 320 F. Supp. 500 (D. Colo. 1970), *aff'd mem.*, 404 U.S. 963, 92 S. Ct. 345, 30 L. Ed.2d 282 (1971), *reh'g denied*, 404 U.S. 1027, 92 S. Ct. 692, 30 L. Ed.2d 678 (1972).

Applied in *Dodge v. State Dept. of Soc. Servs.*, 657 P.2d 969 (Colo. App. 1982).

25.5-4-105. Federal requirements under Title XIX. Nothing in this article or articles 5 and 6 of this title shall prevent the state department from complying with federal requirements for a program of medical assistance in order for the state of Colorado to qualify for federal funds under Title XIX of the social security act and to maintain a program within the limits of available appropriations.

Source: L. 2006: Entire article added with relocations, p. 1820, § 7, effective July 1.

Editor's note: This section is similar to former § 26-4-105 as it existed prior to 2006.

25.5-4-106. Cooperation with federal government - grants-in-aid - cooperation with the department of human services in delivery of services. (1) The state department shall be the sole state agency for administering the state plans for health and medical assistance pursuant to this title, and any other state plan relating to medical assistance that

requires state action which is not specifically the responsibility of some other state department, division, section, board, commission, or committee under the provisions of federal or state law.

(2) (a) The state department may accept on behalf of the state of Colorado the provisions and benefits of acts of congress designed to provide funds or other property for particular medical assistance within the state, which funds or other property are designated for such purposes within the function of the state department, and may accept on behalf of the state any offers which have been or may from time to time be made of funds or other property by any persons, agencies, or entities for particular medical assistance activities within the state, which funds or other property are designated for such purposes within the function of the state department; but, unless otherwise expressly provided by law, such acceptance shall not be manifested unless and until the state department has recommended such acceptance to and received the written approval of the governor and the attorney general. Such approval shall authorize the acceptance of the funds or property in accordance with the restrictions and conditions for the purpose for which funds or property are intended.

(b) The state treasurer is designated as ex officio custodian of all medical assistance funds received by the state from the federal government and from any other source, if the approval provided for in paragraph (a) of this subsection (2) has been obtained.

(c) The state treasurer shall hold each such fund separate and distinct from state funds and is authorized to make disbursements from such funds for the designated purpose or for administrative costs, which may be provided in such grants upon warrants issued by the state controller upon the voucher of the state department.

(3) The state department shall cooperate with the federal department of health and human services and other federal agencies in any reasonable manner, in conformity with the laws of this state, which may be necessary to qualify for federal financial participation, including the preparation of state plans, the making of reports in such form and containing such information as any federal agency may from time to time require, and the compliance with such provisions as the federal government may from time to time find necessary to assure the correctness and verification of the reports.

(4) The rules of the state department may include provisions to accommodate requirements of contracts entered into between the state department and the federal department of health and human services, or any successor agency, for studies of guaranteed annual income or other forms of income maintenance research projects; and for such purpose, the requirements of this title as to eligibility for medical assistance shall not apply for the term of and in accordance with the contract for such purpose.

(5) The state department is responsible for administering the delivery of medical assistance by county departments of social services or any other public or private entities participating in the delivery of medical assistance pursuant to this article and articles 5 and 6 of this title.

Editor's note: This section is similar to former § 26-4-110 as it existed prior to 2006.

25.5-4-107. Retaliation definition. (1) For purposes of any rules promulgated by the state department or state board and any action taken by the state department against any person, "retaliation" means taking any of the following actions against a recipient or someone acting on behalf of a recipient after the recipient or someone acting on behalf of the recipient files a complaint concerning services provided or not provided to the recipient:

(a) Indicating to a recipient that the recipient cannot have an advocate, family member, or other authorized representative assist the recipient; or

(b) (I) An adverse action that negatively affects a recipient's level of eligibility for or receipt of services received at the time of the complaint without verification of a change in the recipient's income, resources, or health care needs that justifies the adverse action.

(II) No adverse action shall be taken against a recipient after a complaint has been filed until the recipient is notified of the proposed action, informed of the reason for the proposed action, and provided an opportunity to appeal the proposed action.

(2) "Retaliation" shall not include instances where a recipient is not eligible for a service or program or where a provider documents a problem with a recipient and shares the documentation with the recipient or a third party prior to the recipient filing a complaint.

Editor's note: This section was originally numbered as § 26-4-402.5 in House Bill 06-1211. Section 2 of the act provided for the renumbering and relocation of § 26-4-402.5 to this section. (See L. 2006, p. 1020.)

PART 2

ADMINISTRATION

25.5-4-201. Cash system of accounting - financial administration of medical services premiums - medical programs administered by department of human services - federal contributions - rules. (1) The state department shall utilize the cash system of accounting, as enunciated by the governmental accounting standards board, regardless of the source of revenues involved, for all activities of the state department relating to the financial administration of any nonadministrative expenditure that qualifies for federal financial participation under Title XIX of the federal "Social Security Act", except for expenditures under the program for the medically indigent, article 3 of this title.

(1.5) (a) The state department shall utilize the cash system of accounting, as enunciated by the governmental accounting standards board, for the contributions required by 42 U.S.C. sec. 1396u-5 (c).

(b) The contributions required by 42 U.S.C. sec. 1396u-5 (c) shall be made in the manner required by the federal centers for medicare and medicaid services, or any successor agency. Nothing in this paragraph (b) shall require the state department to make the contribution before the contribution is due.

(2) The executive director shall promulgate rules to identify the programs utilizing the cash system of accounting.

Editor's note: (1) This section is similar to former § 26-4-110.7 as it existed prior to 2006.

(2) Amendments to section 26-4-110.7 by Senate Bill 06-129 were harmonized with this section as it appeared in Senate Bill 06-219.

25.5-4-202. Comprehensive plan for other services and benefits. In accordance with federal requirements pertaining to the development of a broad-based medical care program for low-income families, the state department shall prepare a comprehensive medical plan for consideration by the house and senate committees on health and human services, or any successor committees. The comprehensive plan shall include alternate means of expanding the medical care benefits and coverage provided in this article and articles 5 and 6 of this title. The comprehensive plan shall be reevaluated annually and shall be based upon a documented review of medical needs of low-income families in Colorado, a detailed analysis of priorities of service, coverage, and program costs, and an evaluation of progress. The medical advisory council appointed pursuant to this article shall assist the state department in the preparation of the comprehensive plan.

Source: L. 2006: Entire article added with relocations, p. 1821, § 7, effective July 1.

Editor's note: This section is similar to former § 26-4-107 as it existed prior to 2006.

ANNOTATION

Law reviews. For article, "Before the Miller Trust: Long-Term Care and HCBS Considerations", see 24 Colo. Law. 2721 (1995).

25.5-4-203. Advisory council established. There is hereby created a state medical assistance and services advisory council, referred to in this article as the "advisory council", consisting of sixteen members. Ex officio members of the advisory council shall be the executive directors of the state department and the department of health or their successors in function. The remaining members of the advisory council shall be appointed by the governor and shall be chosen by him to represent the various areas of medical services and the public. Specifically included shall be two members who are doctors of medicine licensed in this state, one doctor of osteopathy licensed in this state, one dentist licensed in this state, one optometrist licensed in this state, one owner or operator of a licensed nursing facility in this state, one member who shall represent licensed hospitals in this state, one pharmacist licensed in this state, one professional nurse licensed in this state, one member who has provided home health care services for three years, and three members who are not directly associated with the areas of medical services to represent the public. The remaining member may represent any other area of medical services not specifically enumerated but shall not be limited thereto. Members shall serve at the pleasure of the governor and shall receive no compensation but shall be reimbursed for their actual and necessary expenses. The advisory council shall advise the state department on the provision of health and medical care services to recipients.

Source: L. 2006: Entire article added with relocations, p. 1822, § 7, effective July 1.

Editor's note: This section is similar to former § 26-4-108 as it existed prior to 2006.

25.5-4-204. Automated medical assistance administration. (1) The general assembly hereby finds and declares that the agency responsible for the administration of the state's medical assistance program would be more effective in its ability to streamline administrative functions of program administrators and providers under the program through the implementation of an automated system that will provide for the following:

- (a) Electronic claim submittals;
- (b) On-line eligibility determinations;
- (c) Electronic remittance statements;
- (d) Electronic fund transfers; and
- (e) Automation of other administrative functions associated with the medical assistance program.

(2) Therefore, the general assembly declares that it is appropriate to enact legislation, as set forth in subsection (3) of this section, that authorizes the state department to develop and implement an automated system for processing claims and payments under the medical assistance program, as well as for other administrative functions associated with the program.

(3) The executive director of the state department shall develop and implement an automated system through which medical assistance claims and payments and eligibility determinations or other related transactions may be processed. The system shall provide for the use of automated electronic technologies. The automated system may be implemented in phases if deemed necessary by the executive director. The automated system shall be implemented only after the executive director determines that:

- (a) Technology is available and proven to perform satisfactorily in a production environment;
- (b) Adequate financing is available to facilitate the implementation and maintenance of the system. Financing may include, but is not limited to, federal funds, appropriations from the general fund, provider transaction fees, or any other financing mechanisms which the state department may impose, and grants or contributions from public or private entities.
- (c) The system has been successfully installed and fully tested; and
- (d) Adequate provider training has been provided for an orderly implementation.

Source: L. 2006: Entire article added with relocations, p. 1822, § 7, effective July 1.

Editor's note: This section is similar to former § 26-4-403.7 as it existed prior to 2006.

25.5-4-205. Application - verification of eligibility - demonstration project - rules.

(1) (a) Determination of eligibility for medical benefits shall be made by the county department in which the applicant resides, except as otherwise specified in this section. Local social security offices also determine eligibility for medicaid benefits at the same time they determine eligibility for supplemental security income. The state department may accept medical assistance applications and determine medical assistance eligibility and may designate the private service contractor that administers the children's basic health plan, Denver health and hospitals, a hospital that is designated as a regional pediatric trauma center, as defined in section 25-3.5-703 (4) (f), C.R.S., and other medical assistance sites determined necessary by the state department to accept medical assistance applications, to determine medical assistance eligibility, and to determine presumptive eligibility. When the state department determines that it is necessary to designate an additional medical assistance site, the state department shall notify the county in which the medical assistance site is located that an additional medical assistance site has been designated. Any person who is determined to be eligible pursuant to the requirements of this article and articles 5 and 6 of this title shall be eligible for benefits until such person is determined to be ineligible. Upon determination that any person is ineligible for medical benefits, the county department, the state department, or other entity designated by the state department shall notify the applicant in writing of its decision and the reason therefor. Separate determination of eligibility and formal application for benefits under this article and articles 5 and 6 of this title for persons eligible as provided in sections 25.5-5-101 and 25.5-5-201 shall be made in accordance with the rules of the state department.

(a.5) Repealed.

(a.7) As part of the medicaid eligibility modernization, the department is authorized to create a universal application for single point of entry for home- and community-based services waivers for children.

(b) The state department shall develop training safeguards to prevent actions taken by staff of medical assistance sites from affecting food and cash assistance eligibility.

(2) (a) Any married couple, at the beginning of a continuous period of institutionalization of one spouse, may request the county department to assess and document the total value of the resources of the couple, if the couple supplies to the county department the necessary information and documentation which is needed to make such an assessment.

(b) Any assessment prepared by the county department and provided to a couple shall contain a procedure for appealing any determinations which have been made.

(c) If a request for assessment and documentation is not part of an application for medical assistance, the county department may establish a fee not exceeding the reasonable expenses of the county department of providing and documenting such assessment.

(3) (a) The state department shall promulgate rules to simplify the processing of applications in order that medical benefits are furnished to recipients as soon as possible, including rules that:

(I) Provide for initial processing of applications and determination of eligibility for medical assistance only at locations other than the county departments, at locations used for processing applications for the Colorado works program, or at the location used by the

private service contractor that administers the children's basic health plan for determining eligibility of children for the plan; and

(II) May make provision for the payment of medical benefits for a period not to exceed three months prior to the date of application in cases where the applicant did not make application prior to his or her need for said medical benefits.

(b) (I) The state department shall promulgate rules that:

(A) To the extent authorized under federal law, require an applicant to state only the applicant's income and require the state department to verify the applicant's income through the most recently available records of the division of unemployment insurance in the department of labor and employment or through the income, eligibility, and verification system; except that the rules shall also allow an applicant to provide income information more recent than the records of the division of unemployment insurance or the income, eligibility, and verification system; and

(B) Require the state department at least annually to verify a recipient's income eligibility at reenrollment through the records of the division of unemployment insurance in the department of labor and employment or through the income, eligibility, and verification system and, if the recipient meets all eligibility requirements, permit the recipient to remain enrolled in the program. The rules shall also allow a recipient to supply income information more recent than the information supplied by the records of the division of unemployment insurance or the income, eligibility, and verification system.

(C) and (D) (Deleted by amendment, L. 2009, (SB 09-292), ch. 369, p. 1974, § 96, effective August 5, 2009.)

(I.5) (A) If the state department determines that a recipient was not eligible for medical benefits solely based upon the recipient's income after the recipient had been determined to be eligible based upon the records of the division of unemployment insurance or the income, eligibility, and verification system, the state department shall not pursue recovery from a county department for the cost of medical services provided to the recipient, and the county department is not responsible for any federal error rate sanctions resulting from such determination.

(B) Notwithstanding any other provision in this paragraph (b), for applications that contain self-employment income, the state department shall not implement this paragraph (b) until it can verify self-employment income through the income, eligibility, and verification system or other verification as authorized by rules of the state department and federal law.

(II) Repealed.

(c) Adequate safeguards shall be established by the state department to ensure that only eligible persons receive benefits under this article and articles 5 and 6 of this title.

(d) (I) In addition, an applicant who is eighteen years of age or older shall be required to supply a form of personal photographic identification either by providing a valid Colorado driver's license or a valid identification card issued by the department of revenue pursuant to section 42-2-302, C.R.S. The state department may adopt rules that exempt applicants from the requirement of supplying a form of personal photographic identification if the requirement causes an unreasonable hardship or if the requirement is in conflict with federal law.

(II) The state department shall also adopt rules that allow for assistance to be provided on an emergency basis until the applicant is able to obtain or qualify for a driver's license or identification card; however, a county department or an entity designated by the state department pursuant to subsection (1) of this section is not required to recover emergency assistance from an applicant who fails, upon recertification, to meet the photographic identification requirement.

(e) (I) In collaboration with and to augment the state department's efforts to simplify eligibility determinations for benefits under the state medical assistance program and the children's basic health plan, the state department shall establish a process so that a recipient, enrollee, or the parent or guardian of a recipient or enrollee may apply for reenrollment either over the telephone or through the internet.

(II) (A) Subject to receipt of federal authorization and spending authority, the state department may implement a pilot program that allows a limited number of recipients or

enrollees to apply for reenrollment either over the telephone or through the internet during a transition to a process that will serve recipients and enrollees statewide. The pilot program shall not serve as a replacement for a statewide process.

(B) Notwithstanding any other provision in this paragraph (e), the state department shall not implement this paragraph (e) until it can verify the eligibility of a recipient or enrollee over the telephone or through the internet as authorized by rules of the state department and federal law.

(C) Notwithstanding any other provision in this paragraph (e), the state department shall not implement or administer any portion of this paragraph (e) until spending authority has been received in the general appropriation act or any supplemental appropriation and shall only implement and administer this paragraph (e) to the extent of such spending authority.

(III) The state department may solicit and accept gifts, grants, and donations from public or private sources for the development or implementation of reenrollment either over the telephone or through the internet process described in this paragraph (e); except that the state department may not accept a gift, grant, or donation that is subject to conditions that are inconsistent with this paragraph (e) or any other law. Any gifts, grants, or donations received by the state department shall be transmitted to the state treasurer, who shall credit the same to the department of health care policy and financing cash fund created pursuant to section 25.5-1-109.

(4) (a) By signing an application for medical assistance, a person assigns to the state department, by operation of law, all rights the applicant may have to medical support or payments for medical expenses from any other person on the applicant's own behalf or on behalf of any other member of the applicant's family for whom application is made. For purposes of this subsection (4), an assignment takes effect upon the determination that the applicant is eligible for medical assistance and up to three months prior to the date of application if the applicant meets the requirements of subsection (3) of this section and shall remain in effect so long as an individual is eligible for and receives medical assistance benefits. The application shall contain a statement explaining this assignment.

(b) An applicant for medical benefits upon initial application and each redetermination shall disclose any third party who may be responsible for the payment of medical expenses on behalf of the applicant or any other member of the applicant's family for whom application is made. As part of its medicaid eligibility modernization, the state department shall require the county department or other entity designated to accept applications for medical benefits to enter the third-party information into the automated system developed pursuant to section 25.5-4-204.

(5) (a) The state department shall not pursue recovery from a county for the cost of medical services provided to a person who has been incorrectly determined eligible for medical assistance by that county or any other entity.

(b) (Deleted by amendment, L. 2008, p. 2024, § 1, effective June 3, 2008.)

ANNOTATION

Plaintiff's income subject to trusts is not “available” within the meaning of federal law and Colorado regulations defining eligibility for medicaid since the court had removed all vested property interests the plaintiff had in his income.

Miller v. Ibarra, 746 F. Supp. 19 (D. Colo. 1990) (decided under former § 26-4-107 as it existed prior to the 1991 repeal and reenactment of article 4 of title 26).

25.5-4-205.5. Confined persons - suspension of benefits. (1) For purposes of this section, unless the context otherwise requires, “confined person” means a person who is:

(a) An inmate confined to a correctional institution operated by or under contract with the department of corrections;

(b) Confined in a jail;

(c) Committed to a juvenile commitment facility;

(d) Committed to a department of human services facility pursuant to part 1 of article 8 of title 16, C.R.S.; or

(e) A patient placed in a department of human services facility pursuant to court order or certification.

(2) Notwithstanding any other provision of law, a person who, immediately prior to becoming a confined person, was a recipient of medical assistance pursuant to this article or article 5 or 6 of this title shall remain eligible for medical assistance while a confined person; except that no medical assistance shall be furnished pursuant to this article or article 5 or 6 of this title while the person is a confined person unless federal financial participation is available for the cost of the assistance, including but not limited to juveniles held in a facility operated by or under contract to the division of youth corrections established pursuant to section 19-2-203, C.R.S., or the department of human services. Once a person is no longer a confined person, the person shall continue to be eligible for receipt of medical benefits pursuant to this article or article 5 or 6 of this title until the person is determined to be ineligible for the receipt of the assistance. To the extent permitted by federal law, the time during which a person is a confined person shall not be included in any calculation of when the person must recertify his or her eligibility for medical assistance pursuant to this article or article 5 or 6 of this title.

Source: L. 2008: Entire section added, p. 903, § 1, effective May 20.

25.5-4-206. Reimbursement to counties - costs of administration. The state department shall reimburse the county departments for costs of administration incurred by the counties under this article and articles 5 and 6 of this title in accordance with the provisions of section 26-1-122 (5), C.R.S.

Source: L. 2006: Entire article added with relocations, p. 1825, § 7, effective July 1.

Editor's note: This section is similar to former § 26-4-411 as it existed prior to 2006.

25.5-4-207. Appeals. (1) (a) If an application for medical benefits is not acted upon by the county department within a reasonable time after filing of the same, or if an

application is denied in whole or in part, or if medical benefits are suspended, terminated, or modified, the applicant or recipient, as the case may be, may appeal to the state department in the manner and form prescribed by the rules of the state department. Every county department or service delivery agency shall adopt procedures for the resolution of disputes arising between the county department or the service delivery agency and any applicant for or recipient of medical assistance prior to appeal to the state department. Such procedures are referred to in this section as the "dispute resolution process". Two or more counties may jointly establish the dispute resolution process. The dispute resolution process shall be consistent with rules promulgated by the state board pursuant to article 4 of title 24, C.R.S. The dispute resolution process shall include an opportunity for all clients to have a county conference, upon the client's request, and such requirement may be met through a telephonic conference upon the agreement of the client and the county department. The dispute resolution process need not conform to the requirements of section 24-4-105, C.R.S., as long as the rules adopted by the state board include provisions specifically setting forth expeditious time frames, notice, and an opportunity to be heard and to present information. If the dispute is not resolved, the applicant or recipient may appeal to the state department in the manner and form prescribed by the rules of the state department. County notices to applicants or recipients shall inform them of the basis for the county's decision or action and shall inform them of their rights to a county conference under the dispute resolution process and of their rights to state level appeal and the process of making such appeal. The state board shall adopt rules setting forth what other issues, if any, may be appealed by an applicant or recipient to the state department. A hearing need not be granted when either state or federal law requires or results in a reduction or deletion of a medical benefit unless the applicant or recipient is arguing that his or her case does not fit within the parameters set forth by the change in the law. In notifying the applicant or recipient that an appeal is being denied because of a change in state or federal law, the state's notice shall inform the applicant or recipient that further appeal should be directed to the appropriate state or federal court.

(b) Upon receipt of an appeal, the state department shall give the appellant at least ten days' notice and an opportunity for a fair hearing in accordance with the rules of the state department. Any such fair hearing shall comply with section 24-4-105, C.R.S., and the state department's administrative law judge shall preside.

(c) The appellant shall have an opportunity to examine all applications and pertinent records concerning said appellant that constitute a basis for the denial, suspension, termination, or modification of medical benefits.

(2) All decisions of the state department shall be binding upon the county department involved and shall be complied with by such county department.

Source: L. 2006: Entire article added with relocations, p. 1825, § 7, effective July 1.

Editor's note: This section is similar to former § 26-4-402 as it existed prior to 2006.

25.5-4-208. County duties - transitional medicaid. County departments shall assist families in completing the reporting requirements for transitional medicaid. This shall include informing 1931 medicaid recipients, as defined in section 25.5-4-103 (1), of the transitional medicaid eligibility requirements and the required reporting calendar.

Source: L. 2006: Entire article added with relocations, p. 1826, § 7, effective July 1.

Editor's note: This section is similar to former § 26-4-106.5 as it existed prior to 2006.

25.5-4-209. Payments by third parties - copayments by recipients - review - appeal - children's waiting list reduction fund - repeal. (1) (a) Any recipient receiving benefits under this article or article 5 or 6 of this title who receives any supplemental income, available for medical purposes under rules of the state department, or who receives proceeds from sickness, accident, health, or casualty insurance shall apply the supplemental

income or insurance proceeds to the cost of the benefits rendered, and the rules may require reports from providers of other payments received by them from or on behalf of recipients.

(b) Subject to any limitations imposed by Title XIX, a recipient shall be required to pay at the time of service a portion of the cost of any medical benefit rendered to the recipient or to the recipient's dependents pursuant to this article or article 5 or 6 of this title, as determined by rule of the state department.

(2) (a) Notwithstanding the provisions of section 26-1-114, C.R.S., the state department is authorized to take all reasonable measures to ascertain the legal liability of third parties to pay for care and services available, including the collection of sufficient information from individuals who are eligible for medical assistance to pursue claims against the third parties. The state department shall collect the information at the time of any determination or redetermination of eligibility for medical assistance. A knowing or willful failure of an individual to provide the information may result in the termination of the individual's eligibility for medical assistance.

(b) A third party, as a condition of doing business in the state, shall:

(I) (A) Provide on a monthly basis to the state department or its business associate eligibility records identifying all persons covered by the third party in a manner prescribed by rule to allow the state department or its business associate to perform an analysis and determine which persons are eligible for medical assistance;

(B) The eligibility record data elements provided by the third party shall be the minimum necessary to achieve a satisfactory data match. The third party shall provide, upon request of the state department or its business associate, additional data elements as needed to confirm eligibility matches as determined by the initial analysis, including, but not limited to, the name, address, and identifying number of the third party's plan.

(II) Accept the state's right of recovery and the assignment to the state of any right of an individual or other entity to payment from the third party for an item or service for which payment has been made under the medical assistance plan to the extent that such service is covered by the third party;

(III) Respond to any inquiry by the state regarding a claim for payment for any health care item or service that is submitted not later than three years after the date of the provision of the health care item or service; and

(IV) Agree not to deny a claim submitted by the state solely on the basis of the date of submission of the claim, the type or format of the claim form, or a failure to present proper documentation at the point-of-sale that is the basis of the claim, if:

(A) The claim is submitted by the state within the three-year period beginning on the date that the item or service is furnished; and

(B) Any action by the state to enforce its rights with respect to the claim is commenced within six years after the state's submission of the claim.

(c) The cost to a third party of providing data, including eligibility records, shall be borne by the state department.

(d) A third party that provides data required by the state department, whether confidential or not, shall not be held liable for the provision of such data to the state department or for any use made thereof.

(e) (I) The state department's business associate shall not use, transfer, extract, copy, revise, or store any data required to be provided to the state department and its business associate, including the eligibility records, social security numbers, coverage, nature of coverage, period provided, or any other data elements, for purposes other than:

(A) The identification of persons eligible to receive medical assistance, as defined by section 25.5-1-103 (5);

(B) Cost avoidance;

(C) The remuneration of the state department for services provided or paid for;

(D) Any record retention requirements;

(E) Audit requirements; and

(F) Purposes related to litigation and testimony.

(II) The state department's business associate shall destroy all data once the functions specified in subparagraph (I) of this paragraph (e) have been accomplished.

(f) (I) A Colorado resident shall have a private right of action against the state department's business associate if the business associate negligently uses the data specified in paragraph (e) of this subsection (2) for purposes other than those stated in paragraph (e) of this subsection (2). The right of action shall be enforceable in the courts of Colorado and limited to the actual damages incurred by the individual bringing the action.

(II) A third party may bring an action on behalf of a Colorado resident for injunctive relief against the state department's business associate to prevent the business associate from intentionally using the data for purposes other than those specified in paragraph (e) of this subsection (2).

(g) As used in this section:

(I) "Business associate" shall have the same meaning as provided in 45 CFR 160.103.

(II) "Third party" means a health insurer, self-insured plan, group health plan as defined in 29 U.S.C. sec. 1167 (1), service benefit plan, managed care organization, pharmacy benefit manager, or other party that is, by statute, contract, or agreement, legally responsible for payment of a claim for a health care item or service.

(3) (a) The rights assigned by a recipient of medical assistance to the state department pursuant to section 25.5-4-205 (4) shall include the right to appeal an adverse coverage decision by a third party for which the medical assistance program may be responsible for payment, including but not limited to the internal and external reviews provided for in sections 10-16-113 and 10-16-113.5, C.R.S., and a third party's reasonable appeal procedure under state and federal law. The state department or the independent contractor retained pursuant to paragraph (b) of this subsection (3) shall review and, if necessary, may appeal at any level an adverse coverage decision, except an adverse coverage decision relating to medicare, Title XVIII of the federal "Social Security Act", as amended.

(b) The state department shall enter into one or more agreements with an independent contractor to pursue recoveries from third parties pursuant to paragraph (a) of this subsection (3). Any such agreement shall provide that the independent contractor's only compensation shall be a prudent and reasonable percentage of the amount recovered on behalf of the state department as determined by the state department.

(c) (I) An independent contractor retained pursuant to paragraph (b) of this subsection (3) shall maintain a contemporaneous record of the hours of services provided and any costs incurred. When the matter is resolved, the independent contractor shall provide to the state department a statement of the hours of services provided, the amount of costs incurred, the total amount of the contingent fee, and the hourly rate for the services provided. The hourly rate for the services provided shall be determined by dividing the amount of the contingent fee, less the amount of costs incurred, by the number of hours of services provided by the independent contractor. The statement required by this subparagraph (I) shall be available for inspection and copying at reasonable times at the state department.

(II) Compliance with this paragraph (c) does not relieve a contracting attorney of any obligation or legal responsibility imposed by the Colorado rules of professional conduct or any provision of law.

(d) Nothing in this subsection (3) shall be construed to authorize the denial of or delay of payment to a provider by the state department or the delay or interference with the provision of services to a medical assistance recipient.

(e) (I) After June 7, 2010, and prior to the state department entering into a new agreement or renewing an agreement pursuant to paragraph (b) of this subsection (3), the state department shall examine the feasibility of requiring the independent contractor to develop an additional process to identify reasons for denials for which an appeal should be considered and to prioritize appeals of denials based upon the reasons for the denial to increase and speed recoveries from third parties. If the state department determines that it is in the state's best interest, the state department is authorized to add this process to the requirements for an agreement pursuant to paragraph (b) of this subsection (3). If the state department adds this process, the limit on compensation paid to the contracting agent pursuant to section 25.5-4-301 (3) (b) (I) for agreements including this process shall be increased to twenty-five percent.

(II) (A) In 2013, the state department shall include in its annual report to the health and human services committees of the senate and house of representatives, or any successor

committees, a report on the effectiveness of the additional process developed pursuant to this paragraph (e).

(B) This subparagraph (II) is repealed, effective July 1, 2013.

(III) (A) The state treasurer shall transfer from the general fund to the children's waiting list reduction fund, which fund is hereby created and referred to in this subparagraph (III) as the "fund", an amount equal to the moneys recovered pursuant to subparagraph (I) of this paragraph (e). The moneys in the fund shall be subject to annual appropriation by the general assembly to the state department or the department of human services to reduce the number of children on waiting lists for services under article 6 of this title.

(B) Any moneys in the fund not expended for the purposes stated in sub-subparagraph (A) of this subparagraph (III) may be invested by the state treasurer as provided by law. All interest and income derived from the investment and deposit of moneys in the fund shall be credited to the fund. Any unexpended and unencumbered moneys remaining in the fund at the end of a fiscal year shall remain in the fund and shall not be credited or transferred to the general fund or another fund.

(IV) This paragraph (e) is repealed, effective July 1, 2013.

(4) With respect to programs administered by the state department, the state department shall access available data from the public assistance reporting information system for the purpose of identifying persons who are receiving certain public benefits from other states. The state department shall ensure that duplicate benefits are not being paid improperly to persons identified pursuant to the public assistance reporting information system.

ANNOTATION

Annotator's note. Since § 25.5-4-209 is similar to § 26-4-518 as it existed prior to the 2006 amendments relocating article 4 of title 26 to title 25.5 and § 26-4-518 is similar to § 26-4-110 (4) as it existed prior to the 1991 repeal and reenactment of article 4 of title 26, relevant cases construing that provision have been included in the annotations to this section.

Suspension of optional incentive allowance under medicaid program does not violate state or federal law so long as the state meets federal requirements concerning the level of care provided to patients. *Colo. Health Care Ass'n v. State Dept. of Soc. Servs.*, 598 F. Supp. 1400 (D. Colo. 1984).

Suspensions and elimination of incentive allowance component of daily rate paid to nursing home providers did not violate federal requirement for reasonable and adequate payment. *Colo. Health Care v. State*

Dept. of Soc. Servs., 842 F.2d 1158 (10th Cir. 1988).

Emergency rulemaking suspending incentive allowance payments was within department's authority and in accordance with the Administrative Procedure Act and the Medicaid Act. *Colo. Health Care v. State Dept. of Soc. Servs.*, 842 F.2d 1158 (10th Cir. 1988).

Elimination of incentive allowance in medicaid reimbursement does not violate contracts between state and nursing home providers. *Colo. Health Care v. State Dept. of Soc. Servs.*, 842 F.2d 1158 (10th Cir. 1988).

Where the nursing home informs the county that a patient has not paid any amounts due under this section and the county fails to take remedial action, the department of social services is responsible to the nursing home for any uncollected amounts. *Colo. Dept. of Soc. Servs. v. Health Care Man-*

agement Consultants, Inc., 813 P.2d 829 (Colo. App. 1991).

Applied in Country View Care v. State Dept. of Soc. Servs., 703 P.2d 1334 (Colo. App. 1985).

25.5-4-210. Purchase of health insurance for recipients. (1) (a) The state department shall purchase group health insurance for a medical assistance recipient who is eligible to enroll for such coverage if enrollment of such recipient in the group plan would be cost-effective. In addition, the state department may purchase individual health insurance for a medical assistance recipient who is eligible to enroll in a health insurance plan if enrollment of such recipient would be cost-effective to this state. A determination of cost-effectiveness shall be in accordance with federal guidelines established by the secretary of the United States department of health and human services.

(b) Notwithstanding any provision of paragraph (a) of this subsection (1) to the contrary, the state department, in purchasing health insurance for medical assistance recipients who are eligible to enroll for private coverage, shall not purchase such health insurance for more than two thousand individuals.

(2) Enrollment in a group health insurance plan shall be required of recipients for whom enrollment has been determined to be cost-effective as a condition of obtaining or retaining medical assistance. A parent shall be required to enroll a dependent child recipient, but medical assistance for such child shall not be discontinued if a parent fails to enroll the child.

(3) The state department shall pay any premium, deductible, coinsurance, or other cost-sharing obligation required under the group plan for services covered under the state medical assistance plan. In addition, the state department shall pay any premium, deductible, coinsurance, or other cost-sharing obligation required under an individual plan purchased by the state department for a medical assistance recipient pursuant to subsection (1) of this section. Payment of said services shall be treated as payment for medical assistance. Coverage provided by the purchased health insurance plan shall be considered as third-party liability for the purposes of section 25.5-4-209.

(4) Services not available to a recipient under the purchased plan shall be provided to the recipient if such services would otherwise be provided as medical assistance services pursuant to this article or article 5 or 6 of this title. Nothing in this section shall be construed to require that services provided under a group health insurance plan for medical assistance recipients shall be made available to recipients not enrolled in the plan. Enrollment in a group health insurance plan pursuant to this section shall not affect the eligibility of a recipient who otherwise qualifies for medical assistance pursuant to this article or article 5 or 6 of this title.

L. 2010: (1) amended, (SB 10-167), ch. 296, p. 1378, § 6, effective May 26.

Editor's note: This section is similar to former § 26-4-518.5 as it existed prior to 2006.

Cross references: For the legislative declaration stating the purpose of and the provision directing legislative staff agencies to conduct a post-enactment review pursuant to § 2-2-1201 scheduled in 2015, see sections 1 and 17 of chapter 296, Session Laws of Colorado 2010. To obtain a copy of the review, once completed, view Colorado Legislative Council's web site.

PART 3

RECOVERY

25.5-4-300.4. Last resort for payment - legislative intent. It is the intent of the general assembly that medicaid be the last resort for payment for medically necessary goods and services furnished to recipients and that all other sources of payment are primary to medical assistance provided by medicaid.

Source: L. 2008: Entire section added, p. 1771, § 2, effective June 2.

25.5-4-300.7. Prevention of coding errors - prepayment review of claims - report.

(1) The state department shall implement and maintain a system for reducing medical services coding errors in medicaid claims submitted to the state department for reimbursement. The system shall include automatic, prepayment review of medicaid claims through the use of nationally recognized correct coding methods in the medicaid management information system, in accordance with 42 U.S.C. sec. 1396b (r) and regulations thereunder, as amended by Pub.L. 111-148, and any other subsequent acts of congress. The state department shall acquire and maintain any information technology necessary to implement the automated, prepayment review of medicaid claims.

(2) On or before January 31, 2011, and on or before January 31 each year thereafter, the state department shall submit to the joint budget committee of the general assembly and to the health and human services committees of the house of representatives and senate, or any successor committees, a report concerning the system implemented and maintained by the state department pursuant to subsection (1) of this section. The report shall include, at a minimum, the number and dollar value of medical services coding errors identified during the previous year through the use of the system.

Cross references: For the legislative declaration stating the purpose of and the provision directing legislative staff agencies to conduct a post-enactment review pursuant to § 2-2-1201 scheduled in 2015, see sections 1 and 17 of chapter 296, Session Laws of Colorado 2010. To obtain a copy of the review, once completed, view Colorado Legislative Council's web site.

25.5-4-301. Recoveries - overpayments - penalties - interest - adjustments - liens - review or audit procedures. (1) (a) (I) Except as provided in section 25.5-4-302 and subparagraph (III) of this paragraph (a), no recipient or estate of the recipient shall be liable for the cost or the cost remaining after payment by medicaid, medicare, or a private insurer of medical benefits authorized by Title XIX of the social security act, by this title, or by rules promulgated by the state board, which benefits are rendered to the recipient by a provider of medical services authorized to render such service in the state of Colorado, except those contributions required pursuant to section 25.5-4-209 (1). However, a recipient may enter into a documented agreement with a provider under which the recipient agrees to pay for items or services that are nonreimbursable under the medical assistance program. Under these circumstances, a recipient is liable for the cost of such services and items.

(II) The provisions of subparagraph (I) of this paragraph (a) shall apply regardless of whether medicaid has actually reimbursed the provider and regardless of whether the provider is enrolled in the Colorado medical assistance program.

(II.5) (A) A provider of medical services shall be liable to a recipient or the estate of a recipient if the provider knowingly receives or seeks collection through a third party of an amount in violation of subparagraph (I) of this paragraph (a). The provider shall be liable for the amount unlawfully received, statutory interest on the amount received from the date of receipt until the date of repayment, plus a civil monetary penalty equal to one-half of the amount unlawfully received. When determining income or resources for purposes of determining eligibility or benefit amounts for any state-funded program under this title, the state department shall exclude from consideration any moneys received by a recipient pursuant to this subparagraph (II.5).

(B) In order to establish a claim for the penalty established by sub-subparagraph (A) of this subparagraph (II.5), a recipient or the estate of a recipient shall forward a notice of claim to the state department and to the provider. The executive director of the state department shall promulgate rules for an informal hearing process for determination of the issue that shall allow a provider an opportunity to be heard.

(C) The provisions of this subparagraph (II.5) shall not apply to a long-term care facility licensed pursuant to section 25-3-101, C.R.S.

(III) (A) When a third party is primarily liable for the payment of the costs of a recipient's medical benefits, prior to receiving nonemergency medical care, the recipient

shall comply with the protocols of the third party, including using providers within the third party's network or receiving a referral from the recipient's primary care physician. Any recipient failing to follow the third party's protocols is liable for the payment or cost of any care or services that the third party would have been liable to pay; except that, if the third party or the service provider substantively fails to communicate the protocols to the recipient, the items or services are nonreimbursable under this article and articles 5 and 6 of this title and the recipient is not liable to the provider.

(B) A recipient may enter into a written agreement with a third party or provider under which the recipient agrees to pay for items provided or services rendered that are outside of the network or plan protocols. The recipient's agreement to be personally liable for such nonemergency, nonreimbursable items shall be recorded on forms approved by the state board and signed and dated by both the recipient and the provider in advance of the services being rendered.

(b) Recipient income applied pursuant to section 25.5-4-209 (1) shall not disqualify any recipient, as defined in section 26-2-103 (8), C.R.S., from receiving benefits under this article, article 5 or 6 of this title, or public assistance under article 2 of title 26, C.R.S. If, at any time during the continuance of medical benefits, the recipient becomes possessed of property having a value in excess of that amount set by law or by the rules of the state department or receives any increase in income, it is the duty of the recipient to notify the county department thereof, and the county department may, after investigation, either revoke such medical benefits or alter the amount thereof, as the circumstances may require.

(c) Any medical assistance paid to which a recipient was not lawfully entitled shall be recoverable from the recipient or the estate of the recipient by the county as a debt due the state pursuant to section 25.5-1-115, but no lien may be imposed against the property of a recipient on account of medical assistance paid or to be paid on the recipient's behalf under this article or article 5 or 6 of this title, except pursuant to the judgment of a court of competent jurisdiction or as provided by section 25.5-4-302.

(d) If any such medical assistance was obtained fraudulently, interest shall be charged and paid to the county department on the amount of such medical assistance calculated at the legal rate and calculated from the date that payment for medical services rendered on behalf of the recipient is made to the date such amount is recovered.

(2) Any overpayment to a provider, including those of personal needs funds made pursuant to section 25.5-6-206, shall be recoverable regardless of whether the overpayment is the result of an error by the state department, a county department of social services, an entity acting on behalf of either department, or by the provider or any agent of the provider as follows:

(a) (I) If the state department makes a determination that such overpayment has been made as a result of the provider's false representation, the state department may collect the overpayment, plus a civil monetary penalty equal to one-half the amount of the overpayment, and interest on the sum of the two amounts accruing at the statutory rate from the date the overpayment is identified, by the means specified in this subsection (2). Such sum may be collected for up to the amount of time prescribed in section 13-80-103.5, C.R.S., after the overpayment is identified. Amounts remaining uncollected for more than the time period prescribed in section 13-80-103.5, C.R.S., after the last repayment was made may be considered uncollectible. For the purposes of this subparagraph (I), "false representation" means an inaccurate statement that is relevant to a claim for reimbursement and is made by a provider who has actual knowledge of the truth of false nature of the statement or by a provider acting in deliberate ignorance of or with reckless disregard for the truth of the statement. A provider acts with reckless disregard for truth if the provider fails to maintain records required by the department or if the provider fails to become familiar with rules, manuals, and bulletins issued by the department, board, or the department's fiscal agent.

(II) If the state department makes a determination that such overpayment has been made for some other reason than a false representation by the provider specified in subparagraph (I) of this paragraph (a), the state department may collect the amount of overpayment, plus interest accruing at the statutory rate from the date the provider is notified of such overpayment, by the means specified in this subsection (2). Pursuant to the criteria established in rules promulgated by the state board, the state department may waive

the recovery or adjustment of all or part of the overpayment and accrued interest specified in this subparagraph (II) if it would be inequitable, uncollectible or administratively impracticable; except that no action shall be taken against a recipient of medical services initially determined to be eligible pursuant to section 25.5-4-205 if the overpayment occurred through no fault of the recipient. Amounts remaining uncollected for more than five years after the last repayment was made may be considered uncollectible.

(b) In order to collect the amounts specified in paragraph (a) of this subsection (2), the state department may withhold subsequent payments to which the provider is or becomes entitled and apply the amount withheld as an offset. The state board shall establish in rules the rate at which an overpayment may be offset, with provision for a reduction of such rate upon a good cause shown by the provider that the rate at which payment will be withheld will result in an undue hardship for the provider. In determining whether to grant a good cause reduction, the state department shall consider the impact of collecting the amount provided by state board rules on the quality of patient care and the financial viability of the provider. The state department may also take such other steps administratively as are available for the collection of the amounts specified in paragraph (a) of this subsection (2).

(c) If a provider defaults on repayment of the amounts specified in paragraph (a) of this subsection (2), the state department may bring a suit against the provider in the appropriate court. Court costs shall not be assessed against the state department but shall be assessed against the provider if the court finds in favor of the state department. Any costs collected by the state department shall be paid into the registry of the court. Once the amount has been reduced to judgment, the state department may proceed with all available postjudgment remedies.

(d) Notwithstanding the provisions of section 24-30-202.4, C.R.S., an amount specified in paragraph (a) of this subsection (2) that the state department has determined to be uncollectible may be referred to the controller for collection. Net proceeds of debts collected by the controller pursuant to this paragraph (d) shall be paid into the fund from which the overpayment was made.

(e) Any provider adversely affected by actions taken pursuant to this subsection (2), except when a suit is filed against the provider pursuant to paragraph (c) of this subsection (2), may appeal the determination of the state department pursuant to the provisions in section 24-4-105, C.R.S.

(f) If the state department, either directly or through a contracting agent, undertakes a review or an audit of a provider to determine whether an overpayment has been made to that provider, the review or audit shall be subject to the procedures required in subsection (3) of this section.

(3) (a) A review or audit of a provider shall be subject to the following procedures:

(I) The reviewer or auditor shall conduct a review or audit in accordance with applicable state and federal law.

(II) The reviewer or auditor shall apply uniform standards and procedures to each class of providers subject to a review or an audit to determine an overpayment.

(III) The reviewer or auditor shall prepare findings for the entire period under review or audit, and a provider shall be subject to only one demand for repayment in connection with the review or audit.

(IV) The reviewer or auditor shall initiate each review or audit requiring an inspection of the provider's records by delivering to the provider not less than ten business days prior to the commencement of the audit a written request describing in detail such records and offering the provider the option of providing either a reproduction of such records or inspection by the reviewer or auditor at the provider's site. The request shall also clearly define milestone dates pertaining to records' requested due dates, permissible extensions of dates, the timelines for informal reconsideration, and deadlines for requesting a formal appeal. The records subject to the request shall be limited to records directly related to claims for reimbursement submitted by the provider. In the event such records are available from a county department of social services or another agency, subdivision, or contractor of the state, the reviewer or auditor shall request such records from such other agencies as may be appropriate prior to making a request to the provider. The reviewer or auditor shall conduct on-site inspections at reasonable times during regular business hours, and the

reviewer or auditor shall make arrangements necessary for the reproduction of such records on site. If the provider chooses to provide a reproduction of the records requested by the reviewer or auditor instead of on-site inspection, the reviewer or auditor shall give the provider a reasonable period of time, that shall be not less than forty-five days, to provide such records taking into account the scope of the request, the time frame covered, and the reproduction arrangements available to the provider.

(IV.5) At the request of the provider, the reviewer or auditor shall conduct an in-person or telephonic interview with the provider prior to the preparation of a preliminary draft of the report of the reviewer or auditor at which the reviewer or auditor and the provider shall discuss:

(A) The findings of the reviewer or auditor;

(B) Any documentation useful for the provider to refute the findings of the reviewer or auditor; and

(C) The next steps in the review or audit process.

(V) A physician's record or other order for health care services, drugs, or medicinal supplies in a form transmitted electronically shall be sufficient to validate the provider's records regarding the ordering of the health care services, drugs, or medicinal supplies.

(VI) Whenever possible, the reviewer or auditor shall base a determination of an overpayment to a provider upon a review of actual records of the department, its agents, or the provider. In the event sufficient records are not available to the reviewer or auditor, an overpayment determination may be based upon a sampling of records so long as the sampling and any extrapolation therefrom is reasonably valid from a statistical standpoint and is in accordance with generally accepted auditing standards.

(VII) If a reviewer or auditor determines that there has been an overpayment to the provider, then, at the time demand for repayment is made, the state department shall offer the provider an informal reconsideration of the review or audit findings. The state department shall notify the provider in writing of the right to an informal reconsideration prior to implementing any recovery of an overpayment and give the provider an opportunity to request an informal reconsideration. In the event informal reconsideration is requested or a formal appeal is filed pursuant to subparagraph (VIII) of this paragraph (a), the state department shall not implement recovery of the overpayment until such informal reconsideration or formal appeal has been completed. Within forty-five days after the request for an informal reconsideration, the state department shall render a decision on the request and notify the provider of the decision. The notification shall include information concerning requesting a formal appeal, including informing the provider that the request must be filed within thirty days after the date of the state department's decision on the request for an informal reconsideration. If the state department is unable to render a decision on the request for informal reconsideration within forty-five days after the request, within forty-five days after the request, the state department shall notify the provider of its inability to complete the decision and shall include information concerning requesting a formal appeal, including informing the provider that the request must be filed within thirty days after the receipt of the notification that the state department is unable to render a decision. For purposes of this subparagraph (VII), an informal reconsideration shall be considered final thirty days after the earlier of the date on which the provider withdraws its request or the date on which the state department issues a written decision on the request.

(VIII) In accordance with paragraph (e) of subsection (2) of this section, any provider adversely affected by the actions of the state department or its contracting agent in connection with a review or an audit, including whether the state department or its contracting agent adhered to the provisions of this subsection (3) in making an overpayment determination, may appeal such actions pursuant to the provisions of section 24-4-105, C.R.S.

(a.5) Any additional review or audit procedures shall be adopted by rule of the state board and shall be specifically referenced in any contract with a provider.

(b) The state department is authorized to engage the services of a qualified agent through a competitive contract issued pursuant to the state's procurement code for the purpose of conducting a review or audit of a provider to assist in determining whether there has been an overpayment to a provider and the amount of that overpayment. In addition to

such terms and conditions as the state department may deem necessary, any contract shall be subject to the requirements for conducting a review or an audit in accordance with paragraph (a) of this subsection (3). The state department is further authorized to enter into a contract with a qualified agent for the purpose of conducting a review or an audit of a provider that provides that the compensation of the contracting agent shall be contingent and based upon a percentage of the amount of the recovery collected from the provider. A contract issued by the state department for the purpose of conducting a review or an audit of a provider to determine whether the provider has received an overpayment shall also be subject to the following conditions:

(I) The compensation paid to the contracting agent under a contingency-based contract shall not exceed eighteen percent of the amount finally collected from the provider overpayment, and the state department may establish a limit on the amount of annual compensation that may be paid to a contracting agent under a contingency-based contract and may further establish a limit on the amount that may be paid to a contracting agent under a contingency-based contract for recovery from any one provider.

(II) Reimbursement of the contracting agent's costs in performing the review or audit under a contingency-based contract shall be deemed included in the percentage compensation due the agent under the contract.

(III) No employee or agent of the contracting agent involved in the performance of a contingency-based contract shall be compensated by the contracting agent based upon the amount recovered under the contract.

(IV) The state department shall retain all authority for providing notice and otherwise making demand upon a provider for recovery of an overpayment, and the state department shall review and approve any written demand, request, or determination by the contracting agent regarding a review or an audit of a provider under this subsection (3).

(V) In any contingency-based contract authorized pursuant to this paragraph (b), the state of Colorado shall not be obligated to pay the contracting agent for amounts not actually collected from the provider.

(3.5) (a) Prior to the start of a contract to review or audit providers, the state department is encouraged to meet with organizations or associations of providers to educate providers on the review or audit process and the responsibilities of both the providers and the state department throughout the review or audit process. The state department is also encouraged to prepare an annual report on common findings following a contract to review or audit providers and distribute the report to organizations or associations of providers. The annual report should include information to prevent similar findings in future reviews or audits and should direct providers to resource information.

(b) Repealed.

(4) If medical assistance is furnished to or on behalf of a recipient pursuant to the provisions of this article and articles 5 and 6 of this title for which a third party is liable, the state department has an enforceable right against such third party for the amount of such medical assistance, including the lien right specified in subsection (5) of this section. Whenever the recipient has brought or may bring an action in court to determine the liability of the third party, the state department, without any other name, title, or authority to enforce the state department's right, may enter into appropriate agreements and assignments of rights with the recipient and the recipient's attorney, if any. Any such agreement shall be filed with the court in which such an action is pending. The attorney named in such an agreement upon designation as a special assistant attorney general by the attorney general shall have the right to prove both the recipient's claim and the state department's claim. The state department, without any other name, title, or authority, may take any necessary action to determine the existence and amount of the state department's claims under this section, whether such claims are founded on judgment, contract, lien, or otherwise, and take any other action that is appropriate to recover from such third parties. To enforce such right, the attorney general, pursuant to section 24-31-101, C.R.S., on behalf of the state department may institute and prosecute, or intervene of right in legal proceedings against the third party having legal liability, either in the name of the state department or in the name of the recipient or his or her assignee, guardian, personal representative, estate, or survivors. When

the state department intervenes in legal proceedings against the third party, it shall not be liable for any portion of the attorney fees or costs of the recipient.

(5) (a) When the state department has furnished medical assistance to or on behalf of a recipient pursuant to the provisions of this article, and articles 5 and 6 of this title, for which a third party is liable, the state department shall have an automatic statutory lien for all such medical assistance. The state department's lien shall be against any judgment, award, or settlement in a suit or claim against such third party and shall be in an amount that shall be the fullest extent allowed by federal law as applicable in this state, but not to exceed the amount of the medical assistance provided.

(b) No judgment, award, or settlement in any action or claim by a recipient to recover damages for injuries, where the state department has a lien, shall be satisfied without first satisfying the state department's lien. Failure by any party to the judgment, award, or settlement to comply with this section shall make each such party liable for the full amount of medical assistance furnished to or on behalf of the recipient for the injuries that are the subject of the judgment, award, or settlement.

(c) Except as otherwise provided in this article, the entire amount of any judgment, award, or settlement of the recipient's action or claim, with or without suit, regardless of how characterized by the parties, shall be subject to the state department's lien.

(d) Where the action or claim is brought by the recipient alone and the recipient incurs a personal liability to pay attorney fees, the state department will pay its reasonable share of attorney fees not to exceed twenty-five percent of the state department's lien. The state department shall not be liable for costs.

(e) The state department's right to recover under this section is independent of the recipient's right.

(6) When the applicant or recipient, or his or her guardian, executor, administrator, or other appropriate representative, brings an action or asserts a claim against any third party, such person shall give to the state department written notice of the action or claim by personal service or certified mail within fifteen days after filing the action or asserting the claim. Failure to comply with this subsection (6) shall make the recipient, legal guardian, executor, administrator, attorney, or other representative liable for the entire amount of medical assistance furnished to or on behalf of the recipient for the injuries that gave rise to the action or claim. The state department may, after thirty days' written notice to such person, enforce its rights under subsection (5) of this section and this subsection (6) in the district court of the city and county of Denver; except that liability of a person other than the recipient shall exist only if such person had knowledge that the recipient had received medical assistance or if excusable neglect is found by the court. The court shall award the state department its costs and attorney fees incurred in the prosecution of any such action.

(7) When a legally responsible relative of the recipient agrees or is ordered to provide medical support or health insurance coverage for his or her dependents or other persons, and such dependents are applicants for, recipients of, or otherwise entitled to receive medical assistance pursuant to this article and articles 5 and 6 of this title, the state department shall be subrogated to any rights that the responsible persons may have to obtain reimbursement from a third party or insurance carrier for the cost of medical assistance provided for such dependents or persons. Where the state department gives written notice of subrogation, any third party or insurance carrier liable for reimbursement for the cost of medical care shall accord to the state department all rights and benefits available to the responsible relative that pertain to the provision of medical care to any persons entitled to medical assistance pursuant to this article and articles 5 and 6 of this title for whom the relative is legally responsible.

(8) All recipients of medical assistance under the medicaid program shall be deemed to have authorized their attorneys, all third parties, including but not limited to insurance companies, and providers of medical care to release to the state department all information needed by the state department to secure and enforce its rights under subsections (4) and (5) of this section.

(9) Nothing in part 6 of article 4 of title 10, C.R.S., shall be construed to limit the right of the state department to recover the medical assistance furnished to or on behalf of a recipient as the result of the negligence of a third party.

(10) No action taken by the state department pursuant to subsection (4) of this section or any judgment rendered in such action shall be a bar to any action upon the claim or cause of action of the applicant or recipient or his or her guardian, personal representative, estate, dependent, or survivors against the third party having legal liability, nor shall any such action or judgment operate to deny the applicant or recipient the recovery for that portion of his or her medical costs or other damages not provided as medical assistance under this article or article 5 or 6 of this title.

(11) (a) The state department shall have a right to recover any amount of medical assistance paid on behalf of a recipient because:

(I) The trustee of a trust for the benefit of the recipient has used the trust property in a manner contrary to the terms of the trust;

(II) A person holding the recipient's power of attorney has used the power for purposes other than the benefit of the recipient.

(b) To enforce the right under this subsection (11), the county or state department may institute or intervene in legal proceedings against the trustee or person holding the power of attorney. Any amount of medical assistance recovered pursuant to this subsection (11) shall be distributed between the state and county in proportion to the amount of medical assistance paid by each respectively, if any.

(c) No action taken by the county or state department pursuant to this subsection (11) or any judgment rendered in such action or proceeding shall be a bar to any action upon the claim or cause of action of the recipient or his or her guardian, personal representative, estate, dependent, or survivors against the trustee or person holding the power of attorney.

(12) (a) An entity that provides managed care, as defined in section 25.5-5-403, that has entered into a risk contract with the state department shall have the same rights of the department set forth in this section except with respect to the rights described in subsections (5) and (6) of this section. In addition, the attorney general may not enforce the rights set forth in this subsection (12). Venue for an action brought by or on behalf of an entity pursuant to this subsection (12) shall be governed by the Colorado rules of civil procedure.

(b) Within fifteen days after filing an action or asserting a claim against a third party, a recipient under a managed care plan or a guardian, executor, administrator, or other appropriate representative of the recipient shall provide to the entity that administers the managed care plan written notice of the action or claim. Notice shall be by personal service or certified mail.

(c) In cases where the state department has recovery rights against a third party pursuant to subsections (4) and (5) of this section and an entity that provides managed care has subrogation rights against the same party pursuant to paragraph (a) of this subsection (12), the recovery rights of the state department shall take precedence over the rights of the managed care plan.

(13) To the extent allowable under federal law, the state department shall recover from a legal immigrant's sponsor all medical assistance paid on behalf of a sponsored legal immigrant who is enrolled in the medical assistance program.

Source: **L. 2006:** Entire article added with relocations, p. 1829, § 7, effective July 1; (1)(a)(II.5) added, p. 107, § 1, effective January 1, 2007. **L. 2007:** (3)(a)(IV) and (3)(a)(VII) amended and (3)(a)(IV.5), (3)(a.5), and (3.5) added, pp. 1467, 1469, 1468, §§ 1, 3, 2, effective May 30. **L. 2009:** (5)(a) and (5)(c) amended, (HB 09-1191), ch. 100, p. 372, § 1, effective August 5. **L. 2010:** (2)(a)(II) amended, (SB 10-167), ch. 296, p. 1378, § 7, effective May 26.

Editor's note: (1) This section is similar to former § 26-4-403 as it existed prior to 2006.

(2) Subsection (1)(a)(II.5) was enacted as § 26-4-403 (1)(a)(II.5) in House Bill 06-1079 but was relocated due to its harmonization with this section as it appeared in Senate Bill 06-219.

(3) Subsection (3.5)(b)(II) provided for the repeal of subsection (3.5)(b), effective July 1, 2011. (See L. 2007, p. 1468.)

Cross references: For the legislative declaration stating the purpose of and the provision directing legislative staff agencies to conduct a post-enactment review pursuant to § 2-2-1201 scheduled in 2015, see sections 1 and 17 of chapter 296, Session Laws of Colorado 2010. ANNOTATION

Law reviews. For article, "Collecting Pre- and Post-Judgment Interest in Colorado: A Primer", see 15 Colo. Law. 753 (1986). For article, "An Update of Appendices from Collecting Pre- and Post-Judgment Interest in Colorado", see 15 Colo. Law. 990 (1986). For article, "Trust Protection of Personal Injury Recoveries from Public Creditors", see 19 Colo. Law. 2187 (1990). For article, "Health Care Bankruptcy Issues: Provider Agreements as Executory Contracts", see 24 Colo. Law. 765 (1995). For article, "Medicaid Estate Recovery: The Role of the Advocate", see 28 Colo. Law. 51 (April 1999).

Annotator's note. Since § 25.5-4-301 is similar to § 26-4-403 as it existed prior to the 2006 amendments relocating article 4 of title 26 to title 25.5 and § 26-4-403 is similar to § 26-4-112 as it existed prior to the 1991 repeal and reenactment of article 4 of title 26, relevant cases construing those provisions have been included in the annotations to this section.

Colorado's medicaid lien statute is not inconsistent with the anti-lien provisions of the federal Medicaid Act. It is consistent with the federal medicaid statute's anti-lien provisions as interpreted by the U.S. supreme court in *Arkansas Dept. of Health & Human Servs. v. Ahlborn*, 547 U.S. 268, 126 S. Ct. 1752, 164 L. Ed. 2d 459 (2006). I.P. ex rel. Cardenas v. Henneberry, 795 F. Supp. 2d 1189 (D. Colo. 2011).

Department of health care policy and financing's lien on settlement proceeds from medicaid recipient's malpractice suit is tantamount to a forced assignment of the right to recover that portion of the settlement that represents payments for medical care, which, under *Ahlborn*, is consistent with both the third-party liability provisions and the anti-lien provisions in the federal medicaid statute. I.P. ex rel. Cardenas v. Henneberry, 795 F. Supp. 2d 1189 (D. Colo. 2011).

The department can seek reimbursement from that portion of medicaid recipient's settlement proceeds that represents medical expenses — past and future — up to the total amount it spent on medicaid recipient's behalf as of the date of the settlement. I.P. ex rel. Cardenas v.

Henneberry, 795 F. Supp. 2d 1189 (D. Colo. 2011).

Actions necessary for recovery of expenses by department of social services. The Colorado department of social services has a right and duty to recover expenses its beneficiaries incur by reason of personal injuries they sustain in accidents, but to do so, it must either join in the action against the wrongdoer, assign its right to the recipient, or file its own action. *Gomez v. Black*, 32 Colo. App. 332, 511 P.2d 531 (1973).

A county department is not precluded from recovering medicaid benefits to which a medicaid recipient is not entitled and which were paid erroneously before adequate notice of termination. *Nededog v. Colo. Dept. of Health Care Policy & Fin.*, 98 P.3d 960 (Colo. App. 2004).

Department of social services may set off from payments to providers of services the amounts of past overpayments. *Smith, Harst & Assoc. v. D.S.S.*, 780 P.2d 20 (Colo. App. 1989).

This section allows the state to assign its rights to a claim for medical expenses paid by the state's medicaid program only to the recipient of medicaid or the recipient's attorney. Therefore a deceased recipient's family members were not proper assignees. *Kildahl v. Tagge*, 942 P.2d 1283 (Colo. App. 1996).

The state has an independent right of action that cannot be denied because of any negligence of a recipient. *Tucker v. Gorman*, 944 P.2d 653 (Colo. App. 1997), *aff'd*, 961 P.2d 1126 (Colo. 1998).

However, so long as the recipient's negligence is not imputed to the state so as to deny the state's claim, the recipient's negligence may be considered in determining the extent of a party's liability for the state's expenditures. *Tucker v. Gorman*, 944 P.2d 653 (Colo. App. 1997), *aff'd* on other grounds, 961 P.2d 1126 (Colo. 1998).

This section does not provide for waiver of claims to recover medicaid benefits paid erroneously to a recipient, nor does it cross-reference any waiver regulation of the department of human services. *Nededog v. Colo. Dept. of Health Care Policy & Fin.*, 98 P.3d 960 (Colo. App. 2004).

25.5-4-302. Recovery of assets. (1) The general assembly hereby finds, determines, and declares that the cost of providing medical assistance to qualified recipients throughout the state has increased significantly in recent years; that such increasing costs have created an increased burden on state revenues while reducing the amount of such revenues available for other state programs; that recovering some of the medical assistance from the estates of medical assistance recipients would be a viable mechanism for such recipients to share in the cost of such assistance; and that such an estate recovery program would be a cost-efficient method of offsetting medical assistance costs in an equitable manner. The general assembly also declares that in order to ensure that medicaid is available for low-income individuals reasonable restrictions consistent with federal law should be placed

on the ability of persons to become eligible for medicaid by means of making transfers of property without fair and valuable consideration.

(2) (a) Medical assistance paid on behalf of any individual who was fifty-five years of age or older when the individual received such assistance may be recovered by the state department from the estate of such individual in accordance with paragraph (c) of this subsection (2).

(b) Medical assistance paid on behalf of any individual who is institutionalized may be recovered by the state department from the estate of such individual in accordance with paragraph (c) of this subsection (2).

(c) The state department shall establish an estate recovery program only insofar as such program is in accordance with Title XIX of the federal "Social Security Act", 42 U.S.C. sec. 1396p, as amended, and shall not take any action to recover medical assistance when the amount of assistance to be recovered is economically inappropriate in relation to expenses of recovery.

(3) The state department is authorized to file liens against any property of an individual who is institutionalized and from whom the state department may recover medical assistance pursuant to paragraph (b) of subsection (2) of this section.

(4) The state department may compromise, settle, or waive any recovery of medical assistance authorized pursuant to subsection (2) of this section upon good cause shown.

(5) Subject to any limitation concerning estate recovery in Title XIX of the federal "Social Security Act", 42 U.S.C. sec. 1396p, as amended, the amount of any medical assistance paid pursuant to the provisions of this article and articles 5 and 6 of this title is a claim against the estate pursuant to the provisions of section 15-12-805 (1), C.R.S.

(6) The state board shall promulgate rules to implement the provisions of this section, including rules limiting the eligibility for medical assistance if the person made a voluntary assignment or transfer of property without fair and valuable consideration prior to applying for medical assistance. A contract for an exempt burial fund for an individual shall include a provision restricting the full amount to the cost of the burial and stating that any portion not expended for the burial costs shall be refunded to the state department by the mortuary as reimbursement for the cost of medical assistance provided to the individual. Said rules shall be in accordance with Title XIX of the federal "Social Security Act", 42 U.S.C. sec. 1396p, as amended.

(7) Effective upon the implementation of a private-public partnership program for financing long-term care pursuant to section 25.5-6-110, this section shall apply to participants of such program only after excluding from the amount that may otherwise be recovered from such person's estate an amount allowed by rules adopted by the state board in accordance with section 25.5-6-110.

Source: L. 2006: Entire article added with relocations, p. 1836, § 7, effective July 1.

Editor's note: This section is similar to former § 26-4-403.3 as it existed prior to 2006.

ANNOTATION

Annotator's note. Since § 25.5-4-302 is similar to § 26-4-403.3 as it existed prior to the 2006 amendments relocating article 4 of title 26 to title 25.5, relevant cases construing that provision have been included in the annotations to this section.

Where section requires the department to establish an estate recovery program consistent with federal law and federal standards require the state to adopt procedures under which individuals who will be affected by recovery will have the right to apply for an undue hardship waiver, the department's rule allowing for service of notice on the personal representa-

tive of the decedent's estate is reasonably calculated to give notice to the affected individuals. However, department's notice was fatally defective since it did not instruct the personal representative to forward the notice to affected individuals nor did it identify who should receive the notice. *Estate of Schiola v. Colo. Dept. of Health Care Policy & Fin.*, 51 P.3d 1080 (Colo. App. 2002).

The corrected notice of estate claim sent to the estate remedied the deficiencies in the original notice and provided the information required under *Estate of Schiola v. Colo. Dept. of Health Care Policy & Fin.*, annotated above,

and the department rules. In re Estate of Kochevar, 94 P.3d 1253 (Colo. App. 2004).

Waiver of recovery of medicaid expenses should only benefit those individuals who qualify for and are granted a waiver to pre-

vent financial burdens upon the state. Cobeneficiaries of a beneficiary granted a waiver may not benefit from the waiver. In re Estate of Ligon, 160 P.3d 361 (Colo. App. 2007).

25.5-4-303. State income tax refund intercept - garnishment of earning - failure to provide medical support for child. (1) (a) At any time prescribed by the department of revenue, but not less frequently than annually, the state department may certify to the department of revenue information regarding any person who:

(I) Is obligated to the state agency responsible for administering medical assistance in this state for medical support based on medical assistance provided to the obligor's dependent child; and

(II) Has received payment from a third party to cover the health care costs of the child but has neither applied such payment to cover the child's health care costs nor to reimburse the state department, the custodial parent of the child, or the provider of medical care.

(b) The information provided to the department of revenue shall include the name and the social security number of the person described in paragraph (a) of this subsection (1), the amount of medical assistance provided to the child during the period for which medical support was ordered but not provided as described in subparagraph (II) of paragraph (a) of this subsection (1), and any other identifying information required by the department of revenue.

(2) Prior to a final certification of the information described in subsection (1) of this section to the department of revenue, the state department shall notify the obligated person, in writing, that the state intends to refer the person's name to the department of revenue in an attempt to offset the person's medical support obligation against the person's state income tax refund. Such notification shall include information on the parent's right to object to the offset.

(3) Upon notification by the department of revenue of amounts deposited with the state treasurer pursuant to section 39-21-108 (3), C.R.S., the state department may recover the amount of the medical assistance described in paragraph (b) of subsection (1) of this section.

(4) The state department may garnish the wages and other earnings of a person described in paragraph (a) of subsection (1) of this section. The garnishment of wages and earning shall be in accordance with articles 54 and 54.5 of title 13, C.R.S.

(5) The state board shall adopt rules as are necessary for the implementation of this section.

Source: L. 2006: Entire article added with relocations, p. 1838, § 7, effective July 1.

Editor's note: This section is similar to former § 26-4-403.4 as it existed prior to 2006.

25.5-4-303.3. Provider fraud - attorney general report. (1) On or before January 15, 2013, and on or before January 15 each year thereafter, the attorney general shall submit a written report to the judiciary committee and the health and environment committee of the house of representatives, or their successor committees, and to the judiciary committee and the health and human services committee of the senate, or their successor committees, relating to medicaid provider fraud including, at a minimum:

(a) Investigations of provider fraud during the year;

(b) Criminal complaints requested, cases dismissed, cases acquitted, convictions, and confessions of judgment;

(c) Recoveries, including fines and penalties, restitution ordered, and restitution collected;

(d) Civil claims; and

(e) Trends in methods used to commit provider fraud, excluding law enforcement-sensitive information.

ANNOTATION

Law reviews. For article, “Overview of the New Colorado Medicaid False Claims Act”, see 39 Colo. Law. 27 (October 2010).

25.5-4-304. Definitions. As used in sections 25.5-4-303.5 to 25.5-4-309, unless the context otherwise requires:

(1) (a) “Claim” means a request or demand for money or property, whether under a contract or otherwise, and regardless of whether the state has title to the money or property, under the “Colorado Medical Assistance Act” that is:

(I) Presented to an officer, employee, or agent of the state; or

(II) Made to a contractor, grantee, or other recipient if the money or property is to be spent or used on the state’s behalf or to advance a program or interest of the state and if the state:

(A) Provides or has provided any portion of the money or property requested or demanded; or

(B) Will reimburse the contractor, grantee, or other recipient for any portion of the money or property that is requested or demanded.

(b) “Claim” does not include a request or demand for money or property that the state has paid to an individual as compensation for employment by the state or as an income subsidy with no restriction on that individual’s use of the money or property.

(2) “Colorado Medical Assistance Act” means this article and articles 5 and 6 of this title.

(3) (a) “Knowing” or “knowingly” means that a person, with respect to information:

(I) Has actual knowledge of the information;

(II) Acts in deliberate ignorance of the truth or falsity of the information; or

(III) Acts in reckless disregard of the truth or falsity of the information.

(b) “Knowing” or “knowingly” does not require proof of specific intent to defraud.

(4) “Material” means having a natural tendency to influence, or be capable of influencing, the payment or receipt of money or property.

(5) “Obligation” means a fixed or contingent duty arising from an express or implied contractual, quasi-contractual, grantor-grantee, licensor-licensee, statutory, fee-based, or similar relationship, and the retention of overpayment.

L. 2010: Entire section R&RE, (SB 10-167), ch. 296, p. 1379, § 11, effective May 26.

Editor’s note: This section is similar to former §§ 26-4-1102 and 26-4-1103 (3) as they existed prior to 2006.

Cross references: For the legislative declaration stating the purpose of and the provision directing legislative staff agencies to conduct a post-enactment review pursuant to § 2-2-1201 scheduled in 2015, see sections 1 and 17 of chapter 296, Session Laws of Colorado 2010. To obtain a copy of the review, once completed, view Colorado Legislative Council's web site.

25.5-4-305. False medicaid claims - liability for certain acts. (1) Except as otherwise provided in subsection (2) of this section, a person is liable to the state for a civil penalty of not less than five thousand dollars and not more than ten thousand dollars, plus three times the amount of damages that the state sustains because of the act of that person, if the person:

(a) Knowingly presents, or causes to be presented, to an officer or employee of the state a false or fraudulent claim for payment or approval;

(b) Knowingly makes, uses, or causes to be made or used a false record or statement material to a false or fraudulent claim;

(c) Has possession, custody, or control of property or money used, or to be used, by the state in connection with the "Colorado Medical Assistance Act" and knowingly delivers, or causes to be delivered, less than all of the money or property;

(d) Authorizes the making or delivery of a document certifying receipt of property used, or to be used, by the state in connection with the "Colorado Medical Assistance Act" and, intending to defraud the state, makes or delivers the receipt without completely knowing that the information on the receipt is true;

(e) Knowingly buys, or receives as a pledge of an obligation or debt, public property from an officer or employee of the state in connection with the "Colorado Medical Assistance Act" who lawfully may not sell or pledge the property;

(f) Knowingly makes, uses, or causes to be made or used, a false record or statement material to an obligation to pay or transmit money or property to the state in connection with the "Colorado Medical Assistance Act", or knowingly conceals or knowingly and improperly avoids or decreases an obligation to pay or transmit money or property to the state in connection with the "Colorado Medical Assistance Act";

(g) Conspires to commit a violation of paragraphs (a) to (f) of this subsection (1).

(2) Notwithstanding the amount of damages authorized in subsection (1) of this section, for a person who violates subsection (1) of this section, the court may assess not less than twice the amount of damages that the state sustains because of the act of the person if the court finds that:

(a) The person who committed the violation of subsection (1) of this section furnished to the officials of the state responsible for investigating false claims violations all information about the violation known to the person and furnished said information within thirty days after the date on which the person first obtained the information;

(b) At the time the person furnished the information about the violation to the state, a criminal prosecution, civil action, or administrative action had not commenced with respect to the violation and the person did not have actual knowledge of the existence of an investigation into the violation; and

(c) The person fully cooperated with any investigation of the violation by the state.

(3) A person violating this section shall also be liable to the state for the costs of a civil action brought to recover any penalty or damages.

(4) Any information furnished pursuant to subsection (2) of this section shall be exempt from disclosure under part 2 of article 72 of this title.

ANNOTATION

Law reviews. For article, “Colorado’s Medicaid Compliance Statutes: False Statements and

Claims, Kickbacks, and Physician Referrals”, see 36 Colo. Law. 31 (March 2007).

25.5-4-306. Civil actions for false medicaid claims. (1) Responsibility of attorney general. The attorney general shall diligently investigate a violation under section 25.5-4-305. If the attorney general finds that a person has violated or is violating section 25.5-4-305, the attorney general may bring a civil action under this section against the person.

(2) **Actions by private persons.** (a) A relator may bring a civil action for a violation of section 25.5-4-305 on behalf of the relator and the state. The action shall be brought in the name of the state. The action may be dismissed only if the court and the attorney general give written consent to the dismissal and their reasons for consenting.

(b) A copy of the complaint and written disclosure of substantially all material evidence and information the relator possesses shall be served on the state pursuant to rule 4 of the Colorado rules of civil procedure. The complaint shall be filed in camera, shall remain under seal for at least sixty days, and shall not be served on the defendant until the court so orders. The state may elect to intervene and proceed with the action within sixty days after it receives both the complaint and the material evidence and information.

(c) The state may, for good cause shown, move the court for extensions of the time during which the complaint remains under seal under paragraph (b) of this subsection (2). Any such motion may be supported by affidavits or other submissions in camera. The defendant shall not be required to respond to a complaint filed under this section until twenty days after the complaint is unsealed and served upon the defendant pursuant to rule 4 of the Colorado rules of civil procedure.

(d) Before the expiration of the sixty-day period pursuant to paragraph (b) of this subsection (2) or any extensions obtained under paragraph (c) of this subsection (2), the state shall:

(I) Proceed with the action, in which case the state shall conduct the action; or

(II) Notify the court that it declines to take over the action, in which case the relator shall have the right to conduct the action.

(e) When a relator brings an action under this subsection (2), the federal false claims act, or any similar provision of the laws of any other state, no person other than the state may intervene or bring a related action based on the facts underlying the pending action.

(3) **Rights of parties to private actions.** (a) If the state proceeds with an action brought under subsection (2) of this section, it shall have the primary responsibility for prosecuting the action and shall not be bound by an act of the relator. The relator shall have the right to continue as a party to the action, subject to the limitations set forth in paragraph (b) of this subsection (3).

(b) (I) The state may dismiss the action notwithstanding the objections of the relator if the relator has been notified by the state of the filing of the motion and the court has provided the relator with an opportunity for a hearing on the motion.

(II) The state may settle the action with the defendant notwithstanding the objections of the relator if the court determines, after a hearing, that the proposed settlement is fair, adequate, and reasonable under all the circumstances. Upon a showing of good cause, the hearing may be held in camera.

(III) Upon a showing by the state that unrestricted participation during the course of the litigation by the relator would interfere with or unduly delay the state’s prosecution of the case, or would be repetitious, irrelevant, or for purposes of harassment, the court may, in its discretion, impose limitations on the relator’s participation, including but not limited to:

(A) Limiting the number of witnesses the relator may call;

(B) Limiting the length of the testimony of the witnesses;

(C) Limiting the relator’s cross-examination of witnesses; or

(D) Otherwise limiting the participation by the relator in the litigation.

(IV) Upon a showing by the defendant that unrestricted participation during the course of the litigation by the relator would be for purposes of harassment or would cause the

defendant undue burden or unnecessary expense, the court may limit the participation by the relator in the litigation.

(c) If the state elects not to proceed with the action, the relator who initiated the action shall have the right to conduct the action. If the state so requests, it shall be served with copies of all pleadings filed in the action and, at the state's expense, shall be supplied with copies of all deposition transcripts. When a relator proceeds with the action, the court, without limiting the status and rights of the relator, may nevertheless permit the state to intervene at a later date upon a showing of good cause.

(d) Regardless of whether the state proceeds with the action, upon a showing by the state that certain actions of discovery by the relator would interfere with the state's investigation or prosecution of a criminal or civil matter arising out of the same facts, the court may stay the discovery for a period of not more than sixty days. The showing shall be conducted in camera. The court may extend the sixty-day period upon a further showing in camera that the state has pursued the criminal or civil investigation or proceedings with reasonable diligence and that any proposed discovery in the civil action will interfere with the ongoing criminal or civil investigation or proceedings.

(e) Notwithstanding the provisions of subsection (2) of this section, the state may elect to pursue its claim through any alternate remedy available to the state, including any administrative proceeding to determine a civil money penalty. If an alternate remedy is pursued in another proceeding, the relator shall have the same rights in the proceeding as the relator would have had if the action had continued under this section. Any finding of fact or conclusion of law made in another proceeding that has become final shall be conclusive on all parties to an action under this section. For purposes of this paragraph (e), a finding or conclusion is final if it has been finally determined on appeal to the appropriate court of the state, if all time for filing such an appeal with respect to the finding or conclusion has expired, or if the finding or conclusion is not subject to judicial review.

(4) **Award to private persons.** (a) (I) If the state proceeds with an action brought by a relator under subsection (2) of this section, the relator shall, subject to subparagraph (II) of this paragraph (a), receive at least fifteen percent but not more than twenty-five percent of the proceeds of the action or settlement of the claim, depending upon the extent to which the relator substantially contributed to the prosecution of the action.

(II) If the court finds the action to be based primarily on disclosures of specific information, other than information provided by the relator, relating to allegations or transactions in a criminal, civil, or administrative hearing, in a legislative, administrative, or state auditor's report, hearing, audit, or investigation, or from the news media, the court may award to the relator such sums as it considers appropriate, but in no case more than ten percent of the proceeds, taking into account the significance of the information and the role of the relator in advancing the case to litigation.

(III) Any payment to a relator under subparagraph (I) or (II) of this paragraph (a) shall be made from the proceeds. The relator shall also receive an amount for reasonable expenses that the court finds to have been necessarily incurred plus reasonable attorney fees and costs. All such expenses, fees, and costs shall be awarded against the defendant.

(b) If the state does not proceed with an action brought under subsection (2) of this section, the relator bringing the action or settling the claim shall receive an amount that the court decides is reasonable for collecting the civil penalty and damages. The amount shall be not less than twenty-five percent and not more than thirty percent of the proceeds of the action or settlement and shall be paid out of the proceeds. The relator shall also receive an amount for reasonable expenses that the court finds to have been necessarily incurred, plus reasonable attorney fees and costs. All such expenses, fees, and costs shall be awarded against the defendant.

(c) Regardless of whether the state proceeds with an action brought under subsection (2) of this section, if the court finds that the action was brought by a relator who planned and initiated the violation of section 25.5-4-305 upon which the action was brought, then the court may, to the extent the court considers appropriate, reduce the share of the proceeds of the action that the relator would otherwise receive under paragraph (a) or (b) of this subsection (4), taking into account the role of the relator in advancing the case to litigation and any relevant circumstances pertaining to the violation. If the relator is convicted of

criminal conduct arising from his or her role in the violation of section 25.5-4-305, the relator shall be dismissed from the civil action and shall not receive any share of the proceeds of the action. Such dismissal shall not prejudice the right of the state to continue the action.

(d) If the state does not proceed with an action brought under subsection (2) of this section and the relator bringing the action conducts the action, the court may award to the defendant its reasonable attorney fees and expenses if the defendant prevails in the action and the court finds that the claim of the relator was clearly frivolous, clearly vexatious, or brought primarily for purposes of harassment.

(5) **Certain actions barred.** (a) A court shall not have jurisdiction over an action brought under this section against a member of the general assembly, a member of the state judiciary, or an elected official in the executive branch of the state of Colorado.

(b) A relator shall not bring an action under subsection (2) of this section that is based upon allegations or transactions that are the subject of a civil suit in a court of this state or an administrative civil money penalty proceeding in which the state is already a party.

(c) (I) A court shall not have jurisdiction over an action brought under subsection (2) of this section if the action is based upon the public disclosure of allegations or transactions in a criminal, civil, or administrative hearing, in a legislative, administrative, or state auditor's report, hearing, audit, or investigation, or from the news media, unless the action is brought by the state or the relator is an original source of the information that is the basis for the action.

(II) For purposes of this paragraph (c), "original source" means an individual who has direct and independent knowledge of the information on which the allegations are based and has voluntarily provided the information to the state before filing an action under subsection (2) of this section that is based on the information.

(6) **State not liable for certain expenses.** The state is not liable for expenses that a relator incurs in bringing an action under this section.

(7) **Private action for retaliation.** (a) A relator shall be entitled to all relief necessary to make the relator whole, if the relator is discharged, demoted, suspended, threatened, harassed, or in any other manner discriminated against in the terms and conditions of the relator's employment by the defendant or by any other person because of lawful acts done by the relator in furtherance of an action under this section or in furtherance of an effort to stop any violations of section 25.5-4-305.

(b) (I) A relator who seeks relief pursuant to this subsection (7) shall be entitled to all relief necessary to make the relator whole. Such relief shall include:

(A) If the relator is an employee, reinstatement with the same seniority status the relator would have had but for the discrimination, twice the amount of back pay, and interest on the back pay; and

(B) Compensation for any special damages sustained as a result of the discrimination or retaliation, including litigation costs and reasonable attorney fees.

(II) A relator may bring an action in the appropriate court of the state for the relief provided in this subsection (7).

ANNOTATION

Law reviews. For article, “Colorado’s Medicaid Compliance Statutes: False Statements and

Claims, Kickbacks, and Physician Referrals”, see 36 Colo. Law. 31 (March 2007).

25.5-4-307. False medicaid claims procedures. (1) A civil action under section 25.5-4-306 (1) or (2) may not be brought after the later of:

(a) More than six years after the date on which the violation of section 25.5-4-305 is committed; or

(b) More than three years after the date when facts material to the right of action are known or reasonably should have been known by the official of the state charged with responsibility to act in the circumstances, but in no event more than ten years after the date on which the violation of section 25.5-4-305 is committed.

(2) If the state elects to intervene and proceed with an action brought under section 25.5-4-306, the state may file its own complaint or amend the relator’s complaint to clarify or add detail to the claims in which the state is intervening and to add any additional claims with respect to which the state contends it is entitled to relief. For statute of limitations purposes, any such pleadings by the state shall relate back to the filing date of the relator’s complaint, to the extent that the state’s claim arises out of the conduct, transactions, or occurrences set forth, or attempted to be set forth, in the prior complaint of the relator.

(3) In an action brought under section 25.5-4-306, the state or relator must prove all essential elements of the cause of action, including damages, by a preponderance of the evidence.

(4) Notwithstanding any other provision of law, the Colorado rules of criminal procedure, or the Colorado rules of evidence, a final judgment rendered in favor of the state in a criminal proceeding charging fraud or false statements, whether upon a verdict after trial or upon a plea of guilty or nolo contendere, shall estop the defendant from denying the essential elements of the offense in any action that involves the same transaction as in the criminal proceeding and that is brought under section 25.5-4-306.

Source: L. 2010: Entire section added, (SB 10-167), ch. 296, p. 1386, § 14, effective May 26.

Cross references: For the legislative declaration stating the purpose of and the provision directing legislative staff agencies to conduct a post-enactment review pursuant to § 2-2-1201 scheduled in 2015, see sections 1 and 17 of chapter 296, Session Laws of Colorado 2010. To obtain a copy of the review, once completed, view Colorado Legislative Council’s web site.

25.5-4-308. False medicaid claims jurisdiction. An action under section 25.5-4-306 may be brought in any judicial district in which the defendant or, in the case of multiple defendants, any one defendant can be found, resides, or transacts business or in which an act proscribed by section 25.5-4-305 occurred. A summons as required by the Colorado rules of civil procedure shall be issued by the appropriate district court and served at any place.

25.5-4-309. False medicaid claims civil investigation demands. (1) **General.** (a) (I) Whenever the attorney general has reason to believe that a person may be in possession, custody, or control of documentary material or information relevant to a false medicaid claims law investigation, the attorney general may, before commencing a civil

proceeding under section 25.5-4-306 or other false medicaid claims law or making an election under section 25.5-4-306 (2) (d), issue in writing and cause to be served upon the person a civil investigative demand requiring the person to:

- (A) Produce the documentary material for inspection and copying;
- (B) Answer in writing written interrogatories with respect to the documentary material or information;

- (C) Give oral testimony concerning the documentary material or information; or

- (D) Furnish any combination of such material, answers, or testimony.

(II) The attorney general may not delegate the authority to issue civil investigative demands under this subsection (1). Whenever a civil investigative demand is an express demand for any product of discovery, the attorney general, the deputy attorney general, or an assistant attorney general shall cause to be served, in any manner authorized by this section, a copy of the demand upon the person from whom the discovery was obtained and shall notify the person to whom the demand is issued of the date on which the copy was served.

(b) (I) Each civil investigative demand issued under this subsection (1) shall state the nature of the conduct constituting the alleged violation of a false medicaid claims law that is under investigation and the applicable provision of law alleged to be violated.

(II) If the demand is for the production of documentary material, the demand shall:

- (A) Describe each class of documentary material to be produced with such definiteness and certainty as to permit the material to be fairly identified;

- (B) Prescribe a return date for each such class that will provide a reasonable period of time within which the material so demanded may be assembled and made available for inspection and copying; and

- (C) Identify the false medicaid claims law investigator to whom the material shall be made available.

(III) If the demand is for answers to written interrogatories, the demand shall:

- (A) Specify the written interrogatories to be answered;

- (B) Prescribe dates on which answers to written interrogatories shall be submitted; and

- (C) Identify the false medicaid claims law investigator to whom the answers shall be submitted.

(IV) If the demand is for the giving of oral testimony, the demand shall:

- (A) Prescribe a date, time, and place at which oral testimony shall be commenced and notify the deponent if the oral testimony is to be video or audio recorded;

- (B) Identify a false medicaid claims law investigator who shall conduct the examination and the custodian to whom the transcript of the examination shall be submitted;

- (C) Specify that such attendance and testimony are necessary to the conduct of the investigation;

- (D) Notify the person receiving the demand of the right to be accompanied by an attorney and any other representative; and

- (E) Describe the general purpose for which the demand is being issued and the general nature of the testimony, including the primary areas of inquiry, that will be taken pursuant to the demand.

(V) A civil investigative demand issued under this section that is an express demand for any product of discovery shall not be returned or returnable until twenty days after a copy of the demand has been served upon the person from whom the discovery was obtained.

(VI) The date prescribed for the commencement of oral testimony pursuant to a civil investigative demand issued under this section shall be a date that is not less than seven days after the date on which the demand is received, unless the attorney general or an assistant attorney general designated by the attorney general determines that exceptional circumstances are present that warrant the commencement of the testimony within a lesser period of time.

(VII) The attorney general shall not authorize the issuance under this section of more than one civil investigative demand for oral testimony by the same person unless the person requests otherwise or unless the attorney general, after investigation, notifies that person in writing that an additional demand for oral testimony is necessary. Notwithstanding section 24-31-103, C.R.S., the attorney general shall not authorize the performance, by any other

officer, employee, or agency, of any function vested in the attorney general under this subparagraph (VII).

(2) **Protected material or information.** (a) A civil investigative demand issued under subsection (1) of this section shall not require the production of documentary material, the submission of answers to written interrogatories, or the giving of oral testimony if the material, answers, or testimony would be protected from disclosure under:

(I) The standards applicable to subpoenas or subpoenas duces tecum issued by a court of this state to aid in a grand jury investigation; or

(II) The standards applicable to discovery requests under the Colorado rules of civil procedure, to the extent that the application of the standards to any such demand is appropriate and consistent with the provisions and purposes of this section.

(b) A demand that is an express demand for a product of discovery supersedes any inconsistent order, rule, or provision of law, other than this section, preventing or restraining disclosure of the product of discovery to a person. Disclosure of a product of discovery pursuant to an express demand does not constitute a waiver of any right or privilege that the person making the disclosure may be entitled to invoke to resist discovery of trial preparation materials.

(3) **Service and jurisdiction.** (a) A civil investigative demand issued under subsection (1) of this section or a petition brought pursuant to subsection (10) of this section may be served by a false medicaid claims law investigator, a sheriff, or a deputy sheriff at any place within the state.

(b) A civil investigative demand issued under subsection (1) of this section or a petition filed under subsection (10) of this section may be served upon a person who is not found within the state in the manner prescribed by the Colorado rules of civil procedure for service in another state or a foreign country. To the extent that the courts of this state can assert jurisdiction over any such person consistent with due process, the district court for the city and county of Denver shall have the same jurisdiction to take an action respecting compliance with this section by any such person that the court would have if the person were personally within the jurisdiction of the court.

(4) **Service on legal entities and natural persons.** (a) Service of a civil investigative demand issued under subsection (1) of this section or of a petition filed under subsection (10) of this section may be made upon a partnership, corporation, association, or other legal entity by:

(I) Delivering an executed copy of the demand or petition to a partner, executive officer, managing agent, or general agent of the partnership, corporation, association, or entity, or to an agent authorized by appointment or by law to receive service of process on behalf of the partnership, corporation, association, or entity;

(II) Delivering an executed copy of the demand or petition to the principal office or place of business of the partnership, corporation, association, or entity; or

(III) Depositing an executed copy of the demand or petition in the United States mail by registered or certified mail, with a return receipt requested, addressed to the partnership, corporation, association, or entity at its principal office or place of business.

(b) Service of a civil investigative demand issued under subsection (1) of this section or of a petition filed under subsection (10) of this section may be made upon a natural person by:

(I) Delivering an executed copy of the demand or petition to the person; or

(II) Depositing an executed copy of the demand or petition in the United States mail by registered or certified mail, with a return receipt requested, addressed to the person at the person's residence, principal office, or place of business.

(5) **Proof of service.** A verified return by the individual serving a civil investigative demand issued under subsection (1) of this section or a petition filed under subsection (10) of this section setting forth the manner of the service shall be proof of the service. In the case of service by registered or certified mail, the return shall be accompanied by the return post office receipt of delivery of the demand.

(6) **Documentary material.** (a) (I) The production of documentary material in response to a civil investigative demand issued under subsection (1) of this section shall be made under a sworn certificate, in the form as the demand designates, by:

(A) In the case of a natural person, the person to whom the demand is directed; or

(B) In the case of a person other than a natural person, a person having knowledge of the facts and circumstances relating to the production and authorized to act on behalf of the person.

(II) The certificate shall state that all of the documentary material required by the demand and in the possession, custody, or control of the person to whom the demand is directed has been produced and made available to the false medicaid claims law investigator identified in the demand.

(b) A person upon whom a civil investigative demand for the production of documentary material has been served under this section shall make the material available for inspection and copying to the false medicaid claims law investigator identified in the demand at the principal place of business of the person, or at such other place as the false medicaid claims law investigator and the person thereafter may agree and prescribe in writing, or as the court may direct under subsection (10) of this section. The material shall be made so available on the return date specified in the demand, or on such later date as the false medicaid claims law investigator may prescribe in writing. The person may, upon written agreement between the person and the false medicaid claims law investigator, substitute copies for originals of all or any part of the material.

(7) **Interrogatories.** (a) Each interrogatory in a civil investigative demand issued under subsection (1) of this section shall be answered separately and fully in writing under oath and shall be submitted under a sworn certificate, in the form the demand designates, by:

(I) In the case of a natural person, the person to whom the demand is directed; or

(II) In the case of a person other than a natural person, the person or persons responsible for answering each interrogatory.

(b) If an interrogatory is objected to, the reasons for the objection shall be stated in the certificate instead of an answer. The certificate shall state that all information required by the demand and in the possession, custody, control, or knowledge of the person to whom the demand is directed has been submitted. To the extent that any information is not furnished, the information shall be identified and reasons set forth with particularity regarding the reasons why the information was not furnished.

(8) **Oral examinations.** (a) The examination of a person pursuant to a civil investigative demand for oral testimony issued under subsection (1) of this section shall be taken before an officer authorized to administer oaths and affirmations by the laws of the United States, the state of Colorado, or the place where the examination is held. The officer before whom the testimony is to be taken shall put the witness on oath or affirmation and shall, personally or with the assistance of someone acting under the direction of the officer and in the officer's presence, record the testimony of the witness. The testimony shall be taken stenographically and shall be transcribed. When the testimony is fully transcribed, the officer before whom the testimony is taken shall promptly transmit a copy of the transcript of the testimony to the custodian. This subsection (8) shall not preclude the taking of testimony by any means authorized by, and in a manner consistent with, the Colorado rules of civil procedure.

(b) The false medicaid claims law investigator conducting the examination shall exclude from the place where the examination is held all persons except the person giving the testimony, the attorney for and any other representative of the person giving the testimony, the attorney for the state, any person who may be agreed upon by the attorney for the state and the person giving the testimony, the officer before whom the testimony is to be taken, and the stenographer who is recording the testimony.

(c) The oral testimony of a person taken pursuant to a civil investigative demand served under this section shall be taken in the judicial district of the state within which the person resides, is found, or transacts business, or in another place as may be agreed upon by the false medicaid claims law investigator conducting the examination and the person.

(d) When the testimony is fully transcribed, the false medicaid claims law investigator or the officer before whom the testimony is taken shall afford the witness, who may be accompanied by counsel, a reasonable opportunity to examine and read the transcript, unless the witness waives the examination and reading. Any changes in form or substance

that the witness desires to make shall be entered and identified upon the transcript by the officer or the false medicaid claims law investigator, with a statement of the reasons given by the witness for making the changes. The transcript shall then be signed by the witness, unless the witness in writing waives the signing, is ill, cannot be found, or refuses to sign. If the witness does not sign the transcript within thirty days after being afforded a reasonable opportunity to examine it, the officer or the false medicaid claims law investigator shall sign it and state on the record the fact of the waiver, illness, absence of the witness, or refusal to sign, together with the reasons, if any, given therefor.

(e) The officer before whom the testimony is taken shall certify on the transcript that the witness was sworn by the officer and that the transcript is a true record of the testimony given by the witness, and the officer or false medicaid claims law investigator shall promptly deliver the transcript, or send the transcript by registered or certified mail, to the custodian.

(f) Upon payment of reasonable charges therefor, the false medicaid claims law investigator shall furnish a copy of the transcript to the witness only; except that the attorney general, the deputy attorney general, or an assistant attorney general may, for good cause, limit the witness to inspection of the official transcript of the testimony of the witness.

(g) (I) A person compelled to appear for oral testimony under a civil investigative demand issued under subsection (1) of this section may be accompanied, represented, and advised by counsel. Counsel may advise the person, in confidence, with respect to any question asked of the person. The person or counsel may object on the record to any question, in whole or in part, and shall briefly state for the record the reason for the objection. An objection may be made, received, and entered upon the record when it is claimed that the person is entitled to refuse to answer the question on the grounds of any constitutional or other legal right or privilege, including the privilege against self-incrimination. The person may not otherwise object to or refuse to answer any question and may not directly or through counsel otherwise interrupt the oral examination. If the person refuses to answer a question, the false medicaid claims law investigator may file a petition in a district court under paragraph (a) of subsection (10) of this section for an order compelling the person to answer the question.

(II) If the person refuses to answer a question on the grounds of the privilege against self-incrimination, the false medicaid claims law investigator may compel the testimony of the person in accordance with the provisions of section 13-90-118, C.R.S.

(III) A person appearing for oral testimony under a civil investigative demand issued under subsection (1) of this section shall be entitled to the same fees and allowances that are paid to witnesses in the district courts of this state.

(9) **Custodian of documents, answers, and transcripts.** (a) The attorney general shall designate a false medicaid claims law investigator to serve as custodian of documentary material, answers to interrogatories, and transcripts of oral testimony received under this section and shall designate such additional false medicaid claims law investigators as the attorney general determines from time to time to be necessary to serve as deputies to the custodian.

(b) (I) A false medicaid claims law investigator who receives any documentary material, answers to interrogatories, or transcripts of oral testimony under this section shall transmit them to the custodian. The custodian shall take physical possession of the material, answers, or transcripts and shall be responsible for the use made of them and for the return of documentary material under paragraph (d) of this subsection (9).

(II) The custodian may cause the preparation of copies of the documentary material, answers to interrogatories, or transcripts of oral testimony as may be required for official use by a false medicaid claims law investigator or other officer or employee of the department of law who is authorized for such use under regulations that the attorney general shall issue. The material, answers, and transcripts may be used by any such authorized false medicaid claims law investigator or other officer or employee in connection with the taking of oral testimony under this section.

(III) (A) Except as otherwise provided in this subsection (9), documentary material, answers to interrogatories, or transcripts of oral testimony, or copies thereof, while in the

possession of the custodian, shall not be available for examination by an individual other than a false medicaid claims law investigator or other officer or employee of the department of law authorized under subparagraph (II) of this paragraph (b).

(B) Sub-subparagraph (A) of this subparagraph (III) shall not apply if consent is given by the person who produced the material, answers, or transcripts or, in the case of any product of discovery produced pursuant to an express demand for the material, if consent is given by the person from whom the discovery was obtained.

(C) Nothing in this subparagraph (III) is intended to prevent disclosure to the general assembly, including any committee of the general assembly, or to any other agency of the state for use by the agency in furtherance of its statutory responsibilities. Disclosure of information to any such other agency shall be allowed only upon application, made by the attorney general to a district court, showing substantial need for the use of the information by the agency in furtherance of its statutory responsibilities.

(IV) While in the possession of the custodian and under such reasonable terms and conditions as the attorney general shall prescribe:

(A) Documentary material and answers to interrogatories shall be available for examination by the person who produced the material or answers, or by a representative of that person authorized by that person to examine the material and answers; and

(B) Transcripts of oral testimony shall be available for examination by the person who produced the testimony or by a representative of that person authorized by that person to examine the transcripts.

(c) Whenever an attorney of the department of law has been designated to appear before a court, grand jury, or state agency in a case or proceeding, the custodian of any documentary material, answers to interrogatories, or transcripts of oral testimony received under this section may deliver to the attorney such material, answers, or transcripts for official use in connection with the case or proceeding as the attorney determines to be required. Upon the completion of the case or proceeding, the attorney shall return to the custodian the material, answers, or transcripts so delivered that are not in the control of the court, grand jury, or agency through introduction into the record of the case or proceeding.

(d) The custodian shall, upon written request of a person who produced any documentary material in the course of any false medicaid claims law investigation pursuant to a civil investigative demand under this section, return to the person any such material, other than copies furnished to the false medicaid claims law investigator under paragraph (b) of subsection (6) of this section or made for the department of law under subparagraph (II) of paragraph (b) of this subsection (9), that is not in the control of a court, grand jury, or agency through introduction into the record of the case or proceeding, if:

(I) A case or proceeding before a court or grand jury arising out of the investigation or any proceeding before a state agency involving the material has been completed; or

(II) A case or proceeding in which the material may be used has not been commenced within a reasonable time after completion of the examination and analysis of all documentary material and other information assembled in the course of the investigation.

(e) (I) In the event of the death, disability, or separation from service in the department of law of the custodian of any documentary material, answers to interrogatories, or transcripts of oral testimony produced pursuant to a civil investigative demand under this section, or in the event of the official relief of the custodian from responsibility for the custody and control of the material, answers, or transcripts, the attorney general shall promptly:

(A) Designate another false medicaid claims law investigator to serve as custodian of the material, answers, or transcripts; and

(B) Transmit in writing to the person who produced the material, answers, or testimony notice of the identity and address of the successor so designated.

(II) A person who is designated to be a successor under this paragraph (e) shall have, with regard to the material, answers, or transcripts, the same duties and responsibilities as were imposed by this section upon that person's predecessor in office; except that the successor shall not be held responsible for any default or dereliction that occurred before that designation.

(10) **Judicial proceedings.** (a) Whenever a person fails to comply with a civil investigative demand issued under subsection (1) of this section, or whenever satisfactory copying or reproduction of the material requested in a demand cannot be done and the person refuses to surrender the material, the attorney general may file, in a district court for the judicial district in which the person resides, is found, or transacts business, and serve upon the person a petition for an order of the court for the enforcement of the civil investigative demand.

(b) (I) A person who has received a civil investigative demand issued under subsection (1) of this section may file a petition for an order of the court to modify or set aside the demand. The person shall file the petition in a district court for the judicial district within which the person resides, is found, or transacts business and shall serve a copy of the petition upon the false medicaid claims law investigator identified in the demand. In the case of a petition addressed to an express demand for a product of discovery, the person may file a petition to modify or set aside the demand only in the district court for the judicial district in which the proceeding in which the discovery was obtained is or was last pending. The person shall file a petition under this subparagraph (I):

(A) Within twenty days after the date of service of the civil investigative demand or at any time before the return date specified in the demand, whichever date is earlier; or

(B) Within such longer period as may be prescribed in writing by a false medicaid claims law investigator identified in the demand.

(II) The petition shall specify each ground upon which the petitioner relies in seeking relief under subparagraph (I) of this paragraph (b) and may be based upon any failure of the demand to comply with the provisions of this section or upon any constitutional or other legal right or privilege of the person. During the pendency of the petition in the court, the court may stay, as it deems proper, the running of the time allowed for compliance with the demand, in whole or in part; except that the person filing the petition shall comply with any portions of the demand not sought to be modified or set aside.

(c) (I) In the case of a civil investigative demand issued under subsection (1) of this section that is an express demand for a product of discovery, the person from whom the discovery was obtained may file a petition for an order of the court to modify or set aside those portions of the demand requiring production of any product of discovery. The person shall file the petition in the district court for the judicial district in which the proceeding in which the discovery was obtained is or was last pending and shall serve a copy of the petition upon the false medicaid claims law investigator identified in the demand and upon the recipient of the demand. The person shall file a petition under this subparagraph (I):

(A) Within twenty days after the date of service of the civil investigative demand or at any time before the return date specified in the demand, whichever date is earlier; or

(B) Within such longer period as may be prescribed in writing by the false medicaid claims law investigator identified in the demand.

(II) The petition shall specify each ground upon which the petitioner relies in seeking relief under subparagraph (I) of this paragraph (c), and may be based upon any failure of the portions of the demand from which relief is sought to comply with the provisions of this section or upon any constitutional or other legal right or privilege of the petitioner. During the pendency of the petition, the court may stay, as it deems proper, compliance with the demand and the running of the time allowed for compliance with the demand.

(d) At any time during which a custodian is in custody or control of any documentary material or answers to interrogatories produced, or transcripts of oral testimony given, by a person in compliance with a civil investigative demand issued under subsection (1) of this section, the person, and in the case of an express demand for any product of discovery, the person from whom the discovery was obtained, may file a petition for an order of the court to require the performance by the custodian of any duty imposed upon the custodian by this section. The person shall file the petition in the district court for the judicial district within which the office of the custodian is situated and shall serve a copy of the petition upon the custodian.

(e) Whenever a petition is filed in a district court under this subsection (10), the court shall have jurisdiction to hear and determine the matter so presented and to enter such order or orders as may be required to carry out the provisions of this section. A final order so

entered shall be subject to appeal under section 13-4-102, C.R.S. Any disobedience of a final order entered by a court under this section shall be punished as a contempt of the court.

(f) The Colorado rules of civil procedure shall apply to a petition under this subsection (10) to the extent that the rules are consistent with the provisions of this section.

(11) **Disclosure exemption.** Any documentary material, answers to written interrogatories, or oral testimony provided under a civil investigative demand issued under subsection (1) of this section shall be exempt from disclosure under section 24-72-203, C.R.S.

(12) **Definitions.** As used in this section, unless the context otherwise requires:

(a) “Custodian” means the custodian, or any deputy custodian, designated by the attorney general under paragraph (a) of subsection (9) of this section.

(b) “Documentary material” means the original or a copy of a book, record, report, memorandum, paper, communication, tabulation, chart, or other document, or data compilations stored in or accessible through computer or other information retrieval systems, together with instructions and all other materials necessary to use or interpret the data compilations, and any product of discovery.

(c) “False medicaid claims law” means:

(I) This section and sections 25.5-4-303.5 to 25.5-4-308; and

(II) Any law enacted before, on, or after May 26, 2010, that prohibits or makes available to the state in a court of the state a civil remedy with respect to a false medicaid claim against, bribery of, or corruption of an officer or employee of the state.

(d) “False medicaid claims law investigation” means an inquiry conducted by a false medicaid claims law investigator for the purpose of ascertaining whether a person is or has been engaged in a violation of a false medicaid claims law.

(e) “False medicaid claims law investigator” means an attorney or investigator employed by the department of law who is charged with the duty of enforcing or carrying into effect a false medicaid claims law or an officer or employee of the state acting under the direction and supervision of the attorney or investigator in connection with a false medicaid claims law investigation.

(f) “Person” means a natural person, partnership, corporation, association, or other legal entity.

(g) “Product of discovery” means:

(I) The original or duplicate of a deposition, interrogatory, document, thing, result of the inspection of land or other property, examination, or admission, any one of which is obtained by a method of discovery in a judicial or administrative proceeding of an adversarial nature;

(II) A digest, analysis, selection, compilation, or derivation of an item listed in subparagraph (I) of this paragraph (g); and

(III) An index or other manner of access to an item listed in subparagraph (I) of this paragraph (g).

25.5-4-310. Medicaid false claims report. (1) On or before January 15, 2012, and on or before each January 15 thereafter, the attorney general shall submit a written report to the health and human services committees of the senate and the house of representatives, or any successor committees, and to the joint budget committee of the general assembly concerning claims brought under the “Colorado Medicaid False Claims Act” during the previous fiscal year. The report shall include, but not be limited to:

(a) The number of actions filed by the attorney general;

(b) The number of actions filed by the attorney general that were completed;

(c) The amount that was recovered in actions filed by the attorney general through settlement or through a judgment and, if known, the amount recovered for damages, penalties, and litigation costs;

(d) The number of actions filed by a person other than the attorney general;

(e) The number of actions filed by a person other than the attorney general that were completed;

(f) The amount that was recovered in actions filed by a person other than the attorney general through settlement or through a judgment and, if known, the amount recovered for damages, penalties, and litigation costs, and the amount recovered by the state and the person; and

(g) The amount expended by the state for investigation, litigation, and all other costs for claims related to the "Colorado Medicaid False Claims Act".

PART 4

PROVIDERS - REIMBURSEMENT

25.5-4-401. Providers - payments - rules. (1) (a) The state department shall establish rules for the payment of providers under this article and articles 5 and 6 of this title. Within the limits of available funds, such rules shall provide reasonable compensation to such providers, but no provider shall, by this section or any other provision of this article or article 5 or 6 of this title, be deemed to have any vested right to act as a provider under this article and articles 5 and 6 of this title or to receive any payment in addition to or different from that which is currently payable on behalf of a recipient at the time the medical benefits are provided by said provider.

(b) (I) On and after July 1, 1992, the state department rules established for the payment of providers under this article and articles 5 and 6 of this title shall provide that services that are compensable under both Title XIX and Title XVIII of the social security act shall be paid at either the rate established under Title XIX or the rate established under Title XVIII, whichever is lower.

(II) If any provision of this paragraph (b) is found to be in conflict with any federal law or regulation, such conflicting portion of this paragraph (b) is declared to be inoperative to the extent of the conflict.

(c) The state department shall exercise its overexpenditure authority under section 24-75-109, C.R.S., and shall not intentionally interrupt the normal provider payment schedule unless notified jointly by the director of the office of state planning and budgeting and the state controller that there is the possibility that adequate cash will not be available to make payments to providers and for other state expenses. If it is determined that adequate cash is not available and the state department does interrupt the normal payment cycle, the state department shall notify the joint budget committee of the general assembly and any affected providers in writing of its decision to interrupt the normal payment schedule. Nothing in this paragraph (c) shall be interpreted to establish a right for any provider to be paid during any specific billing cycle.

(d) Repealed.

(2) As to all payments made pursuant to this article and articles 5 and 6 of this title, the state department rules for the payment of providers may include provisions that encourage the highest quality of medical benefits and the provision thereof at the least expense possible.

(3) (a) As used in this subsection (3), “capitated” means a method of payment by which a provider directly delivers or arranges for delivery of medical care benefits for a term established by contract with the state department based on a fixed rate of reimbursement per recipient.

(b) (I) In order to provide medical benefits under this article and articles 5 and 6 of this title on a capitated basis and subject to the condition imposed in subparagraph (II) of this paragraph (b), the state department is authorized to solicit negotiated contracts with providers based upon the requirements of this subsection (3). The state department may contract with one or more providers concerning the same medical services in a single geographic area.

(II) The state department may award a contract to one or more providers pursuant to subparagraph (I) of this paragraph (b) when the executive director determines that such contract will reduce the costs of providing medical benefits under this article and articles 5 and 6 of this title.

(III) The state department may define groups of recipients by geographic area or other categories and may require that all members of the defined group obtain medical services through one or more provider contracts entered into pursuant to this subsection (3).

(4) (a) The general assembly hereby finds, determines, and declares that access to health care services would be improved and costs of health care would be restrained if the recipients of the medicaid program would choose a primary care physician through a managed care provider. For purposes of this subsection (4), “managed care provider” means either a primary care physician program, a health maintenance organization, or a prepaid health plan.

(b) Subject to the provisions of paragraph (c) of this subsection (4), the executive director of the state department has the authority to require a recipient of the medicaid program to select a managed care provider and to assign a recipient to a managed care provider if the recipient has failed to make a selection within a reasonable time. To the extent possible, this requirement shall be implemented on a statewide basis.

(c) The state department shall ensure the following:

(I) A managed care provider shall establish and implement consumer friendly procedures and instructions for disenrollment and shall have adequate staff to explain issues concerning service delivery and disenrollment procedures to recipients, including staff to address the communications needs and requirements of recipients with disabilities.

(II) All recipients shall be adequately informed about service delivery options available to them consistent with the provisions of this subparagraph (II). If a recipient does not respond to a state department request for selection of a delivery option within forty-five calendar days, the state department shall send a second notification to the recipient. If the recipient does not respond within twenty days of the date of the second notification, the state department shall ensure that the recipient remains with the recipient’s primary care physician, regardless of whether said primary care physician is enrolled in a health maintenance organization.

(5) The state board may promulgate rules to provide for the implementation and administration of subsections (3) and (4) of this section.

(6) The state department shall make good faith efforts to obtain a waiver or waivers from any requirements of Title XIX of the social security act which would prohibit the implementation of subsections (3) and (4) of this section. Such waiver or waivers shall be obtained from the federal department of health and human services, or any successor agency. If such waivers are not granted, the state department shall not act to implement or administer subsections (3) and (4) of this section to the extent that Title XIX prohibits it.

Editor’s note: This section is similar to former § 26-4-404 as it existed prior to 2006.

ANNOTATION

Annotator's note. Since § 25.5-4-401 is similar to § 26-4-404 as it existed prior to the 2006 amendments relocating article 4 of title 26 to title 25.5 and § 26-4-404 is similar to § 26-4-110 (1) as it existed prior to the 1991 repeal and reenactment of article 4 of title 26, relevant cases construing those provisions have been included in the annotations to this section.

Where a recipient's chosen provider would no longer exist as an independent primary care physician program and, therefore, the recipient's selection could no longer be honored, Colorado acted reasonably and did not

violate subsection (4) when it automatically enrolled thousands of recipients into a health maintenance organization. *RX Pharmacies Plus, Inc. v. Weil*, 883 F. Supp. 549 (D. Colo. 1995).

The medical provider's right to payment is limited to that amount payable by the department of social services when the medical benefit is provided, and the medical provider has no vested right under the Colorado Medical Assistance Act to any greater amount. *Colo. Dept. of Soc. Servs. v. Health Care Management Consultants, Inc.*, 813 P.2d 829 (Colo. App. 1991).

25.5-4-402. Providers - hospital reimbursement - rules. (1) For all licensed or certified hospitals contracting for services under this article and articles 5 and 6 of this title, except those hospitals operated by the department of human services or those hospitals deemed exempt by the state board, the state department shall pay for inpatient hospital services pursuant to a system of prospective payment, generally based on the elements of a diagnosis-related group system. The state department shall develop and administer a system for ensuring appropriate utilization and quality of care provided by those providers who are reimbursed under this section. Subject to available appropriations, the state department may also make supplemental medicaid payments to certain hospitals. The state board shall promulgate rules to provide for the implementation of this section.

(2) (a) A hospital that receives payment under this article and articles 5 and 6 of this title for telemedicine services shall employ its existing quality-of-care protocols and patient confidentiality guidelines to ensure that such services meet the requirements of this article and articles 5 and 6 of this title.

(b) The executive director of the state department shall adopt rules in furtherance of this subsection (2), including, without limitation, rules to:

- (I) Ensure the provision of appropriate care to patients;
- (II) Prevent fraud and abuse; and
- (III) Establish methods and procedures to avoid overuse of telemedicine services.

(3) (a) In addition to the reimbursement rate process described in subsection (1) of this section and subject to adequate funding made available pursuant to section 25.5-4-402.3, the state department shall pay an additional amount based upon performance to those hospitals that provide services that improve health care outcomes for their patients. This amount shall be determined by the state department based upon nationally recognized performance measures established in rules adopted by the state board. The state quality standards shall be consistent with federal quality standards published by an organization with expertise in health care quality, including but not limited to, the centers for medicare and medicaid services, the agency for healthcare research and quality, or the national quality forum.

(b) The amount of the payments made pursuant to this subsection (3) shall be computed annually. For the first two fiscal years that payments are made pursuant to this subsection (3), the total amount of the payments shall be up to five percent of the total reimbursements made to hospitals in the previous year. For each fiscal year after the first two fiscal years, the total amount of the payments shall be up to seven percent of the total reimbursements made to hospitals in the previous year.

25.5-4-402.3. Providers - hospital - provider fees - legislative declaration - federal waiver - fund created - rules - advisory board - repeal. (1) **Short title.** This section shall be known and may be cited as the “Health Care Affordability Act of 2009”.

(2) **Legislative declaration.** The general assembly hereby finds and declares that:

(a) The state and the providers of publicly funded medical services, and hospital providers in particular, share a common commitment to comprehensive health care reform;

(b) Hospital providers within the state incur significant costs by providing uncompensated emergency department care and other uncompensated medical services to low-income and uninsured populations; and

(c) This section is enacted as part of a comprehensive health care reform and is intended to provide the following state services and benefits:

(I) Providing a payer source for some low-income and uninsured populations who may otherwise be cared for in emergency departments and other settings in which uncompensated care is provided;

(II) Reducing the underpayment to Colorado hospitals participating in publicly funded health insurance programs;

(III) Reducing the number of persons in Colorado who are without health care benefits;

(IV) Reducing the need of health care providers to shift the cost of providing uncompensated care to other payers; and

(V) Expanding access to high-quality, affordable health care for low-income and uninsured populations.

(3) **Hospital provider fee.** (a) Beginning with the fiscal year commencing July 1, 2009, and each fiscal year thereafter, the state department is authorized to charge and collect hospital provider fees, as described in 42 CFR 433.68 (b), on outpatient and inpatient services provided by all licensed or certified hospitals, referred to in this section as “hospitals”, for the purpose of obtaining federal financial participation under the state medical assistance program as described in this article and articles 5 and 6 of this title, referred to in this section as the “state medical assistance program”, and the Colorado indigent care program described in part 1 of article 3 of this title, referred to in this section as the “Colorado indigent care program”. The hospital provider fees shall be used to:

(I) Increase reimbursement to hospitals for providing medical care under:

(A) The state medical assistance program; and

(B) The Colorado indigent care program;

(II) Increase the number of persons covered by public medical assistance;

(III) Pay the administrative costs to the state department in implementing and administering this section; and

(IV) Offset general fund expenditures for the state medicaid program for state fiscal years 2011-12 and 2012-13 only.

(b) The provider fees shall be assessed pursuant to rules adopted by the state board, pursuant to section 24-4-103, C.R.S. The amount of the fee shall be established by rule of the state board but shall not exceed the federal limit for such fees. In establishing the amount of the fee and in promulgating the rules governing the fee, the state board shall:

(I) Consider recommendations of the hospital provider fee oversight and advisory board established pursuant to subsection (6) of this section;

(II) Establish the amount of the provider fee so that the amount collected from the fee and federal matching funds associated with the fee are sufficient to pay for the items described in paragraph (a) of this subsection (3), but nothing in this subparagraph (II) shall require the state board to increase the provider fee above the amount recommended by the advisory board; and

(III) Establish the amount of the provider fee so that the amount collected from the fee is approximately equal to or less than the amount of the appropriation specified for the fee in the general appropriation act or any supplemental appropriation act.

(c) (I) In accordance with the redistributive method set forth in 42 CFR 433.68 (e) (1) and (e) (2), the state department may seek a waiver from the broad-based provider fees requirement or the uniform provider fees requirement, or both. Subject to federal approval and to minimize the financial impact on certain hospitals, the state department, in consultation with the advisory board, may exempt from payment of the provider fee certain types of hospitals, including but not limited to:

(A) Psychiatric hospitals, as licensed by the department of public health and environment;

(B) Hospitals that are licensed as general hospitals and certified as long-term care hospitals by the department of public health and environment;

(C) Critical access hospitals that are licensed as general hospitals and are certified by the department of public health and environment under 42 CFR part 485, subpart F;

(D) Inpatient rehabilitation facilities; or

(E) Hospitals specified for exemption under 42 CFR 433.68 (e).

(II) In determining whether a hospital may be excluded, the state department shall use one or more of the following criteria:

(A) A hospital that is located in a rural area;

(B) A hospital with which the state department does not contract to provide services under the state medical assistance program;

(C) A hospital whose inclusion or exclusion would not significantly affect the net benefit to hospitals paying the provider fee; or

(D) A hospital that must be included to receive federal approval.

(III) The state department may reduce the amount of the provider fee for certain hospitals to obtain federal approval and to minimize the financial impact on certain hospitals. In determining for which hospitals the state department may reduce the amount of the provider fee, the state department shall use one or more of the following criteria:

(A) The hospital is a type of hospital described in subparagraph (I) of this paragraph (c);

(B) The hospital is located in a rural area;

(C) The hospital serves a higher percentage than the average hospital of persons covered by the state medical assistance program, medicare, or commercial insurance or persons enrolled in a managed care organization;

(D) The hospital does not contract with the state department to provide services under the state medical assistance program;

(E) If the hospital paid a reduced provider fee, the reduced provider fee would not significantly affect the net benefit to hospitals paying the provider fee; or

(F) The hospital is required not to pay a reduced provider fee as a condition of federal approval.

(d) The state department may, with the approval of the advisory board, alter the process prescribed in this subsection (3) to the extent necessary to meet the federal requirements and to obtain federal approval.

(e) (I) The state board, in consultation with the advisory board, shall promulgate rules on the calculation, assessment, and timing of the provider fee. The state department shall assess the provider fee on a schedule to be set by the state board through rule. The state board rules shall require that the periodic provider fee payments from a hospital and the state department's reimbursement to the hospital under subparagraphs (I) and (II) of paragraph (b) of subsection (4) of this section are due as nearly simultaneously as feasible; except that the state department's reimbursement to the hospital shall be due no more than two days after the periodic provider fee payment is received from the hospital. The provider fee shall be imposed on each hospital even if more than one hospital is owned by the same entity. The fee shall be prorated and adjusted for the expected volume of service for any year in which a hospital opens or closes.

(II) The state department is authorized to refund any unused portion of the provider fee. For any portion of the provider fee that has been collected by the state department but for which the state department has not received federal matching funds, the state department shall refund back to the hospital that paid the fee the amount of such portion of the fee within five business days after the fee is collected.

(III) The state board, in consultation with the advisory board, shall promulgate rules on the reports that hospitals shall be required to submit for the state department to calculate the amount of the provider fee. Notwithstanding the provisions of part 2 of article 72 of title 24, C.R.S., information provided to the state department pursuant to this section shall be considered confidential and shall not be deemed a public record. Nonetheless, the state department, in consultation with the advisory board, may prepare and release summaries of the reports to the public.

(f) A hospital shall not include any amount of the provider fee as a separate line item in its billing statements.

(g) The state board shall promulgate any rules pursuant to the "State Administrative Procedure Act", article 4 of title 24, C.R.S., necessary for the administration and implementation of this section. Prior to submitting any proposed rules concerning the administration or implementation of the provider fee to the state board, the state department shall consult with the advisory board on the proposed rules as specified in paragraph (e) of subsection (6) of this section.

(4) **Hospital provider fee cash fund.** (a) All provider fees collected pursuant to this section by the state department shall be transmitted to the state treasurer, who shall credit the same to the hospital provider fee cash fund, which fund is hereby created and referred to in this section as the "fund".

(b) All moneys in the fund shall be subject to federal matching as authorized under federal law and subject to annual appropriation by the general assembly for the following purposes:

(I) To maximize the inpatient and outpatient hospital reimbursements to up to the upper payment limits as defined in 42 CFR 447.272 and 42 CFR 447.321;

(II) To increase hospital reimbursements under the Colorado indigent care program to up to one hundred percent of the hospital's costs of providing medical care under the program;

(III) To pay the quality incentive payments provided in section 25.5-4-402 (3);

(IV) Subject to available revenue from the provider fee and federal matching funds, to expand eligibility for public medical assistance by:

(A) Increasing the eligibility level for parents of children who are eligible for medical assistance or the children's basic health plan to up to one hundred percent of the federal poverty line;

(B) Increasing the eligibility level for children and pregnant women under the children's basic health plan to up to two hundred fifty percent of the federal poverty line;

(C) Providing eligibility under the state medical assistance program for a childless adult or an adult without a dependent child in the home who earns up to one hundred percent of the federal poverty line;

(D) Providing a buy-in program in the state medical assistance program for disabled adults and children whose families have income of up to four hundred fifty percent of the federal poverty line;

(V) To provide continuous eligibility for twelve months for children enrolled in the state medical assistance program;

(VI) To pay the state department's actual administrative costs of implementing and administering this section, including but not limited to the following costs:

(A) Expenses of the advisory board, including but not limited to the state department's personal services and operating costs related to the administration of the advisory board;

(B) The state department's actual costs related to implementing and maintaining the provider fee, including personal services, operating, and consulting expenses;

(C) The state department's actual costs for the changes and updates to the medicaid management information system for the implementation of subparagraphs (I) to (III) of this paragraph (b);

(D) The state department's personal services and operating costs related to personnel, consulting services, and for review of hospital costs necessary to implement and administer the increases in inpatient and outpatient hospital payments made pursuant to subparagraph (I) of this paragraph (b), increases in the Colorado indigent care program payments made

pursuant to subparagraph (II) of this paragraph (b), and quality incentive payments made pursuant to subparagraph (III) of this paragraph (b);

(E) The state department's actual costs for the changes and updates to the Colorado benefits management system and medicaid management information system to implement and maintain the expanded eligibility provided for in subparagraphs (IV) and (V) of this paragraph (b);

(F) The state department's personal services and operating costs related to personnel necessary to implement and administer the expanded eligibility for public medical assistance provided for in subparagraphs (IV) and (V) of this paragraph (b), including but not limited to administrative costs associated with the determination of eligibility for public medical assistance by county departments;

(G) The state department's personal services, operating, and systems costs related to expanding the opportunity for individuals to apply for public medical assistance directly at hospitals or through another entity outside the county departments, in connection with section 25.5-4-205, that would increase access to public medical assistance and reduce the number of uninsured served by hospitals; and

(VII) To offset the loss of any federal matching funds due to a decrease in the certification of the public expenditure process for outpatient hospital services for medical services premiums that were in effect as of July 1, 2008.

(VIII) Repealed.

(IX) (A) For state medicaid expenditures for state fiscal year 2011-12 only, fifty million dollars shall be appropriated to offset general fund expenditures.

(B) For state medicaid expenditures for state fiscal year 2012-13 only, twenty-five million dollars shall be appropriated to offset general fund expenditures.

(C) This subparagraph (IX) is repealed, effective December 31, 2013.

(c) Any moneys in the fund not expended for the purposes described in paragraph (b) of this subsection (4) may be invested by the state treasurer as provided by law. All interest and income derived from the investment and deposit of moneys in the fund shall be credited to the fund. Any unexpended and unencumbered moneys remaining in the fund at the end of any fiscal year shall remain in the fund and shall not be credited or transferred to the general fund or any other fund but shall be appropriated by the general assembly for the purposes described in paragraph (b) of this subsection (4) in future fiscal years.

(5) **Appropriations.** (a) (I) The provider fee is to supplement, not supplant, general fund appropriations to support hospital reimbursements as of July 1, 2009. General fund appropriations for hospital reimbursements shall be maintained at the level of appropriations in the medical services premium line item made for the fiscal year commencing July 1, 2008; except that general fund appropriations for hospital reimbursements may be reduced if an index of appropriations to other providers shows that general fund appropriations are reduced for other providers. If the index shows that general fund appropriations are reduced for other providers, the general fund appropriations for hospital reimbursements shall not be reduced by a greater percentage than the reductions of appropriations for the other providers as shown by the index.

(II) If general fund appropriations for hospital reimbursements are reduced below the level of appropriations in the medical services premium line item made for the fiscal year commencing July 1, 2008, the general fund appropriations will be increased back to the level of appropriations in the medical services premium line item made for the fiscal year commencing July 1, 2008, at the same percentage as the appropriations for other providers as shown by the index. The general assembly is not obligated to increase the general fund appropriations back to the level of appropriations in the medical services premium line item in a single fiscal year and such increases may occur over nonconsecutive fiscal years.

(III) For purposes of this paragraph (a), the "index of appropriations to other providers" or "index" shall mean the average percent change in reimbursement rates through appropriations or legislation enacted by the general assembly to home health providers, physician services, and outpatient pharmacies, excluding dispensing fees. The state board, after consultation with the advisory board, is authorized to clarify this definition as necessary by rule.

(b) If the revenue from the provider fee is insufficient to fully fund all of the purposes described in paragraph (b) of subsection (4) of this section:

(I) The general assembly is not obligated to appropriate general fund revenues to fund such purposes;

(II) The hospital provider reimbursement and quality incentive payment increases described in subparagraphs (I) to (III) of paragraph (b) of subsection (4) of this section and the costs described in subparagraphs (VI) and (VII) of paragraph (b) of subsection (4) of this section shall be fully funded using revenue from the provider fee and federal matching funds before any eligibility expansion is funded; and

(III) (A) If the state board promulgates rules that expand eligibility for medical assistance to be paid for pursuant to subparagraph (IV) of paragraph (b) of subsection (4) of this section, and the state department thereafter notifies the advisory board that the revenue available from the provider fee and the federal matching funds will not be sufficient to pay for all or part of the expanded eligibility, the advisory board shall recommend to the state board reductions in medical benefits or eligibility so that the revenue will be sufficient to pay for all of the reduced benefits or eligibility. After receiving the recommendations of the advisory board, the state board shall adopt rules providing for reduced benefits or reduced eligibility for which the revenue shall be sufficient and shall forward any adopted rules to the joint budget committee. Notwithstanding the provisions of section 24-4-103 (8) and (12), C.R.S., following the adoption of rules pursuant to this sub-subparagraph (A), the state board shall not submit the rules to the attorney general and shall not file the rules with the secretary of state until the joint budget committee approves the rules pursuant to sub-subparagraph (B) of this subparagraph (III).

(B) The joint budget committee shall promptly consider any rules adopted by the state board pursuant to sub-subparagraph (A) of this subparagraph (III). The joint budget committee shall promptly notify the state department, the state board, and the advisory board of any action on such rules. If the joint budget committee does not approve the rules, the joint budget committee shall recommend a reduction in benefits or eligibility so that the revenue from the provider fee and the matching federal funds will be sufficient to pay for the reduced benefits or eligibility. After approving the rules pursuant to this sub-subparagraph (B), the joint budget committee shall request that the committee on legal services, created pursuant to section 2-3-501, C.R.S., extend the rules as provided for in section 24-4-103 (8), C.R.S., unless the committee on legal services finds after review that the rules do not conform with section 24-4-103 (8) (a), C.R.S.

(C) After the state board has received notification of the approval of rules adopted pursuant to sub-subparagraph (A) of this subparagraph (III), the state board shall submit the rules to the attorney general pursuant to section 24-4-103 (8) (b), C.R.S., and shall file the rules and the opinion of the attorney general with the secretary of state pursuant to section 24-4-103 (12), C.R.S., and with the office of legislative legal services. Pursuant to section 24-4-103 (5), C.R.S., the rules shall be effective twenty days after publication of the rules and shall only be effective until the following May 15 unless the rules are extended pursuant to a bill enacted pursuant to section 24-4-103 (8), C.R.S.

(b.5) (I) Notwithstanding any provisions of paragraph (b) of this subsection (5) to the contrary, if revenue from the provider fee is insufficient to fully fund all of the purposes described in paragraph (b) of subsection (4) of this section, revenue from the provider fee shall be used first to offset general fund expenditures for the state medicaid program for state fiscal years 2011-12 and 2012-13 in the amounts set forth in subparagraph (IX) of paragraph (b) of subsection (4) of this section.

(II) This paragraph (b.5) is repealed, effective December 31, 2013.

(c) Notwithstanding any other provision of this section, if, after receipt of authorization to receive federal matching funds for moneys in the fund, the authorization is withdrawn or changed so that federal matching funds are no longer available, the state department shall cease collecting the provider fee and shall repay to the hospitals any moneys received by the fund that are not subject to federal matching funds.

(6) **Hospital provider fee oversight and advisory board.** (a) There is hereby created in the state department the hospital provider fee oversight and advisory board, referred to in this section as the “advisory board”.

(b) (I) The advisory board shall consist of thirteen members appointed by the governor, with the advice and consent of the senate, as follows:

(A) Five members who are employed by hospitals in Colorado, including at least one person who is employed by a hospital in a rural area, one person who is employed by a safety-net hospital for which the percent of medicaid-eligible inpatient days relative to its total inpatient days shall be equal to or greater than one standard deviation above the mean, and one person who is employed by a hospital in an urban area;

(B) One member who is a representative of a statewide organization of hospitals;

(C) One member who represents a statewide organization of health insurance carriers or a health insurance carrier licensed pursuant to title 10, C.R.S., and who is not a representative of a hospital;

(D) One member of the health care industry who does not represent a hospital or a health insurance carrier;

(E) One member who is a consumer of health care and who is not a representative or an employee of a hospital, health insurance carrier, or other health care industry entity;

(F) One member who is a representative of persons with disabilities, who is living with a disability, and who is not a representative or an employee of a hospital, health insurance carrier, or other health care industry entity;

(G) One member who is a representative of a business that purchases or otherwise provides health insurance for its employees; and

(H) Two employees of the state department.

(II) The governor shall consult with representatives of a statewide organization of hospitals in making the appointments pursuant to sub-subparagraphs (A) and (B) of subparagraph (I) of this paragraph (b). No more than six members of the advisory board may be members of the same political party.

(III) Members of the advisory board shall serve at the pleasure of the governor. In making the appointments, the governor shall specify that four members shall serve initial terms of two years and three members shall serve initial terms of three years. All other terms including terms after the initial terms shall be four years. A member who is appointed to fill a vacancy shall serve the remainder of the unexpired term of the former member.

(IV) The governor shall designate a chair from among the members of the advisory board appointed pursuant to sub-subparagraphs (A) to (G) of subparagraph (I) of this paragraph (b). The advisory board shall elect a vice-chair from among its members.

(c) Members of the advisory board shall serve without compensation but shall be reimbursed from moneys in the fund for actual and necessary expenses incurred in the performance of their duties pursuant to this section.

(d) The advisory board may direct the state department to contract for a group facilitator to assist the members of the advisory board in performing their required duties.

(e) The advisory board shall have, at a minimum, the following duties:

(I) To recommend to the state department the timing and method by which the state department shall assess the provider fee and the amount of the fee;

(II) If requested by the health and human services committees of the senate or house of representatives, or any successor committees, to consult with the committees on any legislation that may impact the provider fee or hospital reimbursements established pursuant to this section;

(III) To recommend to the state department changes in the provider fee that increase the number of hospitals benefitting from the uses of the provider fee described in subparagraphs (I) to (V) of paragraph (b) of subsection (4) of this section or that minimize the number of hospitals that suffer losses as a result of paying the provider fee;

(IV) To recommend to the state department reforms or changes to the inpatient hospital and outpatient hospital reimbursements and quality incentive payments made under the state medical assistance program to increase provider accountability, performance, and reporting;

(V) To recommend to the state department the schedule and approach to the implementation of subparagraphs (IV) and (V) of paragraph (b) of subsection (4) of this section;

(VI) If moneys in the fund are insufficient to fully fund all of the purposes specified in paragraph (b) of subsection (4) of this section, to recommend to the state board changes to

the expanded eligibility provisions described in subparagraph (IV) of paragraph (b) of subsection (4) of this section;

(VII) To prepare the reports specified in paragraph (f) of this subsection (6);

(VIII) To monitor the impact of the hospital provider fee on the broader health care marketplace; and

(IX) To perform any other duties required to fulfill the advisory board's charge or those assigned to it by the state board or the executive director.

(f) On or before January 15, 2010, and on or before January 15 each year thereafter, the advisory board shall submit a written report to the health and human services committees of the senate and the house of representatives, or any successor committees, the joint budget committee of the general assembly, the governor, and the state board. The report shall include, but need not be limited to:

(I) The recommendations made to the state board pursuant to this section;

(II) A description of the formula for how the provider fee is calculated and the process by which the provider fee is assessed and collected;

(III) An itemization of the total amount of the provider fee paid by each hospital and any projected revenue that each hospital is expected to receive due to:

(A) The increased reimbursements made pursuant to subparagraphs (I) and (II) of paragraph (b) of subsection (4) of this section and the quality incentive payments made pursuant to subparagraph (III) of paragraph (b) of subsection (4) of this section; and

(B) The increased eligibility described in subparagraphs (IV) and (V) of paragraph (b) of subsection (4) of this section;

(IV) An itemization of the costs incurred by the state department in implementing and administering the hospital provider fee; and

(V) Estimates of the differences between the cost of care provided and the payment received by hospitals on a per-patient basis, aggregated for all hospitals, for patients covered by each of the following:

(A) Medicaid;

(B) Medicare; and

(C) All other payers.

(g) (I) This subsection (6) is repealed, effective July 1, 2019.

(II) Prior to said repeal, the advisory board shall be reviewed as provided in section 2-3-1203, C.R.S.

(7) Repealed.

Source: L. 2009: Entire section added, (HB 09-1293), ch. 152, p. 633, § 1, effective July 1. **L. 2010:** (4)(b)(VIII) added, (SB 10-169), ch. 307, p. 1445, § 1, effective May 27; (4)(b)(IV) amended, (HB 10-1422), ch. 419, p. 2110, § 141, effective August 11. **L. 2011:** (3)(a)(II) and (3)(a)(III) amended and (3)(a)(IV), (4)(b)(IX), and (5)(b.5) added, (SB 11-212), ch. 146, pp. 508, 509, §§ 1, 2, 3, effective May 5.

Editor's note: (1) Subsection (7)(d) provided for the repeal of subsection (7), effective July 1, 2010, provided that the revisor of statutes received written notice from the executive director of the state department authorizing the receipt of federal matching funds for the moneys in the fund established in this section. The revisor of statutes received said written notice on March 31, 2010. (See L. 2009, p. 633.)

(2) Subsection (4)(b)(VIII)(C) provided for the repeal of subsection (4)(b)(VIII), effective December 31, 2011. (See L. 2009, p. 633.)

25.5-4-402.5. Providers - state university teaching hospitals. Subject to appropriations by the general assembly, the state department shall make payments to state university teaching hospitals for providing care under the state's medical assistance program established pursuant to this article and articles 5 and 6 of this title.

Source: L. 2008: Entire section added, p. 1185, § 3, effective May 22.

25.5-4-403. Providers - community mental health center and clinics - reimbursement. For the purpose of reimbursing community mental health center and clinic providers, the state department shall establish a price schedule annually with the department of human services in order to reimburse each provider for its actual or reasonable cost of services.

Source: L. 2006: Entire article added with relocations, p. 1844, § 7, effective July 1.

Editor's note: This section is similar to former § 26-4-409 as it existed prior to 2006.

25.5-4-404. Payments for clinic services - restrictions on use. All payments received by county or district public health agencies or boards of health for clinic services, as defined in section 25.5-5-301 (3), furnished to patients shall be used only to offset costs incurred for provision of services by such county or district public health agencies or boards of health or to cash fund health care services in the county where the services were provided.

Editor's note: This section is similar to former § 26-4-515 as it existed prior to 2006.

25.5-4-405. Mental health managed care service providers - requirements.
(1) Each contract between the state department and a managed care organization providing mental health services to a recipient under the medical assistance program shall comply with all federal requirements, including but not limited to:

(a) Ensuring that a recipient with complex or multiple needs who requires mental health services shall have access to mental health professionals with appropriate training and credentials and shall provide the recipient with such services in collaboration with the recipient's other providers;

(b) Informing each recipient of his or her right to and the process for appeal upon notification of denial, termination, or reduction of a requested service; and

(c) Administering initial stabilization treatment for a recipient and transferring the recipient for appropriate continued services.

(1.5) Each contract between the state department and a managed care organization providing mental health services to a recipient under the medical assistance program shall allow for the use of telemedicine pursuant to the provisions of section 25.5-5-320.

(2) For mental health managed care recipients, the state department shall have a patient representative program for recipient grievances that complies with all federal requirements and that shall:

(a) Be posted in a conspicuous place at each location at which mental health services are provided;

(b) Allow for a patient representative to serve as a liaison between the recipient and the provider;

(c) Describe the qualifications for a patient representative;

(d) Outline the responsibilities of a patient representative;

(e) Describe the authority of a patient representative; and

(f) Establish a method by which each recipient is informed of the patient representative program and how a patient representative may be contacted.

L. 2008: (1.5) added, p. 111, § 1, effective August 5.

Editor's note: This section is similar to former § 26-4-409.5 as it existed prior to 2006.

25.5-4-406. Rate setting - medicaid residential treatment service providers - monitoring and auditing - report. (1) The state department shall approve a rate-setting process consistent with medicaid requirements for providers of medicaid residential treatment services in the state of Colorado as developed by the department of human services. The rate-setting process developed pursuant to this section may include, but shall not be limited to:

(a) A range for reimbursement that represents a base-treatment rate for serving a child who is subject to out-of-home placement due to dependency and neglect, a child placed in a residential child care facility pursuant to the “Child Mental Health Treatment Act”, article 67 of title 27, C.R.S., or a child who has been adjudicated a delinquent, which includes a defined service package to meet the needs of the child;

(b) A request for proposal to contract for specialized service needs of a child, including but not limited to: Substance-abuse treatment services; sex offender services; and services for the developmentally disabled; and

(c) Negotiated incentives for achieving outcomes for the child as defined by the state department, counties, and providers.

(2) The medicaid rate-setting process approved by the state department shall include a two- or three-year implementation timeline with implementation beginning in state fiscal year 2008-09.

(3) The state department and the department of human services, in consultation with the representatives of the counties and the provider community, shall review the rate-setting process every two years and shall submit any changes to the joint budget committee of the general assembly.

Source: L. 2006: Entire article added with relocations, p. 1845, § 7, effective July 1. L. 2007: (1)(a), (2), and (3) amended, p. 618, § 2, effective August 3. L. 2010: (1)(a) amended, (SB 10-175), ch. 188, p. 800, § 66, effective April 29.

25.5-4-407. Services by licensed psychologists without a doctor’s referral. The executive director of the state department may authorize the providing of services of licensed psychologists without the requirement that the services be referred by a doctor of medicine or a doctor of osteopathy, but such services shall be subject to the cost containment program specified under section 25.5-4-408. The executive director may except from the authorization those services the director determines to be necessary for the purpose of promoting the primary care physician program.

Editor’s note: This section is similar to former § 26-4-412 as it existed prior to 2006.

25.5-4-408. Services provided by licensed psychologists - cost containment program. (1) Working in conjunction with licensed psychologists in the state, the state board shall promulgate rules to establish and implement mechanisms for containing the costs of services provided by licensed psychologists under the medical assistance programs established pursuant to this article and articles 5 and 6 of this title. The cost containment mechanism shall ensure that the costs to the medical assistance program will result in no increase in the total cost of the program solely as a result of the reimbursement for services of licensed psychologists pursuant to section 25.5-4-407. The cost containment mechanisms may include the following:

(a) Limiting the number of days a licensed psychologist may be reimbursed per patient for inpatient hospitalization, partial hospitalization, and outpatient visits without an order for continued treatment from a doctor of medicine or osteopathy;

(b) Limiting the number of hours a licensed psychologist may be reimbursed for diagnostic testing and evaluation per patient per year;

(c) Provision of group therapy when needed or appropriate;

(d) Provision of licensed psychologists' services from a pool of those licensed psychologists requesting to be included in such pool;

(e) Provision of a licensed psychologist's services through the use of telemedicine pursuant to the provisions of section 25.5-5-320.

Editor's note: This section is similar to former § 26-4-516 as it existed prior to 2006.

25.5-4-409. Authorization of services - nurse anesthetists - advanced practice nurses. (1) When services by a certified registered nurse anesthetist are provided pursuant to an order by a physician in accordance with this article, articles 5 and 6 of this title, and section 12-38-103 (10), C.R.S., the executive director of the state department shall authorize reimbursement for said services. Payment for such services shall be made directly to the nurse anesthetist, if requested by the nurse anesthetist; except that this section shall not apply to nurse anesthetists when acting within the scope of their employment as salaried employees of public or private institutions or physicians.

(2) When services by an advanced practice nurse registered pursuant to section 12-38-111.5, C.R.S., are provided in accordance with this article and articles 5 and 6 of this title, the executive director of the state department shall authorize reimbursement for said services. Payment for the services shall be made directly to the advanced practice nurse, if requested by the advanced practice nurse; except that this section shall not apply to advanced practice nurses when acting within the scope of their employment as salaried employees of public or private institutions or physicians.

Source: L. 2006: Entire article added with relocations, p. 1846, § 7, effective July 1.
L. 2008: (2) amended, p. 138, § 1, effective July 1.

Editor's note: This section is similar to former § 26-4-413 as it existed prior to 2006.

25.5-4-410. Services of audiologists and speech pathologists without supervision. (1) When medical or diagnostic services by an audiologist or speech pathologist are provided pursuant to an order by a physician in accordance with this article and articles 5 and 6 of this title, the executive director of the state department shall authorize reimbursement for said services. For the purposes of this section, "audiologist" or "speech pathologist" means an individual who meets the requirements set forth in the federal "Social Security Act", as amended, or any federal regulations adopted pursuant thereto, for participating providers of audiology or speech pathology services.

(2) Nothing in this section shall be construed as expanding the provision of services available as a part of the medical assistance program established pursuant to this article and articles 5 and 6 of this title. For the purposes of making payments to audiologists or speech pathologists pursuant to this section, the state board shall establish rules implementing this section. The rules promulgated pursuant to this subsection (2) shall ensure that the costs to the medical assistance program will result in no increase in the total cost of the program solely as a result of the reimbursement for services of an audiologist or speech pathologist pursuant to this section.

(3) Payments for services included in this section shall be made directly to the audiologist or speech pathologist, if requested by the audiologist or speech pathologist; except that this section shall not apply to audiologists or speech pathologists when acting within the scope of their employment as salaried employees of public or private institutions or physicians.

Source: L. 2006: Entire article added with relocations, p. 1847, § 7, effective July 1.

Editor's note: This section is similar to former § 26-4-414 as it existed prior to 2006.

25.5-4-411. Authorization of services provided by dental hygienists. (1) When dental hygiene services are provided to children by a licensed dental hygienist who is providing dental hygiene services pursuant to section 12-35-124, C.R.S., without the supervision of a licensed dentist, the executive director of the state department shall authorize reimbursement for said services, subject to the requirements of this section. Payment for such services shall be made directly to the licensed dental hygienist, if requested by the licensed dental hygienist; except that this section shall not apply to licensed dental hygienists when acting within the scope of their employment as salaried employees of public or private institutions, physicians, or dentists.

(2) For each child provided dental hygiene services pursuant to this section, the dental hygienist shall attempt to identify a dentist participating in medicaid for the child.

Source: L. 2006: Entire article added with relocations, p. 1847, § 7, effective July 1.

Editor's note: This section is similar to former § 26-4-414.3 as it existed prior to 2006.

25.5-4-412. Medical services provided by certified family planning clinics. (1) When medical or diagnostic services are provided in accordance with this article and articles 5 and 6 of this title by a certified family planning clinic, the executive director of the state department shall authorize reimbursement for the services. The reimbursement shall be made directly to the certified family planning clinic.

(2) For purposes of this section, "certified family planning clinic" means a family planning clinic certified by the Colorado department of public health and environment, accredited by a national family planning organization, and staffed by medical professionals licensed to practice in the state of Colorado, including, but not limited to, doctors of medicine, doctors of osteopathy, physicians' assistants, and advanced practice nurses.

(3) For purposes of this section, all medical care services or goods rendered by a certified family planning clinic that are benefits of the Colorado medical assistance program shall be ordered by a physician who need not be physically present on the premises of the certified family planning clinic at the time services are rendered.

(4) Nothing in this section shall be construed as expanding the provision of services available as a part of the medical assistance program established pursuant to this article and articles 5 and 6 of this title. For purposes of making payments to certified family planning clinics pursuant to this section, the state board shall establish rules implementing this section. The rules promulgated pursuant to this subsection (4) shall ensure that the reimbursement for services rendered by a certified family planning clinic pursuant to this section shall not be the sole result of an increase in the costs to the state medical assistance program.

Source: L. 2006: Entire article added with relocations, p. 1848, § 7, effective July 1.

Editor's note: This section is similar to former § 26-4-414.5 as it existed prior to 2006.

25.5-4-413. Certain providers to inform patients of rights concerning advance medical directives. (1) On and after November 5, 1991, with regard to any service rendered on and after said date, each hospital, nursing care facility, home health agency, hospice program, and health maintenance organization participating in the state medical assistance program or providing medical assistance pursuant to parts 3 to 12 of article 6 of this title shall provide written information to all adult patients of such providers concerning patients' rights under state law to make medical treatment decisions, including the right to accept or refuse any medical or surgical treatment and the right to formulate advance directives regarding said decisions. As used in this section, "advance directives" includes any written or oral instructions recognized under state law concerning the making of medical treatment decisions on behalf of or the provision of medical care for the person who provided the instructions in the event such person becomes incapacitated. Advance direc-

tives include, but are not limited to, medical durable powers of attorney, durable powers of attorney, or living wills.

(2) Providers listed in subsection (1) of this section shall provide educational programs for staff and the community concerning advance directives and shall maintain written policies detailing methods for safeguarding patients' rights concerning medical treatment decisions, including documenting in the patient's medical or patient record whether the patient has executed, amended, or revoked an advance directive. No provider shall condition the provision of services or otherwise discriminate against a patient on the basis of whether the patient has executed an advance directive.

Source: L. 2006: Entire article added with relocations, p. 1848, § 7, effective July 1.

Editor's note: This section is similar to former § 26-4-403.5 as it existed prior to 2006.

25.5-4-414. Providers - physicians - prohibition of certain referrals - definitions.

(1) As used in this section, unless the context otherwise requires:

(a) "Designated health services" means any of the following services:

(I) Clinical laboratory services;

(II) Physical therapy services;

(III) Occupational therapy services;

(IV) Radiology and other diagnostic services;

(V) Radiation therapy services;

(VI) Durable medical equipment;

(VII) Parenteral or enteral nutrients, equipment, and supplies;

(VIII) Prosthetics, orthotics, and prosthetic devices;

(IX) Home health services;

(X) Outpatient prescription drugs; and

(XI) Inpatient and outpatient hospital services.

(b) "Financial relationship" means an ownership or investment interest in an entity furnishing designated health services or a compensation arrangement between a provider or an immediate family member of the provider and the entity. An ownership or investment interest may be reflected in equity, debt, or other instruments.

(c) "Immediate family member of the provider" means any spouse, natural or adoptive parent, natural or adoptive child, stepparent, stepchild, stepbrother, stepsister, in-law, grandparent, or grandchild of the provider.

(d) "Provider" means:

(I) A doctor of medicine or osteopathy who is licensed to practice medicine pursuant to article 36 of title 12, C.R.S.;

(II) A doctor of dental surgery or of dental medicine who is licensed to practice dentistry pursuant to article 35 of title 12, C.R.S.;

(III) A doctor of podiatric medicine who is licensed to practice podiatry pursuant to article 32 of title 12, C.R.S.;

(IV) A doctor of optometry who is licensed to practice optometry pursuant to article 40 of title 12, C.R.S.; or

(V) A chiropractor who is licensed to practice chiropractic pursuant to article 33 of title 12, C.R.S.

(2) (a) Except as otherwise provided in this subsection (2), a provider participating in the medical assistance program under this article and articles 5 and 6 of this title is prohibited from making a referral to an entity for designated health services for which payment may be made under the state's medical assistance program if the provider or an immediate family member of the provider has a financial relationship with the entity.

(b) Paragraph (a) of this subsection (2) shall not apply to any financial relationship that meets the requirements of an exception to the prohibitions established by 42 U.S.C. sec. 1395nn, as amended, or any regulations promulgated thereunder, as amended.

(c) Paragraph (a) of this subsection (2) shall not apply to a financial relationship or referral for designated health services if the financial relationship or referral for designated health services would not violate 42 U.S.C. sec. 1395nn, as amended, and any regulations

promulgated thereunder, as amended, if the designated health services were eligible for payment under medicare rather than the "Colorado Medical Assistance Act".

(3) An entity that provides designated health services as a result of a prohibited referral shall not present a claim or bill to any individual, any third-party payor, the state department, or any other entity for the designated health services.

(4) An entity that provides designated health services shall provide to the state department, upon its request and in the form specified by the state department, information concerning the entity's ownership arrangements including:

(a) The items and services provided by the entity;

(b) The names and provider identification numbers of all providers with a financial interest in the entity or whose immediate family members have a financial interest in the entity.

(5) If a provider refers a patient for designated health services in violation of paragraph (a) of subsection (2) of this section or the entity refuses to provide the information required in subsection (4) of this section, the state department may:

(a) Deny any claims for payment from the provider or entity;

(b) Require the provider or entity to refund payments for services;

(c) Refer the matter to the appropriate agency for medical assistance fraud investigation; or

(d) Terminate the provider's or entity's participation in the medical assistance program.

Editor's note: This section is similar to former § 26-4-410.5 as it existed prior to 2006.

ANNOTATION

Law reviews. For article, "Interpreting and Applying the 'Stark' Statute: Colorado's Compliance Conundrum", see 30 Colo. Law. 65 (November 2001). For article, "Colorado's

Medicaid Compliance Statutes: False Statements and Claims, Kickbacks, and Physician Referrals", see 36 Colo. Law. 31 (March 2007).

25.5-4-415. No public funds for abortion - exception - repeal. (1) It is the purpose of this section to implement the provisions of section 50 of article V of the Colorado constitution, adopted by the registered electors of the state of Colorado at the general election November 6, 1984, which prohibits the use of public funds by the state of Colorado or its agencies or political subdivisions to pay or otherwise reimburse, directly or indirectly, any person, agency, or facility for any induced abortion.

(2) If every reasonable effort has been made to preserve the lives of a pregnant woman and her unborn child, then public funds may be used pursuant to this section to pay or reimburse for necessary medical services, not otherwise provided for by law.

(3) (a) Except as provided in paragraph (b) of this subsection (3), any necessary medical services performed pursuant to this section shall be performed only in a licensed health care facility by a provider who is a licensed physician.

(b) However, such services may be performed in other than a licensed health care facility if, in the medical judgment of the attending physician, the life of the pregnant woman or her unborn child is substantially threatened and a transfer to a licensed health care facility would further endanger the life of the pregnant woman or her unborn child. Such medical services may be performed in other than a licensed health care facility if the medical services are necessitated by a life-endangering circumstance described in subparagraph (II) of paragraph (b) of subsection (6) of this section and if there is no licensed health care facility within a thirty-mile radius of the place where such medical services are performed.

(4) (a) Any physician who renders necessary medical services pursuant to subsection (2) of this section shall report the following information to the state department:

(I) The age of the pregnant woman and the gestational age of the unborn child at the time the necessary medical services were performed;

- (II) The necessary medical services which were performed;
- (III) The medical condition which necessitated the performance of necessary medical services;
- (IV) The date such necessary medical services were performed and the name of the facility in which such services were performed.
- (b) The information required to be reported pursuant to paragraph (a) of this subsection (4) shall be compiled by the state department and such compilation shall be an ongoing public record; except that the privacy of the pregnant woman and the attending physician shall be preserved.
- (5) For purposes of this section, pregnancy is a medically diagnosable condition.
- (6) For the purposes of this section:
 - (a) (I) "Death" means:
 - (A) The irreversible cessation of circulatory and respiratory functions; or
 - (B) The irreversible cessation of all functions of the entire brain, including the brain stem.
 - (II) A determination of death under this section shall be in accordance with accepted medical standards.
 - (b) "Life-endangering circumstance" means:
 - (I) The presence of a medical condition, other than a psychiatric condition, as determined by the attending physician, which represents a serious and substantial threat to the life of the pregnant woman if the pregnancy continues to term;
 - (II) The presence of a lethal medical condition in the unborn child, as determined by the attending physician and one other physician, which would result in the impending death of the unborn child during the term of pregnancy or at birth; or
 - (III) The presence of a psychiatric condition which represents a serious and substantial threat to the life of the pregnant woman if the pregnancy continues to term. In such case, unless the pregnant woman has been receiving prolonged psychiatric care, the attending licensed physician shall obtain consultation from a licensed physician specializing in psychiatry confirming the presence of such a psychiatric condition. The attending physician shall report the findings of such consultation to the state department.
 - (c) "Necessary medical services" means any medical procedures deemed necessary to prevent the death of a pregnant woman or her unborn child due to life-endangering circumstances.
 - (7) If any provision of this section or application thereof is held invalid, such invalidity shall not affect other provisions or applications of this section which can be given effect without the invalid provision or application, and to this end the provisions of this section are declared severable.
 - (8) Use of the term "unborn child" in this section is solely for the purposes of facilitating the implementation of section 50 of article V of the state constitution, and its use shall not affect any other law or statute nor shall it create any presumptions relating to the legal status of an unborn child or create or affect any distinction between the legal status of an unborn child and the legal status of a fetus.
 - (9) This section shall be repealed if section 50 of article V of the Colorado constitution is repealed.

Source: L. 2006: Entire article added with relocations, p. 1851, § 7, effective July 1.

Editor's note: This section is similar to former § 26-4-512 as it existed prior to 2006.

ANNOTATION

Annotator's note. Since § 25.5-4-415 is similar to § 26-4-512 as it existed prior to the 2006 amendments relocating article 4 of title 26 to title 25.5 and § 26-4-512 is similar to § 26-4-105.5 as it existed prior to the 1991 repeal and reenactment of article 4 of title 26, relevant

cases construing those provisions have been included in the annotations to this section.

This section does not violate article V of section 50 of the constitution. Under this statutory section, reimbursement may not be provided for an abortion that is not necessary to

prevent the death of the pregnant woman. Therefore this section is consistent with section 50 of article V which expresses the intention of the people that no induced abortion shall be paid for by public funds unless necessary to prevent the death of the pregnant woman and unless every reasonable effort also has been made to preserve the life of the unborn child. *Urbish v. Lamm*, 761 P.2d 756 (Colo. 1988).

Statutory authority for rules interpreting the exception to the expenditure of public funds for abortions exists where legislation found in this section specifically states that "if every reasonable effort has been made to preserve the lives of a pregnant woman and her unborn child, then public funds may be used pursuant to this section to pay or reimburse for necessary medical services, not otherwise provided by law." *Urbish v. Lamm*, 761 P.2d 756 (Colo. 1988).

Rule promulgated by department of social services which provided that when a pregnant woman's life is endangered, public funds may be used for an abortion of a viable unborn child before term only in circumstances where every reasonable effort has been made to preserve the lives of both the mother and the unborn child is within the scope of the exception to the prohibition on the use of public funds to pay for abortions. In contrast, a rule which allowed the public funding of abortions of unborn children who would die of natural causes at or before birth even if the mother's life was not threatened by carrying the unborn child for a longer period was beyond the scope of the exception. *Urbish v. Lamm*, 761 P.2d 756 (Colo. 1988).

Colorado's restriction on medicaid abortion funding to those instances when the expectant mother's life is at stake violates the requirements of federal law - requirements that Colorado is compelled to follow as a condition of its participation in medicaid. *Hern v. Beye*, 57 F.3d 906 (10th Cir. 1995).

Colorado's abortion funding restriction impermissibly discriminates in its coverage of abortions on the basis of a patient's diagnosis and condition. *Hern v. Beye*, 57 F.3d 906 (10th Cir. 1995).

Colorado's abortion funding restriction violates Title XIX of the Social Security Act of 1965, 42 U.S.C. § 1396a(a)(17), because it is inconsistent with the basic objective of Title XIX, that is, to provide qualified individuals with medically necessary care. A state law that categorically denies coverage for a specific, medically necessary procedure except in those rare instances when the patient's life is at stake is not a "reasonable standard[] . . . consistent with the objectives of [the Act]", 42 U.S.C. § 1396a(a)(17), but instead contravenes the purposes of Title XIX. *Hern v. Beye*, 57 F.3d 906 (10th Cir. 1995).

Colorado's abortion funding restriction violates federal medicaid law insofar as it denies funding to medicaid-eligible women seeking abortions to end pregnancies that are the result of rape or incest. So long as Colorado continues to participate in medicaid, the state is enjoined from denying medicaid funding for abortions to qualified women whose pregnancies are the result of rape or incest. *Hern v. Beye*, 57 F.3d 906 (10th Cir. 1995).

25.5-4-416. Providers - medical equipment and supplies - requirements. (1) As used in this section, unless the context otherwise requires, "provider" means a person or entity that delivers disposable medical supplies or durable medical equipment products or services directly to a recipient.

(2) On and after January 1, 2007, the state board rules for the payment for disposable medical supplies and durable medical equipment, including but not limited to prosthetic and orthotic devices, shall prohibit a provider from being reimbursed unless the provider:

(a) (I) Has one or more physical locations within the state of Colorado or within fifty miles of a border of Colorado with a street address, a local business telephone number, an inventory, and a sufficient staff to service or repair products; except that the requirements of this paragraph (a) shall not apply to durable medical equipment or disposable medical supplies that are medically necessary and cannot be purchased from a provider meeting the requirements of this paragraph (a);

(II) Complies with all state and local licensing, insurance, and regulatory requirements for operating the provider's business;

(III) Is responsible for the delivery of and instructing the recipient on the proper use of the equipment; and

(IV) Provides repairs, replacements, or adjustments to the provider's products pursuant to rules of the state board; or

(b) Contracts with a provider who meets the criteria established in paragraph (a) of this subsection (2).

(3) The provisions of this section shall apply to fee-for-service and primary care physician program recipients.

Source: L. 2006: Entire section added, p. 525, § 1, effective August 7.

Editor's note: This section was originally numbered as § 26-4-410.7 in House Bill 06-1299. Section 2 of the act provided for the renumbering and relocation of § 26-4-410.7 to this section. (See L. 2006, p. 526.)

25.5-4-417. Provider fee - medicaid providers - state plan amendment - rules - definitions. (1) For purposes of this section, unless the context otherwise requires:

(a) "Local government" means a county, home rule county, home rule or statutory city, town, territorial charter city, or city and county.

(b) "Provider fee" means a licensing fee, assessment, or other mandatory payment that is related to health care items or services as specified under 42 CFR 433.55.

(c) "Qualified provider" means a hospital licensed pursuant to section 25-3-101, C.R.S., or a certified home health care agency within the territorial boundaries of the local government.

(2) For the purpose of sustaining or increasing reimbursement for providing medical care under the state's medical assistance program and to low-income populations, the state department shall amend the state plan effective July 1, 2006. Implementation of the state plan amendment shall be subject to the approval of the federal government. The imposition and collection of a provider fee by a local government pursuant to article 28 of title 29, C.R.S., shall be prohibited without the federal government's approval of a state plan amendment authorizing federal financial participation for the provider fees.

(3) In accordance with the redistributive method set forth in 42 CFR 433.68 (e) (1) and (e) (2), the state department may seek a waiver from the broad-based provider fee requirement or the uniform provider fee requirement, or both, to exclude qualified providers from the provider fee.

(4) To the extent authorized by federal law, the state department may exclude a governmental qualified provider from payment of the provider fee, benefits from the provider fee, or any federal financial participation due to the fee.

(5) To the extent authorized by federal law, the state department shall distribute the provider fee and any associated federal financial participation either to a local government that has certified payment to qualified providers within the local government or directly to the qualified providers. The state department shall establish reimbursement methods to distribute the provider fee and associated federal financial participation to qualified providers. The state department may alter reimbursement methods to qualified providers participating under the state's medical assistance program and Colorado indigent care program to the extent necessary to meet the federal requirements and to obtain federal approval of the provider fee. The state department shall work with a statewide association of hospitals on changes to reimbursement methods or provider fees that impact hospital providers. The state department shall work with a statewide association of home health care agencies on changes to reimbursement methods or provider fees that impact home health care agencies.

(6) The state board shall adopt any rules necessary for the administration and implementation of this section.

Editor's note: This section was enacted as § 26-4-427 in Senate Bill 06-145 but was relocated due to its harmonization with this article as it appeared in Senate Bill 06-219.

25.5-4-418. Integration of physical and behavioral health services - department review - report - repeal. (Repealed)

Source: L. 2011: Entire section added, (HB 11-1242), ch. 271, p. 1230, § 1, effective July 1.

Editor’s note: Subsection (4) provided for the repeal of this section, effective July 1, 2012. (See L. 2011, p. 1230.)

PART 5

STATE PLAN AMENDMENTS -
WAIVER AUTHORITY

25.5-4-501. State plan amendment - federal authorization - repeal. (Repealed)

Source: L. 2006: Entire article added with relocations, p. 1853, § 7, effective July 1.

Editor’s note: (1) This section was similar to former § 26-4-105.8 as it existed prior to 2006.
(2) Subsection (3) provided for the repeal of this section, effective July 1, 2007. (See L. 2006, p. 1853.)

25.5-4-502. Federal authorization - repeal. (Repealed)

Source: L. 2006: Entire article added with relocations, p. 1853, § 7, effective July 1.

Editor’s note: (1) This section was similar to former § 25.5-1-113 as it existed prior to 2006.
(2) Subsection (3) provided for the repeal of this section, effective July 1, 2007. (See L. 2006, p. 1853.)

25.5-4-503. Waiver applications - authorization. The state department is authorized to apply for health insurance flexibility and accountability waivers that will enable the state to add more flexibility to Colorado’s medicaid program and that will result in a cost-effective method of providing health care services to Coloradans.

Source: L. 2006: Entire article added with relocations, p. 1853, § 7, effective July 1.

Editor’s note: This section is similar to former § 25.5-1-111 as it existed prior to 2006.

ARTICLE 5

Colorado Medical Assistance Act -
Services and Programs

Editor’s note: This article was added with relocations in 2006 containing provisions of some sections formerly located in article 4 of title 26. Former C.R.S. section numbers are shown in editor’s notes following those sections that were relocated. For a detailed comparison of this article, see the comparative tables located in the back of the index.

25.5-5-703.	(Repealed)

PART 1

MANDATORY PROVISIONS

25.5-5-101. Mandatory provisions - eligible groups. (1) In order to participate in the medicaid program, the federal government requires the state to provide medical assistance to certain eligible groups. Pursuant to federal law and except as provided in subsection (2) of this section, any person who is eligible for medical assistance under the mandated groups specified in this section shall receive both the mandatory services that are specified in sections 25.5-5-102 and 25.5-5-103 and the optional services that are specified in sections 25.5-5-202 and 25.5-5-203. Subject to the availability of federal financial participation, the following are the individuals or groups that are mandated under federal law to receive benefits under this article and articles 4 and 6 of this title:

(a) Individuals who meet the eligibility criteria for the aid to families with dependent children program pursuant to rules that were in effect on July 16, 1996;

(b) Families who meet the eligibility criteria for the aid to families with dependent children program established in rules that were in effect on July 16, 1996, and who subsequently would have become ineligible under such eligibility criteria because of increased earnings or increased hours of employment whose eligibility is specified for a period of time by the federal government;

(c) Qualified pregnant women, and children under the age of seven, who meet the income requirements of the state's aid to families with dependent children program pursuant to rules that were in effect on July 16, 1996;

(d) A newborn child born of a woman who is categorically needy. Such child is deemed medicaid-eligible on the date of birth and remains eligible for one year so long as the woman remains categorically needy and the child is a member of her household.

(e) Children for whom adoption assistance or foster care maintenance payments are made under Title IV-E of the "Social Security Act", as amended;

- (f) Individuals receiving supplemental security income;
 - (g) Individuals receiving mandatory state supplement, including but not limited to individuals receiving old age pensions;
 - (h) Institutionalized individuals who were eligible for medical assistance in December 1973;
 - (i) Individuals who would be eligible except for the increase in old-age, survivors, and disability insurance under Pub.L. 92-336;
 - (j) Individuals who become ineligible for cash assistance as a result of old-age, survivors, and disability insurance cost-of-living increases after April 1977;
 - (k) Disabled widows or widowers fifty through sixty years of age who have become ineligible for federal supplemental security income or state supplementation as a result of becoming eligible for federal social security survivor's benefits, in accordance with the social security act, 42 U.S.C. sec. 1383c;
 - (l) Individuals with income and resources at a level which qualifies them as medicare-eligible under section 301 of Title III of the federal "Medicare Catastrophic Coverage Act";
 - (m) Low-income pregnant women, and children through the age of six, whose income is at or below a certain percentage of the federal poverty line as determined by the federal government.
- (2) (a) A qualified alien who entered the United States before August 22, 1996, who meets the exceptions described in the federal "Personal Responsibility and Work Opportunity Reconciliation Act of 1996", Public Law 104-193, as amended, shall receive benefits under this article and articles 4 and 6 of this title.
- (b) (I) A qualified alien who entered the United States on or after August 22, 1996, shall not be eligible for benefits under this article or article 4 or 6 of this title, except as provided in section 25.5-5-103 (3), for five years after the date of entry into the United States unless he or she meets the exceptions described in the federal "Personal Responsibility and Work Opportunity Reconciliation Act of 1996", Public Law 104-193, as amended.
- (II) Notwithstanding the five-year waiting period established in subparagraph (I) of this paragraph (b), but subject to the availability of sufficient appropriations and the receipt of federal financial participation, the state department may provide benefits under this article and articles 4 and 6 of this title to a pregnant woman who is a qualified alien and a child under nineteen years of age who is a qualified alien so long as such woman or child meets eligibility criteria other than citizenship.
- (3) Notwithstanding any other provision of this article and articles 4 and 6 of this title, as a condition of eligibility for medical assistance under this article and articles 4 and 6 of this title, a legal immigrant shall agree to refrain from executing an affidavit of support for the purpose of sponsoring an alien on or after July 1, 1997, under rules promulgated by the immigration and naturalization service, or any successor agency, during the pendency of such legal immigrant's receipt of medical assistance. Nothing in this subsection (3) shall be construed to affect a legal immigrant's eligibility for medical assistance under this article and articles 4 and 6 of this title based upon such legal immigrant's responsibilities under an affidavit of support entered into before July 1, 1997.
- (4) (a) An asset test shall not be applied as a condition of eligibility for individuals or families described in paragraphs (a), (b), and (c) of subsection (1) of this section.
- (b) Repealed.
- (c) Subject to the receipt of any necessary federal approval and pursuant to 42 U.S.C. sec. 1396a (r) (2) and 42 U.S.C. sec. 1396u-1 (b) (2) (C), for the groups described in paragraphs (a) to (c) of subsection (1) of this section, the state board shall develop an income- and resource-counting method to replace the method used under the aid to families with dependent children program pursuant to rules that were in effect on July 16, 1996. The income- and resource-counting method shall be:
- (I) No more restrictive than the method used under the aid to families with dependent children program pursuant to the rules that were in effect on July 16, 1996; and
- (II) No less restrictive than the method used to determine eligibility for other covered groups under subsection (1) of this section and sections 25.5-5-201, 25.5-5-204, 25.5-5-204.5, and 25.5-5-205.

Source: **L. 2006:** Entire article added with relocations, p. 1854, § 7, effective July 1. **L. 2009:** (2)(b) amended, (HB 09-1353), ch. 360, p. 1869, § 1, effective July 1, 2010. **L. 2010:** (4)(c) added, (HB 10-1043), ch. 92, p. 312, § 1, effective April 15; (1)(m) amended, (HB 10-1422), ch. 419, p. 2110, § 143, effective August 11. **L. 2011:** (3) amended, (HB 11-1303), ch. 264, p. 1168, § 67, effective August 10.

Editor's note: (1) This section is similar to former § 26-4-201 as it existed prior to 2006. (2) Subsection (4)(b)(II) provided for the repeal of subsection (4)(b), effective July 1, 2007. (See L. 2006, p. 1854.)

Cross references: For provisions of the federal "Medicare Catastrophic Coverage Act of 1988" referenced in this section, see section 301 of Pub.L. 100-360, codified at 42 U.S.C. sec. 1396a et seq.

25.5-5-102. Basic services for the categorically needy - mandated services. (1) Subject to the provisions of subsection (2) of this section and section 25.5-4-104, the program for the categorically needy shall include the following services as mandated and defined by federal law:

- (a) Inpatient hospital services;
- (b) Outpatient hospital services;
- (c) Other laboratory and X-ray services;
- (d) Physicians' services, wherever furnished;
- (e) Nursing facility services;
- (f) Home health services;
- (g) Early and periodic screening, diagnosis, and treatment, as required by federal law;
- (h) Family planning;
- (i) Rural health services;
- (j) Advanced practice nurse services;
- (k) and (l) (Deleted by amendment, L. 2008, p. 138, § 2, effective July 1, 2008.)
- (m) Federally qualified health centers.

(2) In order to keep expenditures within approved appropriations, the state board may, by rule, establish limits on a service provided pursuant to this section so long as the service provided is sufficient in the amount, duration, and scope to reasonably achieve the purpose of the service as required by federal law or regulation. When a rule is promulgated pursuant to this subsection (2), the state board shall provide a summary report of the limitations established by the rule and any fiscal impact of the rule to members of the health and human services committees of the senate and house of representatives, or any successor committees, and any other members of the general assembly who request the reports.

ANNOTATION

Annotator's note. Since § 25.5-5-102 is similar to § 26-4-202 as it existed prior to the 2006 amendments relocating article 4 of title 26 to title 25.5 and § 26-4-202 is similar to § 26-4-105 as it existed prior to the 1991 repeal and reenactment of article 4 of title 26, relevant cases construing those provisions have been included in the annotations to this section.

Reimbursement for outpatient services. The state board of social services did not exceed

its authority in providing reimbursement under this section for outpatient services rendered by hospital-based physicians. *City of Colo. Springs v. State*, 640 P.2d 870 (Colo. App. 1982).

Abortion is available for cost reimbursement. Abortion is a medical procedure which falls well within the umbrella of "basic services" listed in subsection (1), and therefore is available for cost reimbursement to the categorically needy. *Dodge v. State Dept. of Soc. Servs.*,

657 P.2d 969 (Colo. App. 1982) (decided prior to enactment of former § 26-4-512 (now § 25.5-4-415)).

25.5-5-103. Mandated programs with special state provisions. (1) This section specifies programs developed by Colorado to meet federal mandates. These programs include but are not limited to:

(a) The program known as the baby and kid care program which provides medical assistance for pregnant women and children, as specified in section 25.5-5-205;

(b) Special provisions relating to nursing facilities, as specified in sections 25.5-6-201 to 25.5-6-203, 25.5-6-205, and 25.5-6-206;

(c) The program for qualified medicare beneficiaries, as specified in section 25.5-5-104;

(d) The program for qualified disabled and working individuals, as specified in section 25.5-5-105;

(e) Special provisions for the purchase of group health insurance for recipients, as specified in section 25.5-4-210;

(f) The program to provide health services to students by school districts as specified in section 25.5-5-318.

(2) The medical assistance program also is subject to special provisions relating to the use of public funds for abortion which are required by section 50 of article V of the Colorado constitution. Those special provisions are specified in section 25.5-4-415.

(3) (a) Emergency medical assistance shall be provided to any person who is not a citizen of the United States, including undocumented aliens, aliens who are not qualified aliens, and qualified aliens who entered the United States on or after August 22, 1996, who has an emergency medical condition and meets one of the categorical requirements set forth in section 25.5-5-101; except that such persons shall not be required to meet any residency requirement other than that required by federal law.

(b) The state board shall adopt rules necessary for the implementation of this subsection (3), including in such rules definitions of “emergency services”, “emergency medical condition”, “geographic area”, and “prenatal care”.

Source: L. 2006: Entire article added with relocations, p. 1856, § 7, effective July 1.

Editor’s note: This section is similar to former § 26-4-203 as it existed prior to 2006.

25.5-5-104. Qualified medicare beneficiaries. Qualified medicare beneficiaries are medicare-eligible individuals with income and resources at a level which qualifies them as eligible under section 301 of Title III of the federal “Medicare Catastrophic Coverage Act of 1988”, as amended, or subsequent amending federal legislation. For purposes of this article and articles 4 and 6 of this title, such individuals shall be referred to as “qualified medicare beneficiaries”. The state department is hereby designated as the single state agency to administer benefits available to qualified medicare beneficiaries in accordance with Title XIX and this article and articles 4 and 6 of this title. Such benefits are limited to medicare cost-sharing expenses as determined by the federal government. Accordingly, the state department shall not be required to provide qualified medicare beneficiaries the entire range of services set forth in section 25.5-5-102.

Source: L. 2006: Entire article added with relocations, p. 1857, § 7, effective July 1.

Editor’s note: This section is similar to former § 26-4-510 as it existed prior to 2006.

Cross references: For provisions of the federal “Medicare Catastrophic Coverage Act of 1988” referenced in this section, see section 301 of Pub.L. 100-360, codified at 42 U.S.C. sec. 1396a et seq.

25.5-5-105. Qualified disabled and working individuals. Qualified disabled and working individuals are persons with income and resources and disability status, as determined by the social security administration, which qualify them as “qualified disabled

and working individuals” under sections 6012 and 6408 of the federal “Omnibus Budget Reconciliation Act of 1989”, or subsequent amending federal legislation. The state department is hereby designated as the single state agency to administer benefits available to qualified disabled and working individuals. Such benefits are limited to medicare cost-sharing expenses as determined by the federal government. Accordingly, the state department shall not be required to provide qualified disabled and working individuals the entire range of services set forth in section 25.5-5-102.

Source: L. 2006: Entire article added with relocations, p. 1858, § 7, effective July 1.

Editor’s note: This section is similar to former § 26-4-511 as it existed prior to 2006.

Cross references: For provisions of the federal “Omnibus Budget Reconciliation Act of 1989” referenced in this section, see sections 6012 and 6408 of Pub.L. 101-239, codified at 42 U.S.C. secs. 1395i and 1396a.

PART 2

OPTIONAL PROVISIONS

25.5-5-201. Optional provisions - optional groups - repeal. (1) The federal government allows the state to select optional groups to receive medical assistance. Pursuant to federal law, any person who is eligible for medical assistance under the optional groups specified in this section shall receive both the mandatory services specified in sections 25.5-5-102 and 25.5-5-103 and the optional services specified in sections 25.5-5-202 and 25.5-5-203. Subject to the availability of federal financial aid funds, the following are the individuals or groups that Colorado has selected as optional groups to receive medical assistance pursuant to this article and articles 4 and 6 of this title:

- (a) Individuals who would be eligible for but are not receiving cash assistance;
- (b) Individuals who would be eligible for cash assistance except for their institutionalized status;
- (c) Individuals receiving home- and community-based services as specified in article 6 of this title;
- (d) Individuals who would be eligible for aid to families with dependent children if child care were paid from earnings;
- (e) Individuals under the age of twenty-one who would be eligible for aid to families with dependent children but do not qualify as dependent children;
- (f) Individuals receiving only optional state supplement;
- (g) Individuals in institutions who are eligible under a special income level. Colorado’s program for citizens sixty-five years of age or older or physically disabled or blind, whose gross income does not exceed three hundred percent of the current federal supplemental security income benefit level, qualifies for federal funding under this provision.
- (h) Persons who are eligible for cash assistance under the works program pursuant to section 26-2-706, C.R.S.;
- (i) Persons who are eligible for the breast and cervical cancer prevention and treatment program pursuant to section 25.5-5-308;
- (j) Individuals who are qualified aliens and were or would have been eligible for supplemental security income as a result of a disability but are not eligible for such supplemental security income as a result of the passage of the federal “Personal Responsibility and Work Opportunity Reconciliation Act of 1996”, Public Law 104-193;
- (k) Other qualified aliens who entered or were present in the United States before August 22, 1996;
- (l) Children for whom subsidized adoption assistance payments are made by the state pursuant to article 7 of title 26, C.R.S., or foster care maintenance payments are made by the state pursuant to article 5 of title 26, C.R.S., but who do not meet the requirements of Title IV-E of the “Social Security Act”, as amended;
- (m) (I) (A) Parents of children who are eligible for the medical assistance program or the children’s basic health plan, article 8 of this title, whose family income does not exceed

a specified percent of the federal poverty line, adjusted for family size, as set by the state board by rule, which percentage shall be not less than one hundred percent.

(B) Notwithstanding the provisions of sub-subparagraph (A) of this subparagraph (I), if the moneys in the hospital provider fee cash fund established pursuant to section 25.5-4-402.3 (4), together with the corresponding federal matching funds, are insufficient to fully fund all of the purposes described in section 25.5-4-402.3 (4) (b), after receiving recommendations from the hospital provider fee oversight and advisory board established pursuant to section 25.5-4-402.3 (6), for parents of children eligible for the medical assistance program or the children's basic health plan, the state board by rule adopted pursuant to the provisions of section 25.5-4-402.3 (5) (b) (III) may reduce the medical benefits offered to such parent whose family income exceeds sixty percent of the federal poverty line or reduce the percentage of the federal poverty line to below one hundred percent, but the percentage shall not be reduced to below sixty percent.

(C) Notwithstanding the provisions of sub-subparagraph (A) of this subparagraph (I), until the state department receives federal authorization to increase the percentage of the federal poverty line for parents of children eligible for the medical assistance program or the children's basic health plan, the percentage of the federal poverty line shall be not less than sixty percent. Within sixty days after the state department receives authorization to increase the percentage of the federal poverty line, the executive director shall send written notice to the revisor of statutes informing him or her of the authorization. This sub-subparagraph (C) is repealed, effective the July 1 following the receipt of the notice to the revisor of statutes.

(II) Repealed.

(n) Individuals under the age of twenty-one years eligible for medical assistance pursuant to paragraph (I) of this subsection (1) or section 25.5-5-101 (1) (e) immediately prior to attaining the age of eighteen years or otherwise becoming emancipated.

(o) (I) Individuals with disabilities who are participating in the medicaid buy-in program established in part 14 of article 6 of this title.

(II) Notwithstanding the provisions of subparagraph (I) of this paragraph (o), if the moneys in the hospital provider fee cash fund established pursuant to section 25.5-4-402.3 (4), together with the corresponding federal matching funds, are insufficient to fully fund all of the purposes described in section 25.5-4-402.3 (4) (b), after receiving recommendations from the hospital provider fee oversight and advisory board established pursuant to section 25.5-4-402.3 (6), for individuals with disabilities who are participating in the medicaid buy-in program established in part 14 of article 6 of this title, the state board by rule adopted pursuant to the provisions of section 25.5-4-402.3 (5) (b) (III) may reduce the medical benefits offered or the percentage of the federal poverty line to below four hundred fifty percent or may eliminate this eligibility group.

(III) Repealed.

(p) (I) Subject to federal approval, persons over eighteen years of age who are childless or without a dependent child in the home whose family income does not exceed a specified percentage of the federal poverty line, adjusted for family size and as set by the state board by rule, which percentage shall be not less than one hundred percent.

(II) Notwithstanding the provisions of subparagraph (I) of this paragraph (p), if the moneys in the hospital provider fee cash fund established pursuant to section 25.5-4-402.3 (4), together with the corresponding federal matching funds, are insufficient to fully fund all of the purposes described in section 25.5-4-402.3 (4) (b), after receiving recommendations from the hospital provider fee oversight and advisory board established pursuant to section 25.5-4-402.3 (6), for childless persons or for persons without a dependent child in the home, the state board by rule adopted pursuant to the provisions of section 25.5-4-402.3 (5) (b) (III) may reduce the medical benefits offered or the percentage of the federal poverty line to below one hundred percent or may eliminate this eligibility group.

(III) Repealed.

(q) Children who are continuously eligible for twelve months pursuant to section 25.5-5-204.5.

(r) (I) Persons eligible for a medicaid buy-in program established pursuant to section 25.5-5-206 whose family income does not exceed a specified percentage of the federal

poverty line, adjusted for family size and as set by the state board by rule, which percentage shall be not more than four hundred fifty percent.

(II) Notwithstanding the provisions of subparagraph (I) of this paragraph (r), if the moneys in the hospital provider fee cash fund established pursuant to section 25.5-4-402.3 (4), together with the corresponding federal matching funds, are insufficient to fully fund all of the purposes described in section 25.5-4-402.3 (4) (b), after receiving recommendations from the hospital provider fee oversight and advisory board established pursuant to section 25.5-4-402.3 (6), for persons eligible for a medicaid buy-in program established pursuant to section 25.5-5-206, the state board by rule adopted pursuant to the provisions of section 25.5-4-402.3 (5) (b) (III) may reduce the medical benefits offered, or the percentage of the federal poverty line, or may eliminate this eligibility group.

(III) (A) Notwithstanding the provision of subparagraph (I) of this paragraph (r), persons eligible for a medicaid buy-in program established pursuant to section 25.5-5-206 shall only be eligible for benefits under the medical assistance program if the state department receives federal authorization for such eligibility.

(B) Within sixty days after the state department receives authorization to provide medical benefits to persons eligible for a medicaid buy-in program established pursuant to section 25.5-5-206, the executive director shall send written notice to the revisor of statutes informing him or her of the authorization.

(C) This subparagraph (III) is repealed, effective the July 1 following the receipt of the notice to the revisor of statutes.

(2) (a) A qualified alien, who entered the United States on or after August 22, 1996, shall not be eligible for benefits under this article and articles 4 and 6 of this title, except as provided in section 25.5-5-103 (3), for five years after the date of entry into the United States unless he or she meets the exceptions described in the federal "Personal Responsibility and Work Opportunity Reconciliation Act of 1996", Public Law 104-193, as amended. After five years, such qualified alien shall be eligible for benefits under this article and articles 4 and 6 of this title but shall have sponsor income and resources deemed to the individual or family under rules established by the state board of human services pursuant to section 26-2-137, C.R.S.

(b) Notwithstanding the five-year waiting period established in paragraph (a) of this subsection (2), but subject to the availability of sufficient appropriations and the receipt of federal financial participation, the state department may provide benefits under this article and articles 4 and 6 of this title to a pregnant woman who is a qualified alien and a child under nineteen years of age who is a qualified alien so long as such woman or child meets eligibility criteria other than citizenship.

(3) A legal immigrant who is receiving medicaid nursing facility care or home- and community-based services on July 1, 1997, shall continue to receive such services as long as he or she meets the eligibility requirements other than citizen status. State general funds may be used to reimburse such care in the event that federal financial participation is not available.

(4) A pregnant legal immigrant shall be eligible to receive prenatal and medical services for labor and delivery as long as she meets eligibility requirements other than citizen status. State general funds may be used to reimburse such care in the event that federal financial participation is not available.

(5) (a) An asset test shall not be applied as a condition of eligibility for individuals or families described in paragraphs (a), (h), and (m) of subsection (1) of this section.

(b) Repealed.

(c) Subject to the receipt of any necessary federal approval and pursuant to 42 U.S.C. sec. 1396a (r) (2) and 42 U.S.C. sec. 1396u-1 (b) (2) (C), for the groups described in paragraphs (d) and (e) of subsection (1) of this section, the state board shall develop an income- and resource-counting method to replace the method used under the aid to families with dependent children program pursuant to rules that were in effect on July 16, 1996. The income- and resource-counting method shall be:

(I) No more restrictive than the method used under the aid to families with dependent children program pursuant to the rules that were in effect on July 16, 1996; and

(II) No less restrictive than the method used to determine eligibility for other covered groups under subsection (1) of this section and sections 25.5-5-101, 25.5-5-204, 25.5-5-204.5, and 25.5-5-205.

Editor's note: (1) This section is similar to former § 26-4-301 as it existed prior to 2006.

(2) Subsection (1)(m)(II)(B) provided for the repeal of subsection (1)(m)(II), effective January 1, 2007. (See L. 2006, p. 1858.)

(3) Subsection (5)(b)(II) provided for the repeal of subsection (5)(b), effective July 1, 2007. (See L. 2006, p. 1858.)

(4) Subsection (1)(o)(III)(C) provided for the repeal of subsection (1)(o)(III), effective the July 1 following the revisor of statutes' receipt of the notice required pursuant to subsection (1)(o)(III)(B). (See L. 2009, p. 645.) The revisor of statutes received said notice dated March 23, 2012.

(5) Subsection (1)(p)(III)(C) provided for the repeal of subsection (1)(p)(III), effective the July 1 following the revisor of statutes' receipt of the notice required pursuant to subsection (1)(p)(III)(B). (See L. 2009, p. 645.) The revisor of statutes received said notice dated April 2, 2012.

25.5-5-202. Basic services for the categorically needy - optional services. (1) Subject to the provisions of subsection (2) of this section, the following are services for which federal financial participation is available and which Colorado has selected to provide as optional services under the medical assistance program:

(a) (I) Prescribed drugs.

(II) Notwithstanding the provisions of subparagraph (I) of this paragraph (a), pursuant to the provisions of section 25.5-5-503, prescribed drugs shall not be a covered benefit under the medical assistance program for a recipient who is enrolled in a prescription drug benefit program under medicare; except that, if a prescribed drug is not a covered Part D drug as defined in the "Medicare Prescription Drug, Improvement, and Modernization Act of 2003", Pub.L. 108-173, the prescribed drug may be a covered benefit if it is otherwise covered under the medical assistance program and federal financial participation is available.

(a.5) Over-the-counter medications, as specified in section 25.5-5-322;

(b) Clinic services, as defined in sections 25.5-5-301 and 25.5-5-302;

(c) Home- and community-based services, as specified in article 6 of this title, which include:

(I) Home- and community-based services for elderly, blind, and disabled persons, as specified in part 3 of article 6 of this title;

(II) Home- and community-based services for developmentally disabled persons, as specified in part 4 of article 6 of this title;

(III) Home- and community-based services for persons living with AIDS, as specified in part 5 of article 6 of this title;

(IV) Home- and community-based services for persons with major mental illnesses, as specified in part 6 of article 6 of this title;

(V) Home- and community-based services for persons with brain injury, as specified in part 7 of article 6 of this title;

(d) Optometrist services;

(e) Eyeglasses when necessary after surgery;

(f) Prosthetic devices, including medically necessary augmentative communication devices; except that nonsurgically implanted prosthetic devices shall be included only after July 1, 1998, and only if the general assembly approves appropriations for these devices as a new benefit;

- (g) Rehabilitation services as appropriate to community mental health centers;
- (h) Intermediate care facilities for the mentally retarded;
- (i) Inpatient psychiatric services for persons under twenty-one years of age;
- (j) Inpatient psychiatric services for persons over the age of sixty-five;
- (k) Case management;
- (l) Therapies under home health services, including:
 - (I) Speech and audiology;
 - (II) Physical;
 - (III) Occupational;
- (m) Services of a licensed psychologist;
- (n) Private duty nursing services;
- (o) Podiatry services;
- (p) Hospice care;
- (q) The program of all-inclusive care for the elderly;
- (r) For any pregnant woman who is enrolled or eligible for services pursuant to section 25.5-5-101 (1) (c) or 25.5-5-205, alcohol and drug and addiction counseling and treatment, including outpatient and residential care but not including room and board while receiving residential care;

(s) (I) Outpatient substance abuse treatment.

(II) On or before March 31, 2011, pursuant to section 25.5-5-313 (2), if the legislative audit committee adopts a resolution finding that providing outpatient substance abuse treatment has resulted in an overall increase in costs to the medical assistance program, this paragraph (s) is repealed, effective July 1, 2011.

(t) Cervical cancer immunization for all females under twenty years of age;

(u) (I) Screening, brief intervention, and referral to treatment for individuals at risk of substance abuse, including referral to the appropriate level of intervention and treatment.

(II) Notwithstanding the provisions of subparagraph (I) of this paragraph (u), services relating to screening, brief intervention, and referral to treatment shall not take effect unless all necessary approvals under federal law and regulation have been obtained to receive federal financial participation for the costs of such services.

(2) In addition to the services described in subsection (1) of this section and subject to continued federal financial participation, Colorado has selected to provide transportation services as an administrative cost.

(3) In order to keep expenditures within approved appropriations, the state board may, by rule, establish limits on a service provided pursuant to this section so long as the service provided is sufficient in the amount, duration, and scope to reasonably achieve the purpose of the service as required by federal law or regulation. When a rule is promulgated pursuant to this subsection (3), the state board shall provide a summary report of the limitations established by the rule and any fiscal impact of the rule to members of the health and human services committees of the senate and house of representatives, or any successor committees, and any other members of the general assembly who request the reports.

L. 2010: (1)(r) amended, (HB 10-1043), ch. 92, p. 313, § 3, effective April 15; (1)(a.5) added, (SB 10-117), ch. 227, p. 985, § 1, effective July 1; (1)(u) added, (HB 10-1033), ch. 346, p. 1601, § 1, effective August 11.

Editor's note: (1) This section is similar to former § 26-4-302 as it existed prior to 2006.

(2) The legislative audit committee did not adopt a resolution by March 31, 2011, as provided for in subsection (1)(s)(II).

25.5-5-203. Optional programs with special state provisions. (1) Subject to the provisions of subsection (2) of this section, this section specifies programs developed by Colorado to increase federal financial participation through selecting optional services or optional eligible groups. These programs include but are not limited to:

- (a) Pharmaceutical services, as specified in section 25.5-5-504;
- (b) The home- and community-based services program for the elderly, blind, and disabled, as specified in part 3 of article 6 of this title;
- (c) The home- and community-based services program for the developmentally disabled, as specified in part 4 of article 6 of this title;

- (d) The home- and community-based services program for persons living with AIDS, as specified in part 5 of article 6 of this title;
- (e) The home- and community-based services program for persons with major mental illnesses, as specified in part 6 of article 6 of this title;
- (f) The home- and community-based services program for persons with brain injury, as specified in part 7 of article 6 of this title;
- (g) Clinic services, as defined in sections 25.5-5-301 and 25.5-5-302;
- (h) The program for private duty nursing, as specified in section 25.5-5-303;
- (i) The disabled children care program, as specified in section 25.5-6-901;
- (j) The program of all-inclusive care for the elderly, as specified in section 25.5-5-412;
- (k) Hospice care, as specified in section 25.5-5-304;
- (l) The treatment program for high-risk pregnant women, as specified in section 27-80-112, C.R.S., and sections 25.5-5-309, 25.5-5-310, and 25.5-5-311;
- (m) The program for residential child health care, as specified in section 25.5-5-306;
- (n) The children's personal assistance services and family support waiver program, as specified in section 25.5-6-902;
- (o) Home- and community-based services for children with autism, as specified in part 8 of article 6 of this title.

(2) In order to keep expenditures within approved appropriations, the state board may, by rule, establish limits on a service provided pursuant to this section so long as the service provided is sufficient in the amount, duration, and scope to reasonably achieve the purpose of the service as required by federal law or regulation. When a rule is promulgated pursuant to this subsection (2), the state board shall provide a summary report of the limitations established by the rule and any fiscal impact of the rule to members of the health and human services committees of the senate and house of representatives, or any successor committees, and any other members of the general assembly who request the reports.

Source: L. 2006: Entire article added with relocations, p. 1862, § 7, effective July 1.
L. 2010: (1)(l) amended, (SB 10-175), ch. 188, p. 801, § 67, effective April 29.

Editor's note: This section is similar to former § 26-4-303 as it existed prior to 2006.

25.5-5-204. Presumptive eligibility - pregnant women - children - long-term care - state plan. (1) For purposes of this section, "presumptive eligibility" means the self-declaration of income, assets, and status in order to promptly receive medical assistance services prior to the verification of income, assets, and status.

(2) (a) A pregnant woman shall be presumptively eligible for the medical assistance program and shall receive services specified by federal law only if the woman declares all pertinent information relating to the criteria of income, assets, and status.

(b) A woman shall declare her immigration status unless the general assembly provides funding for prenatal care services for undocumented residents.

(2.5) A child under the age of eighteen years shall be presumptively eligible for the medical assistance program and shall receive services specified by federal law only if a parent or legal guardian of the child declares all pertinent information relating to the criteria of income, assets, and status of the child's family.

(2.7) (a) The state department is authorized to seek federal authorization to allow a person who is in need of long-term care, as defined in section 25.5-6-104, to be presumptively eligible for the medical assistance program pursuant to this article and articles 4 and 6 of this title.

(b) If the state department receives federal authorization pursuant to paragraph (a) of this subsection (2.7) and sufficient spending authority, a person in need of long-term care shall be presumptively eligible for the medical assistance program if the person or the person's legal representative declares all pertinent information relating to the criteria of income, assets, and immigration status. Such person shall be assessed for the appropriate level of care pursuant to section 25.5-6-104. If required due to limitations of federal authorization or spending authority, the state department may implement this paragraph (b) as a pilot program rather than statewide.

(c) The state department shall make any necessary changes to the state plan and waivers for home- and community-based service programs authorized pursuant to this article and articles 4 and 6 of this title to comply with this subsection (2.7).

(d) If it is determined that a recipient was not eligible for medical benefits after the recipient had been determined to be eligible based upon presumptive eligibility, the state department shall not pursue recovery from a county department for the cost of medical services provided to the recipient, and the county department shall not be responsible for any federal error rate sanctions resulting from such determination.

(3) The state department shall make any necessary changes to the state plan to comply with this section.

Editor's note: This section is similar to former § 26-4-304 as it existed prior to 2006.

Cross references: For the legislative declaration contained in the 2007 act enacting subsection (2.5), see section 1 of chapter 347, Session Laws of Colorado 2007.

25.5-5-204.5. Continuous eligibility - children - repeal. (1) A child who is determined to be eligible for benefits under this article or under article 4 or 6 of this title shall remain eligible for twelve months subsequent to the last day of the month in which the child was enrolled; except that a child shall no longer be eligible and shall be disenrolled from the state medical assistance program if the state department becomes aware of or is notified that the child has moved out of the state or has reached nineteen years of age.

(2) Notwithstanding the provisions of subsection (1) of this section, if the moneys in the hospital provider fee cash fund established pursuant to section 25.5-4-402.3 (4), together with the corresponding federal matching funds, are insufficient to fully fund all of the purposes described in section 25.5-4-402.3 (4) (b), after receiving recommendations from the hospital provider fee oversight and advisory board established pursuant to section 25.5-4-402.3 (6), the state board by rule adopted pursuant to the provisions of section 25.5-4-402.3 (5) (b) (III) may eliminate the continuous enrollment requirement pursuant to this section.

(3) (a) Notwithstanding the provisions of subsection (1) of this section, continuous eligibility for children shall only be effective if the state department receives federal authorization for such eligibility.

(b) Within sixty days after the state department receives authorization to provide continuous eligibility for children, the executive director shall send written notice to the revisor of statutes informing him or her of the authorization.

(c) This subsection (3) is repealed, effective the July 1 following the receipt of the notice to the revisor of statutes.

Source: **L. 2009:** Entire section added, (HB 09-1293), ch. 152, p. 648, § 6, effective July 1.

25.5-5-205. Baby and kid care program - creation - eligibility. (1) The general assembly hereby finds and declares that the health and well-being of the children of Colorado are at risk; that access to prenatal care by pregnant women in Colorado is inadequate; that lack of access to prenatal care results in a high rate of low-weight births; that children born with low weight are more likely to develop health problems during their lifetimes; that providing such essential care during pregnancy and early childhood would reduce the number of children with such health problems; that providing such care would not only benefit such children but would also benefit the citizens of Colorado by ensuring the present and future health of society and reducing the amount of state resources needed for such purposes; and that a significant need exists in Colorado for a program which utilizes medicaid funds to promote and provide such prenatal care and well child care.

(2) There is hereby created the baby and kid care program to promote and provide prenatal care and well child care to individuals who need such care but are currently unable to obtain it.

(3) (a) On and after April 1, 1990, children under the age of six years and pregnant women shall be eligible for benefits under the baby and kid care program; except that, for the purpose of eligibility under this subsection (3) only:

(I) Such individual's family income shall exceed the eligibility threshold used in determining eligibility for aid to families with dependent children assistance pursuant to rules in effect on July 16, 1996, and the method adopted by the state board pursuant to sections 25.5-5-101 (4) (c) and 25.5-5-201 (5) (c), but shall not exceed the equivalent of the percentage level of the federal poverty line that is specified pursuant to paragraph (b) of this subsection (3);

(II) (A) (Deleted by amendment, L. 2010, (HB 10-1043), ch. 92, p. 313, § 4, effective April 15, 2010.)

(B) No resource standard shall be applied to pregnant women as a condition of eligibility. Once initial eligibility has been established for a pregnant woman under this subsection (3), she shall be considered to be continuously eligible throughout the pregnancy and for the sixty days following the pregnancy, even if the woman's eligibility would otherwise terminate during such period due to an increase in income. A child born to a woman eligible for assistance pursuant to this subsection (3) shall be eligible for medical assistance until the child attains one year of age so long as the infant remains in the eligible woman's household and the woman would be eligible for assistance if she were pregnant.

(b) (I) For children under six years of age, the percentage level of the federal poverty line, as defined pursuant to 42 U.S.C. sec. 9902 (2), used to determine eligibility under this subsection (3) shall be one hundred thirty-three percent. If the federal government establishes a new federal minimum percentage level of the federal poverty line used to determine eligibility under this subsection (3) that is different from the level set in this subparagraph (I), the state department is authorized to meet such federal minimum level without requiring additional legislation; however, such minimum federal level shall be established by rule of the state board.

(II) For pregnant women, the percentage level of the federal poverty line, as defined pursuant to 42 U.S.C. sec. 9902 (2), used to determine eligibility under this subsection (3) shall be one hundred eighty-five percent. If the federal government establishes a new federal minimum percentage level of the federal poverty line used to determine eligibility under this subsection (3) that is different from the level set in this subparagraph (II), the state department is authorized to meet such federal minimum level without requiring additional legislation; however, such minimum federal level shall be established by rule of the state board.

(c) (I) On and after September 1, 2011, children born after September 30, 1983, who have attained six years of age but have not attained nineteen years of age shall be eligible for benefits under the baby and kid care program. For the purpose of eligibility under this paragraph (c) only, such individual's family income shall exceed the eligibility threshold used in determining eligibility for aid to families with dependent children assistance pursuant to rules in effect on July 16, 1996, and the method adopted by the state board pursuant to sections 25.5-5-101 (4) (c) and 25.5-5-201 (5) (c), but shall not exceed the equivalent of the percentage level of the federal poverty line that is specified pursuant to subparagraph (II) of this paragraph (c).

(II) The percentage level of the federal poverty line, as defined pursuant to 42 U.S.C. sec. 9902 (2), used to determine eligibility under this paragraph (c) shall be equivalent to the family income eligibility threshold applied to children under six years of age pursuant to paragraph (b) of this subsection (3).

(d) An asset test shall not be applied as a condition of eligibility for a child under this subsection (3). A child under this subsection (3) whose family income does not exceed the applicable level pursuant to paragraph (b) or (c) of this subsection (3) shall be presumptively eligible under this section.

25.5-5-206. Medicaid buy-in program - disabled children - disabled adults - federal authorization - rules. (1) (a) Subject to available appropriations, the state department is authorized to seek federal authorization to and to establish a medicaid buy-in program or programs for:

(I) Disabled children; or
(II) Disabled adults who do not qualify for the medicaid buy-in program established pursuant to part 14 of article 6 of this title.

(b) The medicaid buy-in program or programs established pursuant to paragraph (a) of this subsection (1) may provide for premium and cost-sharing charges on a sliding fee scale based upon a family's income.

(2) The state board shall promulgate rules consistent with any federal authorization to implement and administer the medicaid buy-in program or programs established pursuant to paragraph (a) of subsection (1) of this section.

Source: L. 2009: Entire section added, (HB 09-1293), ch. 152, p. 698, § 6, effective July 1.

PART 3

SERVICES WITH SPECIAL STATE PROVISIONS

25.5-5-301. Clinic services. (1) As used in this article and articles 4 and 6 of this title, unless the context otherwise requires, "clinic services" means preventive, diagnostic, therapeutic, rehabilitative, or palliative items or services furnished to outpatients.

(2) Under the federal option for clinic services, Colorado has selected clinic services provided by the following:

- (a) Community mental health centers or clinics;
- (b) Community centered boards;
- (c) Birthing centers;
- (d) Ambulatory surgery facilities;
- (e) Freestanding dialysis clinics.

(3) "Clinic services" also means preventive, therapeutic, or palliative items or services that are furnished to patients by county or district public health agencies or county or district boards of health established pursuant to part 5 of article 1 of title 25, C.R.S., that are recommended for certification by the department of public health and environment as qualified to receive payments pursuant to this article and articles 4 and 6 of this title.

(4) "Clinic services" also means preventive, diagnostic, therapeutic, rehabilitative, or palliative items or services that are furnished to a pregnant woman who is enrolled or eligible for services pursuant to section 25.5-5-101 (1) (c) or 25.5-5-205 in a facility that is not a part of a hospital but is organized and operated as a freestanding alcohol or drug treatment program approved and licensed by the unit in the department of human services that administers behavioral health programs and services, including those related to mental health and substance abuse, pursuant to section 27-80-108 (1) (c), C.R.S.

(5) "Clinic services" also means preventive, diagnostic, therapeutic, rehabilitative, or palliative items or services that are furnished to children up to age twenty-one or to high-risk pregnant women in a facility which is not a part of a hospital but is organized and operated as a school-based clinic.

(6) “Clinic services” also means preventive, diagnostic, therapeutic, rehabilitative, or palliative items or services that are furnished to students by a school district, board of cooperative services, or state educational institution within the scope of the “Colorado Medical Assistance Act” pursuant to the provisions of section 25.5-5-318.

L. 2010: (4) amended, (HB 10-1043), ch. 92, p. 314, § 5, effective April 15; (4) amended, (SB 10-175), ch. 188, p. 801, § 68, effective April 29; (3) amended, (HB 10-1422), ch. 419, p. 2113, § 145, effective August 11.

Editor’s note: (1) This section is similar to former § 26-4-513 as it existed prior to 2006.

(2) Amendments to subsection (4) by House Bill 10-1043 and Senate Bill 10-175 were harmonized.

25.5-5-302. Clinic services - children and pregnant women - utilization of certain providers. (1) The state department shall utilize, to the extent possible and appropriate, county or district public health agencies or boards of health established pursuant to part 5 of article 1 of title 25, C.R.S., that are certified by the department of public health and environment as qualified to receive payments pursuant to this article and articles 4 and 6 of this title and that meet the requirements and standards set forth in rules promulgated by the state board in the state department pursuant to section 25.5-4-104 to provide clinic services to patients who are children under age seven or patients who are pregnant women.

(2) In complying with the provisions of subsection (1) of this section, the state department shall utilize, to the extent possible and appropriate, the county or district public health agencies and boards of health specified in subsection (1) of this section to provide outreach to eligible pregnant women and children and to provide clinic services:

- (a) Upon the referral of any physician; or
- (b) When there exists no primary care physician who agrees to provide clinic services to such patients.

L. 2010: (1) and IP(2) amended, (HB 10-1422), ch. 419, p. 2113, § 146, effective August 11.

Editor’s note: This section is similar to former § 26-4-514 as it existed prior to 2006.

25.5-5-303. Private-duty nursing. (1) The medical assistance program in this state shall include private-duty nursing to persons who are technology dependent and otherwise eligible as provided under this section.

- (2) A recipient is eligible for private-duty nursing services if he or she:
 - (a) Is dependent on technology at least part of each day;
 - (b) Requires private-duty nursing care as determined in accordance with state department rules;
 - (c) Is able to be served safely under the limitations of the private-duty nursing benefit and within the availability of services; and
 - (d) Is not residing in a nursing facility or hospital at the time of the delivery of the private-duty nursing services.
- (3) (a) The state board shall establish rules in accordance with this section that identify medical criteria for determining the circumstances under which private-duty nursing services will be delivered to assure that only persons who need the services receive them and only to the extent medically necessary.
- (b) Private-duty nursing services shall not be provided as twenty-four-hour care except in special circumstances and for limited time periods as established by the state department pursuant to this section.
- (c) The home health agency, in conjunction with the family or in-home caregiver and the attending physician, shall include in a care plan that includes private-duty nursing

services a process by which the eligible person may receive necessary care, which may include respite care, if the family or in-home caregiver is unavailable due to an emergency situation or to unforeseen circumstances. The family or in-home caregiver shall be duly informed by the home health agency of these alternative care provisions at the time the care plan is initiated.

(4) As used in this section, unless the context otherwise requires, “private-duty nursing” means nursing care that is more individualized and continuous than both the nursing care available under the home health benefit and the nursing care routinely provided in a hospital or nursing facility.

Source: L. 2006: Entire article added with relocations, p. 1867, § 7, effective July 1.

Editor’s note: This section is similar to former § 26-4-517 as it existed prior to 2006.

25.5-5-304. Hospice care. (1) The medical assistance program in this state shall include hospice care. Except as otherwise provided in subsection (2) of this section, hospice care shall be provided for a period of up to two hundred ten days in accordance with rules adopted by the state board, which rules shall comply with 42 U.S.C. sec. 1396d, and shall include at least the following requirements:

(a) That a person shall obtain a certified medical prognosis indicating a life expectancy of nine months or less, which certification shall comply with rules adopted by the state board;

(b) That a person shall execute a waiver of other medical benefits available under this article and articles 4 and 6 of this title, which election shall be executed in accordance with rules adopted by the state board;

(c) That the service shall be reasonable and necessary for the palliation or management of the terminal illness and related conditions.

(2) Hospice care may be provided to a person beyond two hundred ten days if such person is recertified by a physician or hospice medical director as terminally ill in accordance with subsection (1) of this section.

(3) (a) Subject to the receipt of any necessary federal authorization, for a person who has executed the waiver described in paragraph (b) of subsection (1) of this section and who is a resident in a class I facility, as defined in section 25.5-6-201 (13), the class I facility shall bill the state department and the state department shall pay the class I facility for the room and board costs of the person.

(b) Subject to the receipt of any necessary federal authorization, the hospice care provided pursuant to this section may include room and board in a hospice inpatient facility licensed pursuant to section 25-3-101, C.R.S. The state department is authorized to establish the reimbursement rate for the costs for room and board at a licensed hospice inpatient facility for patients eligible for the routine level of hospice care.

(c) (I) If required, the state department shall seek the appropriate federal authorization, conditioned on the receipt of gifts, grants, or donations sufficient to provide for the state’s administrative costs of preparing and submitting the request, to make the payment described in paragraph (a) of this subsection (3) and to include room and board at a licensed hospice inpatient facility as described in paragraph (b) of this subsection (3). On or before January 15, 2011, the state department shall submit a brief report to the members of the health and human services committees of the senate and house of representatives, or any successor committees, on the status of any request for authorization pursuant to this subparagraph (I). If federal authorization to implement the changes described in paragraphs (a) and (b) of this subsection (3) is obtained, the state department shall request, through the state budget process, that the changes be implemented during the fiscal year following the year in which the approval is obtained.

(II) The state department is authorized to seek and accept gifts, grants, or donations from private or public sources for the purpose of providing for the administrative costs of preparing and submitting the request for federal approval for the payments described in paragraphs (a) and (b) of this subsection (3). All such private and public funds received through gifts, grants, or donations shall be transmitted to the state treasurer, who shall credit

the same to the hospice care account in the department of health care policy and financing cash fund created pursuant to section 25.5-1-109, which account is hereby created. Moneys in the account shall be subject to appropriation and shall only be used for the purposes described in this subparagraph (II).

(4) Repealed.

Source: **L. 2006:** Entire article added with relocations, p. 1868, § 7, effective July 1. **L. 2010:** IP(1) and (1)(a) amended and (4) added, (HB 10-1027), ch. 274, p. 1256, § 1, effective August 11; (3) added, (SB 10-061), ch. 247, p. 1104, § 1, effective August 11.

Editor's note: (1) This section is similar to former § 26-4-520 as it existed prior to 2006.

(2) Subsection (4)(b) provided for the repeal of subsection (4), effective the July 1 following the revisor of statutes' receipt of the required notice. (See L. 2010, p. 1256.) The revisor of statutes received the required notice on May 31, 2012.

25.5-5-305. Pediatric hospice care - legislative declaration - federal authorization - rules - fund. (1) **Legislative declaration.** (a) The general assembly finds and declares that:

(I) The death of a child has a devastating and enduring impact on the child's family;

(II) Too often, children with fatal conditions and their families fail to receive compassionate and consistent care that meets their physical, emotional, and spiritual needs;

(III) Better care is possible but current methods of organizing and financing palliative, end-of-life, and bereavement care impede the provision of services that are both more appropriate and more cost-efficient;

(IV) Current federal medicaid regulations contain inherent barriers to providing appropriate palliative and end-of-life care to pediatric patients. These barriers include requirements that preclude the pursuit of curative treatments, mandate a do-not-resuscitate order, and require physician certification that death is expected within six months.

(b) The general assembly declares that it is in the best interest of the state to investigate and implement hospice guidelines that provide appropriate, compassionate care to dying children and their families while proving to be cost-neutral or cost-saving to the state and federal medicaid programs.

(c) The general assembly further finds and declares that, while this direction immediately concerns federal approval for hospice care that recognizes the distinct circumstances of children facing life-threatening illnesses and their families, it is the intent of the general assembly that the information and data produced as a result of this act shall be used to improve the delivery of palliative and end-of-life services to persons of all ages when such improvements can be made in a manner that is cost-neutral or cost-saving to the state.

(2) **Definitions.** As used in this section, unless the context otherwise requires:

(a) "Eligible child" means a child who:

(I) Is less than nineteen years of age; and

(II) Is eligible for the state's medicaid program pursuant to section 25.5-5-101, 25.5-5-201, or 25.5-5-203;

(b) "Pediatric hospice care" means hospice care for eligible children as authorized in this section.

(3) **Pediatric hospice care.** (a) (I) The state department shall seek the appropriate federal authorization, conditioned on the receipt of gifts, grants, or donations sufficient to provide for the state's administrative costs of preparing and submitting the request, for pediatric hospice care that shall include but may not be limited to:

(A) Respite care;

(B) Expressive therapies, as defined in rule by the state board;

(C) Palliative care from the time of diagnosis of a potentially life-threatening illness; and

(D) A continuum of care through the coordination of services, which may include skilled, intermittent, and around-the-clock nursing care.

(II) The state department is authorized to seek federal approval for modifications to the provision of hospice care for adults who are eligible for the state's medicaid program.

(b) For the provision of pediatric hospice care, the state department shall seek an exemption from the following federal medicaid requirements for the eligibility of and election for hospice care:

- (I) The mandatory do-not-resuscitate order;
- (II) A physician's certification that a patient is expected to live less than six months; and
- (III) The nonallowance of curative care therapies concurrent with palliative and hospice care.

(c) In any application for federal authorization pursuant to this section, the state department shall retain bereavement services to the extent available under federal law.

(d) Pediatric hospice care, as authorized pursuant to this section, shall meet aggregate federal waiver budget neutrality requirements.

(e) The state department shall implement the provision of pediatric hospice care to the extent authorized by the federal government.

(4) **Review.** The state department shall notify the joint budget committee of the general assembly of the extent to which the state department received federal authorization for pediatric hospice care services pursuant to this section in order for the joint budget committee to review the approved budget neutrality analysis for such services prior to the state department's implementation.

(5) **Rules.** The state department shall develop the service provisions for pediatric hospice care in consultation with medical professionals who have expertise in providing end-of-life and palliative care to pediatric patients and family members who have experienced the death of a child. The state board shall adopt rules necessary to implement and administer the provisions of this section.

(6) **Fund.** The state department is authorized to seek and accept gifts, grants, or donations from private or public sources for the purpose of providing for the administrative costs of preparing and submitting the request for federal approval for the provision of pediatric hospice care. All private and public funds received through gifts, grants, or donations shall be transmitted to the state treasurer, who shall credit the same to the pediatric hospice care cash fund, which fund is hereby created and referred to in this section as the "fund". The moneys in the fund shall be subject to annual appropriation by the general assembly for preparing and submitting the request for federal approval pursuant to this section. Any moneys in the fund not expended for the purpose of this section may be invested by the state treasurer as provided by law. All interest and income derived from the investment and deposit of moneys in the fund shall be credited to the fund. Any unexpended and unencumbered moneys remaining in the fund at the end of a fiscal year shall remain in the fund and shall not be credited or transferred or revert to the general fund or another fund.

Editor's note: This section is similar to former § 26-4-533 as it existed prior to 2006.

25.5-5-306. Residential child health care - waiver - program - rules. (1) The state department, in cooperation with the department of human services, shall implement a program concerning residential child health care under this article and articles 4 and 6 of this title to provide services pursuant to article 67 of title 27, C.R.S., to medicaid-eligible children residing in residential child care facilities, as that term is defined in section 26-6-102 (8), C.R.S., to medicaid-eligible children residing in psychiatric residential treatment facilities, and children placed by the department of human services or through county departments of social services in licensed or certified out-of-home placement facilities. Children with developmental disabilities, as defined in section 27-10.5-102 (11), C.R.S., who are placed in such facilities shall meet the out-of-home placement criteria described in section 19-1-107, C.R.S., and shall be neglected or dependent as described in section 19-3-102, C.R.S. The state board shall establish the type of rehabilitative or medical assistance services to be provided under the program as described in subsection (3) of this section, to the extent such services are cost-efficient, and the recipient eligibility criteria that may include, but are not limited to, a medical necessity determination and a financial

eligibility determination. The state board shall define in rule the staff permitted to order, monitor, and assess seclusion and restraint in psychiatric residential treatment facilities, and the corresponding restrictions on the use of seclusion and restraint.

(2) The state department, in cooperation with the department of human services, may limit the number of recipients or providers participating in the program in accordance with any federal waiver obtained by the state department to implement this section.

(3) The state board, in cooperation with the department of human services, shall promulgate rules as necessary for the implementation of the program, including, but not limited to, rules regarding program services that may include rehabilitative services as appropriate to residential child health care when referred by a physician licensed pursuant to article 36 of title 12, C.R.S. a psychologist licensed pursuant to part 3 of article 43 of title 12, C.R.S., a registered professional nurse as defined in section 12-38-103 (11), C.R.S., who, by reason of postgraduate education and additional nursing preparation, has gained knowledge, judgment, and skill in psychiatric or mental health nursing, a clinical social worker licensed pursuant to part 4 of article 43 of title 12, C.R.S., a marriage and family therapist licensed pursuant to part 5 of article 43 of title 12, C.R.S., or a professional counselor licensed pursuant to part 6 of article 43 of title 12, C.R.S.; the number of recipients participating; eligibility criteria including financial eligibility criteria; reimbursement of providers; and such other rules as are necessary for the implementation and administration of the program. The county contribution established in section 26-1-122, C.R.S., for residential child care facilities may be used by the state to obtain federal financial participation under Title XIX of the social security act for any residential child health care program established pursuant to this section. The county contribution shall not be increased due to any federal financial participation received as a result of any programs established pursuant to this section. Nothing in this section shall be construed to prohibit an adjustment in the county contribution due to caseload or service cost increases. Nothing in this section shall be construed to create a county obligation to directly participate in the financing of any program established pursuant to the "Colorado Medical Assistance Act" as set forth in this article and articles 4 and 6 of this title.

(4) Services provided in a residential child care facility by a provisional licensee as defined in section 12-43-201 (7.8), C.R.S., to medicaid-eligible children shall receive medicaid reimbursement only if approved by the federal government.

Source: **L. 2006:** (1) and (3) amended and (4) added, p. 1202, § 2, effective May 26; entire article added with relocations, p. 1871, § 7, effective July 1. **L. 2008:** (3) amended, p. 1517, § 1, effective May 28. **L. 2010:** (1) amended, (SB 10-175), ch. 188, p. 801, § 69, effective April 29.

Editor's note: (1) This section is similar to former § 26-4-527 as it existed prior to 2006.

(2) (a) Amendments to section 26-4-527 (1) and (3) by House Bill 06-1395 were harmonized with subsections (1) and (3), respectively, as they appeared in Senate Bill 06-219.

(b) Subsection (4) was enacted as § 26-4-527 (6) in House Bill 06-1395 but was relocated due to its harmonization with this section as it appeared in Senate Bill 06-219.

25.5-5-307. Child mental health treatment and family support program. (1) The general assembly finds that many parents in Colorado who have experienced challenging circumstances because their children have significant mental health needs and who have attempted to care for their children or seek services on their behalf often are burdened with the excessive financial and personal costs of providing such care. Private insurance companies may not cover mental health services and rarely cover residential mental health treatment services; those that do seldom cover a sufficient percentage of the expense to make such mental health treatment a viable option for many families in need. The result is that many families do not have the ability to obtain the mental health services that they feel their children desperately need. The general assembly finds that it is in the best interests of these families and the citizens of the state to encourage the preservation of family units by making mental health treatment available to these children pursuant to article 67 of title 27, C.R.S.

(2) In order to make mental health treatment available, it is the intent of the general assembly that each medicaid-eligible child who is diagnosed as a person with a mental illness, as that term is defined in section 27-65-102 (14), C.R.S., shall receive mental health treatment, which may include in-home family mental health treatment, other family preservation services, residential treatment, or any post-residential follow-up services, that shall be paid for through federal medicaid funding.

Source: L. 2006: Entire article added with relocations, p. 1872, § 7, effective July 1; (2) amended, p. 1389, § 19, effective August 7. **L. 2010:** Entire section amended, (SB 10-175), ch. 188, p. 802, § 70, effective April 29.

Editor's note: (1) This section is similar to former § 26-4-509.5 as it existed prior to 2006.

(2) Amendments to section 26-4-509.5 (2) by House Bill 06-1277 were harmonized with subsection (2) as it appeared in Senate Bill 06-219.

25.5-5-308. Breast and cervical cancer prevention and treatment program - creation - legislative declaration - definitions - funds - repeal. (1) The general assembly hereby finds and declares that breast and cervical cancer are significant health problems for women in this state. The general assembly further finds and declares that these cancers can and should be prevented and treated whenever possible. It is therefore the intent of the general assembly to enact this section to provide for the prevention and treatment of breast and cervical cancer to women where it is not otherwise available for reasons of cost.

(2) As used in this section, unless the context otherwise requires:

(a) "Eligible person" means a person who:

(I) (A) Has been screened for breast or cervical cancer under the centers for disease control and prevention's national breast and cervical cancer early detection program established under Title XV of the federal "Public Health Service Act", 42 U.S.C. sec. 300k et seq., in accordance with the requirements of section 1504 of such act, 42 U.S.C. sec. 300n, on or after July 1, 2002, unless the centers for medicare and medicaid services approves the state department's amendment to the medical assistance plan and the state department is able to implement the breast and cervical cancer prevention and treatment program before such date, then the person must be screened on or after the implementation date of such program; or

(B) Has been screened for breast or cervical cancer by a provider who does not receive funds through the centers for disease control and prevention's national breast and cervical cancer early detection program but whose screening activities are recognized by the department of public health and environment as part of screening activities under the centers for disease control and prevention's national breast and cervical cancer early detection program. This sub-subparagraph (B) shall apply only if the state department receives authority to receive federal financial participation for such persons. The state department shall request authority for federal financial participation when the state department determines that the amount of moneys accumulated in the eligibility expansion account created in paragraph (c) of subsection (8) of this section, including any amounts pledged or promised through a gift, grant, or donation, is sufficient to sustain the projected number of additional persons who would be eligible for the program under this sub-subparagraph (B).

(II) Has been diagnosed with breast or cervical cancer and is in need of breast or cervical cancer treatment;

(III) Has not yet attained sixty-five years of age; and

(IV) Does not have any creditable coverage as defined under federal law pursuant to 42 U.S.C. sec. 300gg (c).

(b) "Qualified entity" shall be defined pursuant to 42 U.S.C. sec. 1396r-1b(b)(2).

(3) There is hereby created a breast and cervical cancer prevention and treatment program to provide medical benefits to eligible persons under this section.

(4) (a) Benefits for medical assistance to an eligible person shall be made available beginning on the day on which a determination is made that the person is eligible for

medical assistance and throughout the period in which such person meets the definition of an eligible person.

(b) Benefits for medical assistance to an eligible person shall also be available for the following period of presumptive eligibility:

(I) Such period of presumptive eligibility shall begin when a qualified entity determines that the eligible person is in need of treatment for breast or cervical cancer.

(II) Such period of presumptive eligibility shall end with the earlier of:

(A) The day on which a determination is made that the person is eligible or not eligible for medical assistance; or

(B) If the eligible person does not file a simplified application for medical assistance developed by the state department and approved by the centers for medicare and medicaid services on or before the last day of the month following the month during which the eligible person was found to be qualified for services under this section, then benefits shall end on such last day.

(5) The state department shall have the following powers and duties:

(a) To establish, operate, and monitor the breast and cervical cancer prevention and treatment program to provide medical assistance to eligible persons in accordance with the provisions of the federal "Breast and Cervical Cancer Prevention and Treatment Act of 2000", enacted October 24, 2000, Pub.L. 106-354, as amended;

(b) To amend the state's medical assistance plan to incorporate the breast and cervical cancer prevention and treatment program. The state department shall submit such proposed amendment to the centers for medicare and medicaid services regional office for approval.

(c) To accept and expend any grant or award of moneys from the federal government, any moneys appropriated by the general assembly, any moneys received through gifts, grants, or donations from nonprofit or for-profit entities, and any interest and income earned on such moneys for the purposes set forth in this section;

(d) To inform the joint budget committee of the general assembly in writing as soon as practicable about any change in the rate of federal financial participation in the program.

(6) The state board shall adopt such rules as are necessary to carry out the provisions of this section.

(7) The breast and cervical cancer prevention and treatment program shall be subject to the annual financial and compliance audit of the "Colorado Medical Assistance Act" performed by the state auditor's office and shall not be considered a tobacco settlement program for purposes of section 2-3-113, C.R.S., or section 25-1-108.5, C.R.S.

(8) (a) (I) There is hereby created in the state treasury the breast and cervical cancer prevention and treatment fund, referred to in this subsection (8) as the "fund". The fund shall consist of any moneys credited thereto pursuant to section 24-22-115 (1), C.R.S., any gifts, grants, and donations, any moneys appropriated thereto by the general assembly, and any moneys transferred from the eligibility expansion account pursuant to subparagraph (III) of paragraph (c) of this subsection (8). Except as provided for in paragraph (b) of this subsection (8), all moneys credited to the fund and all interest and income earned on the moneys in the fund shall remain in the fund for the purposes set forth in this section. Any unexpended and unencumbered moneys remaining in the fund at the end of a fiscal year shall remain in the fund and shall not be credited or transferred to the general fund or another fund. The state department is encouraged to secure private gifts, grants, and donations to fund the state costs of the breast and cervical cancer prevention and treatment program.

(II) Moneys in the fund may be used to cover the administrative costs of the department of public health and environment to recognize providers in accordance with sub-subparagraph (B) of subparagraph (I) of paragraph (a) of subsection (2) of this section as providing screening activities under the centers for disease control and prevention's national breast and cervical cancer early detection program.

(b) Until section 25.5-6-111 is repealed, the state treasurer shall transfer any interest or income earned on moneys in the fund to the coordinated care for people with disabilities fund, created in section 25.5-6-111 (4).

(c) (I) There is hereby created, as an account within the fund, the eligibility expansion account, referred to in this subsection (8) as the "account". The account shall consist of

moneys credited thereto pursuant to section 42-3-217.5 (3) (c), C.R.S., any gifts, grants, and donations, and any other moneys appropriated thereto by the general assembly. Moneys in the account shall be expended only to fund the cost to expand the eligibility criteria for participation in the breast and cervical cancer prevention and treatment program to persons described in sub-subparagraph (B) of subparagraph (I) of paragraph (a) of subsection (2) of this section who are screened for breast or cervical cancer by a provider who does not receive funds through the centers for disease control and prevention's national breast and cervical cancer early detection program established under Title XV of the federal "Public Health Service Act", 42 U.S.C. sec. 300k et seq., to provide screening activities. The state department shall not be required to track or report on the persons who become eligible for participation in the breast and cervical cancer prevention and treatment program pursuant to sub-subparagraph (B) of subparagraph (I) of paragraph (a) of subsection (2) of this section separately from those persons who are eligible for the program pursuant to sub-subparagraph (A) of subparagraph (I) of paragraph (a) of subsection (2) of this section, nor shall the state department be required to track or report separately on expenditures related to persons eligible to participate in the program pursuant to either such sub-subparagraph.

(II) Notwithstanding paragraph (b) of this subsection (8), all moneys credited to the account and all interest and income earned on the moneys in the account shall remain in the account for the purposes set forth in this paragraph (c) and shall not be credited or transferred to the general fund or any other fund except as provided in subparagraph (III) of this paragraph (c). The state department is encouraged to secure private gifts, grants, and donations to help fund the costs to expand the eligibility criteria for participation in the breast and cervical cancer prevention and treatment program as described in this paragraph (c).

(III) (A) Upon determining that the amount of moneys accumulated in the account, including any amounts pledged or promised through a gift, grant, or donation, is sufficient to sustain the projected number of additional persons who would be eligible for the program under sub-subparagraph (B) of subparagraph (I) of paragraph (a) of subsection (2) of this section, and upon obtaining authority to receive federal financial participation for persons eligible under sub-subparagraph (B) of subparagraph (I) of paragraph (a) of subsection (2) of this section, the state department shall notify the joint budget committee that the account balance is sufficient to expand eligibility for the program and shall request an appropriation for the fiscal year for which the federal authority has been granted to fund the persons eligible pursuant to sub-subparagraph (B) of subparagraph (I) of paragraph (a) of subsection (2) of this section.

(B) Once the state department has notified the joint budget committee, the staff director of the joint budget committee shall request that the state treasurer transfer the moneys in the eligibility expansion account to the breast and cervical cancer prevention and treatment fund and dissolve the account.

(C) This paragraph (c) is repealed, effective when the state treasurer transfers the balance of the eligibility expansion account to the breast and cervical cancer prevention and treatment fund and dissolves the account. The state treasurer shall notify the revisor of statutes in writing when the conditions specified in this sub-subparagraph (C) have been satisfied.

(9) (a) For the fiscal year 2005-06, the general assembly shall appropriate fifty percent of the state costs of the breast and cervical cancer prevention and treatment program from the general fund and fifty percent from the moneys credited to the breast and cervical cancer prevention and treatment fund pursuant to section 24-22-115 (1), C.R.S., to such program.

(b) For the fiscal year 2006-07, the general assembly shall appropriate seventy-five percent of the state costs of the breast and cervical cancer prevention and treatment program from the general fund and twenty-five percent from the moneys credited to the breast and cervical cancer prevention and treatment fund pursuant to section 24-22-115 (1), C.R.S., to such program.

(c) For the fiscal year 2007-08, the general assembly shall appropriate one hundred percent of the state costs of the breast and cervical cancer prevention and treatment program

from the moneys credited to the breast and cervical cancer prevention and treatment fund pursuant to section 24-22-115 (1), C.R.S., to such program.

(d) For the fiscal year 2008-09, the general assembly shall appropriate one hundred percent of the state costs of the breast and cervical cancer prevention and treatment program from the moneys credited to the breast and cervical cancer prevention and treatment fund pursuant to section 24-22-115 (1), C.R.S., to such program.

(e) For the fiscal years 2009-10 through 2011-12, the general assembly shall annually appropriate one hundred percent of the state costs of the breast and cervical cancer prevention and treatment program from the moneys credited to the breast and cervical cancer prevention and treatment fund pursuant to section 24-22-115 (1), C.R.S., to such program.

(f) For the fiscal years 2012-13 and 2013-14, the general assembly shall annually appropriate fifty percent of the state costs of the breast and cervical cancer prevention and treatment program from the general fund and fifty percent from the moneys credited to the breast and cervical cancer prevention and treatment fund pursuant to section 24-22-115 (1), C.R.S., to such program.

(10) This section is repealed, effective July 1, 2014, unless, in any fiscal year before such date, moneys received as federal financial participation provided pursuant to the federal "Breast and Cervical Cancer Prevention and Treatment Act of 2000", enacted October 24, 2000, Pub.L. 106-354, as amended, are no longer available to the fund or the rate of federal financial participation has been decreased, in which case the general assembly may repeal this section at the regular session of the general assembly immediately following such decrease or discontinuation of federal moneys.

25.5-5-309. Pregnant women - needs assessment - referral to treatment program.

(1) The health care practitioner for each pregnant woman who is enrolled or eligible for services pursuant to section 25.5-5-101 (1) (c) or 25.5-5-205 shall be encouraged to identify as soon as possible after such woman is determined to be pregnant whether such woman is at risk of a poor birth outcome due to substance abuse during the prenatal period and in need of special assistance in order to reduce such risk. If the health care practitioner makes such a determination regarding any pregnant woman, the health care practitioner shall be encouraged to refer such woman to any entity approved and licensed by the department of human services for the performance of a needs assessment. Any pregnant woman who is eligible for services pursuant to section 25.5-5-205 may refer herself for such needs assessment.

(2) For the purposes of this section, unless the context otherwise requires, a "needs assessment" means an assessment that is designed to make a determination of what services are needed by a pregnant woman to minimize the occurrence of a poor birth outcome due to substance abuse by such pregnant woman.

Editor's note: This section is similar to former § 26-4-508.2 as it existed prior to 2006.

25.5-5-310. Treatment program for high-risk pregnant women - cooperation with private entities. The state department and the departments of human services and public health and environment shall cooperate with any private entities that desire to assist such departments in the provision of services connected with the treatment program for high-risk pregnant women. Private entities may provide services that are not provided to persons pursuant to this article or article 4 or 6 of this title or article 2 of title 26, C.R.S., which may include, but shall not be limited to, needs assessment services, preventive services, rehabilitative services, care coordination, nutrition assessment, psychosocial counseling, intensive health education, home visits, transportation, development of provider training, child care, and other necessary components of residential or outpatient treatment or care.

Editor's note: This section is similar to former § 26-4-508.4 as it existed prior to 2006.

25.5-5-311. Treatment program for high-risk pregnant women - data collection. The state department, in cooperation with the department of human services, shall create a data collection mechanism regarding persons receiving services pursuant to the treatment program for high-risk pregnant women which shall include the collection of such data as such departments deem appropriate.

Source: L. 2006: Entire article added with relocations, p. 1875, § 7, effective July 1.

Editor's note: This section is similar to former § 26-4-508.5 as it existed prior to 2006.

25.5-5-312. Treatment program for high-risk pregnant women - extended coverage - federal approval. The state department shall seek federal approval to continue providing substance abuse treatment services for twelve months following a pregnancy to women who are eligible to receive services under the medical assistance program, who are receiving services pursuant to the treatment program for high-risk pregnant women, and who continue to participate in the treatment program. The state department shall implement the continued services to the extent allowed by the federal government.

25.5-5-313. Outpatient substance abuse treatment - report of state auditor - amendment to state plan - repeal. (Repealed)

Source: L. 2006: Entire article added with relocations, p. 1876, § 7, effective July 1.

Editor's note: (1) This section was similar to former § 26-4-536 as it existed prior to 2006.

(2) Subsection (3) provided for the repeal of this section, effective July 1, 2011. (See L. 2006, p. 1876.)

25.5-5-314. Substance abuse treatment for native Americans - federal approval - repeal. (1) The state department shall request federal approval, conditioned on the receipt of gifts, grants, or donations sufficient to provide for the state's administrative costs of preparing and submitting the request, to include any substance abuse treatment benefits

available to native Americans in which there is one hundred percent federal financial participation.

(2) (a) If sufficient moneys to support the cost of preparing a request for federal approval have not been credited to the native American substance abuse treatment cash fund established in section 25.5-5-315 prior to December 31, 2004, the state treasurer shall immediately provide notification of such fact to the state department and to the revisor of statutes.

(b) This section is repealed upon receipt by the revisor of statutes of the notification described in paragraph (a) of this subsection (2).

Source: L. 2006: Entire article added with relocations, p. 1876, § 7, effective July 1.

Editor's note: This section is similar to former § 26-4-422 as it existed prior to 2006.

25.5-5-315. Acceptance of gifts, grants, and donations - native American substance abuse treatment cash fund - repeal. (1) The executive director may accept and expend moneys from gifts, grants, and donations for purposes of providing for the administrative costs of preparing and submitting the request for federal approval to provide substance abuse treatment services to native Americans as provided for in section 25.5-5-314. All such gifts, grants, and donations shall be transmitted to the state treasurer who shall credit the same to the native American substance abuse treatment cash fund, which fund is hereby created. The moneys in the native American substance abuse treatment cash fund shall be subject to annual appropriation by the general assembly. All investment earnings derived from the deposit and investment of moneys in the native American substance abuse treatment cash fund shall remain in the fund and shall not be transferred or revert to the general fund of the state at the end of any fiscal year.

(2) (a) If sufficient moneys have not been credited to the native American substance abuse treatment cash fund for the purpose of preparing the request for federal approval required under section 25.5-5-314 prior to December 31, 2004, the state treasurer shall immediately provide notification of such fact to the state department and to the revisor of statutes.

(b) This section is repealed upon receipt by the revisor of statutes of the notification described in paragraph (a) of this subsection (2).

Source: L. 2006: Entire article added with relocations, p. 1876, § 7, effective July 1.

Editor's note: This section is similar to former § 26-4-423 as it existed prior to 2006.

25.5-5-316. Legislative declaration - state department - disease management programs authorization - report. (1) The general assembly finds that, because Colorado is faced with rising health care costs and limited resources, it is necessary to seek new ways to ensure the availability of high-quality, cost-efficient care for medicaid recipients. The general assembly further finds that disease management is a patient-focused, integrated approach to providing all components of care with attention to both quality of care and total cost. In addition, the general assembly finds that this approach may include coordination of physician care with pharmaceutical and institutional care. The general assembly further finds that disease management also addresses the various aspects of a disease state, including meeting the needs of persons who have multiple chronic illnesses. The general assembly declares that the improved coordination in disease management helps to provide chronically ill patients with access to the latest advances in treatment and teaches them how to be active participants in their health care through health education, thus reducing total health care costs.

(2) The state department, in consultation with the department of public health and environment, is authorized to develop and implement disease management programs, for fee-for-service and primary care physician program recipients, that are designed to address over- or under-utilization or the inappropriate use of services or prescription drugs and that

may affect the total cost of health care utilization by a particular medicaid recipient with a particular disease or combination of diseases. The disease management programs shall target medicaid recipients who are receiving prescription drugs or services in an amount that exceeds guidelines outlined by the state department. The state department shall not restrict a medicaid recipient's access to the most cost-effective and medically appropriate prescription drugs or services. The state department may contract on a contingency basis for the development or implementation of the disease management programs authorized in this subsection (2).

(3) If the state department implements any disease management programs authorized in subsection (2) of this section, the state department shall report to the joint budget committee of the general assembly an estimate of the fiscal implications generated by the implementation of the disease management programs. Such report shall be made on or before February 1 of the year following the implementation of a disease management program and on or before each February 1 thereafter in which such program is in place.

L. 2008: (2) amended, p. 800, § 2, effective May 14.

Editor's note: This section is similar to former § 26-4-408.5 as it existed prior to 2006.

25.5-5-317. Obesity treatment pilot program - development and implementation - report - repeal. (Repealed)

Source: L. 2006: Entire article added with relocations, p. 1878, § 7, effective July 1.

Editor's note: (1) This section was similar to former § 26-4-534 as it existed prior to 2006.

(2) Subsection (4) provided for the repeal of this section, effective July 1, 2010. (See L. 2006, p. 1878.)

25.5-5-318. Health services - provision by school districts - repeal. (1) As used in this section:

(a) "School district" means any board of cooperative services established pursuant to article 5 of title 22, C.R.S., any state educational institution that serves students in kindergarten through twelfth grade including, but not limited to, the Colorado school for the deaf and the blind, created in article 80 of title 22, C.R.S., and any public school district organized under the laws of Colorado, except a junior college district.

(b) "Underinsured" means a person who has some health insurance, but whose insurance does not adequately cover the types of health services for which a school district may receive federal matching funds under this section.

(2) (a) Any school district may contract with the state department under this section to receive federal matching funds for amounts spent in providing health services through the public schools to students who are receiving medicaid benefits pursuant to this article and articles 4 and 6 of this title.

(a.5) Repealed.

(b) Approval of contracts under this section does not constitute a commitment by the general assembly to continue providing health services to students through the public schools using state general funds if federal matching funds are not available in the future. Any moneys provided to a school district pursuant to a contract entered into under this section shall not supplant state or local moneys provided to school districts pursuant to the provisions of articles 20 to 28 or article 54 of title 22, C.R.S.

(c) Nothing in this section shall be construed as requiring any school district to enter into a contract as provided in this section. Participation in a contract by a school district is voluntary.

(d) The state department may make contracting and reimbursement of moneys under this section contingent upon either:

(I) The contracting school district certifying to the state department, through the department of education, that it has expended local and state moneys in an amount sufficient to meet the nonfederal share of expenditures being claimed for federal financial participation; or

(II) The contracting school district meeting the requirements of the intergovernmental transfer provisions of the federal medicaid law, 42 U.S.C. sec. 1396 et seq.

(3) Each year, by a date established by rule of the state board, the department of education shall notify the state department concerning any school district that chooses to enter into a contract as provided in this section and the anticipated level of funding for the school district. Nothing in this section shall be construed to require a school district to maintain the same level of funding or services from year to year.

(4) (a) (I) Each school district that chooses to enter into a contract as provided in this section shall develop a services plan with input from the local community that identifies the types of health services needed by students within the school district and the services it anticipates providing. Except for medical emergencies and services related to allegations of child abuse, a student's participation in any psychological, behavioral, social, or emotional services, including counseling or referrals, shall be optional and shall require the prior written and informed consent of a parent or legal guardian of the student.

(II) (A) Any health questionnaire or form related to services funded in part through this section shall only relate to the student's personal health, habits, or conduct and shall not include questions concerning the habits or conduct of any other member of the student's family.

(B) No medical or health data or information identifying the student or the student's family shall be disclosed to any person other than a person specifically authorized to receive the information or data without the prior written and informed consent of a parent or legal guardian of the student.

(b) Each school district that chooses to enter into a contract as provided in this section shall perform an assessment of the health care needs of its uninsured and underinsured students and may spend an appropriate portion, not to exceed thirty percent, of the federal moneys received on health care for low-income students. For purposes of this paragraph (b), "low-income students" means students whose families are below one hundred eighty-five percent of the federal poverty line.

(c) The school district shall submit the services plan to the department of education with a notice of participation for purposes of technical assistance evaluation and to the executive director for approval.

(5) Each year not less than ninety days prior to the notification date established pursuant to subsection (3) of this section, the state department shall provide information through the department of education to school districts regarding the amount of available moneys and the administrative activities required to enter into a contract for federal matching funds for that year. To the extent allowed by existing resources, the department of education shall provide technical assistance to school districts in determining levels of funding, meeting administrative requirements, and developing services plans.

(6) Following the notification date established pursuant to subsection (3) of this section, each contracting school district, through the department of education, shall enter into a contract with the state department specifying the health services to be provided by the school district, the amount to be expended in providing the services, and the amount of federal matching funds for which the school district is eligible under the contract.

(7) The state department is authorized to accept and expend donations, contributions, grants, including federal matching funds, and other moneys that it may receive to finance the costs associated with implementing this section.

(8) (a) Under the contract entered into pursuant to this section, a contracting school district shall receive from the state department all of the federal matching funds for which it is eligible under the contract, less the amount of state administrative costs allowed under paragraph (b) of this subsection (8). All moneys received by a school district pursuant to this section shall be used only to offset costs incurred for provision of student health services by the school district or to cash fund student health services in the school district.

(b) Total allowable state administrative costs for contracts entered into under this section for both the state department and the department of education shall not exceed ten percent of the total annual amount of federal funds reflected by the general assembly for such contracts in the annual general appropriations bill. State administrative costs include costs incurred in evaluating the implementation of this section.

(9) The state board shall specify by rule the types of health services for which a school district may receive federal matching funds under a contract created under this section, including but not limited to:

- (a) Basic primary, physical, dental, and mental health services;
- (b) Rehabilitation services;
- (c) Early and periodic screening, diagnosis, and treatment services; and
- (d) Service coordination, outreach, enrollment, and administrative support.

(10) (a) A school district that provides health services under contract pursuant to this section may provide the health services directly or through contractual relationships or agreements with public or private entities, as allowed by applicable federal regulations. However, no moneys shall be expended in any form for abortions, except as provided in section 25.5-4-415 or as required by federal law.

(b) Where possible, the school district shall coordinate the provision of health services to a student with the student's primary health care provider. Except for those services that are required by an individualized educational program developed pursuant to section 22-20-108 (4), C.R.S., or by a section 504 plan developed pursuant to the federal "Rehabilitation Act of 1973", 29 U.S.C. sec. 701 et seq., school districts shall not claim reimbursement under this section for direct services to students enrolled in health maintenance organizations that would normally be provided to students by their health maintenance organization.

(11) (a) The executive director shall apply for and secure any federal waivers and state plan amendments required to implement this section.

(b) This section shall remain in effect only for so long as federal financial participation is available for reimbursements to school districts. In the event, as specified in writing by the attorney general to the governor that federal law does not allow or is amended to disallow reimbursements to school districts or otherwise prevent the implementation of this section, this section is repealed, effective on the date of the attorney general's opinion.

(12) The state department and the department of education shall work with the office of state planning and budgeting and the joint budget committee in implementing this section.

(13) The state department and the department of education shall enter into an inter-agency agreement to provide for the implementation of this section. The state board and the state board of education are authorized to promulgate rules as may be necessary in accordance with the agreement.

(14) The state department shall annually, or more often as necessary, hold a public hearing to receive comments from school districts, state agencies, and interested persons regarding implementation of this section.

(15) On or before December 15, 2002, the state department shall submit a formal evaluation of the implementation of this section to the committees on education and the committees on health and human services of the house of representatives and the senate, or any successor committees.

Source: L. 2006: Entire article added with relocations, p. 1878, § 7, effective July 1.
L. 2009: (2)(a.5) added, (SB 09-264), ch. 204, p. 928, § 6, effective May 1. **L. 2010:** (4)(b) amended, (HB 10-1422), ch. 419, p. 2113, § 147, effective August 11.

Editor's note: (1) This section is similar to former § 26-4-531 as it existed prior to 2006.

(2) Subsection (2)(a.5)(II) provided for the repeal of subsection (2)(a.5), effective July 1, 2011. (See L. 2009, p. 928.)

25.5-5-319. Family planning pilot program - rules - federal waiver - repeal.

(1) There is hereby established a family planning pilot program for the provision of family planning services to categorically eligible individuals who are at or below a percentage of

the federal poverty line established pursuant to the federal waiver sought pursuant to subsection (2) of this section. The state board shall promulgate rules setting forth the family planning services to be provided under the family planning pilot program.

(2) The executive director of the state department, in consultation with the department of public health and environment, shall seek a federal waiver that is cost-neutral to the state general fund for the implementation of the family planning pilot program established pursuant to this section such that ten percent of the family planning services provided to low-income families pursuant to the program as described in subsection (1) of this section would be funded with state general fund moneys and ninety percent would be funded with federal matching funds. In the federal waiver, the executive director shall not seek authority to waive or disregard the provisions of 42 U.S.C. sec. 1396a (a) (23) (B).

(3) (a) Upon issuance of the federal waiver sought pursuant to subsection (2) of this section, the departments of health care policy and financing and public health and environment shall seek the necessary appropriation of general funds through the normal budgetary process for the implementation of this act.

(b) The executive director of the state department is authorized to accept and expend on behalf of the state any funds, grants, gifts, and donations from any private or public source for the purpose of implementing the family planning pilot program established in this section; except that no gift, grant, donation, or funds shall be accepted if the conditions attached thereto require the expenditure thereof in a manner contrary to law.

(4) The executive director of the state department, or such executive director's designee, shall prepare a written report for the members of the general assembly concerning the findings of the department based upon the family planning pilot program. Such report shall be provided to the members of the general assembly not more than three years after commencement of the program. The report shall address the number of individuals served, the type of services provided, the cost of the program, and such other information as the executive director deems appropriate.

(5) The implementation of this section is conditioned upon the issuance of any necessary waiver by the federal government and available appropriations pursuant to paragraph (a) of subsection (3) of this section. The provisions of this section shall be implemented to the extent authorized by federal waiver. The pilot program established by this section shall continue for five years from the receipt of the federal waiver or for so long as specified in the federal waiver. The executive director of the state department shall provide written notice to the revisor of statutes of the final termination date of the waiver, and this section shall be repealed, effective July 1 five years after the issuance of the federal waiver or July 1 in the year in which the waiver is terminated, whichever occurs first.

Source: L. 2006: Entire article added with relocations, p. 1882, § 7, effective July 1. L. 2008: (1) and (2) amended, p. 41, § 1, effective March 13. L. 2010: (1) amended, (HB 10-1422), ch. 419, p. 2113, § 148, effective August 11.

Editor's note: This section is similar to former § 26-4-414.7 as it existed prior to 2006.

25.5-5-320. Telemedicine - reimbursement - disclosure statement. (1) On or after July 1, 2006, in-person contact between a health care or mental health care provider and a patient shall not be required under the state's medical assistance program for health care or mental health care services delivered through telemedicine that are otherwise eligible for reimbursement under the program. The services shall be subject to reimbursement policies developed pursuant to the medical assistance program. This section also applies to managed care organizations that contract with the state department pursuant to the statewide managed care system only to the extent that:

(a) Health care or mental health care services delivered through telemedicine are covered by and reimbursed under the medicaid per diem payment program; and

(b) Managed care contracts with managed care organizations are amended to add coverage of health care or mental health care services delivered through telemedicine and any appropriate per diem rate adjustments are incorporated.

(2) The reimbursement rate for a telemedicine service shall, as a minimum, be set at the same rate as the medical assistance program rate for a comparable in-person service. The state department may consider setting the reimbursement rate on a monthly basis as well as on a daily or per-visit basis.

(3) The state department shall establish rates for transmission cost reimbursement for telemedicine services, considering, to the extent applicable, reductions in travel costs by health care or mental health care providers and patients to deliver or to access such services and such other factors as the state department deems relevant.

(4) A health care or mental health care provider who delivers health care or mental health care services through telemedicine shall provide to each patient, before treating that patient through telemedicine for the first time, the following written statements:

(a) That the patient retains the option to refuse the delivery of the services via telemedicine at any time without affecting the patient's right to future care or treatment and without risking the loss or withdrawal of any program benefits to which the patient would otherwise be entitled;

(b) That all applicable confidentiality protections shall apply to the services; and

(c) That the patient shall have access to all medical information resulting from the telemedicine services as provided by applicable law for patient access to his or her medical records.

(5) Subsection (4) of this section shall not apply in an emergency.

Source: L. 2006: Entire section added, p. 1548, § 5, effective July 1. L. 2008: (1), (3), IP(4), and (4)(a) amended, p. 112, § 3, effective August 5.

Editor's note: This section was enacted as § 26-4-421.5 in Senate Bill 06-165. Section 9 of the bill provided for the renumbering of that section. (See L. 2006, p. 1552.)

Cross references: For the legislative declaration contained in the 2006 act enacting this section, see section 1 of chapter 312, Session Laws of Colorado 2006.

25.5-5-321. Telemedicine - home health care - home health telemedicine cash fund - rules. (1) On or after August 11, 2010, at-home telemedicine shall be eligible for reimbursement under the state's medical assistance program. The services delivered through telemedicine shall be subject to reimbursement policies promulgated by rule of the state board after consultation with home health care and home- and community-based services providers. This section also applies to managed care organizations that contract with the state department pursuant to the statewide managed care system, but only to the extent that:

(a) Home health care or home- and community-based services delivered through telemedicine are covered by and reimbursed under the medicaid program; and

(b) Managed care contracts with managed care organizations are amended to add coverage of home health care or home- and community-based services delivered through telemedicine.

(2) The reimbursement rate for home health care or home- and community-based services delivered through telemedicine that are otherwise eligible for reimbursement under the medical assistance program shall be set by rule of the state board and shall be:

(I) In the form of a flat fee in one or more levels, depending on acuity.

(II) (Deleted by amendment, L. 2010, (HB 10-1005), ch. 345, p. 1598, § 1, effective August 11, 2010.)

(b) Any cost savings identified pursuant to this section shall be considered for use in paying for home- and community-based services under part 6 of this article, community-based long-term care, and home health services.

(c) For the first two years after August 11, 2010, gifts, grants, and donations shall be used to implement this section. Gifts, grants, and donations made for this purpose shall be transferred to the home health telemedicine cash fund, which is hereby created in the state treasury. Moneys in the home health telemedicine cash fund shall be appropriated to the state board and used to implement this section. Moneys in the fund shall remain in the fund

and not be transferred to the general fund at the end of any fiscal year. After two years or if the moneys in the cash fund are depleted, the department is authorized to go through the normal budget process to continue implementation of this section.

(3) Reimbursement shall not be provided for purchase or lease of telemedicine equipment.

(4) (a) A home health care or home- and community-based services provider who delivers services through telemedicine shall provide to each patient, before treating that patient through telemedicine for the first time, the following written statements:

(I) That the patient retains the option to refuse the delivery of home health care or home- and community-based services via telemedicine at any time without affecting the patient's right to future care or treatment and without risking the loss or withdrawal of any program benefits to which the patient would otherwise be entitled;

(II) That all applicable confidentiality protections shall apply to the services; and

(III) That the patient shall have access to all medical information resulting from the telemedicine services as provided by applicable law for patient access to his or her medical records.

(b) The provisions of paragraph (a) of this subsection (4) shall not apply in an emergency.

(5) Nothing in this section shall be construed to:

(a) Alter the scope of practice of any home health care or home- and community-based services provider; or

(b) Authorize the delivery of home health care or home- and community-based services in a setting or manner not otherwise authorized by law.

Source: L. 2007: Entire section added, p. 1182, § 2, effective January 1, 2008. **L. 2010:** (1), (2), and (3) amended, (HB 10-1005), ch. 345, p. 1598, § 1, effective August 11.

25.5-5-322. Over-the-counter medications - rules. (1) (a) Subject to approval through the state budget process in paragraph (b) of this subsection (1), the state board shall adopt by rule a system to allow pharmacies to be reimbursed for providing certain over-the-counter medications to recipients if prescribed by a licensed practitioner authorized to prescribe prescription drugs or, subject to the limitations contained in subsection (2) of this section, a licensed pharmacist. Over-the-counter medications subject to reimbursement pursuant to this section shall be identified through the drug utilization review process established in section 25.5-5-506, and shall be limited to medications that, if reimbursed, shall result in overall cost savings to the state.

(b) After the list of over-the-counter medications is identified pursuant to paragraph (a) of this subsection (1), the state department shall request, through the state budget process, that the reimbursements be implemented. The state department shall report to the joint budget committee annually concerning the amount of any savings realized from the reimbursements.

(2) (a) The state board, in consultation with the state board of pharmacy created pursuant to section 12-42.5-103, C.R.S., shall establish by rule standards for when a licensed pharmacist may prescribe over-the-counter medications as provided under this section for purposes of receiving reimbursement under the medical assistance program.

(b) When prescribing over-the-counter medications under this section, a licensed pharmacist shall consult with the recipient to determine necessity, provide drug counseling, review drug therapy for potential adverse interactions, and make referrals as needed to other health care professionals.

PART 4

STATEWIDE MANAGED CARE SYSTEM

25.5-5-401. Short title. This part 4 shall be known and may be cited as the "Statewide Managed Care System".

Source: L. 2006: Entire article added with relocations, p. 1883, § 7, effective July 1.

Editor's note: This section is similar to former § 26-4-111 as it existed prior to 2006.

25.5-5-402. Statewide managed care system. (1) The state board shall adopt rules to implement a managed care system for Colorado medical assistance clients pursuant to the provisions of this article and articles 4 and 6 of this title. The statewide managed care system shall be implemented to the extent possible.

(2) The managed care system implemented pursuant to this article shall not include:

(a) The services delivered under the residential child health care program described in section 25.5-5-306, except in those counties in which there is a written agreement between the county department of social services, the designated and contracted behavioral health organization selected pursuant to section 25.5-5-411, and the state department;

(b) Long-term care services and the program of all-inclusive care for the elderly, as described in section 25.5-5-412. For purposes of this subsection (2), "long-term care services" means nursing facilities and home- and community-based services provided to eligible clients who have been determined to be in need of such services pursuant to the "Colorado Medical Assistance Act" and the state board's rules.

(3) **Bidding.** The state department is authorized to institute a program for competitive bidding pursuant to section 24-103-202 or 24-103-203, C.R.S., for managed care entities seeking to provide medical services for medicaid clients eligible to be enrolled in managed care. The state department is authorized to award contracts to more than one offeror. The state department procedures shall seek to use competitive bidding procedures to maximize the number of managed care choices available to medicaid clients over the long term that meet the requirements of sections 25.5-5-404 and 25.5-5-406.

(4) **Waivers.** The implementation of this part 4 is conditioned, to the extent applicable, on the issuance of necessary waivers by the federal government. The provisions of this part 4 shall be implemented to the extent authorized by federal waiver, if so required by federal law.

(5) **Graduate medical education.** The state department shall continue the graduate medical education, referred to in this subsection (5) as "GME", funding to teaching hospitals that have graduate medical education expenses in their medicare cost report and are participating as providers under one or more MCEs with a contract with the state department under this part 4. GME funding for recipients enrolled in an MCE shall be excluded from the premiums paid to the MCE and shall be paid directly to the teaching hospital. The state board shall adopt rules to implement this subsection (5) and establish the rate and method of reimbursement.

(6) (a) For requests for proposals occurring on and after January 1, 2015, the state department shall allow for payment proposals that include, but need not be limited to, global payment, risk adjustment, risk sharing, and aligned payment incentives, including, but not limited to, gainsharing, for health benefits and services provided to medical assistance clients pursuant to sections 25.5-5-404 (1) (k) and (1) (l), 25.5-5-406 (2), and paragraph (b) of subsection (2) of this section.

(b) The state department shall have the discretion to determine which proposals satisfy the request for proposal, including:

(I) Whether the proposals are appropriate for the state's coordinated care system; and

(II) The state department's ability to ensure inpatient and outpatient hospital reimbursements are maximized up to the upper limits, as defined in 42 CFR 447.272 and 42 CFR 447.321 and calculated by the state department periodically.

(c) The state department may seek any federal waiver necessary to ensure that the effect of the request for proposals does not adversely impact upper payment limits and considerations shall include, but are not limited to, the establishment of an uncompensated care cost pool or a hospital incentive program.

Source: L. 2006: Entire article added with relocations, p. 1883, § 7, effective July 1. L. 2008: (3) and (5) amended, p. 390, § 1, effective August 5. L. 2012: (6) added, (HB 12-1281), ch. 246, p. 1187, § 3, effective June 4.

Editor's note: This section is similar to former § 26-4-113 as it existed prior to 2006.

25.5-5-403. Definitions. As used in this part 4, unless the context otherwise requires:

(1) “Behavioral health organization”, referred to in this part 4 as a “BHO”, means an entity contracting with the state department to provide only behavioral health services.

(2) “Essential community provider”, referred to in this part 4 as an “ECP”, means a health care provider that:

(a) Has historically served medically needy or medically indigent patients and that demonstrates a commitment to serve low-income and medically indigent populations who comprise a significant portion of its patient population or, in the case of a sole community provider, serves the medically indigent patients within its medical capability; and

(b) Waives charges or charges for services on a sliding scale based on income and does not restrict access or services because of a client’s financial limitations.

(2.5) “Global payment” means a population-based payment mechanism that is constructed on a per-member, per-month calculation. Global payments shall account for prospective local community or health system cost trends and value, as measured by quality and satisfaction metrics, and shall incorporate community cost experience and reported encounter data to the greatest extent possible to address regional variation and improve longitudinal performance. Risk adjustments, risk-sharing, and aligned payment incentives may be utilized to achieve performance improvement. The rate calculations for global payment are exempt from the provisions of section 25.5-5-408. An entity that uses global payment pursuant to section 25.5-5-404 shall meet the applicable financial solvency requirements of section 25.5-5-404 (1) (k) and (1) (l), and the essential community provider requirements of section 25.5-5-404 (2) and (3).

(3) (a) “Managed care” means:

(I) A predefined set of services to recipients delivered by a managed care entity as defined in subsection (4) of this section; or

(II) The delivery of services provided by the primary care physician program established in section 25.5-5-407, which is a primary care case manager as defined in subsection (8) of this section.

(III) (Deleted by amendment, L. 2008, p. 390, § 2, effective August 5, 2008.)

(b) Nothing in this section shall be deemed to affect the benefits authorized for recipients of the state medical assistance program.

(4) “Managed care entity”, referred to in this part 4 as an “MCE”, means an entity that enters into a contract to provide services in a managed care system, including managed care organizations, prepaid inpatient health plans, and prepaid ambulatory health plans but excluding primary care case managers, as defined in subsection (8) of this section.

(5) “Managed care organization”, referred to in this part 4 as an “MCO”, means an entity contracting with the state department that meets the definition of managed care organization as defined in 42 CFR 438.2.

(6) “Prepaid ambulatory health plan”, referred to in this part 4 as a “PAHP”, means an entity contracting with the state department that meets the definition of prepaid ambulatory health plan as defined in 42 CFR 438.2.

(7) “Prepaid inpatient health plan”, referred to in this part 4 as “PIHP”, means an entity contracting with the state department that meets the definition of prepaid inpatient health plan as defined in 42 CFR 438.2.

(8) “Primary care case manager”, referred to in this part 4 as a “PCCM”, means an entity contracting with the state department that meets the definition of primary care case manager as defined in 42 CFR 438.2.

Editor’s note: This section is similar to former § 26-4-114 as it existed prior to 2006.

25.5-5-404. Selection of managed care entities. (1) In addition to any other criteria specified in rule by the state board, in order to participate in the managed care system, the MCE shall comply with specific criteria that include, but are not limited to, the following:

(a) The MCE shall not interfere with appropriate medical care decisions rendered by the provider nor penalize the provider for requesting medical services outside the standard treatment protocols developed by the MCE or its contractors.

(b) The MCE shall make or ensure payments to providers within the time allowed for the state to make payments on state liabilities under the rules adopted by the department of personnel pursuant to section 24-30-202 (13), C.R.S.

(c) The MCE shall have an educational component in its plan that takes into consideration recipient input and that informs recipients as to availability and use of the medical services system, appropriate preventive health care procedures, self-care, and appropriate health care utilization.

(d) The MCE shall provide the minimum benefit requirements as established by the state board.

(e) The MCE shall provide necessary and appropriate services to recipients that shall include but not be limited to the following:

(I) With respect to recipients who are unable to make decisions for themselves, the MCE and all relevant providers in the MCE's network serving the recipients shall collaborate with the designated advocate or family member in all decision-making, including enrollment and disenrollment.

(II) The MCE shall deliver services that are covered benefits in a manner that accommodates or is compatible with the recipient's ability to fulfill duties and responsibilities in work and community activities.

(f) The MCE shall provide appropriate use of ancillary health care providers by appropriate qualified health care professionals.

(g) The MCE shall comply with all data collection and reporting requirements established by the state department.

(h) The MCE shall, to the extent provided by law or waiver, provide recipient benefits that the state board shall develop and the state department shall implement in partnership with local government and the private sector, including but not limited to:

(I) Recipient options to rent, purchase, or own durable medical equipment; or

(II) (Deleted by amendment, L. 2008, p. 392, § 3, effective August 5, 2008.)

(III) Receipt of medical disposable supplies without charge.

(i) The MCE shall comply with utilization requirements established by the state department.

(j) The MCE shall develop and utilize a form or process for measuring group and individual recipient health outcomes, including but not limited to the use of tools or methods that identify increased health status or maintenance of the individual's highest level of functioning, determine the degree of medical access, and reveal recipient satisfaction and habits. Such tools shall include the use of client surveys, anecdotal information, complaint and grievance data, and disenrollment information. The MCE shall annually submit a care management report to the state department that describes techniques used by the MCE to provide more efficient use of health care services, better health status for populations served, and better health outcomes for individuals.

(k) Except as provided in paragraph (m) of this subsection (1), for capitation payments effective on and after July 1, 2003, an MCE that is contracting for a defined scope of services under a risk contract shall certify the financial stability of the MCE pursuant to criteria established by the division of insurance and shall certify, as a condition of entering into a contract with the state department, that the capitation payments set forth in the contract between the MCE and the state department are sufficient to ensure the financial stability of the MCE with respect to delivery of services to the medicaid recipients covered in the contract.

(l) Except as provided in paragraph (m) of this subsection (1), for capitation payments effective on and after July 1, 2003, an MCE that is contracting for a defined scope of services under a risk contract shall certify, through a qualified actuary retained by the MCE, that the capitation payments set forth in the contract between the MCE and the state department comply with all applicable federal and state requirements that govern said capitation payments. For purposes of this paragraph (l), a "qualified actuary" means a person deemed as such by rule promulgated by the commissioner of insurance.

(m) An MCO providing services under the PACE program as described in section 25.5-5-412 shall certify that the capitation payments are in compliance with applicable federal and state requirements that govern said capitation payments and that the capitation payments are sufficient to ensure the financial viability of the MCO with respect to the delivery of services to the PACE program participants covered in the contract.

(n) The MCE shall ensure, to the extent that voluntary enrollment into the MCE is possible, that the MCE has not provided to a recipient any premiums or other inducements in exchange for the recipient selecting the MCE for coverage.

(o) The MCE has established a grievance procedure pursuant to the provisions in section 25.5-5-406 (1) (b) that allows for the timely resolution of disputes regarding the quality of care, services to be provided, and other issues raised by the recipient. Matters shall be resolved in a manner consistent with the medical needs of the individual recipient. The MCE shall notify all recipients involved in a dispute with the MCE of their right to seek an administrative review of an adverse decision made by the MCE pursuant to section 25.5-1-107.

(p) With respect to pregnant women and infants, the MCE shall comply with the following:

(I) With the exception of BHOs, enrollment of pregnant women without restrictions and including an assurance that the health care provider shall provide timely access to initiation of prenatal care in accordance with practice standards;

(II) With the exception of BHOs, coverage without restrictions for newborns, including all services such as, but not limited to, preventive care, screening, and well-baby examinations during the first month of life;

(III) With the exception of BHOs, the imposition of performance standards and the use of quality indicators with respect to perinatal, prenatal, and postpartum care for women and birthing and neonatal care for infants. The standards and indicators shall be based on nationally approved guidelines.

(IV) With the exception of BHOs, follow-up basic health maintenance services for women and children, including immunizations and early periodic screening, diagnosis, and treatment services for children and appropriate preventive care services for women.

(q) The MCE shall accept all enrollees regardless of health status.

(r) The MCE shall comply with disclosure requirements as established by the state department and the state board.

(s) The MCE shall provide a mechanism whereby a prescribing physician can request to override restrictions to obtain medically necessary, off-formulary prescription drugs, supplies, equipment, or services for his or her patient.

(t) The MCE shall maintain a network of providers sufficient to ensure that all services to recipients will be accessible without unreasonable delay. The state department shall develop explicit contract standards, in consultation with stakeholders, to assess and monitor the MCE's criteria. Sufficiency shall be determined in accordance with the requirements of this paragraph (t) and may be established by reference to any reasonable criteria used by the MCE, including but not limited to the following:

(I) Geographic accessibility in regard to the special needs of recipients;

(II) Waiting times for appointments with participating providers;

(III) Hours of operation;

(IV) Volume of technological and specialty services available to serve the needs of recipients requiring technologically advanced or specialty care.

(u) (I) For the delivery of prescription drug benefits to recipients enrolled in an MCE who are residents of a nursing facility, MCEs that provide prescription drug benefit services shall use pharmacies with a demonstrated capability of providing prescription drugs in a manner consistent with the needs of clients in institutional settings such as nursing facilities. In cases where a nursing facility and a pharmacy have a contract for a single pharmacy delivery system for residents of the nursing facility:

(A) An MCE providing prescription drug benefits for residents of the nursing facility shall agree to contract with that pharmacy under reasonable contract terms; and

(B) The pharmacy shall agree to contract with each MCE that provides prescription drug benefits for residents of the nursing facility under reasonable contract terms.

(II) Any disputes concerning providing prescription drug benefits between nursing facilities, pharmacies, and MCEs that cannot be resolved through good faith negotiations may be resolved through a party requesting an informal review by the state department.

(III) The state board shall adopt rules requiring MCEs that provide prescription drug benefit services to contract with qualified pharmacy providers in a manner permitting a nursing facility to continue to comply with federal medicaid requirements of participation for nursing facilities. Such rules shall define “qualified pharmacy providers” and shall be based upon consultations with nursing facilities, MCEs, pharmacies, and medicaid clients. The state department shall provide MCEs with a list of pharmacies that have a contract with nursing facilities serving recipients in nursing facilities in each county in which the MCE is contracting with the state department.

(2) The MCE shall seek proposals from each ECP in a county in which the MCE is enrolling recipients for those services that the MCE provides or intends to provide and that an ECP provides or is capable of providing. To assist MCEs in seeking proposals, the state department shall provide MCEs with a list of ECPs in each county. The MCE shall consider such proposals in good faith and shall, when deemed reasonable by the MCE based on the needs of its enrollees, contract with ECPs. Each ECP shall be willing to negotiate on reasonably equitable terms with each MCE. ECPs making proposals under this subsection (2) must be able to meet the contractual requirements of the MCE. The requirements of this subsection (2) shall not apply to an MCE in areas in which the MCE operates entirely as a group model health maintenance organization.

(3) In selecting MCEs, the state department shall not penalize an MCE for paying cost-based reimbursement to federally qualified health centers as defined in the “Social Security Act”.

(4) (a) Notwithstanding any waivers authorized by the federal department of health and human services, or any successor agency, each contract between the state department and an MCE selected to participate in the statewide managed care system under this part 4 shall comply with the requirements of 42 U.S.C. sec. 1396a (a) (23) (B).

(b) Each MCE shall advise its enrollees of the services available pursuant to this subsection (4).

(5) Nothing in this part 4 shall be construed to create an exemption from the applicable provisions of title 10, C.R.S.

(6) Nothing in this part 4 shall be construed to create an entitlement to an MCE to contract with the state department.

L. 2008: Entire section amended, p. 392, § 3, effective August 5.

Editor’s note: This section is similar to former § 26-4-115 as it existed prior to 2006.

Cross references: For the definition of “federally qualified health centers” in the federal Social Security Act, see 42 U.S.C. 1395x.

25.5-5-405. Quality measurements. (1) The state department shall measure quality pursuant to the following criteria:

(a) Quality shall be measured and considered based upon individuals and groups with the satisfaction of the service received analyzed and compared to nonrecipient populations for the same or similar services when available.

(b) Quality shall focus on health status or maintenance of the individual’s highest level of functioning, without strict adherence to statistical norms.

(2) The state board shall promulgate rules to clarify and administer quality measurements.

Source: L. 2006: Entire article added with relocations, p. 1889, § 7, effective July 1.

Editor’s note: This section is similar to former § 26-4-116 as it existed prior to 2006.

25.5-5-406. Required features of managed care system. (1) **General features.** All medicaid managed care programs shall contain the following general features, in addition to others that the state department and the state board consider necessary for the effective and cost-efficient operation of those programs:

(a) **Recipient selection of MCEs.** (I) The state department shall, to the extent it determines feasible, provide medicaid-eligible recipients a choice among competing MCEs. MCEs shall provide enrollees a choice among providers within the MCE. Consistent with federal requirements and rules promulgated by the state board, the state department is authorized to assign a medicaid recipient to a particular MCE or PCCM if:

(A) The state department determines that no other MCE or PCCM has the capacity or expertise necessary to serve the recipient; or

(B) A recipient does not respond within thirty days after the date of a notification of a request for selection of an MCE or PCCM.

(II) The state department shall inform recipients of the choices available in their area by appropriate sources of information and counseling. This may include an independent, objective facilitator acting under the supervision of the state department. The state department may contract for the facilitator through a competitive bidding process. This function shall ensure that consumers have informed choice among available options to assure the fullest possible voluntary participation in managed care. The state department, in conjunction with the state board, shall adopt rules setting forth minimum disclosure requirements for all MCEs and PCCMs. Once a recipient is enrolled in an MCE or PCCM, the recipient may not change to a different MCE or PCCM for a period of twelve months; except that the recipient may disenroll without good cause during the first ninety days of enrollment or any time thereafter for good cause as determined by the state department. Good cause shall include, but need not be limited to, administrative error and an MCE's or PCCM's inability to provide its covered services to a recipient after reasonable efforts on the part of the MCE or PCCM and the recipient, as defined by the state board. Based upon its assessment of any special needs of recipients with cognitive disabilities, the state board may adopt rules relating to any necessary good cause provisions for recipients with cognitive disabilities who are assigned to a particular MCE or PCCM pursuant to subparagraph (I) of this paragraph (a).

(III) When eligible consumers choose to change or disenroll from their selected MCE or PCCM, the state department shall monitor and gather data about the reasons for disenrolling, including denial of enrollment or disenrollment due to an act or omission of an MCE or PCCM. The state department shall analyze this data and provide feedback to the plans or providers and shall use the information in the state department's contracting and quality assurance efforts. Persons who have been denied enrollment or have disenrolled due to an act or omission of an MCE or PCCM may seek review by an independent hearing officer, as provided for and required under federal law and any state statute or rule.

(b) **Complaints and grievances.** Each MCE or PCCM shall utilize a complaint and grievance procedure and a process for expedited reviews that comply with rules established by the state board. The complaint and grievance procedure shall provide a means by which enrollees may complain about or grieve any action or failure to act that impacts an enrollee's access to, satisfaction with, or the quality of health care services, treatments, or providers. The state department shall establish the position of ombudsman for medicaid managed care. It is the intent of the general assembly that the ombudsman for medicaid managed care be independent from the state department and selected through a competitive bidding process. In the event the state department is unable to contract with an independent ombudsman, an employee of the state department may serve as the ombudsman for medicaid managed care. The ombudsman shall, if the enrollee requests, act as the enrollee's representative in resolving complaints and grievances with the MCE or PCCM. The process for expedited reviews shall provide a means by which an enrollee may complain and seek resolution concerning any action or failure to act in an emergency situation that immediately impacts the enrollee's access to quality health care services, treatments, or providers. An enrollee shall be entitled to designate a representative, including but not limited to an attorney, the ombudsman for medicaid managed care, a lay advocate, or the enrollee's physician, to file and pursue a grievance or expedited review on behalf of the enrollee. The

procedure shall allow for the unencumbered participation of physicians. An enrollee whose complaint or grievance is not resolved to his or her satisfaction by a procedure described in this paragraph (b) or who chooses to forego a procedure described in this paragraph (b) shall be entitled to request a second-level review by an independent hearing officer, further judicial review, or both, as provided for by federal law and any state statute or rule. The state department may also provide by rule for arbitration as an optional alternative to the complaint and grievance procedure set forth in this paragraph (b) to the extent that such rules do not violate any other state or federal statutory or constitutional requirements.

(c) **Billing medicaid recipients.** Notwithstanding any federal regulations or the general prohibition of section 25.5-4-301 against providers billing medicaid recipients, a provider may bill a medicaid recipient who is enrolled with a specific medicaid PCCM or MCE and, in circumstances defined by the rules of the state board, receives care from a medical provider outside that organization's network or without referral by the recipient's PCCM.

(d) **Marketing.** In marketing coverage to medicaid recipients, all MCEs shall comply with all applicable provisions of title 10, C.R.S., regarding health plan marketing. The state board is authorized to promulgate rules concerning the permissible marketing of medicaid managed care. The purposes of such rules shall include but not be limited to the avoidance of biased selection among the choices available to medicaid recipients.

(e) **Prescription drugs.** All MCEs that have prescription drugs as a covered benefit shall provide prescription drug coverage in accordance with the provisions of section 25.5-5-202 (1) (a) as part of a comprehensive health benefit and with respect to any formulary or other access restrictions:

(I) The MCE shall supply participating providers who may prescribe prescription drugs for MCE enrollees with a current copy of such formulary or other access restrictions, including information about coverage, payment, or any requirement for prior authorization; and

(II) The MCE shall provide to all medicaid recipients at periodic intervals, and prior to and during enrollment upon request, clear and concise information about the prescription drug program in language understandable to the medicaid recipients, including information about such formulary or other access restrictions and procedures for gaining access to prescription drugs, including off-formulary products.

(f) **Access to prescription drugs.** (I) The state department shall encourage an MCE to solicit competitive bids for the prescription drug benefit and discourage an MCE that has prescription drugs as a covered benefit from contracting for the prescription drug benefit with a sole source provider as much as possible. The state department's reports required by section 25.5-5-410 shall include a summary of each MCE's pharmacy network by geographic catchment area.

(II) If an MCE solicits competitive bids for the prescription drug benefit, the MCE shall request bids from each pharmacy provider located in the geographic areas in which the MCE is soliciting bids. All MCEs shall follow a reasonable standard for recipient access to prescription drugs. At a minimum, the state department shall verify compliance with these requirements by reviewing evidence provided by the commissioner of insurance concerning compliance with any standards or guidance established by the commissioner of insurance for consumer access to prescription drugs.

(III) The standards and guidance from the insurance commissioner shall be based on the following:

(A) Procedures that an MCE shall follow to ensure that pharmacies in rural communities with fewer than twenty-five thousand persons have the opportunity to join retail prescription drug networks if they agree to reasonable contract terms;

(B) Procedures that an MCE shall follow to notify the pharmacy community of competitively bid prescription drug contracts;

(C) Procedures that an MCE shall follow to give all pharmacies and pharmacy networks a fair opportunity to participate in prescription drug contracts;

(D) Any related matters that are designed to expand consumer access to pharmacy services; and

(E) Any related matters that will enhance the functioning of the free market system with respect to pharmacies.

(IV) Nothing in this paragraph (f) shall apply to the delivery of prescription drug benefits to recipients enrolled in an MCE who are residents of a nursing facility or to the delivery of medicare part D prescription drugs to recipients who are eligible for such drugs.

(g) **Continuity of care.** (I) New enrollees, with special needs as defined by the state board and as certified by a non-plan physician, may continue to see a non-plan provider for sixty days from the date of enrollment in an MCE, if the enrollee is in an ongoing course of treatment with the previous provider and only if the previous provider agrees:

(A) To accept reimbursement from the MCE as payment in full at rates established by the MCE that shall be no more than the level of reimbursement applicable to similar providers within the MCE's group or network for such services;

(B) To adhere to the MCE's quality assurance requirements and to provide to the MCE necessary medical information related to such care; and

(C) To otherwise adhere to the MCE's policies and procedures including but not limited to procedures regarding referrals, obtaining pre-authorizations, and MCE-approved treatment plans.

(II) New enrollees who are in their second or third trimester of pregnancy may continue to see their practitioner until the completion of postpartum care directly related to the delivery only if the practitioner agrees:

(A) To accept reimbursement from the MCE as payment in full at rates established by the MCE that shall be no more than the level of reimbursement applicable to similar providers within the MCE's group or network for such services;

(B) To adhere to the MCE's quality assurance requirements and to provide to the MCE necessary medical information related to such care; and

(C) To otherwise adhere to the MCE's policies and procedures including but not limited to procedures regarding referrals, obtaining pre-authorizations, and MCE-approved treatment plans.

(III) New enrollees with special needs as defined by the state department may continue to see ancillary providers at the level of care received prior to enrollment for a period of up to seventy-five days. The terms and conditions, including reimbursement rates, shall remain the same as prior to enrollment if the provider and enrollee agree to work in good faith with the MCE toward a transition.

(IV) This paragraph (g) shall not be construed to require an MCE to provide coverage for benefits not otherwise covered.

(2) (a) After January 1, 2015, the state department shall open for competitive bid the state department's medicaid coordinated care system within regions of the state. Before issuing a request for proposal, the state department shall analyze the regions of the state to determine the appropriate number of care coordination regions that should be created. Further, before issuing a request for proposal, the state department shall also analyze the appropriate number of care coordination contracts in each region of the state.

(b) Nothing in this subsection (2) shall delay the implementation of the medicaid payment reform and innovation pilot program created in section 25.5-5-415.

Source: L. 2006: Entire article added with relocations, p. 1889, § 7, effective July 1. **L. 2008:** Entire section amended, p. 396, § 4, effective August 5. **L. 2012:** (2) amended, (HB 12-1281), ch. 246, p. 1187, § 5, effective June 4.

Editor's note: This section is similar to former § 26-4-117 as it existed prior to 2006.

25.5-5-407. State department recommendations - primary care physician program. (1) The primary care physician program requires medicaid recipients to select a primary care physician who is solely authorized to provide primary care and referral to all necessary specialty services. To encourage low-cost and accessible care, the state department is authorized to utilize the primary care physician program to deliver services to appropriate medicaid recipients.

(2) The state department shall establish procedures and criteria for the cost-effective operation of the primary care physician program, including but not limited to such matters as appropriate eligibility criteria and geographic areas served by the programs.

Source: L. 2006: Entire article added with relocations, p. 1893, § 7, effective July 1.

Editor's note: This section is similar to former § 26-4-118 as it existed prior to 2006.

25.5-5-407.5. Prepaid inpatient health plan agreements - rules. (1) Subject to the receipt of any required federal authorizations, pursuant to the requirements of this section, the state department may enter into prepaid inpatient health plan agreements, referred to in this section as a "PIHP agreement", with an entity that:

(a) Provides medical services to enrollees on the basis of prepaid capitation payments, or other payment arrangements that do not use payment rates contained in the state plan; and

(b) Provides, arranges for, or otherwise has responsibility for the provision of any inpatient hospital or institutional services for its enrollees.

(1.5) Repealed.

(2) (a) A PIHP agreement may include a provision for a quality incentive payment that is distributed to the contractor within six months following the end of each fiscal year if the contractor substantially exceeds predetermined quality indicators. The quality indicators shall be based upon broadly accepted measures of performance adopted by rule of the state board and agreed upon at the outset of the contract period, and shall include, but need not be limited to, the health plan employers data and information set measures. The quality incentive payment may be made proportional if the state board establishes multiple quality measurements. The quality incentive payments shall not exceed the total cost savings created under the PIHP agreement, as determined by comparison of the PIHP members with an actuarially equivalent fee-for-service population, and the quality incentive payment shall not exceed five percent of the total medicaid payments received by the contractor during the performance period of the PIHP agreement.

(b) (I) Except as provided for in subparagraph (II) of this paragraph (b), the contractor shall distribute at least seventy-five percent of the incentive payment to providers with which it has contracted to serve medicaid recipients.

(II) Subparagraph (I) of this paragraph (b) shall not apply to a contractor that has an exclusive contract with a single medical group in a specific geographic area to provide or arrange for health care services for its members, such as a multi-specialty group model. Such a contractor shall negotiate the distribution of the qualified incentive payment with the medical group.

(3) Subject to the approval of the state board, a PIHP agreement may also provide for an increase in the fee paid to the contractor in an amount reasonably calculated to cover the costs of collecting and maintaining the medical records of recipients through an electronic medical records system.

(4) Nothing in this section shall prevent, to the extent possible, a government-owned entity from using certified public expenditure or other federally recognized financing mechanisms to provide the state share for the federal match to enhance capitation payments up to or above the one hundred percent limit contained in section 25.5-5-408 (9). The state shall not be obligated to increase any general fund expenditures because of the use of certified public expenditure or other federally recognized financing mechanism pursuant to this subsection (4).

Source: L. 2007: Entire section added, p. 1351, § 1, effective May 29. **L. 2009:** (1.5) added, (SB 09-265), ch. 205, p. 936, § 3, effective May 1. **L. 2010:** (1.5) repealed, (HB 10-1382), ch. 217, p. 939, § 2, effective May 6.

25.5-5-407.7. Disability care coordination organization - rules. Subject to the receipt of any required federal authorizations, the state department may enter into an agreement for the provision of care to recipients with a disability with a disability care coordination organization identified as the nonprofit organization in section 25.5-6-111.

Source: L. 2007: Entire section added, p. 1352, § 1, effective May 29. **L. 2008:** Entire section amended, p. 1909, § 109, effective August 5.

25.5-5-408. Capitation payments - availability of base data - adjustments - rate calculation - capitation payment proposal - preference - assignment of medicaid recipients. (1) (a) (I) The state department shall make capitation payments to MCEs based upon a defined scope of services under a risk contract.

(II) Repealed.

(b) A certification by a qualified actuary retained by the state department shall be conclusive evidence that the state department has correctly calculated the direct health care cost of providing these same services on an actuarially equivalent Colorado medicaid population group consisting of unassigned recipients and recipients in the primary care physician program provided in section 25.5-5-407.

(c) Except as otherwise provided in paragraph (d) of this subsection (1) and where the state department has instituted a program of competitive bidding provided in section 25.5-5-402 (3), the state department may utilize a market rate set through the competitive bid process for a set of defined services. The state department shall only use market rate bids that do not discriminate and are adequate to assure quality and network sufficiency. A certification of a qualified actuary, retained by the state department, to the appropriate lower limit shall be conclusive evidence of the state department's compliance with the requirements of this paragraph (c). For the purposes of this subsection (1), a "qualified actuary" shall be a person deemed as such under rules promulgated by the commissioner of insurance.

(d) A federally qualified health center, as defined in the federal "Social Security Act", shall be reimbursed by the state department for the total reasonable costs incurred by the center in providing health care services to all recipients of medical assistance.

(2) The state department shall develop capitation rates for MCEs contracting for a defined scope of services under a risk contract that include risk adjustments, reinsurance, or stop-loss funding methods. Payments to plans may vary when it is shown through diagnoses or other relevant data that certain populations are expected to cost more or less than the capitated population as a whole.

(3) The state board, in consultation with recognized medical authorities, shall develop a definition of special needs populations that includes evidence of diagnosed or medically confirmed health conditions. The state department shall develop a method for adjusting payments to plans for such special needs populations when diagnoses or other relevant data indicates these special needs populations would cost significantly more than similarly capitated populations.

(4) Under no circumstances shall the risk adjustments, reinsurance, or stop-loss methods developed by the state department pursuant to subsection (2) of this section cause the average per capita medicaid payment to a plan to be greater than the projected medicaid expenditures for treating medicaid enrollees of that plan under fee-for-service medicaid.

(5) The state department may develop quality incentive payments to recognize superior quality of care or service provided by a managed care plan.

(6) Within thirty days from the beginning of each fiscal year, the state department, in cooperation with the MCEs, shall set a timeline for the rate-setting process for the following fiscal year's rates and for the provision of base data to the MCEs that is used in the calculation of the rates, which shall include but not be limited to the information included in subsection (7) of this section.

(7) The state department shall identify and make available to the MCEs the base data used in the calculation of the direct health care cost of providing these same services on an actuarially equivalent Colorado medicaid population group consisting of unassigned recipients and recipients in the primary care physician program provided in section 25.5-5-407. The state department shall consult with the MCEs regarding any and all adjustments in the base data made to arrive at the capitation payments.

(8) For capitation payments effective on and after July 1, 2003, the state department shall recalculate the base calculation every three years. The three-year cycle for the recalculation of the base calculation shall begin with capitation payments effective for fiscal year 2003-04. In the years in which the base calculation is not recalculated, the state department shall annually trend the base calculation after consulting with the MCEs. The

state department shall take into consideration when trending the base calculation any public policy changes that affect reimbursement under the "Colorado Medical Assistance Act".

(9) The rate-setting process referenced in subsection (6) of this section shall include a time period after the MCEs have received the direct health care cost of providing these same services on an actuarially equivalent Colorado medicaid population group consisting of unassigned recipients and recipients in the primary care physician program provided in section 25.5-5-407, for each MCE to submit to the state department the MCE's capitation payment proposal, which shall not exceed one hundred percent of the direct health care cost of providing these same services on an actuarially equivalent Colorado medicaid population group consisting of unassigned recipients and recipients in the primary care physician program provided in section 25.5-5-407. The state department shall provide to the MCEs the MCE's specific adjustments to be included in the calculation of the MCE's proposal. Each MCE's capitation payment proposal shall meet the requirements of section 25.5-5-404 (1) (k) and (1) (l).

(10) For capitation payments effective on and after July 1, 2003, unless otherwise required by federal law, the state department shall certify, through a qualified actuary retained by the state department, that the capitation payments set forth in the contract between the state department and the MCEs comply with all applicable federal and state requirements that govern said capitation payments.

(11) Effective on and after July 1, 2003, the capitation payments certified by the qualified actuary under subsection (10) of this section shall not be subject to any dispute resolution process, including any such process set forth in any settlement agreement entered into prior to July 1, 2002.

(12) Nothing in this section shall prevent, to the extent possible, an MCE that is also a government-owned entity from using certified public expenditure or other federally recognized financing mechanisms to provide the state share for the federal match to enhance capitation payments up to or above the one hundred percent limit contained in subsection (9) of this section. The state shall not be obligated to increase any general fund expenditures because of the use of certified public expenditure or other federally recognized financing mechanism pursuant to this subsection (12).

Source: L. 2006: Entire article added with relocations, p. 1893, § 7, effective July 1. **L. 2007:** (1)(b) and (9) amended and (12) added, p. 1354, § 4, effective May 29. **L. 2008:** (1)(a), (2), (6), (7), (8), (9), (10), and (12) amended, p. 400, § 5, effective August 5. **L. 2009:** (1)(a) amended, (SB 09-265), ch. 205, p. 936, § 4, effective May 1. **L. 2010:** (1)(a)(II) repealed, (HB 10-1382), ch. 217, p. 939, § 3, effective May 6.

Editor's note: This section is similar to former § 26-4-119 as it existed prior to 2006.

25.5-5-409. State department - privatization. (1) The general assembly finds that the statewide managed care system is a program under which the private sector has a great deal of experience in making various health care plans available to the private sector and serving as the liaison between large employers and health care providers, including but not limited to health maintenance organizations. The general assembly therefore determines that a statewide managed care system involves duties similar to duties currently or previously performed by state employees but is different in scope and policy objectives from the state medical assistance program.

(2) To that end, pursuant to section 24-50-504 (2) (a), C.R.S., the state department shall enter into personal services contracts that create an independent contractor relationship for the administration of not less than twenty percent of the statewide managed care system. The state department shall enter into personal service contracts for the administration of the managed care system according to the implementation of the statewide managed care system in accordance with section 25.5-5-402.

(3) The implementation of this section is contingent upon:

(a) Legislative review of the cost-effectiveness of privatization and the extent to which such privatization enhances the quality of care to recipients; and

(b) A finding by the state personnel director that any of the conditions of section 24-50-504 (2), C.R.S., have been met or that the conditions of section 24-50-503 (1), C.R.S., have been met.

Source: L. 2006: Entire article added with relocations, p. 1896, § 7, effective July 1.

Editor's note: This section is similar to former § 26-4-120 as it existed prior to 2006.

25.5-5-410. Data collection for managed care programs - reports. (1) In addition to any other data collection or reporting requirements set forth in this article and articles 4 and 6 of this title, the state department shall access and compile data concerning health data and outcomes. In addition, no later than July 1, 1998, the state department shall conduct or shall contract with an independent evaluator to conduct a quality assurance analysis of each managed care program in the state for medical assistance recipients. No later than July 1, 1999, and each fiscal year thereafter, the state department, using the compiled data and results from the quality assurance analysis, shall submit a report to the house and senate committees on health and human services, or any successor committees, on the cost-efficiency of each managed care program or component thereof, with recommendations concerning statewide implementation of the respective programs or components. For the purposes of this subsection (1), "quality assurance" means costs weighed against benefits provided to consumers, health outcomes or maintenance of the individual's highest level of functioning, and the overall change in the health status of the population served. The state department's report shall address capitation, including methods for adjusting rates based on risk allocations, fees-for-services, copayments, chronically ill populations, long-term care, community-supported services, and the entitlement status of medical assistance. The state department's report shall include a comparison of the effectiveness of the MCE program and the PCCM program based upon common performance standards that shall include but not be limited to recipient satisfaction.

(2) In addition, the state department of human services, in conjunction with the state department, shall continue its existing efforts, which include obtaining and considering consumer input, to develop managed care systems for the developmentally disabled population and to consider a pilot program for a certificate system to enable the developmentally disabled population to purchase managed care services or fee-for-service care, including long-term care community services. The department of human services shall not implement any managed care system for developmentally disabled services without the express approval of the joint budget committee. Any proposed implementation of fully capitated managed care in the developmental disabilities community service system shall require legislative review.

(3) In addition to any other data collection and reporting requirements, each managed care organization shall submit the following types of data to the state department or its agent:

- (a) Medical access;
- (b) Consumer outcomes based on statistics maintained on individual consumers as well as the total consumer populations served;
- (c) Consumer satisfaction;
- (d) Consumer utilization;
- (e) Health status of consumers; and
- (f) Uncompensated care delivered.

L. 2008: (1) amended, p. 402, § 6, effective August 5.

Editor's note: This section is similar to former § 26-4-121 as it existed prior to 2006.

25.5-5-411. Medicaid community mental health services - legislative declaration - administration - rules. (1) The general assembly hereby finds, determines, and declares that:

(a) There is an urgent need to address the economic, social, and personal costs to the state of Colorado and its citizens of untreated mental health and substance use disorders;

(b) Behavioral health disorders, including mental health and substance use disorders, are treatable conditions not unlike other chronic health issues that require a combination of behavioral change and medication or other treatment. When individuals receive appropriate prevention, early intervention, treatment, and recovery services, they can live full, productive lives.

(c) Untreated behavioral health disorders place individuals at high risk for poor health outcomes and significantly affect virtually all aspects of local and state government by reducing family stability, student achievement, workforce productivity, and public safety;

(d) Currently, there is no single behavioral health care system in Colorado. Instead, consumers of all ages with behavioral health disorders receive services from a number of different systems, including the health care, behavioral health care, child welfare, juvenile and criminal justice, education, and higher education systems.

(e) Adult and youth consumers and their families need quality behavioral health care that is individualized and coordinated to meet their changing needs through a comprehensive and integrated system;

(f) Timely access through multiple points of entry to a full continuum of culturally responsive services, including prevention, early intervention, crisis response, treatment, and recovery, is necessary for an effective integrated system;

(g) Evidence-based and promising practices result in favorable outcomes for Colorado's adult and youth consumers, their families, and the communities in which they live;

(h) Lack of public awareness regarding behavioral health issues creates a need for public education that emphasizes the importance of behavioral health as part of overall health and wellness and creates the desire to invest in and support an integrated behavioral health system in Colorado;

(i) To reduce the economic and social costs of untreated behavioral health disorders, Colorado needs a systemic transformation of the behavioral health system through which transformation the state strives to achieve critical goals to address mental health and substance use disorders; and

(j) The overarching goal of this behavioral health system transformation shall be to make the behavioral health system's administrative processes, service delivery, and funding more effective and efficient to improve outcomes for Colorado citizens.

(2) The general assembly further finds and declares that, to improve the quality of life for the citizens of Colorado, strengthen the economy, and continue the responsible management of the state's resources, the leadership of the three branches of Colorado's state government and the stakeholders most affected by mental health and substance use disorders must collaborate to build on the progress of past efforts and to sustain a focus on the improvement of behavioral health services.

(3) Except as provided for in subsection (6) of this section, the state department shall administer all medicaid community mental health services for medical assistance recipients including but not limited to the prepaid capitated single entry point system for mental health services, the fee-for-service mental health services, and alternatives to institutionalization. The administration of medicaid community mental health services shall include but shall not be limited to program approval, program monitoring, and data collection.

(4) (a) The requirements of section 25.5-5-408 shall not apply to the capitated rate calculation process for medicaid community mental health services; except that each medicaid community mental health services MCO shall be subject to the requirements of section 25.5-5-404 (1) (k) and (1) (l).

(b) The state department shall establish cost-effective, capitated rates for community mental health services in a manner that includes cost containment mechanisms. These cost containment mechanisms may include, but are not limited to, restricting average per member per month utilization growth, restricting unit cost growth, limiting allowable

administrative cost, establishing minimum medical loss ratios, or establishing other cost containment mechanisms that the state department determines appropriate.

(c) Repealed.

(5) The state department is authorized to seek federal approval for any necessary changes to the state's waiver that authorizes the statewide system of community mental health care to reflect the provisions of this section. The state department is authorized to limit a recipient's freedom of choice with respect to a provider of mental health services and to restrict reimbursements for mental health services to designated and contracted agencies in such waiver.

(6) The administration of the mental health institutes shall remain the responsibility of the department of human services.

(7) On and after April 6, 2004, all positions of employment in the department of human services concerning the powers, duties, and functions of administering all medicaid community mental health services for medical assistance recipients transferred to the state department pursuant to this section and determined to be necessary to carry out the purposes of this section by the executive director of the state department shall be transferred to the state department and shall become employment positions therein.

(8) On and after April 6, 2004, all items of property, real and personal, including office furniture and fixtures, computers and software, books, documents, and records of the department of human services pertaining to the duties and functions of administering all medicaid community mental health services for medical assistance recipients are transferred to the state department and shall become the property thereof.

(9) On and after April 6, 2004, for state fiscal year 2003-04, the state department may bill the department of human services medicaid-funded programs division appropriation within the state department's appropriation for the provision of medicaid community mental health services as authorized in this section.

(10) On or before July 1, 2004, the state department and the department of human services shall jointly produce a document to assist mental health consumers and advocates and providers that participate in Colorado's publicly funded mental health system to understand the respective roles of each department in the provision of mental health services and each department's ability to provide high quality and accessible mental health services. The state department and the department of human services shall make the document available to the public and shall send at least one copy to each community mental health center, statewide mental health advocacy organization, and mental health assessment and services agency. The information contained in the document shall be made available on each department's internet web site. The state department and the department of human services are encouraged to consult with representatives of mental health consumer and provider organizations in the development of the document to ensure that it benefits consumers seeking mental health services and consumers who need to express concerns or complaints regarding the quality, availability, or accessibility of mental health services.

(11) When the state auditor conducts an audit of the statewide mental health system, the state auditor shall evaluate the coordination of services between the state department and the department of human services and the impact of the administration of the mental health system on the quality of care within the statewide mental health system.

(12) The state board shall adopt any rules necessary for the implementation of this section. In adopting rules concerning medicaid community mental health services, the state board shall consider the effect the rules may have on the statewide mental health system.

Source: L. 2006: Entire article added with relocations, p. 1897, § 7, effective July 1. L. 2007: (3) amended, p. 331, § 1, effective August 3. L. 2008: (1.5) added, p. 289, § 1, effective April 3. L. 2009: (1.5)(c) added, (SB 09-265), ch. 205, p. 936, § 5, effective May 1. L. 2010: (1.5)(c) repealed, (HB 10-1382), ch. 217, p. 940, § 4, effective May 6; entire section amended, (SB 10-153), ch. 295, p. 1372, § 3, effective May 26.

Editor's note: (1) This section is similar to former § 26-4-123 as it existed prior to 2006.

(2) Subsection (4)(c) was numbered as subsection (1.5)(c) in House Bill 10-1382 (see L. 2010, p. 940). That provision was harmonized with subsection (4)(c) as it appears in Senate Bill 10-153.

25.5-5-412. Program of all-inclusive care for the elderly - legislative declaration - services - eligibility - rules. (1) (a) The general assembly hereby finds and declares that it is the intent of this section to replicate the ON LOK program in San Francisco, California, that has proven to be cost-effective at both the state and federal levels. The PACE program is part of a national replication project authorized in section 9412(b)(2) of the federal "Omnibus Budget Reconciliation Act of 1986", as amended, which instructs the secretary of the federal department of health and human services to grant medicare and medicaid waivers to permit not more than ten public or nonprofit private community-based organizations in the country to provide comprehensive health care services on a capitated basis to frail elderly who are at risk of institutionalization. The general assembly finds that, by coordinating an extensive array of medical and nonmedical services, the needs of the participants will be met primarily in an outpatient environment in an adult day health center, in their homes, or in an institutional setting. The general assembly finds that such a service delivery system will enhance the quality of life for the participant and offers the potential to reduce and cap the costs to Colorado of the medical needs of the participants, including hospital and nursing home admissions.

(b) The general assembly finds and declares that the success of the current provider in providing a service delivery system has enhanced the quality of life for many participants in the PACE program and, therefore, the state should develop additional PACE program sites. The general assembly finds that section 4802 of the federal "Balanced Budget Act of 1997", as amended, allows the state to develop additional PACE program sites. The general assembly further finds that new PACE program sites should be developed using the program developed by the current provider as a model. The general assembly also finds that the state should capitalize on the success, experience, and quality of care of such provider in operating the PACE model by utilizing the provider's technical assistance capabilities. Additionally, the general assembly finds that it is necessary to provide technical assistance to new PACE program sites to ensure consistent quality of services and ultimate success. The general assembly, therefore, encourages the state department to seek grants and donations from national PACE organizations that have received funding to assist states in PACE expansion initiatives and to secure funding to dedicate a full-time staff person to the implementation of this PACE expansion.

(2) The general assembly has determined on the recommendation of the state department that the PACE program is cost-effective. As a result of such determination and after consultation with the joint budget committee of the general assembly, application has been made to and waivers have been obtained from the federal health care financing administration to implement the PACE program as provided in this section. The general assembly, therefore, authorizes the state department to implement the PACE program in accordance with this section. In connection with the implementation of the program, the state department shall:

(a) Provide a system for reimbursement for services to the PACE program pursuant to this section;

(b) Develop and implement a contract with any nonprofit organization providing the PACE program that sets forth contractual obligations for the PACE program, including but not limited to reporting and monitoring of utilization of services and of the costs of the program as required by the state department;

(c) Acknowledge that it is participating in the national PACE project as initiated by congress;

(d) Be responsible for certifying the eligibility for services of all PACE program participants.

(3) The general assembly declares that the purpose of this section is to provide services that would foster the following goals:

(a) To maintain eligible persons at home as an alternative to long-term institutionalization;

(b) To provide optimum accessibility to various important social and health resources that are available to assist eligible persons in maintaining independent living;

(c) To provide that eligible persons who are frail elderly but who have the capacity to remain in an independent living situation have access to the appropriate social and health services without which independent living would not be possible;

(d) To coordinate, integrate, and link such social and health services by removing obstacles that impede or limit improvements in delivery of these services;

(e) To provide the most efficient and effective use of capitated funds in the delivery of such social and health services;

(f) To assure that capitation payments amount to no more than ninety-five percent of the amount paid under the medicaid fee-for-service structure for an actuarially similar population.

(4) Within the context of the PACE program, the state department may include any or all of the services listed in sections 25.5-5-102, 25.5-5-103, 25.5-5-202, and 25.5-5-203, as applicable.

(5) An eligible person may elect to receive services from the PACE program as described in subsection (4) of this section. If such an election is made, the eligible person shall not remain eligible for services or payment through the regular medicare or medicaid programs. All services provided by said programs shall be provided through the PACE program in accordance with this section. An eligible person may elect to disenroll from the PACE program at any time.

(6) The state department, in cooperation with the single entry point agencies established in section 25.5-6-106, shall develop and implement a coordinated plan to provide education about PACE program site operations under this section. The state board shall adopt rules:

(a) To ensure that case managers and any other appropriate state department staff discuss the option and potential benefits of participating in the PACE program with all eligible long-term care clients. These rules shall require additional and on-going training of the single entry point agency case managers in counties where a PACE program is operating. This training shall be provided by a federally approved PACE provider. In addition, each single entry point agency may designate case managers who have knowledge about the PACE program; and

(b) To allow PACE providers to contract with an enrollment broker to include the PACE program in its marketing materials to eligible long-term clients.

(6.5) An eligible person who is enrolled in a managed care organization, an organization contracted with the state department pursuant to part 4 of article 5 of this title, or other risk-bearing entity may elect to withdraw from or terminate such enrollment and enroll in and receive services through a PACE program. The state board's rules shall define how such election is made. The effective date of an eligible person's election shall not be more than thirty days after the eligible person's date of election.

(7) For purposes of this section:

(a) "Dually eligible person" means a person who is eligible for assistance or benefits under both medicaid and medicare.

(b) "Eligible person" means a frail elderly individual who voluntarily enrolls in the PACE program and whose gross income does not exceed three hundred percent of the current federal supplemental security income benefit level, whose resources do not exceed the limit established by the state department of human services for individuals receiving a mandatory minimum state supplementation of SSI benefits pursuant to section 26-2-204, C.R.S., or in the case of a person who is married, do not exceed the amount authorized in section 25.5-6-101, and for whom a physician licensed pursuant to article 36 of title 12, C.R.S., certifies that such a program provides an appropriate alternative to institutionalized care. "Eligible person" may also include a dually eligible person.

(c) "Frail elderly" means an individual who meets functional eligibility requirements, as established by the state department, for nursing home care and who is fifty-five years of age or older.

(8) Using a risk-based financing model, any nonprofit organization providing the PACE program shall assume responsibility for all costs generated by PACE program participants, and shall create and maintain a risk reserve fund that will cover any cost overages for any participant. The PACE program is responsible for the entire range of services in the consolidated service model, including hospital and nursing home care, according to participant need as determined by the multidisciplinary team. Any nonprofit organization providing the PACE program is responsible for the full financial risk at the conclusion of the demonstration period and when permanent waivers from the federal health care

financing administration are granted. Specific arrangements of the risk-based financing model shall be adopted and negotiated by the federal health care financing administration, any nonprofit organization providing the PACE program, and the state department.

(9) Nothing in this section requires a PACE program site operator to hold a certificate of authority as a health maintenance organization under part 4 of article 16 of title 10, C.R.S., for purposes of the PACE program.

(10) (a) The state department shall perform a feasibility study, conditioned on the receipt of sufficient gifts, grants, and donations, in order to identify viable communities that may support a PACE program site. This study shall be completed on or before May 1, 2003.

(b) The state department, consistent with the results of the feasibility study, shall use its best efforts to have in operation:

(I) One additional PACE program site by July 1, 2004;

(II) A total of four additional PACE program sites by July 1, 2005; and

(III) A total of six additional PACE program sites by July 1, 2006.

(c) (I) No later than May 30, 2003, the executive director of the state department shall submit to the joint budget committee of the general assembly and to the health and human services committees of the house of representatives and the senate, or any successor committees, a written report of the results of the feasibility study conducted under paragraph (a) of this subsection (10).

(II) No later than January 1, 2007, the executive director of the state department shall submit to the joint budget committee of the general assembly and to the health and human services committees of the house of representatives and the senate, or any successor committees, a final written report detailing the expansion of PACE program sites across the state.

(11) The state board shall promulgate such rules, pursuant to article 4 of title 24, C.R.S., as are necessary to implement this section.

(12) (a) The general assembly shall make appropriations to the state department to fund services under this section provided at a monthly capitated rate. The state department shall annually renegotiate a monthly capitated rate for the contracted services.

(b) Repealed.

(13) The state department may accept grants and donations from private sources for the purpose of implementing this section.

Editor's note: This section is similar to former § 26-4-124 as it existed prior to 2006.

Cross references: For the federal laws creating the Program of All-Inclusive Care for the Elderly (PACE), see section 9412 (b) (2) of the "Omnibus Budget Reconciliation Act of 1986", Pub.L. 99-509, and section 4802 of the federal "Balanced Budget Act of 1997", Pub.L. 105-33, codified at 42 U.S.C. secs. 1395 and 1396.

25.5-5-413. Direct contracting with providers - legislative declaration. (1) The general assembly hereby finds, determines, and declares that costs associated with providing medical assistance to recipients have increased substantially due in part to increased costs of health care services and higher utilization rates. These cost pressures have been most dramatically demonstrated in the southern area of the state. Therefore, the general assembly finds, determines, and declares that pilot programs should be created to evaluate whether a provider may contract directly with the state department for the provision of services to recipients.

(2) The state department is authorized to contract directly with any provider who is able to demonstrate compliance with state laws and rules pertaining to risk-bearing entities to provide a capitated-risk program on a per member per month basis. The provider shall

not serve more than two thousand five hundred recipients. The provider shall accept full risk for each participant, except for transplants or out-of-area services.

(3) The state department is authorized to contract directly with any provider who is able to provide a cost-effective and quality health care system through a capitated partial risk program on a per member per month basis or through any other financial arrangement with the department where the provider manages the health care available to the recipients and shares with the state department the savings associated with management of such health care.

(4) **Selection of the provider.** The state department shall select any provider who:

(a) Is able to provide evidence of a successful history of risk management for recipients;

(b) Initiates direct contracting with the state department; and

(c) Is able to demonstrate compliance with state laws and rules pertaining to risk-bearing entities.

Source: L. 2006: Entire article added with relocations, p. 1902, § 7, effective July 1.

Editor's note: This section is similar to former § 26-4-127 as it existed prior to 2006.

25.5-5-414. Telemedicine - legislative intent. (1) It is the intent of the general assembly to recognize the practice of telemedicine as a legitimate means by which an individual may receive medical services from a health care provider without person-to-person contact with a provider.

(2) For the purposes of this section, "telemedicine" shall have the same meaning as set forth in section 12-36-106 (1) (g), C.R.S.

(3) On or after January 1, 2002, face-to-face contact between a health care provider and a patient shall not be required under the managed care system created in this part 4 for services appropriately provided through telemedicine, subject to reimbursement policies developed by the state department to compensate providers who provide health care services covered by the program created in section 25.5-4-104. Telemedicine services may only be used in areas of the state where the technology necessary for the provision of telemedicine exists. The audio and visual telemedicine system used shall, at a minimum, have the capability to meet the procedural definition of the most recent edition of the current procedural terminology that represents the service provided through telemedicine. The telecommunications equipment shall be of a level of quality to adequately complete all necessary components to document the level of service for the current procedural terminology fourth edition codes that are billed. If a peripheral diagnostic scope is required to assess the patient, it shall provide adequate resolution or audio quality for decision-making.

(4) The state department shall report to the health and human services committees of the house of representatives and the senate, or any successor committees, no later than January 1, 2006, on the application of telemedicine to provide home health care; emergency care; critical and intensive care, including, but not limited to, neonatal care; psychiatric evaluation; psychotherapy; and medical management as potential managed care system benefits. Such report shall take into account the availability of technology as of the time of the report to use telemedicine for home health care, emergency care, and critical and intensive care and the availability of broadband access within the state.

(5) The managed care system shall not be required to pay for consultation provided by a provider by telephone or facsimile machines.

(6) The state department may accept and expend gifts, grants, and donations from any source to conduct the valuation of the cost-effectiveness and quality of health care provided through telemedicine by those providers who are reimbursed for telemedicine services by the managed care system.

(7) Nothing in this section shall be construed to:

(a) Alter the scope of practice of any health care provider; or

(b) Authorize the delivery of health care services in a setting or manner not otherwise authorized by law.

Source: **L. 2006:** Entire article added with relocations, p. 1903, § 7, effective July 1; (3) amended and (7) added, p. 1547, § 4, effective July 1.

Editor's note: (1) This section is similar to former § 26-4-421 as it existed prior to 2006.

(2) (a) Amendments to section 26-4-421 (3) by Senate Bill 06-165 were harmonized with subsection (3) as it appeared in Senate Bill 06-219.

(b) Subsection (7) was enacted as 26-4-421 (7) in Senate Bill 06-165 but was relocated due to its harmonization with this section as it appeared in Senate Bill 06-219.

Cross references: For the legislative declaration contained in the 2006 act amending subsection (3) and enacting subsection (7), see section 1 of chapter 312, Session Laws of Colorado 2006.

25.5-5-415. Medicaid payment reform and innovation pilot program - legislative declaration - creation - selection of payment projects - report - rules. (1) (a) The general assembly finds that:

(I) Increasing health care costs in Colorado's medicaid program creates challenges for the state's budget. Further, the increasing health care costs do not necessarily reflect improvements in either health outcomes for patients or in patient satisfaction with the care received;

(II) Moreover, the fee-for-service payment model may not support or align financially with evolving care coordination and delivery systems;

(III) The reform of medicaid payment policies offers a significant opportunity for the state to contain costs and improve quality;

(IV) New payment methodologies, including global payments, have been developed to respond to rising costs and the complexities of health care delivery. Opportunities now exist to explore, test, and implement such payment reforms in the medicaid program.

(V) The state department should explore how these new payment methodologies may result in improved health outcomes and patient satisfaction and support the financial sustainability of the medicaid program.

(b) Therefore, the general assembly declares that Colorado should build upon ongoing reforms of health care delivery in the medicaid program by implementing a pilot program within the structure of the state department's current medicaid coordinated care system that encourages the use of new and innovative payment methodologies, including global payments.

(2) (a) There is hereby created the medicaid payment reform and innovation pilot program for purposes of fostering the use of innovative payment methodologies in the medicaid program that are designed to provide greater value while ensuring good health outcomes and client satisfaction.

(b) (I) The state department shall create a process for interested contractors of the state department's current medicaid coordinated care system to submit payment projects for consideration under the pilot program. Payment projects submitted pursuant to the pilot program may include, but need not be limited to, global payments, risk adjustment, risk sharing, and aligned payment incentives, including, but not limited to, gainsharing, to achieve improved quality and to control costs.

(II) The design of the payment project or projects shall address the client population of the state department's current medicaid coordinated care system and be tailored to the region's health care needs and the resources of the state department's current medicaid coordinated care system.

(III) A contractor of the state department's current medicaid coordinated care system shall work in coordination with the providers and managed care entities contracted with the contractor of the state department's current medicaid coordinated care system in developing the payment project or projects.

(c) (I) On or before July 1, 2013, the state department shall complete its review of payment projects and shall select payment projects to be included in the pilot program.

(II) For purposes of selecting payment projects for the pilot program, the state department shall consider, at a minimum:

(A) The likely effect of the payment project on quality measures, health outcomes, and client satisfaction;

(B) The potential of the payment project to reduce the state's medicaid expenditures;

(C) The state department's ability to ensure that inpatient and outpatient hospital reimbursements are maximized up to the upper payment limits, as defined in 42 CFR 447.272 and 42 CFR 447.321 and calculated by the state department periodically;

(D) The client population served by the state department's current medicaid coordinated care system and the particular health needs of the region;

(E) The business structure or structures likely to foster cooperation, coordination, and alignment and the ability of the contractor of the state department's current medicaid coordinated care system to implement the payment project, including the resources available to the contractor of the state department's current medicaid coordinated care system and the technological infrastructure required; and

(F) The ability of the contractor of the state department's current medicaid coordinated care system to coordinate among providers of physical health care, behavioral health care, oral health care, and the system of long-term care services and supports.

(III) For payment projects not selected by the state department, the state department shall respond to the contractor of the state department's current medicaid coordinated care system, in writing, on or before July 1, 2013, stating the reason or reasons why the payment project was not selected. The state department shall send a copy of the response to the joint budget committee of the general assembly, the health and human services committee of the senate, or any successor committee, and the health and environment committee of the house of representatives, or any successor committee.

(d) (I) The payment projects selected for the program shall be for a period of at least two years, but shall not extend beyond June 30, 2016. The provider contract shall specify the payment methodology utilized in the payment project.

(II) The requirements of section 25.5-5-408 do not apply to the rate-calculation process for payments made to MCEs pursuant to this section.

(III) MCEs participating in the pilot program are subject to the requirements of section 25.5-5-404 (1) (k) and (1) (l), as applicable.

(IV) Payments made to MCEs under the pilot program shall account for prospective, local community or health system cost trends and values, as measured by quality and satisfaction measures, and shall incorporate community cost experience and reported encounter data to the extent possible to address regional variation and improve longitudinal performance.

(V) Notwithstanding any provisions of this section or state board rules to the contrary, it is the intent of the general assembly that total payments, adjustments, and incentives will be budget-neutral with respect to state expenditures. The state department shall not enter into a contract with a provider pursuant to this section if the state department estimates that total payments to the provider will be greater than without the contract.

(3) Pilot program participants shall provide data and information to the state department and any designated evaluator concerning health outcomes, cost, provider participation and satisfaction, client satisfaction, and any other data and information necessary to evaluate the efficacy of the payment methodology.

(4) (a) The state department shall submit a report to the joint budget committee of the general assembly, the health and human services committee of the senate, or any successor committee, and the health and environment committee of the house of representatives, or any successor committee, as follows:

(I) On or before February 1, 2013, concerning the design and implementation of the pilot program, including a description of any payment projects received by the state department and the time frame for implementation;

(II) On or before September 15, 2014, concerning the pilot program as implemented, including but not limited to an analysis of the initial data and information concerning the utilization of the payment methodology, quality measures, and the impact of the payment methodology on health outcomes, cost, provider participation and satisfaction, and patient satisfaction; and

(III) On or before September 15, 2015, and each September 15 that the program is being implemented, concerning the program as implemented, including but not limited to an analysis of the data and information concerning the utilization of the payment method-

ology, including an assessment of how the payment methodology drives provider performance and participation and the impact of the payment methodology on quality measures, health outcomes, cost, provider satisfaction, and patient satisfaction, comparing those outcomes across all patients utilizing existing state department data.

(b) For purposes of evaluating the pilot program and payment methodologies, the state department may collaborate with a nonprofit entity or an institution of higher education to analyze and verify data and information received from pilot participants and to evaluate quality measures and the cost effectiveness of the payment reforms.

(5) The state department shall seek any federal authorization necessary to implement the pilot program.

(6) The state department may promulgate any rules necessary to implement the pilot program.

Source: L. 2012: Entire section added, (HB 12-1281), ch. 246, p. 1182, § 2, effective June 4.

25.5-5-416. Report concerning efficient contracting in managed care - legislative declaration - repeal. (1) The general assembly finds and declares that the state department administers a wide variety of contracts that are authorized pursuant to this part 4. Each contract requires a separate administrative infrastructure and the commitment of state department resources. Streamlining and simplifying the administrative structure may make the state department more efficient and allow the state department to focus more resources on improving value in health care.

(2) On or before January 1, 2013, the state department shall report to the joint budget committee of the general assembly, the health and human services committee of the senate, or any successor committee, and the health and environment committee of the house of representatives, or any successor committee, concerning:

(a) An assessment of the policy goal and efficacy of each type of contract administered pursuant to this part 4;

(b) A comparison of the policy goal with the relative amount of administrative cost necessary to appropriately manage each program; and

(c) Recommendations to the general assembly for statutory or other changes necessary to streamline and simplify contracts authorized pursuant to this part 4.

(3) This section is repealed, effective July 1, 2013.

Source: L. 2012: Entire section added, (HB 12-1281), ch. 246, p. 1186, § 2, effective June 4.

PART 5

PRESCRIPTION DRUGS

25.5-5-500.3. Authorization to bill third party. As a condition of doing business in the state, each provider is deemed to authorize the state department, or an independent contractor retained by the state department, to bill a third party, as defined in section 25.5-4-209 (2) (g) (II), on behalf of the provider if the third party is determined to be liable to pay for care pursuant to sections 25.5-4-209 and 25.5-4-300.4.

Source: L. 2010: Entire section added, (SB 10-167), ch. 296, p. 1379, § 9, effective May 26.

Cross references: For the legislative declaration stating the purpose of and the provision directing legislative staff agencies to conduct a post-enactment review pursuant to § 2-2-1201 scheduled in 2015, see sections 1 and 17 of chapter 296, Session Laws of Colorado 2010. To obtain a copy of the review, once completed, view Colorado Legislative Council's web site.

25.5-5-501. Providers - drug reimbursement. (1) (a) As to drugs for which payment is made, the state board's rules for the payment therefor shall include the requirement that the generic equivalent of a brand-name drug be prescribed if the generic equivalent is a therapeutic equivalent to the brand-name drug, except when reimbursement to the state for a brand-name drug makes the brand-name drug less expensive than the cost of the generic equivalent. The state department shall grant an exception to this requirement if the patient has been stabilized on a medication and the treating physician, or a pharmacist with the concurrence of the treating physician, is of the opinion that a transition to the generic equivalent of the brand-name drug would be unacceptably disruptive. The requirements of this subsection (1) shall not apply to medications for the treatment of biologically based mental illness, as defined in section 10-16-104 (5.5), C.R.S., the treatment of cancer, the treatment of epilepsy, or the treatment of human immunodeficiency virus and acquired immune deficiency syndrome.

(b) The provisions of this subsection (1) shall apply to fee-for-service and primary care physician program recipients.

(2) It is the general assembly's intent that requiring the use of a generic equivalent of a brand-name drug will produce savings within the state's medicaid program. The state department, therefore, is authorized to use savings in the medical services premiums appropriations to fund the administrative review process required by subsection (1) of this section.

Source: L. 2006: Entire article added with relocations, p. 1904, § 7, effective July 1.

Editor's note: This section is similar to former § 26-4-406 as it existed prior to 2006.

25.5-5-502. Unused medications - reuse - rules. (1) As used in this section, unless the context otherwise requires, "medication" means prescription medication that is not a controlled substance.

(2) A pharmacist participating in the medical assistance program may accept unused medication from a licensed facility, as defined in section 12-42.5-133 (1) (a), C.R.S., or a licensed health care provider for the purpose of dispensing the medication to another person. A pharmacist shall reimburse the state department for the cost of medications that the state department has paid to the pharmacist if medications are returned to a pharmacist and the medications are available to be dispensed to another person. Medications shall only be available to be dispensed to another person under this section if the medications are:

- (a) Liquid and the vial is still sealed and properly stored;
 - (b) Individually packaged and the packaging has not been damaged; or
 - (c) In the original, unopened, sealed, and tamper-evident unit dose packaging.
- (3) Medication dispensed pursuant to this section shall bear an expiration date that is later than six months after the date the drug was donated.
- (4) Any savings realized through reimbursements received pursuant to subsection (1) of this section shall fund the administration of this section.
- (5) The state board, in consultation with the state board of pharmacy, shall adopt rules for the implementation of this section.

Source: L. 2006: Entire article added with relocations, p. 1904, § 7, effective July 1.
L. 2012: IP(2) amended, (HB 12-1311), ch. 281, p. 1621, § 76, effective July 1.

Editor's note: This section is similar to former § 26-4-406.3 as it existed prior to 2006.

25.5-5-503. Prescription drug benefits - authorization - dual-eligible participation. (1) The state department is authorized to ensure the participation of Colorado medical assistance recipients, who are also eligible for medicare, in any federal prescription drug benefit enacted for medicare recipients.

(2) Prescribed drugs shall not be a covered benefit under the medical assistance program for a recipient who is eligible for a prescription drug benefit program under

medicare; except that, if a prescribed drug is not a covered Part D drug as defined in the "Medicare Prescription Drug, Improvement, and Modernization Act of 2003", Pub.L. 108-173, the prescribed drug may be a covered benefit if it is otherwise covered under the medical assistance program and federal financial participation is available.

Source: **L. 2006:** Entire article added with relocations, p. 1905, § 7, effective July 1.
L. 2007: (2) amended, p. 1631, § 1, effective July 1.

Editor's note: This section is similar to former § 26-4-406.5 as it existed prior to 2006.

Cross references: For additional information on the federal "Medicare Prescription Drug, Improvement, and Modernization Act of 2003", see Pub.L. 108-173.

25.5-5-504. Providers of pharmaceutical services. (1) Consistent with the provisions of section 25.5-4-401 (1), and consistent with subsections (2) and (3) of this section, and subject to available appropriations, no provider of pharmaceutical services who meets the conditions imposed by this article and articles 4 and 6 of this title and who complies with the terms and conditions established by the state department and contracting health maintenance organizations and prepaid health plans shall be excluded from contracting for the provision of pharmaceutical services to recipients authorized in this article and articles 4 and 6 of this title.

(2) This provision shall not apply to a health maintenance organization or prepaid health plan that enrolls less than forty percent of all the resident medicaid recipients in any county with over one thousand medicaid recipients.

(3) The state board shall establish specifications in rules in order to provide criteria to health maintenance organizations and prepaid health plans which ensure the accessibility and quality of service to clients and the terms and conditions for pharmaceutical contracts.

Source: **L. 2006:** Entire article added with relocations, p. 1905, § 7, effective July 1.

Editor's note: This section is similar to former § 26-4-407 as it existed prior to 2006.

25.5-5-505. Prescribed drugs - mail order - rules. (1) (a) (I) The state board shall adopt by rule a system to allow the following medical assistance recipients to receive prescribed maintenance medications through mail order:

(A) Recipients who suffer from a physical hardship that prohibits the recipient from obtaining prescription medications from a local pharmacy; and

(B) Recipients who have third-party insurance that allows the recipient to obtain maintenance medications through mail order.

(II) The state board shall include in the rules the definition of maintenance medications. The rules may allow for a medical assistance recipient who qualifies to receive medication through mail order pursuant to this section to receive up to a three-month supply, or the maximum allowed under federal law, of maintenance medications used to treat chronic medical conditions.

(b) The state board shall, to the extent possible, require the use of local pharmacies that are able to provide the same services as mail order. To the extent allowed by federal law, the state department shall require that the same copayment amount be paid by a medical assistance recipient receiving prescription medication through mail order as a medical assistance recipient receiving prescription medication from a local pharmacy.

(c) A nonresident prescription drug outlet doing business in this state shall provide a means for recipients of state medical assistance who have third-party insurance with whom the nonresident prescription drug outlet has a contractual relationship to receive their required pharmacy benefits at a cost to the recipients of no more than the legally allowed state medical assistance copayment. If a third-party insurance carrier's copayment or deductible for pharmacy benefits is larger than the legally allowed state medical assistance copayment, the prescription drug outlet may bill the state medical assistance program for the difference pursuant to state medical assistance reimbursement rules.

(2) The state department shall seek any federal authorization necessary to implement this section.

Source: L. 2006: Entire article added with relocations, p. 1905, § 7, effective July 1. L. 2008: (1) amended, p. 890, § 1, effective May 20. L. 2009: (1)(a)(I)(B) amended, (SB 09-252), ch. 271, p. 1228, § 1, effective May 18.

Editor's note: This section is similar to former § 26-4-407.5 as it existed prior to 2006.

25.5-5-506. Prescribed drugs - utilization review. (1) The state department shall develop and implement a drug utilization review process to assure the appropriate utilization of drugs by patients receiving medical assistance in the fee-for-service and primary care physician programs. The review process shall include the monitoring of prescription information and shall address at a minimum underutilization and overutilization of benefit drugs. Periodic reports of findings and recommendations shall be forwarded to the state department.

(2) It is the general assembly's intent that the implementation of a drug utilization review process for the fee-for-service and primary care physician programs will produce savings within the state's medicaid program. The state department, therefore, is authorized to use savings in the medical services premiums appropriations to fund the development and implementation of a drug utilization review process for these programs, as required by subsection (1) of this section. The state department may contract on a contingency basis for the development or implementation of the review process required by subsection (1) of this section.

(3) (a) The state department shall implement drug utilization mechanisms, including, but not limited to, prior authorization, to control costs in the medical assistance program associated with prescribed drugs. The state board shall promulgate a rule that outlines a process in which any interested party may be notified of and comment on the implementation of any prior authorization for a class of prescribed drugs before the class is prior authorized.

(b) The state department shall report to the health and human services committees for the house of representatives and the senate, or any successor committees, and the joint budget committee no later than December 1, 2003, and each December 1 thereafter, on plan utilization mechanisms that have been implemented or that will be implemented by the state department, the time frames for implementation, the expected savings associated with each utilization mechanism, and any other information deemed appropriate by the health and human services committees, or any successor committees, or the joint budget committee.

Editor's note: This section is similar to former § 26-4-408 as it existed prior to 2006.

25.5-5-507. Prescription drug information and technical assistance program - rules. There is hereby created the prescription drug information and technical assistance program. The program shall provide advice on the prudent use of prescription drugs to persons who receive prescription drug benefits pursuant to this part 5. The state department shall contract with licensed pharmacists for statewide medicaid pharmacy services and pharmacy consultations for persons receiving prescription drug benefits pursuant to this part 5 regarding how each person may, with the approval of the appropriate prescribing health care provider, avoid dangerous drug interactions, improve patient outcomes, and save the state money for the drugs prescribed. The state department shall promulgate rules to establish and administer the program and to provide incentive payments to pharmacists and physicians who participate in the program. The state department shall design a calculation for savings under the program.

25.5-5-508. Electronic prescriptions - study - report - repeal. (Repealed)

Source: L. 2009: Entire section added, (HB 09-1073), ch. 282, p. 1286, § 1, effective August 5.

Editor's note: Subsection (4) provided for the repeal of this section, effective July 1, 2010. (See L. 2009, p. 1286.)

PART 6**PROGRAM FOR TEEN PREGNANCY
AND DROPOUT PREVENTION**

Editor's note: This part 6 was formerly numbered as part 8 of article 4 of title 26. It was not included in Senate Bill 06-219, which relocated article 4 of title 26 to title 25.5, because the part was scheduled to repeal on July 1, 2006; however, House Bill 06-1351 extended the repeal date of the part. To keep with the legislative intent of both bills, the entire part was renumbered and relocated on revision. The former section number is located in an editor's note following each section that was relocated.

25.5-5-601. Legislative declaration. The general assembly finds that the incidences of teen pregnancies in the state raise health issues such as prenatal care, low-weight births, proper immunizations, and other well-care issues and that those health issues result in a significant impact on the state's medical assistance budget. The general assembly also finds that teenagers who become parents have a greater propensity to drop out of school before finishing high school and frequently become an economic burden upon the public assistance program of the state. The general assembly, therefore, declares that the department of health care policy and financing should analyze the feasibility of a teen pregnancy and dropout prevention program that promotes self-sufficiency, self-reliance, and a sense of personal responsibility in teenagers to make appropriate family planning decisions.

Source: L. 95: Entire part added, p. 595, § 1, effective May 22.

Editor's note: This section is similar to former § 26-4-801 as it existed prior to 2006.

25.5-5-602. Definitions. As used in this part 6, unless the context otherwise requires:

(1) "At-risk teenager" means a person under nineteen years of age who resides in a neighborhood in which there is a preponderance of poverty, unemployment and underemployment, substance abuse, crime, school dropouts, a significant public assistance population, teen pregnancies and teen parents, or other conditions that put families at risk.

(2) "Department" means the state department of health care policy and financing.

Source: L. 95: Entire part added, p. 595, § 1, effective May 22.

Editor's note: This section is similar to former § 26-4-802 as it existed prior to 2006.

25.5-5-603. Program - teen pregnancy and dropout prevention. (1) (a) The general assembly authorizes the department to implement a statewide program for teen pregnancy and dropout prevention to serve teenagers who are medicaid recipients. The department shall design a program based upon community support and assistance, percentage of births in the community that have been funded under the state medical assistance program, the use of program designs that include accurate methods for measuring the effectiveness of the program, and availability of additional federal funds and local or private funding. The department may seek any federal waivers that may be necessary to implement this part 6.

(b) In implementing a statewide program pursuant to paragraph (a) of this subsection (1), the department shall collaborate with the department of public health and environment

and may collaborate with other public agencies and nonprofit organizations to promote and expand provider participation in the program. Additionally, the department shall collaborate with the department of education to facilitate the provision of services to at-risk teenagers and teen parents.

(2) (a) The purpose of the program shall be to reduce the incidences of teen pregnancy and school dropouts by providing support services to at-risk teenagers and to teen parents.

(b) Such services may include, but shall not be limited to, the following services or combination of services:

(I) Intensive individual or group counseling, which includes a component on sexual abstinence and delayed parenting;

(II) Vocational, health, and educational guidance;

(III) Public health services such as home visits or visiting nurse services; and

(IV) Instruction concerning human sexuality; except that the department, in providing a teen pregnancy prevention program pursuant to the provisions of this part 6 that provides instruction concerning human sexuality, shall adopt science-based content standards to ensure that any instruction concerning human sexuality that is provided satisfies the requirements of section 22-1-110.5 (5), C.R.S., as if the program were provided by a school district.

(c) In addition to providing the services described in paragraph (b) of this subsection (2), the department may develop incentives for teen parents who receive public assistance to become self-sufficient and delay further parenting choices.

(2.5) (a) Providers providing services under the program shall collect data relevant to measuring the program's effectiveness by surveying program participants at the beginning of participation, during the program, and at the end of participation concerning certain behaviors that decrease the likelihood of teen pregnancy, including:

(I) Postponing the first sexual encounter;

(II) Reducing the frequency of sexual intercourse;

(III) Reducing the number of sexual partners or maintaining monogamous relationships;

(IV) Increasing the effective use of contraception; and

(V) Reducing the incidence of unprotected sex.

(b) Providers shall provide the department with a summary of the survey results collected pursuant to paragraph (a) of this subsection (2.5) along with information, to the extent determinable by the provider, concerning the number of participants who, while enrolled in the program or after leaving the program:

(I) Drop out of school;

(II) Become pregnant as a teenager; or

(III) As a teenager, impregnate someone.

(3) The teen pregnancy and dropout prevention program shall be financed with federal funds, local contributions, and any grants or donations from private entities. No general fund moneys shall be used to finance the program; except that the general assembly may appropriate any moneys necessary for the internal administrative costs of the department for providing expanded program promotion and oversight.

25.5-5-604. Report. The department shall report annually to the joint budget committee, the health and environment committee of the house of representatives, or any successor committee, and the health and human services committee of the senate, or any successor

committee, concerning the effectiveness of the program. The report shall include at a minimum the number of new providers participating in the program, the number of additional program participants, the pregnancy rate for program participants as compared to the pregnancy rate for medicaid clients of the same age group in the same geographic area, and a summary of the information collected by the department pursuant to section 25.5-5-603 (2.5) concerning participant behaviors that decrease the likelihood of teen pregnancy.

ARTICLE 6

Colorado Medical Assistance Act - Long-term Care

Editor's note: This article was added with relocations in 2006 containing provisions of some sections formerly located in article 4 of title 26. Former C.R.S. section numbers are shown in editor's notes following those sections that were relocated. For a detailed comparison of this article, see the comparative tables located in the back of the index.

Cross references: For definitions applicable to this article, see § 25.5-4-103.

Law reviews: For article, "Colorado Medicaid Home and Community-Based Services and Least-Restrictive Environment", see 39 Colo. Law. 35 (May 2010).

PART 1

LONG-TERM CARE ADMINISTRATION

- 25.5-6-101. Spousal protection - protection of income and resources for community spouse - definitions - amounts retained - responsibility of state department - right to appeal.
- 25.5-6-102. Court-approved trusts - transfer of property for persons seeking medical assistance for nursing home care - undue hardship - legislative declaration.
- 25.5-6-103. Court-approved trusts - transfer of property for persons seeking medical assistance - rule-making authority for trusts created on or after July 1, 1994 - undue hardship.
- 25.5-6-104. Long-term care placements - comprehensive and uniform client assessment instrument - legislative declaration - definitions.
- 25.5-6-105. Legislative declaration relating to implementation of single entry point system.
- 25.5-6-106. Single entry point system - authorization - phases for implementation - services provided.
- 25.5-6-107. Financing of single entry point system.
- 25.5-6-108. Legislative declaration - advisory committee - long-term care - report - repeal. (Repealed)
- 25.5-6-108.5. Community long-term care studies - authority to implement - alternative care facility report.
- 25.5-6-109. Community long-term care - coordinated care pilot program - federal authorization - rules - repeal. (Repealed)
- 25.5-6-110. Private-public partnership education and information program concerning long-term care insurance authorized.
- 25.5-6-111. Pilot program for coordinated care for people with a disability - fund - report - rules - repeal.
- 25.5-6-112. Plan of financial operation - purpose - approval - financial audits - rules - repeal.
- 25.5-6-113. Health home - integrated services - legislative declaration - contracting - definitions.
- 25.5-6-114. Alternative care facilities - re-

imbursement programs - legislative declaration - report - repeal.

PART 2

NURSING FACILITIES

- 25.5-6-201. Special definitions relating to nursing facility reimbursement.
- 25.5-6-202. Providers - nursing facility provider reimbursement - rules - repeal.
- 25.5-6-203. Nursing facilities - provider fees - federal waiver - fund created - rules.
- 25.5-6-204. Providers - reimbursement - intermediate care facility for the mentally retarded - reimbursement - maximum allowable.
- 25.5-6-205. Collection of penalties assessed against nursing facilities - creation of cash fund.
- 25.5-6-206. Personal needs benefits - amount - patient personal needs trust fund required - funeral and burial expenses - penalty for illegal retention and use.
- 25.5-6-207. Class I nursing facility reimbursement rates - study - report - repeal. (Repealed)

PART 3

HOME- AND COMMUNITY-BASED
SERVICES FOR THE ELDERLY, BLIND,
AND DISABLED

- 25.5-6-301. Short title.
- 25.5-6-302. Legislative declaration.
- 25.5-6-303. Definitions.
- 25.5-6-304. Administration.
- 25.5-6-305. Provision of services for elderly, blind, and disabled persons.
- 25.5-6-306. Eligible groups.
- 25.5-6-307. Services for the elderly, blind, and disabled.
- 25.5-6-308. Cost of services.
- 25.5-6-309. Special provisions - post-eligibility treatment of income.
- 25.5-6-310. Special provisions - personal care services provided by a family.
- 25.5-6-311. Duties of state department.
- 25.5-6-312. Gifts - grants.
- 25.5-6-313. Rules - federal authorization.

PART 4

HOME- AND COMMUNITY-BASED
SERVICES FOR PERSONS WITH
DEVELOPMENTAL DISABILITIES

- 25.5-6-401. Short title.
- 25.5-6-402. Legislative declaration.
- 25.5-6-403. Definitions.
- 25.5-6-404. Duties of the department of health care policy and financing and the department of human services.
- 25.5-6-405. Relationship to other programs.
- 25.5-6-406. Appropriations.
- 25.5-6-407. Gifts - grants.
- 25.5-6-408. Eligibility - fees.
- 25.5-6-409. Services for persons with developmental disabilities.
- 25.5-6-410. Qualification for federal funding.
- 25.5-6-411. Personal needs trust fund required.

PART 5

HOME- AND COMMUNITY-BASED
SERVICES FOR PERSONS WITH HEALTH
COMPLEXES RELATED TO ACQUIRED
IMMUNE DEFICIENCY SYNDROME

- 25.5-6-501. Short title.
- 25.5-6-502. Definitions.
- 25.5-6-503. Administration.
- 25.5-6-504. Program established - financial eligibility.
- 25.5-6-505. Services for long-term-care eligible persons.
- 25.5-6-506. Special provisions - personal care services provided by a family.
- 25.5-6-507. Duties of state department.
- 25.5-6-508. Rules.

PART 6

HOME- AND COMMUNITY-BASED
SERVICES FOR PERSONS WITH MAJOR
MENTAL ILLNESSES

- 25.5-6-601. Short title.
- 25.5-6-602. Legislative declaration - no entitlement created.
- 25.5-6-603. Definitions.
- 25.5-6-604. Cost of services.
- 25.5-6-605. Relationship to single entry point for long-term care.
- 25.5-6-606. Implementation of program for mentally ill authorized - federal waiver - duties of the department of health care policy and financing and the

department of human services.

- 25.5-6-607. Implementation of part contingent upon receipt of federal waiver - repeal of part.

PART 7

HOME- AND COMMUNITY-BASED
SERVICES FOR PERSONS WITH BRAIN
INJURY

- 25.5-6-701. Short title.
- 25.5-6-702. Legislative declaration - no entitlement created.
- 25.5-6-703. Definitions.
- 25.5-6-704. Implementation of home- and community-based services program for persons with brain injury authorized - federal waiver - duties of the department.
- 25.5-6-705. Implementation of part contingent upon receipt of federal waiver - repeal of part.
- 25.5-6-706. Rate structure - rules - quality assurance.

PART 8

HOME- AND COMMUNITY-BASED
SERVICES FOR CHILDREN WITH
AUTISM

- 25.5-6-801. Short title.
- 25.5-6-802. Definitions.
- 25.5-6-803. Federal authorization - budget neutrality - available appropriations.
- 25.5-6-804. Services - duties of the state department - rules.
- 25.5-6-805. Colorado autism treatment fund.
- 25.5-6-806. Autism waiver - program evaluation.

PART 9

HOME- AND COMMUNITY-BASED
SERVICE PROGRAMS FOR CHILDREN

- 25.5-6-901. Disabled children care program - eligibility criteria - documentation requirements - report to the general assembly.
- 25.5-6-902. Children's personal assistance services and family support program.

PART 10

CONSUMER-DIRECTED ATTENDANT
SUPPORT FOR PERSONS WITH
DISABILITIES

- 25.5-6-1001 to 25.5-6-1004. (Repealed)

PART 11

CONSUMER-DIRECTED CARE

- 25.5-6-1101. Definitions.
 25.5-6-1102. Service model - consumer-directed care.
 25.5-6-1103. Reporting.

PART 12

IN-HOME SUPPORT SERVICES

- 25.5-6-1201. Legislative declaration.
 25.5-6-1202. Definitions.
 25.5-6-1203. In-home support services - eligibility - licensure exclusion - in-home support service agency responsibilities.
 25.5-6-1204. Provision of services - duties of state department - gifts - grants.
 25.5-6-1205. Accountability - rate structure - rules.
 25.5-6-1206. Report.
 25.5-6-1207. Repeal of part.
 25.5-6-1208. Conditional repeal of part.

PART 13

COMPLEMENTARY AND ALTERNATIVE
THERAPIES FOR A PERSON WITH A
SPINAL CORD INJURY

- 25.5-6-1301. Legislative declaration.
 25.5-6-1302. Definitions.
 25.5-6-1303. Pilot program - complementary or alternative therapies - rules.
 25.5-6-1304. Repeal of part.

PART 14

MEDICAID BUY-IN

- 25.5-6-1401. Legislative declaration.
 25.5-6-1402. Definitions.
 25.5-6-1403. Waivers and amendments.
 25.5-6-1404. Medicaid buy-in program - eligibility - premiums - medicaid buy-in cash fund - report.
 25.5-6-1405. Rule-making authority.
 25.5-6-1406. Availability of federal financial assistance under medical assistance.

PART 1

LONG-TERM CARE ADMINISTRATION

25.5-6-101. Spousal protection - protection of income and resources for community spouse - definitions - amounts retained - responsibility of state department - right to appeal. (1) As used in this section, unless the context otherwise requires:

(a) "Community spouse" means the spouse of a person who is in an institution or nursing facility, the spouse of a person who is enrolled in the PACE program authorized pursuant to section 25.5-5-412, or the spouse of a person who is receiving home- and community-based services pursuant to this article.

(b) "Community spouse monthly income allowance" means the amount by which the minimum monthly maintenance needs allowance exceeds the amount of monthly income that is available to the community spouse.

(c) "Community spouse resource allowance" means the amount of assets, excluding the value of the home and other exempt resources under federal law, that the community spouse shall be allowed to retain and that shall not be available to cover an institutionalized spouse's cost of care.

(d) (I) "Institutionalized spouse" means an individual who is in an institution or nursing facility who is married to a spouse who is not in an institution or nursing facility.

(II) For purposes of this section, "institutionalized spouse" includes an individual who is enrolled in the PACE program authorized pursuant to section 25.5-5-412 or is receiving home- and community-based services pursuant to this article, and who is married to a spouse who is not enrolled in the PACE program or receiving home- and community-based services.

(e) (I) (A) "Minimum monthly maintenance needs allowance" means an amount which is equal to an applicable percent of the nonfarm income official poverty line (increased annually by the consumer price index for all urban consumers), as defined by the federal office of management and budget, for a family unit of two members.

(B) For the purposes of sub-subparagraph (A) of this subparagraph (I), the applicable percent shall be: As of September 30, 1989, one hundred twenty-two percent; as of July 1, 1991, one hundred thirty-three percent; as of July 1, 1992, one hundred fifty percent.

(II) Notwithstanding the provisions of subparagraph (I) of this paragraph (e), the minimum monthly maintenance needs allowance may be increased on an individual basis if:

(A) The community spouse has shelter and utilities expenses that exceed thirty percent of the minimum monthly maintenance needs allowance; except that the total allowance shall not exceed fifteen hundred dollars (increased annually by the consumer price index for all urban consumers);

(B) Either spouse is responsible for a dependent family member, including children, parents, or siblings who reside with the community spouse; or

(C) The community spouse has exceptional circumstances which would result in significant financial duress.

(2) (a) In order to implement the medical assistance program in compliance with the federal “Medicare Catastrophic Coverage Act of 1988”, as amended, the state department shall ensure, when an institutionalized spouse is eligible for medical assistance under this article and articles 4 and 5 of this title, that the community spouse retain a community spouse monthly income allowance but only to the extent that income of the institutionalized spouse is made available to the community spouse.

(b) (I) The resources available to the married couple shall be calculated at the beginning of a continuous period of institutionalization of the institutionalized spouse. The community spouse shall retain the remainder of the couple’s countable resources up to the federal maximum resource allowance as a community spouse resources allowance. The institutionalized spouse may keep an amount up to the amount of resources allowed under the federal medicaid program.

(II) Notwithstanding the provisions of subparagraph (I) of this paragraph (b), if either spouse establishes that the community spouse resource allowance is inadequate to raise the community spouse’s income to the minimum monthly maintenance needs allowance, an amount adequate to provide the minimum monthly maintenance needs allowance shall be substituted.

(3) The state board shall have the authority to promulgate any rules that are necessary to implement the provisions of this section in accordance with the federal “Medicare Catastrophic Coverage Act of 1988”, as amended. The rules adopted by the state board shall include, as a minimum, provisions regarding the following matters:

(a) The treatment of a married couple’s income and resources before and after eligibility for medical assistance is established, including the basis for dividing such income and resources between the two parties;

(b) The process for appealing any determinations regarding income and resources that are made pursuant to these rules.

Source: L. 2006: Entire article added with relocations, p. 1907, § 7, effective July 1.

Editor’s note: This section is similar to former § 26-4-506 as it existed prior to 2006.

Cross references: For provisions of the federal “Medicare Catastrophic Coverage Act of 1988” referenced in this section, see section 303 of Pub.L. 100-360, codified at 42 U.S.C. sec. 1396r-5.

ANNOTATION

Subsections (1)(d)(I) and (1)(d)(II) must be read in the disjunctive. In determining whether a spouse is entitled to the community spouse resource allowance, an institutionalized spouse can be either a person described in (1)(d)(I) or in (1)(d)(II). Under federal law, the fact that the

wife received home- and community-based services did not make her ineligible to receive the community spouse resource allowance based upon her husband’s institutionalization. *Koehler v. Colo. Dept. of Health Care Policy & Fin.*, 252 P.3d 1174 (Colo. App. 2010).

25.5-6-102. Court-approved trusts - transfer of property for persons seeking medical assistance for nursing home care - undue hardship - legislative declaration.
(1) The general assembly hereby finds, determines, and declares that:

(a) The state makes significant expenditures for nursing home care under the "Colorado Medical Assistance Act";

(b) A large number of persons do not have enough income to afford nursing home care, but have too much income to qualify for state medical assistance, a situation popularly referred to as the "Utah gap";

(c) Some persons in the Utah gap, through innovative court-approved trust arrangements, have become qualified for state medical assistance, thereby increasing state medical assistance expenditures;

(d) It is therefore appropriate to enact state laws which limit such court-approved trusts in a manner that is consistent with Title XIX of the federal "Social Security Act", 42 U.S.C. sec. 1396 et seq., as amended, and which provide that persons who qualify for assistance as a result of the creation of such trusts shall be treated the same as any other recipient of medical assistance for nursing home care;

(e) In enacting this section, the general assembly intends only to limit certain court-approved trusts and court-approved transfers of property. It is not the general assembly's intent to approve or disapprove of privately created trusts or private transfers of property made under the same or similar circumstances.

(2) The county department shall verify that an applicant for medical assistance for nursing home care, pursuant to the provisions of this title, meets applicable eligibility criteria for assistance other than those set forth in subsection (3) of this section. Upon verification, for eligibility purposes and in accordance with subsection (3) of this section, the county department shall make a determination of the status of any court-approved trust established for or court-approved transfer of property made by or for the applicant.

(3) (a) If a person who applies for medical assistance for nursing home care would be deemed ineligible for assistance as a result of deeming a court-approved trust established for the applicant as a medicaid qualifying trust or as a result of deeming property in the court-approved trust as an improper transfer of assets, the person's application shall, nonetheless, be treated as a case of undue hardship and the person shall be eligible for medical assistance for said care if the establishment of the court-approved trust meets the following criteria:

(I) The applicant's monthly gross income from all sources, without reference to the court-approved trust, exceeds the income eligibility standard for medical assistance then in effect but is less than the average private pay rate for nursing home care for the geographic region in which the applicant lives;

(II) The property used to fund the trust shall be limited to monthly unearned income owned by the applicant, including any pension payment;

(III) The applicant and the state medical assistance program shall be the sole beneficiaries of the trust. The entire corpus of the trust, or as much of the corpus as may be distributed each month without violating federal requirements for federal financial participation, shall be distributed each month for expenses related to the beneficiary's nursing home care that are approved under the medical assistance program; except that an amount reasonably necessary to maintain the existence of the trust and to comply with federal requirements may be retained in the trust. Deductions may be distributed from the trust to the same extent deductions from the income of a nursing home resident who is not a trust beneficiary are allowed under the medical assistance program, which shall include the following:

(A) A monthly personal needs allowance;

(B) Payments to the beneficiary's community spouse or dependent family members as provided and in accordance with Title XIX of the federal "Social Security Act", 42 U.S.C. sec. 1396r-5, as amended, and section 25.5-6-101;

(C) Specified health insurance costs and special medical services provided under Title XIX of the federal "Social Security Act", 42 U.S.C. sec. 1396a(r), as amended; and

(D) Any other deduction provided in the rules of the state department.

(IV) Upon the death of the beneficiary, a remainder interest in the corpus of the trust shall pass to the state agency responsible for administering the state medical assistance program;

(V) The trust shall not be subject to modification by the beneficiary or the trustee unless otherwise provided by this section or section 15-14-412.5, C.R.S.

(b) For the purposes of this subsection (3), "medicaid qualifying trust" shall have the same meaning as set forth in Title XIX of the federal "Social Security Act", 42 U.S.C. sec. 1396a(k).

(4) The state board shall adopt rules as are necessary for the implementation of this section and as are necessary to comply with federal law. In addition, the state department shall amend the state medical assistance plan in a manner that is consistent with the provisions of this section.

(5) This section shall take effect January 1, 1992, and shall apply to any court-approved trust established for or court-approved transfer of property made by or for a protected person applying for or receiving medical assistance for nursing home care pursuant to the provisions of this title, on or after said date; except that a court-approved trust created before said date that does not comply with this section shall be modified to comply with this section no later than July 1, 1992, before which time the court-approved trust or court-approved transfer of property to a trust shall not render the protected person ineligible for medical assistance.

(6) The provisions of this section shall not apply if federal funds are not available for persons who would qualify for medical assistance as a result of a court-approved trust that meets the criteria set forth in this section.

(7) This section shall apply to trusts established or transfers of property made prior to July 1, 1994. The provisions set forth in sections 15-14-412.6 to 15-14-412.9, C.R.S., and any rules adopted by the state board pursuant to section 25.5-6-103 shall apply to trusts established or property transferred on or after that date.

Source: L. 2006: Entire article added with relocations, p. 1908, § 7, effective July 1.

Editor's note: This section is similar to former § 26-4-506.5 as it existed prior to 2006.

25.5-6-103. Court-approved trusts - transfer of property for persons seeking medical assistance - rule-making authority for trusts created on or after July 1, 1994 - undue hardship. (1) The state board shall adopt such rules as are necessary with respect to trusts established pursuant to sections 15-14-412.6 to 15-14-412.9, C.R.S. The state board shall adopt rules that address, but need not be limited to, the following:

(a) The definition, including any limitations, of permissible distributions from trusts, taking federal guidelines into consideration;

(b) Reasonable financial reimbursement or incentives to the state department, county departments of social services, and any other designated agencies for the efforts and expenses in monitoring trusts, and where necessary, for the recovery of trust property that has been improperly distributed or otherwise expended.

(2) The state board shall comply with Title XIX of the federal "Social Security Act", 42 U.S.C. sec. 1396p (d) (5), as amended, which requires the state medicaid agency to establish procedures, in accordance with standards specified by the secretary of the United States department of health and human services, under which the state medicaid agency may waive the application of the general rules for considering trust property in determining eligibility for medical assistance if the applicant for medical assistance establishes that the application of the general rules would work an undue hardship on the individual.

(3) The state department shall determine the feasibility of providing ongoing support of dependents by using the trust corpus during the life of the person for whom a trust is created or using the remainder of the trust after the death of the person for whom the trust was created. If the state department determines that it is feasible to provide that support, the state department shall seek a waiver from the federal government to permit the use of trust property for that purpose.

Source: L. 2006: Entire article added with relocations, p. 1911, § 7, effective July 1.

Editor's note: This section is similar to former § 26-4-506.6 as it existed prior to 2006.

25.5-6-104. Long-term care placements - comprehensive and uniform client assessment instrument - legislative declaration - definitions. (1) (a) The general assembly hereby finds, determines, and declares that there is an increasing strain on long-term care services in the state; that the number of persons in need of long-term care continues to grow; that community-based resources are not integrated into a centralized system for referrals, assessment of needs, development of care plans, and case management; and that persons in need of long-term care services have difficulty accessing and using the current system, which is fragmented and which results in inappropriate placements.

(b) The general assembly further finds, determines, and declares that the state is in need of a long-term care system that organizes each long-term care client's entry, assessment of need, and service delivery into a single unified system; and that such system must include, at a minimum, a locally established single entry point administered by a designated entity, a single client assessment instrument and administrative process, targeted case management in order to maximize existing federal, state, and local funding, case management, and an accountability mechanism designed to assure that budget allocations are being effectively managed.

(c) The general assembly therefore concludes that it is appropriate to develop and implement a comprehensive and uniform long-term care client assessment process and to study the establishment of a single entry point system that provides for the coordination of access and service delivery to long-term care clients at the local level, that is available to all persons in need of long-term care, and that is well managed and cost-efficient.

(2) As used in this section and in sections 25.5-6-105 to 25.5-6-107, unless the context otherwise requires:

(a) "Activities of daily living" means the basic self-care activities, including eating, bathing, dressing, transferring from bed to chair, bowel and bladder control, and independent ambulation.

(b) "Case management services" means the assessment of a long-term care client's needs, the development and implementation of a care plan for such client, the coordination and monitoring of long-term care service delivery, the direct delivery of services as provided by this article or by rules adopted by the state board pursuant to this article, the evaluation of service effectiveness, and the reassessment of such client's needs, all of which shall be performed by a single entry point as defined in paragraph (k) of this subsection (2).

(c) "Community-based" means services provided in an individual's home or in a homelike setting. "Community-based" does not include a hospital, hospital unit, nursing facility, or nursing home.

(d) "Comprehensive and uniform client assessment process" means a standard procedure, which includes the use of a uniform assessment instrument, to measure a client's functional capacity, to determine the social and medical needs of a current or potential client of any long-term care program, and to target resources to the functionally impaired.

(e) "Continuum of care" means an organized system of long-term care, benefits, and services to which a client has access and which enables a client to move from one level or type of care to another without encountering gaps in or barriers to service.

(f) "Information and referral" means the provision of specific, accurate, and timely public information about services available to aging and disabled adults in need of long-term care and referral to alternative agencies, programs, and services based on client inquiries.

(g) "Instrumental activities of daily living" means home management and independent living activities such as cooking, cleaning, using a telephone, shopping, doing laundry, providing transportation, and managing money.

(h) "Long-term care" means those services designed to provide diagnostic, preventive, therapeutic, rehabilitative, supportive, and maintenance services for individuals who have chronic physical or mental impairments, or both, in a variety of institutional and noninstitutional settings, including the home, with the goal of promoting the optimum level of physical, social, and psychological functioning of the individuals.

(i) "Resource development" means the study, establishment, and implementation of additional resources or services which will extend the capabilities of community long-term care systems to better serve long-term care clients.

(j) “Screening” means a preliminary determination of need for long-term care services and, on the basis of such determination, the making of an appropriate referral for a client assessment in accordance with subsection (3) of this section or referral to another community resource to assist clients who are not in need of long-term care services.

(k) “Single entry point” means the availability of a single access or entry point within a local area where a current or potential long-term care client can obtain long-term care information, screening, assessment of need, and referral to appropriate long-term care program and case management services.

(3) (a) On or before July 1, 1991, the state department shall establish, by rule in accordance with article 4 of title 24, C.R.S., a comprehensive and uniform client assessment process for all individuals in need of long-term care, the purpose of which is to determine the appropriate services and levels of care necessary to meet clients’ needs, to analyze alternative forms of care and the payment sources for such care, and to assist in the selection of long-term care programs and services that meet clients’ needs most cost-efficiently.

(b) Participation in the process shall be mandatory for clients of publicly funded long-term care programs, including, but not limited to, the following:

- (I) Nursing facilities;
- (II) Home- and community-based services for the elderly, the blind, and the disabled;
- (III) Alternative care facilities;
- (IV) to (VI) (Deleted by amendment, L. 2008, p. 437, § 1, effective August 5, 2008.)
- (VII) Home health services for long-term care clients; and
- (VIII) Home- and community-based services for persons living with acquired immune deficiency syndrome (AIDS).

(c) Private paying clients of long-term care programs may participate in the process for a fee to be established by the state department and adopted through rules.

(d) The state department, through rules, shall develop and implement no later than July 1, 1991, a uniform long-term care client needs assessment instrument for all individuals needing long-term care. The instrument shall be used as part of the comprehensive and uniform client assessment process to be established in accordance with paragraph (a) of this subsection (3) and shall serve the following functions:

- (I) To obtain information on each client’s status in the following areas:
 - (A) Activities of daily living and instrumental activities of daily living;
 - (B) Physical health;
 - (C) Cognitive and emotional well-being;
 - (D) Social interaction and current support resources;
- (II) To assess each client’s physical environment in terms of meeting the client’s needs;
- (III) To obtain information on each client’s payment sources, including obtaining financial eligibility information for publicly funded long-term care programs;
- (IV) To disclose the need for more intensive needs assessments in areas such as nutrition, adult protection, dementia, and mental health;
- (V) To prioritize a client’s need for care using criteria established by the state department for specific publicly funded long-term care programs;
- (VI) To serve as the functional assessment for the determinations of medical necessity.

(e) On and after July 1, 1991, no publicly funded client shall be placed in a long-term care program unless such placement is in accordance with rules adopted by the state board in implementing this section.

(4) Repealed.

Editor’s note: (1) This section is similar to former § 26-4-507 as it existed prior to 2006.

(2) Subsection (4)(c) provided for the repeal of subsection (4), effective July 1, 2008. (See L. 2007, p. 1393.)

Cross references: For the legislative declaration contained in the 2007 act enacting subsection (4), see section 1 of chapter 328, Session Laws of Colorado 2007.

25.5-6-105. Legislative declaration relating to implementation of single entry point system. (1) The general assembly hereby finds, determines, and declares that:

(a) A study of a single entry point system in accordance with former section 26-4.5-404, C.R.S., has been completed;

(b) The establishment of a single entry point system for the coordination of access to existing services and service delivery for all long-term care clients at the local level can be implemented in a cost-efficient manner;

(c) The implementation of a well-managed single entry point system will result in the utilization of more appropriate services by long-term care clients over time and will provide better information on the unmet service needs of clients; and

(d) The implementation of a statewide single entry point system is a comprehensive undertaking and would be more conducive to a phased-in approach.

(2) The general assembly further finds, determines, and declares that it is appropriate to develop and implement, through four phases, a single entry point system for the state and, therefore, enacts sections 26-4-522 to 26-4-525, which were relocated to sections 25.5-6-106 and 25.5-6-107, respectively, in the 2006 recodification of this title, to provide for such development and implementation.

Source: L. 2006: Entire article added with relocations, p. 1914, § 7, effective July 1.

Editor's note: This section is similar to former § 26-4-521 as it existed prior to 2006.

25.5-6-106. Single entry point system - authorization - phases for implementation - services provided. (1) **Authorization.** The state board is hereby authorized to adopt rules providing for the establishment of a single entry point system that consists of single entry point agencies throughout the state for the purpose of enabling persons eighteen years of age or older in need of long-term care to access appropriate long-term care services.

(2) **Single entry point agencies - service programs - functions.** (a) A single entry point agency shall be an agency in a local community through which any person eighteen years of age or older who is in need of long-term care can access needed long-term care services. A single entry point agency may be a private, nonprofit organization, a county agency, including a county department of social services, a county nursing service, an area agency on aging, or a multicounty agency. Persons in need of specialized assistance such as services for developmental disabilities or mental illness may be referred by a single entry point agency to programs under the department of human services.

(b) The agency may serve private paying clients on a fee-for-service basis and shall serve clients of publicly funded long-term care programs, including, but not limited to, the following:

- (I) Nursing facility care;
- (II) Home- and community-based services for the elderly, blind, and disabled;
- (III) Home- and community-based services for persons living with acquired immune deficiency syndrome;
- (IV) Long-term home health care, including services provided by a PACE organization providing a program of all-inclusive care for the elderly pursuant to section 25.5-5-412;
- (V) Home care allowance;
- (VI) Alternative care facilities;
- (VII) Adult foster care;
- (VIII) Certain in-home services available pursuant to the federal "Older Americans Act of 1965", as amended; and
- (IX) Home- and community-based services for persons with brain injury.

(c) The major functions of a single entry point shall include, but need not be limited to, the following:

- (I) Providing information;
- (II) Screening and referral services;

- (III) Assessing clients' needs in accordance with section 25.5-6-104;
- (IV) Developing plans of care for clients;
- (V) Determining payment sources available to clients for long-term care services;
- (VI) Authorizing the provision of certain long-term care services, as designated by the state department;
- (VII) Determining eligibility for certain long-term care programs, as designated by the state department;
- (VIII) Delivering case management services as an administrative function;
- (IX) Targeting outreach efforts to those most at risk of institutionalization;
- (IX.5) Informing eligible persons about the benefits of participating in the program of all-inclusive care for the elderly provided by a PACE organization pursuant to section 25.5-5-412 as an alternative to enrollment in a managed care organization, an organization contracted with the state department pursuant to part 4 of article 5 of this title, or other risk-bearing entity.
- (X) Identifying resource gaps and coordinating resource development;
- (XI) Recovering overpayment of benefits in accordance with rules adopted by the state board;
- (XII) Maintaining fiscal accountability; and
- (XIII) Rendering state certified services, as provided by state board rules, as a qualified and state certified agency.

(3) State certification of a single entry point agency - quality assurance standards.

(a) Upon selection of a single entry point agency, the state department shall contract with an agency for five years but shall recertify the agency annually based on an evaluation procedure provided for in paragraph (b) of this subsection (3).

(b) The state board shall adopt rules for the establishment of a quality assurance program for the purpose of monitoring the quality of services provided to clients and for recertifying single entry point agencies. The rules shall provide for: Procedures to evaluate the quality of services provided by the agency; an assessment of the agency's compliance with program requirements, including compliance with case management standards, which standards shall be adopted by the state department; an assessment of an agency's performance of administrative functions, including reasonable costs per client, timely responses, managing programs in one consolidated unit, on-site visits to clients, community coordination and outreach, and client monitoring; a determination as to whether targeted populations are being identified and served; and an evaluation concerning financial accountability.

(c) The state department shall monitor each single entry point agency in the state for compliance with quality assurance standards adopted by the state and may provide for the implementation of sanctions at any time for noncompliance. In addition, each county department may enter into cooperative agreements or contracts with the single entry point agencies to assure quality performance by the single entry point agency serving such county.

(d) Ongoing reimbursement to single entry points shall be contingent upon compliance with quality assurance standards.

25.5-6-107. Financing of single entry point system. (1) The single entry point system shall be financed with the following moneys:

(a) Federal financial participation moneys available for case management for home- and community-based services pursuant to this article, and for administration of medical

assistance programs, pursuant to Title XIX of the federal "Social Security Act", as amended;

(b) The state's share or contribution for specific long-term care programs in accordance with or pursuant to sections 26-1-122 and 26-2-114, C.R.S.;

(c) County contributions, as follows:

(I) The total for the fiscal year beginning July 1, 1990, and for each fiscal year thereafter, which totals shall serve as the base for determining the contribution required in subparagraph (II) of this paragraph (c), of the following: The counties' five percent contribution for home care allowance and adult foster care services as required by section 26-1-122, C.R.S.

(II) The amount contributed from each county in accordance with subparagraph (I) of this paragraph (c) after making an adjustment based on the percentage of an increase or decrease per fiscal year in the service costs for clients of such county. However, in no case shall a county be required under this subparagraph (II) to contribute more than a five percent increase in said service costs.

(2) County contributions for client services made in accordance with subparagraph (I) of paragraph (c) of subsection (1) of this section shall be expended only for clients of the county providing said contribution.

Editor's note: This section is similar to former § 26-4-525 as it existed prior to 2006.

25.5-6-108. Legislative declaration - advisory committee - long-term care - report - repeal. (Repealed)

Source: L. 2006: Entire article added with relocations, p. 1917, § 7, effective July 1.

Editor's note: (1) This section was similar to former § 26-4-425 as it existed prior to 2006.

(2) Subsection (9) provided for the repeal of this section, effective July 1, 2007. (See L. 2006, p. 1917.)

25.5-6-108.5. Community long-term care studies - authority to implement - alternative care facility report. (1) (a) Subject to the receipt of sufficient moneys pursuant to paragraph (c) of this subsection (1), the state department shall contract for one or more studies of the population of recipients receiving services under the home- and community-based waivers authorized pursuant to this article. The state department shall make necessary data available to the contractor, including but not limited to data on activities of daily living. In selecting a contractor to perform any study conducted pursuant to this subsection (1), the state department is not required to follow the competitive bidding requirements of the "Procurement Code", articles 101 to 112 of title 24, C.R.S. The state department shall provide copies of all studies conducted pursuant to this subsection (1) to members of the health and human services committees of the general assembly, or any successor committees, and to the members of the joint budget committee.

(b) If a study conducted pursuant to this subsection (1) concludes that a program of home- and community-based services would result in cost savings, the state department shall seek any necessary federal authorization to implement the program. If federal authorization to implement the program is obtained, the state department shall request, through the state budget process, that the program be implemented. The state department shall report to the joint budget committee annually concerning the amount of any savings realized from the program.

(c) The state department is authorized to seek and accept gifts, grants, or donations from private and public sources for the purposes of this subsection (1); except that the state department may not accept a gift, grant, or donation that is subject to conditions that are inconsistent with this subsection (1) or any other law of the state. The state department shall transmit all private and public moneys received through gifts, grants, or donations to the

state treasurer, who shall credit the same to the department of health care policy and financing cash fund created in section 25.5-1-109.

(2) (a) Subject to the receipt of sufficient moneys, one of the studies contracted for pursuant to subsection (1) of this section shall include research and analysis of:

(I) The number of recipients with incontinence, Alzheimer's disease, dementia, or other diagnoses of a chronic incapacitating condition that severely limit their activities of daily living who would benefit from receiving additional services through an alternative care facility thereby avoiding nursing home placement;

(II) The actuarially sound rate for providing services for the recipients at an alternative care facility;

(III) The amount of savings associated with providing services at an alternative care facility;

(IV) Recommendations for utilization controls or program controls for a program to provide services at an alternative care facility;

(V) The experiences of the program of all-inclusive care for the elderly, created pursuant to section 25.5-5-412, with tiered rates for alternative care facilities, including cost savings or cost avoidance;

(VI) Other states' experiences with tiered rates for alternative care facilities, including cost savings or cost avoidance; and

(VII) Recommendations for maintaining or improving quality of care.

(b) The study conducted pursuant to this subsection (2) shall be completed by January 1, 2012, and, if federal approval is obtained prior to final figure-setting for the fiscal year commencing July 1, 2012, the state department shall submit a request through the budget process for implementation of the approved changes for that fiscal year.

25.5-6-109. Community long-term care - coordinated care pilot program - federal authorization - rules - repeal. (Repealed)

Source: **L. 2006:** Entire article added with relocations, p. 1921, § 7, effective July 1. **L. 2007:** (1) and (7) amended, p. 2016, § 1, effective June 1. **L. 2010:** (2)(b) amended, (HB 10-1422), ch. 419, p. 2114, § 149, effective August 11.

Editor's note: (1) This section was similar to former § 26-4-426 as it existed prior to 2006.

(2) Subsection (7) provided for the repeal of this section, effective July 1, 2012. (See L. 2007, p. 2016.)

25.5-6-110. Private-public partnership education and information program concerning long-term care insurance authorized. (1) The general assembly hereby declares that:

(a) A large number of Coloradans are in need of long-term health care;

(b) The cost of long-term care, especially nursing home care, is significant;

(c) Many persons in need of long-term care are ineligible for state medical assistance due to countable resources. When faced with the need for long-term care, such persons expend such resources to pay for nursing home care.

(d) A person's resources may cover only a relatively short period of care, often resulting in rendering such person impoverished, and after which time the person must rely on state medical assistance;

(e) Expenditures for long-term care represent a significant portion of the state's medical assistance budget;

(f) Unless Colorado implements new methods for financing long-term care, which methods include participation by the private sector, the cost to the state for long-term care will increase astronomically; and

(g) It is therefore appropriate to enact legislation that allows the state department, upon a determination by the executive director of the state department that it is feasible, to design and implement a private-public partnership for financing long-term care in this state.

(2) The state department shall cooperate with the division of insurance in the department of regulatory agencies in a private-public partnership for financing long-term care in this state through the availability of long-term care insurance policies that result in a reduction of total dependency on the medical assistance program to finance such care. It is the general assembly's intent that such partnership shall be designed to encourage individuals to purchase long-term care insurance, which, with respect to middle to higher income individuals, will have the result of eliminating or delaying the individual's need for medical assistance.

(3) Under the partnership described in subsection (2) of this section, the division of insurance shall implement statutory changes to article 19 of title 10, C.R.S., concerning long-term care policies that the general assembly hereby declares are necessary to accomplish the purpose of the partnership described in this section. In addition, the state department is encouraged to implement a public education-awareness program based on recommendations from an advisory committee that the executive director of the state department is hereby authorized to establish.

(4) The state department is authorized to seek and accept funds, grants, or donations from any private entity for implementing the public education-awareness program. In addition, if necessary, the state department may assess a fee in connection with conducting any public education-awareness training program or seminar. Any such fee collected shall be transmitted to the state treasurer, who shall credit the same to the long-term care insurance fund, which fund is hereby created. The moneys in the fund shall be subject to annual appropriation by the general assembly for the sole purpose of public education-awareness training programs and seminars.

(5) In addition to administering the public education-awareness program under the partnership, the state department shall seek a federal waiver from the requirement of section 13612 of the federal "Omnibus Budget Reconciliation Act of 1993" (OBRA), Public Law 103-66, that prevents the state department from granting medical assistance applicants a full or partial resource exemption in determining eligibility for medical assistance and an exemption from estate recovery requirements.

(6) The state department, if funds are available, shall contract with a public or private entity to conduct an evaluation of the public education-awareness program on or before December 1, 2000.

(7) With respect to a policyholder who has allowed his or her private long-term care insurance policy to lapse, if the person is found to be eligible for the medical assistance program, the state department is authorized to pay the premium for a reinstated policy pursuant to section 10-19-107 (2), C.R.S., if the state department finds that to do so is feasible and cost-efficient.

Source: L. 2006: Entire article added with relocations, p. 1922, § 7, effective July 1.

Editor's note: This section is similar to former § 26-4-506.7 as it existed prior to 2006.

25.5-6-111. Pilot program for coordinated care for people with a disability - fund - report - rules - repeal. (1) On or before September 1, 2006, a nonprofit organization shall submit to the state department a proposal for a pilot program to improve the overall quality of care received by recipients with a disability. The nonprofit organization shall be based in Colorado and shall be governed by a board composed of persons interested in recipients with a disability that contains a majority of recipients with a disability, or familial representatives of recipients with a disability, who have experience in representing the interests of persons with a disability. The proposed pilot program shall include, but need not be limited to, the following components:

(a) A system that is a client-centered, comprehensive, integrated approach to primary, acute, and long-term care designed to reduce the incidences of emergency room visits, hospitalizations, secondary disabilities, and institutionalizations;

(b) A system for reimbursement for services that shall not have a negative impact on the budget of the state department;

(c) Operation in at least two geographic areas of the state, at least one of which shall be a rural area and at least one of which shall be an urban area;

(d) Voluntary recipient enrollment and participation in the pilot program;

(e) Voluntary provider participation in the pilot program;

(f) Provider network adequacy;

(g) Contracting with organizations capable of coordinating care for recipients with a disability that demonstrates cost savings, including but not limited to the coordination of services and maintenance of an adequate network of providers for covered services; and

(h) An evaluation of the pilot program's outcomes, including but not limited to program costs, the benefits to recipients and the state, and any net fiscal savings.

(2) (a) The state department shall review the proposed pilot program. On or before January 1, 2007, the state department shall report to the nonprofit organization that submitted the proposal pursuant to subsection (1) of this section and the health and human services committees of the senate and house of representatives and joint budget committee, or any successor committees, on the proposed pilot program. The report shall include, but need not be limited to, an analysis as to whether the proposed pilot program meets the components required by subsection (1) of this section and an identification of the type of federal authorization necessary to implement the pilot program.

(b) If the state department determines that the pilot program meets the components required by subsection (1) of this section, the state department shall request any authorization from the federal government necessary to implement the pilot program. The state department shall implement the program within six months after receipt of any necessary federal authorizations.

(3) The state board shall promulgate rules, pursuant to article 4 of title 24, C.R.S., necessary to implement the pilot program.

(4) There is hereby created in the state treasury the coordinated care for people with disabilities fund, referred to in this section as the "fund", that shall consist of moneys transferred to the fund pursuant to section 25.5-5-308 (8), any moneys that may be appropriated to the fund by the general assembly, and any gifts, grants, or donations received by the state department for the purpose of implementing this section. The moneys in the fund shall be subject to annual appropriation by the general assembly for the direct and indirect costs associated with the implementation of the pilot program. Any moneys in the fund not expended for the purpose of this section may be invested by the state treasurer as provided by law. All interest and income derived from the investment and deposit of moneys in the fund shall be credited to the fund. Any unexpended and unencumbered moneys remaining in the fund at the end of a fiscal year shall remain in the fund and shall not be credited or transferred to the general fund or another fund. If this section is repealed, prior to its repeal, all unexpended and unencumbered moneys remaining in the fund shall be transferred to the general fund.

(5) On or before January 15 of the year following the implementation of the pilot program, and on or before each January 15 thereafter, the state department shall report to the health and human services committees of the senate and house of representatives, or any successor committees, and the joint budget committee on the effects of the pilot program.

(6) If, after implementation of the pilot program, the state department can establish that the pilot program has resulted in cost savings and improved client satisfaction, subject to the approval of the joint budget committee and any necessary federal authorizations, the pilot program may be expanded into other geographic areas of the state.

(7) (a) This section is repealed, effective July 1, 2017, the fifth year following implementation of the pilot program.

(b) The state department shall notify the revisor of statutes of the date that the pilot program is implemented.

Source: L. 2006: Entire section added, p. 1115, § 1, effective May 25.

Editor's note: (1) This section was enacted as 26-4-537 in Senate Bill 06-128 but was relocated due to its harmonization with this article as it appeared in Senate Bill 06-219.

(2) The revisor of statutes received the notice required pursuant to subsection (7)(b) on April 30, 2012.

25.5-6-112. Plan of financial operation - purpose - approval - financial audits - rules - repeal. (1) (a) For the purposes of implementing section 25.5-6-111, the applicants for the pilot program shall submit a proposed plan of financial operation to the insurance commissioner, which plan shall describe the financial operation and solvency of the program.

(b) The plan of financial operation shall be developed after the applicant has given notice to the public that it will accept written comments concerning the contents of the plan from any interested party. The applicant shall consider the comments when it develops the plan. Copies of any written comments received by the applicant shall be transmitted to the insurance commissioner along with the plan of financial operation for the program.

(c) At the time that it submits the proposed plan of financial operation to the insurance commissioner, the applicant shall provide a copy of the proposed plan of financial operation to any party who has requested a copy of the plan, together with a notice that written comments on the proposed plan may be submitted to the insurance commissioner within thirty days.

(d) As part of the insurance commissioner's review of the proposed plan of financial operation, the insurance commissioner shall give due consideration to the written comments specified in paragraphs (b) and (c) of this subsection (1). Within sixty days after his or her receipt of the proposed plan, the insurance commissioner shall approve the plan of financial operation if the insurance commissioner determines that it will accomplish the purpose of ensuring the financial solvency of the pilot program in section 25.5-6-111.

(2) If the plan is not approved by the insurance commissioner, the insurance commissioner shall return the plan to the applicants with comments outlining the reasons for its rejection. The applicant shall have the ability to reorganize and resubmit the plan to the insurance commissioner within a period of time agreed to by the commissioner.

(3) (a) If, at any time after approval of the initial plan of financial operation, the applicant determines that it is necessary to amend the plan of financial operation in order to implement the purposes of this section, the applicant may amend and modify the plan of financial operation utilizing the procedures specified in subsection (1) of this section.

(b) If, at any time after approval of the initial plan of financial operation, the insurance commissioner determines that it is necessary to amend the plan of financial operation in order to implement the purposes of section 25.5-6-111 and the applicant fails to enact such amendment or amendments within a reasonable time after notice from the insurance commissioner that the amendment or amendments are necessary, the insurance commissioner shall promulgate rules necessary to amend the plan so that it implements the purposes of this section after notice and public hearing as provided in section 24-4-105, C.R.S.

(4) Any rules promulgated by the insurance commissioner pursuant to subsection (3) of this section shall continue in full force and effect until modified by the insurance commissioner after notice and public hearing or until superseded by a plan of financial operation or amendment submitted by the applicant and approved by the insurance commissioner pursuant to the provisions of this section.

(5) Not later than July 1, 2008, and July 1 of each succeeding year, the applicant shall submit an audited financial report for the program established in section 25.5-6-111 for the preceding calendar year to the commissioner in a form provided or prescribed by the insurance commissioner.

(6) The financial status of the program shall be subject to examination by the insurance commissioner or the insurance commissioner's designee. Such examination shall be conducted at least once every five years.

(7) In the event of any insolvency or impairment or dissolution of the pilot program by the general assembly, the commissioner shall have those rights and duties specified in parts

4 and 5 of article 3 of title 10, C.R.S., to ensure abatement of any delinquency or the orderly termination of the affairs and obligations of the program.

(8) This section is repealed, effective July 1, 2017, the fifth year following implementation of the pilot program created in section 25.5-6-111.

Source: L. 2007: Entire section added, p. 1352, § 2, effective May 29.

Editor's note: The revisor of statutes received notice from the state department of the date of implementation of the pilot program as referred to in subsection (8) and as required in § 25.5-6-111 (7)(b) on April 30, 2012.

25.5-6-113. Health home - integrated services - legislative declaration - contracting - definitions. (1) (a) The general assembly hereby finds and declares that:

(I) The state demographer office in the department of local affairs estimates that between 2005 and 2015, the portion of Colorado's population that is over sixty-five years of age will increase by more than twenty-three percent;

(II) This drastic increase in the population that is over sixty-five years of age is driven by the aging "baby boomer" generation and will result in a parallel increase in a demand for community long-term care services;

(III) Older adults, persons with disabilities, and their families need quality health care coverage and choice and flexibility in accessing community long-term care services that support their independence and ability to live in the least restrictive environment;

(IV) Research has shown that older adults suffer from higher rates of depression, have a higher risk of suicide, and have an increased misuse of prescription and illicit drugs, making the need for behavioral health care services essential to long-term care services;

(V) Coloradans deserve to have access to the proper level of health care;

(VI) The state needs a long-term care delivery system that addresses the needs of older adults, persons with disabilities, and their families, and health care coverage and coordination should not be fragmented or difficult to access; instead, it should be integrated to meet the needs of older adults, persons with disabilities, and their families;

(VII) A community long-term care system should be integrated, person-centered, and provide maximum service delivery and make efficient use of available public funds; and

(VIII) The system must ensure a comprehensive approach to long-term care that addresses the different demographic and geographic challenges in the state and the various long-term care services and supports that clients need.

(b) Therefore, the general assembly declares that a comprehensive approach to long-term care requires that programs and policies integrating and coordinating care under the medicaid program be flexible and allow for full participation by providers of long-term care services to ensure quality of care for clients and efficient use of limited resources.

(2) As used in this section, unless the context otherwise requires:

(a) "Dually eligible person" means a person who is eligible for assistance or benefits under both medicaid and medicare.

(b) "Health home" means a provider or group of providers that operate in coordination with a team of health care professionals that shall include primary care providers selected by an eligible individual with chronic conditions to provide health home services, as the term is defined in section 2703 of the federal "Patient Protection and Affordable Care Act", 42 U.S.C. sec. 1396w-4.

(3) (a) In determining the structure of health homes for chronic conditions for purposes of the federal "Patient Protection and Affordable Care Act", 42 U.S.C. sec. 1396w-4, and state plan amendments to the medicaid program, the state department shall include, to the extent permitted under federal law, provisions allowing providers of long-term care services and supports to participate as health homes or as part of a health home that provides:

(I) Comprehensive care management;

(II) Care coordination and health promotion;

(III) Comprehensive transitional care;

(IV) Patient and family support;

(V) Referral to community and social support services; and

(VI) The use of health information technology to link services, as is feasible and appropriate.

(b) The health home may consist of a multi-disciplinary team, including primary care management providers, behavioral health care providers, case managers, and providers of long-term care services and supports, including but not limited to single entry point agencies, nursing homes, alternative care facilities, day programs for the elderly, home care agencies, community mental health centers, hospice and palliative care centers, and community centered boards.

(4) To the extent provided under federal law, in integrating dually eligible persons, persons with chronic conditions, or persons needing long-term care services and supports in an organization with which the state department contracts pursuant to part 4 of article 5 of this title, the state department shall permit providers of long-term services and supports to contract as health homes or to provide some or all of the services provided by the organization contracted with the state department, which services may include, but need not be limited to, navigation of primary, specialty, or long-term care supports.

(5) Dually eligible clients may voluntarily elect to participate in a recognized medicare coordinated care system and may voluntarily elect to participate in the state department's medicaid coordinated care system.

Source: L. 2012: Entire section added, (SB 12-127), ch. 132, p. 453, § 1, effective April 23.

25.5-6-114. Alternative care facilities - reimbursement programs - legislative declaration - report - repeal. (1) (a) The general assembly hereby finds and declares that:

(I) The number of Coloradans needing long-term care is increasing;

(II) State general fund expenditures for long-term care already represent a significant portion of the state's medical assistance budget;

(III) Many persons in need of long-term care are often unaware that they may be able to receive long-term care services in a home-like environment, at a lower cost to the medicaid program;

(IV) Studies have been conducted informing the state that an enhanced reimbursement methodology is necessary for the establishment of a strong continuum of care for long-term care;

(V) Other alternatives to nursing home care should be developed and implemented; and

(VI) Unless Colorado implements new methods for financing long-term care, the cost to the state for long-term care services will continue to rise precipitously.

(b) Therefore, the general assembly finds that it is appropriate to establish a program to provide greater financial incentives to alternative care facilities that are able to meet the needs of medicaid clients at a lower cost to the medicaid program.

(2) In order to decrease the number of costly readmissions to nursing facilities, the state department may create an enhanced reimbursement program in which an alternative care facility receives a temporary increase in the medicaid per diem reimbursement rate for a medicaid client discharged from a nursing facility to an alternative care facility. The state department shall develop the criteria for participation in the enhanced reimbursement program.

(3) In order to address the needs of medicaid clients who are at risk of nursing home placement, the state department may also create a program, informed by prior studies, that may include, but need not be limited to, tiered-rate, acuity, and enhanced reimbursements for alternative care facilities and enhanced alternative care services. Any program created by the state department pursuant to this subsection (3) shall be budget-neutral or shall produce cost savings to the state department.

(4) As part of its annual reporting requirement, the state department shall submit a written report to the joint budget committee of the general assembly, the health and human services committee of the senate, or any successor committee, and the health and environ-

ment committee of the house of representatives, or any successor committee, concerning the design, implementation, and outcome of any program created pursuant to subsection (2) or (3) of this section.

(5) This section is repealed, effective July 1, 2015.

Source: L. 2012: Entire section added, (SB 12-128), ch. 275, p. 1452, § 1, effective August 8.

PART 2

NURSING FACILITIES

25.5-6-201. Special definitions relating to nursing facility reimbursement. As used in this part 2, unless the context otherwise requires:

(1) "Acquisition cost" means the actual allowable cost to the owners of a capital-related asset or any improvement thereto as determined in accordance with generally accepted accounting principles.

(2) "Actual cost" or "cost" means the audited cost of providing services.

(3) "Administration and general services costs" means costs in the following categories:

(a) Advertising, recruitment, and public relations, to the extent that such costs are necessary, reasonable, and patient-related;

(b) Travel and training of facility staff, unless the travel includes residents of the facility or the training is for the facility staff described in paragraph (a) of subsection (15) of this section; and

(c) All other costs that are not direct or indirect health care services, raw food costs, or capital-related assets.

(4) "Appraised value" means the determination by a qualified appraiser who is a member of an institute of real estate appraisers, or its equivalent, of the depreciated cost of replacement of a capital-related asset to its current owner. The depreciated replacement appraisal shall be based on the "Boeckh Commercial Underwriter's Valuation System for Nursing Homes". The depreciated cost of replacement appraisal shall be redetermined every four years by new appraisals of the nursing facilities. The new appraisals shall be based upon rules promulgated by the state board.

(5) "Array of facility providers" means a listing in order from lowest per diem cost facility to highest for that category of costs or rates, as may be applicable, of all medicaid-participating nursing facility providers in the state.

(6) (a) "Base value" means:

(I) For the fiscal year 1986-87 and every fourth year thereafter, the appraised value of a capital-related asset;

(II) For each year in which an appraisal is not done pursuant to subparagraph (I) of this paragraph (a), the most recent appraisal together with fifty percent of any increase or decrease each year since the last appraisal, as reflected in the index.

(b) For the fiscal year 1985-86, the base value shall not exceed twenty-five thousand dollars per licensed bed at any participating facility, and, for each succeeding fiscal year, the base value shall not exceed the previous year's limitation adjusted by any increase or decrease in the index.

(c) An improvement to a capital-related asset, which is an addition to that asset, as defined by rules adopted by the state board, shall increase the base value by the acquisition cost of the improvement.

(7) "Capital-related asset" means the land, buildings, and fixed equipment of a participating facility.

(8) "Case-mix" means a relative score or weight assigned for a given group of residents based upon their levels of resources, consumption, and needs.

(9) "Case-mix adjusted direct health care services costs" means those costs comprising the compensation, salaries, bonuses, workers' compensation, employer-contributed taxes, and other employment benefits attributable to a nursing facility provider's direct care

nursing staff whether employed directly or as contract employees, including but not limited to registered nurses, licensed practical nurses, and nurses' aides.

(10) "Case-mix index" means a numeric score assigned to each nursing facility resident based upon a resident's physical and mental condition that reflects the amount of relative resources required to provide care to that resident.

(11) "Case-mix neutral" means the direct health care costs of all facilities adjusted to a common case-mix.

(12) "Case-mix reimbursement" means a payment system that reimburses each facility according to the resource consumption in treating its case-mix of medicaid residents, which case-mix may include such factors as the age, health status, resource utilization, and diagnoses of the facility's medicaid residents as further specified in this section.

(13) "Class I facility" means a private for-profit or not-for-profit nursing facility provider or a facility provider operated by the state of Colorado, a county, a city and county, or special district that provides general skilled nursing facility care to residents who require twenty-four-hour nursing care and services due to their ages, infirmity, or health care conditions, including residents who are behaviorally challenged by virtue of severe mental illness or dementia.

(14) "Direct health care services costs" means those costs subject to case-mix adjusted direct health care services costs.

(15) "Direct or indirect health care services costs" means the costs incurred for patient support services, including the following:

(a) Salaries, payroll taxes, workers' compensation payments, training, and other employee benefits for registered nurses, licensed practical nurses, aides, medical records librarians, social workers, and activity personnel;

(b) Nonprescription drugs ordered by a physician;

(c) Consultant fees for nursing, medical records, patient activities, social workers, pharmacies, physicians, and therapies;

(d) Purchases, rentals, and costs incurred to operate, maintain, or repair health care equipment;

(e) Supplies for nurses, medical records personnel, social workers, activity personnel, and therapy personnel;

(f) Medical director fees;

(g) Therapies and other medically related services, including the following:

(I) Utilization review;

(II) Dental care, when required by federal law;

(III) Audiology;

(IV) Psychology;

(V) Physical therapy;

(VI) Recreational therapy;

(VII) Occupational therapy; and

(VIII) Speech therapy;

(h) Other patient support services determined and defined by the state board pursuant to rule;

(i) Raw food costs that do not include the costs of equipment, staff, or other costs associated with meal preparation;

(j) Malpractice insurance;

(k) Depreciation and interest for major health care equipment, such as equipment purchased for the sole purpose of providing care to facility residents; and

(l) Photocopying related to health care purposes such as medical records of patients.

(16) "Facility population distribution" means the number of Colorado nursing facility residents who are classified into each resource utilization group as of a specific point in time.

(17) "Fair rental allowance" means the product obtained by multiplying the base value of a capital-related asset by the rental rate.

(18) "Improvement" means the addition to a capital-related asset of land, buildings, or fixed equipment.

(19) “Index” means the RSMeans construction systems cost index or an equivalent index that is based upon a survey of prices of common building materials and wage rates for nursing home construction.

(20) “Index maximization” means classifying a resident who could be assigned to more than one category to the category with the highest case-mix index.

(21) “Median per diem cost” means the average daily cost of care and services per patient for the nursing facility provider that represents the middle of all of the arrayed facilities participating as providers or as the number of arrayed facilities may dictate, the mean of the two middle providers.

(22) “Minimum data set” means a set of screening, clinical, and functional status elements that are used in the assessment of a nursing facility provider’s residents under the federal medicare and medicaid programs.

(23) “Normalization ratio” means the statewide average case-mix index divided by the facility’s cost report period case-mix index.

(24) “Normalized” means multiplying the nursing facility provider’s per diem case-mix adjusted direct health care services cost by its case-mix index normalization ratio for the purpose of making the per diem cost comparable among facilities based upon a common case-mix in order to determine the maximum allowable reimbursement limitation.

(25) “Nursing facility provider” means a facility provider that meets the state nursing home licensing standards established pursuant to section 25-1.5-103 (1) (a), C.R.S., and is maintained primarily for the care and treatment of inpatients under the direction of a physician.

(26) “Nursing salary ratios” means the relative difference in hourly wages of registered nurses, licensed practical nurses, and nurses’ aides.

(27) “Nursing weights” means numeric scores assigned to each category of the resource utilization groups that measure the relative amount of resources required to provide nursing care to a nursing facility provider’s residents.

(28) “Occupancy-imputed days” means the use of a predetermined number for patient days rather than actual patients days in computing per diem cost.

(29) “Per diem cost” means the daily cost of care and services per patient for a nursing facility provider.

(30) “Per diem rate” means the daily dollar amount of reimbursement that the state department shall pay a nursing facility provider per patient.

(31) “Provider fee” means a licensing fee, assessment, or other mandatory payment that is related to health care items or services as specified under 42 CFR 433.55.

(32) “Raw food” means the products and substances, including but not limited to nutritional supplements, that are consumed by residents.

(33) “Rental rate” means the average annualized composite rate for United States treasury bonds issued for periods of ten years and longer plus two percent. The rental rate shall not exceed ten and three-quarters percent nor fall below eight and one-quarter percent.

(34) “Resource utilization groups” means the system for grouping a nursing facility’s residents according to their clinical and functional statuses as identified from data supplied by the facility’s minimum data set as published by the United States department of health and human services.

(35) “Statewide average per diem rate” means the average daily dollar amount of the per patient payments to all medicaid-participating facility providers in the state.

(36) “Supplemental medicaid payment” means a lump sum payment that is made in addition to a provider’s per diem rate. A supplemental medicaid payment is calculated on an annual basis using historical data and paid as a fixed monthly amount with no retroactive adjustment.

Editor’s note: This section is similar to former § 26-4-502 as it existed prior to 2006.

Cross references: For the legislative declaration contained in the 2008 act repealing and reenacting this section, see section 1 of chapter 383, Session Laws of Colorado 2008.

ANNOTATION

The department's rule assigning 25 of the variables required under the Boeckh system as default variables is consistent with the general assembly's mandate that the Boeckh system be the method used for property assessments. Thus, the administrative law judge did not have

authority to require three of the variables assigned as default variables to be specifically calculated. *State Dept. of Soc. Servs. v. Hillhaven Corp.*, 923 P.2d 129 (Colo. App. 1995) (decided prior to the 2006 amendments relocating article 4 of title 26 to title 25.5).

25.5-6-202. Providers - nursing facility provider reimbursement - rules - repeal.

(1) (a) (I) Subject to available appropriations, for the purpose of reimbursing a medicaid-certified class I nursing facility provider a per diem rate for the cost of direct and indirect health care services and raw food, the state department shall establish an annually readjusted schedule to pay each nursing facility provider the actual amount of the costs. The payment shall not exceed one hundred twenty-five percent of the median cost of direct and indirect health care services and raw food as determined by an array of all facility providers; except that, for state veteran nursing homes, the payment shall not exceed one hundred thirty percent of the median cost.

(II) For the fiscal year commencing July 1, 2009, and for each fiscal year thereafter, any increase in the direct and indirect health care services and raw food costs shall not exceed eight percent per year. The calculation of the eight percent per year limitation for rates effective on July 1, 2009, shall be based on the direct and indirect health care services and raw food costs in the as-filed facility's cost reports up to and including June 30, 2009. For the purposes of calculating the eight-percent limitation for rates effective after July 1, 2009, the limitation shall be determined and indexed from the direct and indirect health care services and raw food costs as reported and audited for the rates effective July 1, 2009.

(b) In computing per diem cost, each nursing facility provider shall annually submit cost reports, and actual days of care shall be counted, not occupancy-imputed days of care. In addition, in determining the median cost, the cost of direct health care shall be case-mix neutral. The cost reports used by the state department to establish the per diem cost shall be those filed with the state department during the period ending December 31 of the prior year following implementation of this subsection (1) and for each succeeding year. The state department shall redetermine the median per diem cost based upon the most recent cost reports filed during the period ending December 31 of the prior year.

(2) The state department shall further adjust and, subject to available appropriations, pay the per diem rate to the nursing facility provider for the cost of direct health care services based upon the acuity or case-mix of the nursing facility provider residents in order to provide for the resource utilization of its residents. The state department shall determine this adjustment in accordance with each resident's status as identified and reported by the nursing facility provider on its federal medicare and medicaid minimum data set assessment. The state department shall establish a case-mix index for each nursing facility provider according to the resource utilization groups system, using only nursing weights. The state department shall calculate nursing weights based upon standard nursing time studies and weighted by facility population distribution and Colorado-specific nursing salary ratios. The state department shall determine an average case-mix index for each nursing facility provider's medicaid residents on a quarterly basis.

(3) (a) Subject to available appropriations, for the purpose of reimbursing a medicaid-certified class I nursing facility provider a per diem rate for the cost of its administrative and general services, the state department shall establish an annually readjusted schedule to pay each nursing facility provider a reasonable price for the costs, which reasonable price shall be a percentage of the median per diem cost of administrative and general services as determined by an array of all nursing facility providers. For facilities of sixty licensed beds or fewer, the reasonable price shall be one hundred ten percent of the median per diem cost for all class I facilities. For facilities of sixty-one licensed beds and more, the reasonable price shall be one hundred five percent of the median per diem cost for all class I facilities.

(b) In computing per diem cost, each nursing facility provider shall annually submit cost reports to the state department, and actual days of care shall be counted, not occupancy-imputed days of care. The cost reports used to establish this median per diem cost shall be those filed during the period ending December 31 of the prior year following implementation of this subsection (3), and, for each succeeding fourth year, the state department shall redetermine the median per diem cost based upon the most recent cost reports filed during the period ending December 31 of the prior year.

(c) (I) For fiscal years commencing on or after July 1, 2008, through the fiscal year commencing July 1, 2014, the state department shall compare a nursing facility provider's administrative and general services per diem rate as determined under this subsection (3) to the nursing facility provider's administrative and general services per diem rate as of June 30, 2008, and the state department shall pay the nursing facility provider the higher per diem amount for each of the fiscal years.

(II) For fiscal years commencing on or after July 1, 2009, through the fiscal year commencing July 1, 2014, if a reallocation of management costs between the administrative and general costs described in paragraph (a) of this subsection (3) and the direct and indirect health care costs described in subsection (1) of this section causes a nursing facility provider's administrative and general costs to exceed the reasonable price established by the state department pursuant to paragraph (a) of this subsection (3), pursuant to rules adopted by the state board, a nursing facility provider may receive a higher per diem payment for administrative and general services than provided for in paragraph (a) of this subsection (3).

(III) This paragraph (c) is repealed, effective July 1, 2015.

(4) In addition to the reimbursement components paid pursuant to subsections (1) to (3) of this section, a per diem rate constituting a fair rental allowance for capital-related assets shall be paid to each nursing facility provider as a rental rate based upon the nursing facility's appraised value.

(5) Subject to available moneys and the priority of the uses of the provider fees as established in section 25.5-6-203 (2) (b), in addition to the reimbursement rate components paid pursuant to subsections (1) to (4) of this section, the state department shall make a supplemental medicaid payment based upon performance to those nursing facility providers that provide services that result in better care and higher quality of life for their residents. This amount shall be determined by the state department based upon performance measures established in rules adopted by the state board in the domains of quality of life, quality of care, and facility management. The payment shall be computed annually as of July 1, 2009, and each July 1 thereafter, and shall not be less than twenty-five hundredths of one percent of the statewide average per diem rate for the combined rate components determined pursuant to subsections (1) to (4) of this section. During each state fiscal year, the state department may discontinue the supplemental medicaid payment established pursuant to this subsection (5) to any nursing facility provider that fails to comply with the established performance measures during the state fiscal year, and the state department may initiate the supplemental medicaid payment established pursuant to this subsection (5) to any provider who comes into compliance with the established performance measures during the state fiscal year.

(6) Subject to available moneys and the priority of the uses of the provider fees as established in section 25.5-6-203 (2) (b), in addition to the reimbursement rate components pursuant to subsections (1) to (5) of this section, the state department shall make a supplemental medicaid payment to nursing facility providers who have residents who have moderately to very severe mental health conditions, cognitive dementia, or acquired brain injury as follows:

(a) A supplemental medicaid payment shall be made to nursing facility providers that serve residents who have severe mental health conditions that are classified at a level II by the medicaid program's preadmission screening and resident review assessment tool. The state department shall compute this payment annually as of July 1, 2009, and each July 1 thereafter, and it shall be not less than two percent of the statewide average per diem rate for the combined rate components determined pursuant to subsections (1) to (4) of this section.

(b) A supplemental medicaid payment shall be made to nursing facility providers who serve residents with severe cognitive dementia or acquired brain injury. The state department shall calculate the payment based upon the resident's cognitive assessment established in rules adopted by the state board. The state department shall compute this payment annually as of July 1, 2009, and each July 1 thereafter, and it shall be not less than one percent of the statewide average per diem rate for the combined rate components determined under subsections (1) to (4) of this section.

(7) Subject to available moneys and the priority of the uses of the provider fees as established in section 25.5-6-203 (2) (b), in addition to the reimbursement rate components paid pursuant to subsections (1) to (6) of this section, the state department shall pay a nursing facility provider a supplemental medicaid payment for care and services rendered to medicaid residents to offset payment of the provider fee assessed under the provisions of section 25.5-6-203. The state department shall compute this payment annually, as of July 1, 2009, and each July 1 thereafter.

(8) (Deleted by amendment, L. 2009, (SB 09-263), ch. 203, p. 912, § 2, effective May 1, 2009.)

(9) (a) The per diem amount paid for direct and indirect health care services and administrative and general services costs shall include an allowance for inflation in the costs for each category using a nationally recognized service that includes the federal government's forecasts for the prospective medicare reimbursement rates recommended to the United States congress. Amounts contained in cost reports used to determine the per diem amount paid for each category shall be adjusted by the percentage change in this allowance measured from the midpoint of the reporting period of each cost report to the midpoint of the payment-setting period.

(b) (I) Except for changes in the number of patient days, the general fund share of the aggregate statewide average of the per diem rate net of patient payment pursuant to subsections (1) to (4) of this section shall be limited to an annual increase of three percent. The state's share of the reimbursement rate components pursuant to subsections (1) to (4) of this section may be funded through the provider fee assessed pursuant to the provisions of section 25.5-6-203 and any associated federal funds. Any provider fee used as the state's share and all federal funds shall be excluded from the calculation of the general fund limitation on the annual increase. For the fiscal year commencing July 1, 2009, and for each fiscal year thereafter, the general fund share of the aggregate statewide average per diem rate net of patient payment pursuant to subsections (1) to (4) of this section shall be calculated using the rates that were effective on July 1 of that fiscal year.

(II) If the aggregate statewide average per diem rate net of patient payment pursuant to subsections (1) to (4) of this section exceeds the general fund share, the amount of the average statewide per diem rate that exceeds the general fund share shall be paid as a supplemental medicaid payment using the provider fee established under section 25.5-6-203. Subject to the priority of the uses of the provider fee established under section 25.5-6-203 (2) (b), if the provider fee is insufficient to fully fund the supplemental medicaid payment, the supplemental medicaid payment shall be reduced to all providers proportionately.

(III) Notwithstanding any other provision of law, commencing March 1, 2010, through June 30, 2010, the general fund portion of the per diem rate pursuant to subsections (1) to (4) of this section shall be reduced by one and one-half percent. Notwithstanding any other provision of law, commencing July 1, 2010, through June 30, 2011, the general fund portion of the per diem rate pursuant to subsections (1) to (4) of this section shall be reduced by two and one-half percent. The state department may, but is not required to, increase the supplemental medicaid payment pursuant to subparagraph (II) of this paragraph (b) due to this reduction; except that the provider fee shall not exceed the amount specified in section 25.5-6-203 (1) (a) (II).

(IV) Notwithstanding any other provision of law, commencing July 1, 2011, through June 30, 2012, the general fund portion of the per diem rate pursuant to subsections (1) to (4) of this section shall be reduced by one and one-half percent. The state department may, but is not required to, increase the supplemental medicaid payment pursuant to subpara-

graph (II) of this paragraph (b) due to this reduction; except that the provider fee shall not exceed the amount specified in section 25.5-6-203 (1) (a) (II).

(V) Notwithstanding any other provision of law, commencing July 1, 2012, through June 30, 2013, the general fund portion of the per diem rate pursuant to subsections (1) to (4) of this section shall be reduced by one and one-half percent. The state department may, but is not required to, increase the supplemental medicaid payment pursuant to subparagraph (II) of this paragraph (b) due to this reduction; except that the provider fee shall not exceed the amount specified in section 25.5-6-203 (1) (a) (II).

(b.3) (I) For the fiscal year commencing July 1, 2009, and for each fiscal year thereafter, if the provider fee established under section 25.5-6-203 is insufficient to fully fund the supplemental medicaid payments established under subsections (5) to (7) of this section, subject to the priority of the uses of the provider fee established pursuant to section 25.5-6-203 (2) (b), the state department may suspend or reduce the supplemental medicaid payment subject to the uses of the provider fee established under section 25.5-6-203.

(II) If it is determined by the state department that the case-mix reimbursement includes a factor for nursing facility providers who serve residents with severe cognitive dementia or acquired brain injury, the state department may eliminate the supplemental medicaid payment to those providers who serve residents with severe cognitive dementia or acquired brain injury.

(b.5) Notwithstanding any other provision of law or any federal law that temporarily increases the federal matching participation rate for any fiscal year, payments to nursing facility providers from the general fund share of the aggregate statewide average of the per diem rate shall be calculated based on a fifty-percent federal match.

(b.7) Repealed.

(c) (I) The general assembly finds that the historical growth in nursing facility provider rates has significantly exceeded the rate of inflation. These increases have been caused in part by the inclusion of medicare costs in medicaid cost reports. The state of Colorado has an interest in limiting these exceptional increases in medicaid nursing facility provider rates by removing medicare part B direct costs from the medicaid nursing facility provider rates and by imposing a ceiling on the medicare part A ancillary costs that are included in calculating medicaid nursing facility rates.

(II) For all rates effective on or after July 1, 1997, for each class I nursing facility provider, only such costs as are reasonable, necessary, and patient-related may be reported for reimbursement purposes. Nursing facility providers may include the level of medicare part A ancillary costs that was included and allowed in the facility's last medicaid cost report filed prior to July 1, 1997. Any subsequent increase in this amount shall be limited to either the increase in the facility's allowable medicare part A ancillary costs or the percentage increase in the cost of medical care reported in the United States department of labor bureau of labor statistics consumer price index for the same time period, whichever is lower. Part B direct costs for medicare shall be excluded from the allowable reimbursement for facilities.

(III) The specific methodology for calculating the limitations and cost-reporting requirements described in this paragraph (c) shall be established by rules promulgated by the state board.

(d) The reimbursement rate components pursuant to subsections (5) to (7) of this section shall be funded entirely through the provider fee assessed pursuant to the provisions of section 25.5-6-203 and any associated federal funds. No general fund moneys shall be used to pay for the reimbursement rate components established pursuant to subsections (5) to (7) of this section.

(10) The state board shall promulgate rules pursuant to the "State Administrative Procedure Act", article 4 of title 24, C.R.S., to implement this section, including establishing uniform accounting, reporting, and payment procedures consistent with this section, to determine a nursing facility provider's costs and payments to the provider.

(11) (Deleted by amendment, L. 2009, (SB 09-263), ch. 203, p. 912, § 2, effective May 1, 2009.)

25.5-6-203. Nursing facilities - provider fees - federal waiver - fund created - rules.

(1) (a) (I) Beginning with the fiscal year commencing July 1, 2008, and each fiscal year thereafter, the state department shall charge and collect provider fees on health care items or services provided by nursing facility providers for the purpose of obtaining federal financial participation under the state's medical assistance program as described in articles 4 to 6 of this title. As specified by the priority of the uses of the provider fee in paragraph (b) of subsection (2) of this section, the provider fees shall be used to sustain or increase reimbursement for providing medical care under the state's medical assistance program for nursing facility providers.

(II) For the fiscal years commencing July 1, 2009, and July 1, 2010, the provider fee shall not exceed seven dollars and fifty cents per nonmedicare-resident day. For the fiscal year commencing July 1, 2011, and each fiscal year thereafter, the provider fee shall not exceed twelve dollars per nonmedicare-resident day plus inflation based on the national skilled nursing facility market basket index as determined by the secretary of the department of health and human services pursuant to 42 U.S.C. sec. 1395yy (e) (5) or any successor index.

(III) In calculating the amount of the provider fee portion of the supplemental medicaid payments established under section 25.5-6-202 (5), the state department may include an additional amount of up to five percent of the provider fee portion of said supplemental medicaid payments to initiate the payment to any provider who complies with the established performance measures during the state fiscal year.

(b) The provider fees shall be charged on a nonmedicare-resident day basis and shall be based upon the aggregate gross or net revenue, as prescribed by the state department, of all nursing facility providers subject to the provider fee. The state department may exempt revenue categories from the gross or net revenue calculation and the collection of the provider fee from nursing facility providers, as authorized by federal law.

(c) In accordance with the redistributive method set forth in 42 CFR 433.68 (e) (1) and (e) (2), the state department shall seek a waiver from the broad-based provider fees requirement or the uniform provider fees requirement, or both, to exclude nursing facility providers from the provider fee. The state department shall exempt the following nursing facility providers to obtain federal approval and minimize the financial impact on nursing facility providers:
